1. For class A and B tows, the Contractor will charge the vehicle owners no more than the rate of \$235.00 per tow, on Community Development Department response calls with a one hour minimum. Charges of more than one hour will be charged in no more than one (1) minute increments.
2. The total fees charged for after-hours release shall be no more than one-half (1/2) the current hourly rate of \$235.00 per hour and shall only be allowed if there is no person on duty at the storage facility for release and a call back is required outside normal business hours.

Charges shall be based on a daily rate, notwithstanding State law requirements which indicate that no charge exceeding that for one day of storage will be made if, within 24 hours after the vehicle is placed in storage, a request is made for the release of the vehicle. If the request is made more than 24 hours after the vehicle is placed in storage, charges may be imposed on a full calendar basis for each day, or part thereof. The daily rate extends from midnight to midnight.

3. Storage fees for passenger vehicles, vans, and light trucks shall be no more than \$60.00 per day. Operators will store vehicles inside if specifically requested to do so by the Police Department or the owner of the vehicle.
4. Fees listed above, plus lien processing fees described in the California Vehicle Code, proposed/actual non-skilled contract labor, special equipment (For class C and D tows only) and rental/skilled labor markup are the only fees allowed. Additive fees for postage, cleanup, lockout, use of dolly, etc. are not authorized.
5. For Class C or D operations, the contractor shall submit his/her proposed rates for towing, storage, and special operations. Fees shall be reasonable and consistent with industry standards for similar operations. Charges in excess of one hour shall be charged in one (1) minute increments. For Class C and D vehicles which are unclaimed or unsold at lien, the contractor may submit an invoice with a copy of the junk slip showing delivery to a salvage yard. In this case, the Department will pay a set fee as bid in the bid proposal that will include the cost of disposal, tow in/out and storage for the applicable class of vehicle. This fee is intended to reimburse the contractor for expenses resulting from dismantlement, special handling, and disposal of the salvaged vehicle.

1. Fees - The Chief of Code and Housing Enforcement shall determine the reasonableness of the fees for these types of operations, based upon the average of the proposed fees submitted and a comparison to industry standards for similar operations. The formula for determining the reasonableness of rates for special operations consists of averaging the rates submitted by qualified proposers for Class C, and Class D.

Fifteen percent (15%) will be added to the average of each of the rates. Rates submitted that exceed the one-hundred and fifteen percent value (115%), in any of the tests, will be considered to be excessive or unreasonable, and the proposal for those rates will be rejected. Those offerors whose pricing is determined to be "unreasonable" in accordance with the above-listed procedure, shall be offered the opportunity to submit "Best and Final" pricing. Proposers will be allowed once to resubmit disapproved rates for special operations. Disallowed rates submitted for special operations shall not disqualify the contractor from conducting Class A towing/storage for the City.

2. Mark Up Rate - The Contractor shall submit a markup rate (percentage of the cost to the operator) for retail equipment and specialized labor not otherwise listed on the application. If the contractor performs a service for which the required rate was not submitted to, and approved by the City, the contractor shall only be entitled to charge for the actual cost of that service. Example: contract labor rate not submitted; the contractor may only charge for the actual rate paid for the labor.
 3. Schedule of Rates - The approved schedule of rates charged by the Contractor shall be available in the tow truck and carried by all drivers at all times and shall be presented upon request to the person(s) for whom the tow services were provided, or his or her agent, any Sacramento Police Officer or Code Enforcement Officer, and any citizen within Sacramento. An adequate supply of these copies will be maintained at all times. These handouts will be the same as those listed in Scope of Work, Section 4(H).
 4. Rate Requirements - Represent the maximum a contractor may charge on a City call. A contractor is not precluded from charging less when deemed appropriate by the contractor. These requirements shall not be construed as requiring a charge when a contractor would not normally charge for such a service. No contractor, or his/her employee or agent, shall refer to any rate as the minimum required by the City.
 5. Rotation Tow Lists - Nothing shall prohibit a class B, C, or D operator from maintaining a place on a lighter class rotation tow list, provided the tow truck meets the equipment specifications for that class of operation.
- C. Storage – Storage shall commence at the time the vehicle arrives at the storage facility. Charges shall be based on a daily rate, notwithstanding State law requirements which indicate that no charge exceeding that for one day of storage will be made if, within 24 hours after the vehicle is placed in storage, a request is made for the release of the vehicle. If the request is made more than 24 hours after the vehicle is placed in storage, charges may be imposed on a full calendar basis for each day, or part thereof. The daily rate extends from midnight to midnight.

- D. Contractor Billing and Rates – The Contractor shall bill the registered owner of the vehicle towed by the Contractor in accordance with the Tow Services Contract. No vehicle towing or storage charges shall be charged until the vehicle is hooked up to the tow truck AND in transit.
- D. How Tow Rates are Charged – The Contractor shall base towing charges upon the class of vehicle being towed regardless of the class of truck used, except when vehicle recovery operations require a larger class truck.
- E. Services Performed – The Contractor shall charge for services pursuant to the agreed-upon rate schedule. Whenever services are requested, which are not covered by the Tow Services Contract, the Contractor shall advise the CITY or the requesting party of the estimated cost of the service before it is performed.
- F. Overcharging – Overcharging for any tow services shall be cause for suspension. The suspension will remain in effect until the Contractor has presented proof to the Chief of Police that reimbursement(s) have been made to the aggrieved customer(s). In addition, the Contractor shall be assessed a penalty of \$100 for each instance of an overcharge. Three (3) violations of this section within any twelve (12) continuous months shall result in up to a thirty (30) day suspension from the tow list.
- G. Invalid Tow - In the case of an invalid tow or similar instance where the Sacramento Community Development Department elects to pay for the towing and storage of a vehicle, the Contractor will bill the Department and not require pre-payment by the vehicle owner before releasing the vehicle. The maximum chargeable fee will be the current contracted tow fee, 5 days of storage, and Lien Processing fee.
- H. Required Vehicle Hold- In case of a required litigation hold or similar instance where the Sacramento Community Development Department or Sacramento Police Department is required to hold the vehicle, pending litigation or court order, If Community Development elects to pay for the towing and storage of a vehicle, the Contractor will bill the Department and not require pre-payment by the vehicle owner before releasing the vehicle if needed. The maximum chargeable fee will be the current contracted tow fee, 5 days of storage, and Lien Processing fee. If the City releases the vehicle to the tow company to follow their normal lien or destruction process the maximum chargeable fee no matter how long the vehicle was stored will be the normal tow fee and five days of storage. Invoices for payment must be received and submitted to the City of Sacramento within 30 days of service to receive payment from the Community Development Department. The City shall be notified and approve any delays in invoicing. The CITY may refuse payment of invoices submitted past the allowable time period.
- I. After Hours Release of Vehicles - Rates specified in Scope of Work, Section 2(A)(2).
- J. Contract Administration Fee - There is no contract administration fee.

If an officer impounds a vehicle for evidence and a rotational tow is dispatched. If this happens, it is the responsibility of the Contractor to ensure compliance with section 22655.5 of the California Vehicle code.

If it is determined that a vehicle is to be retrieved for any evidence purpose, the evidence impound tow company will respond immediately to pick up the vehicle, 24 hours a day / 7 days a week, from any rotation tow company covered by this contract.

Nothing shall prohibit the original tow company from allowing the immediate pick-up of any vehicle that has been changed to evidence impound. All associated tow fees incurred at the original tow company will remain with that company. The evidence impound tow company shall not be responsible for advance payment of any fees to the original rotation tow company.

Once the evidence impound is concluded, the vehicle shall be released to the original tow company and their fees resume from that date forward. It is the originating tow companies' discretion to accept delivery of the vehicle after the evidence impound is concluded. If delivery is declined, all tow fees associated with the original tow are forfeited and the vehicle remains with the evidence impound tow company.

If a hearing is requested, it shall be held as soon as practicable while still allowing the Contractor a meaningful time period to prepare a defense. The hearing shall be conducted by the Tow Review Committee. The hearing shall be informal, and the rules of evidence shall not apply. The Contractor shall be entitled to present all relevant facts to the Tow Review Committee in support of his/her position. The Contractor shall be notified in writing of the decision by the Tow Review Committee within ten (10) calendar days of the date of the hearing.
