July 1, 2024

Honorable Mayor and City Council  
Sacramento, California

Dear Mayor and Members of the City Council,

The Approved 2024-2029 Capital Improvement Program (CIP) is the City's five-year financial and strategic plan for infrastructure, deferred maintenance and facility needs. In accordance with best practice, beginning with the Proposed 2024-2029 CIP, the CIP will identify all capital needs, including projects that do not currently have identified funding or are not yet fully funded. The addition of unfunded capital needs gives Council a clearer picture of the status of the City's infrastructure and fiscal health, allows Council to prioritize infrastructure investments, and aids in the development of a comprehensive capital financing plan.

The Approved 2024-29 CIP totals \$1.9 billion in capital needs with \$0.5 billion in identified funding leaving an unfunded balance of \$1.4 billion. Funded projects in the CIP total \$483.1 million, including \$71.6 million in General/Measure U (G/MU) Funds. The fiscal year (FY) 2024/25 CIP budget totals \$115.4 million, including \$15.0 million in G/MU Funds.

The CIP reflects Council adopted policies and plans and incorporates priorities identified in the Parks Plan 2040, Parks and Recreation Programming Guide, transportation plans (Vision Zero Action Plan, Bikeway Master Plan, Pedestrian Master Plan), utility master plans, and deferred maintenance assessments (aquatics, facilities, and park maintenance). The operating and capital needs will focus on the priorities set by Council, which include but not limited to: creating affordable housing opportunities; maintaining a productive and stabilized workforce; and ensuring that programs and services are delivered safely, efficiently, and effectively.

While the capital funding gap identified in the CIP is significant, the City is not alone in this regard, as many other jurisdictions are facing similar challenges with aging infrastructure, rising costs, and a lack of dedicated funding to address capital and deferred maintenance needs. However, I am confident in our ability to meet these challenges by using the CIP as a baseline planning tool and utilizing other financial best practices to address our capital funding gap. In my eighth year as City Manager, I offer a CIP that maintains the direction expressed by Council and prioritizes investing in infrastructure that will increase operational efficiencies and benefit our

## 2024-2029 Approved Capital Improvement Program

---

community. I would like to thank the Council for your leadership and support which continue to help guide us through challenging times and fuel our collective efforts to ensure a thriving future for our City.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Howard Chan', with a stylized, cursive script.

HOWARD CHAN  
City Manager

**CAPITAL BUDGETING EXCELLENCE AWARD**

The City received the Capital Budget Excellence Award from the California Society of Municipal Finance Officers (CSMFO) for the 2023-2028 CIP. The award process includes peer reviews of cities' capital programming. Peer review methods are employed to maintain standards, improve performance, and provide credibility.

In preparing the 2024-2029 CIP document, the CSMFO award criteria were followed and it has been prepared in accordance with generally accepted accounting principles. This document will be submitted to the CSMFO for consideration for the FY2024/25 Capital Budgeting Excellence Award.

**APPROVED OVERVIEW OF THE 2024-2029 CAPITAL IMPROVEMENT PROGRAM (CIP)**

The 2024-2029 CIP was approved by the City Council on June 11, 2024. The five-year plan has 127 projects or programs with total funding of \$483.1 million from all funding sources, including \$71.6 million from the General/Measure U (G/MU) Fund. The FY2024/25 CIP budget totals \$115.4 million for 118 projects or programs, of which \$15.0 million is from the G/MU Fund.

During the budget process, the City Council made additional adjustments to the FY2024/25 CIP budget, which included suspending approximately \$3.3 million of the FY2023/24 Economic Uncertainty Reserve contribution to restore/fund various programs. Supplemental one-time funding in the amount of \$550,000 was allocated to the Measure U Park Improvements Program (L19706000) of which \$300,000 was allocated to the Youth Sports Field Maintenance and Rehabilitation for field improvements on 8-10 city parks and \$250,000 was allocated towards the Sac Northern Bike Trail Maintenance and Safety Restoration project to address safety improvements along and surrounding the area. The following table summarizes the Proposed to Approved Budget CIP changes for FY2024/25:

<b>Project Name (Number)</b>	<b>Fund Name (Number)</b>	<b>Expenditure Adjustment</b>	<b>Description</b>
Measure U Park Improvements (L19706000)	Measure U (2401)	550,000	Funding for youth sports field maintenance and bike trail maintenance.
<b>Net Project Changes:</b>		<b>\$550,000</b>	

In addition, the Youth, Parks, and Community Enrichment (YPCE) Department requested a name change, for the bike trail project, to better align with the funding needs and scope of work for this project and determined Sac Northern Open Space Maintenance and Safety Restoration is suitable for this project.

**PROPOSED OVERVIEW OF THE 2024-2029 CAPITAL IMPROVEMENT PROGRAM (CIP)**  
(as written on April 30, 2024)

The CIP is a comprehensive five-year plan that identifies current and future fiscal requirements and is the basis for determining annual capital budget expenditures. Capital improvements are major projects or programs including the procurement, construction, or installation of facilities or related equipment intended to improve, preserve, enhance, or modernize the City's delivery of municipal services. A capital project has a useful life of at least five years and a total cost of at least \$20,000.

The City is facing significant financial challenges for the coming fiscal year (FY), including a structural imbalance between City operating costs and available resources. The FY2024/25 Proposed Operating and CIP Budget begins to address this structural deficit while maintaining core City services and advancing Council priorities. The major goals of the CIP are to adhere to federal, state, and local mandates/laws and to strategically leverage resources to maintain or improve the City's assets. The five-year plan includes 126 CIPs with estimated total funding of \$482.5 million from all funding sources, of which \$71.0 million is from the G/MU Fund. The FY2024/25 CIP budget totals \$114.9 million funding 117 projects or programs, of which \$14.5 million is from the G/MU Fund.

**Unfunded Capital Needs**

A new section identifying unfunded capital needs was added to the CIP. The intent of the new section is to provide a comprehensive list of the City's unfunded capital needs. This list along with the CIP will identify all of the City's capital needs and show which projects need funding.

In the past, departments have conducted their own needs assessments and created internal unfunded capital lists. For example, the Facilities and Real Property Management Division, of the Department of Public Works, manages maintenance, repairs, deferred maintenance capital improvements and construction for over 400 building structures Citywide. In FY2017/18, the City of Sacramento hired a consulting firm comprised of architects and engineers specializing in facility infrastructure analysis to conduct a comprehensive evaluation of 200 or 50% of the City's buildings. The consultant prepared a Facility Condition Assessment (FCA) for each of the selected facilities. The outcome of the FCA provided an estimate of \$56 million over a 10-year period. The FCA did not include the remaining 200 facilities managed by the Facilities and Real Property Management Division nor did it address ongoing preventive maintenance programs, long term planning, end of building life/replacement or required staffing levels to address the unfunded capital needs. Other departments have also conducted similar assessments, but it was never a Citywide effort. By tracking these efforts through the CIP, the City will be able to quickly identify all capital needs and plan for future fiscal years.

Currently, staff has identified unfunded capital needs totaling approximately \$9.3 billion for City infrastructure, facilities, and vehicles over the 5-year CIP and beyond for future projects and addressing the backlog of deferred maintenance Citywide.

---

## 2024-2029 Approved Capital Improvement Program

---

The Capital Improvement Plan classifies unfunded capital needs into three categories: Category A, Unfunded Deferred Maintenance which consist of necessary maintenance and repairs, Category B, Unfunded New Assets relating to external forces or regulatory requirements, and Category C, Major Projects Outside the 5-year CIP.

The following tables summarize the unfunded needs identified during development of the FY2024/29 Proposed CIP and beyond. This is in addition to the current funding established for existing FY2024/29 CIP projects or programs. Further analysis and refinement of the unfunded capital estimates would be required before funding is requested. More information on unfunded capital needs can be found in Section J.

Unfunded Capital Needs		
Category	All Funds	General & Measure U
Category A	\$1,077,304,251	\$60,645,724
Category B	\$311,341,000	\$142,688,200
Category C	\$7,948,600,000	\$601,120,000
<b>Total</b>	<b>\$9,337,245,251</b>	<b>\$804,453,924</b>

Funded Capital Allocations for Existing Projects		
Funding Year	All Funds	General & Measure U
FY 2024/25	\$115,418,117	\$15,091,664
<b>5-Year Total</b>	<b>\$483,086,190</b>	<b>\$71,558,382</b>

### **2024-2029 CIP**

The following summarizes major program areas with project funding included in the 2024-2029 CIP. Detailed information on CIPs proposed to be funded within the five-year plan is included in the project detail sheets in each program area.

#### **General Government – Section D**

The five-year General Government Program continues to reflect the City’s commitment to focus limited resources toward existing facilities and programs including the City Facility Reinvestment Program (C13900000, \$11.0 million) and the Facility Americans with Disabilities Act (ADA) Compliance Program (C13000400, \$3.0 million).

The FY2024/25 budget for the General Government Program includes \$5.0 million for 17 projects or programs. The five-year plan totals \$21.5 million for the same number of projects or programs.

#### **Public Safety – Section E**

The Public Safety Program reflects the City’s efforts to provide/replace body worn cameras, police safety equipment, ambulances, fire vehicles, fire safety equipment, and generators for public safety facilities. The five-year plan includes funding for the Fire Apparatus Program (F12000300, \$15.0 million), the Body Worn Camera and Conductive Electrical Device

Program (F11100500, \$10.5 million), the Advanced Life Support Equipment Program (F12000200, \$7.0 million), the Police Safety Equipment Program (F11100800, \$5.0 million), the Fire Safety Equipment Program (F12000500, \$4.3 million), and the Police Department IT Critical Infrastructure Program (F11100600, \$1.0 million).

The FY2024/25 budget for the Public Safety Program totals \$10.0 million for eight projects or programs. The five-year plan totals \$48.5 million for the same number of projects or programs.

**Convention, Culture, and Leisure – Section F**

The Convention, Culture, and Leisure Program promotes and preserves the City’s unique cultural heritage by delivering accessible arts, leisure, and educational experiences to enrich people's lives and enhance the metropolitan area. The Convention, Culture, and Leisure Program is designed to enrich the quality of life and to contribute to a vibrant metropolitan region by providing exceptional cultural, artistic, and leisure opportunities.

Major projects and programs receiving funding in the five-year plan include the Community Center Improvements Program (M17100000, \$4.1 million); the Performing Arts Center Improvements Program (M17101800, \$3.9 million); and the Memorial Auditorium Improvements Program (M17101000, \$735,000).

The FY2024/25 Convention, Culture, and Leisure Program totals \$2.4 million for six projects or programs. The five-year plan totals \$9.9 million for ten projects or programs.

**Parks and Recreation – Section G**

The Parks and Recreation Program provides residents with significant personal, social, environmental, and economic benefits. Developing and rehabilitating existing parks and facilities, with a focus on park safety and sustainability, is a high priority for the City.

One of the major projects receiving funding is the North Natomas Regional Park Ballfield Lighting Project (L19140700, \$2.0 million). This project will utilize Park Impact Fee revenues to support installation of additional lighting to the ball fields in order to allow extended hours of use.

In FY2024/25, a total of \$5.6 million will be programmed to 15 new and/or ongoing projects or programs. The five-year plan totals \$6.6 million for the same number of projects or programs.

**Transportation – Section H**

The Transportation Program uses available local transportation funds to support specific programs and leverages state and federal funds for larger transportation improvements where possible. The largest program addresses corridor improvement needs using road maintenance and repair funding received with the implementation of the 2017 Road Rehabilitation and Accountability Act, also known as Senate Bill 1 (SB 1). With limited

resources, the Transportation Program focuses on key objectives for maintenance, safety, active transportation, equity, and mobility of the overall transportation network.

The Transportation Program is divided into six subprograms: Active Transportation (pedestrian, bikeway, lighting, and streetscape improvements); Bridges and Major Transportation Improvements (bridge replacement and rehabilitation and other major roadway construction); Maintenance (overlays and seals); Parking (parking facility maintenance and upgrades); Public Rights-of-Way Accessibility (curb ramps, markers, and other accessibility improvements); and Traffic Operations and Safety (safety improvements, Traffic Operations Center, traffic calming, pedestrian safety, and major street light replacement).

Major projects and programs receiving funding in the five-year plan include: the Transportation Corridor Program (R15200000, \$75.7 million); the State and Federal Grant Match Program (T15007200, \$11.8 million); the Active Transportation Program (T15180400, \$11.2 million); the Vision Zero Safety Program (S15184100, \$9.9 million); and the Franklin Boulevard Complete Street Project (T15165500, \$8.4 million).

In FY2024/25, a total of \$54.8 million, which includes \$27.0 million in State and Federal grants, will be programmed in 37 projects or programs. The five-year plan totals \$160.4 million, which includes \$27.0 million in State and Federal grants, for the same number of projects or programs.

### **City Utilities – Section I**

The City Utilities Capital Improvement Program supports projects in four service areas including Recycling and Solid Waste, Storm Drainage, Wastewater, and Water. It is devoted to regulatory compliance, the improvement, rehabilitation, and replacement of the utility infrastructure, improvement or development-related projects, and ongoing facility-related issues. Funding sources include rate-payer funding for each service area and impact fees for water improvement or development-related projects. Major programs receiving funding in the five-year plan include the Water+ Program (Z14190100, \$21.7 million), the Reservoir Rehabilitation Program (Z14130500, \$28.7 million), the Combined Sewer System Pipe Program (X14170100, \$23.0 million), the 28th Street Landfill Regulatory Compliance Upgrades Program (Y15000100, \$5.6 million), and the Drainage Facility Electrical Rehabilitation Program (W14230200, \$9.3 million).

The FY2024/25 budget for the City Utilities Program totals \$37.5 million for 35 projects or programs. The five-year plan totals \$236.2 million for 40 projects or programs.

# **How to Read This Document**

## **KEY SECTIONS**

The CIP contains the following key sections.

### **Section A**

Budget Schedules – summarize capital funding by the one-year budget (FY2024/25) and the five-year plan by funding source and by program area.

### **Section B**

Sacramento Area Maps – identifies the city limits with Council District, Community Plan Area, Shovel-Ready Area, Neighborhood Commercial Revitalization Area, and Bikeway maps.

### **Section C**

General Plan Consistency – summarizes planning policies, major development projects, and planned public improvements in the 2024-2029 CIP.

### **Sections D-I**

Program Area Summaries – groups individual capital projects by major program area and includes goals and project selection criteria, project budgets, how they will be funded, program issues (including in some cases unmet needs), program long-range plans, and detail sheets for those projects that include budgeted resources through FY2023/24 and a budget plan for FY2024/25 through FY2028/29. Additional section-specific information may be found on page 11.

### **Section J**

Capital Unfunded Needs – refers to projects identified in approved City policy documents as needed or desired where funding is currently unavailable to complete the project.

### **Section K**

Description of Major Funding Sources – provides the following information on funding sources: (a) restrictions on the use of the funds; (b) legislation governing the use of these funds; (c) five-year historical CIP programming; and (d) a summary of how those funds have been expended.

### **Sections L-O**

Indexes – provide funding information for the FY2024/25 CIP by Funding Source (Index L), by Program Area (Index M), and for all active and new projects included in the 2024-2029 CIP by City Council District (Index N) and by Project Number (Index O).

### **Section P**

Resources – contains definitions of commonly used terms or concepts and links to various planning documents used to rate and create this CIP.

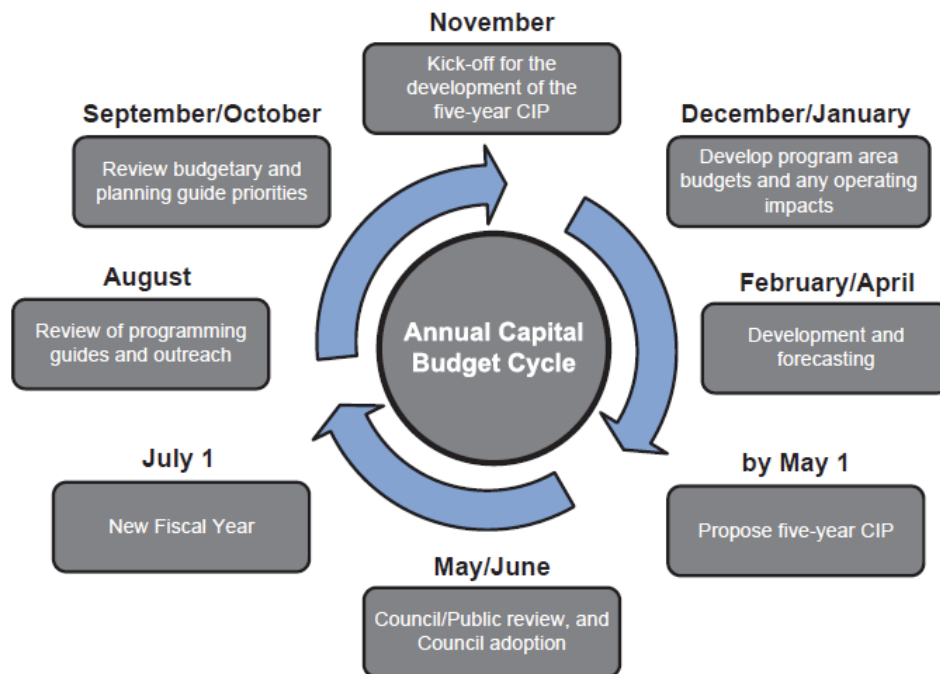

**KEY SECTIONS - continued**

**Section Q**

Resolution – provides the authority from City Council to implement the FY2024/25 CIP budget and the guidelines for administration of CIPs.

**THE BUDGET PROCESS**

The City engaged and educated the community on the budget process and the City’s financial challenges by completing a community budget survey, conducting community meetings, and facilitating discussions at the Budget and Audit Committee (Committee) and Council meetings from February through April. The following graphic represents the City’s budget/program planning cycle:

The City’s fiscal year is July 1 through June 30. As such, the Council adopts the City's operating and capital budgets for a single fiscal year beginning July 1 and ending June 30 in the subsequent calendar year.

**THE CIP REVIEW PROCESS**

Each project proposal is scrutinized through a variety of approaches before it is included in the CIP. CIPs included in the five-year program are identified by department staff based upon: 1) input from the community received at neighborhood meetings during the year; 2) input from the City Council on needs that develop or are identified during the year; 3) City Council approved master plans and guides for growth, improvements, and rehabilitation for specific programs; 4)

adopted criteria for selecting projects to meet the City Council's goals; and 5) staff-identified projects based on critical need due to safety issues or to comply with new mandates. Specific documents used in the capital planning process, such as the Sacramento *2040 General Plan* or the *Transportation Priorities Plan (TPP)*, are referenced in Section P (Resources) of this book.

All projects are reviewed first by the responsible operating departments. Utilizing the resources available, e.g., *City Facility Condition Assessment*, CIPs are scored, ranked, prioritized, and presented for funding based upon the level of funding estimated to be available for the coming fiscal year and subsequent fiscal years. Generally, projects are prioritized as follows: 1) they are mandated by law or Council policy; 2) they are crucial for public/staff safety or health; 3) funding is or has become available for them; 4) they represent an advantageous opportunity with a restricted timeframe; 5) they increase efficiency or effectiveness of City services; or 6) they enrich or expand City services or assets by maintaining or keeping facilities competitive, safe, and contributory towards increasing revenues.

Top priority has been given to those projects that have a positive effect on operations. In most cases, there is no negative operating impact because the project generates future cost savings or is offset by revenue. For details about ranking and scoring criteria, please refer to the program area's programming guide referred to in the Glossary and Resources section. Departments submit the proposed projects to the Budget, Policy & Strategic Planning Division of the Finance Department. The Division then reviews and creates maps of the proposed projects or programs through geographic information systems (GIS) and prepares the CIP for submittal to the City Council no later than 60 days prior to the start of the new fiscal year.

The proposed CIP is presented, discussed, and acted upon by the City Council in public session during the budget hearings. Members of the community may comment on the proposed CIP and provide input to the City Council during the hearing process. The City Council can make changes to the proposed CIP and then may act on final project approval for inclusion in the approved CIP and Operating Budgets.

### **GENERAL PLAN CONSISTENCY – SECTION C**

All projects are reviewed by the Community Development Department's Planning Division staff and the Planning and Design Commission for consistency with the City's General and Specific Plan policies (City Code Chapter 17.912.010). In general, capital programming is proposed in accordance with existing approved master plans and planning guides, and then is evaluated and ranked based upon priorities identified in those plans and guides.

Priorities may be ranked on items such as:

- Adherence to state and/or federal law
- Adopted City Council policies
- Availability of funding

- Public health and safety
- The *2040 General Plan*
- Public input
- Support of economic development
- Support of infill development
- Project feasibility

**PROGRAM AREA SUMMARIES – SECTIONS D-I**

This document includes program area summaries and detailed project pages for projects being funded within those program areas during the five-year plan. The summaries include program goals and criteria used to select projects to meet those goals (project selection criteria); a summary of planned spending; a five-year plan; a summary of projects by fund; and maps detailing each site-specific project location for FY2024/25 funded projects.

Six program areas are presented within the CIP. Each program area includes subsections that are divided alphabetically, and in turn these subsections include several different projects. Each project is assigned a letter and eight-digit code when it is approved for funding. The first digit of this code reflects the alphabetical letter assigned to the subsection in which the project is included. Individual projects are detailed in their respective program areas.

**Program Area – Section of CIP**

**General Government – Section D**

- A – Technology
- B – New Buildings
- C – Facility Improvements
- D – General Government

- V – Parking

**City Utilities – Section I**

- W – Storm Drainage
- X – Wastewater
- Y – Solid Waste
- Z – Water

The discussion of an individual capital program area generally begins with summary information on total program expenditures and the major projects that make up the bulk of those

---

## 2024-2029 Approved Capital Improvement Program

expenditures, the planning documents referenced when identifying projects, the funding sources to support the projects, and issue statements that highlight significant unresolved fiscal and program policy issues. Each project funded in the five-year plan is summarized within a project detail page.

### Detail Pages

The purpose of the detail page is to provide the City Council with enough information to approve the projects or ongoing programs.

An example of a detail page is presented on the following pages to describe the information available.

### City of Sacramento

## Capital Improvement Program

① T15145300

② Project Name **AUBURN BOULEVARD BRIDGE REPLACEMENT**

③ Project Description Replace the bridge on Auburn Boulevard at Winding Way over Arcade Creek.

④ Project Objectives Replace the bridge and provide standard lane and shoulder widths.

⑤ Existing Situation The bridge has substandard lane widths, shoulders, and sidewalks.

⑥ Operating Budget Impact New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

⑦

Fund	Fund Description	As of 2/2024		2024/25	2025/26	2026/27	2027/28	2028/29
		Budget	Unobligated					
2001	MEASURE A - CONSTR.	\$104,649	\$0	\$0	\$0	\$0	\$0	\$0
2007	MAJOR STREET CONSTR.	\$693,681	\$321,325	\$0	\$0	\$0	\$0	\$0
3702	CAPITAL REIMBURSEMENT	\$1,200,000	\$1,200,000	\$0	\$0	\$0	\$0	\$0
3703	FEDERAL CAP. GRANTS	\$1,435,070	\$29,899	\$8,170,876	\$0	\$0	\$0	\$0
Total		\$3,433,400	\$1,551,225	\$8,170,876	\$0	\$0	\$0	\$0

⑧

- Project Number ① and Name ②: The project or program alpha/numeric identifier and its corresponding name. Both would be referenced when putting the project to bid or with any City Council action. The numbering sequence reflects the alphabetical letter assigned (as described on the prior page) and an eight-digit unique numeric identifier. The leading digits reflect the responsible department (refer to the following chart), followed by unique identifiers assigned by the responsible department and generally ending in "00."

**Responsible Department**

<b>Leading Digits</b>	<b>Department Name</b>	<b>Leading Digits</b>	<b>Department Name</b>
01	Mayor/Council	11	Police
015	City Auditor	12	Fire
02 or 18	City Manager	13 or 15	Public Works
03	City Attorney	14	Utilities
04	City Clerk	17	Convention and Cultural Services
05	City Treasurer	19	Youth, Parks, and Community Enrichment
06	Finance	21	Community Development
07	Information Technology	23	Community Response
08	Human Resources		

- In this example, “T” refers to a street improvement project, and “15” signifies that the department responsible for the project is the Public Works Department. The next four digits are unique and assigned by the department. The last two digits, “00,” signal that this is a parent project. A parent project has budget appropriation authority and will be identified in bold in all the indexes.
- The CIP name may be classified into two categories: project or program.
  - CIP projects are typically site-specific and have a defined budget and completion date.
  - CIP programs are used for ongoing funding for similar improvements that will be constructed at multiple locations based on the availability of annual funding at locations identified through master plans, planning guides, and replacement programs (e.g., the Groundwater Protection Program, Fire Apparatus Program, and Bikeway Program). CIP programs usually contain “Program” in the title, are generally not site specific, and do not typically have a defined completion date.
- ③ Project Description: A brief but specific scope of the project. The scope of an existing CIP description may include only the preliminary aspects of a project such as master planning or environmental review. In such projects, additional funding and a new CIP approved by the City Council are required to fully develop the project. Other projects may include the development of Phase I of a new facility or of the entire project. The level of funding and the project scope description in the CIP determine the parameters of the project at that point in time.
- ④ Project Objectives: The purpose or scope of the project.

- ⑤ Existing Situation: The circumstances that result in the need for the project, including any pertinent history.
- ⑥ Operating Budget Impact: The estimated annual operating impact of the completed project. Operating and maintenance costs or savings that are significant and quantifiable are identified. Due to limited resources, most CIPs are for the repair and/or replacement of existing assets and thereby do not result in significant or quantifiable operating budget impacts. If the impact can be absorbed by the existing operating budget or if it is a repair or rehabilitation project, “none” is the response. If the impact is quantifiable, it is noted on the detail sheet, e.g., “Operating costs related to generator maintenance are estimated to be \$800 per year, per generator.”
- ⑦ Project Costs: For each funding source, the amount of current budget, the unobligated budget as of February 2024, and the funding request for each year of the five-year program. The CIP is a five-year plan with a one-year budget. As such, dollars shown are based on the current value of the dollar and adjusted annually. A project must have an identified source (or sources) of funding to be included in the CIP. Many funding sources have restrictions as to how they may be used, as described in the Description of Major Funding Sources section.
  - Note: The following reimbursable funds are included within the CIP for planning purposes, but budgets are not appropriated in the fiscal year until all grant and/or award documents have been signed. These include grant funds (Funds 3702, 3703, and 3704) and City utility grant/reimbursable funds (Funds 6205, 6206, 6207, and 6211).
- ⑧ Funding Years: The five-year CIP includes a fiscal year budget (in this example it is FY2024/25) and four fiscal years of planned programming (2025/26, 2026/27, 2027/28, and 2028/29).

## 2024-2029 Approved Capital Improvement Program

<b>2024 - 2029 Funding</b>	\$8,170,876	
<b>Est. Project Cost</b>	\$11,604,276	⑨
<b>FY2024/25 Funding</b>	\$8,170,876	
<b>Prior Expenditures</b>	\$1,882,175	

**Project Start Date** May 2014 ⑩  
**Est. Complete Date** December 2026

- ⑪ Council District 2
- ⑫ Plan Area 7
- ⑬ Project Location Auburn Boulevard Over Arcade Creek, Near Winding Way
- ⑭ Project Manager Public Works, Zuhair Amawi

- ⑨ Funding Summary: The CIP plan presents the City's blueprint for funding critical capital projects based on resource availability and Council's capital investment priorities using current year costs. The five-year funding plan identifies total estimated project cost, funding for the following fiscal year, and a cumulative total of prior expenditures. Funding for future years is based on the current year's estimated availability of resources. Only the projects included in the first year of this plan (e.g., the Capital Budget) are legal appropriations. The second through the fifth years represent the City's best estimate of a reasonably fundable plan for capital improvements subject to the availability of resources using current year costs.
- ⑩ Timelines: Capital projects will include a Project Start Date and an Estimated Completion Date; however, capital programs will not include a timeline for completion as they are ongoing in nature. Timelines, in light gray, will include a dark gray bar as the Elapsed Time passes or Percentage Complete increases. New capital projects approved for the start of a new fiscal year will reflect 0% completion, but the elapsed time will reflect the current elapsed time of the project at the time the budget is printed.
- ⑪ Council District: The number of the City Council district in which the project is located.
- ⑫ Plan Area: The number(s) of the Community Plan Area(s) in which the project is located (e.g., South Natomas, Pocket, Central City, South Area). Plan areas are defined in the *2040 General Plan*. A map of these plan areas is included in the Sacramento Area Maps Section of this document.
- ⑬ Project Location: Street address, intersection, building name, or another identifier.

- ⑭ Project Manager: The name of the department and/or the individual project manager responsible for delivering the capital project.

The City Charter requires that the City Council adopt a budget for operations and capital improvements on or before June 30 each year. In adopting a five-year capital plan, the City is allowing for prudent and longer-term planning and allocation of resources for its facility and infrastructure needs.

### **UNFUNDED CAPITAL NEEDS – SECTION J**

Unfunded capital needs refer to projects identified in approved City policy documents as needed or desired where funding is currently unavailable to complete the project. This report conveys the City’s unfunded capital needs within the context of the upcoming fiscal year. The unfunded capital needs are analyzed over a five-year period for each of the City’s six CIP program areas: General Government; Public Safety; Convention, Culture, and Leisure; Parks and Recreation; Transportation; and Utilities. The Capital Improvement Plan classifies unfunded capital needs into three categories: Unfunded Deferred Maintenance, Unfunded New Assets, and Major Projects Outside the 5-year CIP.

### **DESCRIPTION OF MAJOR FUNDING SOURCES – SECTION K**

A summary of the 2024-2029 CIP resources by funding source. This section gives a brief history of each major fund, the restrictions to its use, examples of where the funds have been previously allocated, and a five-year synopsis of prior funding.

### **INDEXES – SECTIONS L-O**

Programs or projects receiving new funding for FY2024/25 or proposed for future fiscal years are listed in Index L by funding source. Index M provides a similar list, organized by program area. In addition to projects or programs receiving funding identified in the 2024-2029 CIP, there are many continuing programs or projects that have remaining budget authority. These are listed in Index N by City Council district and Index O by project number. Parent CIPs will be listed (in bold) as well as any child or subproject (in italics) established under the scope of the parent CIP.

### **RESOURCES – SECTION P**

Included in this section is a list of frequently used acronyms, a glossary, an index, and additional resources that were used as references in the development of the Program Area sections.

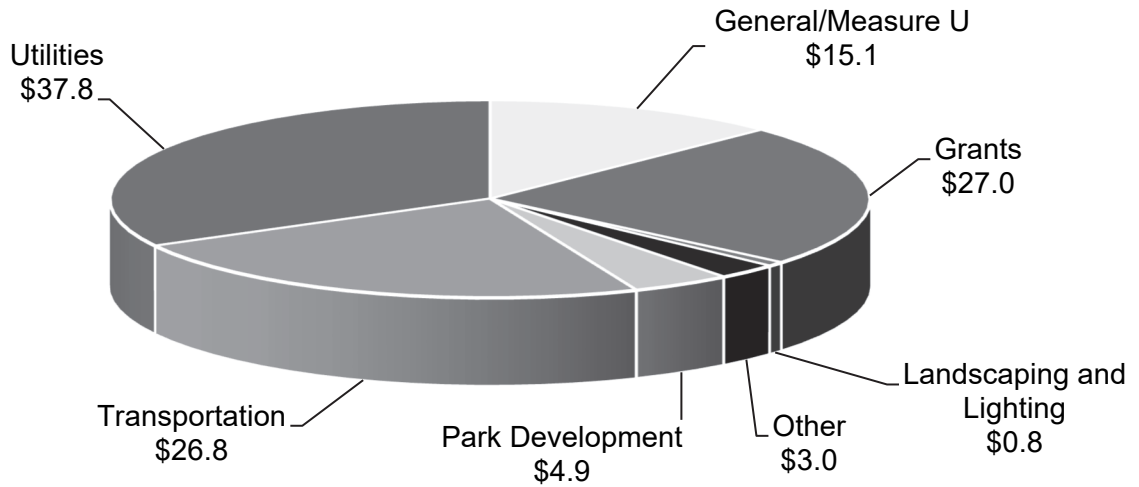

### **RESOLUTION – SECTION Q**

The City Council annually approves the operating and capital budgets. Section Q holds the record of City Council approval.

**SECTION – A**  
**Budget Schedules**

**Schedule 1  
Capital Budget by Fund**

**FY2024/25 Capital Improvement Program  
\$115.4 Million**

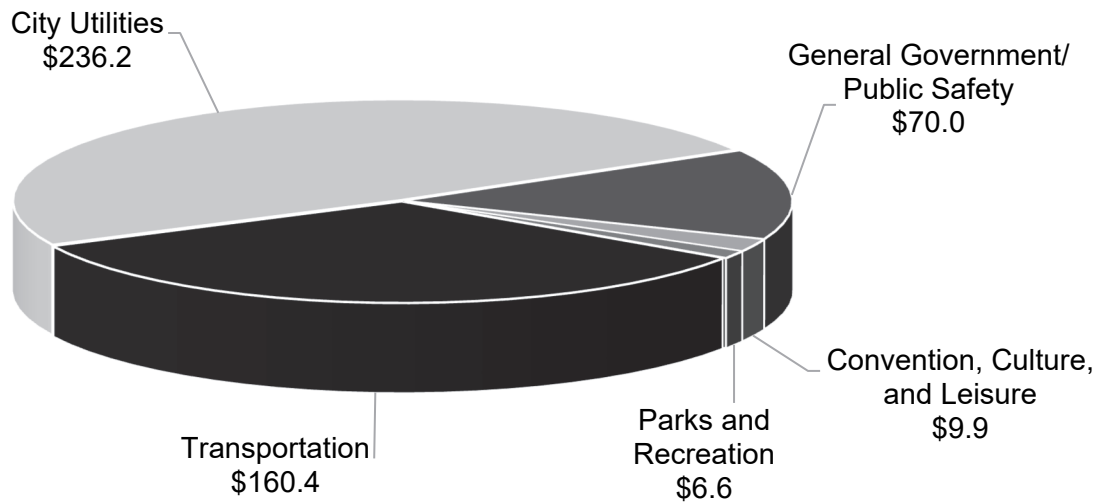

**2024-2029 Capital Improvement Program  
\$483.1 Million**

**Schedule 2**  
**Capital Budget by Program Area**  
**FY2024/25 Capital Improvement Program**  
**\$115.4 Million**

**2024-2029 Capital Improvement Program**  
**\$483.1 Million**

Note: The total reflected for each program area includes all funding sources for those projects.

### BIKEWAYS

**SECTION – C**  
**General Plan Consistency**

## **INTRODUCTION**

There are five newly created site-specific projects in the 2024-2029 CIP. All five site-specific CIPs relate to park improvements, including new installation and the restoration of restroom facilities, lighting infrastructure, and restoration of a basketball court.

An analysis is performed annually to determine the consistency of the CIP with the *2040 General Plan's* goals and policies. The analysis also looks at the Shovel-Ready Sites Program to gauge consistency with investments in opportunity areas.

The *2040 General Plan* anticipates that much of the City's growth will occur as infill. Infill development reutilizes existing urban areas for new construction. In October 2009, the City Council approved the Shovel-Ready Sites Program's Tier 1 and Tier 2 priority areas to help implement the infill goals and policies, and to align programming guide criteria and CIP funding to focus resources toward new infrastructure projects in priority shovel-ready areas Resolution No. 2009-0629.

In addition to identifying opportunities for growth, the *2040 General Plan* also includes goals and policies that support a city of healthy, livable, "complete neighborhoods" that provide for residents' daily needs within easy walking or biking distance from home. Therefore, it is important to balance investment in shovel-ready areas with the maintenance of established communities. As such, projects continue to be identified in the Shovel-Ready Sites Program's Tier 1 and 2 priority areas while balancing the needs of existing neighborhoods.

## **SHOVEL-READY AREAS**

One key to consistency with the *2040 General Plan* lies in the relationship between the CIP and the Shovel-Ready Areas. The Shovel-Ready Areas identify priority areas for city investment and were based on opportunity areas adopted by City Council in 2009 and evaluated in the General Plan. Focusing growth and investment in the Shovel-Ready Areas will help Sacramento grow consistent with the vision, goals, and policies set forth in the General Plan.

The lists below and the following map identify the shovel-ready opportunity areas identified as either Tier 1 or Tier 2 and were used to help inform the General Plan consistency finding.

### **Tier 1 Priority Area Sites (highest priority)**

- Central City
- Swanston Station, Arden Fair, Point West, Cal Expo
- 65<sup>th</sup> Street/University Village, Sacramento Center for Innovation (south of CSUS and west of Power Inn Road), Granite Regional Park
- Florin Road
- Delta Shores

### **Tier 2 Priority Area Sites**

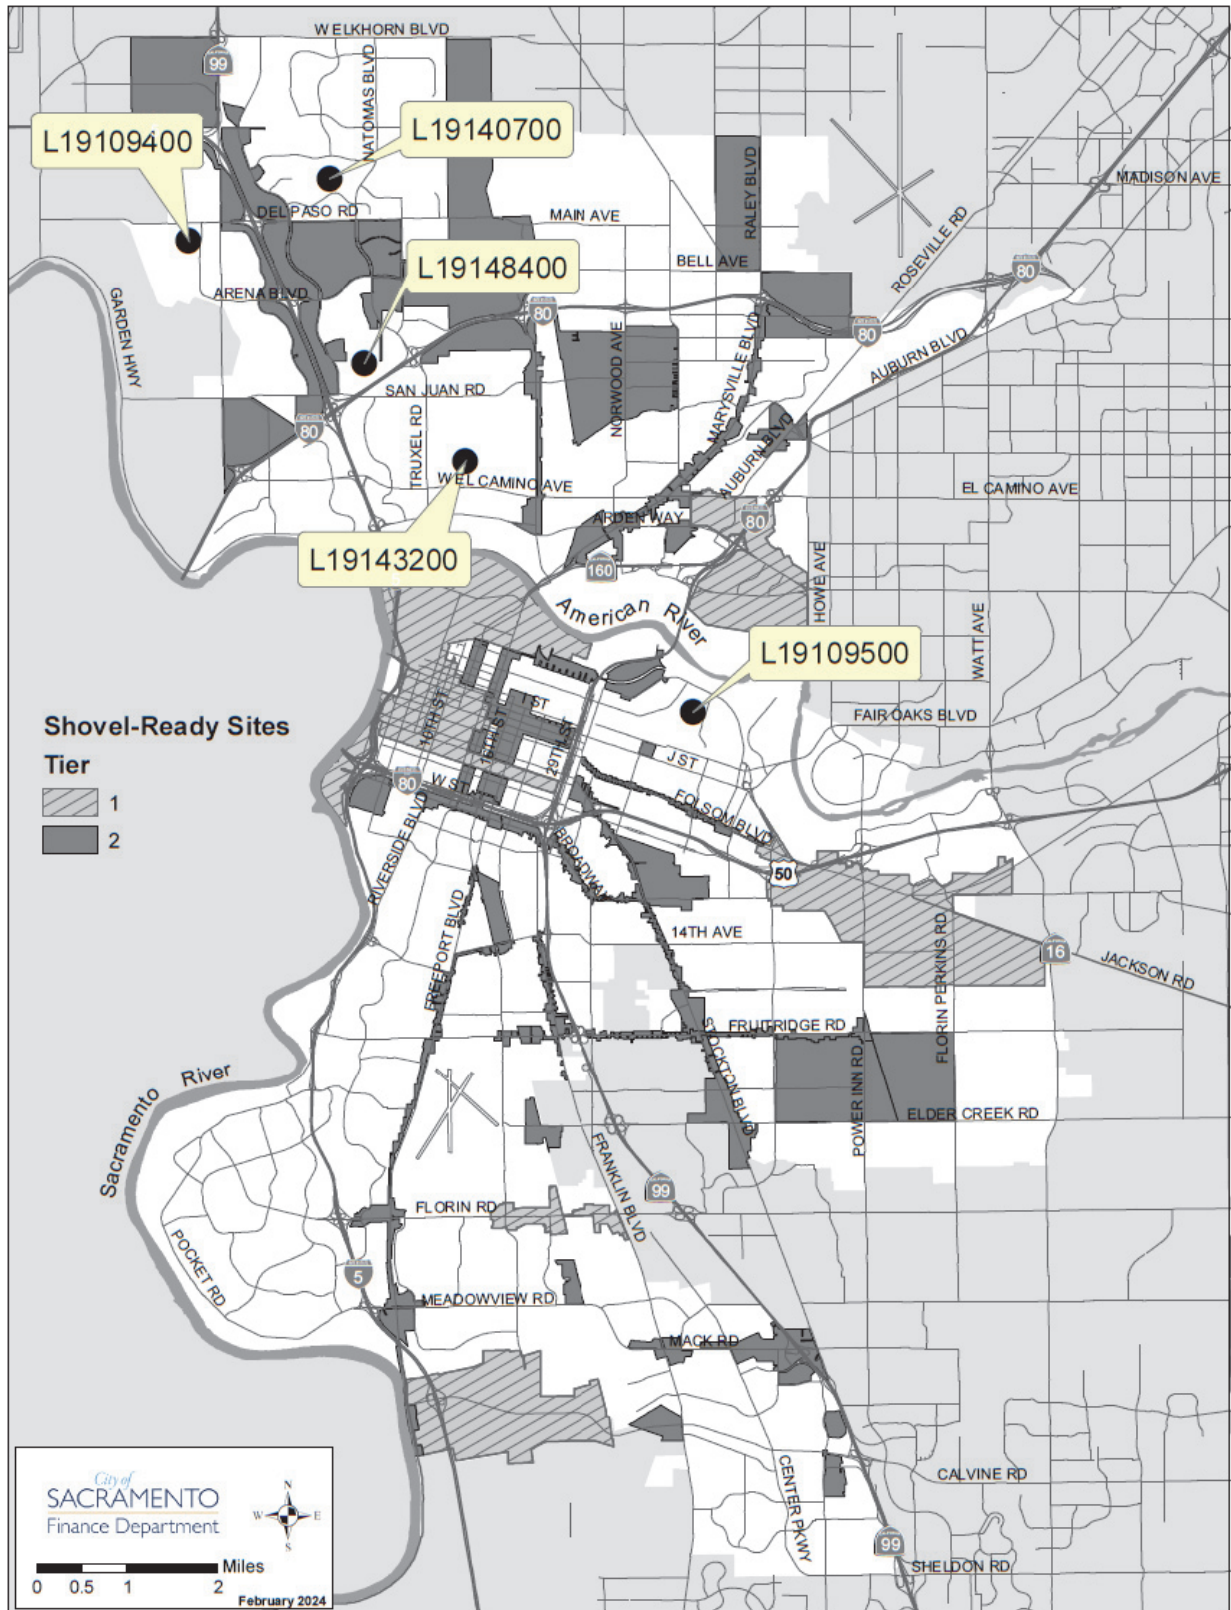

- North Natomas, Panhandle, Greenbriar
- North Sacramento, Robla, McClellan/Parker Homes
- Power Inn Area
- Other Infill Areas (Corridors and Transit Station Areas)

Although some site-specific CIPs may be located outside the Shovel-Ready areas, these CIPs address critical maintenance, repair, and renovations of existing facilities. All CIPs were individually determined to be consistent with policies in the *2040 General Plan*.

**New FY2024/25 CIPs by Program Area**

<b>Section – Program Area</b>	<b>Project Number</b>	<b>Project Name</b>	<b>Description</b>
<b>Section G – Parks and Recreation</b>	L19109400	Blackbird Park Restroom	Installation of a new prefabricated restroom building and tree planting at community park. The new restroom facility will serve the community garden, dog park, picnic area, playground, and sports field.
	L19109500	Bertha Henschel Park	Replace the existing restroom with prefabricated restroom building to be code compliant and restore the existing basketball court.
	L19140700	North Natomas Regional Park Ballfield	Add ball field lighting to fields 1, 2 and 3 and pathway lighting. The new lighting will allow extended hours of use during peak season.
	L19143200	Northgate Park Restroom Replacement	Replace the existing restroom with prefabricated restroom building to be code compliant, and will serve numerous sports fields, picnic area, and playground.
	L19148400	Tanzanite Futsal Court Lighting	Complete engineering drawings and permitting for lighting of parking lot, path of travel and futsal courts. This will help the project become shovel-ready when seeking future funding for construction.

FY2024/25 New, Site-Specific CIPs

**SECTION – D**  
**General Government**

## **INTRODUCTION**

The General Government Program reflects the City's commitment to focus resources toward preserving its existing facilities and continuing its programs through its "green building" and sustainable practices.

This Program utilizes the following goals and criteria to develop the five-year plan:

### Program Goals

- Ensure public health and safety
- Increase efficiency
- Enhance quality of life
- Increase accessibility
- Improve transparency

### Ranking Criteria

- Public safety
- Renewal/Replacement of worn/obsolete/failed components
- Updates out-of-date software or equipment
- Increases accurate, open access to data
- Leverages existing resources
- Self-supporting (through fees)
- Increases or maintains sustainability

This Program is able to fund only the most critically needed programs and relies on the use of available one-time funds for other important projects that focus on safety.

The General Government Program is divided into the following major subprograms:

- City Facilities
- Fee and Charge Supported
- Fleet Management
- Information Technology
- Libraries

<sup>1</sup>Funds may be in several program areas and may be found in the other sections of this document.

<sup>2</sup>Projects may have multiple funding sources.

**2024-2029 General Government Program  
by Fund (in thousands)  
\$21,527**

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section K). All projects receiving funding may be found by referring to Index L. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index O.

## **MAJOR PROGRAMS AND PROJECTS**

The General Government Program includes a variety of programs and projects. The top-funded CIPs during the five-year period are listed below by subprogram.

### **City Facilities**

#### **City Facility Reinvestment Program (C13900000, \$11.0 million)**

This program strategically prioritizes the improvements needed to City facilities to ensure public safety, building code compliance, preservation, and energy efficiency. Public and employee safety is key. Funding for major projects in FY2024/25 includes roof repairs and alarm upgrades for various City facilities, elevator upgrade at the Public Safety Administration Building (PSAB), repairs at the Crocker Art Museum, repairs at the Old Sacramento Docks, and HVAC upgrade at Kinney Police Station.

#### **Facility ADA Compliance Program (C13000400, \$3.0 million)**

This program ensures that persons with disabilities have access to City programs, services, and activities (PSA) offered within City facilities. The program also recognizes the City cannot immediately remediate all physical barriers in compliance with the Federal ADA and State Accessibility requirements due to budgetary constraint. A First-Tier prioritized phase of work would provide the greatest level of access and make it possible for people (especially persons with disabilities) to participate in the City's PSA offered at the facilities. Projects scheduled in FY2024/25 include the following: ADA improvements at the Mims Hagginwood Community Center, entrance door upgrade to the City Council chamber, lobby & restroom ADA improvements at the Hart Senior Center, and ADA restroom improvements at Belle Cooledge Community Center.

### **Information Technology**

#### **IT Replacement Program (A07000300, \$3.6 million)**

This ongoing program maintains and replaces network and telecommunications infrastructure systems necessary for communication between devices and people. This program also ensures the integrity and availability of citywide IT enterprise resources based on life cycle standards, current technologies, and best practice benchmarks. These highly complex systems support City operations and all essential City business systems.

### **Fee and Charge Supported**

#### **Building Permit Technology Program (A21006600, \$973,000)**

This self-funded program implements process updates and technology needs related to citywide development activities. The fees collected are used to develop, implement, and support various programs for the public including technology upgrades to the database of citywide development activity, the systems for viewing details and statuses of planning applications and building permits (Agency Counter, Online Citizen Permit Portal), and the processes that expedite various programs and services to customers (Sacramento Streamline Initiative).

FY2024/25 Capital Projects and Programs  
*Non-site specific or multi-site projects are not shown*

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

City of Sacramento  
**Capital Improvement Program**

A04000100

**Project Name** CITY CLERK AUTOMATION PROGRAM

**Project Description** Updates technology and automation projects within the City Clerk's office.

**Project Objectives** Support the automation of City Clerk and citywide processes for greater efficiency and service delivery.

**Existing Situation** The technology currently in use does not address all of the office's automation needs.

**Operating Budget Impact** None.

Fund	Fund Description	As of 2/2024		2024/25	2025/26	2026/27	2027/28	2028/29
		Budget	Unobligated					
1001	GENERAL FUND	\$1,600,124	\$1,137,857	\$60,000	\$60,000	\$60,000	\$60,000	\$60,000
Total		\$1,600,124	\$1,137,857	\$60,000	\$60,000	\$60,000	\$60,000	\$60,000

**City of Sacramento**  
**Capital Improvement Program**

**A07000300**

**Project Name** **IT EQUIPMENT REPLACEMENT PROGRAM**

**Project Description** Ongoing program to maintain and replace IT telecommunications systems including voice over internet protocol (VoIP) equipment, voicemail, unified e-mail messaging, software and hardware licensing, physical and virtual server consolidation, data storage, network infrastructure, closed circuit television (CCTV) camera systems, mobile devices, and all related components based on industry standard life cycles.

**Project Objectives** Ensure the integrity and availability of citywide IT enterprise resources based on life-cycle standards, current technologies, and best practices benchmarks.

**Existing Situation** Funds continue the management, coordination, and budgeting of citywide IT resources. In FY2024/25, \$150,000 for the project, of which \$108,889 is General fund, is being directed from the Digital Strategy Project for the City Cloud Data Center Core Network Refresh and Consolidation.

**Operating Budget Impact** To fund this program, departments are charged for telecommunications and other hardware replacement costs based on usage citywide. The “user fee” will be charged to all departments and does not result in additional General Fund costs.

# City of Sacramento Capital Improvement Program

A07000400

**Project Name** CITYWIDE FIBER EXPANSION PROGRAM

- Project Description** The funding for this program will be used to expand and maintain the fiber optic infrastructure in the City.
- Project Objectives** Achieve the level of connectivity that is needed for traffic control, network connectivity, and communication purposes between City facilities and other agencies.
- Existing Situation** After review of existing infrastructure, it has been determined that there is a need to expand and maintain the fiber optic infrastructure in order to achieve the required level of city connectivity.
- Operating Budget Impact** This program's costs are covered through fiber lease revenues from the Los Rios and Sacramento Libraries (Fund 3702).

**Project Name** **ENTERPRISE RESOURCE PLANNING (ERP) SYSTEMS REPLACEMENT PROGRAM**

**Project Description** In 2005, the City initiated the process to replace the financial and human resource systems with an Enterprise Resources Planning (ERP) program, officially known as the electronic Citywide Accounting and Personnel System (eCAPS).

**Project Objectives** The eCAPS update ensures stabilization and implementation of existing City-owned ERP software, will create staff efficiencies, streamline business processes, reduce the number and cost of redundant systems. improve accuracy, transparency, and accountability.

**Existing Situation** The functionality of the City’s ERP system needs updating. In FY2024/25, \$350,000 of the General fund budget for this project is being directed from the Digital Strategy Project for the replacement and migration of the legacy Police Department Human Resource Information Management System into eCAPS.

**Operating Budget Impact** None.

**Project Name** **DIGITAL STRATEGY**

**Project Description** A comprehensive Digital Strategy provides the framework, prioritization, and multi-year action plan for delivering innovation and technology services that are streamlined, effective, secure, and easily accessible by all.

**Project Objectives** The execution of the Digital Strategy initiatives will expand access to information, more efficiently use resources, and improve the City's ability to serve customers more effectively and transparently.

**Existing Situation** In FY2024/25, \$2,793,000 will be directed from the Digital Strategy Project to implement the following projects; replacement and migration of the legacy Police Department Human Resource Information Management System (A07000600), City Cloud Data Center Core Network Refresh and Consolidation (A07000300), replacement and migration of the Citywide Management System (CCM/CARA) to the Cloud), Firewall Software Support and Subscription Renewal, City Wi-fi License renewal, Disaster

**Operating Budget Impact** Digital Strategy investments that have a citywide benefit will be allocated across the General Fund and appropriate enterprise funds through the City's cost allocation process. Additionally, projects will result in operational efficiencies and process improvements citywide.

**Project Name** **NEW GENERATION FIREWALL REPLACEMENT**

**Project Description** Provide and maintain a comprehensive Firewall Replacement Program to help detect and stop threats to our network and data assets citywide.

**Project Objectives** The objective of this project is to ensure that the City's firewall infrastructure has the proper ongoing resources to address system maintenance, management, and hardware equipment replacement necessary to prevent network security breaches, dangerous viruses, or other malware.

**Existing Situation** The City's firewall equipment is coming to the end of its support life. Implementing a new next generation firewall system will offer an innovative approach to network security management that automates integrations across security products and accelerates key security operations functions. In FY2024/25, \$1,000,000 of which \$725,927 is General Funds, will be directed from the Digital Strategy Project (A07000700) for the Firewall Software Support and Subscription Renewal.

**Operating Budget Impact** None.

**Project Name** FACILITY ADA COMPLIANCE PROGRAM

**Project Description** Survey, classify, and prioritize conditions in City facilities that do not comply with state accessibility requirements and the American with Disability Act (ADA). The federal ADA was signed into law in July 1990.

**Project Objectives** Comply with state and federal civil rights laws to eliminate physical barriers which cause discrimination to individuals with disabilities. Remediate conditions or barriers that hinder the participation of individuals with disabilities in City's programs, services, and activities.

**Existing Situation** City staff are currently delivering projects consistent with the City's Facilities ADA Transition Plan. Public entities have an ongoing obligation to ensure that their programs, services, and activities are accessible to the public.

**Operating Budget Impact** New facilities will require regular maintenance and repairs. No additional General Fund that has been allocated for ongoing maintenance is allocated with this project.

**Project Name** CITY FACILITY REINVESTMENT PROGRAM

**Project Description** This program provides funding for end-of-life cycle replacement of facility components or major repairs due to deferred maintenance. In June 2018, staff completed the facility condition assessment to determine and prioritize capital replacement and maintenance needs.

**Project Objectives** Repair or replace roofs, structural elements, plumbing, electrical service, mechanical systems, and exterior coatings of City facilities to ensure public safety, building code compliance, preservation, and energy efficiency.

**Existing Situation** This program will be used for improvement projects at existing City facilities. Deferred maintenance at City facilities is currently estimated at approximately \$1.4 billion for the FY2024-2029 5-year CIP.

**Operating Budget Impact** Annual funding to this program prevents increased maintenance costs within the operating budget.

**Capital Improvement Program**

D13000200

**Project Name** FLEET ALTERNATIVE FUEL EQUIPMENT REPLACEMENT PROGRAM

**Project Description** Provide incremental funding for the purchase of alternative fuel, electric, plug-in hybrid, and hybrid vehicle equipment purchases and additional alternative fuel infrastructure.

**Project Objectives** Purchases of alternative fuel and hybrid vehicles and alternative fuel infrastructure. Assist in complying with the City's Fleet Sustainability Policy to replace a minimum of 50% of fleet equipment purchases with alternative fuel vehicles.

**Existing Situation** The historical level of funding for the purchase of replacement vehicles does not provide for the additional incremental cost to accelerate the migration of the fleet to alternative fuels and/or hybrid vehicles.

**Operating Budget Impact** Fleet operating costs and greenhouse gas emissions should decline as the City's fleet is migrated to alternative fuels, thereby reducing petroleum consumption.

**Public Safety**

## INTRODUCTION

The Public Safety Program establishes and supports capital projects that are consistent with the City's *2040 General Plan*. The Public Safety Program is designed to ensure both fire and police operational facilities are conducive to efficient, safe, and effective operations.

Adequate funding is not available to address the facility needs of the Police Department and the Fire Department. These larger capital repair and/or replacement needs are evaluated and prioritized as one-time resources are identified.

This program focuses resources toward programs that have ongoing funding requirements necessary to address repairs, replacement, and upgrades to the City's public safety infrastructure.

### Program Goals

- Protect public health and safety
- Provide reliable infrastructure for operations
- Increase efficiency

### Ranking Criteria

- Public safety
- Renewal/replacement of worn/obsolete/failed components
- Leverages existing resources
- Increases or maintains sustainability and accessibility

## MAJOR FUNDING SOURCES

**FY2024/25 Public Safety Program  
by Fund (in thousands)

**FY2024/25 Program Funding**

<b>Fund #<sup>1</sup></b>	<b>Fund Name</b>	<b># of CIPs<sup>2</sup></b>	<b>Budget</b>
1001	General	8	10,044,607
<b>TOTAL PUBLIC SAFETY</b>			<b>\$10,044,607</b>

<sup>1</sup>Funds may be in several program areas and may be found in the other sections of this document.

<sup>2</sup>Projects may have multiple funding sources.

**2024-2029 Public Safety Program  
by Fund (in thousands)  
\$48,447**

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section K). All projects receiving funding may be found by referring to Index L. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index O.

## **MAJOR PROGRAMS AND PROJECTS**

The Public Safety Program includes a variety of programs and projects. The top-funded CIPs during the five-year period are listed below.

### **Fire Apparatus Program (F12000300, \$15.0 million)**

This program is evaluated annually to determine future capital needs in order to avoid spikes in annual funding requirements. The replacement schedule for emergency vehicles is evaluated to determine the funding necessary in future years.

### **Body Worn Camera and Conductive Electrical Device Program (F11100500, \$10.5 million)**

This program supports the deployment of body worn cameras for police officers citywide, including equipment and data storage. Body worn cameras are used to improve law enforcement interactions with the public by providing audio and visual recordings, helping to strengthen accountability, transparency, and de-escalation of conflict. The program also funds purchases of conductive electrical devices including accessories equipment, storage, software, and periodic device replacement. Funding is evaluated annually.

### **Advanced Life Support Equipment Program (F12000200, \$7.0 million)**

This program provides long-term, sustainable funding over multiple years to be used for the purchase of capital equipment needs. The replacement schedule for medical equipment and ambulances is evaluated annually to determine the funding necessary in future years to avoid spikes in annual funding requirements.

### **Police Safety Equipment Program (F11100800, \$5.0 million)**

The program provides funding to purchase safety equipment for use by sworn officers, including radios and body armor. Funding is evaluated annually.

### **Police Department Fleet Equipment and Technology Program (F11100600, \$5.0 million)**

This program provides funding to purchase replacement technology including mobile data computers, in-car camera systems, and ballistic door panels on police patrol vehicles. Funding is evaluated annually.

### **Fire Safety Equipment Program (F12000500, \$4.3 million)**

Purchase of safety equipment including self-contained breathing apparatus (SCBA) packs and bottles, and personal protective equipment (PPE). The purchase of this safety equipment is necessary to meet state and federal regulatory requirements and is critical in fire service. Funding is evaluated annually.

City of Sacramento  
**Capital Improvement Program**

F11100500

**Project Name** BODY WORN CAMERA AND CONDUCTIVE ELECTRICAL DEVICE PROGRAM

**Project Description** The funding for this program will be used to maintain body-worn cameras (BWCs) and conductive electrical devices (CEDs) including accessories, equipment, storage, software, and periodic device upgrades.

**Project Objectives** To improve accountability and transparency within the Police Department. BWCs are used as tools to improvement law enforcement interactions with the public by providing visual and audio records of interactions. CEDs are used as a less-than-lethal force option in certain volatile situations.

**Existing Situation** The Police Department received a federal grant to develop and implement the BWC program. Continued funding is required to ensure the continuity of the program. The Department’s current CEDs are obsolete and no longer carried by the manufacturer. The Department needs to replace its obsolete CEDs with a modern, contemporary model.

**Operating Budget Impact** None.

**Capital Improvement Program**

F11100600

**Project Name** POLICE DEPARTMENT IT CRITICAL INFRASTRUCTURE PROGRAM

**Project Description** The funding for this program will be used to purchase mission critical technology infrastructure including data storage, network infrastructure, software, electronic citation platform, and backup solutions.

**Project Objectives** Ensure the continuity of Police Department IT critical infrastructure.

**Existing Situation** Provide funding to ensure the integrity of IT infrastructure according to life-cycle standards, state/federal mandates concerning network security as it relates to accessing confidential information, current technologies, and best practices. Due to the current structural budget deficit, departments were required to prepare a reduction plan. In FY2024/25, the department reduced \$426,000 ongoing General Funds from this program as part of the reduction plan.

**Operating Budget Impact** None.

**Project Name** **ADVANCED LIFE SUPPORT EQUIPMENT PROGRAM**

**Project Description** Purchase of medical equipment and ambulances for use in advanced life support (ALS) services.

**Project Objectives** ALS equipment and vehicle purchases cross fiscal years. The objective of this project is to establish a long-term funding plan that will provide sustainable funding over multiple years to be used for the purchase of capital equipment needs. The replacement schedule for medical equipment and ambulances is evaluated annually to determine the funding necessary in future years to avoid spikes in annual funding requirements.

**Existing Situation** Expenditures related to medical equipment and ambulances are covered by revenues collected through the City's ALS/Ambulance Service. Existing appropriations and expenditures are managed in separate projects for equipment and ambulances.

**Operating Budget Impact** Funding for operations and maintenance is budgeted in the Fire Department operating budget. \$400,000 of the annual funding for the ALS equipment budget and out-year costs for additional ambulances are supported by intergovernmental transfer (IGT) revenues.

**Project Name** **PUBLIC SAFETY ADMINISTRATION FACILITIES GENERATOR UPGRADE PROGRAM**

**Project Description** Install standby generators at the Public Safety Administration Building (PSAB), fire stations, and other facilities that are essential to emergency response and disaster recovery. Station 17 will be completed in FY2024/25. Police Property will be installed the following fiscal year. \$148,800 has been transferred from this CIP to the Pannell Comm Resiliency Center project C15002000 to provide matching funds for a federal FEMA grant for resiliency upgrades to the Pannell Community Center, including a backup generator.

**Project Objectives** Install generators at existing essential facilities. Generators have been installed at the following fire stations: 1, 2, 3, 5, 6, 7, 8, 10, 11, 12, 13, 14, 15, 16, 19, 20, 30, 56, and 60. Standby generators have also been installed at the PSAB, the Fire Department's Training Tower, a City water tower, and the City's main data center. In addition, a generator load bank connection switch gear was installed at the 911 facility to facilitate the regular testing of the generators.

**Existing Situation** The current funding level for this program provides funding for one station to be completed every other year.

**Operating Budget Impact** Operating costs related to generator maintenance are estimated to be \$800 per year, per generator. New facilities will require regular maintenance and repairs. No additional General Fund that has been allocated for ongoing maintenance is allocated with this project.

**Convention, Culture, and Leisure**

## INTRODUCTION

The Convention, Culture, and Leisure Program promotes and preserves the City's unique cultural heritage by delivering accessible arts, leisure, and educational experiences to enrich people's lives and enhance the metropolitan area. The Convention, Culture, and Leisure Program is designed to enrich the quality of life and to contribute to a vibrant metropolitan region by providing exceptional cultural, artistic, and leisure opportunities.

This Program has been prepared by the Department of Convention and Cultural Services staff utilizing the goals and criteria listed below.

### Program Goals

- Provide clean and well-maintained grounds, facilities, and equipment
- Enhance the economic and cultural vitality of the city through cultural facilities
- Maintain and increase client and patron satisfaction
- Provide high quality, safe, and accessible facilities

### Ranking Criteria

- Meet legal, health, and safety requirements
- Maintain and improve facilities to ensure the public's comfort and enjoyment
- Improve marketability of SAFE Credit Union Convention and Performing Arts District to increase attendance
- Prevent damage to facilities and watercraft

## **MAJOR PROGRAMS AND PROJECTS**

The Convention, Culture and Leisure Program includes a variety of programs and projects. In September 2018, City Council authorized the issuance of bonds to expand and renovate the SAFE Credit Union Convention and Performing Arts District. In July 2019, City Council authorized the issuance of additional bonds to construct a new ballroom for the SAFE Credit Union Convention Center. The Convention Center Complex Renovation Project has enhanced the patron experience at the Memorial Auditorium, improved guest experience and event flexibility at the SAFE Credit Union Convention Center, and improved acoustics and performance space as well as expanded restrooms and concessions at the SAFE Credit Union Performing Arts Center.

Funding is required for ongoing improvements outside the scope of the Convention Center Complex Renovation Project. The top-funded CIPs during the five-year period are listed below.

### **Community Center Improvements Program (M17100000, \$4.1 million)**

This program provides funding for major improvements, repairs, or equipment for the SAFE Credit Union Convention and Performing Arts District to prolong or enhance the current conditions. Funding is based on the number of improvements and repairs that need to take place in the next five years.

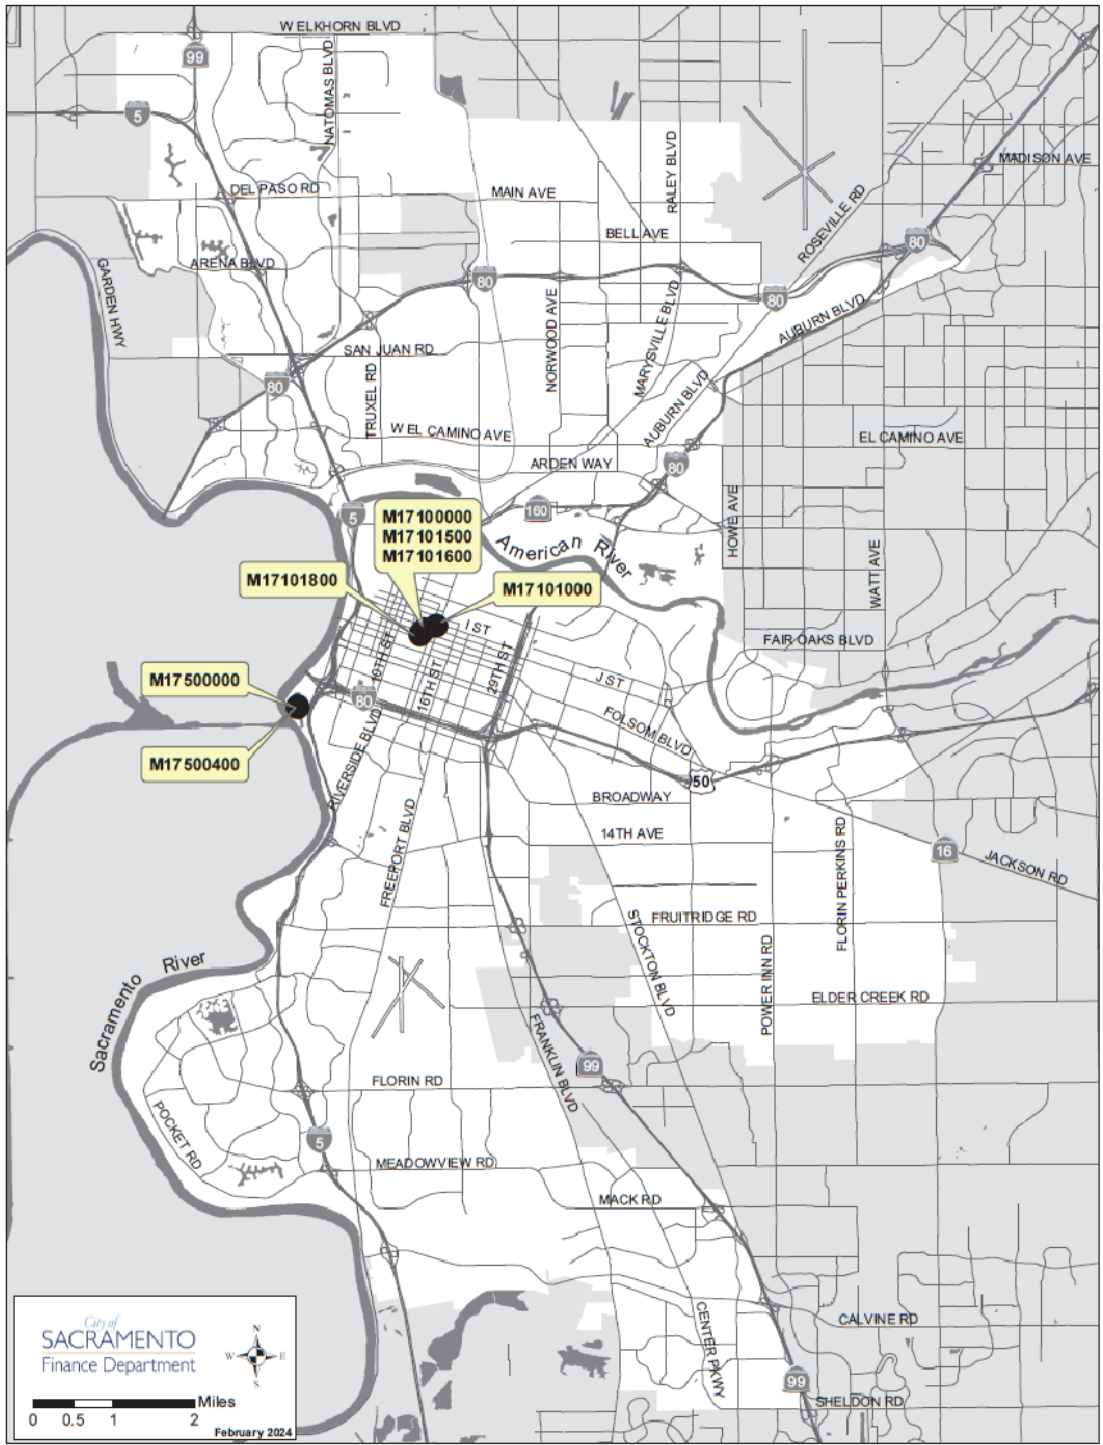

### **Performing Arts Center Improvements Program (M17101800, \$3.9 million)**

This program provides for improvements, repairs, and/or replacements for the SAFE Credit Union Performing Arts Center to continue and provide a well maintained, competitive, and cost-effective venue. Funding for this program is based on the estimated fees to be collected from the SAFE Credit Union Performing Arts Center Facility Fee.

### **Memorial Auditorium Improvements Program (M17101000, \$735,000)**

This program is to address deferred maintenance, facility improvements, and renovation needs at the historic Sacramento Memorial Auditorium. Funding for this program is based on the estimated fees to be collected from the Sacramento Memorial Auditorium Facility Fee.

FY2024/25 Capital Projects and Programs  
*Non-site specific or multi-site projects are not shown*

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

City of Sacramento  
**Capital Improvement Program**

M17100000

**Project Name** COMMUNITY CENTER IMPROVEMENTS PROGRAM

**Project Description** Provide funding for major improvements, repairs, or equipment for the SAFE Credit Union Convention and Performing Arts District to prolong or enhance its current conditions.

**Project Objectives** Protect employees and the public from potential safety hazards and ensure continued, uninterrupted operation of the facility.

**Existing Situation** The SAFE Credit Union Convention & Performing Arts District recently underwent a \$375 million renovation/expansion. To safely maintain these city assets, funding for improvements, repairs or equipment is essential to continue operating these civic amenities.

**Operating Budget Impact** None.

# City of Sacramento Capital Improvement Program

M17101000

**Project Name** MEMORIAL AUDITORIUM IMPROVEMENTS PROGRAM

**Project Description** Address deferred maintenance, facility improvements, and renovation needs at the historic Sacramento Memorial Auditorium.

**Project Objectives** Ensure the historic City facility continues to provide a clean and well-maintained venue for the public while meeting health, safety, and historic preservation requirements.

**Existing Situation** Ongoing funding will be used for the following projects: roof repair, veneer the floors, and upgrade the sound and lighting in the Jean Runyon Little Theater.

**Operating Budget Impact** In FY2024/25, the \$125,000 in funding will come from the operating budget's Memorial Auditorium Facility Fee. The proposed project for FY2024/25 is to restore/repair the main floor.

**SECTION – G**  
**Parks and Recreation**

## INTRODUCTION

The Parks and Recreation Program reflects the City's goal to optimize the experience of its citizens through parks, recreational facilities, and the preservation of open space. The Parks and Recreation Program is designed to address the City Council's commitment to improving the quality of life through a robust park system, with an emphasis on renovating and rehabilitating aging park amenities within the system.

This Program utilizes the *Park Project Programming Guide's* goals and criteria, the Parks Deferred Maintenance Assessment, the Citywide Pools Assessment, the Facilities Assessment, and input from the City Council to develop the five-year plan.

### Program Goals

- Provide an integrated system of parks, open space areas, and recreational facilities that are safe and connect the diverse communities of Sacramento
- Plan and develop parks, recreation, and community facilities that enhance community livability, are equitably distributed throughout the city, and are responsive to the needs and interests of residents, employees, and visitors
- Secure adequate and reliable funding for the acquisition, development, and maintenance of parks, recreation facilities, and open space

### Ranking Criteria

Projects are evaluated and grouped within each of the ten Community Plan Areas (CPAs) for consistency with the City's *Parks and Recreation Master Plan*, last updated in 2009. An update to this plan, *Parks Plan 2040*, is anticipated to be completed in 2024.

The criteria in each CPA focuses on:

- Neighborhood, community, and/or regional need
- Funding availability for ongoing maintenance
- Site significance, public priority or public use, and suitability to the area
- Priority to economically disadvantaged neighborhoods
- Health, safety, or legal mandates
- Land availability
- Cost offsets/partnerships

## **MAJOR PROGRAMS AND PROJECTS**

The Parks and Recreation Program includes a variety of programs and projects. The top-funded CIPs during the five-year period are listed below.

### **North Natomas Regional Park Ballfield (L19140700, \$2 million)**

Improvements will provide additional lighting to the ball fields and pathways to allow extended hours of use during peak season.

### **Sutter's Landing Park Program (L19167000, \$1.2 million)**

Sutter's Landing Park is a decommissioned City landfill and waste transfer station. The objective of the program is to transform the open, available area into a regional park that can serve the recreational needs of the community. This programmatic funding is directed from the revenue received from the onsite billboard.

### **Citywide Park Improvement Program (L19300000, \$750,000)**

This program utilizes Parks and Facilities Fee's to benefit regional and citywide park facilities. In FY2024/25, this program will support accessibility and deferred maintenance improvements at Granite Regional Park, Land Park, and Doyle Pool.

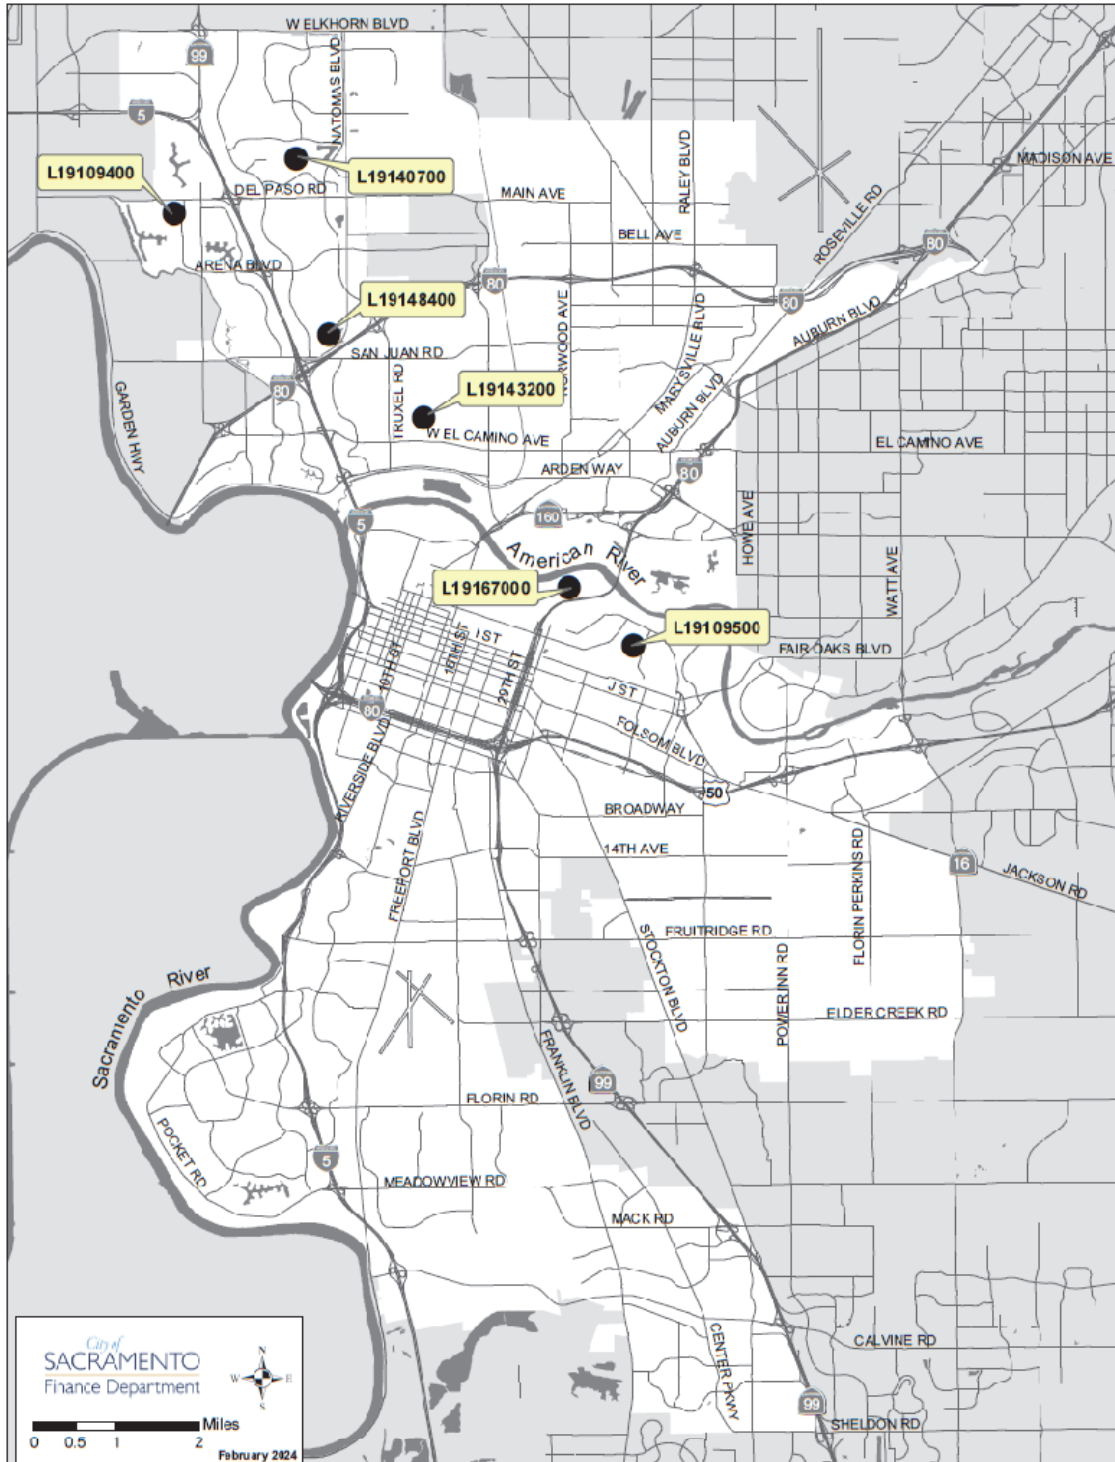

### **Bertha Henschel Park (L19109500, \$750,000)**

Improvements to this park include replacement of the current restroom with a new prefabricated restroom building and restoration of the existing basketball court with new equipment and restriping.

*Mangan Park Improvements*

FY2024/25 Capital Projects and Programs  
*Non-site specific projects are not shown*

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

**City of Sacramento  
Capital Improvement Program**

**L19109400**

**Project Name** BLACKBIRD PARK RESTROOM

**Project Description** New prefabricated restroom building and tree planting at the community park.

**Project Objectives** To provide a restroom facility to the highly activated park to serve community garden, dog park, picnic area, playground and sports field visitors.

**Existing Situation** Site amenities plan shows restroom at community park. Utilities have been stubbed, but no restroom serving highly activated community park.

**Operating Budget Impact** None.

**Project Manager** YPCE , Jason Wiesemann

**City of Sacramento**  
**Capital Improvement Program**

**L19300000**

**Project Name** CITYWIDE PARK IMPROVEMENT PROGRAM

**Project Description** To allocate citywide park impact fees to annual priority projects. The priority projects for FY2024/25 include improvements at Doyle Pool, Granite Regional Park, and Land Park.

**Project Objectives** To utilize the Citywide Parks and Facilities Fee to benefit regional parks and citywide park facilities.

**Existing Situation** The Citywide Parks and Facilities Fee was established in 2018 and a priority list of projects has been established with Resolution No. 2022-0175.

**Operating Budget Impact** None.

Fund	Fund Description	As of 2/2024		2024/25	2025/26	2026/27	2027/28	2028/29

**L19706000**

**Project Name** **MEASURE U PARK MAINTENANCE IMPROVEMENTS**

**Project Description** The park assessment study will address the needs of each park for renovation of existing amenities and infrastructure in each of the parks in the city. The study shall include photos and descriptions of all amenities and infrastructure to be renovated including cost estimates. The remaining funding shall be allocated for improvements or major repairs upon approval by City Council.

**Project Objectives** Improve the safety and operational efficiency of existing amenities in the City's park system in need repair or replacement.

**Existing Situation** Many of the amenities and some of the infrastructure in several of the City's parks have reached the end of their life cycle and require repair or replacement. For FY2024/25, \$550,000 in one-time Measure U Funding was allocated to this project, \$300,000 will support Youth Sports Fields to improve several city parks and \$250,000 will support the Sac Northern Open Space Maintenance and Safety Restoration project to address safety improvements in the area.

**Operating Budget Impact** None.

**SECTION – H**  
**Transportation**

## **INTRODUCTION**

The City is responsible for maintaining and upgrading an aging transportation network that serves hundreds of thousands of users, including automobiles, trucks, buses, trains, bikes, pedestrians, and scooters for users of all modes and abilities. Resources to maintain and improve the transportation network come from a variety of sources, primarily the countywide transportation sales tax, state gas taxes, federal and state funding, and special fees and taxes.

For the most part, transportation funding has not kept pace with inflation, and some types of transportation funding have declined, creating challenges in providing needed transportation system maintenance and in providing capital improvements to address safety, network expansions, modernization, and upgrades.

State gas taxes and the local transportation sales tax are the primary funding sources for transportation network rehabilitation and repair and installation of safety improvements. In 2017, Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017, increased gas tax and vehicle registration fees and indexed the gas tax to inflation. The increased funding has allowed the City to maintain a corridor rehabilitation and improvement program to address the most critical high-volume corridors. Even with increased funding from SB 1, however, the conditions on City streets are projected to continue to decline as the current funding is not enough to offset years of deferred maintenance of City streets.

In 2022, after extensive community engagement, the City adopted a Transportation Priorities Plan, Resolution No. 2022-0361, that prioritizes over 700 projects included in adopted plans, including the General Plan, Specific Plans, Bikeway Master Plan, Pedestrian Master Plan, Intelligent Transportation Systems Master Plan, and Vision Zero Implementation. These projects, estimated to cost a total of \$5 billion, currently have no funding identified. Projects are prioritized that address air quality and health, provide equitable investments in neighborhoods that lack basic infrastructure or have been recipients of racism and bias, provide connections to jobs, schools and parks, improve transportation safety, and fix and maintain the transportation system. With limited local funding, larger capital projects are primarily funded through state and federal grants. These grant funds are accessed through competitive programs that require a local match commitment, and the level of local transportation dollars and available funding programs limits the number and scope of the capital improvement projects the City can implement.

The City also has significant unfunded needs in terms of maintenance and rehabilitation of the existing transportation network (e.g., pavement, bridges, bikeways, traffic control equipment). Current estimates in the FY2024-29 CIP are at least \$796 million in deferred maintenance for transportation infrastructure. Estimates beyond the 5-year CIP are approximately \$5.1 billion.

The following describes the Program's overall goals and sub-programs:

Program Goals

- Provide a safe and comprehensive transportation system that is effectively and efficiently planned, managed, operated, and maintained to the extent possible within funding limitations
- Provide a system that serves all modes of travel for all ages and abilities
- Reduce barriers to improve system connectivity by eliminating gaps, increasing accessibility, prioritizing active modes, connecting to transit stations, and increasing multi-jurisdictional transportation corridors
- Promote equity and public health in transportation investment decisions
- Improve transportation safety

The Transportation Program is divided into six subprograms:

- Active Transportation – pedestrian, bikeway, lighting, and streetscape improvements
- Bridges & Major Transportation Improvements– bridge replacement and rehabilitation, and other major roadway construction, including complete streets projects
- Parking – parking facility maintenance and upgrades
- Public Rights-of-Way accessibility – installation of improvements to ensure full accessibility and comply with state and federal requirements
- Maintenance – roadway and bikeway rehabilitation, including integration of complete streets elements and safety improvements with roadway resurfacing projects, and repair of streetlights
- Traffic Operations and Safety – safety improvements, Traffic Operations Center, and active transportation safety

6004	Parking	7	715,000
<b>TOTAL TRANSPORTATION</b>			<b>\$54,763,918</b>

<sup>1</sup>Funds may be in several program areas and may be found in the other sections of this document.

<sup>2</sup>Projects may have multiple funding sources.

**2024-2029 Transportation Program  
by Fund (in thousands)  
\$160,378**

All revenue sources except off-street parking fees have recovered from the pandemic. Off-street parking fees are displaying gradual growth, but they are still below pre-pandemic levels. Funding for Parking CIPs is level over the five-year program to maintain operations of critical infrastructure. Staff will continue to monitor these revenues and recommend program adjustments should revenue estimates change significantly.

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section K). All projects receiving funding may be found by referring to Index L. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index O.

### **MAJOR PROGRAMS AND PROJECTS**

The Transportation Program includes a variety of programs and projects, most of which are for corridor enhancements with road maintenance, are federally funded projects, or are local funds that are reserved to meet local match obligations for approved state and federal grant awards grants funding awards. With limited local funding available, CIPs have leveraged local transportation funding with grant funding to maximize the value of every local transportation dollar and the number of improvements the City is able to deliver. The top-funded CIPs during the five-year period are listed below.

#### **Transportation Corridor Program (R15200000, \$75.7 million)**

This is an ongoing comprehensive transportation corridor rehabilitation program to improve pavement conditions, improve mobility options, incorporate or expand active transportation elements, address safety concerns, implement upgraded technology solutions, and provide urban greening elements as needed. The Transportation Corridor Improvements Program is intended to address all needs in a coordinated, efficient, and comprehensive process.

This program takes advantage of opportunities for increased efficiencies and cost savings by integrating complete streets and safety features with pavement resurfacing. For example, road maintenance resurfacing projects (such as road overlay and seals) provide opportunities to implement vehicle lane reductions, add bike lanes, add accessibility improvements, crosswalk treatments, and other complete street features.

The Program is funded with traditional Gas Tax funds and Road Maintenance and Rehabilitation Account funds (additional funding through SB 1). Even using all increased funding from SB 1, available funding provides only about one-fifth of the funding needed to maintain the current pavement condition index.

***Street overlay in progress***

**State & Federal Grant Match Program (T15007200, \$11.8 million)**

To take advantage of state and federal transportation grant match opportunities, a local funding match is typically required. As state and federal grant applications are approved, awarded and programmed to City transportation projects, matching local funding is reserved in the State & Federal Grant Match Program to ensure the City can meet its grant commitments. When federal or state funding is authorized, the local funding is transferred to the specific individual project. In most cases, federal funding can be matched 4:1 with local transportation dollars allowing the City to stretch the value of local transportation funding and implement a greater number of needed transportation and safety improvements.

**Active Transportation Program (T15180400, \$11.2 million)**

The Active Transportation Program is funded with Gas Tax funding, New Measure A Safety, Streetscape, Bicycle & Pedestrian funding, and Transportation Development Act funding. This funding is used to support walking and bicycling and can include sidewalk gap closures, new crosswalks, bicycle detection at traffic signals, match planning grants, and to pursue grants for construction of larger active transportation projects. In turn support air quality and responsible climate policy, public health, safety, and mobility choices. It also funds support for the City Active Transportation Commission.

**Vision Zero Safety Program (S15184100, \$9.9 million)**

Transportation safety impacts the community, neighborhoods, and is a public health issue. Crashes are preventable incidents, and no level of injury is acceptable on City streets. Vision Zero is a multi-national transportation safety initiative that aims to eliminate serious injuries and fatalities. With Resolution No. 2017-0032 in January 2017, the City adopted the goal of zero transportation fatalities and serious injuries by 2027. In August 2018 with Resolution No. 2018-0342, the City adopted the Vision Zero Action Plan, a comprehensive, collaborative, equitable and data-driven effort to identify high injury locations, behaviors that result in serious injuries and fatalities, and countermeasures to address these issues.

The Vision Zero Safety Program coordinates and supports implementation of countermeasures identified in the Vision Zero Action Plan to improve safety and funds efforts to prepare grant applications for implementation of larger corridor improvements. The program includes funding to update City street design standards to reflect best safety and complete street practices and to implement speed lumps and other less-costly safety improvements on streets on the City's High Injury Network.

**Franklin Boulevard Complete Street (T15165500, \$8.4 million)**

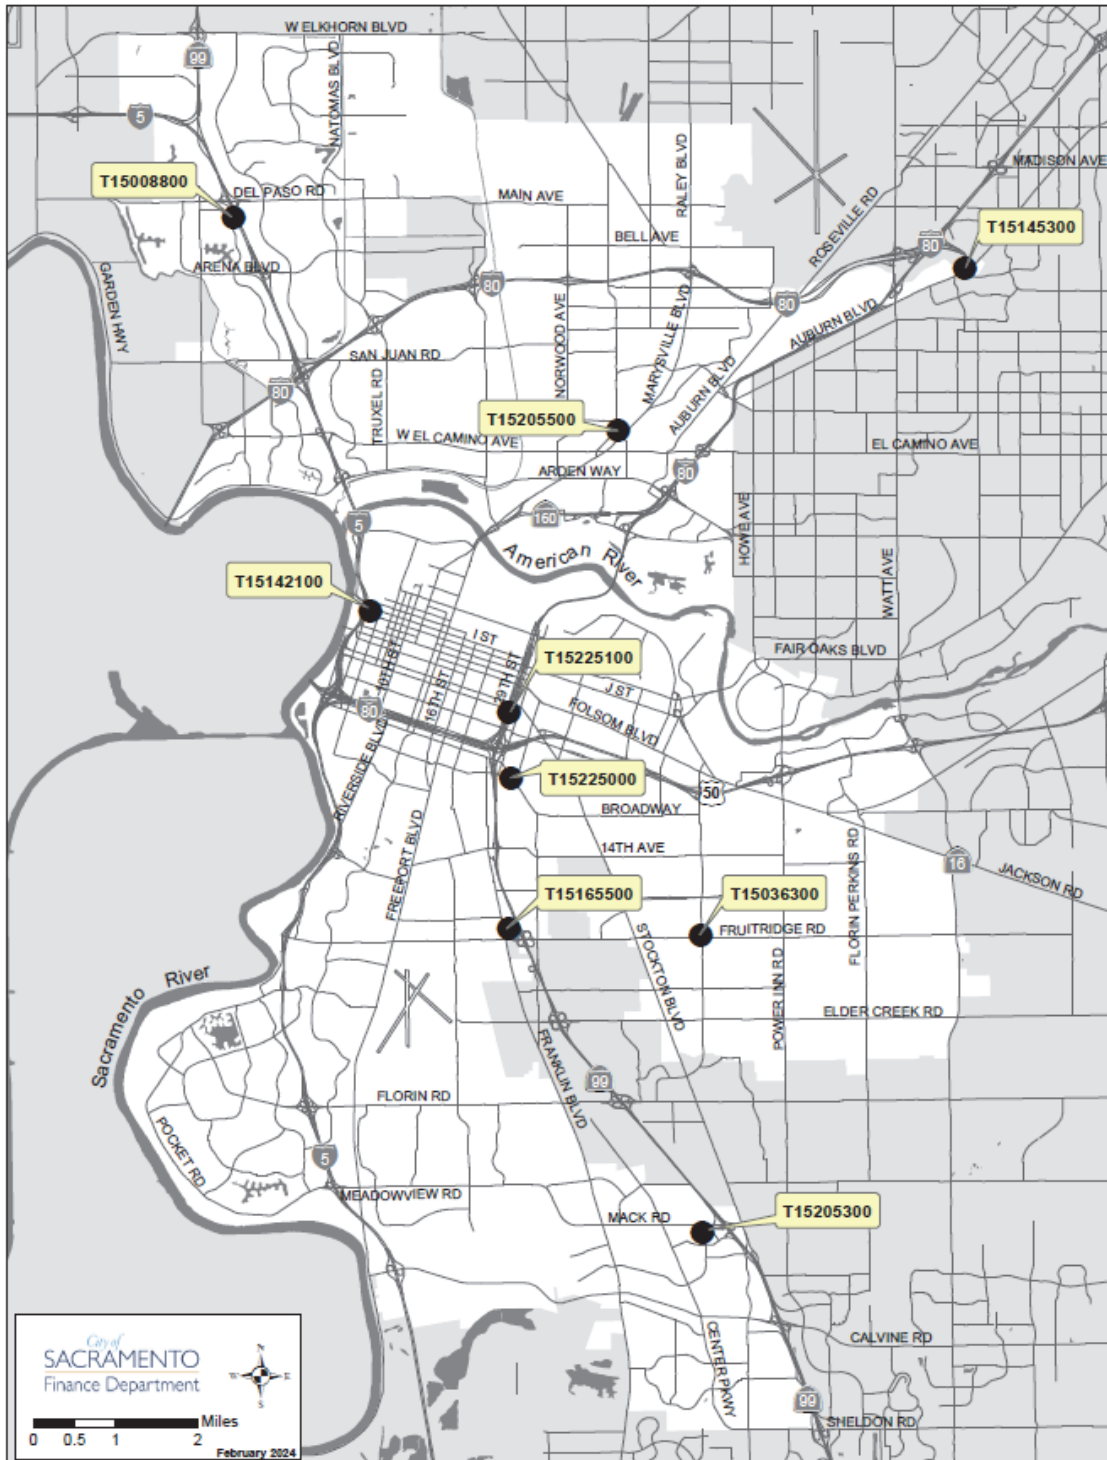

Franklin Boulevard is the transportation backbone of the North City Farms and South City Farms neighborhoods, connecting people to businesses, schools, shopping centers, arts and cultural centers, parks and playgrounds. However, Franklin Boulevard does not accommodate bicycling and is not comfortable for pedestrians. The purpose of this project is to improve pedestrian and bicycle mobility and safety, enhance connectivity, and provide access for all users. In addition, the project proposes to reduce the shade desert along Franklin Boulevard and remove a potential deterrent to walking and cycling.

Building on grassroots community efforts, the City of Sacramento worked with the community to develop a plan to enhance Franklin Boulevard from Sutterville Road to 38<sup>th</sup> Avenue with traffic calming, pedestrian and bicycle facility improvements, designated on-street parking where appropriate and feasible, greater street tree canopy, and more landscaping as a buffer between vehicles and pedestrians. To meet these objectives, the project will reduce the number of through travel lanes from five lanes to three lanes. The lane reduction will create the space required to accommodate a corridor configuration that will serve the needs of the community through the development of a Complete Street.

When all funding is added, this transformational project will total over \$22 million in a variety of funding programs, including federal transportation grants, Community Development Block Grants (CDBG), State Active Transportation Program grants, Measure A funds, Roadway Maintenance and Modernization funds, and other local transportation funds. The project is currently funded through construction of the first two (of three) segments, from Sutterville Road to 32<sup>nd</sup> Avenue.

FY2024/25 Capital Projects and Programs  
*Non-site specific or multi-site projects are not shown*

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

# City of Sacramento Capital Improvement Program

K15125200

**Project Name** BIKE PARKING PROGRAM

**Project Description** Install bike parking facilities in the public right-of-way.

**Project Objectives** Increase the availability of bicycle parking to encourage more bicycle travel.

**Existing Situation** Many locations throughout the City lack adequate bicycle parking.

**Operating Budget Impact** New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

**Project Name** **PEDESTRIAN AND BIKE TRAIL REPAIR AND MAINTENANCE PROGRAM**

**Project Description** This project is for citywide maintenance, repair, and rehabilitation of existing bike and pedestrian trails including pavement, striping, shoulder repairs, landscape maintenance, and debris and graffiti removal.

**Project Objectives** Provide maintenance of bike and pedestrian trails to ensure safety for users and to protect the City's long-term investment in its trail system. Consistent maintenance of bike and pedestrian trails will reduce the cost of future repairs.

**Existing Situation** The bike and pedestrian trail maintenance program is necessary to keep the trail system safe and prevent early deterioration.

**Operating Budget Impact** None.

T15008800

**Project Name** NORTH NATOMAS FREEWAY MONITORING PROGRAM

**Project Description** Monitor the freeway interchanges serving North Natomas as required by the cooperative agreement between the City and the state (City Agreement No. 95-217). Monitor traffic operations at the freeway off-ramps and adjacent intersections.

**Project Objectives** Monitor and identify when the freeway interchanges begin to be impacted by traffic growth in North Natomas. Results are used to identify when performance thresholds for the interchanges have been met and what impact mitigation measures are needed. This report is sent directly to Caltrans.

**Existing Situation** This monitoring has been performed since 1996. Monitoring was included in the state agreement due to the size of the Natomas expansion and the anticipation that the expansion would take decades to complete. This made it difficult to determine when improvements would be needed that would affect the state highway system.

**Operating Budget Impact** None.

**Project Name** **FRUITRIDGE ROAD STREETScape ENHANCEMENTS**

**Project Description** Rehabilitate pavement on Fruitridge Road, between 65th Expressway and Power Inn Road. Design and construct potential complete street improvements.

**Project Objectives** Evaluate potential for lane reduction to allow space for standard bike lanes, resurface and rehabilitate pavement, and provide ADA compliant curb ramps.

**Existing Situation** Project construction was put on hold pending resolution of redevelopment funding, however an alternate source of construction funds has been secured.

**Operating Budget Impact** New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

# City of Sacramento Capital Improvement Program

T15225000

**Project Name** ENVISION BROADWAY IN OAK PARK

**Project Description** Envision Broadway in Oak Park extends from State Route 99 to Martin Luther King Jr. Blvd. It will include complete street improvements, including lane reduction, buffered Class II bicycle lanes, signal improvements, and pedestrian crossing improvements.

**Project Objectives** Create a better balance among all modes of travel, where pedestrians, cyclists, transit riders, and drivers all feel safe and accommodated. To also improve amenities throughout the corridor in a manner that creates a unified character for the corridor, and increases opportunities to enjoy businesses/leisure activities.

**Existing Situation** Currently, the Broadway corridor is an automobile-dominated four lane arterial with sidewalks of varying widths, poor pedestrian facilities, and no stripped bike lanes.

**Operating Budget Impact** New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

**Capital Improvement Program**

**T15225100**

**Project Name** **PEDESTRIAN CROSSING AT R STREET & 29TH/30TH STREETS**

**Project Description** Upgrade pedestrian crossings at two locations with the installation of a traffic signal at each intersection to allow for a dedicated pedestrian crossing phase and the construction of bulb-outs to shorten crossing distances.

**Project Objectives** Enhance safety by providing safer crossings for pedestrians.

**Existing Situation** The existing intersections are uncontrolled for pedestrian traffic and the length of the crossings are challenging for individuals with limited mobility.

**Operating Budget Impact** New transportation facilities will require regular maintenance and repairs. No additional gas tax or Measure A sales tax, typical sources of ongoing maintenance, are included for maintenance of these improvements.

**SECTION – I**  
**City Utilities**

## **INTRODUCTION**

The City Utilities Capital Improvement Program (Program) reflects the City's funding strategy for delivering capital improvements to provide and maintain services and facilities for the benefit of the community, safeguarding public health and safety, promoting sustainability, enhancing livability, and expanding economic development throughout the City.

To ensure long-term infrastructure sustainability, this Program utilizes an asset management process to systematically prioritize and rank its rehabilitation and replacement needs based on information collected through various elements such as criticality, condition assessment, master planning, and maintenance history.

This Program is consistent with the *2040 General Plan*.

### Program Goals

- Comply with all government regulations and legal requirements
- Provide high-quality, safe, and reliable utility systems by delivering services through proactively monitoring and maintaining our assets and reducing system vulnerability
- Plan for current and future generations by protecting, preserving, and enhancing resources, the environment, and the community
- Manage funding by finding alternative funding sources, such as grants or other revenues
- Provide for environmentally sound landfill closure

### Ranking Criteria

- Replaces failed infrastructure
- Is mandated by state and federal laws or regulations
- Protects the public by meeting health and safety requirements
- Meets the demands of increased growth
- Improves or reduce ongoing facility operations and maintenance costs

The City Utilities Program is divided into four subprograms:

- Recycling and Solid Waste
- Storm Drainage
- Wastewater
- Water

**MAJOR FUNDING SOURCES**

6007	Solid Waste	6	1,819,875
6021	Storm Drainage Property Fee	10	7,896,300
<b>TOTAL CITY UTILITIES</b>			<b>\$37,540,675</b>

<sup>1</sup>Funds may be in several program areas and may be found in the other sections of this document.

<sup>2</sup>Projects may have multiple funding sources.

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section K). All projects receiving funding may be found by referring to Index L. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index O.

**MAJOR PROGRAMS AND PROJECTS**

The City Utilities Program includes a variety of projects and programs. The top-funded CIPs during the five-year period are listed below by subprogram.

**Water**

**Water+ Program (Z14190100, \$21.7 million)**

The Water+ Program will design plans and specifications for the development of necessary water supply expansion improvements needed due to expected growth. The program is necessary to ensure the City has sufficient water treatment capacity for the future water demands of the City of Sacramento. Long range water demand projections, based on General Plan projections, have identified shortage of water treatment capacity around 2035. These efforts will be funded by revenues generated from impact fees paid by developers whose projects add to the water supply demands. The Water+ Program also includes resiliency projects interrelated to one another and designs and implements projects to address climate change and reliability. A percentage of these projects will be funded by Impact Fees while the majority of the funding will be from rate payers. Once funding is identified, construction of the Water+ Program projects will be completed in phases. The first of the construction projects are slated to start within this 5-year period. The Water+ Program is funded by the Water Impact Fees (\$9.4 million, Fund 6001) and the Water Ratepayer Revenues (\$12.3 million, Fund 6005).

**Reservoir Rehabilitation Program (Z14130500, \$28.7 million)**

The Reservoir Rehabilitation Program will rehabilitate various components at seven of the City's twelve drinking water storage reservoirs. The seven reservoirs were constructed in the 1940's through 1960's and need repairs, improvements, and overhauls to keep these critical water system facilities operational. These projects are supported by asset management condition assessments as well as the Department of Utilities 2022 Water Supply Master Plan. Large projects that will be designed and constructed include the following:

- Freeport Reservoir Improvements: Install a 5 million gallon per day (mgd) pump for water quality and upgrade security components, electrical system, and controls with construction to begin in early 2024
- Florin Reservoir and Pump Station: Install two electrical pumps and motors, upgrade the aged electrical system and controls, improve ventilation, and installation of new heat exchangers
- Med Center Reservoir & Alhambra Reservoir: replace electrical switchgear, altitude valve, and instrumentation
- Exterior and Interior Coating at four reservoirs
- Exterior Concrete Sealing at three reservoirs

**Wastewater**

**Combined Sewer System Pipe Program (X14170100, \$23.0 million)**

The City's Combined Sewer System (CSS) is served by undersized and aging collection pipes that range from six inches to 120 inches pipe diameter, two primary CSS treatment plants, and by two large pump stations, Sumps 1 and 2. The City's operation of the CSS is governed by the Regional Water Quality Control Board through a National Pollutant Discharge Elimination System (NPDES) permit containing a Long-Term Control Plan that guides capacity improvement and rehabilitation projects to meet the CSS long term goals. Replacing worn, failed, or undersized CSS pipes, primary treatment plants and pump stations complies with these goals. Assets are prioritized for replacement based on condition and critical function and the capacity improvement priorities are evaluated under the Combined Master Plan Program. The CSS Pipe Program is funded by the Wastewater Impact Fees (\$4.5 million, Fund 6002), Wastewater Ratepayer Revenues (\$6.7 million, Fund 6006), and Storm Drainage Property Fees (\$11.8 million, Fund 6021).

**Recycling and Solid Waste**

**28<sup>th</sup> Street Landfill Regulatory Compliance Upgrades (Y15000100, \$5.6 million)**

This project ensures that waste buried at the 28<sup>th</sup> Street landfill does not come in contact with groundwater or otherwise compromise water quality. To ensure this and in response to a Corrective Action Order from the Regional Water Quality Control Board, this project

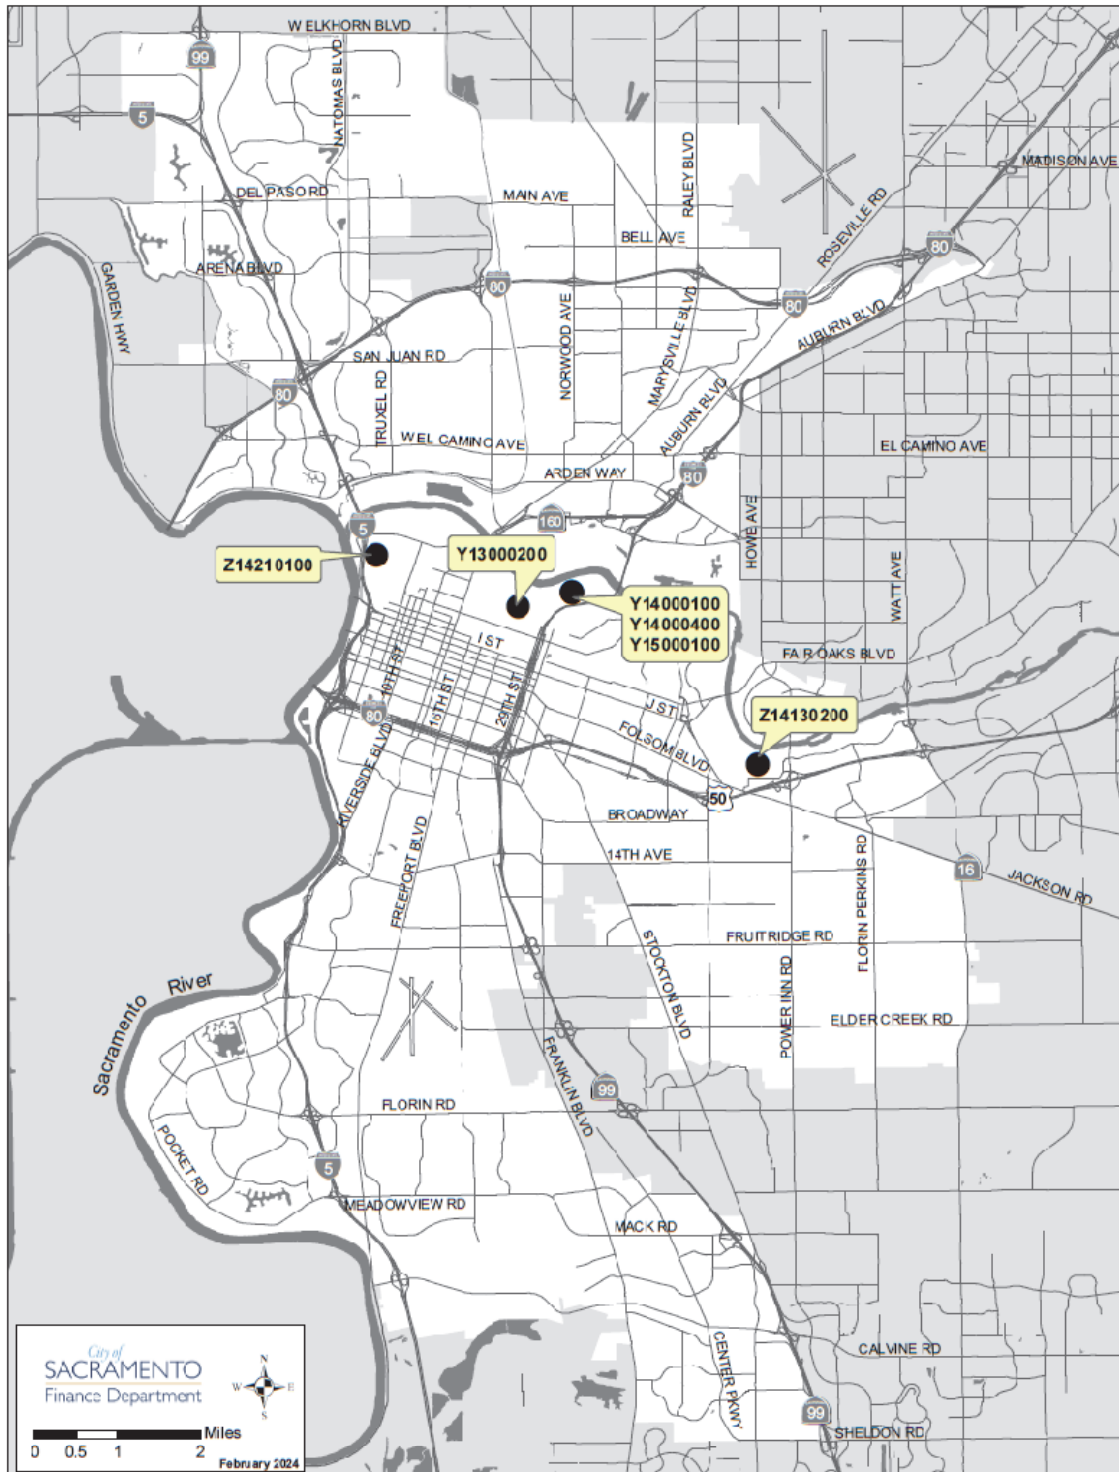

will enhance methane gas extraction capabilities by expanding the gas collection system and increase the separation of buried waste to groundwater.

**Storm Drainage Property Fee**

**Drainage Facility Electrical Rehabilitation Program (W14230200, \$9.3 million)**

The City operates and maintains 106 drainage pump stations. Electrical components at drainage pump stations have a useful life of about 30 years. Currently, there are more than 20 pump stations with electrical systems older than 30 years. It is difficult to find replacement parts for these systems, and they often do not meet current safety standards. This program will provide electrical upgrades at up to 15 drainage pump stations and improve backup power systems at an additional 14 stations in the next five years.

FY2024/25 Capital Projects and Programs  
*Non-site specific or multi-site projects are not shown*

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

# City of Sacramento Capital Improvement Program

W14000200

**Project Name** **BASE CIP CONTINGENCY DRAINAGE PROGRAM**

**Project Description** Reserve for unforeseen capital program needs.

**Project Objectives** Facilitate the completion of capital projects by reserving appropriations for minor overruns and provide a source of funds for small projects that could not be anticipated before the start of the fiscal year.

**Existing Situation** It is prudent to maintain a capital program reserve, renewed annually as needed, as a source of funding should the need arise to provide additional funding for an existing project due to previously unforeseen conditions.

**Operating Budget Impact** None.

**Capital Improvement Program**

**W14150700**

**Project Name** **DRAINAGE IMPROVEMENT PROGRAM**

**Project Description** This program funds improvement projects in the City's drainage basins. These projects are identified through master planning or condition assessment efforts.

**Project Objectives** Fund improvement projects in our drainage basins with the goal of meeting City adopted levels of service.

**Existing Situation** Many of the City's drainage basins underperform during intense storms leading to street flooding and in some cases property damage.

**Operating Budget Impact** None.

W14170100

**Project Name** **DRAINAGE COLLECTION SYSTEM REPAIR AND REHABILITATION PROGRAM**

**Project Description** This program will rehabilitate elements of the storm drainage system including storm drains, leads, manholes, and mainline pipe by trenchless and replacement methods.

**Project Objectives** To protect public health and safety through maintenance of the City's storm drain system including drain inlets, leads, manholes, and mainline pipe through trenchless or traditional replacement means.

**Existing Situation** The drainage collection system is comprised of various elements that in time become old, deteriorated, and difficult to repair and/or maintain.

**Operating Budget Impact** None.

**City of Sacramento  
Capital Improvement Program**

**W14230100**

**Project Name** **DRAINAGE TRASH CAPTURE PROGRAM**

**Project Description** Design and construction of certified full trash capture devices and/or multi-benefit low impact development features that will prevent trash greater than 5 mm from being discharged to waterways for identified areas (high density residential, commercial, industrial, and mixed use) with litter to meet the requirements of the State Water Resources Control Board’s Statewide Trash Provisions.

**Project Objectives** This project aims to comply with the State Water Resources Control Board’s Statewide Trash Provisions mandate to effectively prohibit trash greater than 5 mm from being discharged to waterways from the municipal separate storm sewer system by 2030.

**Existing Situation** Trash racks have been installed at most of the sump stations or upstream of sump stations to capture large trash from entering the sump station and ending up in protected waterways. At this time, there are no certified full trash capture devices installed and trash measuring greater than 5 mm can be discharged to waterways.

**Operating Budget Impact** None.

# City of Sacramento Capital Improvement Program

Y13000200

**Project Name** CANNON-SCOLLAN LANDFILL CLOSURE PROGRAM

**Project Description** Closure of the landfill site located directly west of the 28th Street Landfill and south of the Dellar Landfill.

**Project Objectives** Conduct a comprehensive clean up and abatement effort to correct the waste encroachment and eliminate potential liability from the nearby private property owners. Complete closure plan, grade site to drain, and commence post-closure monitoring.

**Existing Situation** A recent survey of the Cannon-Scollan Landfill revealed that waste encroached property lines to the south and west and has affected several private property parcels.

**Operating Budget Impact** None.

# City of Sacramento Capital Improvement Program

Y15000100

**Project Name** 28TH STREET LANDFILL REGULATORY COMPLIANCE UPGRADES PROGRAM

**Project Description** Comply with the Regional Water Quality Control Board (RWQCB), approved closure/post-closure plan, corrective actions for the RWQCB's clean up and abatement order, and new requirements from the Sacramento County Environmental Management Department.

**Project Objectives** Enhance methane gas extraction capabilities by expanding the gas collection facilities, installing a new, high-efficiency flare, and allowing for future expansion into adjacent legacy landfills as necessary pending future regulatory requirements.

**Existing Situation** Review indicated that groundwater beneath the 28th Street landfill and adjacent properties may, on occasion, come within five feet of waste, but only during very high stages of flow in the American River (less than 10% of the time).

**Operating Budget Impact** None.

# City of Sacramento Capital Improvement Program

Z14010000

**Project Name** RESIDENTIAL WATER METER PROGRAM

**Project Description** Install water meters at residential homes that do not currently have meters. Assembly Bill (AB) 2572 requires water meters be installed on existing water service connections by 2025. Once the City is fully metered, a replacement program will be developed and implemented.

**Project Objectives** Comply with AB 2572, promote conservation, and bill customers for the amount of water they use. Once the City is fully metered, a replacement program will be developed to replace meters, gateways, endpoints and other associated infrastructure.

**Existing Situation** Meters are installed at 100% of all customers' locations, and program close out items are underway. Ongoing funds will support the meter replacement program.

**Operating Budget Impact** None.

**City of Sacramento**  
**Capital Improvement Program**

**Z14110100**

**Project Name** **WELL REHABILITATION PROGRAM**

**Project Description** Rehabilitate and replace dilapidated infrastructure at the City potable groundwater facilities. Monitoring capabilities may be required and other work associated with the groundwater well program.

**Project Objectives** Improve City's water supply reliability and groundwater extraction capability. A reliable groundwater supply will optimize conjunctive management of the City's water supply and will allow the City to participate in future drought banking programs and water transfers.

**Existing Situation** Most groundwater wells in the City were constructed in the 1950s, and require extensive rehabilitation or repairs on the mechanical equipment, electrical switchgear, and well casings. Failing wells require replacement wells to be constructed and the existing wells to be abandoned. Addition of treatment to existing well sites is also explored where feasible.

**Operating Budget Impact** None.

**City of Sacramento**  
**Capital Improvement Program**

**Z14140600**

**Project Name** **DOU FACILITY IMPROVEMENTS AND REHABILITATION PROGRAM**

**Project Description** This program provides funding for capital improvements to Department of Utilities facilities including space planning and rehabilitation projects.

**Project Objectives** Improve the existing condition of Department of Utilities facilities through maintenance and/or replacement projects for continued occupancy of Department of Utilities sites.

**Existing Situation** As projects are identified, they will be completed and funded through this program.

**Operating Budget Impact** None.

# City of Sacramento Capital Improvement Program

Z14190100

**Project Name** WATER+ PROGRAM

**Project Description** Design plans and specifications for the development of necessary water supply expansion improvements needed due to expected growth as well as resiliency projects for the City's water supply and facilities. Provide sustainable, reliable, and sufficient water treatment capacity for the existing and future needs of the City of Sacramento.

**Project Objectives** Ensure the City has sufficient and resilient water treatment capacity for the future water demands of the City of Sacramento.

**Existing Situation** Long range water demand projections, based on General Plan projections, have identified a potential shortage of water treatment capacity around 2035.

**Operating Budget Impact** None.

**SECTION – J**  
**Unfunded Capital Needs**

## UNFUNDED CAPITAL NEEDS

### INTRODUCTION

Unfunded capital needs refer to projects identified in approved City policy documents as needed or desired where funding is currently unavailable to complete the project. The Capital Improvement Plan classifies unfunded capital needs into three categories:

- Category A – Unfunded Deferred Maintenance
- Category B – Unfunded New Assets
- Category C – Major Projects Outside the CIP

Category A - Unfunded Deferred Maintenance consists of necessary maintenance and repairs to ensure City facilities and assets are in operational condition as well as replacement of existing assets that are at the end of their useful life and can no longer be repaired.

Category B - Unfunded New Assets refer to capital projects and other capital asset purchases related to external forces such as population growth, changing industry standards, and new regulatory requirements adopted by the State or federal government. These kinds of unfunded needs are necessary to maintain regulatory compliance and to continue delivering services at acceptable levels to City residents.

Category C - Major Projects Outside the CIP refers to capital needs beyond the 5-year time horizon of the CIP. Cost estimates for these projects may not be available or may be highly uncertain. Category C is included for information only, and financial data for Category C projects are not included in CIP totals.

This report conveys the City's unfunded capital needs within the context of the upcoming fiscal year. The unfunded capital needs are analyzed over a five-year period for each of the City's six CIP program areas: General Government; Public Safety; Convention, Culture, and Leisure; Parks and Recreation; Transportation; and Utilities.

The five-year CIP totals \$483.1 million, including \$71.6 million in General/Measure U (G/MU) Funds. The fiscal year (FY) 2024/25 CIP budget totals \$115.4 million, including \$15.0 million in G/MU Funds. There is a total unfunded capital need of \$1.4 billion from all funding sources, including \$203.3 million from the General/Measure U (G/MU) Fund in the FY2024-29 CIP.

The General/Measure U (G/MU) Funds for total project cost in the following table were determined based on actual budget allocations. General Government is approximately 20% General/Measure U (G/MU) Fund reliant and Public Safety is 100% General/Measure U (G/MU) Fund reliant. All other program areas have less than 1% General/Measure U (G/MU) and were excluded from this estimate.

## 2024-2029 Approved Capital Improvement Program

The following tables summarize the unfunded needs identified during development of the FY2024/29 Approved CIP and beyond. In addition, to the current funding established for existing projects or programs for the FY2024/29 CIP. Further analysis and refinement of these estimates would be required before funding is requested to address specific unfunded needs.

Unfunded Capital Needs		
Category	All Funds	General & Measure U
Category A	\$1,077,304,251	\$60,645,724
Category B	\$311,341,000	\$142,688,200
Category C	\$7,948,600,000	\$601,120,000
<b>Total</b>	<b>\$9,337,245,251</b>	<b>\$804,453,924</b>

Funded Capital Allocations for Existing Projects		
Funding Year	All Funds	General & Measure U
FY 2024/25	\$115,418,117	\$15,091,664
<b>5-Year Total</b>	<b>\$483,086,190</b>	<b>\$71,558,382</b>

### Category A – Unfunded Deferred Maintenance

The numbers included in the table below represent best estimates of how much deferred maintenance priorities could be delivered in the next five fiscal years if sufficient funding were identified. Further breakdowns of the data are included below by program area.

Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
General Government	\$32,727,265	\$11,123,540	\$11,118,700	\$11,615,450	\$11,643,665	\$78,228,620
Public Safety	\$9,000,000	\$9,000,000	\$9,000,000	\$9,000,000	\$9,000,000	\$45,000,000
Convention, Culture, & Leisure	\$8,250,000	\$6,550,000	\$6,550,000	\$6,300,000	\$6,300,000	\$33,950,000
Parks & Recreation	\$5,000,000	\$5,000,000	\$5,000,000	\$5,000,000	\$5,000,000	\$25,000,000
Transportation	\$161,100,000	\$161,150,000	\$157,702,500	\$157,757,625	\$157,815,506	\$795,525,631
City Utilities	\$7,000,000	\$10,800,000	\$27,900,000	\$26,100,000	\$27,800,000	\$99,600,000
<b>Total</b>	<b>\$223,077,265</b>	<b>\$203,623,540</b>	<b>\$217,271,200</b>	<b>\$215,773,075</b>	<b>\$217,559,171</b>	<b>\$1,077,304,251</b>

### Category B – Unfunded New Assets

The numbers in the table below represent best estimates of capital projects and purchases associated with new assets that could be delivered in the next five fiscal years if sufficient funding were identified. Further breakdowns of the data are included below by program area.

Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
General Government	\$5,626,000	\$4,381,000	\$16,653,000	\$6,378,000	\$6,903,000	\$39,941,000
Public Safety	\$40,040,000	\$20,540,000	\$22,040,000	\$25,040,000	\$27,040,000	\$134,700,000
Convention, Culture, & Leisure	\$500,000	\$500,000	\$300,000	\$0	\$0	\$1,300,000
Parks & Recreation	\$0	\$0	\$0	\$0	\$0	\$0
Transportation	\$0	\$0	\$0	\$0	\$0	\$0
City Utilities	\$20,500,000	\$22,700,000	\$27,600,000	\$34,700,000	\$29,900,000	\$135,400,000
<b>Total</b>	<b>\$66,666,000</b>	<b>\$48,121,000</b>	<b>\$66,593,000</b>	<b>\$66,118,000</b>	<b>\$63,843,000</b>	<b>\$311,341,000</b>

**Category C – Major Long-Term Projects**

The projects and cost estimates listed in each program area section represent best estimates of capital needs beyond the five-year forecast to maintain existing assets in acceptable condition and acquire new assets to meet service delivery needs. These are priorities that cannot be delivered within the next five fiscal years and cost estimates may be unavailable or highly uncertain. Financial information associated with these projects are not included in CIP totals.

<b>Program Area</b>	<b>Cost Beyond 5-Year CIP</b>
General Government	\$197,600,000
Public Safety	\$561,600,000
Convention, Culture, & Leisure	\$25,800,000
Parks & Recreation	\$93,600,000
Transportation	\$5,135,000,000
City Utilities	\$1,935,000,000
<b>Total</b>	<b>\$7,948,600,000</b>

**General Government – Section D**

The General Government Program is divided into the following major subprograms:

- City Facilities, which manages over 400 public buildings and supports maintenance, operations, and capital improvements throughout the City;
- Fleet Management, which manages approximately 2,700 vehicles and assets;
- Information Technology, which support City staff and operations; and
- Libraries

The table below summarizes the current backlog for General Government that could be delivered at the departments’ current staffing levels if funding were available. The 5-Year total for all service areas in this category is \$78.2 million. For an itemized list of projects for this category, refer to page J-17 at the end of this section.

**Category A – Unfunded Deferred Maintenance**

<b>General Government</b>	<b>FY 2024/25</b>	<b>FY 2025/26</b>	<b>FY 2026/27</b>	<b>FY 2027/28</b>	<b>FY 2028/29</b>	<b>5-Year Total</b>
City Facilities	\$10,537,265	\$7,683,540	\$7,578,700	\$7,425,450	\$7,503,665	\$40,728,620
Fleet Management	\$19,750,000	\$1,350,000	\$1,450,000	\$1,750,000	\$2,050,000	\$26,350,000
Information Technology	\$440,000	\$90,000	\$90,000	\$440,000	\$90,000	\$1,150,000
Libraries	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$10,000,000
<b>Grand Total</b>	<b>\$32,727,265</b>	<b>\$11,123,540</b>	<b>\$11,118,700</b>	<b>\$11,615,450</b>	<b>\$11,643,665</b>	<b>\$78,228,620</b>

**City Facilities and Libraries:**

The City manages over 400 public buildings with over 3 million square feet of building space plus associated grounds and parking lots, as well as numerous properties. City buildings serve a wide variety of functions, including administrative offices, community centers, fire stations,

---

police stations, museums, the Sacramento Valley train station, the animal shelter, and libraries. These buildings require regular maintenance to address the various systems in them (e.g., electrical, mechanical, heating and air conditioning, plumbing, roofing), the building elements themselves (e.g., painting), and the associated grounds and parking lots.

In FY2017/18, the City prepared a Facility Conditions Assessment for about 200 of its buildings. Due to resource constraints, the City does not have a complete assessment of all facilities and properties and does not have an up-to-date asset management system to track the hundreds of thousands of elements of these facilities. To identify the general state of current deferred maintenance needs, figures from the Assessment have been escalated to current-day costs and some updated information has been included where known. This assessment did not include costs for facilities that need to be replaced, expanded, or upgraded to meet current needs.

Current funding for deferred maintenance through the City Facility Reinvestment Program is \$2.1 million annually for those facilities that serve functions/departments funded through the General Fund, which primarily addresses equipment or actions in need of emergency repairs or that fail. This level of funding addresses smaller emergency repairs, but there is not sufficient funding to address larger needed repairs. For instance, replacements of HVAC systems at 300 Richards Boulevard and the Public Safety Building, which are both past end of life, are at least \$3 to \$5 million for each facility alone.

Existing staffing also limits the amount of deferred maintenance projects that could be delivered even if funding were available, as the Facilities Division has about 30 fewer staff than it had 15 years ago, as it has never restored staffing after reductions during the recession.

The City has pursued state grants to rehabilitate libraries to the extent feasible. With the state budget crisis, it is anticipated that this program will not be available for some time.

### Fleet Management:

Due to resource constraints, the City does not replace all vehicles that are recommended for replacement according to industry standards. Due to funding constraints, there is currently \$19 million in vehicles not scheduled for replacement that warrant it based on industry standards. In addition, to comply with the City's current Fleet Sustainability Policy, which requires replacement of light duty vehicles with electric vehicles unless not possible to meet operational needs, there is an additional increasing cost of over \$1 million annually increasing by 5 percent every year.

### Information Technology:

**Firewall Maintenance** - The City's network is secured by six firewalls. The firewalls prevent bad actors/hackers from accessing the city's sensitive data and secure both inbound and outbound traffic as well as help segment traffic within the city's network. The City's firewalls filter 45,000 connections from unauthorized users attempting to access the city's network while allowing 800 secure remote telecommute connections daily. The firewalls are essential to both the City's and Public Safety's daily operation. Technical support service is renewed every three years. A budget change proposal was requested and if approved, additional funding will be needed in FY2027/28 to continue technical support for the City's network.

---

Adlib PDF Documentation Transformation Software Maintenance - The City uses CCM/CARA as the primary document management repository for storing critical city business documents. To ensure accessibility across various devices over the long term, the Adlib PDF transformation service is used to standardize the documents to PDF format. Different business processes generate files in various formats such as MS Word, TIFF, and JPEG images. Most document images from Finance, HR, and DOU operations are created in different file formats. The Adlib PDF tool plays a crucial role in advanced PDF conversion, content standardization, document merging, and data extraction. This document conversion process is essential before ingesting files into the CCM/CARA program, ensuring long-term retention, and facilitating quick and easy access for internal and external users.

Fiber Network Maintenance - Funding for ongoing maintenance will provide the necessary resources needed to maintain and expand the fiber optic infrastructure that is needed to connect remote facilities and industrial assets. It allows the City to operate more efficiently by reducing telecommunication carrier dependency, commute times, and response time for repairs. By not supporting this program, the City would not have the ability to connect remote facilities such as fire stations, community centers, and pump stations to the City’s fiber network. These facilities will be required to pay for digital internet services that over time will cost the city more. The cost to maintain the fiber network is \$50,000 per year.

The table below summarizes the current future needs for General Government programs that could be delivered over the next five-years at the departments’ current staffing levels if funding were available. The 5-Year total for all service areas in this category is \$39.9 million. For an itemized list of projects for this category, refer to page J-18 at the end of this section.

**Category B – Unfunded New Assets**

General Government	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
City Facilities	\$2,641,000	\$2,306,000	\$4,078,000	\$3,803,000	\$4,328,000	\$17,156,000
Fleet Management	\$1,850,000	\$1,350,000	\$1,350,000	\$1,350,000	\$1,350,000	\$7,250,000
Information Technology	\$1,135,000	\$725,000	\$11,225,000	\$1,225,000	\$1,225,000	\$15,535,000
<b>Grand Total</b>	<b>\$5,626,000</b>	<b>\$4,381,000</b>	<b>\$16,653,000</b>	<b>\$6,378,000</b>	<b>\$6,903,000</b>	<b>\$39,941,000</b>

Replacement of Aged City Facilities:

Many of the City’s facilities and libraries are outdated and will eventually require replacement. The City has not conducted any assessment of these costs, but it would easily be in the hundreds of millions of dollars.

New Facilities and Properties:

The City continues to bring on new facilities and property without any dedicated funding for ongoing maintenance and repair. In the last few years, the City has added two new fire stations, which will require ongoing maintenance as well as care for closed former stations. The City purchased 102 acres in Meadowview for future use; this lot requires ongoing weed abatement, security services, and access to the site, an annual cost in excess of \$300,000 in maintenance costs alone. The property will also require ongoing maintenance when it is fully developed.

---

The City has also recently acquired the property at 3900 Roseville Road, which is partially being used as a facility to serve persons experiencing homelessness and includes additional buildings that warrant maintenance.

City Facility Initiatives:

The City's Climate Action and Adaptation Plan (CAAP) calls for transition from natural gas to all electric for all buildings, including all City facilities. No assessment of the costs of these actions have been made, but it would easily be in the tens of millions of dollars if not more.

Electric Vehicle Charger Maintenance and Repair:

The City currently has about 150 EV chargers with plans to install more than 100 in the next year to serve fleet and community needs for electric vehicle infrastructure. Ongoing maintenance and replacement costs are estimated at about \$750,000 currently to upgrade and repair existing chargers, and about \$250,000 per year ongoing.

In order to accommodate the planned new electric vehicles (light duty fleet) that are planned for purchase over the next five years, additional electric charging infrastructure is needed, which also involves electrical supply upgrades. The City was able to get federal funding to support this, but there remains about a \$1 million annual deficit. This does not include infrastructure needs associated with the Advanced Clean Fleet regulations that are discussed in the next section.

Information Technology:

Citywide Content Management System (CCM) Replacement - CCM is the official City repository for numerous sets of critical records. Hard copy documents no longer exist but are maintained in CCM for essential document types such as HR documents, public records, etc. CCM tools allow capturing, managing, storing, preserving, and delivery of all content related to the City. Business Process Automation (BPA) software like K2, Adobe Sign allows the City to streamline and provide an efficient way to model the business process to link human actions and applications in the end-to-end business automation. The combination of CCM and BPA provides opportunities throughout the organization to automate business and create staff efficiencies, reduce manual processes, and paper consumption.

One of the components that makes up CCM will no longer be supported and will require replacement software, or new software implementation will be required. The estimated cost to replace CCM includes a one-time of \$910,000; and the additional ongoing cost needed is \$125,000. A budget change proposal was requested and if approved and implemented, this item will be removed from this section.

City's Finance and Personnel System (eCAPS) Replacement - eCAPS is the City's core business applications that manage information and provide administrative processing of essential services that support key business operations including Finance, Payroll, HR/Benefits, Budget, Treasury Support, Custom Software Development, System Interface, and Integration,

SCERS Retirement, Procurement, Contract Management, Strategic Sourcing, and Business Process Analysis.

eCAPS was implemented beginning in 2006 and is reaching the end of life and will need to be replaced and migrated to their Cloud software version. The City conducted a business value assessment to identify the migration cost and determined that the cost would be \$10,000,000 one-time, and \$1,000,000 ongoing which is in addition to our current maintenance cost. Included in the one-time cost is staffing backfilling so that existing staff can focus on designing and implementing the new cloud system.

Contact Center Upgrade - Out Contact Centers are our answering point for public services including 311, DOU Customer Service, Revenue, Box Office Etc. The City currently has over 100 agents that answer calls. 311 for example, answers call 24 hours/7 days a week. The servers and hardware that support our Contact Centers are five years old and should be replaced this year. The cost to replace them is shared among the departments based on the number of agents and contact center features. The cost per agent has dramatically increased, due to systems enhancement with these services. This includes integrations leveraging artificial intelligence (AI) and Natural Voice Call Routing (IVR). It is estimated to cost the City, approximately an additional \$100,000 per year to support our 100 agents.

**Category C** – Major long-term projects that cannot be completed in 5 years and need to be addressed or funded in out years.

- Facilities and Libraries \$100 million
- Fleet Vehicle Backlog \$97.6 million

Facilities and libraries: The current level of deferred maintenance backlog is estimated at over \$100 million, without including replacements or sustainability upgrades. Many facilities are outdated and would benefit from replacement, including the animal shelter, South Area corporation yard, some fire stations, libraries, and other facilities. No assessment has been made to prioritize these needs or provide cost estimates.

Fleet: Implementation of the new state-mandated Advanced Clean Fleet (ACF) regulations will require major expenditures for vehicles and complete transformation of supportive infrastructure to implement replacements of medium and heavy-duty fleet vehicles with electric or zero emission options. The City is currently working with SMUD on a general assessment of needs for vehicle replacements and supportive infrastructure needs, although the future costs of vehicles in most cases are not yet determined, as medium and heavy-duty electric models are not yet generally widely available. Currently, electric versions of medium and heavy-duty vehicles, when available, are usually 50% to 90% more in cost than current vehicles. In addition, to serve these vehicles, massive investments in new electric services and electric charging facilities will be needed, as well as backup generators to address power outages, and upgrades to the City's fleet shops. Electric vehicles, particularly larger trucks, require new equipment,

safety controls, and electric shock and fire prevention. Total City costs for compliance with this new regulation are still being estimated.

**Public Safety – Section E**

The Public Safety Program reflects the City’s efforts to provide and replace body worn cameras, police safety equipment, ambulances, fire vehicles, fire safety equipment, and generators for public safety facilities. There are 24 Fire Stations, 4 Police stations, and a combined total of over 400 vehicles and equipment.

The table below summarizes the current backlog for Public Safety that could be delivered at the departments’ current staffing levels if funding were available. The 5-Year total for all service areas in this category is \$45 million. For an itemized list of projects for this category, refer to page J-18 at the end of this section.

**Category A – Unfunded Deferred Maintenance**

<b>Public Safety</b>	<b>FY 2024/25</b>	<b>FY 2025/26</b>	<b>FY 2026/27</b>	<b>FY 2027/28</b>	<b>FY 2028/29</b>	<b>5-Year Total</b>
Police	\$3,000,000	\$3,000,000	\$3,000,000	\$3,000,000	\$3,000,000	\$15,000,000
Fire	\$6,000,000	\$6,000,000	\$6,000,000	\$6,000,000	\$6,000,000	\$30,000,000
<b>Grand Total</b>	<b>\$9,000,000</b>	<b>\$9,000,000</b>	<b>\$9,000,000</b>	<b>\$9,000,000</b>	<b>\$9,000,000</b>	<b>\$45,000,000</b>

Based on the facility assessment conducted by the Department of Public Works, replacement of the HVAC systems at the Public Safety buildings and Police Stations is needed. The HVAC systems have exceeded the life span of the units and need to be replaced.

The Fire Department would need an additional \$6.0 million per year in order to maintain and complete the necessary deferred maintenance projects at the fire stations. Based on a deferred maintenance study conducted in 2017 by CannonDesign, only a few projects from the study have been completed and the list of deferred maintenance continues to grow as our infrastructure continues to age.

The table below summarizes the current future needs for Public Safety programs that could be delivered over the next five-years at the departments’ current staffing levels if funding were available. The 5-Year total for all service areas in this category is \$134.7 million. For an itemized list of projects for this category, refer to page J-18 at the end of this section.

**Category B – Unfunded New Assets**

<b>Public Safety</b>	<b>FY 2024/25</b>	<b>FY 2025/26</b>	<b>FY 2026/27</b>	<b>FY 2027/28</b>	<b>FY 2028/29</b>	<b>5-Year Total</b>
Police	\$0	\$500,000	\$0	\$0	\$0	\$500,000
Fire	\$40,040,000	\$20,040,000	\$22,040,000	\$25,040,000	\$27,040,000	\$134,200,000
<b>Grand Total</b>	<b>\$40,040,000</b>	<b>\$20,540,000</b>	<b>\$22,040,000</b>	<b>\$25,040,000</b>	<b>\$27,040,000</b>	<b>\$134,700,000</b>

The Police Department needs to replace and add lockers at the North and South commands. Existing lockers no longer have the functional capacity to accommodate officers’ needs. When

the lockers were originally purchased, some as old as 1989, SPD officers weren't required to carry the tools/equipment that officers are required to carry and store today. Locker sizes also vary, with officers being assigned two to accommodate officer equipment and clothing. Additionally, some lockers are broken or have missing parts, such as shelves, hooks, or bars.

The Fire Departments unfunded capital needs includes mechanical and electrical work needed at Fire Station 14 and 15, new Fire Station 4, Metro AirPark and Delta Shores Stations, and rebuilds for Fire Station 56, 57, and 60.

**Category C** – Major long-term projects that cannot be completed in 5 years and need to be addressed or funded in out years.

- New South Station Facility \$30 million
- Fire Station Rebuilds (4) \$110 million
- New development fire stations (Railyards & West End) (2) \$55 million
- Electric Vehicles and updating infrastructure need for fire stations \$97.6 million
- Ambulance and Apparatus Replacements \$269 million

**Convention, Culture, and Leisure – Section F**

The Convention, Culture, and Leisure Program promotes and preserves the City’s unique cultural heritage by delivering accessible arts, leisure, and educational experiences to enrich people's lives and enhance the metropolitan area. There are 6 Golf courses, Old Sacramento historic district, the Marina, and the Sacramento Zoo that has over 400 animals.

The table below summarizes the current backlog for Convention, Culture, and Leisure that could be delivered at the departments’ current staffing levels if funding were available. The 5-Year total for all service areas in this category is \$34 million. For an itemized list of projects for this category, refer to page J-19 at the end of this section.

**Category A – Unfunded Deferred Maintenance**

Convention, Culture, & Leisure	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Building Improvements	\$6,250,000	\$6,250,000	\$6,250,000	\$6,000,000	\$6,000,000	\$30,750,000
Marina	\$2,000,000	\$300,000	\$300,000	\$300,000	\$300,000	\$3,200,000
<b>Grand Total</b>	<b>\$8,250,000</b>	<b>\$6,550,000</b>	<b>\$6,550,000</b>	<b>\$6,300,000</b>	<b>\$6,300,000</b>	<b>\$33,950,000</b>

**Building Improvements:**

The City’s museums, Zoo, and Old Sacramento have at least \$30 million in unfunded deferred maintenance. Currently, the Old Sacramento dock replacement is estimated at about \$5 million, Rio City Café is estimated at about \$3.8 million, K-Street Barge is estimated at about \$3.2 million all of which are in dire need of replacement and have reached critical failure. South Public Market Deck - The South Public Market in Old Sacramento hosts several food vendors including Railroad Fish and Chips, Emma’s Tamales and Bali Kitchen. The building is in need of a new

deck. The current deck has undergone significant maintenance but is beyond its useful life. Constructing the new deck will require significant ADA upgrades not only to the deck but to the street and adjacent parking in order to be compliant. CCS requested funding in FY21/2022 but was there was insufficient funding to cover the request.

**Marina:**

The Sacramento Marina is an aging facility. No assessment of deferred maintenance on this facility has been completed as all funding generated by the Marina is used to cover operations and debt service for the costs to build the South Basin 20 years ago; however, it should be noted this is an aging structure with docks, ramps, and facilities that are exposed to water and weather impacts, so would easily benefit from at least \$2 million in the first year for maintenance and repairs with ongoing \$200,000 funding. There is also an unfunded need to address maintenance of its parking lot and the surrounding natural riparian area.

The table below summarizes the current future needs for Convention, Culture, and Leisure programs that could be delivered over the next five-years at the departments’ current staffing levels if funding were available. The 5-Year total in this category is \$1.3 million. For an itemized list of projects for this category, refer to page J-19 at the end of this section.

**Category B – Unfunded New Assets**

Convention, Culture, & Leisure	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Building Improvements	\$500,000	\$500,000	\$300,000	\$0	\$0	\$1,300,000
<b>Grand Total</b>	<b>\$500,000</b>	<b>\$500,000</b>	<b>\$300,000</b>	<b>\$0</b>	<b>\$0</b>	<b>\$1,300,000</b>

**Building Improvements:**

Service Court 11 Remodel - There are 13 service court areas throughout Old Sacramento where local residents and businesses dispose of their trash, recycling and green waste. These service courts were owned by the redevelopment agency and ultimately transferred to the City. One of the service courts has become inaccessible because it requires the trash collection vehicles to drive down a steep slope and it does not meet the requirements for a trash collection site because it is on an unimproved lot. Correcting this issue will require creating a concrete landing that is capable of holding significant weight, with grease traps and a tie into the sewer system for drainage.

Sacramento Zoo Site Evaluation Future Use Analysis - It is expected that the Sacramento Zoo will relocate to Elk Grove in approximately 5 years. In order to be proactive, the City should begin dedicating resources to evaluate existing infrastructure and evaluating potential future uses for the site. Funding recommendations are rough estimates, it is highly likely that with more exploration additional funding will be necessary.

**Category C – Major long-term projects that cannot be completed in 5 years and need to be addressed or funded in out years.**

- Capital Improvements to Repurpose Sacramento Zoo Site – Cost Unknown

2024-2029 Approved Capital Improvement Program

---

- Memorial Auditorium Loading Dock Façade (Incomplete phase of Memorial Auditorium renovation project)- \$800,000 based on 2019 estimate.
- SAFE Credit Union Performing Arts Center Multi-Purpose Room shell buildout. This is an unfinished portion of the theater remodel which was originally intended to be a black box theater or multipurpose space - \$3 Million based on 2020 estimate.
- SAFE Credit Union Convention Center Cold Shell buildout – There is an unfinished section of the Convention Center which has the potential to be built out for a variety of potential uses including either a concessionaire space or leasable space for potential revenue opportunities. - \$2 Million.
- New Center for Sacramento History (CSH) facility. CSH houses the City’s historical archives and artifacts as well as an extensive collection of film, photos and other media, all of which are irreplaceable. The current facility is below the flood plain and at risk sustaining substantial damage to both the building as well as the historic collections. – \$10 Million - \$20 Million.

**Parks and Recreation – Section G**

The Parks and Recreation Program provides residents with significant personal, social, environmental, and economic benefits. Developing and rehabilitating existing parks and facilities, with a focus on park safety and sustainability, is a high priority for the City. The City manages over 230 parks with a wide range of amenities, including sports fields and courts, picnic areas and playgrounds, dog parks, community gardens, amphitheaters, as well as other supportive features.

The table below summarizes the current backlog for Parks and Recreations that could be delivered at the departments’ current staffing levels if funding were available. The 5-Year total for all park district areas is \$25 million. For an itemized list of projects for this category, refer to page J-19 at the end of this section.

**Category A – Unfunded Deferred Maintenance**

<b>Parks and Recreation</b>	<b>FY 2024/25</b>	<b>FY 2025/26</b>	<b>FY 2026/27</b>	<b>FY 2027/28</b>	<b>FY 2028/29</b>	<b>5-Year Total</b>
District 1 Park Improvements	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 2 Park Improvements	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 3 Park Improvements	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 4 Park Improvements	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 5 Park Improvements	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 6 Park Improvements	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 7 Park Improvements	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 8 Park Improvements	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
<b>Grand Total</b>	<b>\$5,000,000</b>	<b>\$5,000,000</b>	<b>\$5,000,000</b>	<b>\$5,000,000</b>	<b>\$5,000,000</b>	<b>\$25,000,000</b>

Parks and Recreation deferred maintenance is evaluated on an on-going basis. An example of the high-priority projects includes repairs at Regency Community Park, Margaretté “Mama” Marks Park, Ninos Park, Bertha Henschel Park, James Mangan Park, Glenbrook Park, the City

Cemetery and 24<sup>th</sup> Street Bypass Park. The current ongoing parks deferred maintenance listing totals \$118 million and deferred maintenance for pools citywide is approximately \$12 million. Current staffing levels would address approximately \$5 million of repair and replacement needs per fiscal year.

**Category B – Unfunded New Assets**

The department has not determined any other capital asset purchases related to external forces. Any compliance related improvements are included in the Deferred Maintenance Listing in Category A.

**Category C – Major long-term projects that cannot be completed in 5 years and need to be addressed or funded in out years.**

- District 1 Park Improvements \$3.3 million
- District 2 Park Improvements \$14.3 million
- District 3 Park Improvements \$9.5 million
- District 4 Park Improvements \$13.6 million
- District 5 Park Improvements \$7.6 million
- District 6 Park Improvements \$11 million
- District 7 Park Improvements \$24.3 million
- District 8 Park Improvements \$10 million

**Transportation – Section H**

The City’s transportation program area network serves millions of trips annually in all forms of travel with extensive assets that require ongoing maintenance, repairs, and operations. The City has over 3,100 lanes mile of roadways, roughly 80 miles of off-street shared use paths, 250 miles of on-street bike lanes, 10 miles of separated bikeways, and 350 miles of on-street bikeways, 250 road and bicycle-pedestrian bridges, and 618 acres of streetscapes in 64 assessment districts. The City also manages and maintains over 800 traffic signals, 42,000 streetlights, and 150,000 traffic signs, as well as fiber conduit and other technologies.

The table below summarizes the current backlog for the City’s Transportation section that could be delivered at the departments’ current staffing levels if funding were available. The 5-Year total for all service areas in this category is \$795.5 million. For an itemized list of projects for this category, refer to page J-19 at the end of this section.

**Category A - Unfunded Deferred Maintenance**

<b>Transportation</b>	<b>FY 2024/25</b>	<b>FY 2025/26</b>	<b>FY 2026/27</b>	<b>FY 2027/28</b>	<b>FY 2028/29</b>	<b>5-Year Total</b>
Bikeways	\$4,000,000	\$4,000,000	\$500,000	\$500,000	\$500,000	\$9,500,000
Traffic Operations & Safety	\$58,000,000	\$58,000,000	\$58,000,000	\$58,000,000	\$58,000,000	\$290,000,000
Street Maintenance	\$98,600,000	\$98,650,000	\$98,702,500	\$98,757,625	\$98,815,506	\$493,525,631
Parking	\$500,000	\$500,000	\$500,000	\$500,000	\$500,000	\$2,500,000
<b>Grand Total</b>	<b>\$161,100,000</b>	<b>\$161,150,000</b>	<b>\$157,702,500</b>	<b>\$157,757,625</b>	<b>\$157,815,506</b>	<b>\$795,525,631</b>

According to the City's Pavement Conditions Index, the City currently has a \$298 million backlog in pavement repairs. The City dedicates an estimated \$12 million annually to roadway rehabilitation, so it would require an additional \$85 million annually over the next 10 years to bring the roadways into a state of good repair. At current funding levels, the backlog is estimated to reach \$1 billion in ten years.

There are over 250 bridges over rivers and canals in the City. Wherever possible, the City applies through the federal highway bridge program for most of the funding to replace structurally deficient roadway bridges. Preventative maintenance for remaining bridges is estimated at over \$15 million. With no federal funding programs, maintenance for bicycle bridges is estimated at about \$2 million per year.

The City currently has around 80 miles of off-street bike trails. Some of the City's trails require reconstruction due to soil issues that result in ongoing path failure.

The City's traffic signals and equipment were installed and developed over many decades. The need for repairs includes aging controller cabinets and components, interconnect and wiring, poles, detection failures, battery back-up systems, and central equipment. The current backlog to bring the entire system into best practice is \$250 million.

The City has over 150,000 traffic signs with poles as well as markings (e.g., striping in streets and curbs). Preventative maintenance standards call for replacement or repair on a 10-year life cycle. The City has about \$30 million in arrears on meeting this standard.

The City has over 42,000 streetlights, many of them many decades or even one hundred years old. Improvements require standard repairs and bulb replacements, retrofitting to LED bulbs to meet current City standards, and significant aged underground electrical conduit. Deferred maintenance is estimated at \$5 million annually.

The City maintains 618 acres of streetscapes in medians and adjacent to roadways, which require ongoing maintenance, trash and weed removal, and irrigation repairs and upgrades. With current ongoing funding, there is approximately \$1 million in shortfall annually, with costs increasing about 5% annually. The City is implementing retrofits to drought tolerant landscaping where feasible to reduce water use costs and mowing expenses.

The City maintains over 100,000 trees. After tree establishment which requires at least annual attention (estimated three years), best practices for tree health and to address potential hazards are a recommended pruning cycle of five to seven years. The City currently needs about \$1.5 million in additional funding to achieve this goal.

The City has a program that allows for the temporary closure of alleys with installation of gates or sometimes bollards. There is not adequate funding for ongoing maintenance, repair, and replacement of these gates, which comes to about \$100,000 a year.

The City's parking garages are aging and require ongoing maintenance, including elevator repairs, equipment, and repainting. Current unfunded levels for routine maintenance are approximately \$500,000 per year, without addressing major equipment replacements or major rehabilitation.

**Category B – Unfunded New Assets**

The department has not itemized other capital asset purchases related to external forces.

As the City grows, new transportation infrastructure is added to the City and requires ongoing maintenance. Major new areas anticipated include completion of Northlake, and development in the Panhandle, downtown Railyards, and Delta Shores areas, and redevelopment in the River District and 65<sup>th</sup> Street Planning Area and other infill zones.

In addition, as the City supports increased density and more frequent bus service, roadways are used more heavily resulting in faster deterioration and need for more frequent maintenance, and the additional bikeways and walkways, traffic equipment, and lighting will require ongoing maintenance and repairs.

**Category C** – Major long-term projects that cannot be completed in 5 years and need to be addressed or funded in out years.

As stated earlier, roadway maintenance is an ongoing underfunded need, estimated to require an additional \$85 million annually for the next ten years to bring it to a state of good repair. If the City could reach this goal, ongoing annual maintenance costs could then be reduced.

As an old City, many of the City's curb ramps, crossings, and traffic signal equipment were constructed prior to accessibility requirements and these require reconstruction to meet accessibility standards. The City dedicates an equivalent of 20% of its local transportation funds to addressing accessibility requirements. Despite this ongoing investment, there are still tens to hundreds of millions of dollars in unmet needs.

The City's parking garages are aging and have over \$50 million in deferred maintenance based on the last assessment.

In addition to maintenance of existing transportation assets, the City has adopted plans that include over \$5 billion in unfunded new transportation infrastructure.

There are significant neighborhoods throughout the City that lack streetlights. The City currently has no funding source dedicated to providing new streetlighting in unserved existing areas so has no identified means of providing this service, which would exceed hundreds of millions of dollars.

**City Utilities – Section I**

The City Utilities Capital Improvement Program supports projects in four service areas including Recycling and Solid Waste, Storm Drainage to manage the CMP Pipe Replacement Program,

---

2024-2029 Approved Capital Improvement Program

---

Wastewater, and Water. City Utilities is devoted to regulatory compliance, the improvement, rehabilitation, and replacement of the utility infrastructure, improvement or development-related projects, and ongoing facility-related issues.

The table below summarizes the current backlog for City Utilities that could be delivered at the departments' current staffing levels if funding were available. The 5-Year total for all service areas in this category is \$99.6 million. For an itemized list of projects for this category, refer to page J-20 at the end of this section.

**Category A – Unfunded Deferred Maintenance**

City Utilities	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Drainage	\$5,500,000	\$7,000,000	\$6,800,000	\$9,500,000	\$9,800,000	\$38,600,000
Wastewater	\$1,500,000	\$3,800,000	\$6,800,000	\$2,300,000	\$3,700,000	\$18,100,000
Water	\$0	\$0	\$14,300,000	\$14,300,000	\$14,300,000	\$42,900,000
<b>Grand Total</b>	<b>\$7,000,000</b>	<b>\$10,800,000</b>	<b>\$27,900,000</b>	<b>\$26,100,000</b>	<b>\$27,800,000</b>	<b>\$99,600,000</b>

The City Utilities Capital Improvement Program has 10 major deferred maintenance programs. The Storm Drainage service area includes the Ditch/Channel Repair, the Drainage Sump Rehabilitation/Replacement, and the Drainage Collection System Rehabilitation/Replacement programs. The Wastewater service area includes the Wastewater (Separated Sewer) Sump Rehabilitation/Replacement, the Separated Sewer Pipe Program, Combined Sewer System Pipe Program, and the Combined Sewer System Sump/Treatment Facility Rehabilitation programs. The Water service area includes the Water Facilities Electrical Rehabilitation, the Water Supply Rehabilitation, and the Water Distribution/Transmission Main Replacement programs.

The table below summarizes the current future needs for City Utilities programs that could be delivered over the next five-years at the departments' current staffing levels if funding were available. The 5-Year total for all service areas in this category is \$135.4 million. For an itemized list of projects for this category, refer to page J-20 at the end of this section.

**Category B – Unfunded New Assets**

City Utilities	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Drainage	\$8,200,000	\$9,900,000	\$9,200,000	\$9,900,000	\$5,100,000	\$42,300,000
Wastewater	\$12,300,000	\$12,800,000	\$12,800,000	\$19,200,000	\$19,200,000	\$76,300,000
Water	\$0	\$0	\$5,600,000	\$5,600,000	\$5,600,000	\$16,800,000
<b>Grand Total</b>	<b>\$20,500,000</b>	<b>\$22,700,000</b>	<b>\$27,600,000</b>	<b>\$34,700,000</b>	<b>\$29,900,000</b>	<b>\$135,400,000</b>

The City Utilities Capital Improvement Program has 6 major unfunded projected future needs programs. The Storm Drainage service area includes the Drainage Basin Improvement, the Drainage Facilities Improvement, and the Drainage Trash Capture programs. The Wastewater

---

service area includes the Combined Sewer System Long-Term Control Plan Projects. The Water service area includes the Groundwater Well program.

**Category C** – Major long-term projects that cannot be completed in 5 years and need to be addressed or funded in out years.

**Storm Drainage (\$283 million)**

- Drainage Pipe Improvement Program \$103 million
- Drainage Detention and Channel Improvement Program \$51 million
- Drainage Pump Station Improvement Program \$129 million

**Wastewater (\$972 million)**

- Combined Sewer System Sump Rehabilitation and Improvement Program \$53 million
- Combined Sewer System Treatment Facilities Rehabilitation and Improvement Program \$157 million
- Combined Sewer System Pipe Program \$149 million
- Combined Sewer System National Pollutant Discharge Elimination System Permit Compliance Program \$222 million
- Separated Sewer System Pipe and Sump Rehabilitation and Replacement Program \$391 million

**Water (\$680 million)**

- Groundwater Well Program \$95 million
- Water Treatment Plant Rehabilitation Program \$326 million
- Water Distribution/Transmission Main Replacement Program \$259 million

# 2024-2029 Approved Capital Improvement Program

## General Government - Category A Detailed Project List

Project	Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Animal Shelter	Animal Control	\$3,200,000	\$100,000	\$100,000	\$100,000	\$100,000	\$3,600,000
300 Richards retrofit HVAC	Repair/Remodeling	\$250,000	\$250,000	\$250,000	\$250,000	\$250,000	\$1,250,000
Paving and striping of parking lots at 300 Richards	Repair/Remodeling	\$0	\$0	\$169,700	\$0	\$0	\$169,700
Third floor kitchen/breakroom remodel at 300 Richards	Repair/Remodeling	\$0	\$110,600	\$0	\$0	\$0	\$110,600
Change locks for all doors in Richards Blvd. (conference rooms auto lock and shouldnt)	Repair/Remodeling	\$6,000	\$6,000	\$6,000	\$6,000	\$6,000	\$30,000
Second floor patio retrofit and canopy at 300 Richards	Repair/Remodeling	\$0	\$15,000	\$0	\$0	\$0	\$15,000
Additional window cleaning (every six months) and duct cleaning (five years) at Richards	Repair/Remodeling	\$7,000	\$2,000	\$2,000	\$2,000	\$2,000	\$15,000
Camera system at the Animal Shelter	Repair/Remodeling	\$0	\$80,000	\$0	\$0	\$0	\$80,000
Modular building at the Animal Shelter	Repair/Remodeling	\$0	\$0	\$0	\$50,000	\$0	\$50,000
Tag Machines (3) at the Animal Shelter	Repair/Remodeling	\$7,500	\$0	\$0	\$0	\$0	\$7,500
Logitech system and bar at the Animal Shelter	Repair/Remodeling	\$0	\$0	\$5,000	\$0	\$0	\$5,000
Storage sheds at the Animal Shelter	Repair/Remodeling	\$17,500	\$0	\$0	\$0	\$0	\$17,500
Pallet jack at the Animal Shelter	Repair/Remodeling	\$0	\$0	\$0	\$0	\$15,000	\$15,000
Commercial washing machine at the Animal Shelter	Repair/Remodeling	\$0	\$0	\$0	\$0	\$28,000	\$28,000
Commercial Dryer at the Animal Shelter	Repair/Remodeling	\$0	\$0	\$13,000	\$0	\$0	\$13,000
Dishwasher at the Animal Shelter	Repair/Remodeling	\$0	\$3,600	\$0	\$3,600	\$0	\$7,200
Household washer/dryer at the Animal Shelter	Repair/Remodeling	\$1,800	\$0	\$0	\$0	\$0	\$1,800
Rekeying the facility at the Animal Shelter	Repair/Remodeling	\$10,000	\$10,000	\$10,000	\$10,000	\$10,000	\$50,000
Surgery Tables (4) at the Animal Shelter	Repair/Remodeling	\$0	\$4,555	\$0	\$0	\$0	\$4,555
Wet Table at the Animal Shelter	Repair/Remodeling	\$0	\$3,840	\$0	\$0	\$0	\$3,840
Surgery Lights (3) at the Animal Shelter	Repair/Remodeling	\$0	\$7,687	\$0	\$0	\$0	\$7,687
Anesthesia Machines (6) at the Animal Shelter	Repair/Remodeling	\$3,106	\$0	\$0	\$0	\$3,106	\$6,212
Shelter	Repair/Remodeling	\$5,259	\$0	\$0	\$0	\$5,259	\$10,518
Ultrasonic Cleaner at the Animal Shelter	Repair/Remodeling	\$1,066	\$0	\$0	\$0	\$1,066	\$2,131
Centrifuge at the Animal Shelter	Repair/Remodeling	\$335	\$0	\$0	\$0	\$335	\$669
Microscope at the Animal Shelter	Repair/Remodeling	\$0	\$1,100	\$0	\$0	\$0	\$1,100
Cautery Machine at the Animal Shelter	Repair/Remodeling	\$0	\$5,324	\$0	\$0	\$0	\$5,324
Bloodwork Machines at the Animal Shelter	Repair/Remodeling	\$0	\$0	\$20,000	\$0	\$0	\$20,000
Ultrasound at the Animal Shelter	Repair/Remodeling	\$0	\$50,000	\$0	\$0	\$0	\$50,000
Radiograph Table at the Animal Shelter	Repair/Remodeling	\$20,000	\$0	\$0	\$0	\$0	\$20,000
Radiograph DR/Plate at the Animal Shelter	Repair/Remodeling	\$0	\$0	\$0	\$0	\$50,000	\$50,000
Shelter	Repair/Remodeling	\$0	\$0	\$0	\$0	\$3,000	\$3,000
Dental Radiograph Machine at the Animal Shelter	Repair/Remodeling	\$0	\$20,000	\$0	\$0	\$20,000	\$40,000
Dental Cleaning Unit at the Animal Shelter	Repair/Remodeling	\$0	\$5,484	\$0	\$0	\$0	\$5,484
Autoclaves (2) at the Animal Shelter	Repair/Remodeling	\$0	\$6,900	\$0	\$0	\$6,900	\$13,800
Refrigerators at the Animal Shelter	Repair/Remodeling	\$2,400	\$0	\$0	\$2,400	\$0	\$4,800
Dog washing station at the Animal Shelter	Repair/Remodeling	\$1,800	\$0	\$0	\$0	\$0	\$1,800
Garbage hauler at the Animal Shelter	Repair/Remodeling	\$1,400	\$0	\$1,400	\$0	\$1,400	\$4,200
Hydraulic lift for large deceased animals (3) at the Animal Shelter	Repair/Remodeling	\$0	\$1,200	\$0	\$1,200	\$0	\$2,400
Power Washer at the Animal Shelter	Repair/Remodeling	\$1,000	\$0	\$1,000	\$0	\$1,000	\$3,000
Eye wash stations (2) at the Animal Shelter	Repair/Remodeling	\$600	\$0	\$600	\$0	\$600	\$1,800
Drug / money safes at the Animal Shelter	Repair/Remodeling	\$500	\$0	\$0	\$0	\$0	\$500
Kong Freezer at the Animal Shelter	Repair/Remodeling	\$0	\$250	\$0	\$250	\$0	\$500
Community Centers	Community Center	\$3,000,000	\$3,000,000	\$3,000,000	\$3,000,000	\$3,000,000	\$15,000,000
Administrative Offices (City Hall, Corp Yard)	Repair/Remodeling	\$4,000,000	\$4,000,000	\$4,000,000	\$4,000,000	\$4,000,000	\$20,000,000
Fleet Facilities (Shops)	Repair/Remodeling	\$750,000	\$200,000	\$200,000	\$200,000	\$200,000	\$1,550,000
Fleet Replacements	Fleet	\$19,000,000	\$0	\$0	\$0	\$0	\$19,000,000
Fleet Replacements (Additional Cost for EV Light Duty Vehicles)	Fleet	\$0	\$1,150,000	\$1,250,000	\$1,550,000	\$1,850,000	\$5,800,000
Libraries	Community Improvements	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$10,000,000
Fiber Network Maintenance	Computers/Communications	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000	\$250,000

## 2024-2029 Approved Capital Improvement Program

### General Government - Category A Detailed Project List (continued)

Project	Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Firewall Maintenance	Computers/Communications	\$350,000	\$0	\$0	\$350,000	\$0	\$700,000
Adlib PDF Documentation Transformation Software	Computers/Communications	\$40,000	\$40,000	\$40,000	\$40,000	\$40,000	\$200,000
<b>Grand Total</b>		<b>\$32,727,265</b>	<b>\$11,123,540</b>	<b>\$11,118,700</b>	<b>\$11,615,450</b>	<b>\$11,643,665</b>	<b>\$78,228,620</b>

### General Government - Category B Detailed Project List

Project	Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Cat kennels (housing for 150 cats)	Repair/Remodeling	\$1,210,000	\$0	\$0	\$0	\$0	\$1,210,000
Digital X-ray	Repair/Remodeling	\$0	\$0	\$0	\$100,000	\$0	\$100,000
Refrigeration (Dead Box)	Repair/Remodeling	\$0	\$0	\$0	\$100,000	\$0	\$100,000
Surgical equipment	Repair/Remodeling	\$0	\$0	\$100,000	\$0	\$0	\$100,000
Bike lockers @ Richards large enough for e-bikes, estimate seven	Repair/Remodeling	\$6,000	\$6,000	\$3,000	\$3,000	\$3,000	\$21,000
Paving the west parking lot at 300 Richards	Parking	\$0	\$150,000	\$0	\$0	\$0	\$150,000
Additional EV charging stations @ Richards	Parking	\$0	\$0	\$1,100,000	\$0	\$0	\$1,100,000
New Bike Trails	Bikeways	\$100,000	\$100,000	\$100,000	\$100,000	\$100,000	\$500,000
102-Acre Meadowview Lot	Street Improvements	\$300,000	\$300,000	\$300,000	\$300,000	\$300,000	\$1,500,000
3900 Roseville Road	Community Improvements	\$300,000	\$300,000	\$300,000	\$300,000	\$300,000	\$1,500,000
New streetlights with new development	Control	\$50,000	\$100,000	\$150,000	\$200,000	\$250,000	\$750,000
New roadways with new development	Street Maintenance	\$200,000	\$400,000	\$600,000	\$800,000	\$1,000,000	\$3,000,000
New traffic signals with new development	Control	\$25,000	\$50,000	\$75,000	\$100,000	\$125,000	\$375,000
Trees (5000 new per year)	Street Improvements	\$400,000	\$800,000	\$1,200,000	\$1,600,000	\$2,000,000	\$6,000,000
New streetscape with new development	Street Improvements	\$50,000	\$100,000	\$150,000	\$200,000	\$250,000	\$750,000
EV Charging Infrastructure maintenance and repairs	Mechanical/Electrical	\$750,000	\$250,000	\$250,000	\$250,000	\$250,000	\$1,750,000
EV Infrastructure	Repair/Remodeling	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$1,000,000	\$5,000,000
EV Charging Infrastructure	Mechanical/Electrical	\$100,000	\$100,000	\$100,000	\$100,000	\$100,000	\$500,000
Citywide Content Management (CCM) Replacement	Computers/Communications	\$1,035,000	\$125,000	\$125,000	\$125,000	\$125,000	\$1,535,000
City's Finance and Personnel System (eCAPS) Replacement	Computers/Communications	\$0	\$500,000	\$11,000,000	\$1,000,000	\$1,000,000	\$13,500,000
Contact Center Upgrade (Call Centers)	Computers/Communications	\$100,000	\$100,000	\$100,000	\$100,000	\$100,000	\$500,000
<b>Grand Total</b>		<b>\$5,626,000</b>	<b>\$4,381,000</b>	<b>\$16,653,000</b>	<b>\$6,378,000</b>	<b>\$6,903,000</b>	<b>\$39,941,000</b>

### Public Safety - Category A Detailed Project List

Project	Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Police Stations/311 Center	Police	\$3,000,000	\$3,000,000	\$3,000,000	\$3,000,000	\$3,000,000	\$15,000,000
Fire Stations	Fire	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$10,000,000
Fire Station Deferred Maintenance (24 stations)	Fire - Repair/Remodeling	\$4,000,000	\$4,000,000	\$4,000,000	\$4,000,000	\$4,000,000	\$20,000,000
<b>Grand Total</b>		<b>\$9,000,000</b>	<b>\$9,000,000</b>	<b>\$9,000,000</b>	<b>\$9,000,000</b>	<b>\$9,000,000</b>	<b>\$45,000,000</b>

### Public Safety - Category B Detailed Project List

Project	Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
New Lockers for North & South Commands	Police - Repair/Remodeling	\$0	\$500,000	\$0	\$0	\$0	\$500,000
Fire Station 14	Fire - Mechanical/Electrical	\$20,000	\$20,000	\$20,000	\$20,000	\$20,000	\$100,000
Fire Station 15	Fire	\$20,000	\$20,000	\$20,000	\$20,000	\$20,000	\$100,000
New Station 4	Fire - New Building	\$20,000,000	\$0	\$0	\$0	\$0	\$20,000,000
Metro AirPark (to be built by developer)	Fire - New Building	\$20,000,000	\$0	\$0	\$0	\$0	\$20,000,000
Delta Shores (to be built by developer)	Fire - New Building	\$0	\$20,000,000	\$0	\$0	\$0	\$20,000,000
Rebuild Station 60	Fire	\$0	\$0	\$22,000,000	\$0	\$0	\$22,000,000
Rebuild Station 57	Fire	\$0	\$0	\$0	\$25,000,000	\$0	\$25,000,000
Rebuild Station 56	Fire	\$0	\$0	\$0	\$0	\$27,000,000	\$27,000,000
<b>Grand Total</b>		<b>\$40,040,000</b>	<b>\$20,540,000</b>	<b>\$22,040,000</b>	<b>\$25,040,000</b>	<b>\$27,040,000</b>	<b>\$134,700,000</b>

## 2024-2029 Approved Capital Improvement Program

### Convention, Culture, & Leisure - Category A Detailed Project List

Project	Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
South Public Market Deck	Repair/Remodeling	\$250,000	\$250,000	\$250,000	\$0	\$0	\$750,000
Museums/Old Sac/Zoo	Culture/Arts	\$6,000,000	\$6,000,000	\$6,000,000	\$6,000,000	\$6,000,000	\$30,000,000
Sacramento Marina	Marina	\$2,000,000	\$300,000	\$300,000	\$300,000	\$300,000	\$3,200,000
<b>Grand Total</b>		<b>\$8,250,000</b>	<b>\$6,550,000</b>	<b>\$6,550,000</b>	<b>\$6,300,000</b>	<b>\$6,300,000</b>	<b>\$33,950,000</b>

### Convention, Culture, & Leisure - Category B Detailed Project List

Project	Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Service Court 11 Remodel	Repair/Remodeling	\$300,000	\$300,000	\$300,000	\$0	\$0	\$900,000
Sacramento Zoo Future Use Analysis	Repair/Remodeling	\$200,000	\$200,000	\$0	\$0	\$0	\$400,000
<b>Grand Total</b>		<b>\$500,000</b>	<b>\$500,000</b>	<b>\$300,000</b>	<b>\$0</b>	<b>\$0</b>	<b>\$1,300,000</b>

### Parks and Recreation - Category A Detailed Project List

Project	Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
District 1 Park Improvements	Parks and Recreation	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 2 Park Improvements	Parks and Recreation	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 3 Park Improvements	Parks and Recreation	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 4 Park Improvements	Parks and Recreation	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 5 Park Improvements	Parks and Recreation	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 6 Park Improvements	Parks and Recreation	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 7 Park Improvements	Parks and Recreation	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
District 8 Park Improvements	Parks and Recreation	\$625,000	\$625,000	\$625,000	\$625,000	\$625,000	\$3,125,000
<b>Grand Total</b>		<b>\$5,000,000</b>	<b>\$5,000,000</b>	<b>\$5,000,000</b>	<b>\$5,000,000</b>	<b>\$5,000,000</b>	<b>\$25,000,000</b>

### Transportation - Category A Detailed Project List

Project	Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Shared use paths	Bikeways	\$4,000,000	\$4,000,000	\$500,000	\$500,000	\$500,000	\$9,500,000
Parking Facilities	Parking	\$500,000	\$500,000	\$500,000	\$500,000	\$500,000	\$2,500,000
800+ Traffic Signals	Signals/Lighting/Traffic Control	\$50,000,000	\$50,000,000	\$50,000,000	\$50,000,000	\$50,000,000	\$250,000,000

Alley Gates	Street Improvements	\$100,000	\$100,000	\$100,000	\$100,000	\$100,000	\$500,000
Pavement	Street Maintenance	\$85,000,000	\$85,000,000	\$85,000,000	\$85,000,000	\$85,000,000	\$425,000,000
<b>Grand Total</b>		<b>\$161,100,000</b>	<b>\$161,150,000</b>	<b>\$157,702,500</b>	<b>\$157,757,625</b>	<b>\$157,815,506</b>	<b>\$795,525,631</b>

## 2024-2029 Approved Capital Improvement Program

### City Utilities - Category A Detailed Project List

Project	Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Ditch/Channel Repair Program	Drainage	\$1,000,000	\$1,000,000	\$1,500,000	\$1,500,000	\$1,500,000	\$6,500,000
Drainage Collection System Rehabilitation & Replacement Program	Drainage	\$2,000,000	\$2,000,000	\$3,300,000	\$3,000,000	\$3,300,000	\$13,600,000
Drainage Sump Rehabilitation & Replacement Program	Drainage	\$2,500,000	\$4,000,000	\$2,000,000	\$5,000,000	\$5,000,000	\$18,500,000
Combined Sewer System Pipe Program	Wastewater	\$0	\$0	\$1,500,000	\$1,000,000	\$1,400,000	\$3,900,000
Combined Sewer System Sump Rehabilitation	Wastewater	\$750,000	\$0	\$0	\$0	\$0	\$750,000
Separated System Pipe Program	Wastewater	\$0	\$0	\$1,000,000	\$500,000	\$1,500,000	\$3,000,000
Separated System Sump Rehabilitation and Replacement Program	Wastewater	\$750,000	\$3,800,000	\$4,300,000	\$800,000	\$800,000	\$10,450,000
Water Distribution/Transmission Main Replacement projects	Water	\$0	\$0	\$4,496,000	\$4,496,000	\$4,496,000	\$13,488,000
Water Facilities Electrical Switchgear, Instrumentation and SCADA	Water	\$0	\$0	\$4,092,000	\$4,092,000	\$4,092,000	\$12,276,000
Water Supply Projects (Water Treatment Plants)	Water	\$0	\$0	\$5,712,000	\$5,712,000	\$5,712,000	\$17,136,000
<b>Grand Total</b>		<b>\$7,000,000</b>	<b>\$10,800,000</b>	<b>\$27,900,000</b>	<b>\$26,100,000</b>	<b>\$27,800,000</b>	<b>\$99,600,000</b>

### City Utilities - Category B Detailed Project List

Project	Program Area	FY 2024/25	FY 2025/26	FY 2026/27	FY 2027/28	FY 2028/29	5-Year Total
Drainage Basin Improvement Program	Drainage	\$5,000,000	\$3,800,000	\$3,300,000	\$4,000,000	\$3,700,000	\$19,800,000
Facility Improvement Program	Drainage	\$1,900,000	\$4,500,000	\$4,500,000	\$4,500,000	\$0	\$15,400,000
Trash Capture Program	Drainage	\$1,300,000	\$1,600,000	\$1,400,000	\$1,400,000	\$1,400,000	\$7,100,000
Combined Sewer System NPDES Permit, LTCP Storage - In-Line Street Storage	Wastewater	\$12,300,000	\$0	\$0	\$0	\$0	\$12,300,000
Combined Sewer System NPDES Permit, LTCP Storage - Parcel Storage (Park Storage)	Wastewater	\$0	\$12,800,000	\$12,800,000	\$19,200,000	\$19,200,000	\$64,000,000
Water Supply Projects (Groundwater Well Program)	Water	\$0	\$0	\$5,600,000	\$5,600,000	\$5,600,000	\$16,800,000
<b>Grand Total</b>		<b>\$20,500,000</b>	<b>\$22,700,000</b>	<b>\$27,600,000</b>	<b>\$34,700,000</b>	<b>\$29,900,000</b>	<b>\$135,400,000</b>

**SECTION – K**  
**Description of Major Funding**  
**Sources**

**MAJOR FUNDING TYPES**

There are four types of funds in the five-year CIP: General, Special Revenue, Capital Projects, and Enterprise & Internal Services. Each type may have restrictions and is described in the following table.

Fund # begins with a...	Fund Type	Fund Type Description/Restrictions
1	General	The City's principal operating fund that is supported by taxes and fees and which, generally, has no restrictions on its use.
2	Special Revenue	Special revenue funds are used to account for activities supported by specific taxes or other revenue sources. These funds are generally required by statute, charter, or ordinance to finance specific governmental programs. Examples include Assessment or Community Facility Districts that provide services, as well as Measure A and other public works funding sources.
3	Capital Projects	Capital projects funds are used to account for resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets. Examples include General Fund bond proceeds, Assessment or Community Facility District bond proceeds, and developer impact fees.
6	Enterprise & Internal Service	Enterprise funds are used to account for self-supporting programs that provide services on a user-fee basis to the general public. Internal service funds are established to account for goods or services provided by one department within the City to other departments on a cost reimbursement basis.

**MAJOR FUNDING SOURCES**

Three funds provide more than half of the funding for the five-year CIP: the Road Maintenance & Rehabilitation Fund, RMRA (Fund 2036), the Water Fund (Fund 6005), and the Storm Drainage Property Fee Fund (Fund 6021). The Road Maintenance & Rehabilitation Fund will be used for road maintenance and activities in the Transportation Corridor Program. The Water Fund provides critical infrastructure repairs for the City’s water infrastructure. The Storm Drainage Property Fee Fund will be used to fund improvements to the City’s aging stormwater system.

**DEBT**

The Debt Management Policy (Resolution No. 2019-0281) provides the framework for debt issuance to achieve the most effective financing solutions for needed capital improvements. The 2024-2029 CIP does not include the use of any capital debt.

## Fund 1001

### General Fund

The General Fund is the City’s principal governmental operating fund, which supports general government programs including Charter Offices (City Attorney, City Auditor, City Clerk, City Manager, and City Treasurer); City Council; Fire; Police; Youth, Parks, and Community Enrichment; and other support and operating departments. The General Fund revenues include all monies not legally (or by sound financial management) accounted for in another fund. General Fund revenues include property taxes, sales taxes, licenses, permits, fines, forfeitures, penalties, charges for services, and miscellaneous revenues (such as interest).

### Restrictions/Legal Mandates

Aside from the 40% appropriation of Cannabis Business Operations Tax for the Sacramento Children Fund (Measure L), General Fund revenues are available for any use as directed by the City Council.

### Current and Previous Allocations

The General Fund provides annual funding to various Public Safety Program projects, including the Advanced Life Support Equipment Program (F12000200) and the Fire Apparatus Program (F12000300).

Capital funding budgeted through February 2024: \$196,821,296

## Funds 2002 and 2036

### Gas Tax and Road Maintenance & Rehabilitation Account Funds

Gas Tax and Road Maintenance and Rehabilitation Account (RMRA) Funds largely derive from the City’s apportionment of the state excise tax on fuel used to propel a motor vehicle. Senate Bill 1 (SB 1), the Road Repair and Accountability Act, indexed the fuel tax to inflation and increased the fuel tax to establish the RMRA. Effective July 1, 2023, the tax rate on gasoline was increased to \$0.579 per gallon, of which \$0.432 is allocated through the State’s Highway Users Tax Account (HUTA) and used for Gas Tax funding (Fund 2002), and the remaining \$0.147 is allocated through the State’s Road Maintenance and Rehabilitation Account (RMRA) and used for RMRA funding (Fund 2036). Effective July 1, 2023, the tax rate for diesel fuel was increased to \$0.441 per gallon, of which \$0.196 is used for Gas Tax funding (Fund 2002), and half of the remaining \$0.245 is used for RMRA funding (Fund 2036). RMRA funding is also supplemented by vehicle registration taxes. The California Department of Tax and Fee Administration administers the tax, and the State Controller distributes the revenues from the tax.

### Restrictions/Legal Mandates

California Streets and Highways Code Sections 2103, 2106, 2107, and 2107.5 limit the use of the gas tax to research, planning, construction, improvement, maintenance, and operation of public streets and highways (and related pedestrian and bike facilities) or public transit guideways. California Streets and Highways Code Section 2030 limits the use of RMRA funding to road maintenance, safety projects, railroad grade separations, complete street components (active transportation, transit, pedestrian & bicycle), and traffic control devices. In order to receive RMRA funds, each local agency must continue to meet a prescribed level of “maintenance of effort,” meaning that these funds cannot be used to replace expenditure levels for transportation purposes typically allocated from discretionary funding.

### Current and Previous Allocations

Gas Tax funds largely support street maintenance and traffic engineering operations. Current allocations include the Vision Zero Safety Program, Transportation Corridor Improvements Program, Bridge Maintenance Program, and the Active Transportation Safety Program. The current allocation of RMRA funds will be used for road maintenance and supportive activities in the Transportation Corridor Program.

Capital funding budgeted through February 2024: \$54,258,792

## Fund 2007

### Major Street Construction Fund

The Major Street Construction Fund derives revenues from a tax imposed by the City in 1978 on all building valuations for new construction or for alterations that add square footage to existing buildings.

### Restrictions/Legal Mandates

City Code Chapter 3.36 restricts the use of these funds to construction, replacement, or alteration of roadways, bridges, traffic control, and lighting on major streets; use for maintenance and/or operations is not permitted nor is disaster reconstruction.

### Current and Previous Allocations

Major street construction funding has been used exclusively for transportation projects, specifically the construction of major street-related improvements. This year, most of the funding will be used to provide matching local funding for federal grants. In addition, this fund has been used to support private development within specified Finance Plans for construction of roads of more than two lanes.

Capital funding budgeted through February 2024: \$26,675,540

## Fund 2008

### Trench Cut Fee Fund

The Trench Cut Fee Fund accounts for fees collected from utility companies and City departments that cut or trench through city streets. The fee revenues are used to compensate the City for damage caused to the streets by offsetting the cost of future street repairs in the same “geographic area” as the cut that generated the fees. The City is in the process of updating this program.

### Restrictions/Legal Mandates

City Code Section 12.12.140 restricts the use of Trench Cut Fee Funds to the same geographic area as the cut or trench that generated the fees.

### Current and Previous Allocations

Trench Cut Fee Funds have been used exclusively for street repairs from trenching or cutting into city streets.

Capital funding budgeted through February 2024: \$113,041

## Fund 2013 Transportation Development Act Fund

The Transportation Development Act (TDA) funds are used to account for receipts and disbursements of money allocated pursuant to the State of California TDA. These funds are allocated by population for transit use. The Sacramento Area Council of Governments (SACOG) administers the funds. The City of Sacramento’s allocation is provided to the Sacramento Regional Transit District (SacRT). After administration fees are deducted, up to 2% of the available funds countywide may be set aside to be allocated for pedestrian and bicycle facilities. The City directly receives this 2% share by apportionment from SACOG. Traditionally these funds have been dedicated to bikeway facilities development and upgrades as well as bike trail maintenance.

### Restrictions/Legal Mandates

The State of California TDA (Government Code Title III, Division 3, Chapter 2, Article II), restricts these funds to pedestrian and bikeway improvements (2%) or for community transit improvements (administered by SacRT).

### Current and Previous Allocations

TDA funds have largely supported the maintenance of off-street bike trails and development of active transportation projects.

Capital funding budgeted through February 2024: \$2,494,583

## Fund 2016

### Development Services Fund

This fund is comprised of developer funds received to account for major plan review and building permit projects, cyclical surplus plan review and building permit revenues, and environmental impact review projects.

### Restrictions/Legal Mandates

City Council Resolution No. 99-077 restricted the use of these funds to account for major plan review and building permit projects, cyclical surplus plan review and building permit revenues, and environmental impact review projects. In May 2015, a Development Services Contingency Reserve (DSCR) and Development Services Fund Management Policy was approved with Resolution No. 2015-0123. This established policies and procedures for the Development Services Fund to ensure that funds will be used for the management of development activities and to ensure adequate fund reserves will be available to address revenue shortfalls or an unforeseen recession in development activity.

### Current and Previous Allocations

The fund has been used to support development-related initiatives and to advance monies for the General Plan update.

Capital funding budgeted through February 2024: \$20,243,204

## Funds 2026, 2038, and 2039

### New Measure A Construction and Maintenance Funds

New Measure A Project Construction and New Measure A Project Maintenance Funds account for revenue generated from a one-half of one percent sales (to each fund) tax beginning April 1, 2009, through March 31, 2039. New Measure A also introduces and incorporates a countywide development impact fee program. Sales tax revenues and development impact fee revenues are allocated annually by percentage to specific programs according to Sacramento Transportation Authority (STA) Ordinance No. STA 04-01.

### Restrictions/Legal Mandates

The City is required to enter into an agreement with the Sacramento Transportation Authority (STA) to receive New Measure A funds and expend them exclusively on eligible programs. Local Transportation Authority and Improvement Act (Public Utility Code Division 19, Section 180000, and Revenue and Taxation Code, Section 7252.16) restricts the New Measure A Construction Funds, which has two program components affecting the city:

Traffic Control and Safety (Fund 2038): Traffic control system improvements, high priority pedestrian and vehicle safety projects, and emergency vehicle pre-emption systems)

Safety, Landscaping, Pedestrian, and Bike Facilities (Fund 2039): Non-motorized, pedestrian, and bicycle safety improvements

New Measure A Maintenance (Fund 2026) is restricted to the preservation and safety of public streets and road rights-of-way, including road reconstruction and repair, bridge maintenance, streetscape, and lighting maintenance.

### Current and Previous Allocations

New Measure A Funds will largely support the ongoing citywide programs, including the Active Transportation Programs, Vision Zero Safety Program, Traffic Operations Center Program, and maintenance programs.

Capital funding budgeted through February 2024: \$25,503,245

## Fund 2035

### Tree Planting and Replacement Fund

The Tree Planting and Replacement Fund was established by City Ordinance No. 2016-0026 on August 4, 2016, which was enacted for the purpose of the conservation of existing tree resources and to optimize the City’s tree canopy coverage. Funding is collected from a fee charged for the loss of City and private protected trees within the City in-lieu of tree replacement, and from associated civil penalties.

### Restrictions/Legal Mandates

City Code Section 12.56.060.F mandates that fees collected shall be used only for tree planting (establishing new planting locations and support systems such as the installation of drainage) and preservation programs (creation of new woodland areas, under-plantings as part of a tree planting program, and other planting activities).

### Current and Previous Allocations

Previous Tree Planting and Replacement funding has been deposited to the Tree Planting and Replacement Program (R15188500), and future allocations will also be programmed to this CIP.

Capital funding budgeted through February 2024: \$1,092,827

## Fund 2232

### Landscaping and Lighting District Fund

Established in 1989 in accordance with the Landscaping and Lighting Act of 1972, the Landscaping and Lighting District (L&L) Fund is for revenues generated from a citywide assessment district with assessments based on a series of benefit formulas established in 1989. Assessments are collected on an annual basis with property owners' property taxes. Funds are used for urban forestry operations, safety lighting, median maintenance, parks rehabilitation, street maintenance, and neighborhood lighting maintenance. The Landscaping and Lighting Act of 1972 allows cities, counties, and special districts to levy assessments for land purchase and the construction, operation, and maintenance of parks, tree maintenance, landscaping, lighting, traffic signals, and graffiti abatement.

### Restrictions/Legal Mandates

Adopted in 1989 (Resolution No. 89-600), California Streets & Highways Code Section 22500 et seq restricts the funds according to an assessment formula and the established District. Revenues are collected for specific expenditure categories, such as urban forestry, park maintenance, lighting, capital projects, and median maintenance. Funds are available for expenditure within the Community Planning Area originally assessed and should be used within the year allocated.

### Current and Previous Allocations

L&L funds have largely supported landscaping, rehabilitation of park facilities and structures, lighting, and other park and recreational improvements.

Landscaping and Lighting Bonds of \$7.2 million were issued in FY1995/96 to finance capital improvements of parks. The debt service on these bonds is paid from the assessments, which expired after tax year 2016.

Capital funding budgeted through February 2024: \$5,186,213

## Fund 2401 Measure U Fund

Approved in November 2012, the Essential Service Protection Measure (Measure U) authorized an additional one-half cent transaction and use tax for the City of Sacramento to become effective on April 1, 2013, and to remain effective for six years. In November 2018, Measure U was renewed and expanded to a full cent transaction and use tax for the City of Sacramento effective April 1, 2019.

### Restrictions/Legal Mandates

The first half-cent tax of Measure U was designated for the restoration and protection of essential City public safety services, including 911 response, police officers, gang/youth violence prevention, fire protection/emergency medical response, and other essential City services including park maintenance, youth/senior services, and libraries. In 2018, Sacramento voters renewed Measure U as a full one-cent tax. As a general tax, Measure U revenues are available for any use as directed by the City Council. As part of the approved measure, there are independent annual financial audits and a citizen oversight commission.

### Current and Previous Allocations

Measure U funds have been allocated to support the Facility ADA Compliance Program (C13000400) and the City Facility Reinvestment Program (C13900000).

Capital funding budgeted through February 2024: \$46,511,855

## Fund 2608

### Marina Fund

The 475-berth Marina operates as a special revenue fund, and Marina revenues are derived predominantly from berth rental fees, fuel sales, equipment rental, and concession sales at the Sacramento Marina, located on the Sacramento River at Miller Regional Park.

### Restrictions/Legal Mandates

In Resolution No. 2013-0156, the Marina Fund was changed from an enterprise fund to a special revenue fund. Special revenue funds are used to account for activities supported by specific taxes or other revenue sources whereas enterprise funds are self-sufficient.

Cities have general authority to impose fees, sometimes called charges or rates, under the city's police powers as defined by Article XI, Section 7 or Article XIII B, Section 8 of the California Constitution. There are no specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et seq.). Funds are restricted for use in Marina operations and capital improvements and may not exceed the estimated reasonable cost of providing services.

Other restrictions on the availability of this fund includes the repayment of the California Division of Boating and Waterways (DBW) loan of \$7.65 million for the North Basin Renovation in 1985 and \$9 million for the South Basin Renovation in 2005.

### Current and Previous Allocations

Marina Funds support Marina operations and capital projects such as docking facility replacement, harbor dredging, and bank stabilization.

Capital funding budgeted through February 2024: \$909,939

## Fund 3204

### Park Development Impact Fee Fund

The Park Development Impact Fee is a revenue source approved by City Council in August 1999. This fund is comprised of fees collected from developers at the time a building permit is issued. The revenue must be used to benefit the residents from which the fee was collected. In 2004, an automatic annual adjustment for inflation was added to the ordinance to keep current with increasing construction costs. City Ordinance No. 2013-0017 aligned the ordinance with the 2010 census, the 2040 General Plan, and other chapters of the City Code.

### Restrictions/Legal Mandates

City Ordinance No. 2013-0017 restricts funds for recreational and park facilities to serve the residents of the area where the fees were paid.

### Current and Previous Allocations

The Park Development Impact Fee has largely supported new development and rehabilitation projects for parks and recreation. Prior to FY2013/14, funding was allocated by Community Plan Areas. Funds are now allocated by City Council District.

Capital funding budgeted through February 2024: \$24,658,468

## Fund 3206

### North Natomas Financing Plan Public Facilities Fee Fund

This Public Facility Fee (PFF) was established as the North Natomas Community Improvement Fund with the adoption of the North Natomas Financing Plan (NNFP). The plan was first approved in 1994 and was last updated in 2005.

The PFF area includes the entire North Natomas Community Plan. This PFF will ultimately fund \$209.1 million dollars in public improvement facilities. These include a fire station, police sub-station, a community center library, an aquatics center, shuttles, bikeways, freeway improvements, landscaping, major roads, bridges, and signals. Payment of the PFF is required of all private development projects in North Natomas. The impact fee is structured to ensure that basic infrastructure is in place when needed for the development; the cost of major infrastructure is distributed equally among the property owners; and each developer pays a fair-share for necessary infrastructure.

### Restrictions/Legal Mandates

City Ordinance No. 95-058 restricts these funds as specified in the NNFP. Resolution No. 2014-0179, Section 7, established this fund and prior allocations were moved to this fund. The PFF was split into five funds with Resolution No. 2014-0179.

### Current and Previous Allocations

This fee has been spent in accordance with the NNFP.

Capital funding budgeted through February 2024: \$130,141

## Funds 3702, 3703, and 3704 Capital Grant Funds

Capital Grant Funds account for various grants received from developers, the state, the federal government, and other agencies that are designated to be used for specific projects or purposes. Each dollar spent must be accounted for and is audited to assure that the monies were spent for the project intended.

### Restrictions/Legal Mandates

Funds are restricted to the specific project or purpose for which the grant was awarded or as designated in the development agreement. There is no specific ordinance or legislation directing the use of Capital Grants Funds. Granting agencies that allocate funds to the City for capital projects administer any legal or administrative requirements specific to each grant.

### Current and Previous Allocations

Capital Grants Funds have largely supported transportation improvement projects, as well as parks and utilities projects.

Capital funding budgeted through February 2024: \$210,228,850

## Fund 6001

### Water Development Fee Fund

The Water Development Fee Fund is used to recover capital costs of the City’s new water diversion, treatment, storage, and distribution facilities to support new development. Revenues are generated from impact fees paid by developers and others whose projects add to the demand on the water production and delivery systems.

### Restrictions/Legal Mandates

Cities have general authority to impose fees, sometimes called charges or rates, under the City’s policy powers as defined by Article XI, Section 7 or Article XIII B, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (Government Code Sections 53755 and 66000 et seq.). Impact fees (i.e. connection fees for water utilities) collected into the Water Development Fee Fund are collected on projects that mitigate the impact of additional demand on the water production or water distribution systems.

### Current and Previous Allocations

Water development fees have supported projects to increase the production or improvement of the water supply or expansion of the transmission main system.

Capital funding budgeted through February 2024: \$22,300,911

## Fund 6002

### Sewer Development Fee Fund

The Sewer Development Impact Fund is used to recover an appropriate share of the capital costs of the City’s existing or new sewer system facilities or the city’s existing or new combined sewer system facilities. Revenues are generated from fees paid by developers and others whose projects add to the demand on sanitary sewer or combined sewer collection systems.

### Restrictions/Legal Mandates

Cities have the general authority to impose fees, sometimes called charges or rates, under the City’s policy powers as defined by Article XI, Section 7 or Article IIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (i.e. Government Code Sections 53755 and 66013, City Code Sections 13.08.480 and 13.08.500, etc.). Fees collected into the Sewer Development Impact Fund must be used on projects that mitigate the impact of additional demand on the sanitary sewer or combined sewer systems.

### Current and Previous Allocations

Sewer Development Impact Funds have been used on projects to improve the sanitary and combined sewer systems.

Capital funding budgeted through February 2024: \$15,005

## Fund 6004 Parking Fund

The Parking Fund provides for the operation, maintenance, and improvements of City-owned parking facilities. Parking Fund revenues are from parking and retail lease charges within off-street parking facilities. These revenues are then used to pay for parking facility operations, capital improvements, and new facility development.

### Restrictions/Legal Mandates

Cities have general authority to impose fees, sometimes called charges or rates, under the City’s police powers as defined by Article XI, Section 7 or Article XIII B, Section 8 of the California Constitution. There are no specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et seq.). The Parking Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services.

### Current and Previous Allocations

Parking funds have mainly supported parking projects. Recently completed projects were focused on structural repairs to City-owned parking facilities, eLock Bike lockers at each of the five city garages, and upgrades to EV charging infrastructure in the garages. Active projects include tenant improvements, safety enhancements, and outdoor dining program design.

Parking revenues had been significantly impacted by the ongoing pandemic but have shown a modest recovery. Staff will continue to assess the Parking Fund and recommend program adjustments for City Council consideration should revenue estimates changes significantly.

Capital funding budgeted through February 2024: \$34,426,979

## Fund 6005

### Water Fund

The Water Fund is used to account for the activities associated with the production, distribution, and transmission of potable water by the City to its users. The Water Fund supports both the capital and operating costs of providing potable water throughout the city including production, treatment, and distribution systems. Revenues are generated by user fees, interest earnings, development fees, tap sales, and reimbursements from other entities for service performed by or paid by the fund.

### Restrictions/Legal Mandates

Cities have general authority to impose fees, sometimes called charges or rates, under the city’s police powers as defined by Article XI, Section 7 or Article XIII B, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (i.e. Government Code Sections 53755 and 66013, Proposition 218, etc.). The Water Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

### Current and Previous Allocations

Water funds have largely supported projects in maintaining a healthy water supply system in conjunction with balancing funding and resources to support a comprehensive infrastructure maintenance and rehabilitation program and maintaining the water system in a manner that balances level of service with system-wide projects throughout the City.

Capital funding budgeted through February 2024: \$152,959,891

## Fund 6006 Wastewater Fund

The Wastewater Fund accounts for the maintenance, repair, and replacement of facilities for collecting, conveying, and pumping sanitary and combined sewage to the major interceptor sewers of the Regional Sanitation District. User fees finance operating costs and capital improvements.

### Restrictions/Legal Mandates

Cities have general authority to impose fees, sometimes called charges or rates, under the city’s police powers as defined by Article XI, Section 7 or Article XIII B, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (i.e. Government Code Sections 53755 and 66013, Proposition 218, etc.). The Wastewater Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

### Current and Previous Allocations

Wastewater funds have largely supported the combined sewer system, separated sewer systems, sumps, two treatment plants, and wastewater projects such as repairing, rehabilitating, and improving its wastewater infrastructure, as well as maintaining the system in a manner that balances system-wide projects throughout the City.

Capital funding budgeted through February 2024: \$18,725,176

## Fund 6007 Recycling and Solid Waste Fund

The Recycling and Solid Waste Fund accounts for the operation, maintenance, and related capital improvements of the City’s refuse collection, processing, and disposal services as well as for landfill post-closure maintenance. In addition, yard waste/organics refuse, street sweeping, recycling, and a variety of community service programs are provided from this fund. Services include street sweeping as well as the collection of garbage, yard waste/organics, household hazardous waste, and recycling. Revenues are generated from user fees.

### Restrictions/Legal Mandates

Cities have general authority to impose fees, sometimes called charges or rates, under a city’s police powers as defined by Article XI, Section 7 or Article XIII B, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (i.e. Government Code Sections 53755 and 66013, Proposition 218, etc.). The Recycling and Solid Waste Fund is an Enterprise Fund. Generally, revenues are to be used to offset Enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

### Current and Previous Allocations

Recycling and Solid Waste funds have largely supported solid waste projects such as maintenance, operations, and vehicle needs.

Capital funding budgeted through February 2024: \$31,896,223

## Fund 6010 Community Center Fund

The Community Center Fund, which accounts for the operation of the SAFE Credit Union Convention Center, the SAFE Credit Union Performing Arts Center, and the Sacramento Memorial Auditorium, is supported mainly by the transient occupancy tax (TOT), facility user fees, and interest earnings. The TOT is a tax charged to individuals who occupy a room(s) in a hotel, motel, etc. User fees include facility rental fees, equipment, and service fees.

### Restrictions/Legal Mandates

Revenue and Taxation Code, Sections 7280 and 7281, and City Ordinance 3.28 restrict these funding sources to support Community Center Complex operations, capital requirements, and its debt service.

### Current and Previous Allocations

Community Center funds have supported projects that includes the noise and vibration mitigation to the cooling towers at the SAFE Credit Union Convention Center; repairs/replacement of the ADA ramp flooring at the SAFE Credit Union Performing Arts Center; lighting upgrades for the main hall stage at the Sacramento Memorial Auditorium.

Capital funding budgeted through February 2024: \$21,112,470

## Fund 6011

### Storm Drainage Fund

The Storm Drainage Fund is an Enterprise Fund, which is self-supporting through fees and charges to the consumers. The fees collected for storm drainage are used to account for the activities and maintenance of the City’s surface drainage system and 105 storm-pumping stations. Revenues are generated through user fees and interest earnings.

### Restrictions/Legal Mandates

Cities have the general authority to impose fees, sometimes called charges or rates, under the City’s police powers as defined by Article XI, Section 7 or Article IIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et. seq.). The Storm Drainage Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

### Current and Previous Allocations

Storm Drainage funds have largely supported Combined Sewer System and Storm Drainage projects such as repairing, rehabilitating, and improving its storm drainage infrastructure, as well as maintaining the system in a manner which balances system-wide projections in individual drainage basins.

Capital funding budgeted through February 2024: \$17,189,668

## Fund 6021 Storm Drainage Property Fee Fund

The Storm Drainage Property Fee Fund is an Enterprise Fund which is self-supported through property related fees. The fees collected for the Storm Drainage Property Fee Fund are primarily used to fund capital improvements to its aging stormwater system and related operating and maintenance costs. These projects protect local rivers and water sources from pollution and toxins and protect homes and businesses from flooding. Revenues are generated through property-related fees and interest earnings.

### Restrictions/Legal Mandates

Cities have the general authority to impose fees, sometimes called charges or rates, under the City’s police powers as defined by Article XI, Section 7 or Article IIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (i.e. Government Code Sections 53755 and 66013, Proposition 218, etc.). The Storm Drainage Property Fee Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise capital improvements and related administrative, operating, and maintenance costs and may not exceed the estimated reasonable cost of providing these services.

### Current and Previous Allocations

Storm Drainage Property Fee funds will largely support the Combined Sewer System and Storm Drainage capital infrastructure projects and related operations and maintenance for repairing, rehabilitating, and improving its storm drainage infrastructure, as well as maintaining the system in a manner which balances systemwide projects in individual drainage basins.

Capital funding budgeted through February 2024: \$22,572,690

## Fund 6501

### Fleet Management Fund

The Fleet Management Fund was established to finance and account for services and commodities furnished by Fleet Services to other departments. Services and commodities, supplied exclusively to other departments include the maintenance, repair, fueling, and replacement of the City’s vehicular equipment. This fund receives its revenue from charges to other City organizations for services received.

### Restrictions/Legal Mandates

There is no specific ordinance or legislation directing the use of funds. Funds are to be used for fleet operations, fleet replacement, and fleet facility improvements.

### Current and Previous Allocations

Fleet Management funds have largely supported repair/remodel and technology projects. Some of the larger projects include: underground fuel storage and support, 24th Street City Corporation Center maintenance, fleet facilities, and fleet management technology upgrades.

Capital funding budgeted through February 2024: \$8,808,641

## GLOSSARY

**Americans with Disabilities Act of 1990 (ADA):** A federal law providing for a wide range of protection to individuals with disabilities ranging from prohibitions against discrimination in employment to specific requirements for modifications of public facilities and transportation systems.

**Appropriation:** An authorization by the City Council, which permits officials to incur obligations and expend City resources for a specific purpose within a fiscal year.

**Assessment District (AD):** A separate local government agency formed to provide specific services. Property owners within the assessment district boundary pay the district in proportion to the benefits or services they receive.

**Art in Public Places (APP):** City Code Chapter 2.84.110 mandates that at least 2% of the total cost of eligible construction projects shall be expended for public art.

**Budget:** An annual financial plan consisting of proposed/approved expenditures for specified purposes and the proposed means for financing them.

**Budget as of 2/2024:** Reflects the total project funding from all funding sources (*due to timing, budget modifications after February of the fiscal year are not included*). In some situations, funds are moved into sub-CIP (child) projects to allow for better project management and accounting.

**Capital Assets:** Capital assets include land, improvements to land, easements, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible

or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period (fiscal year).

**Capital Improvement:** A specific undertaking involving procurement, construction, or installation of facilities or related equipment which improves, preserves, enhances or modernizes the City's provision of municipal services, has a useful life of at least five years, and costs in excess of \$20,000. CIPs may include construction or major repair of City buildings and facilities such as streets, roads, storm drains, traffic signals, parks, or community centers.

**Capital Improvement Program (CIP), program:** CIP programs have an ongoing funding source and are used for similar types of improvements that will be constructed at multiple locations based on the annual availability of funding. Locations are generally identified through master plans, planning guides, and replacement programs (e.g., the Groundwater Protection Program, Fire Apparatus Program, or Neighborhood Street Light Replacement Program). Capital improvement programs are not site-specific, do not typically have a defined completion date and will contain "Program" in the title.

**Capital Improvement Program (CIP), project:** CIP projects are typically site specific, have a defined budget, and have a specific completion date.

**Carryover:** Appropriated funds remaining unspent at the end of the fiscal year, which can be retained by the project to which they were appropriated so that they may be expended in the next fiscal year.

**Combined Sewer System (CSS):** CSS is a type of sewer system that collects sanitary sewage and storm water runoff into a single pipe system. Combined sewers can cause serious water pollution problems due to combined sewer overflows, which consist of sending untreated diluted sewage to the river.

Of greater concern is an outflow during rainstorms in which diluted sewage spills onto streets and potentially onto properties. This type of sewer design is no longer used in building new communities, but many older cities continue to operate combined sewers.

**Community Facilities District (CFD):** The Mello-Roos Act (1982) allows any county, city, special district, school district, or joint powers authority to establish a CFD that allows for financing of public improvements (e.g., sewers, streets) and services. To establish a CFD, voters within the district must approve its creation by two-thirds.

**Construction Engineering:** Engineering work during the construction process. This ensures that projects are constructed in accordance with design parameters and specifications.

**Continuing Project:** A project that is not completed within the fiscal year initially budgeted. Unobligated or unspent project budget is carried forward and is available for expenditure in the next fiscal year.

**Debt Financing:** Issuance of bonds and other debt instruments to finance municipal improvements and services.

**Debt Service:** The costs of paying the principal and interest on borrowed money according to a predetermined payment schedule.

**Defund:** Any unspent balance for a completed project is zeroed out, added back into the originating fund balance, and is available for appropriation to another project.

**Design Engineering:** The process of identifying project options, developing a project scope, conducting feasibility analyses, and creating plans, specifications, and estimates for a capital improvement.

**Detail Sheet:** A summary page for a single project or program receiving new funding that details project need, objective, and budget.

**electronic Citywide Accounting and Personnel System (eCAPS):** The Enterprise Resource Management system implemented in 2007 and 2008 to manage all City financial, human resource, and payroll transactions.

**Encumbrance:** An amount of money committed for the payment of goods ordered but not yet received.

**Enterprise Funds:** A governmental facility or service that is self-supporting through fee and charge revenues. Used to account for the City's ongoing activities that are similar to those found in the private sector, e.g., solid waste management, marina, sewer utilities.

**Estimated Balance as of 2/2024:** Reflects the estimated balance remaining within a project based on actual expenses through February 2024.

**Expenditures:** The cost for personnel, materials, equipment, and contractual obligations required for a department to operate or for a capital program to be completed.

**FileMaker Pro:** The computer program utilized by the City to track and describe capital projects or programs. Each project or program funded within the five-year plan has a detail sheet provided in its corresponding Program Area Summary, e.g., the Facility ADA Compliance Program (C13000400) has detail sheet in the General Government Program Area, Section D. All active CIPs are listed in Index M (by Council District) and Index N (by CIP number).

**Fiscal Year (FY):** A time period designated by the City signifying the beginning and ending period for recording financial transactions. Sacramento has a fiscal year from July 1 through June 30.

**Fund:** A separate, independent accounting entity with a self-balancing set of accounts recording financial resources and transactions for specific activities.

**Fund Balance:** The total dollars remaining after current expenditures for operations and capital improvements are subtracted from the sum of the beginning fund balance and current resources.

**General Fund (GF):** The City's principal operating fund, which is supported by taxes and fees and which, generally, has no restrictions on its use.

**General Plan:** The policy document that outlines the acceptable land use within the city limits for both the current and long term. The General Plan is the foundation for establishing goals, purposes, zoning, and activities allowed on each land parcel to provide compatibility and continuity to the entire region as well as each individual neighborhood.

**Generally Accepted Accounting Principles (GAAP):** GAAP are the standard framework of guidelines for financial accounting as defined by the Governmental Accounting Standards Board (GASB) for state and local governments in the U.S. The City of Sacramento prepares the CIP consistent with these guidelines and principles.

**Geographic Information Systems (GIS):** a system designed to capture, store, manipulate, analyze, manage, and present spatial or geographic data. GIS maps are provided for each site-specific FY2024/25 funded project (Program Area Summaries) as well as focus on projects in or near priority sites as identified in the *2040 General Plan* (General Plan Consistency).

**Grant:** Program revenues provided by external agencies, which are restricted to a specific purpose, have a time limit for use, and frequently are reimbursed after incurring eligible costs.

**Inflationary Increase:** An adjustment made to reflect current year or estimated future year national or regional change to categories of expense. Generally, inflationary increases are based on the Consumer Price Index (CPI).

**Infill:** The reuse of land in an urban area for new construction.

**Landscaping and Lighting (L&L) Act of 1972:** The 1972 Act lets cities, counties, and special districts levy assessments for land purchase and construction, operation and maintenance of parks, landscaping, lighting, traffic signals, and graffiti abatement.

**Measure U Fund:** This fund was established to account for revenues collected from the transactions and use tax approved by voters in November 2018. It took effect on April 1, 2019. Measure U was approved as a general tax and can be used for any general government purpose. This one-cent tax is charged on each dollar of taxable sales of goods purchased from retailers within the City of Sacramento, and on the taxable storage, use, or consumption of goods purchased outside the City and delivered to a location within the City.

**Nexus Study:** A report that sets the procedural requirements for establishing and collecting development impact fees.

**Ordinance:** A formal legislative enactment by the governing board of a municipality. If it is not in conflict with any higher form of law, it has the full force and effect of law within the boundaries of the municipality to which it applies.

**Project, Child:** A CIP that falls under the budget appropriation authority of a parent project. Child projects are not required of a parent project. In Index O, child projects are listed in *italics*.

**Project, Parent:** A CIP that has budget appropriation authority given by City Council. Parent project numbers usually end in zero-zero (00) and are identified in Index O in bold.

**Place of Use (POU):** The City of Sacramento's currently authorized Place of Use (POU) for the Sacramento River and the American River water supplies are shown in the Water Master Plan. The City's POU for water from the Sacramento River is all land within the City limits. The City's POU for the American River supply covers 96,162 acres and includes the City limits, as well as portions

of service areas of several other water purveyors.

**Program:** A logical grouping of capital projects according to type of projects completed; e.g., public safety, transportation.

**Resolution:** A formal declaration by City Council.

**Resources:** Total dollars available for appropriations during the fiscal year including estimated revenues, fund transfers, and beginning fund balances.

**Smart City:** A concept that recognizes the opportunity for information and technology as to be used as a tool to provide services to all its citizens through accessibility, affordability, choices, coordination, and efficiency. For transportation, it includes using data and supporting emerging technology to improve mobility and achieve other benefits, such as automated vehicles, electric vehicle charging, alternative fuels, system integration, and data driven solutions.

**Special Revenue Funds:** Account for the proceeds supported by specific taxes or other revenue sources. These funds are generally required by statute, charter, or ordinance to finance specific government functions. Examples include Assessment or Community Facility Districts that provide services, as well as Measure A and other public works funding sources.

**Speed Humps:** Speed humps extend across the road in one solid piece. The City no longer installs humps or undulations (double sets of humps) and has moved completely to lumps and tables (elongated humps).

**Speed Lumps:** Speed lumps were first introduced in Sacramento in 2002. The lumps

have the same design as the hump, but have strategically placed cut-outs that allow for buses and emergency vehicles to pass through without excessive jarring. The lumps reduce response time from seven seconds for hump to less than one second per lump.

**Sphere of Influence:** The probable, ultimate physical boundaries and service area of a local governmental agency. This is defined as within the city boundaries plus the Panhandle, Freeport, Fruitridge-Florin, and Rosemont. The Council may request the Local Agency Formation Commission to expand the Sphere of Influence boundaries as appropriate; the Natomas Basin Study Area is an example of a potential area to be added to the Sphere of Influence.

**State-of-Good-Repair:** This is a condition in which the existing physical assets, both individually and as a system, are (a) functioning as designed within their useful lives, and (b) sustained through regular maintenance and replacement programs.

**Subprogram:** A more defined grouping of capital projects within each Program; e.g., within the Transportation Program. Subprograms include Street Maintenance, Street Improvements, Signals/Lighting, and Parking.

**Successor Agency:** Pursuant to operation of California state law, the Redevelopment Agency was dissolved. Effective February 1, 2012, former activities and affairs of the Sacramento Redevelopment Agency were transferred to the City of Sacramento as the Successor Agency. The Successor Agency is authorized by law to accept and maintain the legal title, custody and dominion of records that were created by another agency.

**Transient Occupancy Tax (TOT):** A tax of 12% is charged for all people who exercise occupancy at a hotel within the city (City Code 3.28). They are considered transient if they stay for a period of 30 days or less. TOT forms are remitted to the City by the hotels monthly. Of the 12%, the Community Center Fund (Fund 6010) receives 10% and two percent returns to the General Fund.

**Unfunded Capital Needs:** Unfunded capital needs refer to projects identified in approved City policy documents as needed or desired where funding is currently unavailable to complete the project. The Capital Improvement Plan classifies unfunded capital needs into three categories: Unfunded Deferred Maintenance, Unfunded New Assets, and Major Projects Outside the Capital Improvement Program (CIP).

**Unified Endpoint Management (UEM):** A type of software that provides a single interface to manage multiple endpoints, such as smartphones, tablets, laptops, and other devices.

**User Charges/Fees:** The payment of a fee for direct receipt of a public service by the party benefiting from the service.

## **REFERENCE MATERIALS**

A variety of documents have been developed to reflect the diverse and growing needs and priorities of Sacramento residents, businesses, developers, and visitors. Extensive outreach has been done to develop the documents listed below and, in an effort to maintain transparency, the following provides a synopsis and location of the materials that were referenced to develop the 2024-2029 CIP. The connection to these background resources provides a wider understanding of the efforts made to determine, rank, and invest public funds towards maintenance, rehabilitation, or improvement of public infrastructure, public safety, recreational experiences, and assurance that Sacramento remains well-positioned for further economic growth and opportunities.

While each section utilizes the resources listed in the General Plan Consistency Section, other documents are section-specific.

### **Section C: General Plan Consistency**

#### **River District Specific Plan (2011)**

[https://www.cityofsacramento.gov/content/dam/portal/cdd/Planning/Specific-Plans/River-District-Specific-Plan\\_Adopted-02-15-2011.pdf](https://www.cityofsacramento.gov/content/dam/portal/cdd/Planning/Specific-Plans/River-District-Specific-Plan_Adopted-02-15-2011.pdf)

The 773-acre River District Area proposes adopting policy documents to support a transit-oriented, mixed-use, and urban environment that would include 8,144 dwelling units, 3.956 million square feet of office, 854,000 square feet of retail/wholesale, 1.463 million square feet light industrial, and 3,044 hotel units. The vision for the River District is that of an eclectic mix of uses that will evolve from a primarily light-industrial, low-intensity commercial district, to that of a series of distinctive walkable neighborhoods within a district that is contiguous to the American River and serves as the northern gateway into the Central City. The guiding principle for this plan is to maintain its unique character and design while increasing its diverse economy.

#### **Sacramento 2040 General Plan Update (2024)**

[https://www.cityofsacramento.gov/content/dam/portal/cdd/Planning/General-Plan/2040-General-Plan/Adopted%202040%20General%20Plan\\_20240227.pdf](https://www.cityofsacramento.gov/content/dam/portal/cdd/Planning/General-Plan/2040-General-Plan/Adopted%202040%20General%20Plan_20240227.pdf)

A document shaped by extensive outreach to residents, business, developers, and decision-makers to guide Sacramento to “be a national model of sustainable, equitable growth and community development.” It was developed based on the City’s Smart Growth Principles; Council adopted Vision and Guiding Principles for the General Plan; and the Sacramento Area Council of Governments Blueprint (<https://www.sacog.org/planning/blueprint/history-of-the-blueprint>) .

**Sacramento Center for Innovation Specific Plan (2018)**

[https://www.cityofsacramento.gov/content/dam/portal/cdd/Planning/Long-Range/SCI-Specific-Plan\\_Amended\\_1-23-18.pdf](https://www.cityofsacramento.gov/content/dam/portal/cdd/Planning/Long-Range/SCI-Specific-Plan_Amended_1-23-18.pdf)

The goal of the Sacramento Center for Innovation (SCI) Specific Plan is to create an environment that fosters the exchange of technical knowledge and expertise between students, faculty, and private sector business enterprises. Formerly known as the Innovation/Technology Village, the SCI area is located to the south of California State University, Sacramento, to the east of the Union Pacific Railroad, and to the west of the Granite Regional Park development area. Currently, it is primarily heavy commercial, light industrial, and industrial uses. The General Plan identified the area south of the existing Regional Transit light rail tracks, the Ramona Avenue area, as an Opportunity Area, changed the land use designation from Industrial to Employment Center, and recommended further land use refinement.

**Section D: General Government**

**City Facility Condition Assessment (2018)**

In September 2017, City Council authorized a City Facility Condition Assessment of over 100 facilities. The assessment was completed in June of 2018 and identified the prioritization and selection standards for the City Facility Reinvestment Program. Initial Council-approved criteria were safety, end of component's useful life, and outdated standards. The criteria have since been expanded to the following:

1. Safety: Projects that, if not corrected, will create a hazard or that may result in personal injury to staff or the public.
2. Renewal/Replacement: Projects with worn, obsolete, and/or failed major components have reached the end of their useful life and are needed to protect or maintain facility integrity. These items, if not addressed, will require excessive man-hours and funding to prevent further degradation of the facility and to keep the facility functional or do not meet today's standards in terms of functionality or code requirements.
3. High energy consumption: Projects that can achieve significant savings through the upgrading of components.
4. High volume for immediate service requested: Projects that have components or equipment/facilities chronically needing repair.
5. Cost-effective/Combination of projects: Projects that are combined to make them more cost-effective, such as replacing roof mounted HVAC equipment at the same time a roof is replaced.

**Sacramento Public Library Authority Facility Master Plan 2007-2025 (2007)**

<https://www.saclibrary.org/About/Our-Governance/Budget-and-Plans/SPLA-Facility-Master-Plan-2007-2025.aspx>

A document that focuses on service-driven facilities to meet the needs of specific populations and provides guidance in planning and improving up on the Sacramento Public Library facilities.

**Section F: Convention, Culture, and Leisure**

**Sacramento Marina Business Plan (2014)**

The Marina's business plan was presented to the City Council on March 25, 2014. It is reviewed annually.

**Section G: Parks and Recreation**

**The Parks Plan 2024**

<https://www.cityofsacramento.gov/ypce/parks/planning---development/park-plan>

The Parks Plan 2040 inventories existing physical and programmatic assets, identifies community needs and priorities, and refines the policies, actions, and tools that YPCE will use to guide the provision of parks, recreation facilities, programs, events, and services. By outlining a feasible investment approach and realistic projects and programs, this plan provides implementable recommendations that align with YPCE's mission, the City's goals, and the community's vision for the future.

**Park Project Programming Guide (PPPG) (2018)**

<https://www.cityofsacramento.gov/content/dam/portal/ypce/Parks/parks-planning/PPPG-2018.pdf>

The PPPG identifies, evaluates, ranks, and prioritizes unfunded park and recreation projects, including acquisitions, repair/rehabilitation, development, community facility, and regional projects.

The PPPG's goals are to:

- Provide an integrated system of parks, open space areas, and recreational facilities that are safe and connect the diverse communities of Sacramento;
- Plan and develop parks, recreation, and community facilities that enhance community livability, are equitably distributed throughout the city, and are responsive to the needs and interests of residents, employees, and visitors; and
- Secure adequate and reliable funding for the acquisition, development, and maintenance of parks, recreation facilities, and open space.

Projects are evaluated and grouped within each of the ten CPAs for consistency with the City's Parks and Recreation Master Plan, last updated in 2009. An update to this plan, Parks Plan 2040, is anticipated to be completed in 2024. The criteria in each CPA focuses on:

1. Neighborhood, community, and/or regional need
2. Funding availability for ongoing maintenance
3. Site significance, public priority or public use, and suitability to the area
4. Gives priority to economically disadvantaged neighborhoods
5. Health, safety, or legal mandates
6. Land availability
7. Cost offsets/partnerships

## **Section H: Transportation**

### **Transportation Priorities Plan (TPP) (2022)**

[https://www.cityofsacramento.gov/public-works/transportation/current\\_transportation\\_efforts/transportation-priorities-plan](https://www.cityofsacramento.gov/public-works/transportation/current_transportation_efforts/transportation-priorities-plan)

The Transportation Priorities Plan (TPP) is a document that prioritizes over 700 of the City's planned transportation projects that are estimated to cost \$5 billion. Projects that were prioritized were those that have been approved by City Council, those that included community engagement, and those in a plan or study. The values shared during community engagement in the initial phase of plan development became the criteria and metrics for transportation investments and prioritization and were adopted by City Council on March 15, 2022 with Resolution No. 2022-0079:

- Improves air quality, climate and health
  - Supports bicycling
  - Supports walking
  - Supports transit or electric vehicles
- Provides equitable investment
  - Benefits neighborhoods that lack basic infrastructure
  - Benefits communities that have been recipients of racism and bias
- Provides access to destinations
  - Connects to jobs
  - Connects to schools
  - Connects to parks
- Improves transportation safety
  - Improves a Vision Zero Top 10 corridor
  - Improves a Vision Zero HIN street or is a Vision Zero School Safety Project
- Fixes and maintains the transportation system
  - Improves pavement or bridges

- Improves traffic signals

The TPP was adopted by City Council on November 15, 2022 with Resolution No. 2022-0361.

**City of Sacramento Bicycle Master Plan (2016)**

[https://www.cityofsacramento.gov/content/dam/portal/pw/Transportation/Active-Transportation/Sacramento-BMP-Amendments-Incorporated\\_090622.pdf](https://www.cityofsacramento.gov/content/dam/portal/pw/Transportation/Active-Transportation/Sacramento-BMP-Amendments-Incorporated_090622.pdf)

This Plan was developed to set forth bicycle related investments, policies, program, and strategies for a complete bicycle system. Its goal is to encourage more bicycling by the citizens of Sacramento for both transportation and recreation, and thereby allowing the City of Sacramento to meet General Plan emission targets.

The goals of the plan are to increase:

- Ridership and attain a 7% bicycle mode share by 2020;
- Safety so there are no bicycle-related fatalities;
- Connectivity thereby doubling the percentage of residents that can conveniently reach a contiguous bikeway network; and
- Equity so that all areas of the city are equally invested in.

**Pedestrian Master Plan, Making Sacramento the Walking Capital (2006)**

[https://www.cityofsacramento.org/-/media/Corporate/Files/Public-Works/Publications/Transportation/Bicycle-Pedestrian/Sac-Ped-Plan\\_9-06.pdf?la=en](https://www.cityofsacramento.org/-/media/Corporate/Files/Public-Works/Publications/Transportation/Bicycle-Pedestrian/Sac-Ped-Plan_9-06.pdf?la=en)

The Pedestrian Master Plan provides a comprehensive vision for improving pedestrian conditions. Its objectives are to create standard and procedural recommendations as well as improve upon the current pedestrian deficiencies and to establish and maintain a pedestrian-friendly city. This will be accomplished by improving connectivity, accessibility, and safety.

There are two criteria for ranking projects: safety and project setting.

Safety-oriented criteria

- Barrier Elimination – ability to remove obstacles for safe travel or to introduce a shorter travel distance
- Infrastructure Completeness – ability to bring existing conditions into compliance
- Vehicle/Pedestrian Collisions – reported collisions between car and pedestrian that occurred during the previous three years.
- Speed – Posted speed limit at the project location.
- Volume – Based on the average daily traffic at the project location.

Project setting criteria

- Transit Access – enables direct access to the Rapid Transit system.
- Economic Development – falls within the 2013 Economic Development Strategy
- Infill Development – located within Tier I or Tier II opportunity areas as identified in the 2040 General Plan.
- Adjoining Property – based on the orientation of the development at the back of sidewalk, or where the sidewalk would be when a sidewalk is not present.
- Land Use – based on the predominant land use designation.
- Activity Centers – based on the number of activity centers within a 600' radius to its parcel boundary.

**Section I: City Utilities**

**Department of Utilities' Guide Capital Improvement Programming Guide (2012)**

<https://www.cityofsacramento.org/Utilities/Reports>

This guide explains the processes, methodologies, and funding sources used in developing the City Utilities Program. It also provides an overview of the water, wastewater, and storm drainage utilities operations and functions; explanations of the criteria used to rank projects; descriptions of the types of CIPs; and profiles planned capital projects. Also included is a long-term (30-year) and short-term (three-year) investment strategy for improving the utility infrastructure of the city.

Its goals include:

- Complying with all government regulations and legal requirements
- Providing high-quality, safe, and reliable utility systems through proactively monitoring/maintaining assets and reducing system vulnerability
- Planning for current and future generations by protecting, preserving, and enhancing resources, the environment, and the community
- Providing for environmentally sound landfill closure

Projects are assessed and ranked by:

1. Mandate by state and federal laws or regulations
2. Protect the public by meeting health and safety requirements
3. Meet the demands of increased growth
4. Manage funding by finding alternative funding sources, such as grants or other revenues
5. Improve or reduce ongoing facility operations and maintenance costs

**Department of Utilities 2022 Water Supply Master Plan**

The Water Supply Master Plan is intended to provide a comprehensive evaluation of existing and future demand projections, a complete water supply inventory and updated supply portfolio, a detailed water system assessment, an updated hydraulic model, and a recommended Capital Improvement Program to support the City’s ongoing capital improvement prioritization program.

**Regional Water Quality Control Board National Pollutant Discharge Elimination System (NPDES) permit Long-Term Control Plan**

The Long-Term Control Plan is a guide for improvement and rehabilitation projects that will meet the Combined Sewer System long term goals.

**Section K: Description of Major Funding Sources**

**FY2024/25 Approved Budget**

<http://www.cityofsacramento.org/Finance/Budget>

A companion book to the CIP, the Budget provides an overview of the operating budget, the five-year forecasts for the General and Enterprise Funds, as well as an overview of the debt service program that finances the cost of some capital improvements.

# **SECTION – Q**

## **Resolution**

**RESOLUTION NO 2024-0193**

Adopted by the Sacramento City Council

June 11, 2024

**Approving the Fiscal Year 2024/25 Operating and  
Capital Improvement Program Budgets**

**BACKGROUND**

- A. Article IX, section 111, of the City Charter requires the City Manager to present a balanced budget to the Mayor and City Council no less than 60 days before the beginning of each fiscal year.
- B. The City of Sacramento, through the leadership and direction of the Mayor and City Council, has maintained a sustainable budget philosophy. Given this concept of fiscal sustainability, the City Council adopted the following core budget policies and budget guidelines on February 14, 2017 (Resolution No. 2017-0078):

**Core Budget Policies**

- 1. City Council must adopt a balanced budget.
- 2. Funding decisions should be consistent with Council-adopted policies.
- 3. The Economic Uncertainty Reserve shall be maintained at a minimum of 10% of budgeted General Fund revenues. Resources must be added to maintain this level through the budget and midyear processes, as necessary.

**Budget Guidelines**

- 1. Maintain a fiscally sustainable, balanced budget.
- 2. The Mayor and Council’s priorities, based on community input, should drive the budget creation.
- 3. Continue a community-based budget process where city residents are engaged and educated on budget processes and provide feedback on budget priorities.
- 4. Look for ways to grow the reserve beyond its current goal.
- 5. All budget actions must be considered in a five-year context, with new revenues not counted or spent until realized. One-time resources should be used for one-time needs, not ongoing expenses.

## 2024-2029 Approved Capital Improvement Program

---

6. Do not make spending decisions in isolation. Avoid spending money on one-off projects or without looking at the big picture. Understand long-term consequences and opportunity costs.
  7. Keep City Council informed on the fiscal condition of the City and conduct continuous evaluations for efficiencies and effectiveness.
  8. The City must consistently look for opportunities to proactively grow revenues instead of simply being reactive.
  9. Make every effort to identify private financing or federal and state grant opportunities before using City resources. Pursue new and enhance existing revenue sources.
  10. Before new expenditures are made, identify return on investments and impacts, fiscal and social benefits.
  11. Address unfunded long-term liabilities.
  12. Remain a full-service City.
- C. On June 11, 2019, the City's Economic Uncertainty Reserve (EUR) Policy was amended to include Measure U resources in determining the amount to be set aside in reserves (Resolution No. 2019-0248) as directed by the City Council on February 5, 2019 (Resolution No. 2019-0047).
- D. The FY2024/25 Approved Budget (which includes the Operating Budget and the Capital Improvement Program [CIP] Budget) are consistent with City Charter requirements and the City Council's adopted Core Budget Policies and Budget Guidelines.
- E. The Mayor and Council conducted budget discussions during May and June 2024 to discuss and consider the City's FY2024/25 Budget.

### **BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:**

#### **Section 1. Preliminary Matters.**

- 1.1. The Budget changes attached as Exhibit A and the Summary of FTE attached as Exhibit B are hereby approved.
- 1.2. The FY2024/25 Operating and CIP Budgets (collectively the Approved Budget), as defined in section 3.2 below, and attached as Exhibit C and D are hereby approved.
- 1.3. The 2024-2029 CIP, which provides a comprehensive five-year plan for the City's capital project expenditures and attached as Exhibit D, is hereby approved.
- 1.4. Sections 2 through 20 below, which define the authority and responsibilities of the City Manager in implementing the Approved Budget, are hereby approved.

- 1.5. The City Manager is authorized to incorporate final decisions of the Council, and to refine and add content, as may be needed to meet Government Finance Officers Association and/or California Society of Municipal Finance Officers budgeting-award requirements into the Approved Operating and CIP Budgets to create the FY2024/25 Approved Budget.
- 1.6. The attached Exhibits A through D are part of this resolution.
- 1.7. The City's Debt service must be limited to 6% of total General and Measure U (G/MU) Fund revenues, excluding Department revenues.
- 1.8. The City Treasurer shall conduct a financial stress test on the combined G/MU Funds before the issuance of any bonds.
- 1.9. Available resources in the Innovation and Growth Fund (Fund 2031) shall be transferred to the General Fund as needed to offset projected deficits shown in the G/MU Fund five-year forecast included in the Approved Budget.
  - (A) Expand the usage of the Innovation and Growth Funds consistent with either ScaleUp Sacramento: An Inclusive Economic Action Agenda (Motion No. 2021-0022) or sections one through five of the Inclusive Economic Development Investment Funding Guidelines (Motion No. 2019-0307).

## **Section 2. Scope.**

This resolution defines the authority and responsibilities of the City Manager in implementing the Approved Budget and supersedes Resolution No. 2023-0205.

## **Section 3. Definitions.**

- 3.1. "Account" is the primary accounting field in the budget used to describe the nature of the financial transaction (overtime, professional services, debt, etc.).
- 3.2. "Approved Budget" means the Approved Operating Budget (Operating Budget) and the Approved Capital Budget (CIP Budget), which are attached as Exhibits C and D and reflects the FY2024/25 Proposed Operating and CIP Budgets, as amended by the Council to incorporate the approved Budget Changes attached as Exhibit A, and a summary of position changes as displayed in Exhibit B.
- 3.3. "City Manager" means the City Manager or, if so designated, the Director of Finance.
- 3.4. "Department" means Mayor and City Council; City Manager; City Attorney; City Auditor; City Clerk; City Treasurer; Community Development; Community Response; Convention and Cultural Services; Finance; Fire; Human Resources; Information Technology; Police; Public Works; Utilities; Youth, Parks, and Community Enrichment; and Citywide and Community Support.

- 3.5. “Full Time Equivalent” and “FTE” mean the decimal equivalent of a position, e.g., one full-time position is 1.00 FTE and one quarter-time position is 0.25 FTE.

**Section 4. Approved Budget Appropriations, FTEs, and Adjustments.**

- 4.1. The City Manager is authorized to make any expenditure and resource adjustments to the Operating Budget based on final Council action to adopt the Operating Budget.
- 4.2. The City Manager is authorized to establish the appropriations and FTE as shown in Schedules 1A, 1B, 1C, 1D, and 1E and the fund summaries, including transfers, as shown in Schedules 2A, 2B, and 2C, as displayed in Exhibit C.
- 4.3. The City Manager is authorized to modify FTE classifications by Department as necessary to implement the reclassifications and studies authorized by Schedule 8, as displayed in Exhibit C.
- 4.4. The City Manager is authorized to revise any appropriation made in the Approved or Amended Budget where the revision is of a technical nature and is consistent with the Council's intent.
- 4.5. The City Manager may authorize the use of the Old Sacramento Public Market Fund (Fund 2601) for the development, repair, and maintenance of the north and south public markets.
- 4.6. The City Manager is authorized to make annual loan payments to the Risk Fund from the Community Center Fund subject to the availability of funds. As of June 30, 2023, the balance of the Risk Fund loan to the Community Center Fund totaled approximately \$4.9 million.
- 4.7. Following budget adoption, the City Manager is authorized to do the following:
- (A) Transfer appropriations from the operating budget and establish or adjust revenue and expenditure budgets for externally funded programs (EFPs), multi-year operating projects (MYOPs), and operating grants as shown in Schedule 9 displayed in Exhibit C.
  - (B) Adjust any appropriation made in the Approved Budget to reflect changes from amounts budgeted for updated labor (for example, changes in retirement rates, payroll taxes, health benefits), fleet (including accident recovery costs), utilities in Citywide Support, 311 Call Center (reimbursements based on call data), cost plan, and risk-management changes, from available fund balance or reserves for the respective funds.
  - (C) Adjust budgets to reflect all required debt service and related payments, including adjustments to rate stabilization reserves, pursuant to City debt agreements.

- (D) Revise and establish indirect cost rates to be applied to hourly salary rates in order to achieve full cost recovery of services; and adjust the Operating Budget to reflect the indirect cost rate plan for FY2024/25.

**Section 5. Economic Uncertainty Reserve Policies and Transfers from Contingency and Reserve Funds.**

- 5.1. The Council-adopted EUR Policy as amended on June 11, 2019 (Resolution No. 2019-0248) establishes a minimum reserve level equal to 10% of annual G/MU Fund revenues and a target reserve level equal to two months of regular ongoing General Fund expenditures, including transfers (17% of G/MU Fund expenditures). Resources to fund this reserve will be identified on an ongoing basis and can include positive year-end results or other one-time resources available to the G/MU Fund.
- 5.2. The G/MU Fund EUR is maintained to bridge the gap between projected revenue and expenditures during periods of significant revenue declines, expenditure growth, or both. Consistent with Governmental Accounting Standards Board Statement No. 54 (Fund Balance Reporting and Governmental Fund Type Definitions), the Council-adopted parameters for using the EUR are as follows:
  - (A) The City Manager may recommend a release from the EUR when the gap between projected revenue and expenditures is greater than \$1 million in the proposed budget.
  - (B) Any release from the EUR requires the Council's approval.
  - (C) These parameters may be changed only by resolution of the Council.
- 5.3. The City Manager is authorized to maintain an EUR reserve below the minimum threshold prescribed in the Council-adopted EUR Policy in FY2023/24 and FY2024/25 and to forgo EUR contributions from the G/MU Fund in FY2023/24 and FY2024/25 to support the development of a balanced Budget.
- 5.4. The City Manager is authorized to make appropriation changes (increases or decreases) less than \$250,000 by fund from available fund balance. Appropriation changes, whether increases or decreases, including \$250,000 or more require Council approval, except for payments to employees for vacation and sick leave payouts. Payments to employees for vacation and sick leave payout may be approved by the City Manager.
- 5.5. The City Manager is authorized to make appropriation changes (increases or decreases) less than \$250,000 to any Department or project from Administrative Contingency established in the General Fund. Appropriation changes (increases and decreases) more than and including \$250,000 to the Department or project require Council approval.
- 5.6. Transfers must not be made from an available fund balance or Administrative Contingency if the transfer will result in a negative balance.

## 2024-2029 Approved Capital Improvement Program

---

- 5.7. The City Manager is authorized to release the General Fund (Fund 1001) and Measure U (2401) commitments of fund balance for future budget development as needed to submit a balanced budget.
- 5.8. Use of committed fund balance reserves, except as authorized in section 5.7, requires the Council's approval by resolution.
- 5.9. Authorize the City Manager to allocate up to \$3.3 million of the \$3.8 million FY2023/24 funds appropriated to the EUR to restore programming and/or mitigate the impacts of reduction strategies utilized to close the \$66 million FY2024/25 deficit for the following programs:
  - Not to Exceed \$120,000 for the IT internship training program
  - Not to Exceed \$250,000 for RydeFreeRT
  - Not to Exceed \$370,000 for Youth Program Scholarship Fund
  - Not to Exceed \$300,000 for Community Center Fee Waivers
  - Not to Exceed \$300,000 for Youth Sports Field Maintenance
  - Not to Exceed \$250,000 for Northern Bike Trail Maintenance
  - Not to Exceed \$600,000 for Neighborhood Development Action Team
  - Not to Exceed \$102,000 for Arts Stabilization
  - Not to Exceed \$200,000 for Digital Equity Response
  - Not to Exceed \$500,000 for FUEL Network
  - Not to Exceed \$100,000 for Fine & Fee Justice
  - Not to Exceed \$200,000 for Revenue Restoration for Parking Citation Fee

Direct the City Manager and authorize the City Manager to make all related budget and project adjustments to:

- Restore the Language Access Coordinator position utilizing existing budgeted funds for language access
- Restore \$87,000 in funding for the SMUD Museum of Science and Curiosity in the Community Center Fund
- Restore \$87,000 in funding for the Sacramento History Alliance in the Community Center Fund
- Modernize the Home Occupation Permit Fee program
- Establish a fee waiver or relief program for low-income seniors for the Sidewalk Repair Administration Fee
- Utilize up to \$16,000 in unappropriated funds from the Participatory Budgeting Multi-Year Operating Project (I80010000) for the Measure U Committee to conduct community focus groups. Change the project name from Participatory Budgeting to Measure U Committee Initiatives to broaden the scope to include focus groups.
- Change Youth Sports Field Permit Program (I19143000) to YPCE Youth Program Scholarship Fund to expand eligibility to youth-serving facilities and programs.

Authorize the City Manager to make any necessary budget adjustments to use year-end savings not needed for budget balancing to restore the minimum EUR balance as established by Council policy.

**Section 6. Appropriation Increases and Decreases.**

- 6.1. All appropriation changes (increases or decreases) \$250,000 or more to the Approved Budget require Council approval by resolution.
- 6.2. The City Manager is authorized, upon completion of the audited financial statements for FY2023/24, to adjust FY2024/25 fund contingencies by the amount of net changes in available fund balance. The available fund balance in the G/MU Fund must be included and explained in the report to the Council accompanying the Annual Comprehensive Financial Report (ACFR).
- 6.3. Residual balances from unexpended debt proceeds will revert to the appropriate fund and used for the lawful purposes as specified in the conditions of the debt issuance. The City Manager is authorized to establish appropriations and account for the expenditure of these unexpended proceeds.

**Section 7. Appropriation Transfers.**

- 7.1. Operating appropriation transfers within the same Department and the same fund, including the Department's established fleet MYOP, require the City Manager's approval.
- 7.2. Appropriation transfers between two or more Departments, less than \$250,000, must be approved by the City Manager. Such transfers more than and including \$250,000 requires Council approval by resolution.

**Section 8. Staffing Changes.**

- 8.1. Any increase or decrease in FTE by department or by fund as authorized in the Operating Budget, by subsequent approval of the Council, or by the City Manager in accordance with this resolution, is subject to approval by the Council except for renewals or expansion of fully offset grants or EFPs as specified in section 8.2.
- 8.2. The City Manager is authorized to adjust staffing levels for renewals, expansions, or reductions to fully offset Council-approved operating grants or EFPs. Grant/EFP positions must be terminated upon completion or cancellation of the grant/EFP unless specifically continued by a Council resolution that includes a source of replacement funding. Any existing positions approved on the assumption that the City would receive a grant or other reimbursements must have continued funding verified before filling the position.

- 8.3. Any reassignment of authorized FTE and employee-services funding associated with the FTE, within a Department and within the same fund, may be made at the discretion of the Department director with the approval of the City Manager as long as there is no net change to authorized FTE and funding levels.
- 8.4. The City Manager is authorized to modify any authorized FTE classification as necessary to reflect current incumbent status based on the established flexibly staffed classifications included in Council-approved labor contracts.
- 8.5. All new job classifications or classification changes (as identified in Exhibit C, Schedule 8) are subject to classification review and approval by the Director of Human Resources.
- 8.6. The City Manager is authorized to adjust staffing levels in the Police and Fire Training Academies based on projected vacancies.
- 8.7. The Director of Human Resources is authorized to establish non-budgeted positions (NBPs) for the following:
  - (A) Mayor and Council Offices, to be funded from their existing operations budgets.
  - (B) Departments as needed to reflect current staffing needs. Departments must have sufficient labor savings to cover the cost of NBPs, and none of the NBPs may be used for more than one year. Departments will seek budget authority to convert NBPs to authorized FTE positions or the NBPs will be eliminated during the budget process.

**Section 9. Revenue Budget.**

- 9.1. The FY2024/25 revenue budget is summarized in Exhibit C, Schedule 6.
- 9.2. Any increase or decrease greater than (and including) \$250,000 by fund in estimated revenue by Department to the Approved Budget requires the Council's approval.
- 9.3. The City Manager is authorized to implement biennial Consumer Price Index increases if the increases are warranted based on the adopted Fees and Charges Policy.
- 9.4. Proceeds from the sale of General Fund and Redevelopment Agency Successor Agency surplus land, unless otherwise specified, will be budgeted in the Innovation and Growth Fund (Fund 2031).
- 9.5. Unbudgeted one-time general revenue received in a fiscal year, which is not required to balance the budget as part of the midyear review or fiscal year-end close, will be added to the G/MU Fund EUR.
- 9.6. The City Manager is authorized to adjust General Fund revenues supporting Measure U department operations to actuals received and to adjust the appropriate transfers between the funds.

**Section 10. Capital Improvements.**

- 10.1. Capital projects and/or appropriations will be used for the following:
  - (A) Repairs, maintenance, improvements, or acquisitions with a total cost of at least \$20,000 and a useful life that exceeds one fiscal year; and
  - (B) Community/Neighborhood projects as approved in separate resolutions by the Council.
- 10.2. Council approval is required for the establishment or cancellation (without completion) of a CIP, except as provided below:
  - (A) The City Manager is authorized to approve and establish one or more capital projects for internal City operations related to improvements and minor construction of existing City-owned or occupied buildings if the total cost to deliver each project is less than \$250,000. Projects will be managed in the City Facility Improvement (C15100000) project.
  - (B) Capital projects may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project, without further Council action.
  - (C) Projects established for agreements the City Manager executes in accordance with Sacramento City Code chapter 18.18. The City Manager is authorized to make all necessary budgetary adjustments when the City accepts improvements constructed under these agreements.
- 10.3. Capital appropriations must be used solely for the originally approved project or projects except as provided in this section.
- 10.4. Completed and inactive projects will be closed annually, except for projects that have existing litigation or payment disputes. An inactive project is one where transaction activity is less than \$1,000 over the prior three years. Closures are the responsibility of the designated project manager. The managing department and the City Manager are each authorized to process the necessary documentation to close inactive projects.
- 10.5. Each fiscal year, all multi-year CIP projects in existence on June 30 will be continued except as provided otherwise in section 10.4. The FY2024/25 CIP Budget is summarized on Schedules 2 and 4 as displayed in Exhibit C and on Schedule 4 as displayed in Exhibit D.
- 10.6. Each fiscal year, unobligated appropriations for all inactive projects, as defined in section 10.4, will expire on June 30 following the third full year of the last appropriation to the project. Projects requiring continuing appropriations will require Council action through programming within the CIP or through a separate appropriation to the project authorized by resolution of the Council.

- 10.7. Each fiscal year, on June 30, the balance of each CIP project must be zero or have a positive balance by fund. Projects with spending in excess of available budget from all funding sources (i.e., with negative balance) will be treated as follows:
- (A) If the CIP balance exceeds budget by less than \$250,000, the CIP must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the CIP manager's Operating Budget (all transfers less than \$250,000 must be made as provided for in section 6.1).
  - (B) If expenditures exceed the budget by more than and including \$250,000, a corrective plan of action must be submitted to the Council for approval by resolution.
- 10.8. Community/Neighborhood projects and appropriations established with one-time funding sources under Resolution No. 2004-551 (6/29/04) and associated staff report, is governed by the following procedures:
- (A) Savings of up to and including \$50,000 due to lower-than-expected costs or the securing of alternative funding sources may be administratively reprogrammed into other projects within the same Council District at the request of the Council District Office and with the approval of the City Manager.
  - (B) Savings above \$50,000 may be reprogrammed upon approval by resolution of the Council.
- 10.9. Except as provided in section 10.8, the City Manager is authorized to transfer appropriations less than \$250,000 as follows:
- (A) General, Measure U, and Capital Bond Funds:
    - (1) From a project that has not been completed, if a revised project estimate confirms that upon completion there will be project savings.
  - (B) All other funds from Project A to Project B if:
    - (1) Project A is complete and has savings; or
    - (2) Project A has not been completed and a revised project estimate confirms that there will be project savings upon completion.
- 10.10. Upon completion and closure of a capital project, the City Manager is authorized to transfer any remaining project balance as follows:
- (A) To the available fund balance of the respective fund, the Capital Projects Base Reserve in the Utilities CIP or, in the case of the General Fund, Administrative Contingency; or in the case of capital grants, to amend the revenue and expenditure budgets to actual revenues received and expenditures incurred.
  - (B) As provided for in section 10.9.

- 10.11. Except for projects covered by section 10.10, the City Manager is authorized to increase or decrease project budget appropriations by less than \$250,000 for each project. Appropriation changes more than and including \$250,000 in total for any project must be approved by resolution of the Council. The City Manager's administrative authority to adjust budgets for capital projects will be reset after budgetary actions are authorized by the Council. If the appropriation is from available fund balance, it is subject to the provisions in section 5.
- 10.12. Projects funded by New Measure A Project Construction Sales Tax are included within the CIP Budget for planning purposes. Work on CIP projects funded by New Measure A Project Construction Sales Tax (Fund 2023) is done before receiving funding, and project funding and authorization for these projects must be as follows:
- (A) Fund 2023 revenue and expenditure budgets will not be loaded into the City's financial system until STA Board approval and Council appropriation through separate Council action.
- 10.13. Projects funded by reimbursable (grant) funds are included within the Operating and CIP Budgets for planning purposes. Work on CIPs funded by these sources is done before receiving funding, and project funding and authorization for these projects must be as follows:
- (A) Funds 2700, 3702, 3703, 3704, 6205, 6206, 6207, and 6211. Revenue and expenditure budgets will not be loaded into the City's financial system until agreements (Program Supplements/E-76s, Individual Project Agreements, Cooperative Agreements, etc.) have been executed by the City and the funding authority.
- (B) Funds 3703 and 3704. The City is eligible to receive federal or state funding, or both, for certain transportation projects through the California Department of Transportation (Caltrans). Master Agreements, Program Supplemental Agreements, Fund Exchange Agreements, and Fund Transfer Agreements must be executed by Caltrans before such funds can be claimed. The City Manager is authorized to execute on the City's behalf all Master Agreements, Program Supplemental Agreements, Fund Exchange Agreements, and Fund Transfer Agreements, and any amendments thereto.
- The City Manager is authorized to transfer matching funds as specified in the approved CIP from the state and federal Grant Match (T15007200) CIP, and to enter the revenue and expenditure budgets as reflected in the grant agreement, only if the amount differs by less than \$250,000 from what was reflected in the Approved CIP Budget that authorized the project funding. Project agreements that differ by more than and including \$250,000 from the anticipated budget require the Council's approval by resolution.
- (C) For projects in funds 6205, 6206, and 6211 that result from an existing Operations and Maintenance Agreement for facilities maintained by the City but are owned

or co-owned with Regional San and Sacramento Area Flood Control Agency, the City Manager or designee is authorized to do the following:

- (1) Establish and/or adjust revenue and expenditure budgets of up to \$250,000 for any emergency repair or replacement projects; and
- (2) Adjust revenue and expense budget based on actuals for project closure.

10.14. The 2024-2029 CIP Budget (Schedule 4, Exhibits C and D) includes projects that are directly supported by user and developer fees and utility rebates. The City Manager is authorized to adjust department revenue budgets and CIP expenditure budgets for projects as identified in the General Government section of the CIP that are directly supported by fees and rebates based on the actual fees and rebates collected, less any operating costs associated with delivering the service.

10.15. The City Manager is authorized to adjust revenue and expenditure budgets to reflect actual revenues received and expenditures incurred in compliance with the original grant award and any amendments. If the grant is not renewed or is changed by more than and including \$250,000, the managing department must return to the Council for corrective action.

### **Section 11. Operating Grants.**

11.1. Council approval is required for the establishment or cancellation (without completion) of an operating grant except as follows:

- (A) Where the operating grant is less than \$250,000 and does not require any of the following:
  - (1) any increase or decrease, by department or by fund, in FTE as authorized in the Approved Budget or by any subsequent approval by the Council or the City Manager in accordance with this resolution;
  - (2) matching funds from City resources; or
  - (3) any ongoing service or funding by the City.
- (B) The City Manager is authorized to establish operating grants and authorize spending and allocation of resources more than and including \$250,000 in advance of formal agreements in response to governmental requests for public-safety assistance related to homelessness, disasters and national-security risks. The department responding to these events shall report to the Council within 60 days after receiving formal program documents from the requesting governmental agency or agencies to obtain approval to enter into agreements and accept reimbursements.

- (C) Operating grants may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project, without further Council action.
- 11.2. The City Manager is authorized to adjust FTE and associated service and supplies budget, in accordance with section 8.2, for renewals or expansions of fully offset grants previously approved by the Council.
- 11.3. If a grantor requires Council action as a condition of funding the grant, the establishment of the grant requires Council approval regardless of the grant amount.
- 11.4. Each fiscal year, all multi-year operating grant budgets in existence on June 30 will be continued in the next fiscal year.
- 11.5. The City Manager is authorized to adjust revenue and expenditure budgets for renewals, up to the amount previously approved by the Council, and augmentations less than \$250,000 of fully offset grants.
- 11.6. The City Manager is authorized to establish revenue and expenditure budgets for federal or state grant-funded youth programs and parks-and-recreation programs based on the prior year award before receipt of signed agreements. Project funding and appropriations must be adjusted based on the final grant agreement. If the grant is not renewed or is changed by more than and including \$250,000, the managing department must return to the Council for corrective action.
- 11.7. Each fiscal year, on June 30, the balance of each grant budget must be zero or have a positive balance by fund. Grants in excess of the budget from all funding sources (total budget has a negative balance) will be treated as follows:
  - (A) If the Grant balance exceeds budget by less than \$250,000, the Grant must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the Grant manager's Operating Budget (all transfers of less than \$250,000 must be made as provided for in section 6.1).
  - (B) If the project balance exceeds budget by more than and including \$250,000, a corrective plan of action must be submitted to the Council for approval by resolution.
- 11.8. The City Manager is authorized to adjust grant and operating expenditure budgets to account for Council-approved grant match and retention obligations.
- 11.9. The City Manager is authorized to adjust revenue and expenditure operating grant budgets to reflect actual revenues received and expenditures incurred upon closure of a project in compliance with the original grant award and any amendments.
- 11.10. Award and Distribution of City Grants.

- (A) Council approval is required: (1) to award grants to an individual, non-profit, business, or community-based organization that applies for a City grant more than and including \$250,000; and (2) to execute contracts with the grantees for the services to be provided.
- (B) Consistent with Council direction, the City Manager is authorized: (1) to award grants to an individual, non-profit, business, or community-based organization that applies for a City grant in amounts less than \$250,000; and (2) to execute contracts with the grantees for the services to be provided.
- (C) The award and distribution of grants must comply with any Citywide Grant Distribution Policy.
- (D) Before grant funds are distributed, the City and the grantee must execute a City contract that outlines the public benefit, timelines, and reporting requirements.
- (E) For grant contracts of any amount, the City Manager is authorized to execute amendments consistent with the authority granted to the City Manager in section 3.56.290 of the City Code and related policies.
- (F) The annual budget must list all grants awarded the previous calendar year.

**Section 12. Externally Funded Programs (EFP).**

- 12.1. Council approval is required for the establishment or cancellation (without completion) of an EFP, except as follows:
  - (A) Where the EFP is less than \$250,000 and does not require any of the following:
    - (1) any increase or decrease, by department or by fund, in FTE as authorized in the Approved Budget or by any subsequent approval by the Council or by the City Manager in accordance with this resolution;
    - (2) matching funds from City resources; or
    - (3) any ongoing service or funding by the City.
  - (B) EFPs may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project, without further Council action.
- 12.2. Each fiscal year, all multi-year EFP budgets in existence on June 30 will be continued in the next fiscal year.
- 12.3. The City Manager is authorized to adjust revenue and expenditure budgets for EFP renewals, up to the amount previously approved by Council, and augmentations less than \$250,000.

- 12.4. Each fiscal year, on June 30, the balance of each EFP budget must be zero or have a positive balance by fund. EFPs in excess of the budget from all funding sources (total budget has a negative balance) will be treated as follows:
- (A) If the EFP balance exceeds budget by less than \$250,000, the EFP must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the EFP manager's Operating Budget (all transfers of less than \$250,000 must be made as provided for in section 6.1).
  - (B) If the project balance exceeds budget by more than and including \$250,000, a corrective plan of action shall be submitted to the Council for approval by resolution.
- 12.5. EFPs with existing contracts approved by the Council, funding ongoing operations and studies, can be adjusted annually (revenues and expenditures) based on the actual revenues received.

**Section 13. Multi-Year Operating Projects (MYOP).**

- 13.1. A MYOP is used for the following:
- (A) Economic Development Assistance and Development Programs (e.g., inclusionary housing).
  - (B) Planning, audit, and other consultant studies that will take more than one fiscal year to complete.
  - (C) Department fleet (vehicle or equipment) acquisition charges.
  - (D) Other projects and activities that are multi-year in nature and are not capital improvement projects.
- 13.2. Council approval is required for the establishment or cancellation (without completion) of a MYOP, except as provided in section 13.7.
- 13.3. MYOPs may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project without further Council action.
- 13.4. Each fiscal year unobligated appropriations in existence on June 30 for existing MYOPs will be continued in the next fiscal year except as noted in sections 13.10, 13.11, and 18.11.
- 13.5. MYOPs must be used solely for the originally approved program or study. Completed or inactive MYOPs will be closed annually. An inactive project is one where transaction activity is less than \$1,000 over the prior three years. Closures are the responsibility of the designated project manager. The managing department and the City Manager each have the authority to process the necessary documentation to close inactive projects.

- 13.6. The Police and Fire Departments are authorized to use Measure U MYOPs savings from vacancies for background investigations, recruit academies, and overtime associated with restored programs and operations.
- 13.7. The City Manager is authorized to establish and adjust budgets for private development activities (Funds 2016 and 2018) managed in MYOPs that are fully offset by development fees.
- 13.8. Each fiscal year, on June 30, the balance of each MYOP must be zero or have a positive balance by fund. Projects in excess of the budget from all funding sources (total budget has a negative balance) will be treated as follows:
  - (A) If the MYOP balance exceeds budget by less than \$250,000, the MYOP must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the MYOP manager's Operating Budget (all transfers of less than \$250,000 must be made as provided for in section 6.1).
  - (B) If the MYOP balance exceeds budget by more than and including \$250,000, a corrective plan of action must be submitted to the Council for approval by resolution.
- 13.9. The City Manager is authorized to increase or decrease MYOP budget appropriations by less than \$250,000 for each project. Transfers that exceed and including \$250,000 in total for any MYOP require Council approval by resolution.
- 13.10. The City Manager is authorized to review MYOPs on an annual basis and return excess funds to the fund balance or contingency of the respective fund (e.g., Fleet, Measure U, Utility Rate Assistance).
- 13.11. The Utility Box Artwork (I17000800) MYOP General Fund budget can be amended up to \$450,000 (\$50,000 for each Councilmember and the Mayor) based on requests and resources provided from the operations budgets of the elected official initiating the request.
- 13.12. MYOPs with existing contracts approved by the Council funding ongoing operations and studies, can be adjusted annually (revenues and expenditures) based on the actual revenues received.
- 13.13. The City Manager or designated project manager is authorized to administer and manage the Sacramento Utility Rate Assistance (SURA) Program (I14130100) up to the annual budget of \$5.4 million.

#### **Section 14. In-Lieu Property Taxes and In-Lieu Franchise Fee.**

An in-lieu property tax and in-lieu franchise fee are hereby imposed on the Community Center (Fund 6010) and Parking (Fund 6004) Funds in the amounts provided in Schedule 3 as displayed in Exhibit C. The Council finds that the in-lieu property tax as detailed in Schedule 3 represents the property-tax revenue that would be received by the General Fund if the real and personal

---

property owned by these enterprises were taxable under private ownership. The in-lieu franchise fee as detailed in Schedule 3 represents the franchise fees that the City would receive from private entities as a rental or a toll for the use of city streets and rights-of-way.

**Section 15. Appropriation Limits.**

The appropriation limit and the appropriations subject to the limit are hereby amended in accordance with article XIII B of the California Constitution for FY2024/25, as detailed in Schedule 5 as displayed in Exhibit C.

**Section 16. Midyear Report.**

- 16.1. The City Manager shall present a Midyear Budget Report including a revised estimate of the financial condition of all funds, estimated revenues and expenditures, and recommendations for eliminating any projected fund deficits to the Council.
- 16.2. The Council will act on any projected fund deficits as part of the midyear review.

**Section 17. Adjustments for Revenue Offset Programs and Services.**

- 17.1. The City Manager is authorized to adjust revenue and expenditure budgets in special revenue funds based on actual revenues collected to provide appropriation authority for operating costs associated with delivering the service. If there are forecasted budget deficits in the future fiscal years, the City Manager is authorized to commit non-mandated G/MU Fund revenues and positive net year-end results to future budget development reserves.
- 17.2. The City Manager is authorized to make the following adjustments to Department Operating Budgets or fund balance:
  - (A) Adjust Fire Department revenue and expenditure budgets based on actual revenues received for Department strike-team services provided throughout California.
  - (B) Adjust operating department revenue and expenditure budgets based on actual revenues received for providing reimbursable services to the Golden 1 Center as outlined in the City's agreement to provide services.
  - (C) Adjust the revenue budget for the Sacramento Police Department's Secondary Employment Program to reflect actual revenues received and adjust the expenditure budget by a like amount for providing reimbursable services as outlined in the City's Secondary Employment Agreement.
  - (D) Adjust the revenue and expenditure budgets for facility maintenance and repair services provided to outside agencies and entities (15004521- 338020) and for private property concrete maintenance and sidewalk repairs (15001641-343010) to reflect actual revenues received for these services.

- (E) Increase the revenue (Account 391320) and fleet-replacement expenditure (Account 474210) budgets in the Fleet Fund (Fund 6501) based on departmental fleet purchasing changes (additional or early replacement) approved by the Council during the fiscal year and upon completion of audited financial statements to allow the continued purchasing of prior-year-funded replacement vehicles.
- (F) Transfer excess parking meter revenue from the General Fund (Fund 1001) to cover eligible costs that are incurred in the Parking Fund (Fund 6004) if the full costs of the current fiscal year operations for parking meters has been recovered and the department has positive net year- end results.
- (G) The Rental Housing Inspection Program Fees are established to recover the costs of the program. If the full cost of the current-year operations for that program have been recovered, then excess revenues for the program will be committed to fund a reserve equal to one year's revenue budget for the program.

If these operations do not achieve the budgeted revenues or if program costs exceed the program budget, then resources must be transferred from the commitment of fund balance for the Rental Housing Inspection Program to cover the shortfall.

- (H) Increase the revenue and expenditure budgets in the Garcia Bend Park (L19703600) CIP based on the actual revenues received from increased boat launch ramp fees at Garcia Bend Park, provided that the Department has positive net revenues after all Parking Services Division costs related to the Garcia Bend launch ramp are paid.
  - (I) Adjust the Police Department revenue and expenditure budgets based on actual revenues received for mutual aid provided to other jurisdictions.
  - (J) Establish Department of Utilities revenue and expenditure budgets for any projects that result from an existing operations and maintenance agreements for facilities maintained by the City, but owned or co-owned with an outside agency for less than \$250,000 in the Water Grant Reimbursement Fund (Fund 6205), the Wastewater Grant Reimbursement Fund (Fund 6206), and the Storm Drainage Grant Fund (Fund 6211) for an agency's share and to adjust revenue and expense budget based on actuals for project closure.
- 17.3. The City Manager is authorized to make the following adjustments between Department operating budgets and CIPs or MYOPs:
- (A) Adjust the revenue budget for the City Attorney's Office and the expenditure budget in the Justice for Neighbors (JFN) (I03000100) MYOP based on the actual fees, penalties, and other revenues collected from third parties for Public Nuisance, Social Nuisance, and JFN actions brought by the City Attorney.

- (B) Adjust the Community Development Department operating budget for spay/neuter and unaltered pet-licensing revenue accounts (Account 341380 [Program Code 13006] and 351020) and increase the Animal Care Low Income Spay/Neuter Program (I13000600) MYOP expenditure budget in the General Fund (Fund 1001) to reflect 50% of the penalty fees and 50% of unaltered pet-licensing fees collected in accordance with Sacramento City Code section 9.44.215.D.
- (C) Adjust the revenue budget for the Convention and Cultural Services Department franchise fee to reflect actual revenues received and increase the expenditure budget by a like amount in the Old Sacramento Service Courts & Support Facilities (M17700000) CIP.
- (D) Adjust the Convention and Cultural Services revenue budget for Memorial Auditorium Facility Fee revenues and the Memorial Auditorium Improvements (M17101000) CIP expenditure budget based on actual fees collected, less any operating costs associated with delivering this service.
- (E) Adjust the Convention and Cultural Services revenue budget for SAFE Credit Union Performing Arts Center Facility Fee revenues and the Performing Arts Center Improvements (M17101800) CIP expenditure budget based on the actual fees collected, less any operating costs associated with delivering this service.
- (F) Adjust the Public Works Department revenue budget to reflect actual revenues received and the Sacramento Valley Station Operations and Management (I15001000) MYOP expenditure budget by a like amount.
- (G) Increase the Public Works Department revenue and expenditure budgets for launch-ramp activities to reflect actual revenues received and transfer any resulting year-end savings for these activities to the Harbor Dredging (M17500000) CIP if the Department has positive net year-end results.
- (H) Adjust the Public Works Department revenue budget and the expenditure budget in the Shared-Rideable Implementation (K15195100) CIP based on the actual revenues received from the Shared-Rideable permit fees, except for the portion of the fee assessed to offset parking-meter-revenue loss.
- (I) Adjust the Public Works Department revenue budget (15001021) and the expenditure budget in the Tree Planting and Replacement (R15188500) CIP based on actual revenues received in the Tree Planting and Replacement Fund (Fund 2035).
- (J) Adjust the Youth, Parks, and Community Enrichment Department revenue budget for recreation-program fees and increase the expenditure budget in the Recreation Facility Improvement (L19800200) CIP if the full cost of the current

fiscal-year operations for this CIP have been recovered and the Department has positive net year-end results.

- (K) Adjust appropriations made in the Approved Budget for fleet replacements from amounts budgeted for updated fleet-replacement costs less than \$250,000 by department and by fund and transfer expenditure budgets from department operating budgets to the Fleet Acquisitions (I06000999) MYOP if the department is projecting expenditure savings in excess of the transfer.
- (L) Increase the transfer from the Community Center Fund (Fund 6010) to the G/MU Fund (Fund 1001/2401) to offset the annual budget provided for in Schedule 9 for the Powerhouse Science Center (E18000400) EFP as authorized by Council through December 2048, if Transient Occupancy Tax revenues exceed budget by an amount up to \$600,000 at year-end and if the Community Center Fund has positive year-end available fund balance.
- (M) Increase the Youth, Parks, and Community Enrichment Department revenue budget for the all-weather sport field facility fees received and increase the expenditure budget in the Granite All Weather Field (L19806000) CIP, provided that the Department has positive net year-end G/MU Fund (Fund 1001/2401) results.
- (N) Adjust the Transportation CIP budget to meet the City's SB 1 Maintenance of Effort (MOE) requirements.
- (O) Adjust Community Development Department's revenue budget for the Housing Trust and Housing Impact administrative fees to reflect actual revenues received and increase the expenditure budget by a like amount in the General Plan Update (I22000000) MYOP.

17.4. The City Manager is authorized to make the following adjustments to CIPs and MYOPs:

- (A) Adjust the revenue and expenditure budgets in the Old Sacramento Garbage Service Courts (M17700000), Old Sacramento District Improvements (M17700100), and the Joe's Crab Shack & Rio City Café Repairs and Maintenance (B18119000) CIPs based on actual rent proceeds available after payment of all fees to the State of California and funding of annual required maintenance costs.
- (B) Adjust revenue and expenditure budgets in the Energy Reinvestment Program (C13001900) CIP to reflect actual energy rebates and incentives received.

17.5. The City Manager is authorized to implement the following fiscal transactions as needed to properly manage and account for the City's cannabis revenues and expenditures:

- (A) Adjust the Citywide revenue budgets for all Business Operations Taxes relative to Cannabis activities based on actual revenues received and increase the expenditure budget in the Cannabis Policy and Enforcement (I06420000) MYOP as necessary to cover costs.
- (B) Adjust the revenue budget for the City Manager's Office of Cannabis Management operations (02001101) to reflect actual revenues received and increase or decrease the expenditure budget in the operating budget by a like amount. At year-end excess resources must be transferred to I06420000 to offset the cost of enforcement. If there are inadequate revenues available, resources must be transferred from I06420000 to cover the actual operating costs incurred in 02001101.
- (C) Establish or increase the revenue budget(s) for fines and administrative penalties collected in accordance with Sacramento City Code section 8.132, relating to the cultivation of cannabis, in the department were collected and increase the expenditure budget in I06420000 to support enforcement activities based on actual revenues received.
- (D) Adjust the revenue budget for Housing and Dangerous Building fines, fees, and penalties collected by the Community Development Department and the expenditure budget in I06420000 at year-end based on actual revenues received.
- (E) Transfer expenditure budgets between I06420000 and the Cannabis Opportunity, Reinvestment and Equity (CORE) (I02420000) MYOP to support CORE program operations.
- (F) Transfer expenditure budgets between I06420000 and the Youth Cannabis Outreach & Education program (I06420500) MYOP to support prevention workload in the Office of Youth Development.

17.6. The City Manager is authorized to implement the following fiscal transactions as needed to properly manage and account for the City's efforts toward reducing homelessness:

- (A) Adjust the revenue and expenditure budgets to reflect actual contributions received from external partners in the Homeless Housing Initiatives (I02000200) MYOP to support homeless-services programs.
- (B) Each fiscal year, unobligated G/MU Fund (Fund 1001/2401) appropriations in existence in the Department of Community Response Office of the Director (23001011) on June 30 must be transferred to the Homeless Housing Initiatives (I23001000) MYOP if the Department has positive net year-end results.
- (C) Each fiscal year, unobligated G/MU Fund (Fund 1001/2401) appropriations in existence in the Office of Community Outreach (23001021) on June 30 must be

transferred to the Community Response (I23000100) MYOP if the Department has positive net year-end results.

- (D) Each fiscal year, unobligated G/MU Fund (Fund 1001/2401) appropriations in existence in the Office of Homeless Services (23001031) on June 30 must be transferred to the Homeless Housing Initiatives (I23001000) MYOP if the Department has positive net year-end results.
- (E) Each fiscal year, unobligated G/MU Fund (Fund 1001/2401) appropriations in existence in the Office of Violence Prevention (11001491) on June 30 must be transferred to the Gang Prevention and Intervention (I11003000) MYOP if the Department has positive net year-end results.

- 17.7. The City Manager is authorized to implement any necessary financial transactions for the administration of revolving loan fund programs authorized by the Council.
- 17.8. The City Manager is authorized to use Emergency Medical Services Revenue Recovery funds (Intergovernmental Transfer - Ground Emergency Medical Transport and Public Provider – Ground Emergency Medical Transport) to cover overages from the Single Role program and related equipment and vehicles as necessary.

**Section 18. Year-End Process and Carryover Authority.**

- 18.1. Each fiscal year, all purchase-order commitments outstanding on June 30, and associated appropriations, are hereby continued.
- 18.2. If there is not a budgetary surplus in the G/MU Fund (Fund 1001/2401) at year-end, the City Manager shall suspend the G/MU Fund transfers and carryovers authorized in this section. If there is a budgetary surplus in the G/MU Fund and there are forecasted budget deficits in the future fiscal years, the City Manager is authorized to commit non-mandated G/MU Fund revenues and positive net year-end results to future budget development reserves.
- 18.3. Each fiscal year, unobligated appropriations in existence on June 30 for the Council operations budget will be carried over to the next fiscal year.
- 18.4. Each fiscal year, unobligated G/MU Fund appropriations in existence in the Arts Stabilization budget (80001065) on June 30 must be transferred to the Cultural and Economic Vitality (I17001000) MYOP if the department has positive net year-end General Fund results.
- 18.5. Each fiscal year, revenues in excess of budget in Building Inspection, Building Plan Check, Customer Service/Permit Counter, and Planning Operations areas of the Community Development Department must be transferred to the Development Stabilization Contingency Reserve (DSCR), consistent with the adopted DSCR policy, if the Department has positive net year-end results.

If these operations do not achieve the budgeted revenues or if program costs exceed the program budget, then resources must be transferred from the DSCR to these areas of the Community Development Department to cover the shortfall.

- 18.6. Each fiscal year, unobligated General Fund appropriations in existence in the Human Resources Department on June 30 must be transferred to the Training and Outreach (I08000300) MYOP if the Department has positive net year-end General Fund results.
- 18.7. Each fiscal year, unobligated net appropriations in existence on June 30 in the Information Technology (IT) Department operations General Fund budget and the citywide IT budget in Citywide and Community Support must be transferred to the IT Critical Infrastructure (A07000700) CIP to create a funding mechanism for future citywide technology initiatives, which the City Manager will review annually.
- 18.8. Each fiscal year, unobligated appropriations in the City's California Public Employees' Retirement System budget account(s) (413170/413172) that are not required to balance the budget must be transferred to the City's other post-employment benefit trust.
- 18.9. Each fiscal year, if the START Fund (Fund 2501) has a deficit, unobligated G/MU Fund (Fund 1001/2401) appropriations in existence in the Youth, Parks, and Community Enrichment Department on June 30 must be transferred to Fund 2501 to cover any deficit associated with the general- and auto-liability insurance premiums if the Department has positive net year-end General Fund results.
- 18.10. Each fiscal year, the Fleet Acquisitions (I06000999) MYOP will be reviewed, and excess funds will be returned to the fund of origin.
- 18.12. Each fiscal year, unobligated net appropriations in existence on June 30 in the Public Works Department (15005861) must be transferred to the Commercial Waste Compliance (I15220000) MYOP.
- 18.13. Each fiscal year, any unspent Measure U Fund (Fund 2401) appropriations in the Youth, Parks, and Community Enrichment Department on June 30 must be transferred to the Measure U Park Improvements (L19706000), Citywide Pool Assess/Repair (L19706500), or Recreation Facility Improvements (L19800200) CIPs until the backlog of deferred maintenance, for existing projects within the programs, are completed.
- 18.14. The City Manager is authorized to make all necessary budgetary adjustments to account for the interfund Loan from the Risk Fund (Fund 6502) to the General Fund (Fund 1001) related to the agreement with the City and the Natomas Basin Conservancy Loan.
- 18.16. Each fiscal year, transfer up to \$500,000 of available operating grant resources to the Public Safety Capital Improvement Program (F11101000) for specialty vehicle and equipment purchases.

- 18.17. Each fiscal year, any unspent Measure U Fund (Fund 2401) appropriations in the Diversity, Outreach and Recruitment (DOR) program on June 30 must be transferred to the Fire – Diversity, Outreach and Recruitment Program (I12000200) MYOP as long as any Fire Department year-end deficits can be covered with available year-end G/MU Fund (Fund 1001/2401) budgetary surplus.
- 18.18 Each fiscal year, any unspent appropriations in the Youth Sports Field Permit Program MYOP (I19143000) on June 30 must be transferred to the Measure U Park Improvements (L19706000), to be used to address the backlog of deferred maintenance for sports fields.

**Section 19. Year-End Reporting.**

- 19.1. Each fiscal year, after any adjustments specifically provided for in other sections of this resolution, all appropriations in the Operating Budget that remain unspent and unencumbered (unobligated) on June 30 will revert to the available fund balances of the respective funds. Any budgetary surplus in the G/MU Fund (Fund 1001/2401), determined as part of the fiscal year-end close process, will be reported in the ACFR as Assigned for Next Year’s Budget, Unassigned, or as specifically directed below or in a subsequent resolution.
- 19.2. All unrealized investment gains determined as part of the fiscal year-end close process will be reported in the ACFR as Assigned for Unrealized Investment Gains, as those gains are not available for appropriation.

**Section 20. Miscellaneous Controls and Considerations.**

- 20.1. Expenditures by fund at the department level must not exceed the Operating Budget as amended by any subsequent approval by the Council or the City Manager in accordance with this resolution.
- 20.2. Subject to the City Manager’s approval, projected fund deficiencies in any department must be corrected as follows in accordance with the sections of this resolution governing transfers and appropriations by reducing expenditures in the department (e.g., restricting purchase orders, freezing vacant positions) or by an appropriation transfer from Administrative Contingency or available fund balance, or both, subject to the provisions of section 5.
- 20.3. The City Manager is authorized to eliminate funds as required for proper accounting and fiscal management when the purpose of a fund has expired, and its fund balance has been expended.
- 20.4. In all staff reports that come before the Council, net budgetary impacts on all funds, including indirect impacts, must be stated clearly and concisely so that the Council has a full understanding of the financial consideration and impacts of its decisions.

2024-2029 Approved Capital Improvement Program

---

20.5. The City Manager shall begin using an equity lens in the review of all budgetary recommendations to Council including the annual budget, midyear budget and staff reports as soon as practical after development of a shared definition of equity in coordination with the community, development of associated outcomes and measures and Council's creation and adoption of an Equity Resolution.

**Resolution Exhibits:**

- Exhibit A – Budget Changes
- Exhibit B – Staffing Summary
- Exhibit C – FY2024/25 Approved Operating Budget
- Exhibit D – 2024-2029 Approved Capital Budget

Adopted by the City of Sacramento City Council on June 11, 2024, by the following vote:

Ayes: Members Guerra, Jennings, Kaplan, Maple, Talamantes, Thao, and Mayor Steinberg

Noes: Members Valenzuela and Vang

Abstain: None

Absent: None

Attest:

07/24/2024

Mindy Cuppy, City Clerk

## CITY OF SACRAMENTO FACTS

- The City of Sacramento was founded in 1849 and is the oldest incorporated city in California.
- In 1920, city voters adopted a Charter (municipal constitution) and a City Council/City Manager form of government.
- The City is divided into eight districts.
- Elected members of the City Council serve a four-year term.
- The Mayor is elected by all voters in the City. In 2002, voters approved a measure for the Mayor to serve full-time. All other Councilmembers are elected by district and serve part-time.
- The Mayor and other Councilmembers have an equal vote in all matters.
- The City of Sacramento currently encompasses approximately 100 square miles.
- The City of Sacramento population is estimated at 520,407.
