DISTRIBUTION
Cannabis Business Operating Permit
NEW Application Step-by-Step Checklist

The City of Sacramento currently allows cannabis distribution in specific zones, subject to the Sacramento City Code (SCC) under Title 5 and Title 17. This step-by-step checklist provides guidance for submitting a new application for a cannabis distribution business operating permit (BOP).

1.  □ Find a Location*
   Zoned for cannabis distribution. Zones include:
   - General Commercial (C2) – under 6,400 sq.ft
   - Light Industrial (M-1 and M-1S)
   - Manufacturing Industrial Park (MIP)
   - Heavy Commercial (C4)
   - Heavy Industrial (M-2 and M-2S)
   - Manufacturing Research and Development (MRD)

   To check a property address and view the zones located within the City, please utilize this link here.

   *Note: Under State law, cannabis businesses are required to have 600-foot radius buffer zone from schools. In addition, SCC section 17.228.900 requires a 600-foot buffer from neighborhood and community parks. Applications with proposed sites that are within 600 feet of a neighborhood and community parks will be reviewed by the Planning and Design Commission.

2.  □ Apply for a Conditional Use Permit (CUP) – Planning Division
   Obtain a Conditional Use Permit (CUP) for production or distribution by submitting an application through the Planning Division’s online portal. To check if a property already has an approved CUP, please utilize this link here.

   Once a complete CUP application has been submitted, the application will receive a file number (Z file or P file) that can be used to submit the Business Operating Permit.

3. □ Apply for Building Permits – Building Department
   - Obtain a Certificate of Occupancy specific to the cannabis activity
   - All Building Department applications must be submitted online via the Building Department’s online portal. The Building Department’s public counters are open by appointment only.
4. **Apply for a Business Operating Permit (BOP) – Office of Cannabis Management**

The City of Sacramento offers five types of distribution permits:

- **D1** – Distribution permit with annual gross receipts of up to $5 million
- **D2** – Distribution permit with annual gross receipts of up to $20 million
- **D3** – Distribution permit with annual gross receipts of over $20 million
- **Type S (self-distribution)** – Add-on distribution permit for small manufacturers ONLY
- **Type T (transport-only)** – Allows for the movement of cannabis goods through the supply chain without storing, collecting taxes, or arranging for testing. A CUP for this permit type is not required because the permit does not allow for the storage of cannabis.

A BOP application may be submitted with the Z file or P file number and the required documentation through the OCM’s online permitting portal.

The application is only valid for 180 days. It will be deemed “Abandoned” if the application is not approved and the extension fee of $500 and form is not submitted before 180 days.

Walk-throughs are only scheduled on Wednesdays and are conducted by OCM, Sacramento Police Department, and Code Enforcement.
