Executive Summary and Overview

Howard Chan
City Manager

City Hall
915 I Street, Fifth Floor
Sacramento, CA 95814-2604
916-808-5704

July 1, 2021

Honorable Mayor and City Council
Sacramento, California

Dear Mayor and Members of the City Council,

The Approved 2021-2026 Capital Improvement Program (CIP) is the City's five-year financial plan which provides the City with a financial strategy for its infrastructure and facility needs. It has been prepared in consideration of the ongoing coronavirus disease 2019 pandemic (pandemic). The CIP totals \$395.2 million including \$66.1 million in General/Measure U (G/MU) Funds. The fiscal year (FY) 2021/22 CIP budget totals \$95.5 million, including \$14.6 million in G/MU Funds. The CIP reflects Council adopted policies and plans incorporating priorities identified in the Parks and Recreation Master Plan, Parks and Recreation Programming Guide, transportation plans (Vision Zero Action Plan, Bikeway Master Plan, Pedestrian Master Plan), utility master plans, and deferred maintenance assessments (aquatics, facilities and park maintenance).

It is critical that the City reinvest in its existing assets, achieve a balance of capital improvements throughout the City and support our mission to protect, preserve and enhance the quality of life for present and future generations. The CIP reflects the financial challenges currently faced by the City. The ability to provide General Fund support to fund identified capital needs in our facilities and park infrastructure is very limited, requiring prioritization of competing capital needs. However, given the significance of our ongoing investment in the City's capital assets, we continue to look for opportunities to augment the CIP. While capital projects are identified beyond the current ability to fund those projects, options are provided when one-time funding sources become available.

Additionally, the ongoing pandemic has significantly impacted certain revenue sources such as transient occupancy taxes and parking fees (on-street and off-street). The projects included in the FY2021/22 CIP budget which rely on these revenues reflect only the most critical investments needed to maintain the City's convention and parking facilities. Staff will continue to monitor these revenues and recommend program adjustments for Council consideration should revenue estimates change significantly.

2021-2026 Approved Capital Improvement Program

In my fifth year as City Manager, I offer a CIP that maintains the direction expressed by Council and prioritizes investing in infrastructure that will increase operational efficiencies and benefit our community. I would like to thank Council for your leadership and support during this ongoing health crisis which is affecting our City, state, and country. It is this leadership that will get us through these difficult times and fuel our collective efforts to ensure a thriving future for our City.

Respectfully submitted,

HOWARD CHAN
City Manager

CAPITAL BUDGETING EXCELLENCE AWARD

*California Society of
Municipal Finance Officers*

Certificate of Award

***Capital Budget Excellence Award
Fiscal Year 2020-2021***

Presented to the

City of Sacramento

For meeting the criteria established to achieve the Capital Budget Excellence Award

January 31, 2021

Marcus Pimentel

*Marcus Pimentel
CSMFO President*

Michael Manno

*Michael Manno, Chair
Recognition Committee*

Dedicated Excellence in Municipal Financial Reporting

The City received the Capital Budget Excellence Award from the California Society of Municipal Finance Officers (CSMFO) for the 2020-2025 CIP. The award process includes peer reviews of cities' capital programming. Peer review methods are employed to maintain standards, improve performance, and provide credibility.

In preparing the 2021-2026 CIP document, the CSMFO award criteria were followed and it has been prepared in accordance with generally accepted accounting principles. This document will be submitted to the CSMFO for consideration for the FY2021/22 Capital Budgeting Excellence Award.

2021-2026 Approved Capital Improvement Program

APPROVED OVERVIEW OF THE 2021-2026 CAPITAL IMPROVEMENT PROGRAM (CIP)

The 2021-2026 CIP was approved by the City Council on June 15, 2021. The five-year plan has 123 projects with total funding of \$395.2 million from all funding sources, including \$66.1 million from the General/Measure U (G/MU) Fund. The FY2021/22 CIP budget totals \$95.5 million for 111 projects or programs, of which \$14.6 million is from the G/MU Fund.

The following table summarizes the Proposed to Approved Budget CIP changes. Additional information is provided in the program area summaries.

Project Name (Number)	Fund Name (Number)	Expenditure Adjustment	Description
Body Worn Camera and Conductive Electrical Device Program (F11100500)	General (1001)	1,365,500	Realignment of G/MU expenditures as approved by Council.
Police Department IT Critical Infrastructure Program (F11100600)	General (1001)	1,500,000	Realignment of G/MU expenditures as approved by Council.
Police Safety Equipment Program (F11100800)	General (1001)	810,000	Realignment of G/MU expenditures as approved by Council.
Subtotal General Fund (Fund 1001): \$ 3,675,500			
Body Worn Camera and Conductive Electrical Device Program (F11100500)	Measure U (2401)	(1,365,500)	Realignment of G/MU expenditures as approved by Council.
Police Department IT Critical Infrastructure Program (F11100600)	Measure U (2401)	(1,500,000)	Realignment of G/MU expenditures as approved by Council.
Police Safety Equipment Program (F11100800)	Measure U (2401)	(810,000)	Realignment of G/MU expenditures as approved by Council.
Subtotal Measure U Fund (Fund 2401): \$ (3,675,500)			
Net Project Changes: \$ -			

PROPOSED OVERVIEW OF THE 2021-2026 CAPITAL IMPROVEMENT PROGRAM (CIP)
(as written on April 21, 2021)

The CIP is a comprehensive five-year plan that identifies current and future fiscal requirements and is the basis for determining annual capital budget expenditures. Capital improvements are major projects or programs undertaken by the City for the procurement, construction, or installation of facilities or related equipment intended to improve, preserve, enhance, or modernize the City's delivery of municipal services. A capital project has a useful life of at least five years and a total cost of at least \$20,000.

The major goals of the CIP are to adhere to all federal, state, and local mandates/laws and to strategically leverage resources to maintain or improve the City's assets. The five-year plan has 123 CIPs with estimated total funding of \$395.2 million from all funding sources, of which \$66.1 million is from the G/MU Fund. The FY2021/22 CIP budget totals \$95.5 million funding 111 projects or programs, of which \$14.6 million is from the G/MU Fund.

In response to the ongoing pandemic, the CIP is focused on continuing funding recommendations included in the 2020-2025 CIP. The following summarizes major program areas with project funding included in the 2021-2026 CIP. Detailed information on CIPs proposed to be funded within the five-year plan is included in the project detail sheets in each program area.

General Government – Section D

The five-year General Government Program continues to reflect the City's commitment to focus limited resources toward existing facilities and programs including the City Facility Reinvestment Program (C13900000, \$10.7 million) and the Facility Americans with Disabilities Act (ADA) Compliance Program (C13000400, \$3.0 million). The FY2021/22 CIP budget also includes funding for the North Sacramento Library Relocation Project (C15000850, \$2.5 million).

The FY2021/22 budget for the General Government Program includes \$7.9 million for 15 projects or programs. The five-year plan totals \$29.5 million for the same number of projects or programs.

Public Safety – Section E

The Public Safety Program reflects the City's efforts to provide/replace body worn cameras, police safety equipment, ambulances, fire vehicles, fire safety equipment, and generators for public safety facilities. Funding in the five-year plan continues to include funding for the Fire Apparatus Program (F12000300, \$15.0 million), the Fire Safety Equipment Program (F12000500, \$4.3 million), the Advanced Life Support Equipment Program (F12000200, \$3.3 million), the Body Worn Camera and Conductive Electrical Device Program (F11100500, \$8.5 million), the Police Safety Equipment Program (F11100800, \$4.4 million), and the Police Department IT Critical Infrastructure Program (F11100600, \$3.9 million).

2021-2026 Approved Capital Improvement Program

The FY2021/22 budget for the Public Safety Program totals \$8.2 million for eight projects or programs. The five-year plan totals \$43.5 million for the same number of projects or programs.

Convention, Culture, and Leisure – Section F

The Convention, Culture, and Leisure Program promotes and preserves the City's unique cultural heritage by delivering accessible arts, leisure, and educational experiences to enrich people's lives and enhance the metropolitan area. The Convention, Culture, and Leisure Program is designed to enrich the quality of life and to contribute to a vibrant metropolitan region by providing exceptional cultural, artistic, and leisure opportunities.

Major projects and programs receiving funding in the five-year plan include the Performing Arts Center Improvements Program (M17101800, \$3.9 million), the Memorial Auditorium Improvements Program (M17101000, \$2.1 million), and the Community Center Improvements Program (M17100000, \$800,000).

This program area is funded primarily by transient occupancy taxes and user fee revenues at the SAFE Credit Union Convention and Performing Arts District, which have been significantly impacted by the pandemic. These programs represent the most critical investments needed to maintain and improve the SAFE Credit Union Convention and Performing Arts District. Staff will continue to monitor these revenues and make program adjustments as appropriate.

The FY2021/22 budget for the Convention, Culture, and Leisure Program totals \$2.2 million for four projects or programs. The five-year plan totals \$7.6 million for nine projects or programs.

Parks and Recreation – Section G

The City's Parks and Recreation system provides residents with significant personal, social, environmental, and economic benefits. Developing and rehabilitating existing parks and facilities, with a focus on park safety and sustainability, is a high priority for the City.

Major projects and programs receiving funding in the five-year plan include the Westshore Park Development Project (L19175300, \$1.9 million), the Sutter's Landing Park Program (L19167000, \$1.2 million), the Meadows Park Phase Three Project (L19138120, \$1.2 million), and the Tanzanite Park Futsal Courts Project (L19169200, \$600,000).

The FY2021/22 budget for the Parks and Recreation Program totals \$4.9 million for eight projects or programs. The five-year plan totals \$5.9 million for the same number of projects or programs.

Transportation – Section H

The five-year plan relies largely on the use of available local funds to leverage state and federal funds, and on the use of road maintenance and repair funding received with the implementation of SB 1. With limited resources, the Transportation Program focuses on completing projects that have committed federal funding and on key objectives for maintenance, safety, and mobility of the overall transportation network. At FY2020/21 Midyear, Council approved a one-time General Fund appropriation of \$5.0 million to the State and Federal Grant Match Program (T15007200). These resources will help additional projects which benefit the City's transportation network to move forward.

The Transportation Program is divided into seven subprograms: Active Transportation (pedestrian, bikeway, lighting, and streetscape improvements); Bridges (maintenance and improvements); Maintenance (overlays and seals); Major Transportation Improvements (major roadway construction); Parking (parking facility maintenance and upgrades); Public Rights-of-Way Accessibility (curb ramps, markers, and other accessibility improvements); and Traffic Operations and Safety (safety improvements, Traffic Operations Center, traffic calming, pedestrian safety, and major street light replacement).

The Parking subprogram area is funded primarily by off-street parking fee revenues, which have been significantly impacted by the pandemic. The parking programs funded in the FY2021/22 budget represent the most critical investments needed to maintain and improve the City's off-street parking facilities. Staff will continue to monitor these revenues and make program adjustments as appropriate.

Major projects and programs receiving funding in the five-year plan include: the Transportation Corridor Program (R15210000, \$53.3 million); the Del Rio Trail (K15165100, \$11.4 million); the Auburn Boulevard Bridge Replacement Project (T15145300, \$8.6 million); the Active Transportation Program (T15180400, \$7.8 million); and the Active Transportation Safety Program (S15120500, \$5.0 million).

The FY2021/22 budget for the Transportation Program totals \$27.9 million for 40 projects or programs. The five-year plan totals \$130.1 million for 44 projects or programs.

City Utilities – Section I

The City Utilities Program has four major funding sources and subprogram areas: Solid Waste, Storm Drainage, Wastewater, and Water Funds. It is devoted to regulatory compliance, the improvement, rehabilitation, and replacement of the utility infrastructure, improvement or development projects, and ongoing facility-related issues. Major programs receiving funding in the five-year plan include the Water Supply Expansion Program (Z14190100, \$29.1 million), the Well Rehabilitation Program (Z14110100, \$20.5 million), the 28th Street Landfill Regulatory Compliance Upgrades Program (Y15000100, \$5.0 million), the Combined Collection System Rehabilitation and Replacement Program (X14170100, \$3.2

2021-2026 Approved Capital Improvement Program

million), and the Drainage Sump Rehabilitation and Replacement Program (W14130600, \$2.9 million).

Storm drainage rates have not been increased since 1996, prior to the implementation of Proposition 218. For this reason, revenues have not kept pace with storm drainage system costs, and currently the fund can only support critical repair and rehabilitation projects that can no longer be deferred. The City is working closely with the community, the Utilities Rate Advisory Commission, and the City Council to develop a Storm Drainage Infrastructure Program and Financing Plan. Unlike the water and wastewater utilities, rate adjustments for the storm drainage utility are subject to a citizen vote.

The FY2021/22 budget for the City Utilities Program totals \$44.5 million for 36 projects or programs. The five-year plan totals \$178.6 million for 39 projects or programs.

How to Read This Document

KEY SECTIONS

The CIP contains the following key sections.

Section A

Budget Schedules – summarize capital funding by the one-year budget (FY2021/22) and the five-year plan by funding source and by program area.

Section B

Sacramento Area Maps – identifies the city limits with Council District, Community Plan Area, Shovel-Ready Area, Neighborhood Commercial Revitalization Area, and Bikeway maps.

Section C

General Plan Consistency – summarizes planning policies, major development projects, and planned public improvements in the 2021-2026 CIP.

Sections D–I

Program Area Summaries – groups individual capital projects by major program area and includes goals and project selection criteria, project budgets, how they will be funded, program issues (including in some cases unmet needs), program long-range plans, and detail sheets for those projects that include budgeted resources through FY2020/21 and a budget plan for FY2021/22 through FY2025/26. Additional section-specific information may be found on page 12.

Section J

Description of Major Funding Sources – provides the following information on funding sources: (a) restrictions on the use of the funds; (b) legislation governing the use of these funds; (c) five-year historical CIP programming; and (d) a summary of how those funds have been expended.

Sections K–N

Indexes – provide funding information for the FY2021/22 CIP by Funding Source (Index K), by Program Area (Index L), and for all active and new projects included in the 2021-2026 CIP by City Council District (Index M) and by Project Number (Index N).

Section O

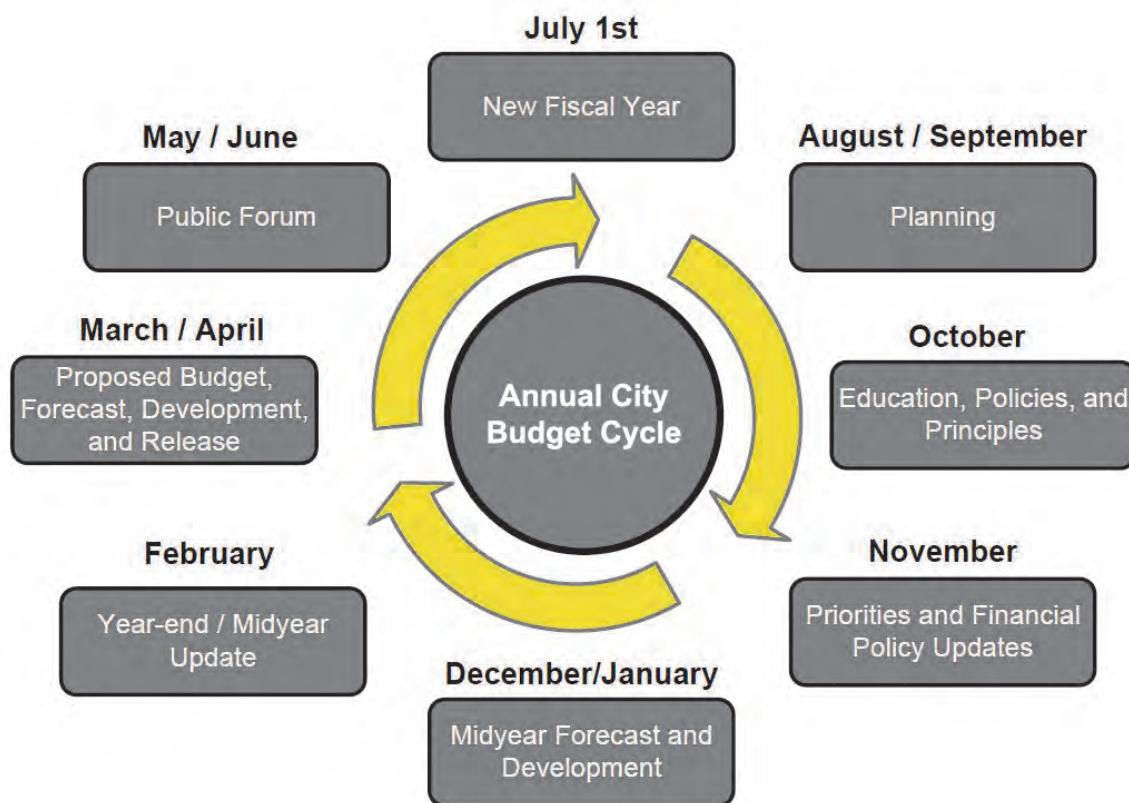

Resources – contains definitions of commonly used terms or concepts and links to various planning documents used to rate and create this CIP.

Section P

Resolution – provides the authority from City Council to implement the FY2021/22 CIP budget and the guidelines for administration of CIPs.

THE BUDGET PROCESS

The Mayor and Council continued efforts to engage and educate the community on the budget process and the City's financial challenges over the long-term by completing a community budget survey and facilitating discussions at the Budget and Audit Committee (Committee) and Council meetings in January and February. The following graphic represents the City's budget/program planning cycle:

The City's fiscal year is July 1 through June 30. As such, the Council adopts the City's operating and capital budgets for a single fiscal year beginning July 1 and ending June 30 in the subsequent calendar year.

THE CIP REVIEW PROCESS

Each project proposal is scrutinized through a variety of approaches before it is included in the CIP. CIPs included in the five-year program are identified by department staff based upon: 1) input from the community received at neighborhood meetings during the year; 2) input from the City Council on needs that develop or are identified during the year; 3) City Council approved master plans and guides for growth, improvements, and rehabilitation for specific programs; 4) adopted criteria for selecting projects to meet the City Council's goals; and 5) staff-identified projects based on critical need due to safety issues or to comply with new mandates. Specific

2021-2026 Approved Capital Improvement Program

documents used in the capital planning process, such as the Sacramento 2035 General Plan or the *Transportation Programming Guide*, are referenced in Section O (Resources) of this book.

All projects are reviewed first by the responsible operating departments. Utilizing the resources available, e.g., *Transportation Programming Guide*, CIPs are scored, ranked, prioritized, and presented for funding based upon the level of funding estimated to be available for the coming fiscal year and subsequent fiscal years. Generally, projects are prioritized as follows: 1) they are mandated by law or Council policy; 2) they are crucial for public/staff safety or health; 3) funding is or has become available for them; 4) they represent an advantageous opportunity with a restricted timeframe; 5) they increase efficiency or effectiveness of City services; or 6) they enrich or expand City services or assets by maintaining or keeping facilities competitive, safe, and contributory towards increasing revenues.

Top priority has been given to those projects that have a positive effect on operations. In most cases, there is no negative operating impact because the project generates future cost savings or is offset by revenue. For details about ranking and scoring criteria, please refer to the program area's programming guide referred to in the Glossary and Resources section. Departments submit the proposed projects to the Budget, Policy & Strategic Planning Division of the Finance Department. The Division then reviews and creates maps of the proposed projects or programs through geographic information systems (GIS) and prepares the CIP for submittal to the City Council no later than 60 days prior to the start of the new fiscal year.

The proposed CIP is presented, discussed, and acted upon by the City Council in public session during the budget hearings. Members of the community may comment on the proposed CIP and provide input to the City Council during the hearing process. The City Council can make changes to the proposed CIP and then may act on final project approval for inclusion in the approved CIP and Operating Budgets.

GENERAL PLAN CONSISTENCY – SECTION C

All projects are reviewed by the Community Development Department's Planning Division staff and the Planning and Design Commission for consistency with the City's General and Specific Plan policies (City Code Chapter 17.912.010). In general, capital programming is proposed in accordance with existing approved master plans and planning guides, and then are evaluated and ranked based upon priorities identified in those plans and guides.

Priorities may be ranked on items such as:

- Adherence to state and/or federal law
- Adopted City Council policies
- Availability of funding
- Public health and safety
- The 2035 General Plan

- Public input
- Support of economic development
- Support of infill development
- Project feasibility

PROGRAM AREA SUMMARIES – SECTIONS D-I

This document includes program area summaries and detailed project pages for projects being funded within those program areas during the five-year plan. The summaries include program goals and criteria used to select projects to meet those goals (project selection criteria); a summary of planned spending; a five-year plan; a summary of projects by fund; and maps detailing each site-specific project location for FY2021/22 funded projects.

Six program areas are presented within the CIP. Each program area includes subsections that are divided alphabetically, and in turn these subsections include several different projects. Each project is assigned a letter and eight-digit code when it is approved for funding. The first digit of this code reflects the alphabetical letter assigned to the subsection in which the project is included. Individual projects are detailed in their respective program areas.

Program Area – Section of CIP

General Government – Section D

- A – Technology
- B – New Buildings
- C – Facility Improvements
- D – General Government

Public Safety – Section E

- F – Public Safety

Convention, Culture, and Leisure – Section F

- M – Convention Center Complex, Cultural Arts, Golf, Marina, and Zoo

Parks and Recreation – Section G

- L – Parks and Recreation

Transportation – Section H

- K – Bikeway
- R – Street Maintenance
- S – Signals/Lighting/Traffic Control
- T – Street Improvements
- V – Parking

City Utilities – Section I

- W – Storm Drainage
- X – Wastewater
- Y – Solid Waste
- Z – Water

The discussion of an individual capital program area generally begins with summary information on total program expenditures and the major projects that make up the bulk of those expenditures, the planning documents referenced when identifying projects, the funding sources to support the projects, and issue statements that highlight significant unresolved fiscal and

2021-2026 Approved Capital Improvement Program

program policy issues. Each project funded in the five-year plan is summarized within a project detail page.

Detail Pages

The purpose of the detail page is to provide the City Council with enough information to approve the projects or ongoing programs.

An example of a detail page is presented on the following pages to describe the information available.

City of Sacramento

Capital Improvement Program

① K15165100

② Project Name **DEL RIO TRAIL**

③ Project Description Environmentally approved design and Construct a Class I bike trail along the abandoned Sacramento Southern Railroad between Suterville Road and Meadowview Road.

④ Project Objectives Provide a north/south connection for all ages and abilities in the bikeway network that links South Sacramento, Pocket, South Land Park, and other neighborhoods to the Sacramento River Parkway and William Land Park.

⑤ Existing Situation There is a gap on the bikeway network between Suterville Road and Meadowview Road.

⑥ Operating Budget Impact
None.

Fund	Fund Description	As of 2/2021						
		Budget	Unobligated	2021/22	2022/23	2023/24	2024/25	2025/26
2013	TRANSPORTATION DEV.	\$112,615	\$112,615	\$0	\$0	\$0	\$0	\$0
2025	NEW MEASURE A CONSTR.	\$153,310	\$0	\$0	\$0	\$0	\$0	\$0
2039	NMA SAFETY, STREETSCAPE, PED, BIC	\$811,352	\$266,095	\$0	\$0	\$0	\$0	\$0
3215	TRANSP DEV IMPACT FEE	\$0	\$0	\$0	\$1,000,000	\$0	\$0	\$0
3703	FEDERAL CAP. GRANTS	\$2,744,000	\$594,774	\$0	\$0	\$10,359,000	\$0	\$0
	Total	\$3,821,277	\$973,484	\$0	\$1,000,000	\$10,359,000	\$0	\$0

- Project Number ① and Name ②: The project or program alpha/numeric identifier and its corresponding name. Both would be referenced when putting the project to bid or with any City Council action. The numbering sequence reflects the alphabetical letter assigned (as described on the prior page) and an eight-digit unique numeric identifier. The leading digits reflect the responsible department (refer to the following chart), followed by unique identifiers assigned by the responsible department and generally ending in “00.”

Responsible Department			
Leading Digits	Department Name	Leading Digits	Department Name
01	Mayor/Council	11	Police
015	City Auditor	12	Fire
02 or 18	City Manager	13 or 15	Public Works
03	City Attorney	14	Utilities
04	City Clerk	17	Convention and Cultural Services
05	City Treasurer	19	Youth, Parks, and Community Enrichment
06	Finance	21	Community Development
07	Information Technology	23	Community Response
08	Human Resources		

- In this example, “K” refers to a bikeway project, and “15” signifies that the department responsible for the project is the Public Works Department. The next four digits are unique and assigned by the department. The last two digits, “00,” signal that this is a parent project. A parent project has budget appropriation authority and will be identified in bold in all the indexes.
- The CIP name may be classified into two categories: project or program.
 - CIP projects are typically site-specific and have a defined budget and completion date.
 - CIP programs are used for ongoing funding for similar improvements that will be constructed at multiple locations based on the availability of annual funding at locations identified through master plans, planning guides, and replacement programs (e.g., the Groundwater Protection Program, Fire Apparatus Program, and Bikeway Program). CIP programs usually contain “Program” in the title, are generally not site specific, and do not typically have a defined completion date.
- ③ Project Description: A brief but specific scope of the project. The scope of an existing CIP description may include only the preliminary aspects of a project such as master planning or environmental review. In such projects, additional funding and a new CIP approved by the City Council are required to fully develop the project. Other projects may include the development of Phase I of a new facility or of the entire project. The level of funding and the project scope description in the CIP determine the parameters of the project at that point in time.
- ④ Project Objectives: The purpose or scope of the project.

2021-2026 Approved Capital Improvement Program

- ⑤ Existing Situation: The circumstances that result in the need for the project, including any pertinent history.
- ⑥ Operating Budget Impact: The estimated annual operating impact of the completed project. Operating and maintenance costs or savings that are significant and quantifiable are identified. Due to limited resources, most CIPs are for the repair and/or replacement of existing assets and thereby do not result in significant or quantifiable operating budget impacts. If the impact can be absorbed by the existing operating budget or if it is a repair or rehabilitation project, “none” is the response. If the impact is quantifiable, it is noted on the detail sheet, e.g., “Operating costs related to generator maintenance are estimated to be \$800 per year, per generator.”
- ⑦ Project Costs: For each funding source, the amount of current budget, the unobligated budget as of February 2021, and the funding request for each year of the five-year program. The CIP is a five-year plan with a one-year budget. As such, dollars shown are based on the current value of the dollar and adjusted annually. A project must have an identified source (or sources) of funding to be included in the CIP. Many funding sources have restrictions as to how they may be used, as described in the Description of Major Funding Sources section.
 - Note: The following reimbursable funds are included within the CIP for planning purposes, but budgets are not appropriated in the fiscal year until all grant and/or award documents have been signed. These include grant funds (Funds 3702, 3703, and 3704) and City utility grant/reimbursable funds (Funds 6205, 6206, 6207, and 6211).
- ⑧ Funding Years: The five-year CIP includes a fiscal year budget (in this example it is FY2021/22) and four fiscal years of planned programming (2022/23, 2023/24, 2024/25, and 2025/26).

2021-2026 Approved Capital Improvement Program

2021 - 2026 Funding	\$11,359,000
Est. Project Cost	\$15,180,277
FY2021/22 Funding	\$0
Prior Expenditures	\$2,847,793
Project Start Date	May 2016
Est. Complete Date	June 2025
Elapsed Time	0% 50% 80% 100%
Percent Complete	[Progress Bar]

(11) Council District 4, 5

(12) Plan Area 2, 3

(13) Project Location Rail Corridor Near To Freeport Blvd. & Meadowview Rd.

(14) Project Manager Public Works, William Shunk

- (9) Funding Summary: The CIP plan presents the City's blueprint for funding critical capital projects based on resource availability and Council's capital investment priorities using current year costs. The five-year funding plan identifies total estimated project cost, funding for the following fiscal year, and a cumulative total of prior expenditures. Funding for future years is based on the current year's estimated availability of resources. Only the projects included in the first year of this plan (e.g., the Capital Budget) are legal appropriations. The second through the fifth years represent the City's best estimate of a reasonably fundable plan for capital improvements subject to the availability of resources using current year costs.
- (10) Timelines: Capital projects will include a Project Start Date and an Estimated Completion Date; however, capital programs will not include a timeline for completion as they are ongoing in nature. Timelines, in light gray, will include a dark gray bar as the Elapsed Time passes or Percentage Complete increases. New capital projects approved for the start of a new fiscal year will reflect 0% completion, but the elapsed time will reflect the current elapsed time of the project at the time the budget is printed.
- (11) Council District: The number of the City Council district in which the project is located.
- (12) Plan Area: The number(s) of the Community Plan Area(s) in which the project is located (e.g., South Natomas, Pocket, Central City, South Area). Plan areas are defined in the *2035 General Plan*. A map of these plan areas is included in the Sacramento Area Maps Section of this document.
- (13) Project Location: Street address, intersection, building name, or another identifier.

2021-2026 Approved Capital Improvement Program

- (14) Project Manager: The name of the department and/or the individual project manager responsible for delivering the capital project.

The City Charter requires that the City Council adopt a budget for operations and capital improvements on or before June 30 each year. In adopting a five-year capital plan, the City is allowing for prudent and longer-term planning and allocation of resources for its facility and infrastructure needs.

DESCRIPTION OF MAJOR FUNDING SOURCES – SECTION J

A summary of the 2021-2026 CIP resources by funding source. This section gives a brief history of each major fund, the restrictions to its use, examples of where the funds have been previously allocated, and a five-year synopsis of prior funding.

INDEXES – SECTIONS K-N

Programs or projects receiving new funding for FY2021/22 or proposed for future fiscal years are listed in Index K by funding source. Index L provides a similar list, organized by program area. In addition to projects or programs receiving funding identified in the 2021-2026 CIP, there are many continuing programs or projects that have remaining budget authority. These are listed in Index M by City Council district and Index N by project number. Parent CIPs will be listed (in bold) as well as any child or subproject (in italics) established under the scope of the parent CIP.

RESOURCES – SECTION O

Included in this section is a list of frequently used acronyms, a glossary, an index, and additional resources that were used as references in the development of the Program Area sections.

RESOLUTION – SECTION P

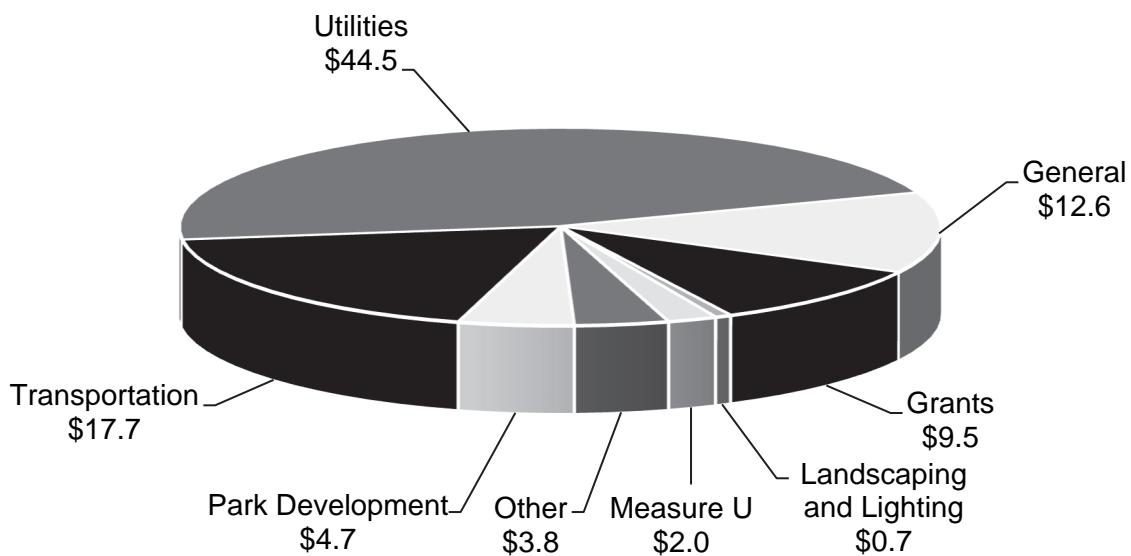

The City Council annually approves the operating and capital budgets. Section P holds the record of City Council approval.

SECTION – A

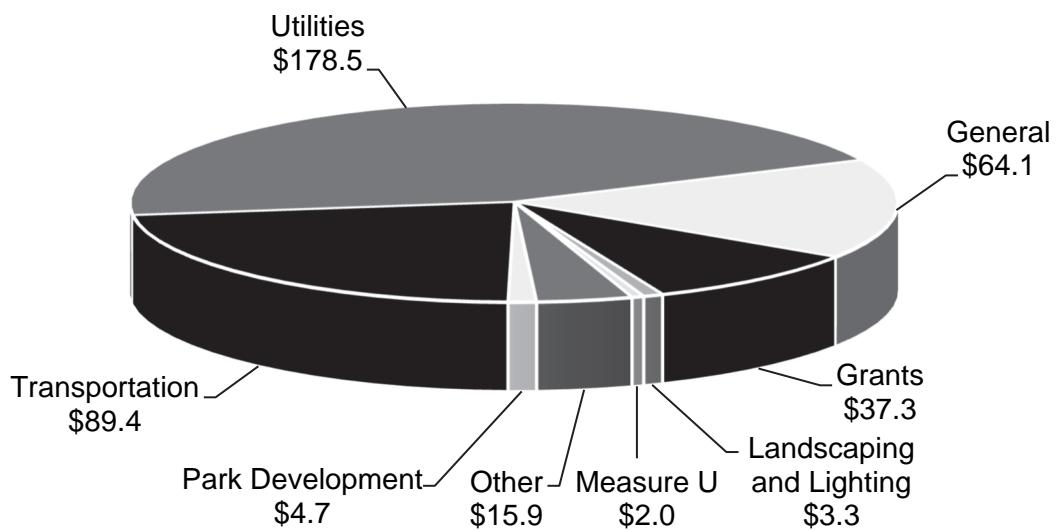

Budget Schedules

Schedule 1
Capital Budget by Fund

FY2021/22 Capital Improvement Program
\$95.5 Million

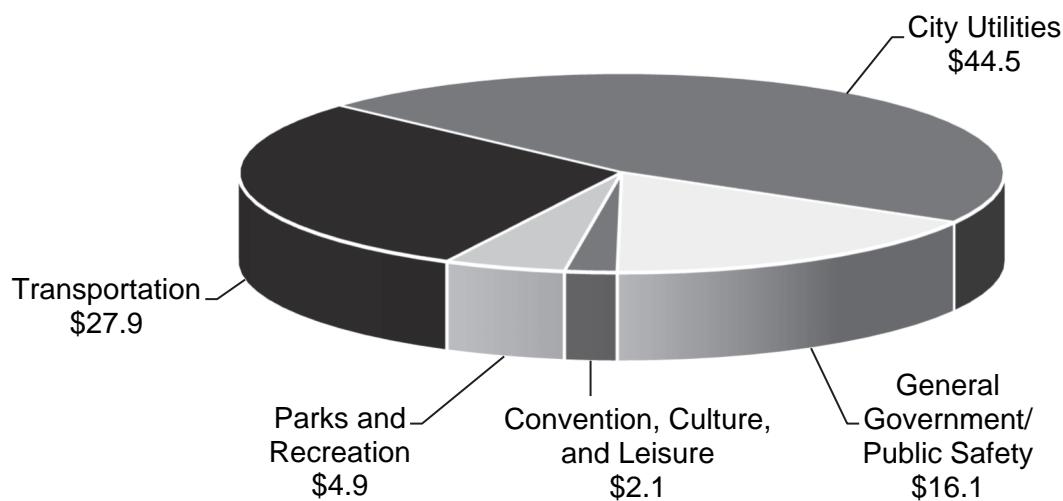

2021-2026 Capital Improvement Program
\$395.2 Million

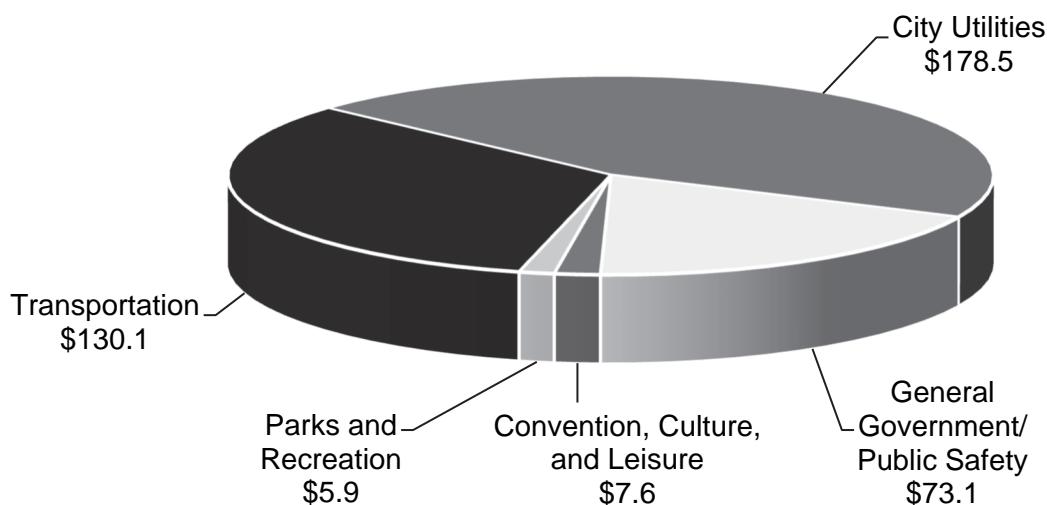

Schedule 2
Capital Budget by Program Area

FY2021/22 Capital Improvement Program
\$95.5 Million

2021-2026 Capital Improvement Program
\$395.2 Million

Note: The total reflected for each program area includes all funding sources for those projects.

2021-2026 Approved Capital Improvement Program

Schedule 3 - Fund and Program Area Summaries

General Plan Consistency

INTRODUCTION

There are seven newly created programs or projects in the 2021-2026 CIP. Of these, three are site-specific CIPs, all of which are park development/improvement projects. The remaining four items serve multiple locations or are citywide. These seven projects include a mix of street and public right-of-way improvements, bike/pedestrian trail repairs, and bridge and floodgate maintenance.

An analysis is performed annually to determine the consistency of the CIP with the *2035 General Plan's* goals and policies. The analysis also looks at the Shovel-Ready Sites Program to gauge consistency with investments in opportunity areas.

The *2035 General Plan* anticipates that much of the city's growth will occur as infill. Infill development reutilizes existing urban areas for new construction. In October 2009, the City Council approved the Shovel-Ready Sites Program's Tier 1 and Tier 2 priority areas to help implement the infill goals and policies, and to align programming guide criteria and CIP funding to focus resources toward new infrastructure projects in priority shovel-ready areas (Resolution No. 2009-0629).

In addition to identifying opportunities for growth, the *2035 General Plan* also includes goals and policies dedicated to the preservation and enhancement of existing neighborhoods. Therefore, it is important to balance investment in shovel-ready areas with the maintenance of established communities. As such, projects continue to be identified in the Shovel-Ready Sites Program's Tier 1 and 2 priority areas while balancing the needs of existing neighborhoods.

SHOVEL-READY AREAS

One key to consistency with the *2035 General Plan* lies in the relationship between the CIP and the Shovel-Ready Areas. The Shovel-Ready Areas identify priority areas for city investment and were based on opportunity areas identified in the *2035 General Plan*. Focusing growth and investment in the Shovel-Ready Areas will help Sacramento grow consistent with the vision, goals, and policies set forth in the General Plan.

The lists below and the following map identify the shovel-ready opportunity areas identified as either Tier 1 or Tier 2 and were used to help inform the General Plan consistency finding.

Tier 1 Priority Area Sites (highest priority)

- Central City
- Swanston Station, Arden Fair, Point West, Cal Expo
- 65th Street/University Village, Sacramento Center for Innovation (south of CSUS and west of Power Inn Road), Granite Regional Park
- Florin Road
- Delta Shores

Tier 2 Priority Area Sites

- North Natomas, Panhandle, Greenbriar
- North Sacramento, Robla, McClellan/Parker Homes
- Power Inn Area

2021-2026 Approved Capital Improvement Program

- Other Infill Areas (Corridors and Transit Station Areas)

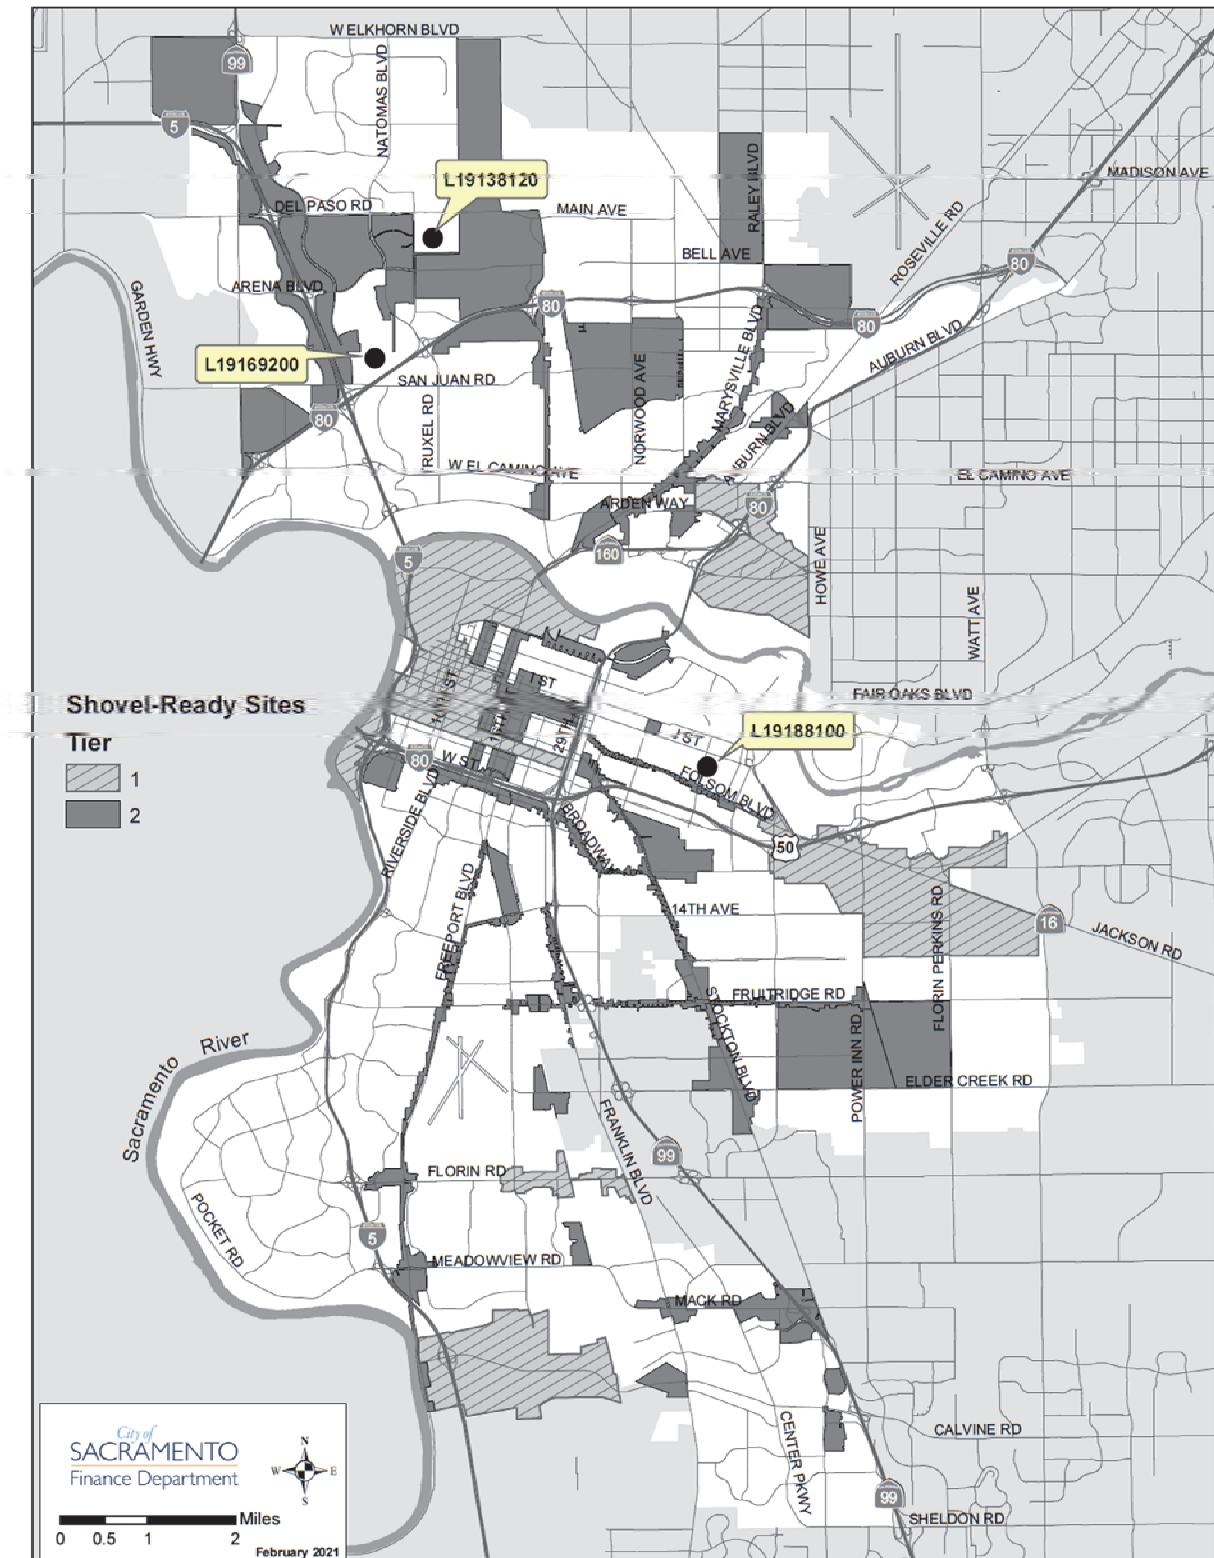

Although site-specific CIPs may not fall within shovel-ready areas, CIPs outside of these areas address critical maintenance, repair, and renovations of existing facilities. The remainder of the CIPs are citywide in nature and address maintenance, repairs, and rehabilitation improvements to existing infrastructure. All CIPs were individually determined to be consistent with policies in the *2035 General Plan*.

New FY2021/22 CIPs by Program Area

Section – Program Area	Project Number	Project Name	Description
Section G – Parks and Recreation	L19138120	Meadows Park Phase 3	Construction of Phase 3 improvements including a community garden and sports courts.
	L19169200	Tanzanite Park Futsal Courts	Construction of two futsal courts at Tanzanite Park, including grading, drainage, concrete flatwork, irrigation, and low water use landscaping.
	L19188100	East Portal Park Restroom Renovation	Renovation of existing restroom at East Portal Park.
Section H – Transportation	K15222100	FY2021/22 Pedestrian and Bike Trail Repair and Maintenance Program	This project is for citywide maintenance, repair, and rehabilitation of existing bike and pedestrian trails including pavement, striping, shoulder repairs, landscape maintenance, and debris and graffiti removal.
	R15222200	Bridge Maintenance Program	Program provides funding for miscellaneous unscheduled maintenance activities on City-owned bridge structures.
	R15222300	Floodgate Maintenance Program	Program provides funding for miscellaneous, unscheduled maintenance activities on City-owned floodgates and floodgate structures.
	R15222500	FY2021/22 Trench Cut Fee Program	The trench cut fee program funds the Maintenance Division's "fair share" portion of the utilities cost of mitigating the pavement damage caused by excavations and is used in conjunction with rehabilitation of streets where they were collected.

FY2021/22 New, Site-Specific CIPs

SECTION – D

General Government

INTRODUCTION

The General Government Program reflects the City's commitment to focus resources toward preserving its existing facilities and continuing its programs through its "green building" and sustainable practices.

This Program utilizes the following goals and criteria to develop the five-year plan:

Program Goals

- Ensure public health and safety
- Increase efficiency
- Enhance quality of life
- Increase accessibility
- Improve transparency

Ranking Criteria

- Public safety
- Renewal/Replacement of worn/obsolete/failed components
- Updates out-of-date software or equipment
- Increases accurate, open access to data
- Leverages existing resources
- Self-supporting (through fees)
- Increases or maintains sustainability

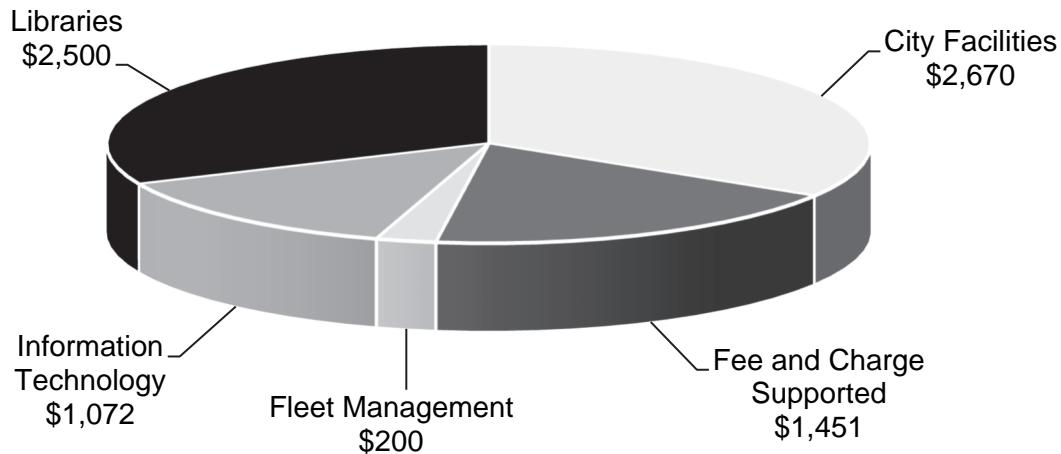

This Program is able to fund only the most critically needed programs and relies on the use of available one-time funds for other important projects that focus on safety.

The General Government Program is divided into the following major subprograms:

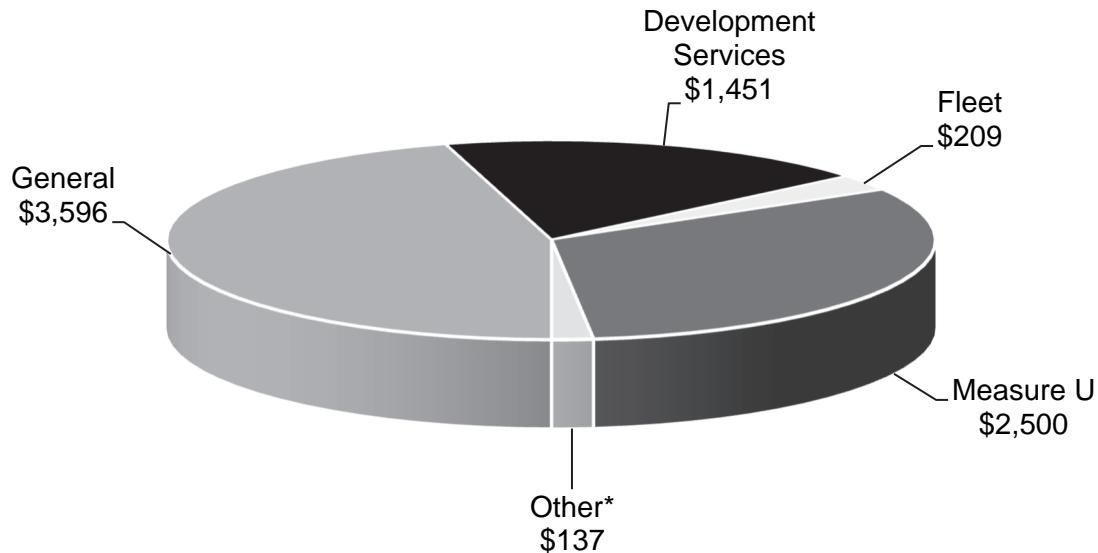

- City Facilities
- Fee and Charge Supported
- Fleet Management
- Information Technology
- Libraries

TOTAL GENERAL GOVERNMENT			\$7,892,625

¹Funds may be in several program areas and may be found in the other sections of this document.

²Projects may have multiple funding sources.

2021-2026 General Government Program by Fund (in thousands)

\$29,549

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section J). All projects receiving funding may be found by referring to Index K. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index N.

MAJOR PROGRAMS AND PROJECTS

The General Government Program includes a variety of programs and projects. The top funded CIPs during the five-year period are listed below by subprogram.

City Facilities

City Facility Reinvestment Program (C13900000, \$10.7 million)

This program strategically prioritizes the improvements needed to City facilities to ensure public safety, building code compliance, preservation, and energy efficiency. Public and employee safety is key. Funding for major projects includes roof repairs, HVAC upgrades, and window repairs. Funding also includes allocations for platform repairs and dock repairs in Old Sacramento.

Facility ADA Compliance Program (C13000400, \$3.0 million)

This program surveys, classifies, and prioritizes conditions in City facilities to remove physical barriers in compliance with the ADA and state requirements. Projects scheduled in FY2021/22 include removing access barriers in Land Park near Fairytale Town, improving accessibility features at the Front Street Animal Shelter and Tiny Tots at McKinley Park, accessibility evaluations at Miller Regional Park and other citywide facilities, and accessibility barrier removals at community centers citywide.

Fee and Charge Supported

Building Permit Technology Program (A21006600, \$6.2 million)

This self-funded program implements process and technology needs related to development activities. The fees collected are used to develop, implement, and support various programs for the public including upgrades to the database of citywide development activity (Accela), the system for viewing details and statuses of building permit applications and permits (Online Citizen Portal), and processes that expedite services to customers (Sacramento Streamline Initiative).

Information Technology

IT Replacement Program (A07000300, \$3.4 million)

This ongoing program maintains and replaces network and telecommunications infrastructure systems necessary for communication between devices (computer to server) and people (e.g., phones, email). This program also ensures the integrity and availability of citywide IT enterprise resources based on life cycle standards, current technologies, and best practice benchmarks. These highly complex systems support City operations and all essential City business systems.

Libraries

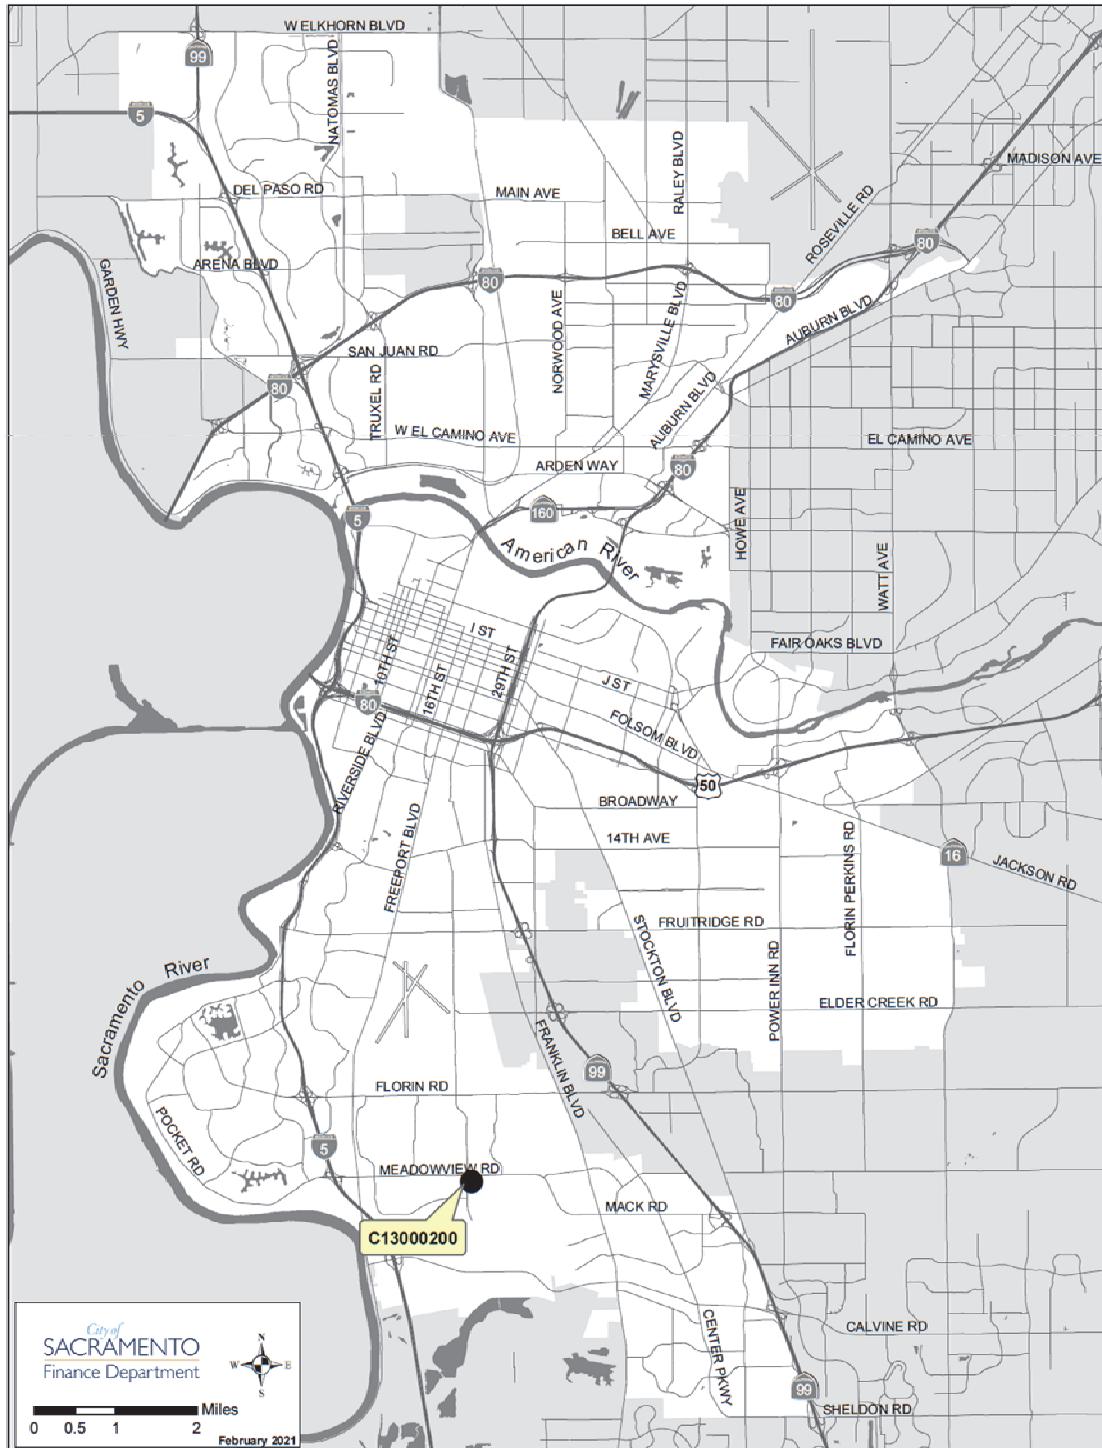

North Sacramento Library Relocation Project (C15000850, \$2.5 million)

This project will locate and improve a building to be used for the North Sacramento Library's new location. The current building lease for the North Sacramento Library expired in March 2020. The City and the Sacramento Library Public Authority are looking for a new location to relocate the North Sacramento Library.

2021-2026 Approved Capital Improvement Program

FY2021/22 Capital Projects and Programs

Non-site specific or multi-site projects are not shown

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

Project Name CITY CLERK AUTOMATION PROGRAM**Project Description** Updates technology and automation projects within the City Clerk's office.**Project Objectives** Support the automation of City Clerk and citywide processes for greater efficiency and service delivery.**Existing Situation** The technology currently in use does not address all of the office's automation needs.**Operating Budget** None.**Impact****As of 2/2021**

Project Name IT EQUIPMENT REPLACEMENT PROGRAM

Project Description Ongoing program to maintain and replace IT telecommunications systems including voice over internet protocol (VoIP) equipment, voicemail, unified e-mail messaging, software and hardware licensing, physical and virtual server consolidation, data storage, network infrastructure, closed circuit television (CCTV) camera systems, mobile devices, and all related components based on industry standard life cycles.

Project Objectives Ensure the integrity and availability of citywide IT enterprise resources based on life-cycle standards, current technologies, and best practices benchmarks.

Existing Situation Funds continue the management, coordination, and budgeting of citywide IT resources, resulting in overall cost savings.

Operating Budget Impact To fund this program, departments are charged for telecommunications and other hardware replacement costs based on usage citywide. The “user fee” will be charged to all departments and does not result in additional General Fund costs.

Project Name FIBER OPTIC INFRASTRUCTURE PROGRAM

Project Description Expand fiber optic infrastructure investments used to connect City services. As part of the City's Public-Private Partnership (PPP) with Verizon, the City was given new fiber optic infrastructure anywhere that Verizon installed new fiber lines. This project will fund the final connection of the fiber communication lines to City facilities and industrial assets, such as traffic signals, fire stations, and community centers.

Project Objectives This program will leverage last mile connectivity to and from Verizon-established physical hand off points. The City's PPP with Verizon established approximately 200 network hand off locations that will allow the City to connect every fire station, sump, well, and traffic signal corridor to its fiber network.

Existing Situation Interconnecting the City's facilities and industrial assets will allow the City to operate more efficiently by reducing carrier dependency, commute times, and response time for repairs. It will also allow the City to provide digital services to underserved communities.

Operating Budget Impact None.

Project Name PLANNING TECHNOLOGY PROGRAM

Project Description An ongoing program to implement automated processes and to address technology needs related to development activities, funded through an automation surcharge of 8% on all planning entitlement applications (Resolution No. 2008-0195).

Project Objectives Implement technology improvement objectives; develop systems to replace existing programs or provide information not currently available on existing systems; and provide tracking systems for permits and entitlements.

Existing Situation The systems utilized for tracking development activities may not address all of the current and future automation needs.

Operating Budget Impact None.

Project Name BUILDING PERMIT TECHNOLOGY PROGRAM

Project Description An automation surcharge of 8% is charged on plan check and permit fees (Resolution No. 2008-0195) to fund the technology improvements related to development activities.

Project Objectives Implement technology improvement objectives, develop systems to replace existing programs or provide information not currently available on existing systems, and provide tracking systems for permits and entitlements.

Existing Situation The systems utilized for tracking plans and building permits may not address all of the current and future automation needs.

Operating Budget Impact None.

Project Name **FLEET FACILITIES PROGRAM**

Project Description Consolidation and improvement of fleet service, repair facilities, and parts stores.

Project Objectives Upgrade fleet shops as needed, including but not limited to lifts, air conditioning units, build shop components, and other permanent equipment and infrastructure.

Existing Situation Fleet shops are in need of ongoing maintenance and upgrades as shop components come to the end of their useful lives and new technology becomes available.

Operating Budget Impact None.

Project Name FUEL MANAGEMENT AND SUPPORT EQUIPMENT PROGRAM

Project Description Fuel management, dispensing, storage, and monitoring systems require ongoing testing, maintenance, and upgrading to assure environmental protection. This program provides funding for upgrades and implements alternative fuel infrastructure.

Project Objectives Expand technology and resources for all fueling requirements, including compressed natural gas, gasoline, diesel, and oil by replacing and updating failing or outdated fueling equipment, storage, and supporting infrastructure.

Existing Situation This program implements the City Council's fleet sustainability goals, which expands the use of alternative fuels and GPS telemetrics.

Operating Budget Impact Ongoing maintenance costs are recovered through a fuel surcharge.

Project Name MEADOWVIEW REMEDIATION PROGRAM

Project Description The project provides funding for monitoring and remediation efforts in order to meet state requirements.

Project Objectives Ongoing monitoring and soil and groundwater remediation to remove contamination.

Existing Situation The City acquired property for the development of the Pannell Community Center where a dry cleaner business had previously been located. Extensive remediation of the contaminated soil and groundwater has been performed since the City's acquisition of the property, and the contamination has been significantly reduced. However, it is estimated that the property will require ongoing remediation and cleanup through 2030 before the City can stop monitoring efforts.

Operating Budget Impact None.

Project Name **FACILITY ADA COMPLIANCE PROGRAM**

Project Description Survey, classify, and prioritize conditions in City facilities that do not comply with state accessibility requirements and the American with Disability Act (ADA). The federal ADA was signed into law in July 1990.

Project Objectives Comply with state and federal civil rights laws to eliminate physical barriers which cause discrimination to individuals with disabilities. Remediate conditions or barriers that hinder the participation of individuals with disabilities in City's programs, services, and activities.

Existing Situation City staff are currently delivering projects consistent with the City's Facilities ADA Transition Plan. Public entities have an ongoing obligation to ensure that their programs, services, and activities are accessible to the public.

Operating Budget Impact None.

Project Name CITY FACILITY REINVESTMENT PROGRAM

Project Description This program provides funding for end-of-life cycle replacement of facility components or major repairs due to deferred maintenance. In June 2018, staff completed the facility condition assessment to determine and prioritize capital replacement and maintenance needs.

Project Objectives Repair or replace roofs, structural elements, plumbing, electrical service, mechanical systems, and exterior coatings of City facilities to ensure public safety, building code compliance, preservation, and energy efficiency.

Existing Situation This program will be used for improvement projects at existing City facilities. Deferred maintenance at City facilities is currently estimated at approximately \$50 million.

Operating Budget Impact Annual funding to this program prevents increased maintenance costs within the operating budget.

Project Name SECURITY CAMERA REPLACEMENT PROGRAM

Project Description Maintain and replace security camera systems and all related components based on industry standard life cycles.

Project Objectives Ensure the ongoing integrity and availability of security camera systems at City facilities.

Existing Situation Many of the existing security camera systems are outdated, no longer functioning adequately, or not operating at all. Historically, security camera projects were funded for the installation but not for ongoing maintenance, support, and standard life cycle replacement. This program will address these issues.

Operating Budget Impact None.

Project Name **FLEET ALTERNATIVE FUEL EQUIPMENT REPLACEMENT PROGRAM**

Project Description Provide incremental funding for the purchase of alternative fuel, electric, plug-in hybrid, and hybrid vehicle equipment purchases and additional alternative fuel infrastructure.

Project Objectives Purchases of alternative fuel and hybrid vehicles and alternative fuel infrastructure. Assist in complying with the City's Fleet Sustainability Policy to replace a minimum of 50% of fleet equipment purchases with alternative fuel vehicles.

Existing Situation The historical level of funding for the purchase of replacement vehicles does not provide for the additional incremental cost to accelerate the migration of the fleet to alternative fuels and/or hybrid vehicles.

Operating Budget Impact Fleet operating costs and greenhouse gas emissions should decline as the City's fleet is migrated to alternative fuels, thereby reducing petroleum consumption.

SECTION – E

Public Safety

INTRODUCTION

The Public Safety Program establishes and supports capital projects that are consistent with the City's *2035 General Plan*. The Public Safety Program is designed to ensure both fire and police operational facilities are conducive to efficient, safe, and effective operations.

Adequate funding is not available to address the facility needs of the Police Department and the Fire Department. These larger capital repair and/or replacement needs are evaluated and prioritized as one-time resources are identified.

This program focuses resources toward programs that have ongoing funding requirements necessary to address repairs, replacement, and upgrades to the City's public safety infrastructure.

Program Goals

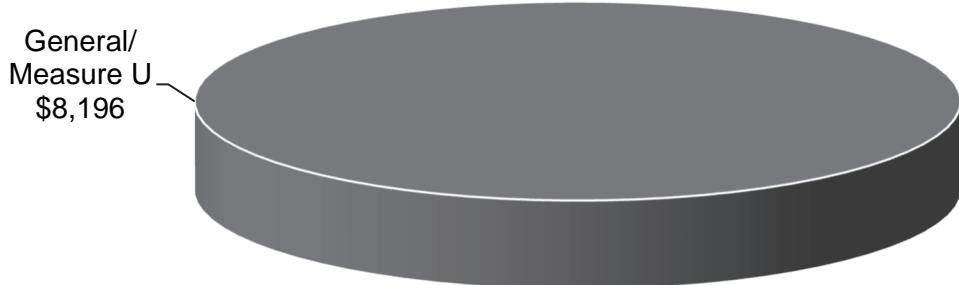

- Protect public health and safety
- Provide reliable infrastructure for operations
- Increase efficiency

Ranking Criteria

- Public safety
- Renewal/replacement of worn/obsolete/failed components
- Leverages existing resources
- Increases or maintains sustainability and accessibility

Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index N.

MAJOR PROGRAMS AND PROJECTS

The Public Safety Program includes a variety of programs and projects. The top funded CIPs during the five-year period are listed below.

Fire Apparatus Program (F12000300, \$15.0 million)

This program is evaluated annually to determine future capital needs in order to avoid spikes in annual funding requirements. The replacement schedule for emergency vehicles is evaluated annually to determine the funding necessary in future years.

Body Worn Camera and Conductive Electrical Device Program (F11100500, \$8.5 million)

This program supports the implementation of body worn cameras for police officers citywide, including equipment and data storage. Body worn cameras are used to improve law enforcement interactions with the public by providing audio and visual recordings, helping to strengthen accountability, transparency, and de-escalation of conflict. The program also maintains conductive electrical devices including accessories equipment, storage, software, and periodic device replacement. Funding is evaluated annually.

Police Safety Equipment Program (F11100800, \$4.4 million)

The program provides funding to purchase safety equipment for use by sworn officers, including radios and body armor. Funding is evaluated annually.

Fire Safety Equipment Program (F12000500, \$4.3 million)

Purchase of safety equipment including self-contained breathing apparatus (SCBA) packs and bottles, and personal protective equipment (PPE). The purchase of this safety equipment is necessary to meet state and federal regulatory requirements and is critical in fire service. Funding is evaluated annually.

Police Department IT Critical Infrastructure Program (F11100600, \$3.9 million)

This program provides funding to purchase mission critical technology infrastructure including data storage, network infrastructure, software, electronic citation platform, and backup solutions. Funding is evaluated annually.

Advanced Life Support Equipment Program (F12000200, \$3.3 million)

This program provides long-term, sustainable funding over multiple years to be used for the purchase of capital equipment needs. The replacement schedule for medical equipment and ambulances is evaluated annually to determine the funding necessary in future years to avoid spikes in annual funding requirements.

Capital Improvement Program

Project Name **BODY WORN CAMERA AND CONDUCTIVE ELECTRICAL DEVICE PROGRAM**

Project Description The funding for this program will be used to maintain body-worn cameras (BWCs) and conductive electrical devices (CEDs) including accessories, equipment, storage, software, and periodic device upgrades.

Project Objectives To improve accountability and transparency within the Police Department. BWCs are used as tools to improvement law enforcement interactions with the public by providing visual and audio records of interactions. CEDs are used as a less-than-lethal force option in certain volatile situations.

Existing Situation The Police Department received a federal grant to develop and implement the BWC program. Continued funding is required to ensure the continuity of the program. The Department's current CEDs are obsolete and no longer carried by the manufacturer. The Department needs to replace its obsolete CEDs with a modern, contemporary model.

Operating Budget Impact In FY2021/22, \$300,000 will be reallocated from the Police Department's operating budget (General Fund) on an ongoing basis.

Project Name POLICE DEPARTMENT IT CRITICAL INFRASTRUCTURE PROGRAM

Project Description The funding for this program will be used to purchase mission critical technology infrastructure including data storage, network infrastructure, software, electronic citation platform, and backup solutions.

Project Objectives Ensure the continuity of Police Department IT critical infrastructure.

Existing Situation After a review of existing IT infrastructure, it has been determined that there is a need to provide funding to ensure the integrity of IT infrastructure according to life-cycle standards, state/federal mandates concerning network security as it relates to accessing confidential information, current technologies, and best practices.

Operating Budget Impact None.

Project Name POLICE DEPARTMENT FLEET EQUIPMENT AND TECHNOLOGY PROGRAM

Project Description The funding for this program will be used to replace/upgrade the mobile data computers (MDCs), in-car camera (ICC) systems, and ballistic door panels on police patrol vehicles.

Project Objectives Ensure the operations of the Police Department patrol fleet.

Existing Situation The Police Department mobile data computer (MDC) and in-car camera (ICC) systems are out of warranty and beyond their useful life.

Operating Budget Impact In FY2021/22, \$500,000 in Measure U funding will be redirected to support citywide operations.

Project Name POLICE SAFETY EQUIPMENT PROGRAM

Project Description The funding for this program will be used to purchase safety equipment for use by sworn officers, including radios, body armor, and less-than-lethal equipment.

Project Objectives Ensure the safety of the community and Police Department sworn officers.

Existing Situation The Police Department regularly purchases safety equipment. Continued funding is necessary to ensure sworn officers are supplied with the appropriate and necessary equipment to carry out their duties.

Operating Budget Impact In FY2021/22, \$70,740 will be reallocated from the Police Department's operating budget (General Fund) on an ongoing basis.

Project Description Purchase of emergency response vehicles including fire trucks, engines, hazardous materials vehicles, and other large apparatus purchases that cross fiscal years.

Project Objectives Establishing a long-term funding plan that will provide sustainable funding over multiple years to be used for the purchase of capital equipment needs. There is an existing replacement schedule for all of the City's Fleet assets. The replacement vehicles schedule is evaluated annually to determine the funding necessary in future years to avoid spikes in annual funding requirements.

Existing Situation The five-year program for replacement vehicles is based on cash funding.

Operating Budget Impact None.

Project Manager Fire, Allison Narramore

Project Name FIRE SAFETY EQUIPMENT PROGRAM

Project Description Purchase of safety equipment including self-contained breathing apparatus (SCBA) packs and bottles, personal protective equipment (PPE), and miscellaneous safety equipment. The purchase of this safety equipment is necessary to meet state and federal regulatory requirements and is a critical component of the PPE used in fire service.

Project Objectives Establish a long-term funding plan that will provide sustainable funding over multiple years. The equipment has an estimated 10-year life cycle (SCBA bottles have a 15-year cycle).

Existing Situation Due to CalOSHA requirements, periodic replacements of PPE, SCBA, and safety equipment is necessary.

Operating Budget Impact \$600,000 of the funding for the PPE budget is supported by intergovernmental transfer (IGT) revenues.

Project Name PUBLIC SAFETY ADMINISTRATION FACILITIES GENERATOR UPGRADE PROGRAM

Project Description Install standby generators at the Public Safety Administration Building (PSAB), fire stations, and other facilities that are essential to emergency response and disaster recovery. Station 14 will be delivered with the construction of this replacement station. Priority A fire stations: 17, 18, and 57. Priority B fire stations: 4 and 9.

Project Objectives Install generators at existing essential facilities. Generators have been installed at the following fire stations: 1, 2, 3, 5, 6, 7, 8, 10, 11, 12, 13, 15, 16, 19, 20, 30, 56, and 60. Standby generators have also been installed at the PSAB, the Fire Department's Training Tower, a City water tower, and the City's main data center. In addition, a generator load bank connection switch gear was installed at the 911 facility to facilitate the regular testing of the generators.

Existing Situation The current funding level for this program provides funding for one station to be completed every other year.

Operating Budget Impact Operating costs related to generator maintenance are estimated to be \$800 per year, per generator.

SECTION – F

Convention, Culture, and Leisure

INTRODUCTION

The Convention, Culture, and Leisure Program promotes and preserves the City's unique cultural heritage by delivering accessible arts, leisure, and educational experiences to enrich people's lives and enhance the metropolitan area. The Convention, Culture, and Leisure Program is designed to enrich the quality of life and to contribute to a vibrant metropolitan region by providing exceptional cultural, artistic, and leisure opportunities.

This Program has been prepared by the Department of Convention and Cultural Services staff utilizing the goals and criteria listed below.

Program Goals

- Provide clean and well-maintained grounds, facilities, and equipment
- Enhance the economic and cultural vitality of the city through cultural facilities
- Maintain and increase client and patron satisfaction
- Provide high quality, safe, and accessible facilities

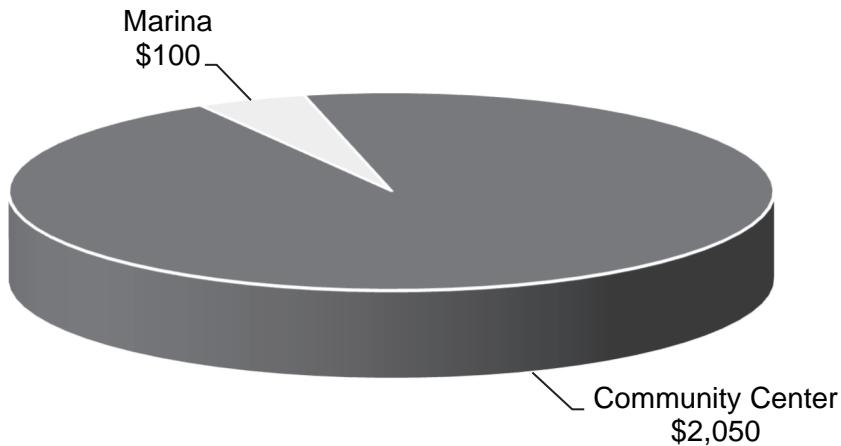

Ranking Criteria

- Meet legal, health, and safety requirements
- Maintain and improve facilities to ensure the public's comfort and enjoyment
- Improve marketability of the SAFE Credit Union Convention and Performing Arts District to increase attendance
- Prevent damage to facilities and watercraft

¹Funds may be found in the other sections of this document.

²Projects may have multiple funding sources.

2021-2026 Convention, Culture, and Leisure Program by Fund (in thousands)

\$7,590

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section J). All projects receiving funding may be found by referring to Index K. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index N.

The ongoing pandemic has significantly impacted certain revenue sources including transient occupancy taxes, which this program area primarily relies on for funding. The projects included in the FY2021/22 CIP budget which rely on these revenues reflect only the most critical investments needed to maintain the City's convention facilities. Staff will continue to monitor these revenues and recommend program adjustments for Council consideration should revenue estimates change significantly.

MAJOR PROGRAMS AND PROJECTS

The Convention, Culture, and Leisure Program includes a variety of programs and projects. In September 2018, City Council authorized the issuance of bonds to expand and renovate the SAFE Credit Union Convention and Performing Arts District. In July 2019, City Council

2021-2026 Approved Capital Improvement Program

authorized the issuance of additional bonds to construct a new ballroom for the SAFE Credit Union Convention Center. The Convention Center Complex Renovation Project will enhance the patron experience at the Memorial Auditorium, improve the guest experience and event flexibility at the SAFE Credit Union Convention Center, and improve acoustics and performance space as well as expand restrooms and concessions at the SAFE Credit Union Performing Arts Center.

Funding is required for ongoing improvements outside the scope of the Convention Center Complex Renovation Project. The top funded CIPs during the five-year period are listed below.

Performing Arts Center Improvements Program (M17101800, \$3.9 million)

This program provides for improvements, repairs, and/or replacements for the SAFE Credit Union Performing Arts Center that are needed but not included in the Convention Center Complex Renovation Project schedule due to timing and financial constraints. Funding for this program is based on the estimated fees to be collected from the SAFE Credit Union Performing Arts Center Facility Fee.

Memorial Auditorium Improvements Program (M17101000, \$2.1 million)

This program addresses deferred maintenance, facility improvements, and renovation needs at the historic Sacramento Memorial Auditorium. Funding is based on the number of improvements that need to take place in the next five years that is outside of the scope of the Convention Center Complex Renovation Project.

Community Center Improvements Program (M17100000, \$800,000)

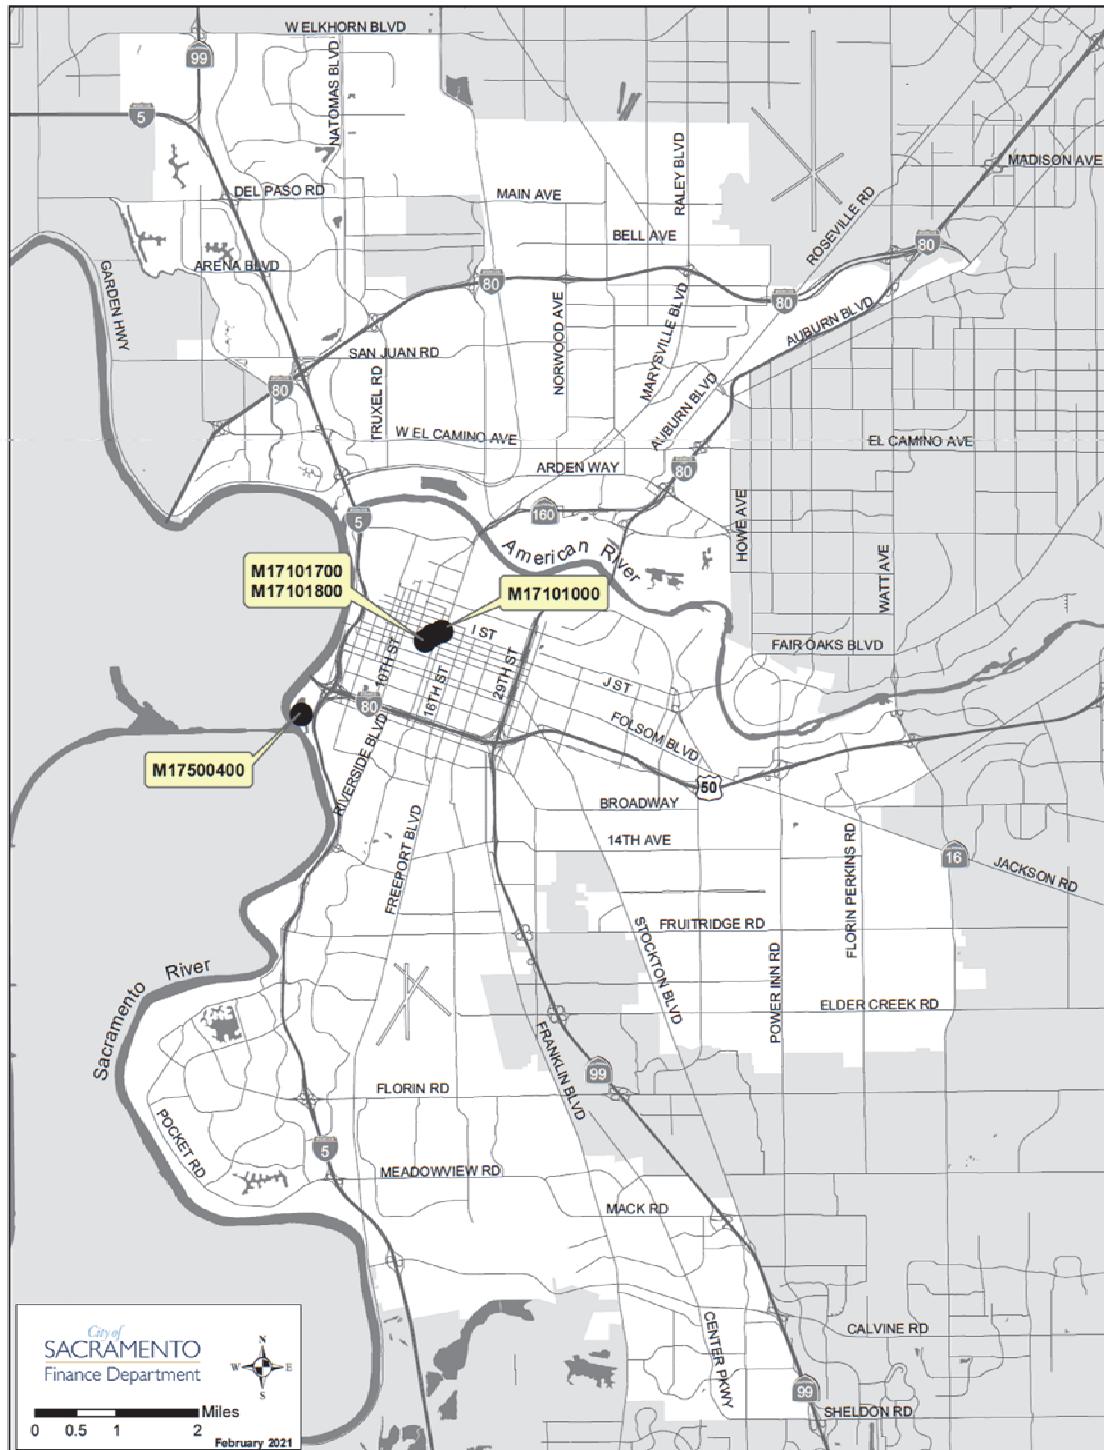

This program provides funding for major improvements, repairs, or equipment for the SAFE Credit Union Convention and Performing Arts District to prolong or enhance the current conditions. Funding is based on the number of improvements and repairs that need to take place in the next five years that is outside of the scope of the Convention Center Complex Renovation Project.

2021-2026 Approved Capital Improvement Program

FY2021/22 Capital Projects and Programs *Non-site specific or multi-site projects are not shown*

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

Project Name COMMUNITY CENTER IMPROVEMENTS PROGRAM

Project Description Provide funding for major improvements, repairs, or equipment for the SAFE Credit Union Convention and Performing Arts District to prolong or enhance its current conditions.

Project Objectives Protect employees and the public from potential safety hazards and ensure continued, uninterrupted operation of the facility.

Existing Situation The SAFE Credit Union Convention and Performing Arts District is more than 40 years old. Funding for major improvements, repairs, or equipment is essential to continue operations at the facilities.

Operating Budget Impact None.

Project Name CONVENTION CENTER AUDIO-VISUAL IMPROVEMENTS PROGRAM

Project Description Prolong and/or enhance the City-owned audio-visual (AV) equipment and systems at the SAFE Credit Union Convention and Performing Arts District.

Project Objectives Meet client expectations for reliable equipment, maintain operational competitiveness, and protect employees and the public from potential hazards.

Existing Situation It is prudent to accumulate funds needed to upgrade and/or replace existing City-owned AV equipment and infrastructure in order to avoid future failure.

Operating Budget Impact None.

Project Name MEMORIAL AUDITORIUM IMPROVEMENTS PROGRAM

Project Description Address deferred maintenance, facility improvements, and renovation needs at the historic Sacramento Memorial Auditorium.

Project Objectives Ensure the historic City facility continues to provide a clean and well-maintained venue for the public while meeting health, safety, and historic preservation requirements.

Existing Situation Ongoing funding will be used for future requirements as identified. FY2021/22 Facility Fees will be utilized to repair roof; purchase electronic winches to raise/lower chandeliers, and paint the Jean Runyan Little Theater.

Operating Budget Impact In FY2021/22, \$125,000 of funding will come from the operating budget's Memorial Auditorium Facility Fee.

Project Name CONVENTION CENTER DURABLE EQUIPMENT REPLACEMENT PROGRAM

Project Description Fund the replacement of durable equipment (e.g., chairs, tables, and stage risers) for the SAFE Credit Union Convention and Performing Arts District.

Project Objectives Replace equipment (every five to ten years) to improve the look of the SAFE Credit Union Convention and Performing Arts District and to improve safety needs.

Existing Situation Consistent and repetitive use of the durable equipment at the SAFE Credit Union Convention and Performing Arts District accelerates normal wear and tear of the equipment. Funds are needed to regularly replace these essential items.

Operating Budget Impact None.

SECTION – G

Parks and Recreation

INTRODUCTION

The Parks and Recreation Program reflects the City's goal to optimize the experience of its citizens through parks, recreational facilities, and the preservation of open space. The Parks and Recreation Program is designed to address the City Council's commitment to improving the quality of life through a robust park system, with an emphasis on renovating and rehabilitating aging park amenities within the system.

This Program utilizes the *Park Project Programming Guide*'s goals and criteria, the Deferred Maintenance List, the Pools Assessment, and input from the City Council to develop the five-year plan.

Program Goals

- Provide an integrated system of parks, open space areas, and recreational facilities that are safe and connect the diverse communities of Sacramento
- Plan and develop parks, recreation, and community facilities that enhance community livability, are equitably distributed throughout the city, and are responsive to the needs and interests of residents, employees, and visitors
- Secure adequate and reliable funding for the acquisition, development, and maintenance of parks, recreation facilities, and open space

Ranking Criteria

Projects are evaluated and grouped within each of the ten Community Plan Areas (CPAs) for consistency with the City's *Parks and Recreation Master Plan*, last updated in 2009.

The criteria in each CPA focuses on:

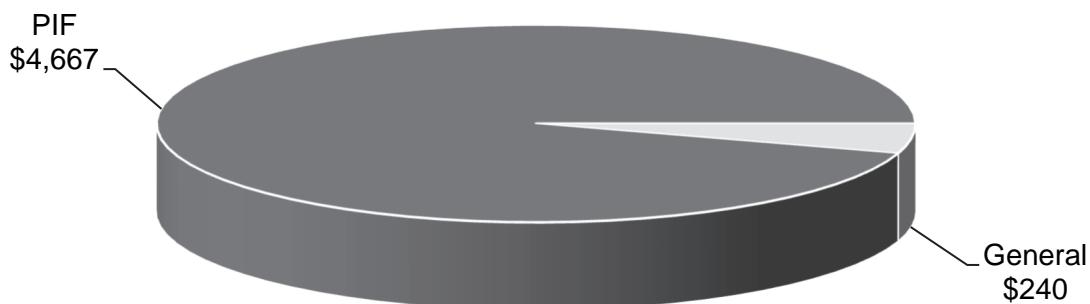

- Neighborhood, community, and/or regional need
- Funding availability for ongoing maintenance
- Site significance, public priority or public use, and suitability to the area
- Priority to economically disadvantaged neighborhoods
- Health, safety, or legal mandates
- Land availability
- Cost offsets/partnerships

\$5,867

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section J). All projects receiving funding may be found by referring to Index K. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index N.

City parks, aquatic facilities, and recreation facilities have over \$160 million in various deferred maintenance needs, including safety and accessibility issues. In an effort to address these needs, starting in FY2021/22 any unspent Measure U Fund (Fund 2401) appropriations in the Youth, Parks, and Community Enrichment Department at year-end will be transferred to deferred maintenance CIPs annually until the backlog of deferred maintenance projects in these programs has been completed.

Blackbird Park Community Garden

MAJOR PROGRAMS AND PROJECTS

The Parks and Recreation Program includes a variety of programs and projects. The top funded CIPs during the five-year period are listed below.

Westshore Park Development (L19175300, \$1.9 million)

This project will support a master plan and construction of a five-acre park that will include open lawn area, grading, irrigation, walkways, and site furniture.

Sutter's Landing Park Program (L19167000, \$1.2 million)

Sutter's Landing Park is a decommissioned City landfill and waste transfer station. The objective of the program is to transform the open, available area into a regional park that can serve the recreational needs of the community. This programmatic funding is directed from the revenue received from the onsite billboard.

Meadows Park Phase Three (L19138120, \$1.2 million)

This project will implement the third phase of the park master plan to add a community garden and sports courts.

Tanzanite Park Futsal Courts (L19169200, \$600,000)

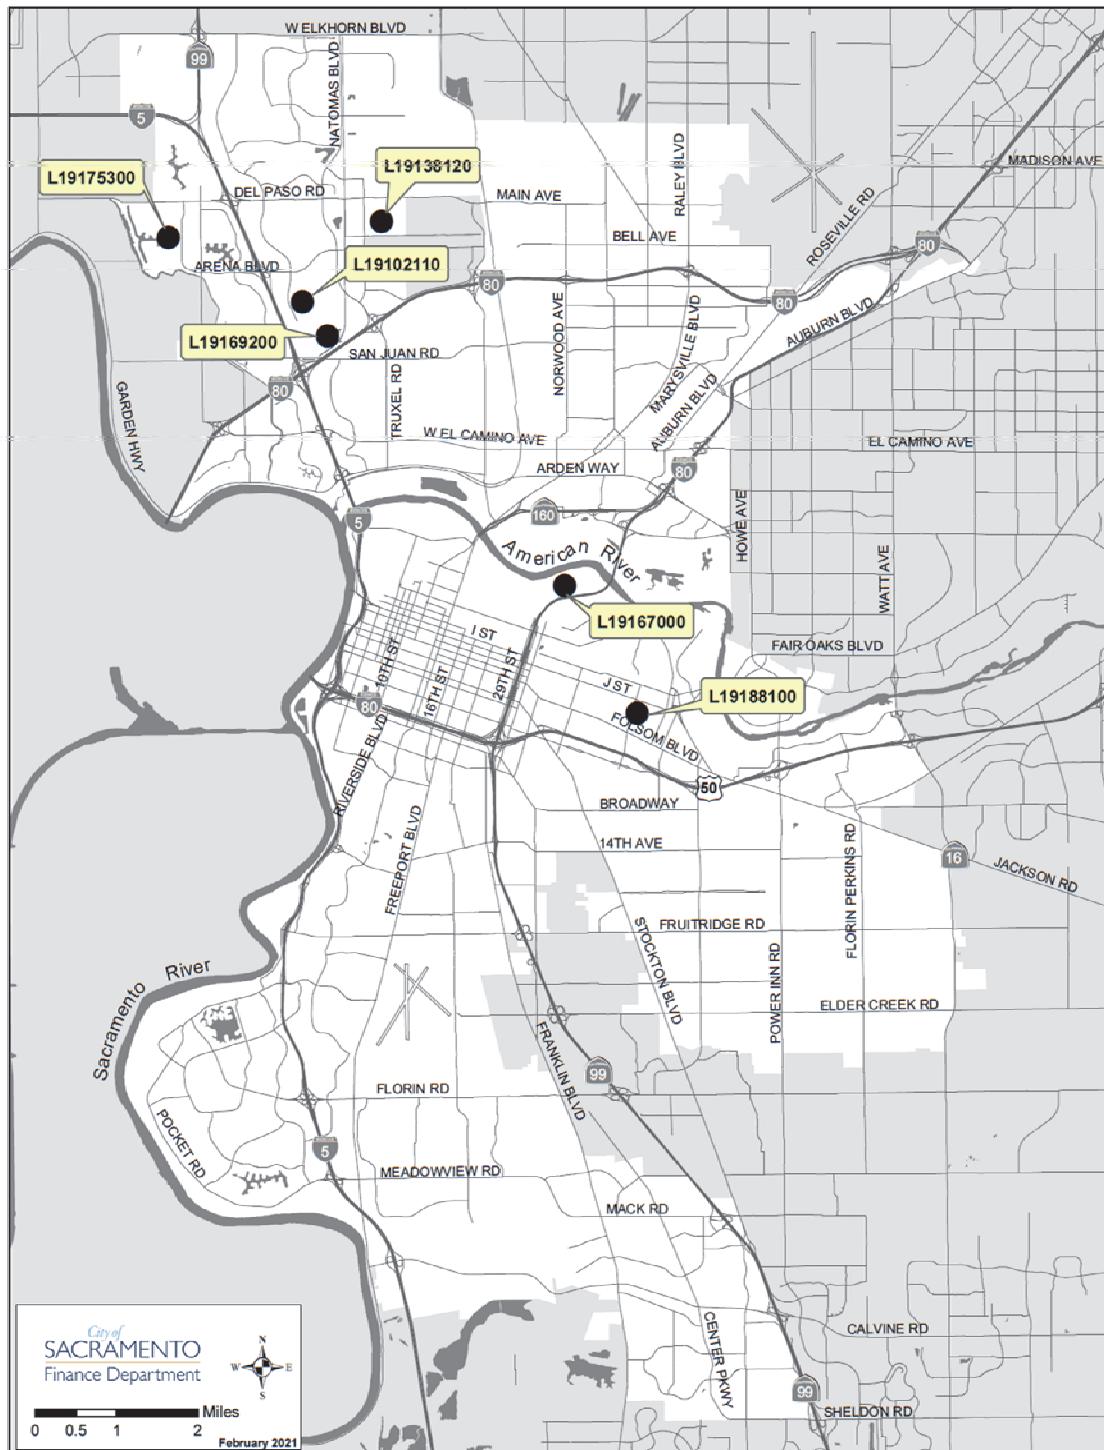

This project will implement the third phase of the park master plan for construction of two futsal courts at Tanzanite Park, including grading, drainage, concrete flatwork, irrigation, and low water use landscaping.

Roosevelt Park Ballfield

2021-2026 Approved Capital Improvement Program

FY2021/22 Capital Projects and Programs Non-site specific or multi-site projects are not shown

Project Name ART IN PUBLIC PLACES PROGRAM

Project Description Adhere to City Code Chapter 2.84.110, which mandates that “at least 2% of the total cost [of eligible construction projects] shall be expended for public art.” Subprojects for each Community Planning Area (CPA) and their budgets are not reflected here.

Project Objectives Combine the 2% Art in Public Places funding from the various park development projects in each CPA to allow the creation of significant artwork at parks within each CPA where the money was collected. Allocate funding to each area once development in that area commences.

Existing Situation Each eligible park or recreation CIP budget has 2% set aside for the mandate.

Operating Budget Impact None.

SECTION – H

Transportation

INTRODUCTION

The City is responsible for maintaining and upgrading an aging transportation network that serves hundreds of thousands of users, including automobiles, trucks, buses, trains, bikes, pedestrians, and scooters for users of all modes and abilities. Resources to maintain and improve the transportation network come from a variety of sources, primarily the countywide transportation sales tax, state gas taxes, federal and state funding, and special fees and taxes.

Transportation funding has not kept pace with inflation, and in some cases funding has declined, creating challenges in providing needed transportation system maintenance and in providing capital improvements to address safety, network expansions, modernization, and upgrading. The City has significant unfunded needs in terms of maintenance and rehabilitation of the existing transportation network (pavement, bridges, bikeways, and traffic control equipment); implementation of Council-adopted plans, including the Bikeway Master Plan, the Pedestrian Master Plan, the Intelligent Transportation Systems Master Plan, and the Vision Zero Implementation Plan; and providing for various Complete Streets implementation. Current estimated unfunded needs exceed \$2.5 billion.

State gas taxes and the local transportation sales tax are the primary funding sources for transportation network rehabilitation and repair and installation of safety improvements. In 2017, Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017, increased gas tax and vehicle registration fees and indexed the gas tax to inflation. The increased funding has allowed the City to maintain a corridor rehabilitation and improvement program. Even with increased funding from SB 1, however, the conditions on City streets will continue to decline as the result of years of deferred maintenance of City streets.

The ongoing coronavirus pandemic has also increased challenges in maintaining and upgrading transportation infrastructure. The logistics of limiting exposure during construction activities, disruptions in supply chains, and workforce issues can result in delays and increased costs for construction. Local transportation funding sources are also tied to development fees and tax revenues that have been impacted by the pandemic.

With limited funding, most capital projects are funded through state and federal grants. These grant funds are accessed through competitive programs that require a local match commitment, and a lack of local transportation dollars limits the City's ability to apply for and secure grant funding, which in turn limits the amount and scope of the capital improvement projects the City can implement. At FY2020/21 Midyear, Council approved a one-time General Fund appropriation of \$5.0 million to the State and Federal Grant Match Program (T15007200). These resources will help additional projects which benefit the City's transportation network to move forward.

In addition, the City recognizes that the transportation sector plays a major role in greenhouse gas emissions (GHG) and climate change. The City prioritizes projects that promote regional

2021-2026 Approved Capital Improvement Program

reductions in vehicle miles travelled (VMT), support greater opportunities for active transportation and shared transportation/transit, and advance safe and convenient alternatives to travel by single-occupant gas-powered automobiles.

The following describes the Program's overall goals and criteria.

Program Goals

- Provide a safe and comprehensive transportation system that is effectively and efficiently planned, managed, operated, and maintained
- Provide a system that serves all modes of travel for all ages and abilities
- Reduce barriers to improve system connectivity by eliminating gaps, increasing accessibility, prioritizing active modes, connecting to transit stations, and increasing multi-jurisdictional transportation corridors

Priority Criteria

On December 10, 2019, the City Council adopted Resolution No. 2019-0475 directing that the following criteria be used to determine transportation project funding until such time as the City Council adopts criteria and priorities as part of a Transportation Master Plan:

- Safety
- Maintaining a State of Good Repair
- Promoting reductions in VMT and GHG emissions
- Advancing technological improvements that serve the City's transportation policy goals
- Including input, education, and mobility solutions for youth

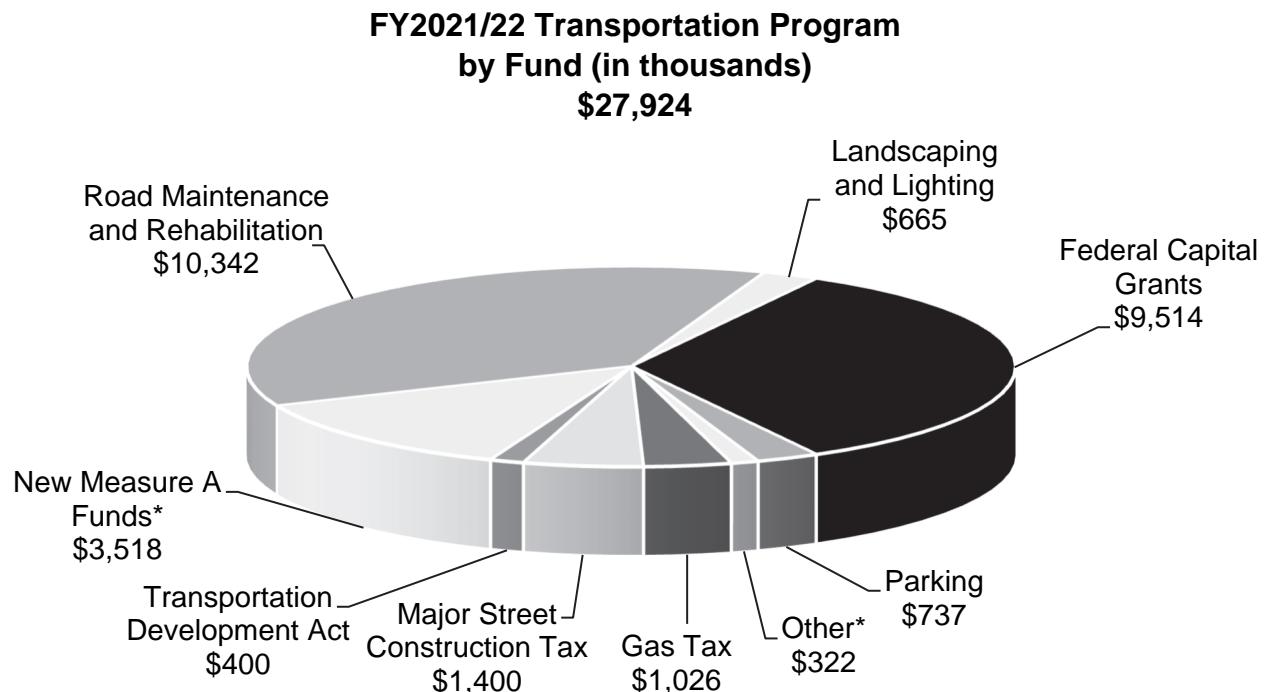

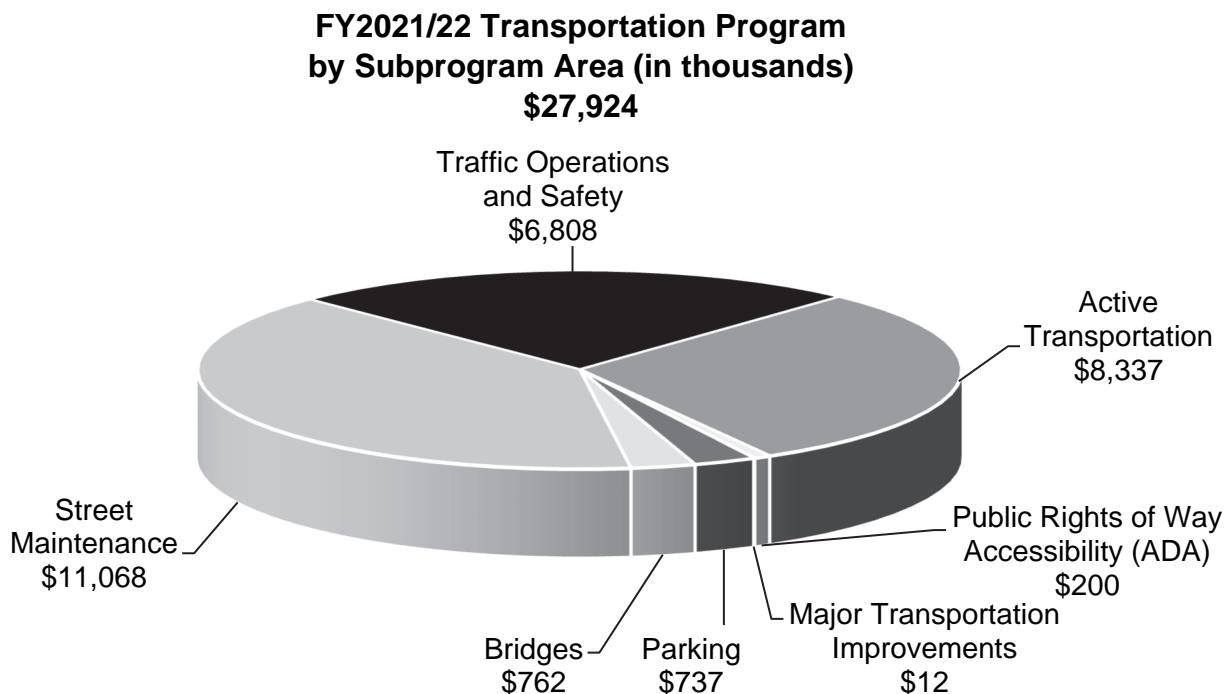

Potential projects to achieve these goals will be prioritized based on the following measures:

- Equity
- Cost-effectiveness

The Transportation Program is divided into seven subprograms:

- Active transportation – pedestrian, bikeway, lighting, and streetscape improvements
- Bridges – replacement and rehabilitation
- Major transportation improvements – major roadway construction
- Parking – parking facility maintenance and upgrades
- Public rights-of-way accessibility – installation of improvements to ensure full accessibility
- Maintenance – roadway and bikeway rehabilitation, including integration of complete streets and safety improvements
- Traffic operations and safety – safety improvements, Traffic Operations Center, traffic calming, active transportation safety, and major streetlight replacement

MAJOR FUNDING SOURCES

3703	Federal Capital Grants	8	9,513,959
6004	Parking	8	737,330
TOTAL TRANSPORTATION			\$27,923,537

¹Funds may be in several program areas and may be found in the other sections of this document.

²Projects may have multiple funding sources.

2021-2026 Transportation Program by Fund (in thousands)

\$130,117

2021-2026 Approved Capital Improvement Program

The ongoing pandemic has significantly impacted certain revenue sources including off-street parking fees. The projects included in the FY2021/22 CIP budget which rely on this funding reflect only the most critical investments needed to maintain the City's parking facilities. Staff will continue to monitor these revenues and recommend program adjustments for Council consideration should revenue estimates change significantly.

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section J). All projects receiving funding may be found by referring to Index K. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index N.

MAJOR PROGRAMS AND PROJECTS

The Transportation Program includes a variety of programs and projects, most of which are for road maintenance, are federally funded, or are reserved as future federal match based on past funding awards. With limited local funding available, CIPs have leveraged local transportation funding with grant funding to maximize the value of every local transportation dollar and the number of improvements the City is able to deliver. The top CIPs programmed to receive new or additional funding during the five-year period are listed below.

Transportation Corridor Program (R15210000, \$53.3 million)

This is an ongoing comprehensive transportation corridor rehabilitation program to improve pavement conditions, improve mobility options, incorporate or expand active transportation elements, address safety concerns, implement upgraded technology solutions, and provide urban greening elements as needed. The Transportation Corridor Improvements Program is intended to address all needs in a coordinated, efficient, and comprehensive process.

This program takes advantage of opportunities for increased efficiencies and cost savings by integrating complete streets and safety features with pavement resurfacing. For example, road maintenance resurfacing projects (such as road overlay and seals) provide opportunities to implement vehicle lane reductions, add bike lanes, add accessibility improvements, crosswalk treatments, and other complete street features.

The Program is funded with traditional Gas Tax funds and Road Maintenance and Rehabilitation Account gas tax funds (additional funding through SB 1). Even using all increased funding from SB 1, available funding provides only about one-fifth of the funding needed to maintain the current pavement condition index.

Street overlay in progress

Del Rio Trail (K15165100, \$11.4 million)

The proposed 4.8-mile Del Rio Trail Project consists of a Class I bicycle path together with an adjacent pedestrian walking trail. The Del Rio Trail is proposed along the rail corridor of the former Sacramento Southern Railroad's Walnut Grove Branch Line. This now abandoned rail line runs south through the Land Park, South Land Park, Freeport Manor, Z'Berg, Pocket, and Meadowview neighborhoods between Interstate 5 and Freeport Boulevard. The project will create north/south connectivity in the City of Sacramento's off-street bike network, and increase bike ridership, safety, and equitable investment in bikeway infrastructure.

The inner-city trail will allow south Sacramento residents, cyclists, pedestrians, runners, and dog walkers to travel for miles to access William Land Park, the Sacramento Zoo, schools, stores, restaurants, retail centers, jobs and community parks. It will create a safe option to cross busy streets such as Sutterville and Fruitridge Road. It will also provide a direct link to other trails within the City of Sacramento's Bicycle Master Plan. This project, along with other projects the City is advancing, is part of the City's goal to provide more opportunities for Sacramento residents to be active and healthy while also protecting the environment.

Section of proposed trail corridor

The estimated cost of the entire project is approximately \$16.5 million dollars. The City has secured federal funding for the project assuming contribution of matching local transportation funds.

Auburn Boulevard Bridge Replacement (T15145300, \$8.6 million)

The existing bridge located on Auburn Boulevard that covers Arcade Creek has been identified as structurally deficient and functionally obsolete. This project will demolish the existing bridge and replace it with a new bridge that has standard travel lane widths, sidewalks, and bike lanes, and improves pedestrian and bicycle connectivity.

The project supports the *2035 General Plan* goals of improving the transportation system, expanding public safety, achieving sustainability through reduced dependence on automobiles, and enhancing livability and economic vitality. The new bridge is expected to be completed by December 2023 but could be delayed as a result of limited funding availability in the federal Highway Bridge Program, which is currently overprescribed.

Auburn Boulevard Bridge at Arcade Creek (looking northeast)

Active Transportation Program (T15180400, \$7.8 million)

This program is dedicated to the installation of facilities in the public rights-of-way which promote alternative modes of transportation that improve air quality, public health, and safety. The program is part of a coordinated effort to make walking, biking, and other alternative means of transportation safe and viable.

The Active Transportation Program is funded with New Measure A Safety, Streetscape, Bicycle & Pedestrian funding, and Transportation Development Act funding. This funding is used for pedestrian, bikeway, lighting, and streetscape improvements, such as Safe Routes to Schools sidewalk gap closures and signalized bicycle detection. It is also used to match state and federal grants for active transportation projects.

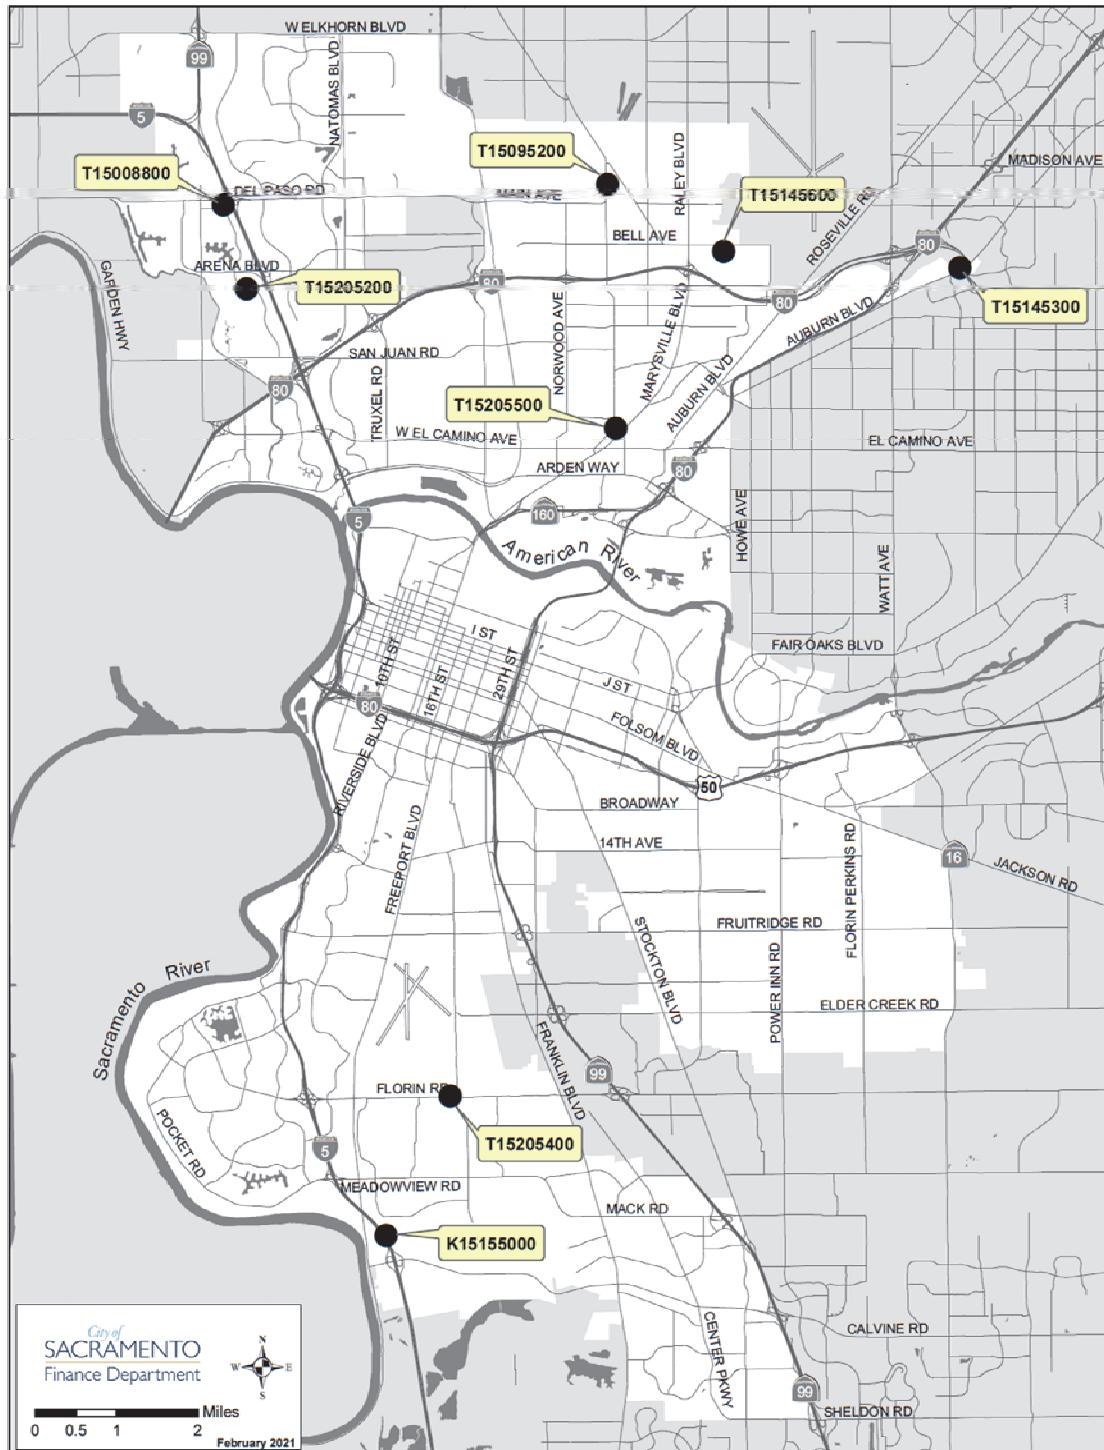

Active Transportation Safety Program (S15120500, \$5.0 million)

Formerly known as the Pedestrian Safety Program, this program is intended to install safety improvements for those walking, bicycling, or rolling. It provides for active transportation improvements including marked crosswalks, enhancement treatments such as Rectangular Rapid Flash Beacons (RRFBs) or Pedestrian Hybrid Beacons, bikeway gap closures, and other related improvements.

The Active Transportation Safety Program is funded with New Measure A Safety, Streetscape, Bicycle & Pedestrian funding, and Gas Tax funding. Additional gas tax funding was added to the program in an effort to increase opportunities to install safety improvements for those using active transportation.

2021-2026 Approved Capital Improvement Program

FY2021/22 Capital Projects and Programs Non-site specific or multi-site projects are not shown

Note: Details for the project numbers listed on the map above are provided in alphabetical project order on the following pages.

Project Name SOUTH SACRAMENTO PARKWAY TRAIL - WEST

Project Description Construct a new Class I bicycle facility adjacent to northbound Interstate 5, south of Pocket Road/Meadowview Road, and Freeport Boulevard.

Project Objectives Close a gap in the existing bikeway system by connecting the Freeport Shores Bike Trail to the North Delta Shores Bike Trail.

Existing Situation There is a gap in the existing bikeway network. Currently, there is a trail from the west along the Sacramento River, which will be extended to the Bill Conlin Youth Sports Complex. From the east, the North Delta Shores Trail ends at the interstate.

Operating Budget Impact None.

Project Name **FY2021/22 PEDESTRIAN AND BIKE TRAIL REPAIR AND MAINTENANCE PROGRAM**

Project Description This project is for citywide maintenance, repair, and rehabilitation of existing bike and pedestrian trails including pavement, striping, shoulder repairs, landscape maintenance, and debris and graffiti removal.

Project Objectives Provide maintenance of bike and pedestrian trails to ensure safety for users and to protect the City's long-term investment in its trail system. Consistent maintenance of bike and pedestrian trails will reduce the cost of future repairs.

Existing Situation The bike and pedestrian trail maintenance program is necessary to keep the trail system safe and prevent early deterioration.

Project Name PAVEMENT MANAGEMENT APPLICATION UPDATE PROGRAM

Project Description The Pavement Management Application (PMA) inventory system requires regular updates, as well as other required hardware and software upgrades to keep the City's infrastructure management system current.

Project Objectives Update the infrastructure management systems used by Maintenance Services Division.

Existing Situation The City is required by the Federal Highway Administration to have a PMA system. An annual allocation is required to update and maintain the PMA system.

Operating Budget Impact None.

Project Name TRAFFIC OPERATIONS CENTER PROGRAM

Project Description This program includes: corridor timing studies and implementation; traffic signal equipment maintenance, upgrade, replacement, and expansion; Traffic Operations Center (TOC) evaluation and expansion studies; related plans, specifications, and estimates; communications conduit infrastructure and maintenance; and Regional Intelligent Transportation System partnership strategic plan studies.

Project Objectives Connect traffic signals into the TOC so traffic signal operations and timing can be evaluated, monitored, and managed from the TOC to reduce travel delay and congestion on City streets.

Existing Situation Approximately half of the 850 traffic signals in the City are tied into the TOC.

Operating Budget Impact None.

Project Name VISION ZERO SAFETY PROGRAM

Project Description Support the construction of traffic safety improvements in the public right-of-way with the goal of reducing preventable crashes that cause serious injury or death. Includes the design and construction of traffic control devices, pavement markings and striping, median treatments, enhancement of sight distance, traffic calming, and other traffic safety related improvements.

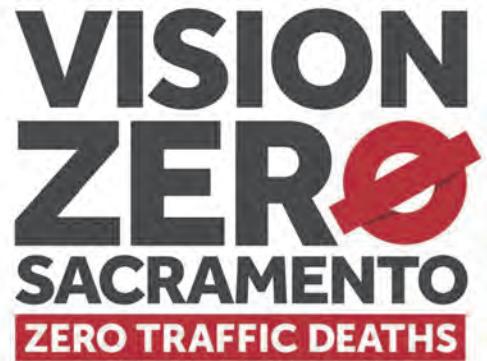

Project Objectives Reduce fatalities and severe injuries related to traffic crashes in Sacramento, and improve public safety and neighborhood livability by reducing the impact of street traffic citywide.

Existing Situation Some intersections and neighborhoods have a history of traffic congestion or public safety concerns and may require traffic safety-related improvements.

Operating Budget Impact None.

Project Name STATE AND FEDERAL GRANT MATCH PROGRAM

Project Description This project is a reserve for grant matching funds. As individual capital projects are approved by Sacramento Area Council of Governments (SACOG) or other state or federal funding sources, matching funds will be transferred to projects once they have received authorization to begin.

Project Objectives Reserve the matching funds and startup funds needed for state and federal grants for projects.

Existing Situation In order to take advantage of state and federal transportation grant opportunities, a local match is typically required. In FY2021/22, among projects with reserved funding are \$2.2 million in match funding to be allocated for construction of the \$11 million Del Rio Trail and \$1 million toward 9 traffic signal safety upgrades throughout the City, costing over \$4 million total.

Operating Budget Impact None.

Project Name **NORTH NATOMAS FREEWAY MONITORING PROGRAM**

Project Description Monitor the freeway interchanges serving North Natomas as required by the cooperative agreement between the City and the state (City Agreement No. 95-217). Monitor traffic operations at the freeway off-ramps and adjacent intersections.

Project Objectives Monitor and identify when the freeway interchanges begin to be impacted by traffic growth in North Natomas. Results are used to identify when performance thresholds for the interchanges have been met and what impact mitigation measures are needed. This report is sent directly to Caltrans.

Existing Situation This monitoring has been performed since 1996. Monitoring was included in the state agreement due to the size of the Natomas expansion and the anticipation that the expansion would take decades to complete. This made it difficult to determine when improvements would be needed that would affect the state highway system.

Operating Budget None.

Project Name NEIGHBORHOOD STREET LIGHT REPLACEMENT PROGRAM

Project Description Ongoing replacement of neighborhood street lighting components or systems which are unsafe or have reached the end of their useful life.

Project Objectives Replace unsafe or deteriorated neighborhood street lights.

Existing Situation Many neighborhood street lights are 50-70 years old and have reached the end of their useful life.

Operating Budget Impact None.

Project Name BRIDGE MAINTENANCE ENGINEERING PROGRAM

Project Description Ongoing funding for engineering work required to investigate, scope, prioritize, and design repair and rehabilitation of bridges within the City. Repair work is contracted out through the public contracting process or performed by staff.

Project Objectives Perform bridge repairs, as specified by state bridge inspections, in a timely, cost-efficient manner. Contribute to public safety and revitalization of the existing infrastructure.

Existing Situation Vehicular bridges are inspected biannually by the state. Bicycle and pedestrian bridges are inspected as needed by staff or contractors. Repair needs identified during the inspections are constructed by staff or through the public contracting process.

Operating Budget Impact None.

Project Manager Public Works, Cecilyn Foote

Project Name HSIP 9 LAMPASAS AVENUE AND RIO LINDA BOULEVARD

Project Description Restripe and realign approaches to the intersection, construct a pedestrian refuge island at an uncontrolled crossing, and install enhanced pedestrian crossings on all legs.

Project Objectives The objective is to enhance safety at the intersection by realigning the intersection geometry, improving sight distance, and clarifying turn movements and crossings.

Existing Situation There is currently a 4-legged intersection with two ways controlled by stop signs. This is an intersection in which the roads do not meet at the typical right angles.

Operating Budget Impact None.

SECTION – I

City Utilities

INTRODUCTION

The City Utilities Program reflects the City's funding strategy for delivering capital improvements to provide and maintain services and facilities for the benefit of the community, safeguarding public health and safety, promoting sustainability, enhancing livability, and expanding economic development throughout the City.

To ensure long-term infrastructure sustainability, this Program utilizes an asset management process to systematically prioritize and rank its rehabilitation and replacement needs based on information collected through various elements such as criticality, condition assessment, master planning, and maintenance history to ensure long-term infrastructure sustainability.

This Program is consistent with the *2035 General Plan*.

Program Goals

- Comply with all government regulations and legal requirements
- Provide high-quality, safe, and reliable utility systems by delivering services through proactively monitoring and maintaining our assets and reducing system vulnerability
- Plan for current and future generations by protecting, preserving, and enhancing resources, the environment, and the community
- Manage funding by finding alternative funding sources, such as grants or other revenues
- Provide for environmentally sound landfill closure

Ranking Criteria

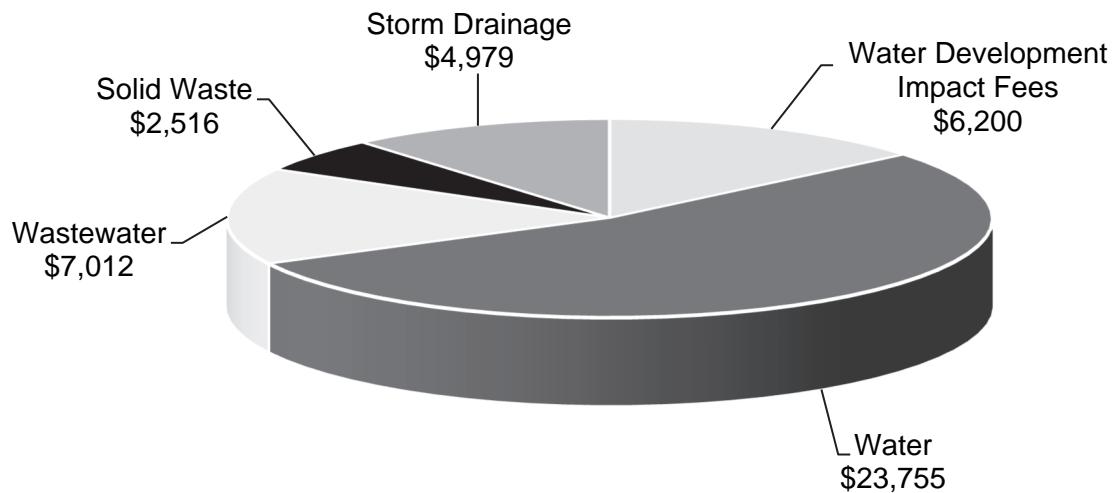

- Mandate by state and federal laws or regulations
- Protect the public by meeting health and safety requirements
- Meet the demands of increased growth
- Manage funding by finding alternative funding sources, such as grants or other revenues
- Improve or reduce ongoing facility operations and maintenance costs

The City Utilities Program is divided into four subprograms:

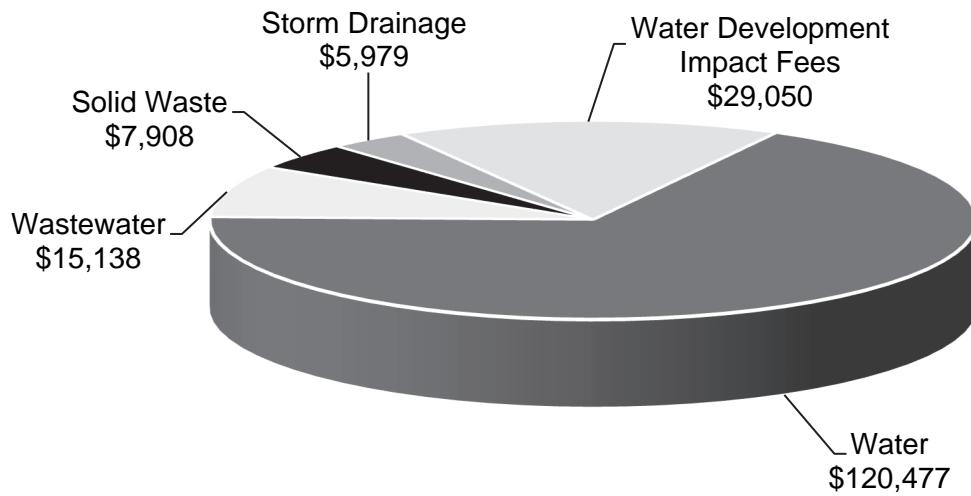

- Solid Waste
- Storm Drainage
- Wastewater
- Water

MAJOR FUNDING SOURCES

**FY2021/22 City Utilities Program
by Fund (in thousands)**

**2021-2026 City Utilities Program
by Fund (in thousands)**
\$178,552

FY2021/22 Program Funding

Fund #¹	Fund Name	# of CIPs²	Budget
6001	Water Development Impact Fees	1	6,200,000
6005	Water	16	23,755,000
6006	Wastewater	12	7,012,000
6007	Solid Waste	6	2,515,500
6011	Storm Drainage	3	4,979,310
TOTAL CITY UTILITIES			\$44,461,810

¹Funds may be in several program areas and may be found in the other sections of this document.

²Projects may have multiple funding sources.

Additional information on funding sources and their restrictions may be found in Description of Major Funding Sources (Section J). All projects receiving funding may be found by referring to Index K. Total funding for a project may be found by reviewing the detail sheets after this summary or by referring to Index N.

MAJOR PROGRAMS AND PROJECTS

The City Utilities Program includes a variety of programs and projects. The top five funded CIPs during the five-year period are listed below by subprogram.

Water Impact Fees

Water Supply Expansion Program (Z14190100, \$29.1 million)

The Program will design plans and specifications for the development of necessary water supply expansion improvements needed due to expected growth. The program is necessary to ensure the City has sufficient water treatment capacity for the future water demands of the City of Sacramento. Long range water demand projections, based on General Plan projections, have identified shortage of water treatment capacity around 2035. These efforts will be funded by revenues generated from impact fees paid by developers whose projects add to the water supply demands.

Water

Well Rehabilitation Program (Z14110100, \$20.5 million)

The Program will build replacement groundwater wells as recommended by DOU's completed 2017 Groundwater Master Plan. Many of the City's groundwater wells were built in the 1950s and are near the end of their useful lives. Replacement capacity is needed to sustain the City's groundwater program and comply with the General Plan Policy U 2.1.2, which requires the City to maintain a surface water and groundwater conjunctive use program. The Program will focus on planning efforts to support the design of replacement wells, environmental documentation preparation, and the design and construction of new and/or replacement well sites.

Wastewater

Combined Collection System Rehabilitation and Replacement Program (X14170100, \$3.2 million)

The City's Combined Sewer System (CSS) is served by undersized and aging collection pipes that range from 6 inches to 120 inches in diameter and by two large pump stations, Sumps 1 and 2. The City's operation of the CSS is governed by the Regional Water Quality Control Board through a National Pollutant Discharge Elimination System (NPDES) permit containing a Long-Term Control Plan that guides improvement and rehabilitation projects to meet the CSS long-term goals. Replacing worn, failed, or undersized CSS pipes and pump stations complies with these goals. Assets are prioritized for replacement based on condition and critical function.

Solid Waste

28th Street Landfill Regulatory Compliance Upgrades (Y15000100, \$5.0 million)

This project ensures that waste buried at the 28th Street landfill does not come in contact with groundwater or otherwise compromise water quality. To ensure this and in response to a Corrective Action Order from the Regional Water Quality Control Board, this project will enhance methane gas extraction capabilities by expanding the gas collection system and increase the separation of buried waste to groundwater.

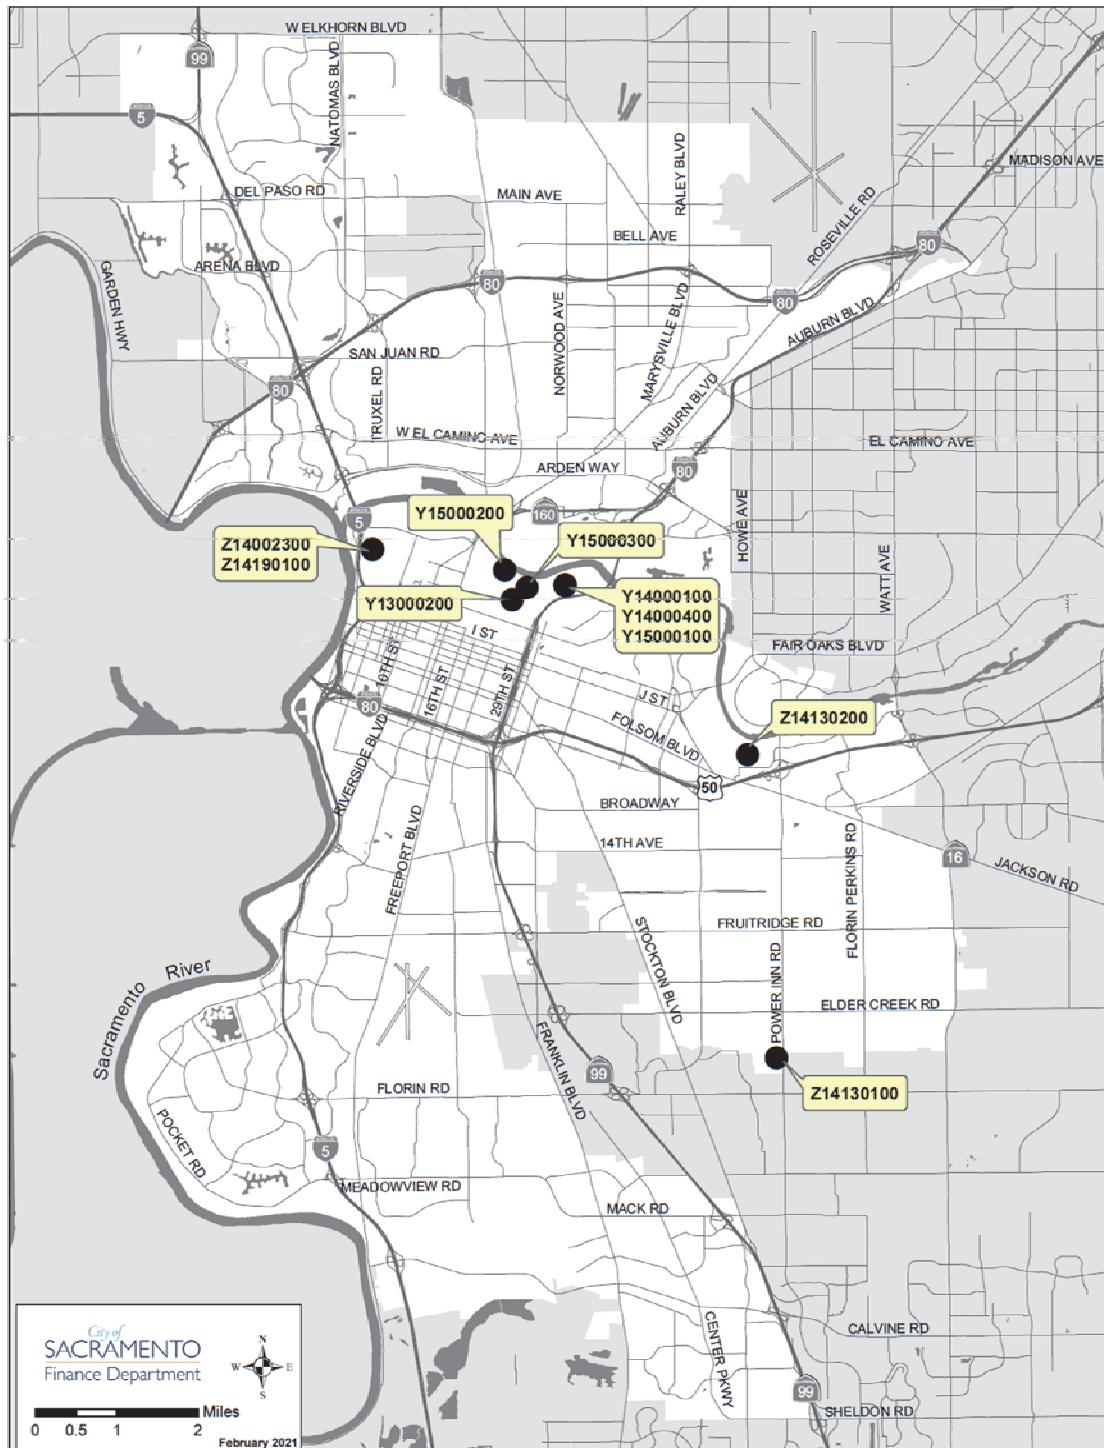

Storm Drainage

Drainage Sump Rehabilitation and Replacement Program (W14130600, \$2.9 million)

Due to Sacramento's flat topography, drainage pump stations are needed to pump rainfall runoff from neighborhoods to streams, creeks, and rivers. This program was established to fund electrical, mechanical, and civil replacement or rehabilitation projects at the more than 105 drainage pump stations that the City operates and maintains. The current budget is primarily to replace pump outfalls in major levees that have severely corroded or failed and to improve pump station security. These are critical projects needed to keep pump stations operable at maximum capacity and to protect area levees.

2021-2026 Approved Capital Improvement Program

FY2021/22 Capital Projects and Programs Non-site specific or multi-site projects are not shown

Project Name BASE CIP CONTINGENCY DRAINAGE PROGRAM**Project Description** Reserve for unforeseen capital needs.**Project Objectives** Facilitate completion of capital projects by reserving appropriations for minor overruns and provide a source of funds for small projects that could not be anticipated before the start of the fiscal year.**Existing Situation** It is prudent to maintain a capital program reserve, renewed annually as needed, as a source of funding should the need arise to provide additional funding for an existing project due to previously unforeseen conditions.**Operating Budget Impact** None.

Project Name **DRAINAGE COLLECTION SYSTEM REPAIR AND REHABILITATION PROGRAM**

Project Description This program will rehabilitate elements of the storm drainage system including storm drains, leads, manholes, and mainline pipe by trenchless and replacement methods.

Project Objectives To protect public health and safety through maintenance of the City's storm drain system including drain inlets, leads, manholes, and mainline pipe through trenchless or traditional replacement means.

Existing Situation The drainage collection system is comprised of various elements that in time become old, deteriorated, and difficult to repair and/or maintain.

Operating Budget Impact None.

Project Name WASTEWATER COMBINED SEWER SYSTEM CAPITAL PROGRAM

Project Description This project acts as the reserve fund for the Clean Water State Revolving Fund (CWSRF) loans and consists of improvement projects, improving the Combined Sewer System (CSS), and replacing and rehabilitating defective pipes, pumps, and infrastructure.

Project Objectives Improve reliability, reduce CSS overflows to the river, reduce surcharging of wastewater to streets and properties during storms, and comply with National Pollution Discharge Elimination System permit requirements by the U.S. Environmental Protection Agency.

Existing Situation This project provides funding required for the CWSRF loans (Resolution No. 98-023) as follows: (1) U.C. Medical Center Regulation Storage Project, Loan C-06-4652-110; (2) Land Park Sewer Relief Project, Loan C-06-4685-110; (3) Sump 1/1A Project, Loan C-06-4441-110; (4) Sump 2/2A Improvement Project, Loan C-06-4441-120; and (5) Tahoe Park/Broadway Parallel Sewer Project, Loan C-06-4653-110.

Operating Budget Impact None.

Project Name SEWER REPAIRS PROGRAM

Project Description Provide on-call contracts for unanticipated sewer additions, repairs, or replacements in various locations throughout the City.

Project Objectives Provide Operations and Maintenance staff with cost-effective resources to quickly repair defects identified in the sewer collection system that they do not have the capacity to perform.

Existing Situation During the year, it may become necessary to resolve an unanticipated failure in the sewer collection system that cannot be corrected by existing resources.

Operating Budget Impact None.

Project Name **WASTEWATER FLOW METERING PROGRAM**

Project Description This project calibrates existing flow meters at wastewater sumps citywide for precision and provides for constructing flow meters at unmetered sumps.

Project Objectives Protect public health and safety by reducing wastewater overflows by ensuring reliable function of the wastewater system.

Existing Situation Many of the City's sewer pump stations do not have flow meters so sewer flows are estimated by pump run time. As a result, inefficient pump operation is difficult to detect and can lead to system surcharge and sewer outflows.

Operating Budget Impact None.

Project Name **FACILITY ELECTRICAL REHABILITATION PROGRAM**

Project Description Replace electrical equipment at various City facilities in the wastewater and Combined Sewer System (CSS).

Project Objectives Protect public health and safety by improving the reliability of these facilities.

Existing Situation Existing electrical equipment is deteriorated and antiquated, making repair difficult due to the lack of available parts. Failure of this equipment can result in wastewater backing up into streets and properties.

Operating Budget Impact None.

Project Name CANNON-SCOLLAN LANDFILL CLOSURE PROGRAM**Project Description** Closure of the landfill site located directly west of the 28th Street Landfill and south of the Dellar Landfill.**Project Objectives** Conduct a comprehensive clean up and abatement effort to correct the waste encroachment and eliminate potential liability from the nearby private property owners. Complete closure plan, grade site to drain, and commence post-closure monitoring.**Existing Situation** A recent survey of the Cannon-Scollan Landfill revealed that waste encroached property lines to the south and west and has affected several private property parcels.**Operating Budget Impact** None.

Project Name LANDFILL SITE CLOSURE PROGRAM

Project Description California law requires that funding be set aside each year to ensure that there will be sufficient resources to cover future closure activities.

Project Objectives Keep the closed City landfill in compliance with the approved final closure/post-closure plan.

Existing Situation Landfill closure has been completed; however, as part of the annual 30-year post-closure care, annual funds must be provided for post-closure maintenance.

Operating Budget Impact None.

Project Name GROUNDWATER REMEDIATION PROGRAM

Project Description State-mandated financial obligations for the landfill's groundwater corrective action program require owners of solid waste facilities to establish financial assurance to cover any reasonably foreseeable release into the groundwater.

Project Objectives Satisfy state-mandated financial assurance requirements for California Health and Safety Code Title 23, Articles 5 and 10. Control/mitigate groundwater contamination beneath the City's landfill.

Existing Situation The existing landfill has affected the shallow groundwater aquifer directly under the site. Documented releases were described in the June 1987 Solid Waste Assessment Test Report.

Operating Budget Impact None.

Project Name **28TH STREET LANDFILL REGULATORY COMPLIANCE UPGRADES PROGRAM**

Project Description Comply with the Regional Water Quality Control Board (RWQCB), approved closure/post-closure plan, corrective actions for the RWQCB's clean up and abatement order, and new requirements from the Sacramento County Environmental Management Department.

Project Objectives Enhance methane gas extraction capabilities by expanding the gas collection facilities, installing a new, high-efficiency flare, and allowing for future expansion into adjacent legacy landfills as necessary pending future regulatory requirements.

Existing Situation Review indicated that groundwater beneath the 28th Street landfill and adjacent properties may, on occasion, come within five feet of waste, but only during very high stages of flow in the American River (less than 10% of the time).

Operating Budget Impact None.

Project Name RIVERFRONT PARCEL 31 REMEDIATION EFFORTS PROJECT

Project Description Comply with the Local Enforcement Agency (LEA) requirements to further investigate the nature and extent of waste on this parcel. The exact mitigation required is to be determined.

Project Objectives If necessary and required by Local or State regulators, to properly close this abandoned site as per the minimum standards of California State Regulations - Title 27.

Existing Situation The City acquired the Blue Diamond parcel approximately 10 years ago and recently learned that waste had been disposed at the parcel. As such, the City is now being regulated by the LEA of the Sacramento County Environmental Management Department.

Operating Budget Impact None.

Project Name BELL MARINE LANDFILL CLOSURE PROGRAM

Project Description Closure of landfill site located directly west of the 28th Street Landfill and Sutter's Landing Corporation Yard.

Project Objectives To comply with the Local Enforcement Agency (LEA) requirements to further investigate the nature and extent of waste in the landfilled areas of Bell Marine, followed by a complete closure plan, grade site to drain, and commence post-closure monitoring.

Existing Situation The exact mitigation required is still to be determined. The City, however, is responsible for 75% of the closure costs, as defined in Settlement Agreement 2019-0240 with Bell Marine Company.

Operating Budget Impact None.

Project Name DRINKING WATER QUALITY PROGRAM

Project Description Provide for drinking water regulatory efforts that encompass water production through the water treatment plants, wells, and reservoirs; and distribute this water to ratepayers.

Project Objectives Comply with drinking water regulatory requirements of the California Surface Water Treatment Rule, and California Code of Regulations Title 22.

Existing Situation The City conducts special studies and testing to ensure protection of water quality including required monitoring, tracking upcoming regulations, performing research related to water quality changes, and collecting information on special topics.

Operating Budget Impact None.

Project Name WELL REHABILITATION PROGRAM

Project Description Rehabilitate and replace dilapidated infrastructure at the City potable groundwater facilities.

Project Objectives Improve City's water supply reliability and groundwater extraction capability. A reliable groundwater supply will optimize conjunctive management of the City's water supply and will allow the City to participate in future drought banking programs and water transfers.

Existing Situation Most groundwater wells in the City were constructed in the 1950s, and require extensive rehabilitation or repairs on the mechanical equipment, electrical switchgear, and well casings. Failing wells require replacement wells to be constructed and the existing wells to be abandoned.

Operating Budget Impact None.

Project Name FLORIN RESERVOIR BACKUP ENGINE PROGRAM

Project Description Design and construct various improvements at Florin Pump Station including air quality, improved communications, flow meter replacement, pump redundancy, programming improvements, and improved safety and reliability of station.

Project Objectives Complete necessary improvements for reliability of pump station and redundancy needs for maintenance, including needed safety upgrades.

Existing Situation The existing natural gas engines fail and are taken out of service for maintenance on a regular basis. There is insufficient booster pumping capacity to maintain system pressure in the water system when an engine is taken out of service.

Operating Budget Impact None.

Project Name FAIRBAIRN WATER TREATMENT PLANT REHABILITATION PROGRAM

Project Description Rehabilitate the E.A. Fairbairn Water Treatment Plant (FWTP) structures constructed in 1964, including flocculation/sedimentation basin, filters, high lift pump station, and replacement of filter media.

Project Objectives Make available to the City a reliable 100-120 million gallons per day of water treatment capacity at the E. A. Fairbairn Water Treatment Plant.

Existing Situation In 2009, Carollo Engineering prepared a study that evaluated the condition of the City's water treatment facilities that identified extensive concrete spalling and cracking in critical treatment process structures at the FWTP that should be rehabilitated.

Operating Budget Impact None.

Project Name TRANSMISSION MAIN REHABILITATION PROGRAM

Project Description Replace existing water transmission mains (pipes larger than twelve-inch diameter) that have significant maintenance issues with new reliable mains that meet City standards.

Project Objectives Ensure the reliability of the water distribution system and reduce potential damage from transmission main breaks.

Existing Situation This pipeline replacement program replaces water transmission mains that have exceeded their useful lives. Older mains typically require additional maintenance, reduce system reliability, and no longer meet City standards.

Operating Budget Impact None.

Project Name RESERVOIR REHABILITATION PROGRAM

Project Description Rehabilitation work at water reservoirs, including booster pump stations, which may include patching interior and exterior coatings, improvements to cathodic protection systems, pump and motor improvements, electrical upgrades, structural repairs, etc.

Project Objectives Improve the water system reliability and extend useful lives of the City's reservoirs.

Existing Situation Reservoirs range in age from several years old to just under one hundred years old, and the booster pump stations range in age from several years old to just over fifty years old. These assets require upgrades and modifications to comply with regulatory requirements.

Operating Budget Impact None.

Project Name SECURITY AND EMERGENCY PREPARATION PROGRAM

Project Description Provide security improvements to key Water, Drainage, and Wastewater facilities as recommended in the DOU Security Master Plan.

Project Objectives Implement the Department of Utilities' Security Master Plan recommendations, as accepted by City Council in September 2014.

Existing Situation A security evaluation was completed by consultants in 2013 that provided a comprehensive road map to bring the Department of Utilities' security up to best management practices, including recommendations for fixing potential security vulnerabilities.

Operating Budget Impact None.

SECTION – J

Description of Major Funding Sources

MAJOR FUNDING TYPES

There are four types of funds in the five-year CIP: General, Special Revenue, Capital Projects, and Enterprise & Internal Services. Each type may have restrictions and is described in the following table.

Fund # begins with a...	Fund Type	Fund Type Description/Restrictions
1	General	The City's principal operating fund that is supported by taxes and fees and which, generally, has no restrictions on its use.
2	Special Revenue	Special revenue funds are used to account for activities supported by specific taxes or other revenue sources. These funds are generally required by statute, charter, or ordinance to finance specific governmental programs. Examples include Assessment or Community Facility Districts that provide services, as well as Measure A and other public works funding sources.
3	Capital Projects	Capital projects funds are used to account for resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets. Examples include General Fund bond proceeds, Assessment or Community Facility District bond proceeds, and developer impact fees.
6	Enterprise & Internal Service	Enterprise funds are used to account for self-supporting programs that provide services on a user-fee basis to the general public. Internal service funds are established to account for goods or services provided by one department within the City to other departments on a cost reimbursement basis.

MAJOR FUNDING SOURCES

Three funds provide more than half of the funding for the five-year CIP: the General Fund (Fund 1001), the Federal Capital Grants Fund (Fund 3703), and the Water Fund (Fund 6005). Federal Capital Grants for transportation projects have been, or will be, applied for in FY2021/22; reliance on this outside source has become increasingly important to leverage local resources. The Water Fund provides critical infrastructure repairs for the City's water infrastructure. Due to the ongoing pandemic, the General Fund and the Measure U Fund have been prudently budgeted in alignment with the adopted budget policies and guidelines.

DEBT

The Debt Management Policy (Resolution No. 2019-0281) provides the framework for debt issuance to achieve the most effective financing solutions for needed capital improvements. The 2021-2026 CIP does not include the use of any capital debt.

Fund 1001

General Fund

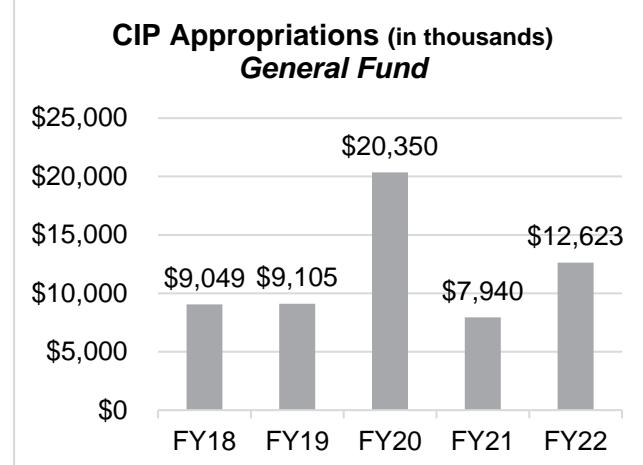

The General Fund is the City's principal governmental operating fund, which supports general government programs including Charter Offices (City Attorney, City Auditor, City Clerk, City Manager, and City Treasurer); City Council; Fire; Police; Youth, Parks, and Community Enrichment; and other support and operating departments. The General Fund revenues include all monies not legally (or by sound financial management) accounted for in another fund. General Fund revenues include property taxes, sales taxes, licenses, permits, fines, forfeitures, penalties, charges for services, and miscellaneous revenues (such as interest).

Restrictions/Legal Mandates

General Fund revenues are available for any use as directed by the City Council. There is no specific ordinance or legislation directing the use of funds.

Current and Previous Allocations

The General Fund provides annual funding to various General Government Program projects, including the City Facility Reinvestment Program (C13900000), Facility ADA Compliance Program, (C13000400), and Fire Apparatus Program (F12000300).

Capital funding budgeted through February 2021: \$172,161,675

Funds 2002 and 2036

Gas Tax and Road Maintenance & Rehabilitation Account Funds

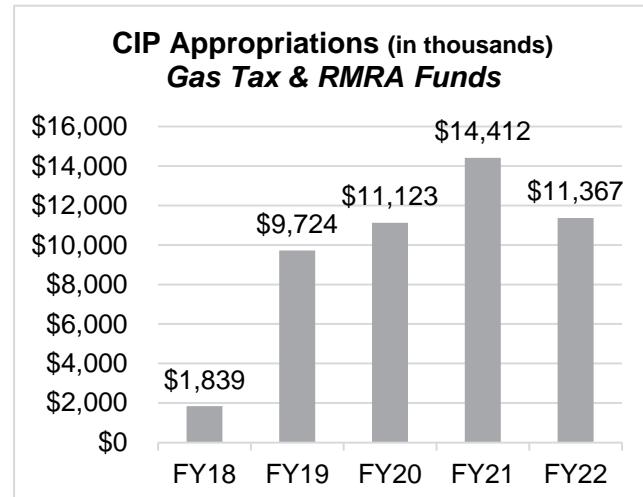

Gas Tax and Road Maintenance and Rehabilitation Account (RMRA) Funds largely derive from the City's apportionment of the state excise tax on fuel used to propel a motor vehicle. Senate Bill 1 (SB 1), the Road Repair and Accountability Act, indexed the fuel tax to inflation and increased the fuel tax to establish the RMRA. Effective July 1, 2020, the tax rate on gasoline was increased to \$0.505 per gallon, of which \$0.377 is allocated through the State's Highway Users Tax Account (HUTA) and used for Gas Tax funding (Fund 2002), and the remaining \$0.128 is allocated through the State's Road Maintenance and Rehabilitation Account (RMRA) and used for RMRA funding (Fund 2036). Effective July 1, 2020, the tax rate for diesel fuel was increased to \$0.385 per gallon, of which \$0.171 is used for Gas Tax funding (Fund 2002), and half of the remaining \$0.214 is used for RMRA funding (Fund 2036). RMRA funding is also supplemented by vehicle registration taxes. The California Department of Tax and Fee Administration administers the tax, and the State Controller distributes the revenues from the tax.

Restrictions/Legal Mandates

California Streets and Highways Code Sections 2103, 2106, 2107, and 2107.5 limit the use of the gas tax to research, planning, construction, improvement, maintenance, and operation of public streets and highways (and related pedestrian and bike facilities) or public transit guideways. California Streets and Highways Code Section 2030 limits the use of RMRA funding to road maintenance, safety projects, railroad grade separations, complete street components (active transportation, transit, pedestrian & bicycle), and traffic control devices. In order to receive RMRA funds, each local agency must continue to meet a prescribed level of "maintenance of effort," meaning that these funds cannot be used to supplant prior expenditure levels for transportation purposes historically allocated by the City.

Current and Previous Allocations

Gas Tax funds largely support street maintenance and traffic engineering operations. Past programs receiving Gas Tax funds include the Street and Bikeway Overlay and Seals Program and the Public Rights-of-Way Accessibility Program. Current allocations include the Transportation Corridor Program, the Bridge Maintenance Program, and the Active Transportation Safety Program. The current allocation of RMRA funds will be used for road maintenance in the Transportation Corridor Program.

Capital funding budgeted through February 2021: \$27,855,052

Fund 207

Major Street Construction Fund

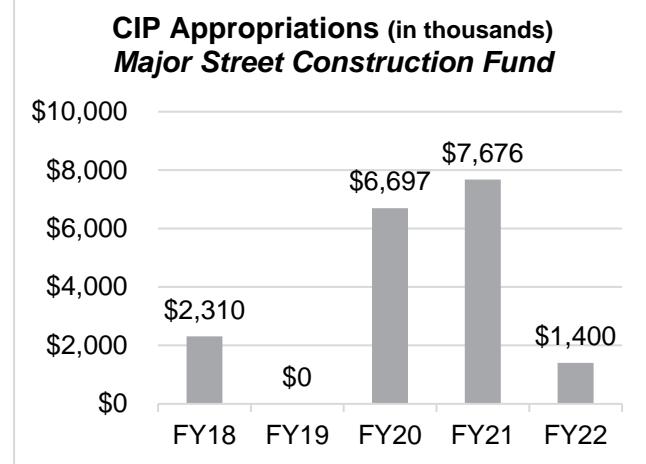

The Major Street Construction Fund derives revenues from a tax imposed by the City in 1978 on all building valuations for new construction or for alterations that add square footage to existing buildings.

Restrictions/Legal Mandates

City Code Chapter 3.36 restricts the use of these funds to construction, replacement, or alteration of roadways, bridges, traffic control, and lighting on major streets; use for maintenance and/or operations is not permitted nor is disaster reconstruction.

Current and Previous Allocations

Major street construction funding has been used exclusively for transportation projects, specifically the construction of major street-related improvements. This year, most of the funding will be used to provide matching local funding for federal grants. In addition, this fund has been used to support private development within specified Finance Plans for construction of roads of more than two lanes. As a result, revenues are estimated to be reduced by \$500,000 to \$1.0 million annually to account for these commitments.

Capital funding budgeted through February 2021: \$25,040,980

Fund 2008

Street Cut Fund

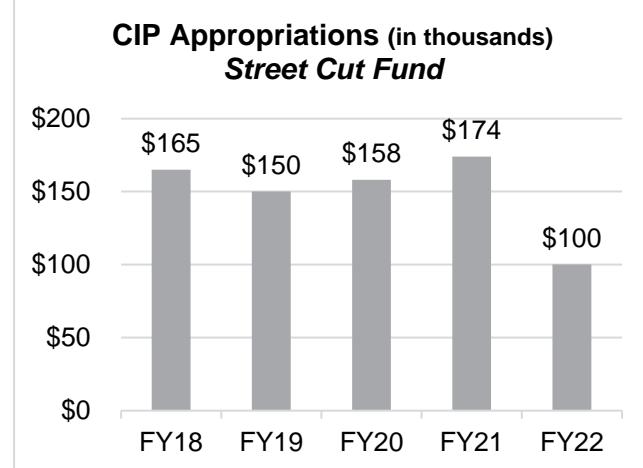

The Street Cut Fund accounts for fees collected from utility companies and City departments that cut or trench through city streets. The fee revenues are used to compensate the City for damage caused to the streets by offsetting the cost of future street repairs in the same “geographic area” as the cut that generated the fees. The City is in the process of updating this program.

Restrictions/Legal Mandates

City Code Section 12.12.140 restricts the use of Street Cut Funds to the same geographic area as the cut or trench that generated the fees.

Current and Previous Allocations

Street Cut Funds have been used exclusively for street repairs from trenching or cutting into city streets.

Capital funding budgeted through February 2021: \$107,177

Fund 2013

Transportation Development Act Fund

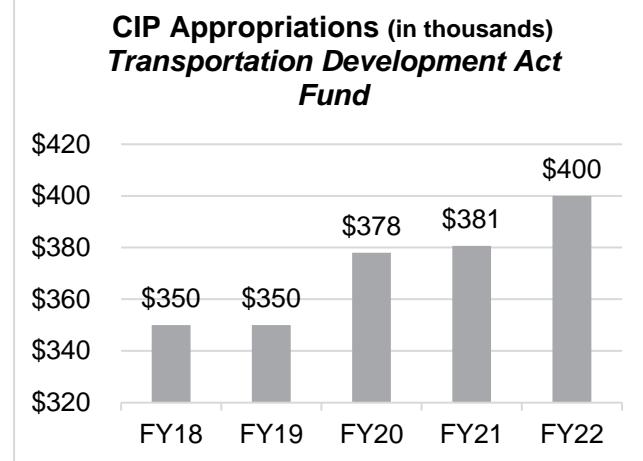

The Transportation Development Act (TDA) funds are used to account for receipts and disbursements of money allocated pursuant to the State of California TDA. These funds are allocated by population for transit use. The Sacramento Area Council of Governments (SACOG) administers the funds. The City of Sacramento's allocation is provided to the Sacramento Regional Transit District (SacRT). After administration fees are deducted, up to 2% of the available funds countywide may be set aside to be allocated for pedestrian and bicycle facilities. The City directly receives this 2% share by apportionment from SACOG. Traditionally these funds have been dedicated to bikeway facilities development and upgrades as well as bike trail maintenance.

Restrictions/Legal Mandates

The State of California TDA (Government Code Title III, Division 3, Chapter 2, Article II), restricts these funds to pedestrian and bikeway improvements (2%) or for community transit improvements (administered by SacRT).

Current and Previous Allocations

TDA funds have largely supported the maintenance and development of off-street bikeway projects.

Capital funding budgeted through February 2021: \$1,641,269

Fund 2016

Development Services Fund

This fund is comprised of developer funds received to account for major plan review and building permit projects, cyclical surplus plan review and building permit revenues, and environmental impact review projects.

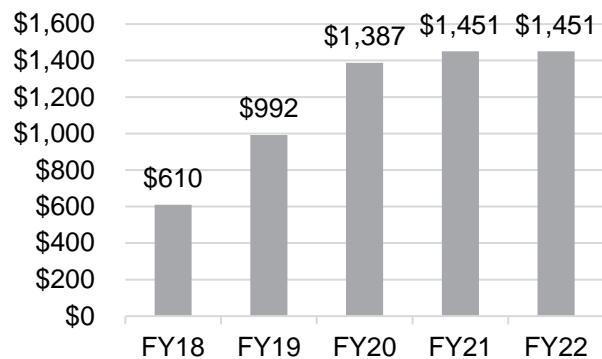

Restrictions/Legal Mandates

City Council Resolution No. 99-077 restricted the use of these funds to account for major plan review and building permit projects, cyclical surplus plan review and building permit revenues, and environmental impact review projects. In May 2015, a Development Services Contingency Reserve (DSCR) and Development Services Fund Management Policy was approved with Resolution No. 2015-0123. This established policies and procedures for the Development Services Fund to ensure that funds will be used for the management of development activities and to ensure adequate fund reserves will be available to address revenue shortfalls or an unforeseen recession in development activity.

Current and Previous Allocations

The fund has been used to support development-related initiatives and to advance monies for the General Plan update.

**CIP Appropriations (in thousands)
Development Services Fund**

Capital funding budgeted through February 2021: \$16,034,388

Funds 2026, 2038, and 2039

New Measure A Construction and Maintenance Funds

New Measure A Project Construction and New Measure A Project Maintenance Funds account for revenue generated from a one-half of one percent sales (to each fund) tax beginning April 1, 2009, through March 31, 2039. New Measure A also introduces and incorporates a countywide development impact fee program. Sales tax revenues and development impact fee revenues are allocated annually by percentage to specific programs according to Sacramento Transportation Authority (STA) Ordinance No. STA 04-01. The two New Measure A Construction programs mentioned below were comingled in Fund 2025 until February 2018. The New Measure A Construction Fund number was replaced with Funds 2038 and 2039 to make revenue and expenditure accounting clearer and more transparent.

Restrictions/Legal Mandates

The City is required to enter into an agreement with the Sacramento Transportation Authority (STA) to receive New Measure A funds and expend them exclusively on eligible programs. Local Transportation Authority and Improvement Act (Public Utility Code Division 19, Section 180000, and Revenue and Taxation Code, Section 7252.16) restricts the New Measure A Construction Funds, which has two program components affecting the city:

Traffic Control and Safety (Fund 2038): Traffic control system improvements, high priority pedestrian and vehicle safety projects, and emergency vehicle pre-emption systems)

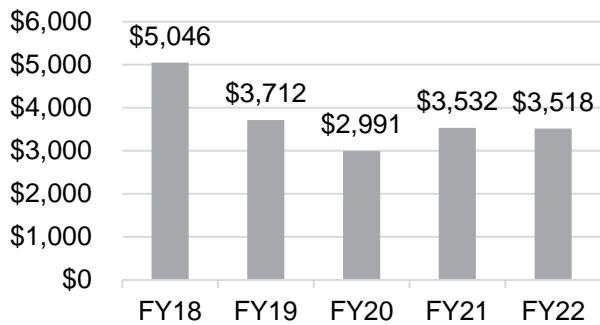

Safety, Landscaping, Pedestrian, and Bike Facilities (Fund 2039): Non-motorized, pedestrian, and bicycle safety improvements

New Measure A Maintenance (Fund 2026) is restricted to the preservation and safety of public streets and road rights-of-way, including road reconstruction and repair, bridge maintenance, streetscape, and lighting maintenance.

Current and Previous Allocations

New Measure A Funds will largely support the ongoing citywide programs, including the Active Transportation Programs, Vision Zero Safety Program, Traffic Operations Center Program, and maintenance programs. New Measure A Construction funding was allocated to Funds 2038 and 2039 beginning in FY2018/19.

CIP Appropriations (in thousands) *New Measure A Construction and Maintenance Funds*

Capital funding budgeted through February 2021: \$16,406,505

Fund 2035

Tree Planting and Replacement Fund

The Tree Planting and Replacement Fund was established by City Ordinance 2016-0026 on August 4, 2016, which was enacted for the purpose of the conservation of existing tree resources and to optimize the City's tree canopy coverage. Funding is collected from a fee charged for the loss of City and private protected trees within the City in-lieu of tree replacement, and from associated civil penalties.

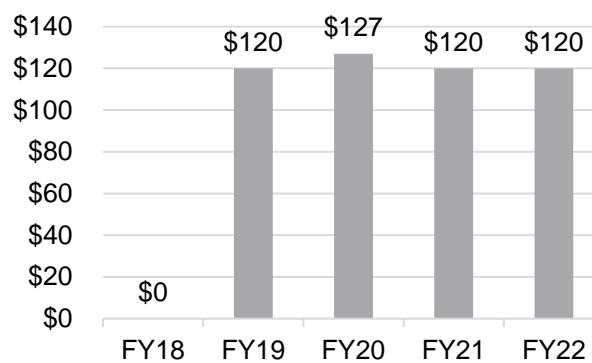

Restrictions/Legal Mandates

City Code Section 12.56.060.F mandates that fees collected shall be used only for tree planting (establishing new planting locations and support systems such as the installation of drainage) and preservation programs (creation of new woodland areas, under-plantings as part of a tree planting program, and other planting activities).

Current and Previous Allocations

Previous Tree Planting and Replacement funding has been deposited to the Tree Planting and Replacement Program (R15188500), and future allocations will also be programmed to this CIP.

CIP Appropriations (in thousands)
Tree Planting & Replacement Fund

Capital funding budgeted through February 2021: \$920,849

Fund 2232

Landscaping and Lighting District Fund

Established in 1989 in accordance with the Landscaping and Lighting Act of 1972, the Landscaping and Lighting District (L&L) Fund is for revenues generated from a citywide assessment district with assessments based on a series of benefit formulas established in 1989. Assessments are collected on an annual basis with property owners' property taxes. Funds are used for urban forestry operations, safety lighting, median maintenance, parks rehabilitation, street maintenance, and neighborhood lighting maintenance. The Landscaping and Lighting Act of 1972 allows cities, counties, and special districts to levy assessments for land purchase and the construction, operation, and maintenance of parks, tree maintenance, landscaping, lighting, traffic signals, and graffiti abatement.

Restrictions/Legal Mandates

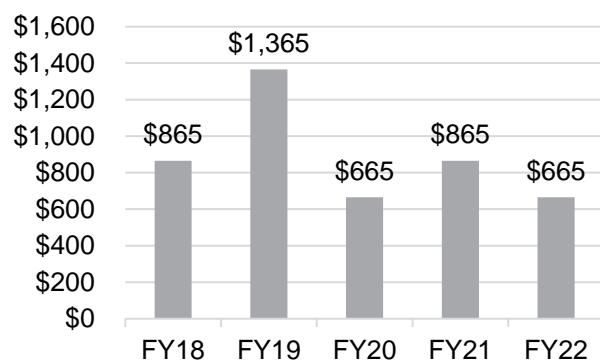

Adopted in 1989 (Resolution No. 89-600), California Streets & Highways Code Section 22500 et seq restricts the funds according to an assessment formula and the established District. Revenues are collected for specific expenditure categories, such as urban forestry, park maintenance, lighting, capital projects, and median maintenance. Funds are available for expenditure within the Community Planning Area originally assessed and should be used within the year allocated.

Current and Previous Allocations

L&L funds have largely supported landscaping, rehabilitation of park facilities and structures, lighting, and other park and recreational improvements.

Landscaping and Lighting Bonds of \$7.2 million were issued in FY1995/96 to finance capital improvements of parks. The debt service on these bonds is paid from the assessments, which expired after tax year 2016.

CIP Appropriations (in thousands) *Landscaping and Lighting Fund*

Capital funding budgeted through February 2021: \$6,584,417

Fund 2401

Measure U Fund

Approved in November 2012, the Essential Service Protection Measure (Measure U) authorized an additional one-half cent transaction and use tax for the City of Sacramento to become effective on April 1, 2013, and to remain effective for six years. In November 2018, Measure U was renewed and expanded to a full cent transaction and use tax for the City of Sacramento effective April 1, 2019.

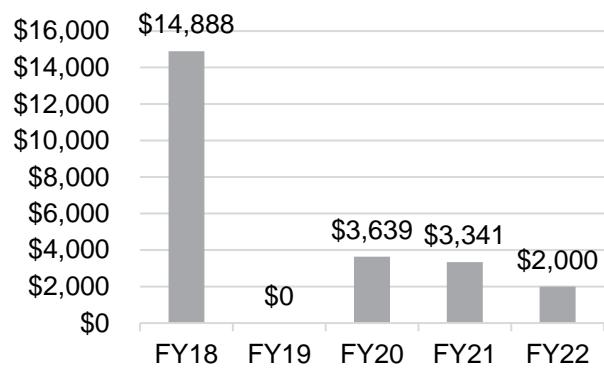

Restrictions/Legal Mandates

The first half-cent tax of Measure U was designated for the restoration and protection of essential City public safety services, including 911 response, police officers, gang/youth violence prevention, fire protection/emergency medical response, and other essential City services including park maintenance, youth/senior services, and libraries. In 2018, Sacramento voters renewed Measure U as a full one-cent tax. As a general tax, Measure U revenues are available for any use as directed by the City Council. As part of the approved measure, there are independent annual financial audits and a citizen oversight commission.

Current and Previous Allocations

Measure U funds have been allocated to enhance essential City core services.

**CIP Appropriations (in thousands)
Measure U Fund**

Capital funding budgeted through February 2021: \$42,268,152

Fund 2608

Marina Fund

The 475-berth Marina operates as a special revenue fund, and Marina revenues are derived predominantly from berth rental fees, fuel sales, equipment rental, and concession sales at the Sacramento Marina, located on the Sacramento River at Miller Regional Park.

Restrictions/Legal Mandates

In Resolution No. 2013-0156, the Marina Fund was changed from an enterprise fund to a special revenue fund. Special revenue funds are used to account for activities supported by specific taxes or other revenue sources whereas enterprise funds are self-sufficient.

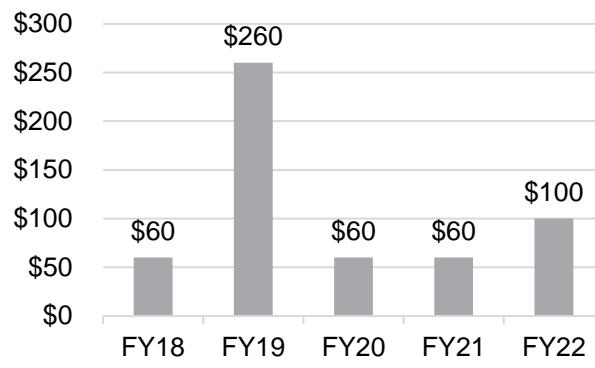

Cities have general authority to impose fees, sometimes called charges or rates, under the city's police powers as defined by Article XI, Section 7 or Article XIIIB, Section 8 of the California Constitution. There are no specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et seq.). Funds are restricted for use in Marina operations and capital improvements and may not exceed the estimated reasonable cost of providing services.

Other restrictions on the availability of this fund includes the repayment of the California Division of Boating and Waterways (DBW) loan of \$7.65 million for the North Basin Renovation in 1985 and \$9 million for the South Basin Renovation in 2005.

Current and Previous Allocations

Marina Funds support Marina operations and capital projects such as docking facility replacement, harbor dredging, and bank stabilization.

CIP Appropriations (in thousands)
Marina Fund

Capital funding budgeted through February 2021: \$1,000,960

Fund 3204

Park Development Impact Fee Fund

The Park Development Impact Fee is a revenue source approved by City Council in August 1999. This fund is comprised of fees collected from developers at the time a building permit is issued. The revenue must be used to benefit the residents from which the fee was collected. In 2004, an automatic annual adjustment for inflation was added to the ordinance to keep current with increasing construction costs. City Ordinance No. 2013-0017 aligned the ordinance with the 2010 census, the 2035 General Plan, and other chapters of the City Code.

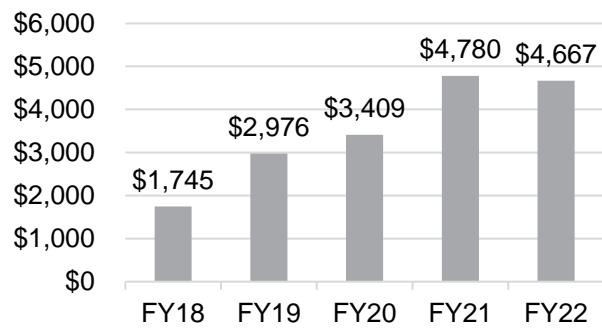

Restrictions/Legal Mandates

City Ordinance No. 2013-0017 restricts funds for recreational and park facilities to serve the residents of the area where the fees were paid.

Current and Previous Allocations

The Park Development Impact Fee has largely supported new development and rehabilitation projects for parks and recreation. Prior to FY2013/14, funding was allocated by Community Plan Areas. Funds are now allocated by City Council District.

CIP Appropriations (in thousands)
Park Development Impact Fee Fund

Capital funding budgeted through February 2021: \$26,925,113

Fund 3206

North Natomas Financing Plan Public Facilities Fee Fund

This Public Facility Fee (PFF) was established as the North Natomas Community Improvement Fund with the adoption of the North Natomas Financing Plan (NNFP). The plan was first approved in 1994 and was last updated in 2005.

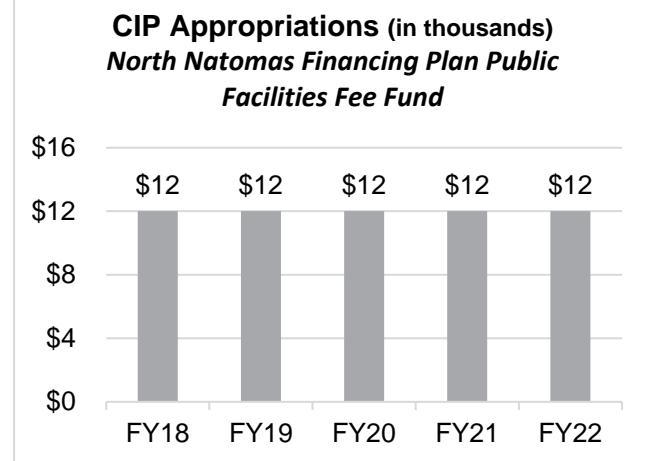

The PFF area includes the entire North Natomas Community Plan. This PFF will ultimately fund \$209.1 million dollars in public improvement facilities. These include a fire station, police sub-station, a community center library, an aquatics center, shuttles, bikeways, freeway improvements, landscaping, major roads, bridges, and signals. Payment of the PFF is required of all private development projects in North Natomas. The impact fee is structured to ensure that basic infrastructure is in place when needed for the development; the cost of major infrastructure is distributed equally among the property owners; and each developer pays a fair-share for necessary infrastructure.

Restrictions/Legal Mandates

City Ordinance No. 95-058 restricts these funds as specified in the NNFP. Resolution No. 2014-0179, Section 7, established this fund and prior allocations were moved to this fund. The PFF was split into five funds with Resolution No. 2014-0179.

Current and Previous Allocations

This fee has been spent in accordance with the NNFP.

Capital funding budgeted through February 2021: \$18,395,641

Funds 3702 and 3703

Capital Grant Funds

Capital Grant Funds account for various grants received from developers, the state, the federal government, and other agencies that are designated to be used for specific projects or purposes. Each dollar spent must be accounted for and is audited to assure that the monies were spent for the project intended.

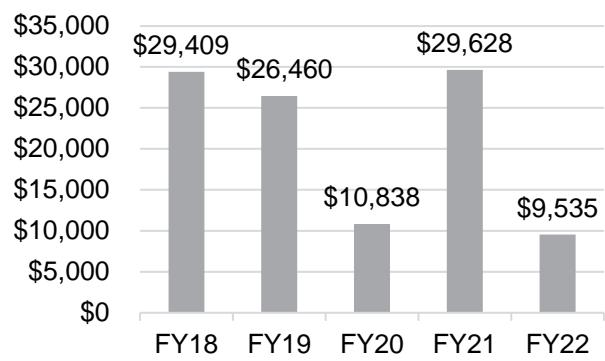

Restrictions/Legal Mandates

Funds are restricted to the specific project or purpose for which the grant was awarded or as designated in the development agreement. There is no specific ordinance or legislation directing the use of Capital Grants Funds. Granting agencies that allocate funds to the City for capital projects administer any legal or administrative requirements specific to each grant.

Current and Previous Allocations

Capital Grants Funds have largely supported bikeways, street improvements, and streetscape enhancements, as well as parks and utilities projects.

CIP Appropriations (in thousands)
Capital Grant Funds

Capital funding budgeted through February 2021: \$82,288,852

Fund 6001

Water Development Fee Fund

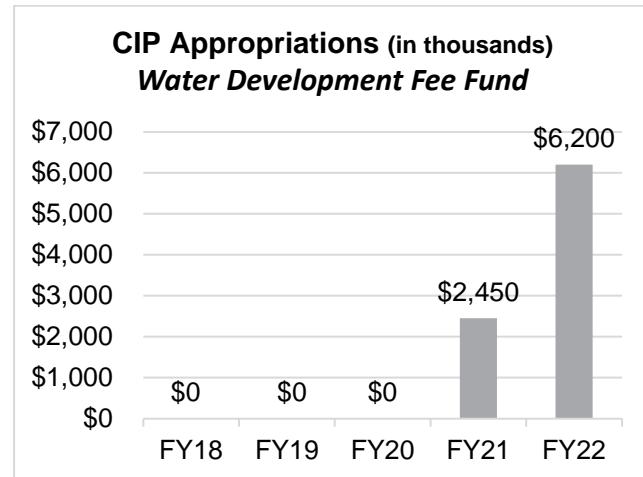

The Water Development Fee Fund is used to recover capital costs of the City's new water diversion, treatment, storage, and distribution facilities to support new development. Revenues are generated from impact fees paid by developers and others whose projects add to the demand on the water production and delivery systems.

Restrictions/Legal Mandates

Cities have general authority to impose fees, sometimes called charges or rates, under the City's policy powers as defined by Article XI, Section 7 or Article XIIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000et seq). Impact fees (i.e. connection fees for water utilities) collected into the Water Development Fee Fund are collected on projects that mitigate the impact of additional demand on the water production or water distribution systems.

Current and Previous Allocations

Water development fees have supported projects to increase the production or improvement of the water supply or expansion of the transmission main system.

Capital funding budgeted through February 2021: \$30,023,647

Fund 6004

Parking Fund

The Parking Fund provides for the operation, maintenance, and improvements of City-owned parking facilities. Parking Fund revenues are from parking and retail lease charges within off-street parking facilities. These revenues are then used to pay for parking facility operations, capital improvements, and new facility development.

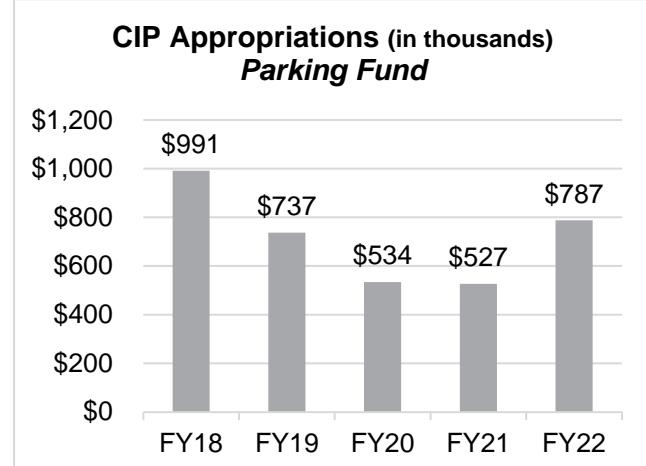

Restrictions/Legal Mandates

Cities have general authority to impose fees, sometimes called charges or rates, under the City's police powers as defined by Article XI, Section 7 or Article XIIIIB, Section 8 of the California Constitution. There are no specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et seq.). The Parking Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services.

Current and Previous Allocations

Parking funds have mainly supported parking projects. Recently completed projects were focused on structural repairs to City-owned parking facilities, cooling tower replacement, and upgrading the parking access and revenue control system to include the latest technological innovations. Active projects include tenant improvements and safety enhancements.

Parking revenues have been significantly impacted by the ongoing pandemic. Staff will continue to assess the Parking Fund and recommend program adjustments for Council consideration should revenue estimates changes significantly.

Capital funding budgeted through February 2021: \$36,346,544

Fund 6005

Water Fund

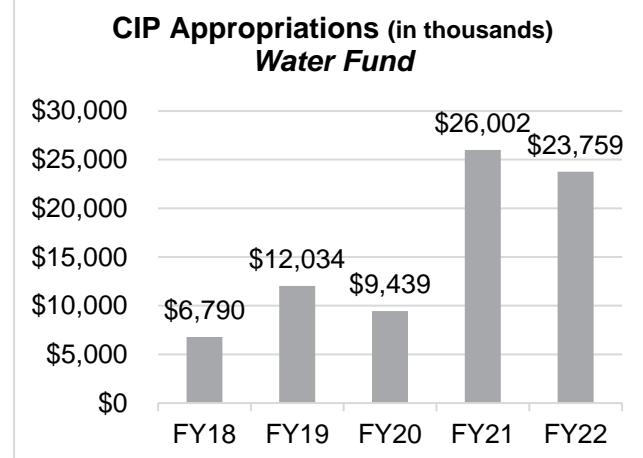

The Water Fund is used to account for the activities associated with the production, distribution, and transmission of potable water by the City to its users. The Water Fund supports both the capital and operating costs of providing potable water throughout the city including production, treatment, and distribution systems. Revenues are generated by user fees, interest earnings, development fees, tap sales, and reimbursements from other entities for service performed by or paid by the fund.

Restrictions/Legal Mandates

Cities have general authority to impose fees, sometimes called charges or rates, under the city's police powers as defined by Article XI, Section 7 or Article XIIIB, Section 8 of the California Constitution. There are no specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et seq.). The Water Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

Current and Previous Allocations

Water funds have largely supported projects in maintaining a healthy water supply system in conjunction with balancing funding and resources to support a comprehensive infrastructure maintenance and rehabilitation program and maintaining the water system in a manner that balances level of service with system-wide projects throughout the City.

Capital funding budgeted through February 2021: \$108,596,819

Fund 6006

Wastewater Fund

The Wastewater Fund accounts for the maintenance, repair, and replacement of facilities for collecting, conveying, and pumping sanitary and combined sewage to the major interceptor sewers of the Regional Sanitation District. User fees finance operating costs and capital improvements.

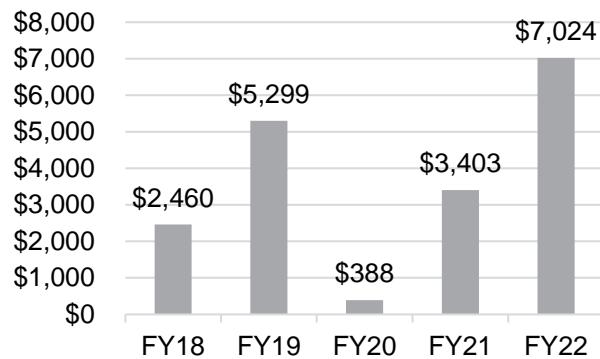

Restrictions/Legal Mandates

Cities have general authority to impose fees, sometimes called charges or rates, under the city's police powers as defined by Article XI, Section 7 or Article XIIIIB, Section 8 of the California Constitution. There are no specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et seq.). The Wastewater Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

Current and Previous Allocations

Wastewater funds have largely supported the combined sewer system, separated sewer systems, sumps, two treatment plants, and wastewater projects such as repairing, rehabilitating, and improving its wastewater infrastructure, as well as maintaining the system in a manner that balances system-wide projects throughout the City.

**CIP Appropriations (in thousands)
Wastewater Fund**

Capital funding budgeted through February 2021: \$40,341,431

Fund 6007

Solid Waste Fund

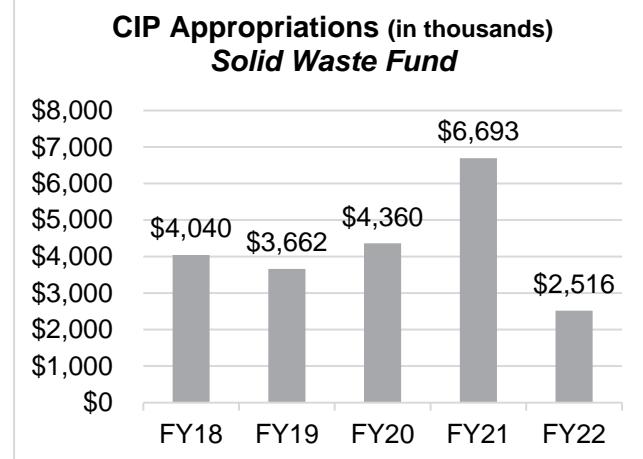

The Solid Waste Fund accounts for the operation, maintenance, and related capital improvements of the City's refuse collection and disposal services as well as for landfill closure. In addition, garden refuse, street sweeping, recycling, and a variety of community service programs are provided from this fund. Services include street sweeping as well as the collection of garbage, green waste, household hazardous waste, and recycling. Revenues are generated from user fees.

Restrictions/Legal Mandates

Cities have general authority to impose fees, sometimes called charges or rates, under a city's police powers as defined by Article XI, Section 7 or Article XIIIIB, Section 8 of the California Constitution. There are no specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et seq.). The Solid Waste Fund is an Enterprise Fund. Generally, revenues are to be used to offset Enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

Current and Previous Allocations

Solid Waste funds have largely supported solid waste projects such as maintenance, operations, and vehicle needs.

Capital funding budgeted through February 2021: \$31,700,070

Fund 6010

Community Center Fund

The Community Center Fund, which accounts for the operation of the SAFE Credit Union Convention Center, the SAFE Credit Union Performing Arts Center, and the Sacramento Memorial Auditorium, is supported mainly by the transient occupancy tax (TOT), facility user fees, and interest earnings. The TOT is a tax charged to individuals who occupy a room(s) in a hotel, motel, etc. User fees include facility rental fees, equipment, and service fees.

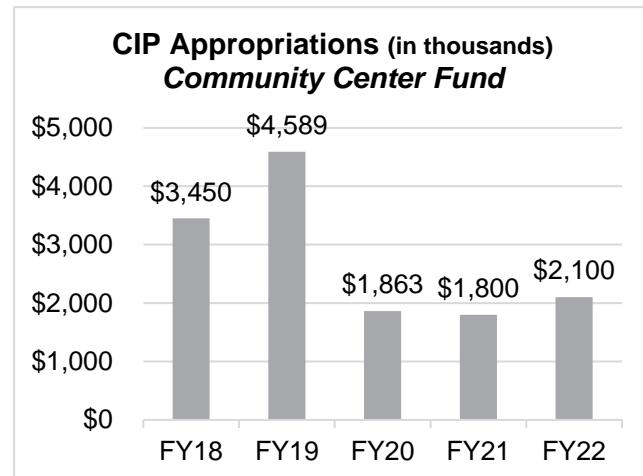

Restrictions/Legal Mandates

Revenue and Taxation Code, Sections 7280 and 7281, and City Ordinance 3.28 restrict these funding sources to support Community Center Complex operations, capital requirements, and its debt service.

Current and Previous Allocations

Community Center funds have supported projects from these venues including the purchase/replacement of lighting at the Memorial Auditorium, needs assessment and initial design for the SAFE Credit Union Performing Arts Center renovation, and repair/upgrade services to the freight elevator at the SAFE Credit Union Convention Center.

TOT revenues have been significantly impacted by the ongoing pandemic. Staff will continue to assess the Community Center Fund and recommend program adjustments for Council consideration should revenue estimates change significantly.

Capital funding budgeted through February 2021: \$28,746,469

Fund 6011

Storm Drainage Fund

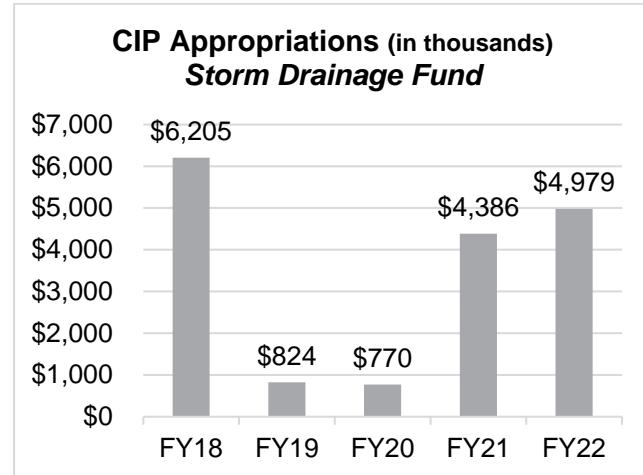

The Storm Drainage Fund is an Enterprise Fund, which is self-supporting through fees and charges to the consumers. The fees collected for storm drainage are used to account for the activities and maintenance of the City's surface drainage system and 105 storm-pumping stations. Revenues are generated through user fees and interest earnings.

Restrictions/Legal Mandates

Cities have the general authority to impose fees, sometimes called charges or rates, under the City's police powers as defined by Article XI, Section 7 or Article IIIB, Section 8 of the California Constitution. There are specific procedures for fee and rate adoption (Government Code Sections 54954.6 and 66000 et. seq.). The Storm Drainage Fund is an Enterprise Fund. Generally, revenues are to be used to offset enterprise operations and improvements and may not exceed the estimated reasonable cost of providing these services, plus overhead.

Current and Previous Allocations

Storm Drainage funds have largely supported Combined Sewer System and Storm Drainage projects such as repairing, rehabilitating, and improving its storm drainage infrastructure, as well as maintaining the system in a manner which balances system-wide projections in individual drainage basins.

Capital funding budgeted through February 2021: \$17,924,052

Fund 6501

Fleet Management Fund

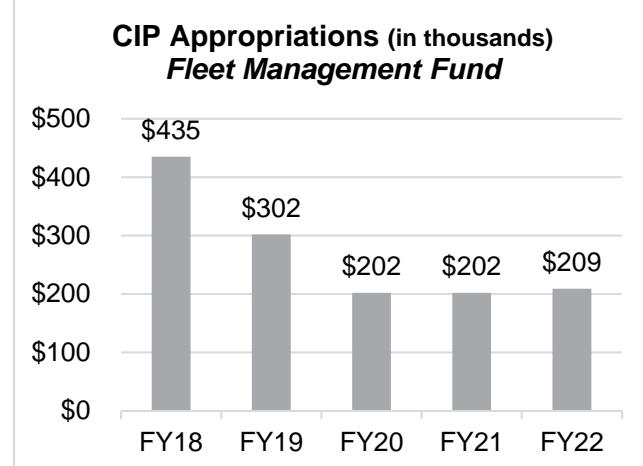

The Fleet Management Fund was established to finance and account for services and commodities furnished by Fleet Services to other departments. Services and commodities, supplied exclusively to other departments include the maintenance, repair, fueling, and replacement of the City's vehicular equipment. This fund receives its revenue from charges to other City organizations for services received.

Restrictions/Legal Mandates

There is no specific ordinance or legislation directing the use of funds. Funds are to be used for fleet operations, fleet replacement, and fleet facility improvements.

Current and Previous Allocations

Fleet Management funds have largely supported repair/remodel and technology projects. Some of the larger projects include: underground fuel storage and support, 24th Street City Corporation Center maintenance, fleet facilities, and fleet management technology upgrades.

Capital funding budgeted through February 2021: \$8,500,542

GLOSSARY

Americans with Disabilities Act of 1990 (ADA): A federal law providing for a wide range of protection to individuals with disabilities ranging from prohibitions against discrimination in employment to specific requirements for modifications of public facilities and transportation systems.

Appropriation: An authorization by the City Council, which permits officials to incur obligations and expend City resources for a specific purpose within a fiscal year.

Assessment District (AD): A separate local government agency formed to provide specific services. Property owners within the assessment district boundary pay the district in proportion to the benefits or services they receive.

Art in Public Places (APP): City Code Chapter 2.84.110 mandates that at least 2% of the total cost of eligible construction projects shall be expended for public art.

Budget: An annual financial plan consisting of proposed/approved expenditures for specified purposes and the proposed means for financing them.

Budget as of 2/2021: Reflects the total project funding from all funding sources (*due to timing, budget modifications after January of the fiscal year are not included*). In some situations, funds are moved into sub-CIP (child) projects to allow for better project management and accounting.

Capital Assets: Capital assets include land, improvements to land, easements, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible

or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period (fiscal year).

Capital Improvement: A specific undertaking involving procurement, construction, or installation of facilities or related equipment which improves, preserves, enhances or modernizes the City's provision of municipal services, has a useful life of at least five years, and costs in excess of \$20,000. CIPs may include construction or major repair of City buildings and facilities such as streets, roads, storm drains, traffic signals, parks, or community centers.

Capital Improvement Program (CIP), program: CIP programs have an ongoing funding source and are used for similar types of improvements that will be constructed at multiple locations based on the annual availability of funding. Locations are generally identified through master plans, planning guides, and replacement programs (e.g., the Groundwater Protection Program, Fire Apparatus Program, or Bikeway Program). Capital improvement programs are not site-specific, do not typically have a defined completion date and will contain "Program" in the title.

Capital Improvement Program (CIP), project: CIP projects are typically site specific, have a defined budget, and have a specific completion date.

Carryover: Appropriated funds remaining unspent at the end of the fiscal year, which can be retained by the project to which they were appropriated so that they may be expended in the next fiscal year.

Combined Sewer System (CSS): CSS is a type of sewer system that collects sanitary sewage and storm water runoff into a single pipe system. Combined sewers can cause serious water pollution problems due to combined sewer overflows, which consist of sending untreated diluted sewage to the river.

Of greater concern is an outflow during rainstorms in which diluted sewage spills onto streets and potentially onto properties. This type of sewer design is no longer used in building new communities, but many older cities continue to operate combined sewers.

Community Facilities District (CFD): The Mello-Roos Act (1982) allows any county, city, special district, school district, or joint powers authority to establish a CFD that allows for financing of public improvements (e.g., sewers, streets) and services. To establish a CFD, voters within the district must approve its creation by two-thirds.

Construction Engineering: Engineering work during the construction process. This ensures that projects are constructed in accordance with design parameters and specifications.

Continuing Project: A project that is not completed within the fiscal year initially budgeted. Unobligated or unspent project budget is carried forward and is available for expenditure in the next fiscal year.

Debt Financing: Issuance of bonds and other debt instruments to finance municipal improvements and services.

Debt Service: The costs of paying the principal and interest on borrowed money according to a predetermined payment schedule.

Defund: Any unspent balance for a completed project is zeroed out, added back into the originating fund balance, and is available for appropriation to another project.

Design Engineering: The process of identifying project options, developing a project scope, conducting feasibility analyses, and creating plans, specifications, and estimates for a capital improvement.

Detail Sheet: A summary page for a single project or program receiving new funding that details project need, objective, and budget.

electronic Citywide Accounting and Personnel System (eCAPS): The Enterprise Resource Management system implemented in 2007 and 2008 to manage all City financial, human resource, and payroll transactions.

Encumbrance: An amount of money committed for the payment of goods ordered but not yet received.

Enterprise Funds: A governmental facility or service that is self-supporting through fee and charge revenues. Used to account for the City's ongoing activities that are similar to those found in the private sector, e.g., solid waste management, marina, sewer utilities.

Estimated Balance as of 2/2021: Reflects the estimated balance remaining within a project based on actual expenses through February 2021.

Expenditures: The cost for personnel, materials, equipment, and contractual obligations required for a department to operate or for a capital program to be completed.

FileMaker Pro: The computer program utilized by the City to track and describe capital projects or programs. Each project or program funded within the five-year plan has a detail sheet provided in its corresponding Program Area Summary, e.g., the Facility ADA Compliance Program (C13000400) has detail sheet in the General Government Program Area, Section D. All active CIPs are listed in Index M (by Council District) and Index N (by CIP number).

Fiscal Year (FY): A time period designated by the City signifying the beginning and ending period for recording financial transactions. Sacramento has a fiscal year from July 1 through June 30.

Fund: A separate, independent accounting entity with a self-balancing set of accounts recording financial resources and transactions for specific activities.

Fund Balance: The total dollars remaining after current expenditures for operations and capital improvements are subtracted from the sum of the beginning fund balance and current resources.

General Fund (GF): The City's principal operating fund, which is supported by taxes and fees and which, generally, has no restrictions on its use.

General Plan: The policy document that outlines the acceptable land use within the city limits for both the current and long term. The General Plan is the foundation for establishing goals, purposes, zoning, and activities allowed on each land parcel to provide compatibility and continuity to the entire region as well as each individual neighborhood.

Generally Accepted Accounting Principles (GAAP): GAAP are the standard framework of guidelines for financial accounting as defined by the Governmental Accounting Standards Board (GASB) for state and local governments in the U.S. The City of Sacramento prepares the CIP consistent with these guidelines and principles.

Geographic Information Systems (GIS): a system designed to capture, store, manipulate, analyze, manage, and present spatial or geographic data. GIS maps are provided for each site-specific FY2021/22 funded project (Program Area Summaries) as well as focus on projects in or near priority sites as identified in the *2035 General Plan* (General Plan Consistency).

Grant: Program revenues provided by external agencies, which are restricted to a specific purpose, have a time limit for use, and frequently are reimbursed after incurring eligible costs.

Inflationary Increase: An adjustment made to reflect current year or estimated future year national or regional change to categories of expense. Generally, inflationary increases are based on the Consumer Price Index (CPI).

Infill: The reuse of land in an urban area for new construction.

Landscaping and Lighting (L&L) Act of 1972: The 1972 Act lets cities, counties, and special districts levy assessments for land purchase and construction, operation and maintenance of parks, landscaping, lighting, traffic signals, and graffiti abatement.

Measure U Fund: This fund was established to account for revenues collected from the transactions and use tax approved by voters in November 2018. It took effect on April 1, 2019. Measure U was approved as a general tax and can be used for any general government purpose. This one-cent tax is charged on each dollar of taxable sales of goods purchased from retailers within the City of Sacramento, and on the taxable storage, use, or consumption of goods purchased outside the City and delivered to a location within the City.

Nexus Study: A report that sets the procedural requirements for establishing and collecting development impact fees.

Ordinance: A formal legislative enactment by the governing board of a municipality. If it is not in conflict with any higher form of law, it has the full force and effect of law within the boundaries of the municipality to which it applies.

Project, Child: A CIP that falls under the budget appropriation authority of a parent project. Child projects are not required of a parent project. In Index O, child projects are listed in *italics*.

Project, Parent: A CIP that has budget appropriation authority given by City Council. Parent project numbers usually end in zero-zero (00) and are identified in Index O in bold.

Place of Use (POU): The City of Sacramento's currently authorized Place of Use (POU) for the Sacramento River and the American River water supplies are shown in the Water Master Plan. The City's POU for water from the Sacramento River is all land within the City limits. The City's POU for the American River supply covers 96,162 acres and includes the City limits, as well as portions

of service areas of several other water purveyors.

Program: A logical grouping of capital projects according to type of projects completed; e.g., public safety, transportation.

Resolution: A formal declaration by City Council.

Resources: Total dollars available for appropriations during the fiscal year including estimated revenues, fund transfers, and beginning fund balances.

Smart City: A concept that recognizes the opportunity for information and technology as to be used as a tool to provide services to all its citizens through accessibility, affordability, choices, coordination, and efficiency. For transportation, it includes using data and supporting emerging technology to improve mobility and achieve other benefits, such as automated vehicles, electric vehicle charging, alternative fuels, system integration, and data driven solutions.

Special Revenue Funds: Account for the proceeds supported by specific taxes or other revenue sources. These funds are generally required by statute, charter, or ordinance to finance specific government functions. Examples include Assessment or Community Facility Districts that provide services, as well as Measure A and other public works funding sources.

Speed Humps: Speed humps extend across the road in one solid piece. The City no longer installs humps or undulations (double sets of humps) and has moved completely to lumps and tables (elongated humps).

Speed Lumps: Speed lumps were first introduced in Sacramento in 2002. The lumps

have the same design as the hump, but have strategically placed cut-outs that allow for buses and emergency vehicles to pass through without excessive jarring. The lumps reduce response time from seven seconds for hump to less than one second per lump.

Sphere of Influence: The probable, ultimate physical boundaries and service area of a local governmental agency. This is defined as within the city boundaries plus the Panhandle, Freeport, Fruitridge-Florin, and Rosemont. The Council may request the Local Agency Formation Commission to expand the Sphere of Influence boundaries as appropriate; Camino Norte and the Natomas Joint Vision are examples of potential areas to be added to the Sphere of Influence.

State-of-Good-Repair: This is a condition in which the existing physical assets, both individually and as a system, are (a) functioning as designed within their useful lives, and (b) sustained through regular maintenance and replacement programs.

Subprogram: A more defined grouping of capital projects within each Program; e.g., within the Transportation Program. Subprograms include Street Maintenance, Street Improvements, Signals/Lighting, and Parking.

Successor Agency: Pursuant to operation of California state law, the Redevelopment Agency was dissolved. Effective February 1, 2012, former activities and affairs of the Sacramento Redevelopment Agency were transferred to the City of Sacramento as the Successor Agency. The Successor Agency is authorized by law to accept and maintain the legal title, custody and dominion of records that were created by another agency.

Transient Occupancy Tax (TOT): A tax of 12% is charged for all people who exercise occupancy at a hotel within the city (City Code 3.28). They are considered transient if they stay for a period of 30 days or less. TOT forms are remitted to the City by the hotels monthly. Of the 12%, the Community Center Fund (Fund 6010) receives 10% and two percent returns to the General Fund.

User Charges/Fees: The payment of a fee for direct receipt of a public service by the party benefiting from the service.

REFERENCE MATERIALS

A variety of documents have been developed to reflect the diverse and growing needs and priorities of Sacramento residents, businesses, developers, and visitors. Extensive outreach has been done to develop the documents listed below and, in an effort to maintain transparency, the following provides a synopsis and location of the materials that were referenced to develop the 2021-2026 CIP. The connection to these background resources provides a wider understanding of the efforts made to determine, rank, and invest public funds towards maintenance, rehabilitation, or improvement of public infrastructure, public safety, recreational experiences, and assurance that Sacramento remains well-positioned for further economic growth and opportunities.

While each section utilizes the resources listed in the General Plan Consistency Section, other documents are section-specific.

Section C: General Plan Consistency

River District Specific Plan (2011)

<http://portal.cityofsacramento.org/Community-Development/Planning/Long-Range/Specific-Plans>

The 773-acre River District Area proposes adopting policy documents to support a transit-oriented, mixed-use, and urban environment that would include 8,144 dwelling units, 3.956 million square feet of office, 854,000 square feet of retail/wholesale, 1.463 million square feet light industrial, and 3,044 hotel units. The vision for the River District is that of an eclectic mix of uses that will evolve from a primarily light-industrial, low-intensity commercial district, to that of a series of distinctive walkable neighborhoods within a district that is contiguous to the American River and serves as the northern gateway into the Central City. The guiding principle for this plan is to maintain its unique character and design while increasing its diverse economy.

Sacramento 2035 General Plan Update, aka General Plan (2015)

<http://portal.cityofsacramento.org/Community-Development/Planning/Long-Range/General-Plan>

A document shaped by extensive outreach to residents, business, developers, and decision-makers to guide Sacramento to “be the most livable city in America.” It was developed based on the City’s Smart Growth Principles; Council adopted Vision and Guiding Principles for the General Plan; and the Sacramento Area Council of Governments Blueprint (<http://www.sacreregionblueprint.org/adopted>).

Sacramento Center for Innovation Specific Plan (2013)

<http://portal.cityofsacramento.org/Community-Development/Planning/Long-Range/Specific-Plans>

The goal of the Sacramento Center for Innovation (SCI) Specific Plan is to create an environment that fosters the exchange of technical knowledge and expertise between students, faculty, and private sector business enterprises. Formerly known as the Innovation/Technology Village, the SCI area is located to the south of California State University, Sacramento, to the east of the Union Pacific Railroad, and to the west of the Granite Regional Park development area. Currently, it is primarily heavy commercial, light industrial, and industrial uses. The General Plan identified the area south of the existing Regional Transit light rail tracks, the Ramona Avenue area, as an Opportunity Area, changed the land use designation from Industrial to Employment Center, and recommended further land use refinement.

Section D: General Government

City Facility Condition Assessment (2018)

In September 2017, City Council authorized a City Facility Condition Assessment of over 100 facilities. The assessment was completed in June of 2018 and identified the prioritization and selection standards for the City Facility Reinvestment Program. Initial Council-approved criteria were safety, end of component's useful life, and outdated standards. The criteria have since been expanded to the following:

1. Safety: Projects that, if not corrected, will create a hazard or that may result in personal injury to staff or the public.
2. Renewal/Replacement: Projects with worn, obsolete, and/or failed major components have reached the end of their useful life and are needed to protect or maintain facility integrity. These items, if not addressed, will require excessive man-hours and funding to prevent further degradation of the facility and to keep the facility functional or do not meet today's standards in terms of functionality or code requirements.
3. High energy consumption: Projects that can achieve significant savings through the upgrading of components.
4. High volume for immediate service requested: Projects that have components or equipment/facilities chronically needing repair.
5. Cost-effective/Combination of projects: Projects that are combined to make them more cost-effective, such as replacing roof mounted HVAC equipment at the same time a roof is replaced.

Sacramento Public Library Authority Facility Master Plan 2007-2025 (2007)

<https://www.saclibrary.org/About/Our-Governance/Budget-and-Plans/SPLA-Facility-Master-Plan-2007-2025.aspx>

A document that focuses on service-driven facilities to meet the needs of specific populations and provides guidance in planning and improving up on the Sacramento Public Library facilities.

Section F: Convention, Culture, and Leisure

Sacramento Marina Business Plan (2014)

The Marina's business plan was presented to the City Council on March 25, 2014. It is reviewed annually.

Section G: Parks and Recreation

Parks and Recreation Master Plan 2005-2010 Technical Update (2009)

<http://www.cityofsacramento.org/ParksandRec/Parks/Park-Planning-Development/MasterPlan-PRPG/>

The Parks and Recreation Master Plan is a policy document that addresses: recreation and human services; children's and teen programs; community centers; park planning and development; partnerships; maintenance and tree planting; park operations and maintenance; marketing and special events; sustainability; and department-wide administrative services.

Park Project Programming Guide (PPPG) (2017)

<http://www.cityofsacramento.org/ParksandRec/Parks/Park-Planning-Development/MasterPlan-PRPG>

The PPPG identifies, evaluates, ranks, and prioritizes unfunded park and recreation projects, including acquisitions, repair/rehabilitation, development, community facility, and regional projects. A new PPPG is generally prepared biennially.

The PPPG's goals are to:

- Provide an integrated system of parks, open space areas, and recreational facilities that are safe and connect the diverse communities of Sacramento;
- Plan and develop parks, recreation, and community facilities that enhance community livability, are equitably distributed throughout the city, and are responsive to the needs and interests of residents, employees, and visitors; and
- Secure adequate and reliable funding for the acquisition, development, and maintenance of parks, recreation facilities, and open space.

2021-2026 Approved Capital Improvement Program

Projects are evaluated and grouped within each of the ten CPAs for consistency with the City's *Parks and Recreation Master Plan*, last updated in 2009. The criteria in each CPA focuses on:

1. Neighborhood, community, and/or regional need
2. Funding availability for ongoing maintenance
3. Site significance, public priority or public use, and suitability to the area
4. Gives priority to economically disadvantaged neighborhoods
5. Health, safety, or legal mandates
6. Land availability
7. Cost offsets/partnerships

Section H: Transportation

Transportation Programming Guide (TPG) (2014)

<http://portal.cityofsacramento.org/Public-Works/Resources/Publications>

The TPG is a document that ranks the City's transportation programs and projects in alignment with the Pedestrian and Bikeway Master Plans (see below). The City performs outreach to the community when prioritizing its infrastructure needs, which enables the City to ensure the priority projects receive funding.

The TPG program areas are being updated to the following:

1. Active transportation – pedestrian, bikeway, lighting, and streetscape improvements
2. Bridges – replacement and rehabilitation
3. Major transportation improvements – major roadway construction
4. Parking – parking facility maintenance and upgrades
5. Public rights-of-way accessibility – installation of improvements to ensure full accessibility
6. Street maintenance – roadway and bikeway overlays and seals
7. Traffic operations and safety – safety improvements, Traffic Operations Center, traffic calming, pedestrian safety, and major street light replacement

City of Sacramento Bicycle Master Plan (2016)

<http://portal.cityofsacramento.org/Public-Works/Resources/Publications>

This Plan was developed to set forth bicycle related investments, policies, program, and strategies for a complete bicycle system. Its goal is to encourage more bicycling by the citizens of Sacramento for both transportation and recreation, and thereby allowing the City of Sacramento to meet General Plan emission targets.

The goals of the plan are to increase:

2021-2026 Approved Capital Improvement Program

- Ridership and attain a 7% bicycle mode share by 2020;
- Safety so there are no bicycle-related fatalities;
- Connectivity thereby doubling the percentage of residents that can conveniently reach a contiguous bikeway network; and
- Equity so that all areas of the city are equally invested in.

Pedestrian Master Plan, Making Sacramento the Walking Capital (2006)

<http://portal.cityofsacramento.org/Public-Works/Resources/Publications>

The Pedestrian Master Plan provides a comprehensive vision for improving pedestrian conditions. Its objectives are to create standard and procedural recommendations as well as improve upon the current pedestrian deficiencies and to establish and maintain a pedestrian-friendly city. This will be accomplished by improving connectivity, accessibility, and safety.

There are two criteria for ranking projects: safety and project setting.

Safety-oriented criteria

- Barrier Elimination – ability to remove obstacles for safe travel or to introduce a shorter travel distance
- Infrastructure Completeness – ability to bring existing conditions into compliance
- Vehicle/Pedestrian Collisions – reported collisions between car and pedestrian that occurred during the previous three years.
- Speed – Posted speed limit at the project location.
- Volume – Based on the average daily traffic at the project location.

Project setting criteria

- Transit Access – enables direct access to the Rapid Transit system.
- Economic Development – falls within the 2013 Economic Development Strategy
- Infill Development – located within Tier I or Tier II areas as defined by the 2035 General Plan.
- Adjoining Property – based on the orientation of the development at the back of sidewalk, or where the sidewalk would be when a sidewalk is not present.
- Land Use – based on the predominant land use designation.
- Activity Centers – based on the number of activity centers within a 600' radius to its parcel boundary.

Section I: City Utilities

Department of Utilities' Guide Capital Improvement Programming Guide (2012)

<https://www.cityofsacramento.org/Utilities/Reports>

This guide explains the processes, methodologies, and funding sources used in developing the City Utilities Program. It also provides an overview of the water, wastewater, and storm drainage utilities operations and functions; explanations of the criteria used to rank projects; descriptions of the types of CIPs; and profiles planned capital projects. Also included is a long-term (30-year) and short-term (three-year) investment strategy for improving the utility infrastructure of the city.

Its goals include:

- Complying with all government regulations and legal requirements
- Providing high-quality, safe, and reliable utility systems through proactively monitoring/maintaining assets and reducing system vulnerability
- Planning for current and future generations by protecting, preserving, and enhancing resources, the environment, and the community
- Providing for environmentally sound landfill closure

Projects are assessed and ranked by:

1. Mandate by state and federal laws or regulations
2. Protect the public by meeting health and safety requirements
3. Meet the demands of increased growth
4. Manage funding by finding alternative funding sources, such as grants or other revenues
5. Improve or reduce ongoing facility operations and maintenance costs

Section J: Description of Major Funding Sources

FY2021/22 Approved Budget

<http://www.cityofsacramento.org/Finance/Budget>

A companion book to the CIP, the Budget provides an overview of the operating budget, the five-year forecasts for the General and Enterprise Funds, as well as an overview of the debt service program that finances the cost of some capital improvements.

SECTION – P

Resolution

RESOLUTION NO 2021-0198

Adopted by the Sacramento City Council

June 15, 2021

Approving the Fiscal Year 2021/22 Operating and Capital Improvement Program Budgets

BACKGROUND

- A. Article IX, section 111, of the City Charter requires the City Manager to present a balanced budget to the Mayor and City Council no less than 60 days before the beginning of each fiscal year.
- B. The City of Sacramento, through the leadership and direction of the Mayor and City Council, has maintained a sustainable budget philosophy. Given this concept of fiscal sustainability, the City Council adopted the following core budget policies and budget guidelines on February 14, 2017 (Resolution 2017- 0078):

Core Budget Policies

1. City Council must adopt a balanced budget.
2. Funding decisions should be consistent with Council-adopted policies.
3. The Economic Uncertainty Reserve shall be maintained at a minimum of 10% of budgeted General Fund revenues. Resources must be added to maintain this level through the budget and midyear processes, as necessary.

Budget Guidelines

1. Maintain a fiscally sustainable, balanced budget.
2. The Mayor and Council's priorities, based on community input, should drive the budget creation.
3. Continue a community-based budget process where city residents are engaged and educated on budget processes and provide feedback on budget priorities.
4. Look for ways to grow the reserve beyond its current goal.
5. All budget actions must be considered in a five-year context, with new revenues not counted or spent until realized. One-time resources should be used for one-time needs, not ongoing expenses.
6. Do not make spending decisions in isolation. Avoid spending money on one-off projects or without looking at the big picture. Understand long-term consequences and opportunity costs.

2021-2026 Approved Capital Improvement Program

7. Keep City Council informed on the fiscal condition of the City and conduct continuous evaluations for efficiencies and effectiveness.
 8. The City must consistently look for opportunities to proactively grow revenues instead of simply being reactive.
 9. Make every effort to identify private financing or federal and state grant opportunities before using City resources. Pursue new and enhance existing revenue sources.
 10. Before new expenditures are made, identify return on investments and impacts, fiscal and social benefits.
 11. Address unfunded long-term liabilities.
 12. Remain a full-service City.
- C. On June 11, 2019, the City's Economic Uncertainty Reserve (EUR) Policy was amended to include Measure U resources in determining the amount to be set aside in reserves (Resolution 2019-0248) as directed by the City Council on February 5, 2019 (Resolution 2019-0047).
- D. The FY2021/22 Approved Budget (which includes the Operating Budget and the Capital Improvement Program [CIP] Budget) are consistent with City Charter requirements and the City Council's adopted Core Budget Policies and Budget Guidelines.
- E. The Mayor and City Council conducted budget discussions during May and June 2021 to discuss and consider the City's FY2021/22 Budget.

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:

Section 1. Preliminary Matters.

- 1.1. The Budget changes attached as Exhibit A, and the Summary of FTE attached as Exhibit B are hereby approved.
- 1.2. The FY2021/22 Operating and CIP Budgets (collectively the Approved Budget), as defined in section 3.1 below, and attached as Exhibit C and D are hereby approved.
- 1.3. The 2021-2026 CIP, which provides a comprehensive five-year plan for the City's capital project expenditures and attached as Exhibit D is hereby approved.
- 1.4. Sections 2 through 20 below, which define the authority and responsibilities of the City Manager in implementing the Approved Budget, are hereby approved.

2021-2026 Approved Capital Improvement Program

- 1.5. The City Manager is authorized to incorporate final decisions of the City Council, and to refine and add content, as may be needed to meet Government Finance Officers Association and California Society of Municipal Finance Officers budgeting-award requirements into the Proposed Operating and CIP Budgets to create the FY2021/22 Approved Budget.
- 1.6. The attached Exhibits A through D are part of this resolution.
- 1.7. The City's Debt service must be limited to 6% of total General and Measure U (G/MU) Fund revenues, excluding Department revenues.
- 1.8. The City Treasurer shall conduct a financial stress test on the combined G/MU Funds before the issuance of any bonds.
- 1.9. Available resources in the Innovation and Growth Fund (Fund 2031) shall be transferred to the General Fund as needed to offset projected deficits shown in the G/MU Fund five-year forecast included in the Approved Budget.
- 1.10. The City Manager is authorized to establish the Federal American Rescue Plan (ARP) Fund (Fund 2705) effective May 19, 2021.
- 1.11. The City Manager is authorized to transfer available General Fund (Fund 1001) resources in the Youth, Parks and Community Enrichment Department on June 30, 2021, to address year-end shortfalls in the 4th R Fund (Fund 6012).
- 1.12. The City Manager is authorized to realign Measure U expenditures, including the creation of new multi-year projects as necessary, to provide additional transparency on the alignment of spending on a go-forward basis beginning with the FY2021/22 Approved Budget.

Section 2. Scope.

This resolution defines the authority and responsibilities of the City Manager in implementing the Approved Budget and supersedes Resolution 2019-0248.

Section 3. Definitions.

- 3.1. "Account" is the primary accounting field in the budget used to describe the nature of the financial transaction (overtime, professional services, debt, etc.).
- 3.2. "Approved Budget" means the Approved Operating Budget (Operating Budget) and the Approved Capital Budget (CIP Budget), which are attached as Exhibit D and reflects the FY2021/22 Proposed Operating and CIP Budgets, as amended by the City Council to incorporate the approved Budget Changes attached as Exhibit A, and Summary of FTE attached as Exhibit B.
- 3.3. "City Manager" means the City Manager or, if so designated, the Director of Finance.

2021-2026 Approved Capital Improvement Program

- 3.4. “Department” means a major budgetary grouping such as Mayor and City Council; City Manager; City Attorney; City Auditor; City Clerk; City Treasurer; Community Development; Community Response; Convention and Cultural Services; Finance; Fire; Human Resources; Information Technology; Police; Public Works; Utilities; Youth, Parks, and Community Enrichment; Projects; Debt Service; Citywide and Community Support; and Fund Reserves.
- 3.5. “Full Time Equivalent” and “FTE” mean the decimal equivalent of a position, e.g., one full-time position is 1.00 FTE and one quarter-time position is 0.25 FTE.

Section 4. Approved Budget Appropriations, FTEs, and Adjustments.

- 4.1. The City Manager is authorized to make any expenditure and resource adjustments to the Operating Budget based on final City Council action to adopt the Operating Budget.
- 4.2. The City Manager is authorized to establish the appropriations and FTE as shown in Schedules 1A, 1B, 1C, and 1D and the fund summaries, including transfers, as shown in Schedules 2A, 2B, and 2C, as displayed in Exhibit C.
- 4.3. The City Manager is authorized to modify FTE classifications by Department as necessary to implement the reclassifications and studies authorized by Schedule 8, as displayed in Exhibit C.
- 4.4. The City Manager is authorized to revise any appropriation made in the Approved or Amended Budget where the revision is of a technical nature and is consistent with the City Council’s intent.
- 4.5. The City Manager may authorize the use of the Old Sacramento Public Market Fund (Fund 2601) for the development, repair, and maintenance of the north and south public markets.
- 4.6. The City Manager is authorized to make annual loan payments to the Risk Fund from the Community Center Fund subject to the availability of funds. As of June 30, 2020, the balance of the Risk Fund loan to the Community Center Fund totaled approximately \$5.2 million.
- 4.7. Following budget adoption, the City Manager is authorized to do the following:
 - (A) Transfer appropriations from the operating budget and establish or adjust revenue and expenditure budgets for externally funded programs (EFPs), multi-year operating projects (MYOPs), and operating grants as shown in Schedule 9 displayed in Exhibit C.
 - (B) Adjust any appropriation made in the Approved Budget to reflect changes from amounts budgeted for updated labor (for example, changes in retirement rates, payroll taxes, health benefits), fleet (including accident

2021-2026 Approved Capital Improvement Program

recovery costs), utilities, 311 Call Center (reimbursements based on call data), cost plan, and risk-management changes, from available fund balance or reserves for the respective funds.

- (C) Adjust budgets to reflect all required debt service and related payments, including adjustments to rate stabilization reserves, pursuant to City debt agreements.
- (D) Revise and establish indirect cost rates to be applied to hourly salary rates in order to achieve full cost recovery of services; and adjust the Operating Budget to reflect the indirect cost rate plan for FY2021/22.

Section 5. Economic Uncertainty Reserve Policies and Transfers from Contingency and Reserve Funds.

- 5.1. The Council-adopted EUR Policy as amended on February 5, 2019 (Resolution 2019-0248) establishes a minimum reserve level equal to 10% of annual G/MU Fund revenues and a target reserve level equal to two months of regular ongoing General Fund expenditures, including transfers (17% of G/MU Fund expenditures). Resources to fund this reserve will be identified on an ongoing basis and can include positive year-end results or other one-time resources available to the G/MU Fund.
- 5.2. The G/MU Fund EUR is maintained to bridge the gap between projected revenue and expenditures during periods of significant revenue declines, expenditure growth, or both. Consistent with Governmental Accounting Standards Board Statement No. 54 (Fund Balance Reporting and Governmental Fund Type Definitions), the Council-adopted parameters for using the EUR are as follows:
 - (A) The City Manager may recommend a release from the EUR when the gap between projected revenue and expenditures is greater than \$1 million in the proposed budget.
 - (B) Any release from the EUR requires the City Council's approval.
 - (C) These parameters may only be changed by resolution of the City Council.
- 5.3. The City Manager is authorized to make appropriation changes (increases or decreases) less than \$250,000 by fund from available fund balance. Appropriation changes, whether increases or decreases, including \$250,000 or more require the City Council's approval, except for payments to employees for vacation and sick leave payouts. Payments to employees for vacation and sick leave payout may be approved by the City Manager.
- 5.4. The City Manager is authorized to make appropriation changes (increases or decreases) less than \$250,000 to any Department or project from Administrative Contingency established in the General Fund. Appropriation changes

2021-2026 Approved Capital Improvement Program

(increases and decreases) more than and including \$250,000 to the Department or project require the City Council's approval.

- 5.5. Transfers must not be made from an available fund balance or Administrative Contingency, if the transfer will result in a negative balance.
- 5.6. The City Manager is authorized to release the General Fund (Fund 1001) commitment of fund balance (\$5.5 million) established in FY2020/21 for future budget development as needed to submit a balanced budget.
- 5.7. Use of committed fund balance reserves, except as authorized in section 5.6, requires the City Council's approval by resolution.

Section 6. Appropriation Increases and Decreases.

- 6.1. All appropriation changes (increases or decreases) \$250,000 or more to the Approved Budget require the City Council's approval by resolution.
- 6.2. The City Manager is authorized, upon completion of the audited financial statements for FY2020/21, to adjust FY2021/22 fund contingencies by the amount of net changes in available fund balance. The available fund balance in the G/MU Fund must be included and explained in the report to the City Council accompanying the Annual Financial Report (AFR).
- 6.3. Residual balances from unexpended debt proceeds will be reverted to the appropriate fund and used for the lawful purposes as specified in the conditions of the debt issuance. The City Manager is authorized to establish appropriations and account for the expenditure of these unexpended proceeds.

Section 7. Appropriation Transfers.

- 7.1. Operating appropriation transfers within the same Department and the same fund, including the Department's established fleet MYOP, require the City Manager's approval.
- 7.2. Appropriation transfers between two or more Departments, less than \$250,000, must be approved by the City Manager. Such transfers more than and including \$250,000 requires the City Council's approval by resolution.

Section 8. Staffing Changes.

- 8.1. Any increase or decrease in FTE by Department or by fund as authorized in the Operating Budget, by subsequent approval of the City Council, or by the City Manager in accordance with this resolution, is subject to approval by the City Council except for renewals or expansion of fully offset grants or EFPs as specified in section 8.2.
- 8.2. The City Manager is authorized to adjust staffing levels for renewals, expansions, or reductions to fully offset Council-approved operating grants or

2021-2026 Approved Capital Improvement Program

EFPs. Grant/EFP positions must be terminated upon completion or cancellation of the grant/EFP unless specifically continued by a City Council resolution that includes a source of replacement funding. Any existing positions approved on the assumption that the City would receive a grant or other reimbursements must have continued funding verified before filling the position.

- 8.3. Any reassignment of authorized FTE and employee-services funding associated with the FTE, within a Department and within the same fund, may be made at the discretion of the Department director with the approval of the City Manager as long as there is no net change to authorized FTE and funding levels.
- 8.4. The City Manager is authorized to modify any authorized FTE classification as necessary to reflect current incumbent status based on the established flexibly staffed classifications included in Council-approved labor contracts.
- 8.5. All new job classifications or classification changes (as identified in Exhibit C, Schedule 8) are subject to classification review and approval by the Director of Human Resources.
- 8.6. The City Manager is authorized to adjust staffing levels in the Police and Fire Training Academies based on projected vacancies.
- 8.7. The Director of Human Resources is authorized to establish non-budgeted positions (NBPs) for the following:
 - (A) Mayor and Council Offices, to be funded from their existing operations budgets.
 - (B) Departments as needed to reflect current staffing needs. Departments must have sufficient labor savings to cover the cost of NBPs, and none of the NBPs may be used for more than one year. Departments will seek budget authority to convert NBPs to authorized FTE positions or the NBPs will be eliminated during the budget process.

Section 9. Revenue Budget.

- 9.1. The FY2021/22 revenue budget is summarized in Exhibit C, Schedule 6.
- 9.2. Any increase or decrease greater than (and including) \$250,000 by fund in estimated revenue by Department to the Approved Budget requires the City Council's approval.
- 9.3. The City Manager is authorized to implement biennial Consumer Price Index increases if the increases are warranted based on the adopted Fees and Charges Policy.

2021-2026 Approved Capital Improvement Program

- 9.4. Proceeds from the sale of General Fund and Redevelopment Agency Successor Agency surplus land, unless otherwise specified, will be budgeted in the Innovation and Growth Fund (Fund 2031).
- 9.5. Unbudgeted one-time general revenue received in a fiscal year, which is not required to balance the budget as part of the midyear review or fiscal year-end close, will be added to the G/MU Fund EUR.

Section 10. Capital Improvements.

- 10.1. Capital projects and/or appropriations will be used for the following:
 - (A) Repairs, maintenance, improvements, or acquisitions with a total cost of at least \$20,000 and a useful life that exceeds one fiscal year; and
 - (B) Community/Neighborhood projects as approved in separate resolutions by the City Council.
- 10.2. The City Council's approval is required for the establishment or cancellation (without completion) of a CIP, except as provided below:
 - (A) The City Manager is authorized to approve and establish one or more capital projects for internal City operations related to improvements and minor construction of existing City-owned or occupied buildings if the total cost to deliver each project is less than \$250,000. Projects will be managed in the City Facility Improvement (C15100000) project.
 - (B) Capital projects may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project, without further City Council action.
 - (C) Projects established for agreements the City Manager executes in accordance with Sacramento City Code chapter 18.18. The City Manager is authorized to make all necessary budgetary adjustments when the City accepts improvements constructed under these agreements.
- 10.3. Capital appropriations must be used solely for the originally approved project or projects except as provided in this section.
- 10.4. Completed and inactive projects will be closed annually, except for projects that have existing litigation or payment disputes. An inactive project is one where transaction activity is less than \$1,000 over the prior three years. Closures are the responsibility of the designated project manager. The managing Department and the City Manager are each authorized to process the necessary documentation to close inactive projects.
- 10.5. Each fiscal year, all multi-year CIP projects in existence on June 30 will be continued except as provided otherwise in section 10.4. The FY2021/22 CIP

2021-2026 Approved Capital Improvement Program

Budget is summarized on Schedules 2 and 4 as displayed in Exhibit C and on Schedule 4 as displayed in Exhibit D.

- 10.6. Each fiscal year, unobligated appropriations for all inactive projects, as defined in section 10.4, will expire on June 30 following the third full year of the last appropriation to the project. Projects requiring continuing appropriations will require City Council action through programming within the CIP or through a separate appropriation to the project authorized by resolution of the City Council.
- 10.7. Each fiscal year, on June 30, the balance of each CIP project must be zero or have a positive balance by fund. Projects with spending in excess of available budget from all funding sources (i.e., with negative balance) will be treated as follows:
 - (A) If the CIP balance exceeds budget by less than \$250,000, the CIP must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the CIP manager's Operating Budget (all transfers less than \$250,000 must be made as provided for in section 5.3).
 - (B) If expenditures exceed the budget by more than and including \$250,000, a corrective plan of action must be submitted to the City Council for approval by resolution.
- 10.8. Community/Neighborhood projects and appropriations established with one-time funding sources under Resolution 2000-682 (11/21/00), 2001-765 (11/20/01), 2003-412 (6/17/03), 2004-551 (6/29/04), 2006-367 (5/23/06), and associated staff reports, are governed by the following procedures:
 - (A) Savings of up to and including \$50,000 due to lower-than-expected costs or the securing of alternative funding sources may be administratively reprogrammed into other projects within the same Council District at the request of the Council District Office and with the approval of the City Manager.
 - (B) Savings above \$50,000 may be reprogrammed upon approval by resolution of the City Council.
- 10.9. Except as provided in section 10.8, the City Manager is authorized to transfer appropriations less than \$250,000 as follows:
 - (A) General, Measure U, and Capital Bond Funds:
 - (1) From a project that has not been completed, if a revised project estimate confirms that upon completion there will be project savings.
 - (B) All other funds from Project A to Project B if:

2021-2026 Approved Capital Improvement Program

- (1) Project A is complete and has savings; or
 - (2) Project A has not been completed and a revised project estimate confirms that there will be project savings upon completion.
- 10.10. Upon completion and closure of a capital project, the City Manager is authorized to transfer any remaining project balance as follows:
- (A) To the available fund balance of the respective fund, the Capital Projects Base Reserve in the Utilities CIP or, in the case of the General Fund, Administrative Contingency; or in the case of capital grants, to amend the revenue and expenditure budgets to actual revenues received and expenditures incurred.
 - (B) As provided for in section 10.9.
- 10.11. Except for projects covered by section 10.10, the City Manager is authorized to increase or decrease project budget appropriations by less than \$250,000 for each project. Appropriation changes more than and including \$250,000 in total for any project must be approved by resolution of the City Council. The City Manager's administrative authority to adjust budgets for capital projects will be reset after budgetary actions are authorized by the City Council. If the appropriation is from available fund balance, it is subject to the provisions in section 5.
- 10.12. Measure A Sales Tax (Fund 2001) revenue and expenditure budgets can be loaded into the City's financial system before approval by the Sacramento Transportation Authority Board (STA Board). Work on CIP projects in this fund is done before receiving funding. Project funding and appropriations must be as follows:
- (A) The City Manager is authorized to enter the revenue and expenditure budgets as reflected in the Approved Budget (revenues) and CIP Budget (expenditures).
 - (B) The City Manager is authorized to enter revenue and expenditure budgets before STA Board approval.
 - (C) STA Board approval is required for all Measure A reallocations. When the City Council acts on recommended Measure A reallocations before STA Board action, City Council approval will be contingent on STA Board approval.
- 10.13. Projects funded by New Measure A Project Construction Sales Tax are included within the CIP Budget for planning purposes. Work on CIP projects funded by New Measure A Project Construction Sales Tax (Fund 2023) is done before receiving funding, and project funding and authorization for these projects must be as follows:

2021-2026 Approved Capital Improvement Program

- (A) Fund 2023 revenue and expenditure budgets will not be loaded into the City's financial system until STA Board approval and City Council appropriation through separate Council action.
- 10.14. Projects funded by the following reimbursable (grant) funds are included within the Operating and CIP Budgets for planning purposes: Funds 3702, 3703, 3704, 6205, 6206, 6207, and 6211. Work on CIPs funded by these sources is done before receiving funding, and project funding and authorization for these projects must be as follows:
- (A) Funds 2700, 3702, 3703, 3704, 6205, 6206, 6207, and 6211. Revenue and expenditure budgets will not be loaded into the City's financial system until agreements (Program Supplements/E-76s, Individual Project Agreements, Cooperative Agreements, etc.) have been executed by the City and the funding authority.
- (B) Funds 3703 and 3704. The City is eligible to receive federal or state funding, or both, for certain transportation projects through the California Department of Transportation (Caltrans). Master Agreements, Program Supplemental Agreements, Fund Exchange Agreements, and Fund Transfer Agreements must be executed by Caltrans before such funds can be claimed. The City Manager is authorized to execute on the City's behalf all Master Agreements, Program Supplemental Agreements, Fund Exchange Agreements, and Fund Transfer Agreements, and any amendments thereto.
- The City Manager is authorized to transfer matching funds as specified in the approved CIP from the state and federal Grant Match (T15007200) CIP, and to enter the revenue and expenditure budgets as reflected in the grant agreement, only if the amount differs by less than \$250,000 from what was reflected in the Approved CIP Budget that authorized the project funding. Project agreements that differ by more than and including \$250,000 from the anticipated budget require the City Council's approval by resolution.
- 10.15. The 2021-2026 CIP Budget (Schedule 4, Exhibits C and D) includes projects that are directly supported by user and developer fees and utility rebates. The City Manager is authorized to adjust Department revenue budgets and CIP expenditure budgets for projects as identified in the General Government section of the CIP that are directly supported by fees and rebates based on the actual fees and rebates collected, less any operating costs associated with delivering the service.
- 10.16. The City Manager is authorized to adjust revenue and expenditure budgets to reflect actual revenues received and expenditures incurred in compliance with the original grant award and any amendments. If the grant is not renewed or is

2021-2026 Approved Capital Improvement Program

changed by more than and including \$250,000, the managing Department must return to the City Council for corrective action.

Section 11. Operating Grants.

- 11.1. City Council approval is required for the establishment or cancellation (without completion) of an operating grant except as follows:
 - (A) Where the operating grant is less than \$250,000 and does not require any of the following:
 - (1) any increase or decrease, by Department or by fund, in FTE as authorized in the Approved Budget or by any subsequent approval by the City Council or the City Manager in accordance with this resolution;
 - (2) matching funds from City resources; or
 - (3) any ongoing service or funding by the City.
 - (B) The City Manager is authorized to establish operating grants and authorize spending and allocation of resources more than and including \$250,000 in advance of formal agreements in response to governmental requests for public-safety assistance related to homelessness, disasters and national-security risks. The Department responding to these events shall report to the City Council within 60 days after receiving formal program documents from the requesting governmental agency or agencies to obtain approval to enter into agreements and accept reimbursements.
 - (C) Operating grants may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project, without further City Council action.
- 11.2. The City Manager is authorized to adjust FTE and associated service and supplies budget, in accordance with section 8.2, for renewals or expansions of fully offset grants previously approved by the City Council.
- 11.3. If a grantor requires City Council action as a condition of funding the grant, the establishment of the grant requires the City Council's approval regardless of the grant amount.
- 11.4. Each fiscal year, all multi-year operating grant budgets in existence on June 30 will be continued in the next fiscal year.
- 11.5. The City Manager is authorized to adjust revenue and expenditure budgets for renewals, up to the amount previously approved by the City Council, and augmentations less than \$250,000 of fully offset grants.

2021-2026 Approved Capital Improvement Program

- 11.6. The City Manager is authorized to establish revenue and expenditure budgets for federal or state grant-funded youth programs and parks-and-recreation programs based on the prior year award before receipt of signed agreements. Project funding and appropriations must be adjusted based on the final grant agreement. If the grant is not renewed or is changed by more than and including \$250,000, the managing Department must return to the City Council for corrective action.
- 11.7. Each fiscal year, on June 30, the balance of each grant budget must be zero or have a positive balance by fund. Grants in excess of the budget from all funding sources (total budget has a negative balance) will be treated as follows:
 - (A) If the Grant balance exceeds budget by less than \$250,000, the Grant must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the Grant manager's Operating Budget (all transfers of less than \$250,000 must be made as provided for in section 5.3).
 - (B) If the project balance exceeds budget by more than and including \$250,000, a corrective plan of action must be submitted to the City Council for approval by resolution.
- 11.8. The City Manager is authorized to adjust grant and operating expenditure budgets to account for Council-approved grant match and retention obligations.
- 11.9. The City Manager is authorized to adjust revenue and expenditure operating grant budgets to reflect actual revenues received and expenditures incurred upon closure of a project in compliance with the original grant award and any amendments.
- 11.10. Award and Distribution of City Grants.
 - (A) City Council approval is required: (1) to award grants to an individual, non- profit, business, or community-based organization that applies for a City grant more than and including \$250,000; and (2) to execute contracts with the grantees for the services to be provided.
 - (B) Consistent with City Council direction, the City Manager is authorized: (1) to award grants to an individual, non-profit, business, or community-based organization that applies for a City grant in amounts less than \$250,000; and (2) to execute contracts with the grantees for the services to be provided.
 - (C) The award and distribution of grants must comply with any Citywide Grant Distribution Policy.

2021-2026 Approved Capital Improvement Program

- (D) Before grant funds are distributed, the City and the grantee must execute a City contract that outlines the public benefit, timelines, and reporting requirements.
- (E) The annual budget must list all grants awarded the previous calendar year.

Section 12. Externally Funded Programs.

- 12.1. City Council approval is required for the establishment or cancellation (without completion) of an EFP, except as follows:
 - (A) Where the EFP is less than \$250,000 and does not require any of the following:
 - (1) any increase or decrease, by Department or by fund, in FTE as authorized in the Approved Budget or by any subsequent approval by the City Council or by the City Manager in accordance with this resolution;
 - (2) matching funds from City resources; or
 - (3) any ongoing service or funding by the City.
 - (B) EFPs may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project, without further City Council action.
- 12.2. Each fiscal year, all multi-year EFP budgets in existence on June 30 will be continued in the next fiscal year.
- 12.3. The City Manager is authorized to adjust revenue and expenditure budgets for EFP renewals, up to the amount previously approved by City Council, and augmentations less than \$250,000.
- 12.4. Each fiscal year, on June 30, the balance of each EFP budget must be zero or have a positive balance by fund. EFPs in excess of the budget from all funding sources (total budget has a negative balance) will be treated as follows:
 - (A) If the EFP balance exceeds budget by less than \$250,000, the EFP must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the EFP manager's Operating Budget (all transfers of less than \$250,000 must be made as provided for in section 5.3).
 - (B) If the project balance exceeds budget by more than and including \$250,000, a corrective plan of action shall be submitted to the City Council for approval by resolution.

2021-2026 Approved Capital Improvement Program

- 12.5. EFPs with existing contracts approved by the City Council, funding ongoing operations and studies, can be adjusted annually (revenues and expenditures) based on the actual revenues received.

Section 13. Multi-Year Operating Projects.

- 13.1. A MYOP is used for the following:
- (A) Economic Development Assistance and Development Programs (e.g., inclusionary housing).
 - (B) Planning, audit, and other consultant studies that will take more than one fiscal year to complete.
 - (C) Department fleet (vehicle or equipment) acquisition charges from the Fleet Management internal service fund.
 - (D) Other projects and activities that are multi-year in nature and are not capital-improvement projects.
- 13.2. City Council approval is required for the establishment or cancellation (without completion) of a MYOP, except as provided in section 13.7.
- 13.3. MYOPs may be subdivided into separate sub-projects as needed to administer, manage, and deliver the original scope of the project, without further City Council action.
- 13.4. Each fiscal year, unobligated appropriations in existence on June 30 for existing MYOPs will be continued in the next fiscal year, except as noted in sections 13.10, 13.11, and 18.11.
- 13.5. MYOPs must be used solely for the originally approved program or study. Completed or inactive MYOPs will be closed annually. An inactive project is one where transaction activity is less than \$1,000 over the prior three years. Closures are the responsibility of the designated project manager. The managing Department and the City Manager each have the authority to process the necessary documentation to close inactive projects.
- 13.6. The Police and Fire Department are authorized to use Measure U MYOPs savings from vacancies for background investigations, recruit academies, and overtime associated with restored programs and operations.
- 13.7. The City Manager is authorized to establish and adjust budgets for private development activities (Funds 2016 and 2018) managed in MYOPs that are fully offset by development fees.
- 13.8. Each fiscal year, on June 30, the balance of each MYOP must be zero or have a positive balance by fund. Projects in excess of the budget from all funding sources (total budget has a negative balance) will be treated as follows:

2021-2026 Approved Capital Improvement Program

- (A) If the MYOP balance exceeds budget by less than \$250,000, the MYOP must first be corrected within each fund, and then any remaining negative balance must be corrected by a transfer from the MYOP manager's Operating Budget (all transfers of less than \$250,000 must be made as provided for in section 5.3).
 - (B) If the MYOP balance exceeds budget by more than and including \$250,000, a corrective plan of action must be submitted to the City Council for approval by resolution.
- 13.9. The City Manager is authorized to increase or decrease MYOP budget appropriations by less than \$250,000 for each project. Transfers that exceed and including \$250,000 in total for any MYOP require the City Council's approval by resolution.
- 13.10. The City Manager is authorized to review MYOPs on an annual basis and return excess funds to the fund balance or contingency of the respective fund (e.g., Fleet, Measure U, Utility Rate Assistance).
- 13.11. The Utility Box Artwork (I17000800) MYOP General Fund budget can be amended up to \$450,000 (\$50,000 for each Councilmember and the Mayor) based on requests and resources provided from the operations budgets of the person requesting.
- 13.12. MYOPs with existing contracts approved by the City Council funding ongoing operations and studies, can be adjusted annually (revenues and expenditures) based on the actual revenues received.

Section 14. In-Lieu Property Taxes and In-Lieu Franchise Fee.

An in-lieu property tax and in-lieu franchise fee are hereby imposed on the Community Center (Fund 6010) and Parking (Fund 6004) Funds in the amounts provided in Schedule 3 as displayed in Exhibit C. The City Council finds that the in-lieu property tax as detailed in Schedule 3 represents the property-tax revenue that would be received by the General Fund if the real and personal property owned by these enterprises were taxable under private ownership. The in-lieu franchise fee as detailed in Schedule 3 represents the franchise fees that the City would receive from private entities as a rental or a toll for the use of city streets and rights-of-way.

Section 15. Appropriation Limits.

The appropriation limit and the appropriations subject to the limit are hereby amended in accordance with article XIIIB of the California Constitution for FY2021/22, as detailed in Schedule 5 as displayed in Exhibit C.

Section 16. Midyear Report.

- 16.1. The City Manager shall present a Midyear Report including a revised estimate of the financial condition of all funds, estimated revenues and expenditures, and recommendations for eliminating any projected fund deficits to the City Council.
- 16.2. The City Council will act on any projected fund deficits as part of the midyear review.

Section 17. Adjustments for Revenue Offset Programs and Services.

- 17.1. The City Manager is authorized to adjust revenue and expenditure budgets in special revenue funds based on actual revenues collected to provide appropriation authority for operating costs associated with delivering the service.
- 17.2. The City Manager is authorized to make the following adjustments to Department Operating Budgets or fund balance:
 - (A) Adjust Fire Department revenue and expenditure budgets based on actual revenues received for Department strike-team services provided throughout California.
 - (B) Adjust operating Department revenue and expenditure budgets based on actuals revenues received for providing reimbursable services to the Golden 1 Center as outlined in the City's agreement to provide services.
 - (C) Adjust the revenue budget for the Sacramento Police Department's Secondary Employment Program to reflect actual revenues received and adjust the expenditure budget by a like amount for providing reimbursable services as outlined in the City's Secondary Employment Agreement.
 - (D) Adjust the revenue and expenditure budgets for facility maintenance and repair services provided to outside agencies and entities (15004521-338020) and for private property concrete maintenance and sidewalk repairs (15001641-343010) to reflect actual revenues received for these services.
 - (E) Increase the revenue (Account 391320) and fleet-replacement expenditure (Account 474210) budgets in the Fleet Fund (Fund 6501) based on departmental fleet purchasing changes (additional or early replacement) approved by the City Council during the fiscal year and upon completion of audited financial statements to allow the continued purchasing of prior-year-funded replacement vehicles.

2021-2026 Approved Capital Improvement Program

- (F) Transfer excess parking-meter revenue from the General Fund (Fund 1001) to cover eligible costs that are incurred in the Parking Fund (Fund 6004) if the full costs of the current fiscal-year operations for parking meters has been recovered and the Department has a positive net year-end results.
- (G) The Rental Housing Inspection Program Fees are established to recover the costs of the program. If the full cost of the current-year operations for that program have been recovered, then excess revenues for the program will be committed to fund a reserve equal to one year's revenue budget for the program.

If these operations do not achieve the budgeted revenues or if program costs exceed the program budget, then resources must be transferred from the commitment of fund balance for the Rental Housing Inspection Program to cover the shortfall.

- (H) Adjust the 4th R Fund (Fund 6012) revenue and expenditure budgets as needed to deliver programs, based on actual revenues received.
- 17.3. The City Manager is authorized to make the following adjustments between Department operating budgets and CIPs or MYOPs:
- (A) Adjust the revenue budget for the City Attorney's Office and the expenditure budget in the Justice for Neighbors (JFN) (I03000100) MYOP based on the actual fees, penalties, and other revenues collected from third parties for Public Nuisance, Social Nuisance, and JFN actions brought by the City Attorney.
 - (B) Adjust the Community Development Department operating budget for spay/neuter and unaltered pet-licensing revenue accounts (Account 341380 [Program Code 13006] and 351020) and increase the Animal Care Low Income Spay/Neuter Program (I13000600) MYOP expenditure budget in the General Fund (Fund 1001) to reflect 50% of the penalty fees and 50% of unaltered pet-licensing fees collected in accordance with Sacramento City Code section 9.44.215.D.
 - (C) Adjust the revenue budget for the Convention and Cultural Services Department franchise fee to reflect actual revenues received and increase the expenditure budget by a like amount in the Old Sacramento Service Courts & Support Facilities (M17700000) CIP.
 - (D) Adjust the Convention and Cultural Services revenue budget for Memorial Auditorium Facility Fee revenues and the Memorial Auditorium Improvements (M17101000) CIP expenditure budget based on actual fees collected, less any operating costs associated with delivering this service.

2021-2026 Approved Capital Improvement Program

- (E) Adjust the Convention and Cultural Services revenue budget for SAFE Credit Union Performing Arts Center Facility Fee revenues and the Performing Arts Center Improvements (M17101800) CIP expenditure budget based on the actual fees collected, less any operating costs associated with delivering this service.
- (F) Adjust the Public Works Department revenue budget to reflect actual revenues received and the Sacramento Valley Station Operations and Management (I15001000) MYOP expenditure budget by a like amount.
- (G) Increase the Public Works Department revenue and expenditure budgets for launch-ramp activities to reflect actual revenues received and transfer any resulting year-end savings for these activities to the Harbor Dredging (M17500000) CIP if the Department has positive net year-end results.
- (H) Adjust the Public Works Department revenue budget and the expenditure budget in the Shared-Rideable Implementation (K15195100) CIP based on the actual revenues received from the Shared-Rideable permit fees, except for the portion of the fee assessed to offset parking-meter-revenue loss.
- (I) Adjust the Public Works Department revenue budget (15001021) and the expenditure budget in the Tree Planting and Replacement (R15188500) CIP based on actual revenues received in the Tree Planting and Replacement Fund (Fund 2035).
- (J) Adjust the Youth, Parks, and Community Enrichment Department revenue budget for recreation-program fees and increase the expenditure budget in the Recreation Facility Improvement (L19800200) CIP if the full cost of the current fiscal-year operations for this CIP have been recovered and the Department has positive net year-end results.
- (K) Adjust appropriations made in the Approved Budget for fleet replacements from amounts budgeted for updated fleet-replacement costs less than \$250,000 by Department and by fund and transfer expenditure budgets from Department operating budgets to the Fleet Acquisitions (I06000999) MYOP if the Department is projecting expenditure savings in excess of the transfer.
- (L) Increase the transfer from the Community Center Fund (Fund 6010) to the G/MU Fund (Fund 1001/2401) to offset the annual budget provided for in Schedule 9 for the Powerhouse Science Center (E18000400) EFP as authorized by Council through December 2048, if Transient Occupancy Tax revenues exceed budget by an amount up to \$600,000 at year-end and if the Community Center fund has positive year-end available fund balance.

2021-2026 Approved Capital Improvement Program

- (M) Increase the Youth, Parks, and Community Enrichment Department revenue budget for the all-weather sport field facility fees received and increase the expenditure budget in the Granite All Weather Field CIP (L19806000), provided that the Department has positive net year-end G/MU Fund (Fund 1001/2401) results.
- 17.4. The City Manager is authorized to make the following adjustments to CIPs and MYOPs:
- (A) Adjust the revenue and expenditure budgets in the Old Sacramento Garbage Service Courts (M17700000), Old Sacramento District Improvements (M17700100), and the Joe's Crab Shack & Rio City Café Repairs and Maintenance (B18119000) CIPs based on actual rent proceeds available after payment of all fees to the State of California and funding of annual required maintenance costs.
 - (B) Adjust revenue and expenditure budgets in the Energy Reinvestment Program (C13001900) CIP to reflect actual energy rebates and incentives received.
- 17.5. The City Manager is authorized to implement the following fiscal transactions as needed to properly manage and account for the City's Cannabis revenues and expenditures:
- (A) Adjust the Citywide revenue budgets for all Business Operations taxes relative to Cannabis activities based on actual revenues received and increase the expenditure budget in the Cannabis Policy and Enforcement (I06420000) MYOP as necessary to cover costs.
 - (B) Adjust the revenue budget for the City Manager's Office of Cannabis Management operations (02001101) to reflect actual revenues received and increase or decrease the expenditure budget in the operating budget by a like amount. At year-end excess resources must be transferred to I06420000 to offset the cost of enforcement. If there are inadequate revenues available, resources must be transferred from I06420000 to cover the actual operating costs incurred in 02001101.
 - (C) Establish or increase the revenue budget(s) for fines and administrative penalties collected in accordance with Sacramento City Code section 8.132, relating to the cultivation of cannabis, in the Department were collected and increase the expenditure budget in I06420000 to support enforcement activities based on actual revenues received.
 - (D) Adjust the revenue budget for Housing and Dangerous Building fines, fees, and penalties collected by the Community Development Department and the expenditure budget in I06420000 at year-end based on actual revenues received.

2021-2026 Approved Capital Improvement Program

- 17.6. The City Manager is authorized to implement the following fiscal transactions as needed to properly manage and account for the City's efforts toward reducing homelessness:
- (A) Adjust revenue and expenditure budgets in the Whole Person Care (I02000900) MYOP related to intergovernmental transfers received to support program activities through the performance period up to the amount of the annual program-year budget approved by the California Department of Health Care Services.

At year-end, the revenue and expenditure budgets in I02000900 will be adjusted to match actuals.
 - (B) Adjust the revenue and expenditure budgets to reflect actual contributions received from external partners in the Homeless Housing Initiatives (I02000200) MYOP to support homeless-services programs.
 - (C) Each fiscal year, unobligated G/MU Fund (Fund 1001/2401) appropriations in existence in the Office of Homeless Services (23001031) on June 30 must be transferred to the I02000200 if the Department has positive net year-end results.
 - (D) Adjust interdepartmental transfers related to the Whole Person Care (I02000900) MYOP as needed for the duration of that program.

- 17.7. The City Manager is authorized to implement any necessary financial transactions for the administration of revolving loan fund programs authorized by the City Council.

Section 18. Year-End Process and Carryover Authority.

- 18.1. Each fiscal year, all purchase-order commitments outstanding on June 30, and associated appropriations, are hereby continued.
- 18.2. If there is not a budgetary surplus in the G/MU Fund (Fund 1001/2401) at year-end, the City Manager shall suspend the G/MU Fund transfers and carryovers authorized in this section.
- 18.3. Each fiscal year, unobligated appropriations in existence on June 30 for the City Council operations budget will be carried over to the next fiscal year.
- 18.4. Each fiscal year, unobligated General Fund appropriations in existence in the Arts Stabilization budget (80001065) on June 30 must be transferred to the Cultural and Economic Vitality (I17001000) MYOP if the Department has positive net year-end General Fund results.
- 18.5. Each fiscal year, revenues in excess of budget in Building Inspection, Building Plan Check, Customer Service/Permit Counter, and Planning Operations areas

2021-2026 Approved Capital Improvement Program

of the Community Development Department must be transferred to the Development Stabilization Contingency Reserve (DSCR), consistent with the adopted DSCR policy, if the Department has positive net year-end results.

If these operations do not achieve the budgeted revenues or if program costs exceed the program budget, then resources must be transferred from the DSCR to these areas of the Community Development Department to cover the shortfall.

- 18.6. Each fiscal year, unobligated General Fund appropriations in existence in the Human Resources Department on June 30 must be transferred to the Training and Outreach (I08000300) MYOP if the Department has positive net year-end General Fund results.
- 18.7. Each fiscal year, unobligated net appropriations in existence on June 30 in the Information Technology (IT) Department operations General Fund budget and the citywide IT budget in Citywide and Community Support must be transferred to the IT Critical Infrastructure(A07000700) CIP to create a funding mechanism for future citywide technology initiatives, which the City Manager will review annually.
- 18.8. Each fiscal year, unobligated appropriations in the City's California Public Employees' Retirement System budget account(s) (413170/ 413172) that are not required to balance the budget must be transferred to the City's other post-employment benefit trust.
- 18.9. Each fiscal year, if the START Fund (Fund 2501) has a deficit, unobligated G/MU Fund (Fund 1001/2401) appropriations in existence in the Youth, Parks, and Community Enrichment Department on June 30 must be transferred to Fund 2501 to cover any deficit associated with the general- and auto-liability insurance premiums if the Department has positive net year-end General Fund results.
- 18.10. Each fiscal year, the Fleet Acquisitions (I06000999) MYOP will be reviewed and excess funds will be returned to the fund of origin.
- 18.11. Each fiscal year, unobligated appropriations in the fiscal year operating Measure U MYOPs at the close of the fiscal year must be returned to Measure U available fund balance (Fund 2401).
- 18.12. The City Manager is authorized to establish the Commercial Waste Compliance MYOP (I15220000) and each fiscal year, unobligated net appropriations in existence on June 30 in the Public Works Department (15005861) must be transferred to the Commercial Waste Compliance MYOP (I15220000).
- 18.13. Each fiscal year, any unspent Measure U Fund (Fund 2401) appropriations in the Youth, Parks, and Community Enrichment Department on June 30 must be transferred to the Measure U Park Improvements CIP (L19706000), Citywide

2021-2026 Approved Capital Improvement Program

Pool Assess/Repair CIP (L19706500), or Recreation Facility Improvements CIP (L19800200) until the backlog of deferred maintenance, for existing projects within the programs, are completed.

- 18.14 The City Manager is authorized to make all necessary budgetary adjustments to account for the interfund Loan from the Risk Fund (Fund 6502) to the General Fund (Fund 1001) related to the agreement with the City and the Natomas Basin Conservancy Loan.
- 18.15 The City Manager is authorized to transfer \$1.2 million from the FY2020/21 Economic Development Measure U MYOP (I80180900) to the Specific Plans MYOP (I22000100).

Section 19. Year-End Reporting.

- 19.1. Each fiscal year, after any adjustments specifically provided for in other sections of this resolution, all appropriations in the Operating Budget that remain unspent and unencumbered (unobligated) on June 30 will revert to the available fund balances of the respective funds. Any budgetary surplus in the G/MU Fund (Fund 1001/2401), determined as part of the fiscal year-end close process, will be reported in the AFR as Assigned for Next Year's Budget, Unassigned, or as specifically directed below or in a subsequent resolution.
- 19.2. All unrealized investment gains determined as part of the fiscal year-end close process will be reported in the AFR as Assigned for Unrealized Investment Gains, as those gains are not available for appropriation.

Section 20. Miscellaneous Controls and Considerations.

- 20.1. Expenditures by fund at the Department level must not exceed the Operating Budget as amended by any subsequent approval by the City Council or the City Manager in accordance with this resolution.
- 20.2. Subject to the City Manager's approval, projected fund deficiencies in any Department must be corrected as follows in accordance with the sections of this resolution governing transfers and appropriations by reducing expenditures in the Department (e.g., restricting purchase orders, freezing vacant positions) or by an appropriation transfer from Administrative Contingency or available fund balance, or both, subject to the provisions of section 5.
- 20.3. The City Manager is authorized to eliminate funds as required for proper accounting and fiscal management when the purpose of a fund has expired, and its fund balance has been expended.
- 20.4. In all staff reports that come before the City Council, net budgetary impacts on all funds, including indirect impacts, must be stated clearly and concisely so that the City Council has a full understanding of the financial consideration and impacts of its decisions.

2021-2026 Approved Capital Improvement Program

- 20.5. The City Manager shall begin using an equity lens in the review of all budgetary recommendations to Council including the annual budget, midyear budget and staff reports as soon as practical after development of a shared definition of equity in coordination with the community, development of associated outcomes and measures and Council's creation and adoption of an Equity Resolution.

Resolution Exhibits:

- Exhibit A – Budget Changes
- Exhibit B – Position Changes
- Exhibit C – FY2021/22 Approved Budget
- Exhibit D – 2021-2026 Approved CIP

Adopted by the City of Sacramento City Council on June 15, 2021, by the following vote:

Ayes: Members Ashby, Guerra, Harris, Jennings, Loloee, Schenirer, and Mayor Steinberg

Noes: Members Valenzuela and Vang

Abstain: None

CITY OF SACRAMENTO FACTS

The City of Sacramento was founded in 1849 and is the oldest incorporated city in California.

In 1920, city voters adopted a Charter (municipal constitution) and a City Council/City Manager form of government.

The City is divided into eight districts.

Elected members of the City Council serve a four-year term.

The Mayor is elected by all voters in the City. In 2002, voters approved a measure for the Mayor to serve full-time. All other Councilmembers are elected by district and serve part-time.

The Mayor and other Councilmembers have an equal vote in all matters.

The City of Sacramento currently encompasses approximately 100 square miles.

The current estimated population is 515,673.
