

Community Calendar Graphics Guidelines

As a public entity, the City of Sacramento must comply with WCAG 2.1 AA guidelines regarding accessibility of web content. Any graphics we post need to follow certain design standards to be compliant.

Therefore we are no longer able to post flyers to our community calendar.

Instead, we can post a landscape graphic of your flyer logo or other main graphics on a flyer. Here's an example of what we mean:

- Flyers with small text no longer allowed
- Flyer is in portrait mode, not landscape mode

- Large Titles and/or logos OK
- Graphics are in landscape mode
- No small text on flyer.

If you have any questions about community calendar graphics, please contact Greg Garcia (ggarcia_1@cityofsacramento.org)
