## Fee Notes

- **Master Plans and Production Permits** (value based by square footage)
  - When a project involves the construction of the same building design (structure and floor plan) three or more times there are plan review cost savings which can be realized by using the **Master Plan Review Process**. This process involves the submission of the home designs for plan review and approval related to State and Local building code regulations as well as zoning and design standards, with no site-specific analysis. Once the Master Plan has been approved, Production permits can be issued for each instance in which the design will be constructed. Each production permit pays only 50% of the plan review fees which would conventionally be charged. In the table above, each unique design would pay a **Building Plan Review Fee** (*42% of the Building Permit Fee*), and **Planning Plan Review Fee** (*15% of initial Building Plan Review fee or \$194 minimum*) for the Master Plan. Once that design is approved, each production permit issued authorizing the construction of that design would pay the Building Master Plan Review Fee and the Planning Master Plan Review Fee.
- Additional impact fees may apply (sewer & water tap fees, housing impact fees, project area impact fees, etc.)
- Valuations based on square footage areas (inhabitable: garage/storage/balconies)
- Additional Review Fee – as needed: \$214 per hour (Building); \$234 per hour (Planning)
- School Impact Fees – fees are calculated and collected by the local school districts and proof of payment must be provided to the City in the form of a receipt (*see form [CDD-0226](#) for contact and fee information*)
- Building Permit Fee – pays field inspection costs and clerical support
- Plan Review Fees – pays plan review and office overhead
- Fire Department Inspection Fee – \$0.11 x project area with a minimum of \$169
- Fire Department Plan Review – \$149 per hour of review time
- Utilities Fee – \$205 per hour (*see form [CDD-0404](#) for residential fee information*)
- Residential Construction Tax – general fund
- Construction Water Use Fee – pays for water used during construction
- Regional Sanitation Fee – pays regional treatment plant and infrastructure costs
- County Sewer Development Fee – levied when the sewer collector pipes are owned by the county (fee paid at the county)
- Water Development Fee – pays for the development of water distribution system (may be waived in designated infill areas)
- Water Meter Fee – pays water meter costs
- City Business Operations Tax – not assessed to owner/builder (maximum \$5,000 per year)
- Construction Excise Tax – road tax .008 x Valuation (if new Sq. Ft. 2002 ICBO value table is used)
- General Plan Fee – funds City of Sacramento general plan (\$2.60 per \$1,000 of valuation)
- Green Building Fee – State fee to support Green Building
- Technology Fee – pays for technology upgrades to expedite services
