MEDIA ADVISORY/NEWS RELEASE

For Immediate Release No. 20100316-043

Home Invasion Suspect Killed

The Sacramento Police Department is investigating a home invasion which resulted in an armed suspect being shot and killed by officers.

On March 15, 2010, at 8:35 p.m., the Police Department responded to the 2000 block of O'Neil Way on a home invasion in progress. The victim was able to call 9-1-1 advising of the ongoing crime and also left the phone line open as the armed suspect tied up the victims and began to search through the residence. The victims were later identified as a 17-year- old female and a 5-year-old male Asian.

Upon arrival, officers detained a 23-year-old male Asian as he was walking away from the area. The subject was later found to be associated with the home invasion.

A sergeant and four officers took position in front of the house. To prevent the suspect from fleeing, an officer and his K9 partner "Bandit" covered the back of the house. The officer and the K9 in the back of the house observed the suspect come out into the backyard. The suspect and the officer exchanged gun fire which resulted in K9 "Bandit" being shot in the chest. The suspect retreated back into the house and then ran out through the front door still armed with a handgun. The suspect failed to follow the officer's commands to drop the weapon and was shot by fours officers positioned at the front of the house.

The victims were found tied up but uninjured inside the residence. The officer transported his K9 partner to an area hospital where he was last

diagnosed as being in stable condition.

Detectives and Crime Scene Investigators responded to the scene. Based on the preliminary investigation, it is believed the suspect, a male Asian in his 30's, came to the door and using a ruse gained entry to the house. The suspect produced a gun and tied up the victims. During the crime, it appeared the suspect was communicating with a second accomplice by cell phone. Detectives believe the second accomplice was the male who was detained by officers in the area. It is believed that the suspects are from out of town. It is unknown at this time why the suspects were in Sacramento and why they chose the victim's residence as their target. The investigation is on going and at this time no further details are being provided.

Per department policy, the officers involved in the shooting have been placed on paid administrative leave. The officers involved in the shooting have the following tenure with the Sacramento Police Department: 1, 4, 4, 5 and 11 years of service. The Sacramento Police Department is working on this investigation in conjunction with the City's Office of Public Safety Accountability and the Sacramento County District Attorney's Office.

The Sacramento Police Department urges anyone with information pertaining to this crime to contact Crime Alert at (916) 443-HELP or text in a tip to 274637 (CRIMES). Enter SACTIP followed by the tip information. Callers can remain anonymous and may be eligible for a reward of up to $1,000.

Observations:

I, Detective McDougle, am employed by the City of Sacramento Police Department where I am assigned to the Police Department's Investigations division. One of my primary responsibilities at the Police Department is to conduct cellular phone examinations.

Summary:

On 03/16/10 at approximately 0617 hours I, Det. McDougle retrieved a cell phone from the Electronic Crimes Unit lockers. Det. Burke requested the contacts, call logs, text messages and media from the phone. Det. Burke also requested that I note any 559 area code numbers. The search was based on consent. On 03/16/10 at approximately 0620 hours I started the examination of the phone.

The phone was a black LG VX8500 (Lab number: 10-79637-cp-1). The phone was a camera phone. I did not observe any 559 area code numbers in the phone. I was able to obtain the following information from the phone:

Datapilot: Contacts, Call Logs and Images

ZRT: Text Messages

(Image from Internet)

SAC. POLICE DEPARTMENT RECORDS DIVISION RECEIVED 2010 MAR 19 A 10:27

The results from the analysis were compared to the data contained in the phone. I burned the reports/images to a CD which was later provided to Det. Burke for booking. I printed the report and my observations and sent them to Records to be attached to the report.

Observations:

I, Detective McDougle, am employed by the City of Sacramento Police Department where I am assigned to the Police Department's Investigations division. One of my primary responsibilities at the Police Department is to conduct cellular phone examinations.

Summary:

On 03/16/10 at approximately 0652 hours, Det. Englefield brought three (3) cell phones into the Electronic Crime Unit Lab for examination. Det. Englefield requested the contacts, call logs, text messages and images from the phones. On 03/16/10 at approximately 0900 hours I Det. McDougle, started the examination of the phones.

1) The phone was a grey Samsung SCH-R430 (Lab number: 10-79637-cp-2). The search was based on consent. The phone was a camera phone. I was able to obtain the following information from the phone:

Datapilot: Contacts, Call Logs and Images

ZRT: Text Messages

(Image from Internet)

SACRAMENTO POLICE DEPARTMENT RECORDS DIVISION RECEIVED 2010 MAR 19 A 10:2[illegible]

2) The phone was a black Samsung Blackjack (Lab number: 10-79637-cp-3). The search was based on consent. The phone was a camera phone. The phone was on and had the following number typed on the screen: [redacted]

At approximately 0945 hours Det. Englefield advised me to stop working on the phones and that he was going to seek a warrant.

Analyst: Det. McDougle

Date: 03/16/10

At approximately 1340 hours Sgt. McCloskey advised that they had a signed written consent form for the Samsung Blackjack. Sgt. McCloskey visually confirmed and identified the phone that they had the consent for examination. The other phones were still waiting for a warrant.

I processed the black Samsung Blackjack (Lab number: 10-79367-cp-3). The search was based on a signed consent form. The phone was a camera phone. I was unable to examine the media card. I attempted to image the media card with Encase with negative results. I was able to obtain the following information from the phone:

Windows Mobile Data Viewer: Contacts, Call Logs and Text Messages

(Image from Internet)

At approximately 1440 hours, Det. Englefield called and stated the search warrant for the phones had been signed by the judge and to resume processing the evidence.

3) The phone was a silver LG CU720 (Lab number: 10-79637-cp-3). The phone was a camera phone. The phone had major damage to the screen making it un -readable. The Cellebrite phone report shows that it was unable to extract any information. I was able to obtain the following information from the phone:

Cellebrite: SIM card

(Image from Internet)

The results from the analysis were compared to the data contained in the phone. I burned the reports/images to a CD which was later provided to Det. Englefield for booking. I printed the report and my observations and sent them to Records to be attached to the report.

CASE SUMMARY
Statement of Probable Cause

The following facts have been gathered and reported to me, Sacramento Police Detective Zachary Bales, by fellow police officers and detectives involved in the investigation of case **10-79637**.

On 3-15-10 at 2125 hours Sacramento Police Department received a 911 call from a female resident of [redacted] Oneil Way, Sacramento, CA. She reported that a suspect was breaking into her residence. The phone line remained open with the dispatchers while patrol officers were responding. The dispatcher reported hearing a male voice state, "If you make it easy on me I will make it easy on you…or I will shoot you." The dispatcher also heard a male suspect on the open line ordering the victims to sit down and not move.

Upon arrival officers began to set up a perimeter around the house. OFC Carr and his partner OFC Msryan arrived in the area and detained a male suspect (Later identified as Suspect Zang Xiong) walking east away from the area of the residence carrying two large wrapped presents.

OFC Dahl and his K-9 "Bandit" responded to the rear of the residence. OFC Dahl stated that he observed a male suspect (Later identified as Meng Xiong 10-21-77) exit the rear of the residence. After identifying himself, and the suspect not complying with his orders, the dog was deployed after him. The suspect retreated back into the residence and the dog gave chase. The suspect fired a single shot striking K-9 "Bandit." OFC Dahl observed the suspect inside of the residence and fired his handgun at Suspect Meng Xiong. Suspect Meng Xiong fled through the residence and out of the front door with a .38 Blue Steel Smith and Wesson six shot revolver in his hand. Multiple officers confronted Suspect Meng Xiong and were forced to shoot him. Suspect Meng Xiong died as a result of the shooting.

Patrol officers entered the residence to find the female caller (Later identified as Victim [redacted] with her hands bound behind her back with zip-ties and duct tape covering her mouth. Also located was Victim [redacted]s 5 year old brother [redacted] also with his hands bound behind his back with zip-ties.

Detective Burke interviewed Victim [redacted] on 3/16/10 at 0023 hours. She told Detective Burke that she and her 5 year old brother were home alone when there was a knock at the door. She answered the door to find a male Asian holding two wrapped presents. The subject advised the presents were for Victim [redacted]s younger brother and sister. He gave the presents to Victim [redacted] who set them down inside the front door. The subject asked for a water, and Victim [redacted] retrieved one. The subject then stepped inside the residence and asked to use the restroom. After coming out of the bathroom, Victim [redacted] tried to escort the subject

out the front door. As the subject got to the front door, he slammed the door shut, pulled out a gun and pointed the gun at Victim [redacted] pulled out a knife, and the subject told her to drop the knife. She complied.

The subject ordered Victim [redacted] and her 5 year old brother ([redacted] to lay on the ground. The subject searched the residence, and returned to the victims. He tied the victims' hands behind their backs with plastic zip ties, and placed duct tape over Victim [redacted] mouth. Victim [redacted] believes the subject entered the residence with these items, as she didn't know of these items being in the residence. During the encounter, the suspect made or received at least three calls on his cell phone. The suspect moved the victims on two occasions to different bedrooms. Victim [redacted] advised the subject was not threatening when he told them to move. After being in the house for nearly 30 minutes, Victim [redacted] heard police yell "Put your hands up!" She then heard a gunshot, followed by a pause, then more shots, another pause, and more gunshots. After a few more minutes, the police came inside and located the victims. They were escorted out of the residence, and Victim [redacted] observed the same presents the suspect handed her. The presents were now outside by a patrol car.

While Suspect Zang Xiong was detained at the scene he stated the following in summary to OFC Ligon,

"I do not know anyone that lives in Sacramento. I came with a friend to Sacramento tonight for a wedding. The wedding starts at 9pm. I do not know the person that is getting married. I came to Sacramento today. When I got here it was kind of dark outside. I drove by myself. I drove my sister-in-laws car. It is a Highlander, I think. It is a SUV. It is black in color. I parked the car back there (pointing eastbound on O'Neil Way east of 21st).

I was in this area because I was looking for Stockton Blvd. I was following another vehicle. I was following an Acura Integra but I lost it. I was trying to go to Stockton bled but got lost. [redacted] was driving the Acura. His name is [redacted] is 25. He drives a gray Acura.

I was following [redacted] on the freeway and lost him on Meadowview. [redacted] is a friend of mine. He does not have a cell phone. When I got here (referring to O'Neil Way), I got out of the car. As I was walking, I saw the street sign and saw that it was not Stockton Blvd. I then stopped and started walking back to my car when I got stopped by the cop.

12

The presents I was carrying I got from [redacted] and his friend. The presents were in my car.

Q: Was there another guy with [redacted]?
A: He was by himself. Well I do not know who was with him.

Q: Was there a anyone with him when you left Fresno this morning.
A: No, he was by himself.

Q: Where you in the car by yourself?
A: Yes.

Q: Where were you going to stay tonight?
A: I was going to go home.

Q:You drove all the way from Fresno for a wedding and were going to turn around and go home tonight?
A:Tonight, I was going to stay the night but I am not sure where. Maybe a hotel. The car belongs to my sister -in-law

Q: Do you see [redacted] Acura anywhere around here?
A: No.

Q: At what point did you lose [redacted]?
A: I lost him after we got off the freeway. We took highway 99 and got off at Meadowview Rd. I lost him then. I then ended up by highway 5. I made a U-turn and came down this street looking for Stockton Blvd.

Q: What does [redacted] ook like?
A: He is Asian, with long hair, about 5'6, 200 pds.

(SIDE NOTE: At this time I leave the vehicle with the ICC running to speak with Ofc. Stinson. On the ICC frame from 11394 to 11881 there is no talking from the subject. At frame 11902, I get back in the car. When I get in the car subject as if he could have a smoke. I step out of the car for a few more seconds. At frame 11928, I begin speaking with the subject again).

Officer: [redacted] I have a few more questions. A very serious incident took place. I think you are not telling me the truth. We can play games or you can tell me what is really going on.

Q: What are you doing down here? The presents you were carrying are not wedding presents.
A: Definitely not.

Q: Who did you come down here with?
A: I came to pick up my brother.

Q: Who is your brother?
A: Fue Xiong

Q: Where does he live?
A: I do not know his address. He lives by Peach.

Q: What are you doing in this neighborhood?
A: I am here to pick up the presents?

Here is the truth from the beginning. Me and Fue came together. He is my brother. We came in the SUV that I told you about before. The mission, I do not know. We came from Fresno. We do not live together. He called me and said he was going to attend a wedding and wanted me to go. He said it was a relatives wedding. We left Fresno around noon. Fue drove the car down here. He drives to Sacramento. When we got here we went to eat some food. It was Vietnamese food. After we ate we came over here. I was driving the car at this time. Fue was telling me where to go. He told me to park the car where I did. He told me to stay in the car. He got out of the car and

grabbed the presents. He went walking that way (pointing westbound on O'Neil Way). He walked to the third house (pointing to [redacted] O'Neil Way). I just stayed in the car. I then got a call from Fue telling me to come pick up the presents. I got out of the car and walked up to the same house that Fue was at. The presents were outside. I grabbed the presents and started walking back to my car but I got stopped by the cops.

Q: Fue called you from a cell phone?
A: Yes, he called from my younger brother's cell phone.

Q: Who is your younger brother?
A: [redacted]

Q: Is he here with you guys?
A: No, he is in Fresno. Fue just had his cell phone today.

Q: Why did Fue want you to come get the presents?
A: I have no idea. He just told me to.

Q: When he got out of the car was he carrying anything else besides the presents?
A: Not that I saw.

Q: Have you ever seen him with a gun?
A: No.

Q: Do you know who lives at that house?
A: No.

Q: Do you know why your brother wanted to go to this house?
A: I have no idea. I am guessing something bad happened but I still have no idea what is going on."

On 3-16-10 at approximately 0038 hours, Detective Higgins talked with [redacted] is the registered owner of a 2004 Toyota Highlander [redacted] that was found at the scene. She stated she lived at [redacted] Ca. with her husband, Meng Xiong and that he should have her car. At approximately 0116 hours, 3/16/10, (Detective Higgins) talked with Zang Xiong and he stated he lived at [redacted] with his mother and his brother.

Detective Englefield was told by Fresno Police Detective Marez #477, who personally observed [redacted] CA. [redacted] is located within the City and County of Fresno . [redacted] is a single family dwelling in a neighborhood of like residences. [redacted] is [redacted] is constructed of common building materials including beige stucco and green trim. The roof is green

composition. The numbers [redacted] are affixed above the garage door in brown numbers. The front door to the residence faces south with a green security screen.

Detective Englefield was told by Fresno Police Officer Briseno #1155, who personally observed [redacted] CA. [redacted] is located within the City and County of Fresno. [redacted] is located within a multi-unit apartment complex. [redacted] is located in the northwest portion of the complex. The roof is black and blue tile. The building which [redacted] is located in has a light green exterior with white trim and a white door. The door to [redacted] faces south. The numbers [redacted] are affixed to the left side of the door frame in black numbers. Additionally, the numbers [redacted] are affixed to the center of the door and white in color with a blue background.

It has been my experience and the experience of detectives that I have spoken to that firearms and evidence related to firearm possession items may be stored at the suspects primary residence, the residences of the suspect's associates, parent(s), family members, boyfriends and/or girlfriends, co-conspirators, and/or the suspect's vehicle. These items include; ammunition, operating and maintenance manuals, gunlocks, gun cases, repair and cleaning kits, etc. Furthermore it has been my experience that these persons often view items such as credit card and other receipts for firearms and related items, such as holsters and ammunition as innocuous and having the appearance of little or no evidentiary value. These items may be kept at a residence for years. I know from my training and experience that people involved in crimes involving firearms frequently keep writings/receipts pertaining to the possession, purchase and sale/transfer of firearms at their residence or the residence of their associates, parent(s), family members, boyfriends and/or girlfriends, co-conspirators, and/or the suspect's vehicle for years.

It has been my experience and the experience of other detectives that I have spoken with that person who are involved in firearms and other related offenses will

often keep items of evidence associated with the crimes they have committed for weeks, months, and even years. They may also keep other items of evidence which may include firearms, bullets, and clothing. It has been my experience and the experience of detectives that I have spoken to that these items may be stored at the suspects primary residence, the residences of the suspect's associates, parent(s), family members, boyfriends and/or girlfriends, co-conspirators, and/or the suspect's vehicle. It has been my experience and the experience of other detectives that I have spoken to that the perpetrators of crimes will often hide evidence of the crimes including but not limited to firearms, bullets or items at the residences of associates, parent(s), family members, boyfriends and/or girlfriends, co-conspirators, and/or the suspect's vehicle to avoid detection by law enforcement officers. This evidence may include but is not limited to photos of suspects with firearms whether on paper or on computer files.

It has been my experience and the experience of other detectives that I have spoken to that people involved in criminal activity will keep writings, diaries, photos or journals, whether on paper or computers or electronic data storing devices to include hard-drives, internal files, folders, documents, and emails. These writing will often refer to criminal activity or firearm related crimes.

It is my experience and the experience of other detectives with who I have spoken that cellular phones, GPS units, computers and other electronic devices will retain information for lengthy periods and this information may be retrievable even if it deleted by the owner. It is my experience and the experience of other detectives with who I have spoken that people tend to keep phone numbers, address books, text messages and names of their co-conspirators on papers or phone books at their residence or in their cellular phones and do not generally destroy or delete them. GPS units often will retain routes programmed by the owner as well as routes taken while the GPS was tracking.

It is your affiant's opinion, that there will be additional illegal firearms, ammunition and/or the firearm utilized in the above noted case in the burglary, assault with a deadly weapon, false imprisonment, and child endangerment of Victim [redacted] her 5 year old brother [redacted] within the residence of [redacted] Oneil Way Sacramento, California.

It is also your affiants opinion that the items sought are seizable pursuant to Penal Code section 1524 (tends to show a felony was committed or that a particular person committed it, etc. was used as the means of committing a felony or is possessed by a person with the intent to use it as means of committing a public offense or is possessed by another to whom he or she may have delivered it for the purpose of concealing it or preventing its discovery) and will be found on the above mentioned premises, person or vehicles.

Based on the information set forth in this affidavit, and based on my experience and training as.a law enforcement officer for over 7 years, it is your affiant's belief that sufficient probable cause exists for the issuance of a search warrant:

YOU ARE THEREFORE COMMANDED TO SEARCH

THE PREMISE(S) KNOWN AND DESCRIBED AS:

City of FRESNO

10-79637

Why are business taxes assessed?

To help fund certain governmental services, such as police, fire, street maintenance, parks, economic development and general administration.

When are business taxes due?

Taxes are due within 30 days following the end of a Business Tax Certificate renewal period. With a few exceptions, and depending on the type of your business, the renewal period is either quarterly or annually. The City provides Business Tax Return forms for the renewal period appropriate for your business. Late fees of at least twenty percent (20%) are assessed if such taxes are not paid (or postmarked) by the due date.

How are business taxes determined?

Depending on the type of your business, business taxes are either a fixed amount (flat tax) or a variable amount based on the gross receipts of your business. The Business Tax Return form sent to you will provide the specific instructions on how to determine the proper amount of tax due.

Where are business taxes paid?

If your Business Tax Return form cannot be mailed and postmarked by the due date, you should bring your return form and payment to our office during normal business hours. The office is located on the ground floor in the "Payments" area at:

Fresno City Hall
2600 Fresno Street

Who do I contact to update my Business Tax Certificate records or to get additional information?

If the business ownership, business name, location, mailing address or phone number changes or if the business closes, you will need to visit or call our office immediately. Additional information can be obtained by calling:

(559) 621-6880

Some businesses may receive additional tax return or permit renewal forms from the City. Additional taxes or permit fees may be required if your business is located within certain special assesment districts or engaged in a particular type of business activity. Additional taxes or permit fees are required for hotels and motels (room tax), taxicab companies and drivers, cardrooms, dance halls, billiard rooms, mobile food vendors and certain other activities.

Thank you for filing your Business Tax Certificate application with the City of Fresno. Please detach and display the bottom portion in your place of business. The top portion will be helpful in answering the most commonly asked questions relating to business taxes.

Businesses that do not maintain a fixed location, or are located outside the City, should carry this Tax Certificate while conducting business within the City.

Thank you.

Supplementary Investigative Report

Observations:

I, Detective McDougle #0401, am employed by the City of Sacramento Police Department where I am assigned to the Police Department's Electronic Crimes Unit. One of my primary responsibilities at the Police Department is to conduct forensic examinations of computers and other digital evidence.

On 03/17/10 at approximately 1620 hours, Detective Walker brought the following listed items into the SPD Electronics Crime Unit for examination:

1) Sony Viao Desktop (Lab Number: 10-79637-pc-1)
2) Sony Cybershot DSC-S650 Digital Camera (Lab Number: 10-79637-dc-1)

Detective Walker requested that I examine all of the above items for any information regarding [redacted] O'Neil Way, any internet searches regarding the O'Neil address, searches regarding guns, searches regarding the victims ([redacted] or [redacted] and any tattoo shop information with regard to the suspects (Meng (Fue) Xiong or Zang Xiong). The items were searchable based on a search warrant.

Below is a summary of my findings:

1) Sony Viao Desktop (Lab Number: 10-79637-pc-1)

The operating system was shown to be Windows XP with the registered owner listed as [redacted] The computer had the following user list:

- Documents and Settings
  - All Users
  - All Users.WINDOWS
  - Default User
  - Ethan Xiong
  - LocalService
  - NetworkService

Supplementary Investigative Report

I located two (2) .pdf documents under the [redacted] user regarding the AK-47. The first was titled "AK-47 Select Fire Full Auto Conversion.pdf" The second was titled "AK47_Full_Auto_Conversion_for_Dummies.pdf" The documents were both noted in the Encase Report. They were also exported and placed on the Report CD for easier viewing.

I located a Progressive Auto Insurance Card in a .pdf document under the [redacted] user account. The name on the insurance is Zang Xiong for a 1995 Toyota Corolla LE/DX. The VIN number for the vehicle was listed as [redacted]. The policy was for January 31, 2010 through July 31, 2010. The document was noted in the Encase Report. I exported the document and placed it on the Report CD for easier viewing.

I did not located any other notable information from the keyword search.

I searched the internet history files. I did not locate any searches for [redacted], O'neil Way or tattoo shop information. I did locate several hits on the News 10 story regarding the shooting.

I located several searches for guns and gun images under the [redacted] user on 11/26/2009. Specifically the Smith and Wesson Firestorm and the EAA Witness handguns. It also showed a YouTube video for a Glock 20. I located searches of the site Lone Wolf Distributers. The site sells a variety of products including ammunition, gun parts and gun accessories.

The dates and times of those internet searches were documented in the Net Analysis reports.

2) Sony Cybershot DSC-S650 Digital Camera (Lab Number: 10-79637-dc-1):

The camera had a 1 GB Sony Memory Stick Pro Duo media card. I processed the card using Encase. The images from the card, including any deleted images retrieved, were documented in the Encase Report.

According to the online manual for the camera, it has approximately 24 MB of internal storage. I checked the camera with the media card removed. There were no files stored in the camera's memory.

I located images on the media card. The images were documented in the Encase Report.

Additional Information:
I burned the reports/images to a CD which was later provided to Det. Walker for booking. I printed the Digital Forensic Worksheet and my observations and sent them to Records to be attached to the report.

CASE SUMMARY
Statement of Probable Cause

The following facts have been gathered and reported to me, Sacramento Police Detective Vonda Walker, by fellow police officers and detectives involved in the investigation of case **10-79637**.

On 3-15-10 at 2125 hours Sacramento Police Department received a 911 call from a female resident of [redacted]Oneil Way, Sacramento, CA. She reported that a suspect was breaking into her residence. The phone line remained open with the dispatchers while patrol officers were responding. The dispatcher reported hearing a male voice state, "If you make it easy on me I will make it easy on you…or I will shoot you." The dispatcher also heard a male suspect on the open line ordering the victims to sit down and not move.

Upon arrival officers began to set up a perimeter around the house. OFC Carr and his partner OFC Msryan arrived in the area and detained a male suspect (Later identified as Suspect Zang Xiong) walking east away from the area of the residence carrying two large wrapped presents.

OFC Dahl and his K-9 "Bandit" responded to the rear of the residence. OFC Dahl stated that he observed a male suspect (Later identified as Meng Xiong 10-21-77) exit the rear of the residence. After identifying himself, and the suspect not complying with his orders, the dog was deployed after him. The suspect retreated back into the residence and the dog gave chase. The suspect fired a single shot striking K-9 "Bandit." OFC Dahl observed the suspect inside of the residence and fired his handgun at Suspect Meng Xiong. Suspect Meng Xiong fled through the residence and out of the

10-79637

front door with a .38 Blue Steel Smith and Wesson six shot revolver in his hand. Multiple officers confronted Suspect Meng Xiong and were forced to shoot him. Suspect Meng Xiong died as a result of the shooting.

Patrol officers entered the residence to find the female caller (Later identified as Victim [redacted] with her hands bound behind her back with zip-ties and duct tape covering her mouth. Also located was Victim [redacted] 5 year old brother [redacted] also with his hands bound behind his back with zip-ties.

Detective Burke interviewed Victim [redacted] on 3/16/10 at 0023 hours. She told Detective Burke that she and her 5 year old brother were home alone when there was a knock at the door. She answered the door to find a male Asian holding two wrapped presents. The subject advised the presents were for Victim [redacted] younger brother and sister. He gave the presents to Victim [redacted] who set them down inside the front door. The subject asked for a water, and Victim [redacted] retrieved one. The subject then stepped inside the residence and asked to use the restroom. After coming out of the bathroom, Victim [redacted] tried to escort the subject out the front door. As the subject got to the front door, he slammed the door shut, pulled out a gun and pointed the gun at Victim [redacted]. Victim [redacted] pulled out a knife, and the subject told her to drop the knife. She complied.

The subject ordered Victim [redacted] and her 5 year old brother [redacted] to lay on the ground. The subject searched the residence, and returned to the victims. He tied the victims' hands behind their backs with plastic zip ties, and placed duct tape over Victim [redacted] mouth. Victim [redacted] believes the subject entered the residence with these items, as she didn't know of these items being in the residence. During the encounter, the suspect made or received at least three calls on his cell phone. The suspect moved the victims on two occasions to different bedrooms. Victim [redacted] advised the subject was not threatening when he told them to move. After being in the house for nearly 30 minutes, Victim [redacted] heard police yell "Put your hands up!" She then heard a gunshot, followed by a pause, then more shots, another pause, and more gunshots. After a few more minutes, the police came inside and located the victims. They were escorted out of the residence, and Victim [redacted] observed the same presents the suspect handed her. The presents were now outside by a patrol car.

While Suspect Zang Xiong was detained at the scene he stated the following in summary to OFC Ligon,

"I do not know anyone that lives in Sacramento. I came with a friend to Sacramento tonight for a wedding. The wedding starts at 9pm. I do not know the person that is getting married. I came to Sacramento today. When I got here it was kind of dark outside. I drove by myself. I drove my

10-79637

sister-in-laws car. It is a Highlander, I think. It is a SUV. It is black in color. I parked the car back there (pointing eastbound on O'Neil Way east of 21st).

I was in this area because I was looking for Stockton Blvd. I was following another vehicle. I was following an Acura Integra but I lost it. I was trying to go to Stockton bled but got lost. [redacted] *was driving the Acura. His name is* [redacted] *s 25. He drives a gray Acura.*

I was following [redacted] *on the freeway and lost him on Meadowview.* [redacted] *is a friend of mine. He does not have a cell phone. When I got here (referring to O'Neil Way), I got out of the car. As I was walking, I saw the street sign and saw that it was not Stockton Blvd. I then stopped and started walking back to my car when I got stopped by the cop.*

The presents I was carrying I got from [redacted] *and his friend. The presents were in my car.*

Q: Was there another guy with [redacted]
A: He was by himself. Well I do not know who was with him.

Q: Was there a anyone with him when you left Fresno this morning.
A: No, he was by himself.

Q: Where you in the car by yourself?
A: Yes.

Q: Did you hear or see anything else while waiting in the patrol car?
A: I just heard the gun shots. I heard about 3 but I am not.

Q: Where were you going to stay tonight?
A: I was going to go home.

Q:You drove all the way from Fresno for a wedding and were going to turn around and go home tonight?

10-79637

A:Tonight, I was going to stay the night but I am not sure where. Maybe a hotel. The car belongs to my sister -in-law

Q: Do you see [redacted] *Acura anywhere around here?*
A: No.

Q: At what point did you lose [redacted]
A: I lost him after we got off the freeway. We took highway 99 and got off at Meadowview Rd. I lost him then. I then ended up by highway 5. I made a U-turn and came down this street looking for Stockton Blvd.

Q: What does [redacted] *ook like?*
A: He is Asian, with long hair, about 5'6, 200 pds.

(SIDE NOTE: At this time I leave the vehicle with the ICC running to speak with Ofc. Stinson. On the ICC frame from 11394 to 11881 there is no talking from the subject. At frame 11902, I get back in the car. When I get in the car subject as if he could have a smoke. I step out of the car for a few more seconds. At frame 11928, I begin speaking with the subject again).

Officer: Zang I have a few more questions. A very serious incident took place. I think you are not telling me the truth. We can play games or you can tell me what is really going on.

Q: What are you doing down here? The presents you were carrying are not wedding presents.
A: Definitely not.

Q: Who did you come down here with?
A: I came to pick up my brother.

Q: Who is your brother?
A: Fue Xiong

Q: Where does he live?

10-79637

A: I do not know his address. He lives by Peach.

Q: What are you doing in this neighborhood?
A: I am here to pick up the presents?

Here is the truth from the beginning. Me and Fue came together. He is my brother. We came in the SUV that I told you about before. The mission, I do not know. We came from Fresno. We do not live together. He called me and said he was going to attend a wedding and wanted me to go. He said it was a relatives wedding. We left Fresno around noon. Fue drove the car down here. He drives to Sacramento. When we got here we went to eat some food. It was Vietnamese food. After we ate we came over here. I was driving the car at this time. Fue was telling me where to go. He told me to park the car where I did. He told me to stay in the car. He got out of the car and grabbed the presents. He went walking that way (pointing westbound on O'Neil Way). He walked to the third house (pointing to [redacted] O'Neil Way). I just stayed in the car. I then got a call from Fue telling me to come pick up the presents. I got out of the car and walked up to the same house that Fue was at. The presents were outside. I grabbed the presents and started walking back to my car but I got stopped by the cops.

Q: Fue called you from a cell phone?
A: Yes, he called from my younger brother's cell phone.

Q: Who is your younger brother?
A: [redacted]

Q: Is he here with you guys?
A: No, he is in Fresno. Fue just had his cell phone today.

Q: Why did Fue want you to come get the presents?
A: I have no idea. He just told me to.

Q: When he got out of the car was he carrying anything else besides the presents?

10-79637

A: Not that I saw.

Q: Have you ever seen him with a gun?
A: No.

Q: Do you know who lives at that house?
A: No.

Q: Do you know why your brother wanted to go to this house?
A: I have no idea. I am guessing something bad happened but I still have no idea what is going on."

Ransom. [redacted] also told Det. Vigon that Meng Xiong owns a tattoo shop called Oriental Tattoo and it is located on Blackstone near Shields.

On 3-17-10 Det. Vigon received a call from Fresno Police Det. Marez who confirmed the information received from [redacted] and [redacted] and provided Det. Vigon with the legal description of the Oriental Tattoo Business on Blackstone which Det. Marez personally observed.

In light of the information gathered during the execution of the original search warrant and the motive for the crime has not been determined, investigators feel that it is necessary to conduct a search of Oriental Tattoo located at 2129 Blackstone Avenue, Fresno California. This business is owned and operated solely by Meng Xiong, and may be used to conceal information, computers, firearms and or other items for illegal activity that will reveal his connections or motives with the victim's located in Sacramento. It is very probable that the suspect Meng Xiong used this location to secrete the above items due to his exclusive control of the premises.

It has been my experience and the experience of detectives that I have spoken to that firearms and evidence related to firearm possession items may be stored at the suspects primary residence, the residences of the suspect's associates, parent(s), family members, boyfriends and/or girlfriends, co-conspirators, and/or the suspect's vehicle. These items include; ammunition, operating and maintenance manuals, gunlocks, gun cases, repair and cleaning kits, etc. Furthermore it has been my experience that these persons often view items such as credit card and other receipts

10-79637

for firearms and related items, such as holsters and ammunition as innocuous and having the appearance of little or no evidentiary value. These items may be kept at a residence for years. I know from my training and experience that people involved in crimes involving firearms frequently keep writings/receipts pertaining to the possession, purchase and sale/transfer of firearms at their residence or the residence of their associates, parent(s), family members, boyfriends and/or girlfriends, co-conspirators, and/or the suspect's vehicle for years.

It has been my experience and the experience of other detectives that I have spoken with that person who are involved in firearms and other related offenses will often keep items of evidence associated with the crimes they have committed for weeks, months, and even years. They may also keep other items of evidence which may include firearms, bullets, and clothing. It has been my experience and the experience of detectives that I have spoken to that these items may be stored at the suspects primary residence, the residences of the suspect's associates, parent(s), family members, boyfriends and/or girlfriends, co-conspirators, and/or the suspect's vehicle. It has been my experience and the experience of other detectives that I have spoken to that the perpetrators of crimes will often hide evidence of the crimes including but not limited to firearms, bullets or items at the residences of associates, parent(s), family members, boyfriends and/or girlfriends, co-conspirators, and/or the suspect's vehicle to avoid detection by law enforcement officers. This evidence may include but is not limited to photos of suspects with firearms whether on paper or on computer files.

It has been my experience and the experience of other detectives that I have spoken to that people involved in criminal activity will keep writings, diaries, photos or journals, whether on paper or computers or electronic data storing devices to include hard-drives, internal files, folders, documents, and emails. These writing will often refer to criminal activity or firearm related crimes.

10-79637

It is my experience and the experience of other detectives with who I have spoken that cellular phones, GPS units, computers and other electronic devices will retain information for lengthy periods and this information may be retrievable even if it deleted by the owner. It is my experience and the experience of other detectives with who I have spoken that people tend to keep phone numbers, address books, text messages and names of their co-conspirators on papers or phone books at their residence or in their cellular phones and do not generally destroy or delete them. GPS units often will retain routes programmed by the owner as well as routes taken while the GPS was tracking.

It is your affiant's opinion, that there will be additional illegal firearms, ammunition and/or the firearm utilized in the above noted case in the burglary, assault with a deadly weapon, false imprisonment, and child endangerment of Victim [redacted] her 5 year old brother [redacted] within the residence of [redacted] Oneil Way Sacramento, California.

It is also your affiants opinion that the items sought are seizable pursuant to Penal Code section 1524 (tends to show a felony was committed or that a particular person committed it, etc. was used as the means of committing a felony or is possessed by a person with the intent to use it as means of committing a public offense or is possessed by another to whom he or she may have delivered it for the purpose of concealing it or preventing its discovery) and will be found on the above mentioned premises, person or vehicles.

Based on the information set forth in this affidavit, and based on my experience and training as a law enforcement officer for over 7 years, it is your affiant's belief that sufficient probable cause exists for the issuance of a search warrant:

YOU ARE THEREFORE COMMANDED TO SEARCH

THE PREMISE(S) KNOWN AND DESCRIBED AS:

Observations:

I, Detective R. Gilleland #371, am employed by the City of Sacramento Police Department where I am assigned to the Police Department's Electronic Crimes Unit. One of my primary responsibilities at the Police Department is to conduct forensic examinations of computers, cell phones and other digital evidence.

On 03-16-10 at approximately 0652 hours, Detective Englefield walked into the SPD ECU carrying three cell phones and one GPS unit. Detective Englefield requested that we examine the below listed devices based on the listed authorities;

1. Garmin GPS (Lab # 10-79637-gp-1) Consent
2. Samsung cell phone (Lab # 10-79637-cp-2) Consent (processed by Detective McDougle)
3. Samsung cell phone (Lab # 10-79637-cp-3) Consent (processed by Detective McDougle)
4. LG cell phone (Lab # 10-79637-cp-4) Owner deceased (processed by Detective McDougle)

On 03-16-10 at approximately 0652 hours, I began processing the Garmin GPS. I created an Encase image of the device and extracted the units '.GPX' files.

According to Garmin's website;
Garmin mass storage devices send and receive data in the form of files. For user data the file format is GPS Exchange (.gpx), which is a de-facto standard for the exchange of waypoints, routes, and tracks used by many applications.

According to topografix.com;
GPX (the GPS Exchange Format) is a light-weight XML data format for the interchange of GPS data (waypoints, routes, and tracks) between applications and Web services on the Internet.

I imported the '.GPX' files into Google Earth and examined the Tracks. At approximately 0930 hours reported some preliminary findings to Detective Englefield at his desk.

On 03-16-10 at approximately 0945 hours, Detective Englefield walked into the SPD ECU and asked that Detective McDougle and I temporarily stop processing the above listed items of evidence.

On 03-16-10 at approximately 1440 hours, Detective Englefield called my desk phone and stated that a search warrant had been signed and to resume processing the evidence.

Using Google Earth, I continued my review of the .GPX files. I created screen captures showing each of the 'Waypoints' that were stored on this Garmin GPS. I also created screen captures of the Tracks that were stored on the Garmin GPS showing the start and end of each of the routes as well as the full paths. I also created videos of many of the Tracks routes which will be included on a CD and provided to the investigating detective.

I created detailed descriptions of the routes stored in this GPS for the March 15th, 2010.

Dear Chief Braziel:

The District Attorney's Office, as an independent agency, has completed its investigation and review of the above-referenced officer involved shooting. Issues of civil liability, tactics, and departmental policies and procedures were not considered. FACTUAL SUMMARY:

On March 15, 2010, at approximately 2035 hours, Sacramento Police Department Communications center received a transfer call from California Highway Patrol Dispatch regarding a burglary in progress. The female caller, later identified as victim [redacted] had left her cellphone line open and SPD Communications could hear into her home located at [redacted] O'Neil Way. SPD Communications could hear a male voice on the other end of the line warning the victim to cooperate and advising her that he had a gun.

According to the victim, an Asian male, later identified as Meng Xiong, knocked on her front door. She answered the front door and noticed Xiong was holding two presents that were in wrapping paper. One present was wrapped in Spiderman paper and the other was wrapped in Tinkerbell paper. Xiong stated the presents were for her little brother and little sister. He then asked for a glass of water. The victim told Xiong to wait outside while she procured the glass of water. She brought Xiong a bottle of water and then Xiong asked to use the restroom. The victim allowed Xiong into her home to use the bathroom, and he set the presents down inside the door of the house. The victim's little brother was next to her the entire time. While Xiong was in the bathroom, the victim grabbed a knife and put it into her pocket. Xiong came out of the bathroom and was walking toward the front door. When he got to the front door, he slammed the front door shut, and pulled out a gun. Xiong then put on dark colored, cotton-type gloves. The victim then pulled out the knife and started backing up into a corner of the living room. Xiong ordered the victim to drop the knife or he would shoot her. After she dropped the knife, Xiong ordered the victim and her brother to lie face down on the floor. She did as instructed, and then reached into her pocket to find her cellphone. She called 911 via the cellphone while Xiong was searching her house, and advised dispatch that that there was a "robber" in the house. The victim did not terminate the call but slid the cellphone under the couch with the line still open to dispatch. The victim estimated that Xiong was in her home for less than 30 minutes. She had dialed 911 not long after he slammed shut the front door to the house. When Xiong came back into the living room, he used zipties on the victim's wrists to tie her hands behind her back and placed duct tape over her mouth. Xiong then put zipties on the victim's brother's wrists and tied his hands behind his back.

Xiong asked the victim questions regarding who resided at the house, the location of her mother, and the time her mother would be coming home. The victim kept asking Xiong questions (through the tape on her mouth), but he would not answer her. Xiong told her that he would not hurt her but that he would shoot her if she "tried something." Xiong then asked the victim the location of her bedroom. The victim pointed toward her bedroom and Xiong walked the victim and her brother into the room. Xiong looked out the bedroom window and signaled to someone outside of the house. The victim saw a flash of light and heard someone outside of her house. She could see lights "flicking on and off" from outside and noticed Xiong did not panic. Xiong

told the victim and her brother to sit on the floor or he would shoot them. Xiong told the victim and her brother to remain in the room. Xiong was continuing to look out the windows and was speaking on his cellphone in the Hmong language. The victim speaks the Mien language and could not understand Xiong's conversation. Xiong then moved the victim and her brother into the master bedroom and told them to lie face down on the floor. Xiong left the room, and a few minutes later the victim heard gunshots.

SPD Officer Dahl responded to the scene after hearing dispatch broadcasting a possible burglary in progress with an open line. As he responded to the scene he heard updates from dispatch regarding a male in the residence having a gun. He responded with lights and sirens, but he shut down his sirens before arriving on the street. He then drove to the address, parked his patrol vehicle at the northwest corner of 21st Street, and left the headlights and spotlights illuminated on his patrol vehicle. Officer Dahl was in full uniform, in a marked patrol vehicle, and he had his K-9 partner Bandit with him. Other officers had arrived on scene prior to Officer Dahl's arrival and the Air-1 air unit was present on scene. Air-1 was calling out updates, coordinates and perimeter positions for the officers on the ground. Officers Trefethen, Wolfe, Richardson, and McPhail were positioned in front of the residence. Officers Carr and Msryan, both in full uniform and in a marked two-man patrol vehicle, arrived and had detained a male subject, later identified as Xiong's brother Zang Xiong.

Officer Trefethen, who was in full police uniform, initially went up to the victim's house and sought cover. The headlamps on the patrol vehicle were on and Officer Trefethen had his shotgun aimed at the house. Officer Trefethen observed Xiong looking out of the blinds through a window toward the officers in the street. Officer Wolfe met up with Trefethen, behind Trefethen's patrol vehicle, and drew his handgun. Two spotlights from the patrol vehicle were utilized to completely light up the front of the house.

Officer Richardson and Officer McPhail were positioned across the street from the target residence, to the left of Trefethen and Wolfe. McPhail and Richardson were wearing modified plain-clothes outfits with raid vests that identified them as police officers. They had a clear and unobstructed view of the doorway of the target house. Officer Richardson had his rifle pointed at the front door of the house.

Officer Dahl then decided to enter the backyard of the residence. He pulled Bandit out of the patrol vehicle and proceeded toward the residence. He contacted the residents at the next house and they let him into their house and their backyard. There was a cyclone fence separating the two backyards. Officer Dahl and Bandit proceeded over the fence into the backyard of the victim's residence and took prone positions in the corner of the backyard.

Shortly thereafter, Air-1 left the scene to refuel and approximately 5-minutes later, Officer Dahl heard the slider door opening slowly. Dahl observed a dark figure walk out of the residence, later identified as Xiong, trying to walk quietly into the backyard. Xiong had his back to Officer Dahl and after walking about twenty-feet, Dahl called out to Xiong to show his hands. Xiong then

immediately turned toward Dahl and then made a motion as if he was going to go run back towards the residence. Officer Dahl gave Bandit the command to "apprehend." Xiong began running into the residence and Bandit ran after Xiong and they both entered the residence. Officer Dahl ran after both of them and then heard a gunshot.

Officer Dahl entered the residence and saw Bandit on the floor in the kitchen apparently injured trying to get up. Dahl then looked into the hallway and observed Xiong, who was dressed in all black, walking down the hallway with a gun in his hand. Knowing that Xiong was armed and believing that he had already shot Bandit, Dahl fired several shots at Xiong, but stopped firing as he could not ascertain the location of the female victim. Officer Dahl lost sight of Xiong but then heard several gunshots from outside of the front of the residence. Dahl grabbed Bandit, who was unable to walk, and ran out of the house via the backyard. He broke down the fence to the front of the house and ran to his patrol vehicle. Dahl drove Bandit to the VCA Veterinary Hospital in Sacramento where it was confirmed Bandit had received a gunshot wound to the left shoulder.

Officer McPhail had heard yelling coming from the backyard of the house he was watching. He could not make out what was being said and did not know for certain if it was Officer Dahl yelling. He then heard the sound of a loud pop and thought it was a gunshot. Officer Richardson also heard the shot and the sound of a dog crying. Officer Richardson then observed the front door of the house open and Xiong started to exit the house and then quickly reentered the house. Officer McPhail and Officer Richardson then heard approximately five more shots coming from the victim's house. Officer McPhail did not hear any radio traffic and was concerned that Officer Dahl was involved in a gunfight or had been shot. Richardson then observed Xiong looking out of the front window of the house toward the street. He looked out the window approximately two different times. Officer Wolfe also heard the one gunshot toward the back of the house. He then heard four or five gunshots come from inside of the house. Officer Wolfe feared that Xiong had executed the family in the house. Additionally, Officer Trefethen heard the first gunshot followed by multiple gunshots. Trefethen feared that Xiong had shot the victims inside of the house

Officer Wolfe then heard the screen open on the front door. He observed Xiong running out of the house with a handgun in his hand. Officer Wolfe ordered Xiong to show his hands and drop the handgun. Other officers were also shouting to Xiong to drop the handgun. Xiong ignored the commands and continued to move forward toward the front of the yard with the handgun in his right hand. Aware that there were victims in the home and believing they may have been hurt or executed, coupled with the fact that Xiong ignored the directives from the police officers, Officer Wolfe felt Xiong was a threat to officer safety and then fired his handgun multiple times toward Xiong.

Officer Trefethen felt Xiong was a threat to his own safety, other officers' safety, and public safety as Xiong held the gun in a horizontal position toward the officers. Officer Trefethen fired his shotgun at Xiong.

Officer McPhail, too, had observed Xiong running out of the front door of the house with a handgun in his hand. Due to the fact that Officer McPhail was aware of the burglary in progress, knew that Xiong was armed with a gun, overheard via dispatch the threats the suspect made to the victim if she did not cooperate, and the fact that Officer Dahl's condition was unknown, Officer McPhail was concerned that the female victim or Officer Dahl had been shot. He was also fearful for his own safety and fearful that Xiong would attack other officers or other people in front of the house. Officer McPhail fired two rounds from his handgun toward Xiong.

Officer Richardson, who feared that Xiong had executed the victims in the house and saw Xiong running with a handgun toward the officers, fired his rifle twice at Xiong. Officer Richardson felt Xiong was a threat to the police officers.

An officer yelled that Xiong was down and all officers stopped firing their weapons. Officers approached the house and Xiong, who was lying about fifteen feet from the front door. Officer Wolfe observed that Xiong was bleeding. Unsure if he was still alive, Wolfe handcuffed Xiong to ensure he did not have access to weapons and to enable officers to clear the residence. The handgun Xiong was using was lying nearby on the ground. Officers called for a medic and covered the front door of the residence while other officers entered. The female victim and her brother were found in a bedroom. The female victim had duct tape over her mouth and her wrists were bound with zipties. Her brother's wrists were also bound with zipties.

Paramedics arrived and pronounced Xiong dead at the scene at 2108 hours. His body was transported to the Sacramento County Coroner's Office.

Dr. Elizabeth Albers, a Forensic Pathologist with the Sacramento County Coroner's Office, indicated in her autopsy report dated March 20, 2010 that the cause of death was from gunshot wounds to the head and abdomen. Xiong also had non-fatal gunshot wounds to his left thigh and upper abdomen. Post-mortem toxicology results were negative for the presence of alcohol or drug usage.

The District Attorney's Consolidated Intake Division reviewed the case and filed charges against Zang Xiong on March 18, 2010 in Case 10F01628, for violations of Penal Code Section 182(a)(1), conspiracy; Penal Code Section 211, robbery; Penal Code Section 459 1st, residential burglary; and Penal Code Section 600(a), injuring a police dog. That matter is still pending.

LEGAL ANALYSIS:

A peace officer may use deadly force under circumstances where it is reasonably necessary for self-defense or defense of another. Additionally, an officer who had reasonable cause to believe a person has committed a public offense or is a danger to others may use reasonable force to affect arrest or detention, to prevent escape or to overcome resistance. (*Tennessee v. Garner* (1985) 471 U.S. 1; *Graham v. Connor* (1989) 490 U.S. 386; *Kortum v. Alkire* (1977)

69 C.A. 3d 325; California Penal Code Section 853a; CALCRIM 2670.) An officer who attempts to arrest or detain a person need not retreat or desist from his efforts by reasons of the resistance or threatened resistance of the person; nor shall the officer be deemed an aggressor or lose the right to self-defense by use of reasonable force. (California Penal Code section 835a.) Police may use some degree of physical coercion or threat thereof to accomplish an arrest. The force used must be objectively reasonable, considering such issues as the severity of the crime, whether the suspect posed an immediate threat to police or others, and whether the suspect actively resisted arrest or attempted flight. (*Graham v. Connor* (1989) 490 U.S. 386.) The reasonableness inquiry takes into account those facts known to the officer at the moment he or she uses deadly force to apprehend a fleeing suspect. (*Ford v. Childers* (7th Cir. 1988) 855 F.2d. 1271, 1275; *Sherrod v. Berry* (7th Cir. 1988) 856 F.2d 802, 804.)

The person being detained or arrested may be subjected to such restraint as is reasonably necessary for his arrest and detention and has a concomitant duty to permit himself to be detained. (*People v. Allen* (1980) 109 C.A.3d 981, 985; CALCRIM 2670, 2671, 2672.) The rule "requires that the officer's lawful conduct be established as an objective fact; it does not establish any requirement with respect to the defendant's mens rea." (*People v. Jenkins* (2000) 22 Cal.4th 900, 1020.) California law permits the use of deadly force if the officer actually and reasonably believed he was in imminent danger of death or great bodily injury. (CALCRIM 3470.) An officer who uses deadly force must actually believe that force is necessary. The appearance of danger is all that is necessary; actual danger is not. (*People v. Toledo* (1948) 85 Cal.App.2d 577; *People v. Jackson* (1965) 233 Cal.App.2d 639.) Thus, the officer may employ all force reasonably believed necessary. (CALCRIM 3470.) The reasonableness of a particular use of force must be judged from the perspective of a reasonable officer on the scene, rather than with 20/20 hindsight. The calculus of reasonableness must embody allowance for the fact that police officers are often forced to make split-second judgments—in circumstances that are tense, uncertain, and rapidly evolving—about the amount of force that is necessary in a particular situation. (*Graham v. Connor* (1989) 490 U.S. 386.)

Applying these legal principles to the factual circumstances, Officers Dahl, McPhail, Richardson, Trefethen, and Wolfe had a right to act in defense of themselves and in defense of others. All had probable cause to believe that Xiong had committed a felony offense and Xiong was to be apprehended for that felony offense. All officers had information that Xiong was armed and had given verbal threats to the victim inside of the residence. Moreover, during the situation, Xiong had been observed looking outside of the windows toward the officers on the street. Thus, he was aware law enforcement officers were attempting to apprehend him. When Officer Dahl attempted to effectuate the arrest in the backyard, Xiong evaded police detection and shot the K-9 Officer Bandit. When Xiong exited the residence via the front door, he refused to comply with verbal directives and he aggressively held a handgun in a threatening manner in the presence of officers. Based on the totality of the circumstances, the officers reasonably believed that Xiong was going to harm them or the other officers present at the scene. Officer Dahl's knowledge that Xiong shot K-9 Officer

Bandit supported the reasonable belief that Xiong had a dangerous weapon and would attack officers. Meng Xiong's actions placed Officers Dahl, Trefethen, Wolfe, McPhail, and Richardson in imminent danger of death or serious bodily injury. Faced with this threat of death or serious bodily injury, these officers were entitled to use deadly force to defend themselves and other officers.

Given the circumstances, these officers were justified in using deadly force in self-defense and in defense of others. We find the shooting to be lawful and will take no further action in this matter.

Very truly yours,

JAN SCULLY

Document: **06 DETECTIVE SUPPLEMENT**
Author: **3161 - BALES, ZACHARY 4009**
Subject: **OFC McPhail's Statement**
Related date/time: **Mar-16-2010 (Tue.) 150**

On 3-16-10 at approximately 0150 hours (note the time depicted on the recording is incorrect due to daylight savings time) I observed Sergeant Martinson secured OFC Mcphail's magazines and weapon. He then counted the rounds. I then obtained OFC McPhail's statement. Also present during the interview was OFC McPhail's attorney Jeff Edwards. (See OFC McPhail's statement) This statement was audio and video recorded, for exact details please refer to the recording. I later booked a copy of the interview into evidence. A summary of this interview was transcribed by Police Clerk II Alexandra Lynn. I reviewed the below transcription and ensured its accuracy.

Sgt. Martinson: Hey Matt, what we're going to do first is look at your guns and ammunition.

Ofc. McPhail: Okay.

Sgt. Martinson: Before the Detective comes in here. This will be your replacement gun. I gotta get some bags.

Ofc. McPhail: Okay.

Atty. Jeff Edwards: And then soon we can get out.

Ofc. McPhail: Yep.

Sgt. Martinson: Okay. Let's see if we can do this and not block all the cameras. Okay. Let's do this for the armorer. And then we're going to do it. Okay, let's, have you reloaded?

Ofc. McPhail: No.

Sgt. Martinson: Changed any rounds in your magazines at all.

Ofc. McPhail: No.

Sgt. Martinson: Okay, everything's the same as?

Ofc. McPhail: Yes, the same way as when I holstered it.

Sgt. Martinson: Okay can I see your magazines please? How many magazines do you have?

Ofc. McPhail: Two extras plus the one that's in the firearm.

Sgt. Martinson: Okay and do you usually just completely load your magazines before you put them in your pouches there?

Ofc. McPhail: Yes.

Sgt. Martinson: And the one in your handgun, is that completely loaded?

Ofc. McPhail: Yes.

Sgt. Martinson: Do you do that every time or just some times or?

Ofc. McPhail: As soon as I finish at the range or wherever I've been practicing, fill it back up. Clean it, fill it back up.

Sgt. Martinson: Okay and the one in your hand gun do you, when you put on in the chamber, do you, back fill the magazine after that?

Ofc. McPhail: Yes.

Sgt. Martinson: Okay this is the first magazine out of his pouch. Put this out of the way.
One-two-three-four-five-six-seven-eight-nine-ten-eleven-twelve. You wanna just take a quick picture? Okay, that's good. Alright, second one.
One-two-three-four-five-six-seven-eight-nine-ten-eleven-twelve. You want to just mark this number seven?

Dt. Bales: You just mark this one number one and I'll mark this number two.

Sgt. Martinson: Now these came out of his belt.

Dt. Bales: I've got magazine pouch number one written on this one, and magazine pouch number two on this one.

Sgt. Martinson: Okay, can I see your hand gun please?

Ofc. McPhail: Sure.

Sgt. Martinson: See guys? An empty gun? Okay that's the one from the

chamber and we've got one-two-three-four-five-six-seven-eight-nine-ten. Here's that.

Dt. Bales: Sarge will you read me the serial number off that?

Sgt Martinson: Oh off the gun?

Ofc. McPhail: [redacted].

Sgt. Martinson: Okay let me put on these glasses. Yeah, just like he said, [redacted].

Sgt. Martinson: Okay, we'll take this. Here is your ammunition. There you go.

Ofc. McPhail: Can I load it?

Sgt. Martinson: Yeah go ahead. Okay.

Dt. Bales: Go ahead and load up and I'll be right with you.

Ofc. McPhail: Yep.

Det. Bales: Hey Matt do you want a bottle of water or anything?

Ofc. McPhail: You know, that might not be a bad idea in case my mouth gets dry.

Det. Bales: Okay, sure, I'll grab you one.

Ofc. McPhail: Thank you.

Det. Bales: Alright, I'm Zach Bales.

Atty. Jeff. Edwards: Jeff Edwards.

Det. Bales: Jeff Edwards?

Atty. Jeff Edwards: Yeah.

Det. Bales: Nice to meet you. And I know I've met you before.

Ofc. McPhail: Yeah

Det. Bales: I saw you earlier today.

Ofc. McPhail. Yeah

Det. Bales: Okay, so what this is, is I'm going to ask some background questions and then we'll go over the incident itself okay?

Ofc. McPhail: Okay.

Det Bales: Let's start off with your full name?

Ofc. McPhail: My first name is Matthew, M-a-t-t-h-e-w. Middle name is Paul, P-a-u-l. Last name McPhail, M-c-P-h-a-i-l.

Det. Bales: And your date of birth?

Ofc. McPhail: [redacted]

Det. Bales: [redacted]. What is your badge number?

Ofc. McPhail: Four-four-three.

Det. Bales: Okay. How long have you been sworn with the Department?

Ofc. McPhail: A little over four years.

Det. Bales: Alright and what is your current assignment?

Ofc. McPhail: Well I have a temporary assignment to CST (Crime Strategies Team), but otherwise my, my current long term assignment is Patol.

Det. Bales: Okay. And what's the mission at the Crime Strategies Team? What is your role there?

Ofc. McPhail: The team basically moves around the city and addresses problems on a, on a weekly basis as crime trends pick up in one part of the city. They try to move my unit of officers into that area to specifically address those problems whether it's burglaries, robberies or gang problems, anything of that nature.

Det. Bales: Okay, and how long have you been on that, on the CST team?

Ofc. McPhail: Three weeks or so now.

Det. Bales: Okay.

Ofc. McPhail: Yeah. Mid February.

Det. Bales: Mid February?

Ofc. McPhail: Yeah.

Det. Bales: Okay and have you had any other assignments other than Patrol and the CST team?

Ofc. McPhail: No.

Det. Bales: No other temporary assignments or anything like that?

Ofc. McPhail: Nope.

Det. Bales: Okay and ah, how, what training have you been through starting, starting with the Academy?

Ofc. McPhail: Well throughout the Academy we have, I guess, let me ask you a question, is this firearms specifically or just training in general?

Det Bales: Give me general training.

Ofc. McPhail: We have six months at the Academy where they address everything from legal procedures to California state laws to self-defense, firearms training, investigation of crimes, how to talk to people, how to write reports, emergency vehicle operation, I guess a number of things. I attended a couple of classes outside the Academy. I took a DUI training course. I have expressed some interest in joining the hostage negotiation team and so I've gone to some conferences for that in the past. That's, that's pretty much it.

Det. Bales: Okay. Alright, any other schools that you've been to other than the, the conferences you mentioned or anything like that?

Ofc. McPhail: No, no.

Det. Bales: Okay. I see you are not in the standard, the standard patrol uniform because you are on the CST team. Can you tell me what your uniform is?

Ofc. McPhail: Well, it's I guess it would be like a modified plain clothes

or semi-tactical dress. It's like Kevlar clothing underneath and then obviously the raid vest to be able to identify myself as a police officer so that I'm not just walking around with a duty belt and a t-shirt.

Det. Bales: Okay. And you're wearing a ballistic vest under that?

Ofc. McPhail: I am, yes.

Det. Bales: Okay and that, vest is just marked on the back as well, is that correct?

Ofc. McPhail: It is on the front and the back it says police with a badge on the front left breast.

Det. Bales: And you have your full duty belt on that as well?

Ofc. McPhail: Correct. It is the same duty belt I wear with a typical police officers uniform.

Det. Bales: Okay and the weapon we took from you earlier and switched out, that is the weapon you were carrying with you tonight?

Ofc. McPhail: Yes.

Det. Bales: Okay and that is a, that is a Sig Saur and the serial number was [redacted]?

Ofc. McPhail: Correct.

Det. Bales: What caliber is that?

Ofc. McPhail: It's a forty caliber.

Det. Bales: And do you know what model it is?

Ofc. McPhail: P-two-two-six.

Det. Bales: Okay, alright. Is there any additional equipment that is on that pistol, such as, that is usually carried such as tactical lighting or night sights or anything like that?

Ofc. McPhail: Nope, it's completely standard issue.

Det. Bales: Okay. Do you have any back-up weapons that you carry with you?

Ofc. McPhail. Ah no, not in patrol no.

Det. Bales: Okay. When is the last time that you qualified with your pistol?

Ofc. McPhail: I believe it was early February or late January something, last month and a half, two months.

Det. Bales: Okay, within the last two months right?

Ofc. McPhail: Yes.

Det. Bales: And you qualified with that weapon you were carrying tonight?

Ofc. McPhail: The one that I, was in my possession earlier, yes.

Det. Bales: Okay.

Ofc. McPhail: Yeah.

Det. Bales: Alright and the weapon was fully loaded?

Ofc. McPhail: It was.

Det. Bales: And who loaded it?

Ofc. McPhail: I did.

Det. Bales: Do you always load, load your weapon in the same manner?

Ofc. McPhail: I do, yes.

Det. Bales: At any time have you ever short loaded it or anything like that?

Ofc. McPhail: Nope.

Det. Bales: Alright. Prior to today what was your last shift that you worked?

Ofc. McPhail: It would have been last Thursday.

Det. Bales: Okay so today was your first day back after your weekend?

Ofc. McPhail: Yes.

Det. Bales: Okay and what hours do you normally work?

Ofc. McPhail: CST is a little bit dynamic, the schedule changes occasionally. But all last week I worked from 1pm to 11pm.

Det. Bales: Okay and then today was your first day back?

Ofc. McPhail: Correct.

Det. Bales: And then what was your shift today?

Ofc. McPhail: Same time as scheduled, one pm to eleven.

Det. Bales: Okay. And did you have a full nights' sleep last night?

Ofc. McPhail: I did, yes.

Det. Bales: Okay, alright. Now were going to go to just some background of the call itself. When were you notified of the call?

Ofc. McPhail: Well I don't recall the exact time, but I can tell you where I was.

Det. Bales: Okay.

Ofc. McPhail: I was in a patrol car riding in the front passenger seat. Officer Richardson was driving the patrol car that we were in. He's also assigned to the CST team and we were driving south on Interstate Five, maybe somewhere around 43rd Avenue, give or take. And we were just heading back down into South Sacramento as part of our patrol duties or assignment duties for the night.

Det. Bales: Okay. Was the patrol car you were driving a fully marked patrol car?

Ofc. McPhail: Yes.

Det. Bales: Okay, so it was a standard patrol car?

Ofc. McPhail: Correct.

Det. Bales: Okay and who's driving, you or Officer Richardson?

Ofc. McPhail: Officer Richardson was.

Det. Bales: So you were the passenger officer?

Ofc. McPhail: I was.

Det. Bales: What was your call sign tonight?

Ofc. McPhail: TAC-seven-five.

Det. Bales: Okay, when the call came out do you remember the circumstances of the call?

Ofc. McPhail: Yeah initially it sounded like a burglary or possibly a home invasion. There was a female on the phone and she, I believe it said she was whispering. And she was, sounded like she was trying to indicate to police that someone was inside her house.

Det. Bales: Okay, so what type of call, what type of call was it?

Ofc. McPhail: A burglary in progress.

Det. Bales: A burglary in progress okay. Now besides you and Officer Richardson was anybody else dispatched to the call?

Ofc. McPhail: Several other officers were dispatched, Officer Richardson and I put ourselves on the call by using the computer electronically. I believe at the time I did that just K-9 and Officer Dahl was on the call at that time.

Det. Bales: Okay and how did you guys respond?

Ofc. McPhail: Well based on the circumstances of the call we responded code three. So Officer Richardson activated the lights and sirens on our patrol car.

Det. Bales: Okay and you said you indicated you were on I-5 when that happened?

Ofc. McPhail: Yes.

Det. Bales: Can you describe to me the route you took to get from I-5 to

the location of the call?

Ofc. McPhail: Sure. We drove down I-5 for a couple of miles, two or three miles, got off on the Florin Road Exit off ramp. Made an east bound turn onto Florin Road, continued down till we got to 21st Street, turned right or south on 21st Street and continued until we got to O'Neil which is just a little bit south of 68th Ave and then parked on the corner of 21st street and O'Neil.

Det. Bales: Okay, you said based on the circumstances of the call you responded code three, can you tell what circumstances would cause you to respond code three?

Ofc. McPhail: Sure. Well again it sounded like there was a woman who was describing that there was a stranger in her house or that her house was being burglarized. Obviously our concern was that if there was in fact some body burglarizing her house then maybe this person is armed. It certainly didn't sound like she knew who it was. So, I'm sorry can you repeat your question again?

Det. Bales: Just what, what circumstances led you guys to respond code three?

Ofc. McPhail: We were concerned about the safety of this woman and I had concerns that she might be in danger, that her life might be in danger.

Det. Bales: Ok, on your way there was there any preparation between you and your partner or you and other units?

Ofc. McPhail: As far as positioning our response or?

Det. Bales: Any coordination or what, what you guys talked about on the way?

Ofc. McPhail: You know I, I think my partner and I maybe had some brief discussions I don't recall specifically, but he, he seemed to be on the same page as, as I did, at least in my mind that it sounded like a very serious call and thus obviously our, our need for a hasty response.

Det. Bales: Sorry to just back up on you real quick, were you and Officer Richardson for the last three weeks that you've been assigned to, to the CST, have you guys been partners for those three weeks?

Ofc. McPhail: The members of the, the team rotate partners on occasion, so

I probably ride along with Officer Richardson maybe once or twice a week.

Det. Bales: Okay. You've rid, ridden with him more, more than two times?

Ofc. McPhail: Oh yeah, more like seven or eight.

Det. Bales: Seven or eight times. And did you ever work with him before on Patrol as well?

Ofc. McPhail: Not directly in the same patrol car but, I know Paul through work and, and socially outside of work. So I, I've worked with him yes.

Det. Bales: Okay, great. Now what about preparation and co-ordination with any other units such as the K-9 unit or air or any other unit like that?

Ofc. McPhail: I did mention while we were enroute there was another unit marked on scene a minute or two before we did and they contacted someone in front of house and obviously they were in a position to potentially get more information about what was going on and that person was somehow connected to the house. So I think I, on the radio asked them if they needed a perimeter set up, that I would be able to voice the perimeter to other responding units.

Det. Bales: Okay and while you guys were responding at the time of the incident was there an in-car-camera activated?

Ofc. McPhail: Yes it was.

Det. Bales: Okay, alright, so you guys described getting to the scene. Why don't you go over, in your own words, from the time that you arrived describe to me what happened tonight at the location starting with the address that you arrived at.

Ofc. McPhail: Okay. Well while we were enroute to O'Neil I remember maybe shortly after we arrived on scene, the, the woman who had called in still had a connection with our dispatch center, so the phone was still active and our dispatchers were still able to hear what was going on. So while the initial responding officers had detained this, this person at the house on O'Neil it sounded like there was somebody inside because they were still hearing things going on inside the house, hearing a man talk to this woman who had called in and he was telling her, you know, if she just cooperated that she wouldn't get hurt. At some point one of the dispatchers heard and noted on the call that he said he had a gun and that he, if she would

cooperate he wouldn't shoot her. So, like I said, I don't know if that was going on just after we arrived or just before but somewhere in the neighborhood of when we were arriving on scene. So now our concern was that there is somebody in the house that's got a gun and this woman obviously who called in is requesting help. So as Officer Richardson and I got there he has a, he has been issued a department rifle so we discussed briefly in the car getting the rifle and that would be a good idea. So he took his rifle out of the car and we approached the house. I don't recall the exact address of the house, it's the, on the map it looks like the third house in, but I think it's actually the second house in that actually has the O'Neil address on the north side of the street. There was two other officers, I believe it was Officer Carr and Officer Trefethen that were behind a silver, it was a Toyota pick up truck. It was parked in front of the house where our caller was supposedly calling from. They had taken a position there so that they could see the house and see what was going on and presumably had some cover in case this person was in fact armed. So Officer Richardson and I met up with them. We, between the four of us we had some brief discussions about tactical response and, and safety issues. We decided we'd be needing our helmets in the event that this person was armed. So at that point I ran back to our patrol car and got my riot helmet and the helmet, my partner, Officer Richardson's, riot helmet and brought those back to him and I believe other officers once I got back went and grabbed their helmets. About that time Sgt. Crye showed up and felt that it would be appropriate that we maybe back away from the house, just a little bit, so we weren't directly in front of it. So Officer Richardson and I took a position almost directly across the street from the house in question in the driveway. So we went to the house on the south side of that street and we basically took cover behind a car in a position so that we could still see the house to see if there was any movement or anybody come out of the house, but we were protected in the event that this person was armed.

Det. Bales: Okay.

Ofc. McPhail: At that point other officers, I believe maybe Officer Trefethen or Officer Crye, or excuse me, Officer Carr, somebody moved a patrol car up a little bit east of where we had all previously been behind the silver truck. And they pointed some white spotlights at the house so we had a little bit better lighting and we were able to see some areas that were maybe not so well lit before. While we were doing that, or maybe just before we moved, Officer Gary Dahl had taken a position in the back yard or on the side yard of the house. And there was a, for a while our helicopter was on scene and they had mentioned that he was at the two-three corner which would be like the northwest corner of the house. So we had an

officer in the back yard, Officer Richardson were, and I were across the street, Officer Richardson obviously with his rifle. We had good visual up in front of the house. After maybe a minute or two, when Paul and I were across the street for maybe a minute or two, on the south side of the street in that driveway, I heard somebody yelling. It sounded like it was coming maybe from the back yard of the house that we were watching and I couldn't make out what was being, being said but there were, there was some yelling going on. So, I can't say for certain if it was Gary, but I guess in my mind I knew that he was in the back, backyard of the house and just in my mind I was, I guess I was picturing that he was issuing commands to somebody from the back yard, but like I said, I couldn't, couldn't hear what he was saying. A few minutes after this person yelling I heard a loud pop. And I guess the first thing that went through my mind was that I think that was a gun shot. I looked around, I looked over to Officer Richardson for a moment to see if he had responded to that or if he was thinking the same thing that I was. Hey, was that a gun shot? And about, about that time, maybe a couple of seconds after that, that solo loud pop, the front door of the house opened up and there was a guy standing there. He was only in the doorway for maybe a second or so, really brief. He basically opened the door and then turned around and went back inside the house. And as he disappeared out of the doorway I heard maybe five more loud pops and at that point it, there was no more, I didn't look to Paul to see if he was thinking that was gun shots, at that point in my mind I knew, yes, that's gunfire, some body is shooting a gun back there. Between when I heard the single gun shot and when I heard the volley of maybe five more, I hadn't heard the voice in the back yard that I thought was Gary and I didn't hear any radio traffic so my, I guess in my mind I was immediately concerned that maybe Officer Dahl has been shot or that he's in some sort of gun fight with who ever this person in the house is that might be armed. A few more seconds after the volley of five gunshots, again my focus is on the house, I see the same person that I had seen just before: he was a man, he had like a dark jacket or hoodie on, came running out of the front door. It was already open, he had left it open when he was at the doorway earlier and as he came running out of the house, I could see that he had a gun in his hand. And I can't, I can't picture now even which gun, which hand he had it in, but between the two rounds of gunfire, his threats that were overheard on the phone to this woman that if she cooperated that he wouldn't shoot her and the fact that I hadn't heard from the officer in the backyard, Officer Dahl, I was very concerned that either this woman had been shot or Officer Dahl had been shot and so I was fearful that this person who had a gun in his hand, may either come out and try, attack other officers or, or be a risk to other, other people who were immediately in front of the house. And so at that time I discharged my weapon. I, I shot the man two times.

Det. Bales: Okay and what happened next?

Ofc. McPhail: Well I, I do recall at the same time that I fired my hand gun, I know that Officer Richardson was firing his rifle and I could tell that just by hearing him. We were maybe five feet apart, maybe four or five feet apart and I could, I could hear the, the gunshots coming from his, his rifle and so I knew that he had also fired his weapon. And almost immediately after discharging my weapon and after discharging his weapon, at the same time the person who was running from the house with a gun in his hand, fell down to the ground. Officer Richardson and I and three or four other officers, approached this person on the ground within seconds, fairly instantaneously. I remember hearing another officer say, he's down or he's on the ground. Several officers approached this person who was now laying on like on the walkway to the front door of the house and there was like blood coming from either his head or his neck and there was a gun, the gun that he was carrying was in the grass, on the ground next to him. And one of the other officers handcuffed this person 'cause we didn't know at that point if he was still a threat, if he was alive or not alive. At about the same time I'd, as one of the officers was handcuffing this person, I heard a loud banging noise from I guess it would be from the east side of the house and I thought to myself, ah man there's, there's somebody else inside that's trying to either to break out a window or is hopping the fence. It sounded like wood breaking so I thought maybe somebody was hopping the fence or, so when I got to the east side of the fence I ran over to the back corner of the house and I could see that Officer Dahl had his, his K-9 dog in his arms and he said, something to the effect of they shot my dog or he shot my dog. So we still didn't know if there was just this one person or potentially some more people in the house so obviously we were concerned at this point and I was also, is this woman who is still inside the house, is she still okay or does she need medical assistance or anything? So the other officers that were there at the front door with me, I believe maybe Officer Wolfe, Officer Carr was there, Paul. I think Officer Trefethen was up there as well. Several officers, at least four or five of us, entered the house, went through the, the living room which is just inside the front door, through the kitchen - there was nobody else in there. We got to a hallway we could hear, it sounded like a female voice, it was kind of muffled, at the end of the hallway. We called out down the hallway several times, "Police, come on out, come on out" several times, "show us your hands, come on down the hallway, it's okay to come on out". At that point a, a young, asian, female, pretty short exited from a bedroom at the end of the hallway, to the right. It was a bedroom and she had duct tape over her mouth and her arms had been bound at back, I think with a zip-tie. And she came down the hallway and just off the circumstances of

what was being heard on the call, when the caller, I assumed that that was probably the person that had called us or had attempted to call us. A few moments later a small child, maybe her son or other family member, who's probably four, also came out of that same bedroom. Officers went through the rest of the house and determined there was nobody else inside.

Det. Bales: Okay. Let me just run down a couple of clarifying questions here. When you guys initially arrived, you and Officer Richardson arrived in, in your patrol vehicle, where did you initially position your vehicle?

Ofc. McPhail: Our vehicle was facing west and it was right at the southeast, excuse me, southwest curb of 21st street and O'Neil.

Det. Bales: Okay, so you were several houses away from there and you approached on foot?

Ofc. McPhail: Yes. Three doors down, three houses down.

Det. Bales: Okay, and then when you, you, you met other officers out there. You said you spoke with them about how you guys were going to deploy and then you went back to get your helmet?

Ofc. McPhail: Yeah.

Det. Bales: Now why would you don your helmet?

Ofc. McPhail: Well, again, the information that was coming in to our Communications Centre through the cell phone, it could be heard, the male voice was telling this, this female, that he had a gun and that he was, that if everything went smoothly, if she co-operated that nobody would get hurt. Now obviously if, if he's got a gun we want to protect ourselves as, as much as we can and that was the reason for going to get the helmet.

Det. Bales: Okay. Now you said after you game planned where you were gonna be, you and Officer Richardson took a position across the street in a driveway?

Ofc. McPhail: Yeah.

Det. Bales: Okay and directly across the street from the house?

Ofc. McPhail: Yeah, almost directly south, maybe offset you know, ten or fifteen feet to the west, but more or less, directly in front of the house.

Det. Bales: In that driveway, were there cars parked in that driveway?

Ofc. McPhail: Yeah, at least two cars. I want to say one of them was a sedan of some sort and that would have been the, the one we were behind, the more westward of the two cars and I think the other one was a truck or an SUV, but I don't recall specifically.

Det. Bales: Okay. So your relation to those vehicles and the house, where were you positioned?

Ofc. McPhail: Officer Richardson would have been positioned almost directly in between the two cars. So he was again, between the front of the vehicle and the garage door of the house and he was on the east corner

Det Bales: Would you like to draw a diagram?

Ofc. McPhail: I could draw a diagram. So this is O'Neil. This is north. The property where we suspected the crime was being occurred was depicted by the box with an "X". The smaller rectangle in front of that would be the silver Toyota Pick-up that we were initially behind. And then along the south side of the street there was a driveway, two additional cars, maybe more, but at least two cars in the driveway. My position was right where I marked number one and Officer Richards, Richarsons' position was roughly where I marked the number two.

Det. Bales: Okay, what, how far do you estimate from where your position was to the front door where the suspect exited, approximately?

Ofc. McPhail: Maybe eighty feet at most from where we were to the front door of the house.

Det. Bales: Okay and was there anything obstructing your view between your location and the front door of the house?

Ofc. McPhail: No, no. The truck that was parked was not directly in my sight of the door and

Atty. Jeff Edwards: Were there little columns on the porch?

Ofc. McPhail: On which porch? The porch of the house we were in front of or the porch of the house we were thought the crime was being occurred?

Atty. Jeff Edwards: I don't recall, but I think maybe the porch of the house where the crime may have been committed.

Ofc. McPhail: You know there may have been. From my position where I was I had a clear and unobstructed view of the doorway itself. And that door had like a ripple glass pattern or something in the door so you could see if somebody were standing just on the inside the door. You could see if somebody were just standing there because of shadowing and lighting inside the house. There was, there was nothing from my position that directly impeded my view, my line of sight of that door.

Det. Bales: Okay and you mentioned earlier that a patrol car was pulled forward by another officer and that lights were put on the house?

Ofc. McPhail: Yes.

Det. Bales: Okay, so can you describe what lights from the patrol car were put on the house?

Ofc. McPhail: Yeah, the, based on the lighting moving around a bit, my impression was that they were probably the corner spot lamps that are mounted in the a-pillars of most patrol cars. I was focused on the door but I could see that the lights were moving in such a way that it wouldn't have been like the high beam headlights 'cause they were just

Det. Bales: And you're talking about the spotlights,

Ofc. McPhail: Yeah.

Det. Bales: the manual spotlights?

Ofc. McPhail: Yeah.

Det. Bales: Okay. Was there any other ambient lighting out there?

Ofc. McPhail: There, there was, I believe street lights out in the area. There was some lighting in the house. I believe the, the, the lights in the living room of the house were on and I believe one just inside the, the doorway of the house like a, in the entryway inside the house were on.

Det. Bales: Okay. Now you said the, the suspect opened the door briefly?

Ofc. McPhail: Uh huh.

Det. Bales: At that time did any of officers give him any verbal commands? Or, like how quick was it?

Ofc. McPhail: You know he was only at the door for a second. It seemed like just long enough to open the door and then turn right around. He stood in the doorway for just a split second and then turned around and went right back inside.

Det. Bales: Okay and then when the suspect eventually exited the front door of the, the house, do you recall any verbal commands being given?

Ofc. McPhail: I, I don't recall.

Det. Bales: Okay. Do you recall if you gave any verbal commands?

Ofc. McPhail: I, I don't recall making any verbal commands, no.

Det. Bales: Okay. When you fired, where were you aiming?

Ofc. McPhail: I was aiming for the chest, because of my distance to him, that seemed like the easiest target to hit.

Det. Bales: Okay, so the center of mass?

Ofc. McPhail: Yeah.

Det. Bales: Alright.

Atty. Jeff Edwards: Just to be clear, when you fired what kind of threat did you perceive him to present to you and to everyone else around you?

Ofc. McPhail: Well, again I was concerned that he had potentially already either shot, shot or shot at another officer or the woman in the house. I'd seen the same person in the doorway the first time and then go back into the house and then when he came to the doorway again, it seemed to me like if this was a person was a victim, that they wouldn't have gone back into the house the first time. That and that I saw the gun and I was immediately concerned that, okay this person has hurt somebody inside the house and may be a threat to other officers who are immediately in, in front of the house and I was concerned that somebody else could have been shot.

Atty. Jeff Edwards: And how immediate of a threat did you think he was?

Ofc. McPhail: Oh, very immediate. I mean from his, from my position I was able, you know I had a little distance and cover, but certainly there was

nobody to our west, and it was my concern that if this is a person that's invaded some body else's house and held them at gun point and he were able to escape then certainly he could pose another risk to people in the neighborhood if he were to enter another house and take a hostage, something like that.

Det. Bales: Can you describe the gun that he was holding?

Ofc. McPhail: You know it, from that distance, no, it, a hand gun, but I couldn't tell you from that distance if it was a revolver or a semi-automatic.

Det. Bales: Do you remember if it was light or dark colored?

Ofc. McPhail: No.

Det. Bales: Okay. Okay. Just give me a minute and I'll be back. Why don't you take a break, grab some water and I'll be right back with you okay?

Ofc. McPhail: Okay.

Atty. Jeff Edwards: Do you want to step outside?

Ofc. McPhail: Uh huh.

Det. Bales: Alright, I just have a couple of quick clarifying questions for you. The first one is, the brief moment where you see the suspect come out, or stand in the doorway,

Ofc. McPhail: Right.

Det. Bales: Did you see him with a hand gun at that time?

Ofc. McPhail: No.

Det. Bales: No, okay. My second question is when you did fire you mentioned hearing Officer Richardson firing at the same time. Did you hear anybody else firing?

Ofc. McPhail: You know I, I couldn't hear if anyone else was firing. All I can, all I can tell you specifically is that I was sure that Officer Richardson was also firing his weapon.

Det. Bales: Okay, alright, that's it. Thank you very much for your time, we appreciate it.

Atty. Jeff Edwards: Thanks. Is he free to go?

Det. Bales: Free to go.

Notification:

At approximately 2105 hrs, I received a phone call from Lt. Johnson advising me that an Officer Involved shooting had just occurred at [redacted] O'Neil Way. At approximately 2108 hrs I received a call from Dispatch. I informed Dispatch that I would call out the detectives. At approximately 2110 hrs, I called Sgt. Campbell and Sgt. McCloskey and requested that they notify their teams of this call out. I then notified Detectives Walker, Vigon, DeDonder and Jasperson. Once I received confirmation on which detectives would be responding I notified Dispatch. I proceeded to the O'Neil Way.

Arrival:

At approximately 2210 hrs, I arrived on scene. I was initially advised by Lt. Johnson that this was and officer involved shooting, there are five shooting officers, and the suspect is dead. Lt. Rehm provided a briefing at approximately 2254 hrs of the shooting circumstances as known at the time.

We were told the following in summary:

The first officers on scene, had detained suspect Zang Xiong as he was walking away from the victim's house. Zang Xiong and the deceased suspect Meng Xiong were believed to be brothers. Zang Xiong was carrying two wrapped presents when he was detained. A suspect vehicle, a black Toyota Highlander [redacted], was located east of the scene.

SPD Communications received a 911 transfer call from CHP at approximately 2035 hrs. A female caller said she was at [redacted] O'Neil Way. She said a suspect broke into her house. Her cell phone was left on with a line open to dispatch. Officers responded to the front of the house. K-9 Officer Dahl and dog went to the backyard. A suspect exited the back of the residence. The K-9 was deployed. The suspect shot the dog. Officer Dahl fired at the suspect. The suspect ran to the front of the house and ran outside. The suspect was armed with a handgun. Officers gave the suspect commands. The suspect refused to drop his weapon and the officers fired.

The five officers who fired were Gary Dahl, Paul Richardson, Matt McPhail, Victor Wolfe, and Brian Trefethen. Officer Richardson fired an M-16 rifle, Officer Trefethen fired a shotgun, and Officers Wolfe, McPhail and Dahl fired their handguns. No officers were injured. The K9 received a gunshot wound and was transported to the Veterinary Hospital. There were two victims inside of the residence. Both were bound and gagged. One of the victims was a 5 year old male child. The 17 yr old female victim said a subject came to the door with presents in his hand and then asked for a bottle of water.

I assigned Sgt. Campbell and his team to handle the crime scene, Sgt. McCloskey and his team were responsible for interviewing Sgt. Crye, Officer Carr, Officer Msryan, and any civilian witnesses, my team would interview the shooting officers. Krisha Lovitto was the Lead CSI.

I returned to the office. I assigned Detective Walker to interview Officer Richardson, Detective Vigon to interview Officer Dahl, Detective Jasperson to interview Officer Wolfe, Detective DeDonder to interview Officer Trefethen, and Detective Bales to interview Officer McPhail. Prior to their interviews, I conducted an inspection of the handguns and handgun magazines of Officers, McPhail, Wolfe, Trefethen, and Dahl. Officer Richardson's weapons were inspected by Sgt. Lang.

Bill,
This case was a SPD Officer-Involved Shooting and Sgt Paul Martinson was the Lead Supervisor on this case. I would recommend holding all evidence for (6) years from the date of the incident and then ONLY releasing the items at the direction of the City Attorneys Office due to the potential civil liability issues.

On 03/15/10, at approx. 2135hrs I, Officer Morris #579 contacted witness [redacted] at his residence. I obtained his statement. He stated the following in summary:

I was in my house with [redacted] and I had heard the helicopter over our house. A couple of minutes later I heard a small caliber gun shot from out front and I heard a dog yelping. I walked to my front door. As I opened my front door I heard another small caliber gun shot from out front. I opened my door and I saw a police car in front of my house. I saw about 3 officers, 1 across the street by the chain link fence, 1 at the driveway of the victims house and one by the corner of the garage of the victims house. It looked like all three officers were shooting towards the front of the victims house. I heard about 20 gun shots. I could not see what or who they were shooting at. After they stopped shooting I saw several officers go to the front of the victims house. Then I saw a K9 officer carrying his dog to a patrol car. Then I saw a man laying in front of the victims house.

I have never seen the truck that's in front of the victims house before.

Last night around 5 PM I heard a male and female arguing at the victims

house for about 2 minutes.

OBSERVATIONS: (SGT. CHASE #3025)

On 03/15/10, I, Sgt. Chase was working as a Patrol Sergeant assigned to the East Area Patrol (1SM6). At approx. 2305 Hrs, I responded to HOJ (5770 Freeport Blvd) to see if any assistance was needed on this call.

The Detectives had not arrived at HOJ. I contacted Officer Stinson in the lobby of HOJ waiting with victms [redacted] and [redacted] and spoke with them. I observed red marks around both wrists on both [redacted] and [redacted]. I thought that CSI could be at the scene on O'Neil and unavailable for awhile so I took photos of the victim's injuries in case they started to fade.

I used a department issued camera and took 15 photos of the victims and two photos of white cut plastic zip ties that Officer Stinson had in her possession. The photos of the injuries did not appear as clear on the photos as in person.

I downloaded the photos to a CD and sent to the Homicide Unit. I booked the camera card into the drop slot at Richards for CSI to process.

This is a supplemental report to the home invasion report.

Observations
On 3-15-10 at approximately 2047 hours, I, Ofc Leonard (#877, 1C69) was dispatched to [redacted] Oneil Way to deploy my department issued rifle. I responded Code 3 from San Joaquin St / Business Dr. At approximately 2057 hours, while still en route to the call, I heard an officer voice on the radio shots were fired.

About 2 minutes later, I heard over the radio the scene was stable. I reduced code at 21st St and Florin Rd. At approximately 2103 hours, I arrived on scene. As the scene was stable, I did not deploy my rifle.

Sgt Crye (3SM5) directed me to watch over the shot suspect in front of [redacted] Oneil way. At approximately 2104 hours, I arrived at the front of [redacted] Oneil way. Upon arrival, Ofc Pinola, was standing next to the shot suspect. The shot suspect was laying on his stomach in handcuffs on the paved front walkway leading to the front porch. There was a lot of blood on the ground around the suspect's head. There was what appeared to be brain matter on the ground next to the suspect head. The suspect appeared deceased.

At approximately 2105 hours, Paramedic R. Swensen (#1063) on Truck#16 arrived on scene. At approximately 2108 hours, R. Swensen declared the shot suspect in front of [redacted] Oneil way dead. I watched over the shot suspect's body.

At approximately 0040 hours, I was no longer needed to watch the body. I was directed to look for any evidence possibly discarded by the suspect who was detained. I canvassed both sides of the street from [redacted] Oneil way to 21st st / Oneil way. I search the street, front yards and side yards of the houses in the area with negative results.

At approximately 0054 hours I cleared the scene.

On 03-15-10, at approx. 2046 hrs, my partner, Ofc. Morales #738, and I (unit GRN80) responded to [redacted] Oneil Wy regarding a burglary in progress call. We responded from the area of [redacted] Seavey Cir and arrived on scene at approx. 2056 hrs. We were dressed in complete police uniforms and were traveling in a marked black/white police vehicle (10100). Ofc. Morales was driving and I was the front passenger.

As we arrived on scene, Sgt. Crye (unit 3SM5) advised over the radio that shots had been fired and that the suspect was down. We parked our vehicle on the northeast side of 21st St/Oneil Wy.

We began running west across 21st St, when we observed Ofc. Dahl running east to his police vehicle that was parked on the northwest side of the intersection. Ofc. Dahl was carrying his K-9 in his arms as he ran. The K-9 appeared to be injured and was motionless. Ofc. Dahl placed his K-9 in the backseat of his vehicle and transported the K-9 for medical treatment.

We ran to [redacted] Oneil Wy and observed that the suspect was lying in a prone position on front cement walkway of the address. The suspect's head was to the south, while his feet were to the north. A large pool of blood had formed around the suspect's head. The suspect's face was resting on the

cement. The suspect had been handcuffed prior to our arrival. Ofc. Richardson was covering the suspect with his M-16 rifle. Smoke from burnt gunpowder was visible and filled the air.

We observed that Ofc. Trefethen, Ofc. McPhail, Ofc. Wolfe, and Sgt. Crye had made entry into the house and were stacked in the living room of the house. As small child was being escorted from the house as Ofc. Morales and I joined the stack and assisted in clearing the house's west hallway and northwest bedroom. No additional persons were located in the house.

Ofc. Morales remained in the house and maintained the interior scene. I remained with the downed suspect in the front yard. A blue steel snub nose revolver was laying on the lawn near the suspect's right foot. The revolver had brown wood grips. I was joined by Ofc. Leonard.

SFD Truck 16 responded to the scene. Paramedic Swensen inspected the suspect and determined that the suspect was deceased.

We maintained our positions until advised by Sgt. Faulkner (unit 3SM4) to release the scene. Ofc. Morales, Ofc. Leonard, and I performed a search of front and backyard of [redacted] Oneil Wy for any discarded evidence with negative results.

On 3/16/10, at 0023 hrs, I spoke to [redacted] at the SPD Hall of Justice. The interview was recorded on DVD and is available. For full details of the interview, please refer to the DVD recording. The following is a summary of [redacted] statement:

I was home alone tonight with my five year old brother [redacted] My mother had gone to the holy house sometime around 6:00 pm.

At about 8:20 pm, there was a knock on the door. I answered the door, and there was a guy there holding two wrapped presents; one present was bigger than the other. He said he had presents from my cousin for my little brother and sister. I asked him which sister, and he said, "Your little sister". Since he knew I had a little sister, I thought maybe he knew us. I've never seen him before though.

He handed me the presents, and I set them down inside the house near the front door by the shoe rack. He then said that he was very thirsty. I told him to wait there at the door, and I got him a bottle of water. I believe it was an "Arrowhead" water. We made small talk for a little bit. He never really told me anything that indicated he knew anyone's name in my family or anything like that. All of a sudden, he stepped into the house and asked if he could use the bathroom. He handed me the water bottle, and I put it down maybe on the table next to the shoe rack by the front door. I pointed him to the bathroom, and he went to the bathroom.

I was scared that he came in the house, so I went to the kitchen and got a knife. It was a knife out of the butcher block that didn't look like any of the other knives. It was silver, with a silver grip that has a black stripe in it. I put the knife in my pocket.

He came out of the bathroom, and started walking to the front door. I was going to walk him out, and hoped to get him out front. When he reached the front door, he slammed it closed. He then turned around and pointed a gun at me. I think maybe he pulled it from his front pocket or something. He told me to keep my hands down. I pulled out my knife, which I'd had in my pocket. He pointed his gun at me at close range and told me to drop the knife, or he'd shoot me. I dropped the knife.

He told us to lie down on the ground near the couch. My brother was by

me the whole time. The guy was asking who was home, where was my mom, what time was my mom coming home - things like that. He went to go search through the house. I called 911 from my cell phone and told them what was happening and what my address was. I kept the phone connected, and set the phone down under the couch with the face down so he couldn't see the light from the screen.

The suspect came back to me and my brother, and used plastic ties to tie my hands behind my back. I don't know where he got the ties from. Before he put the ties on, he put on a pair of black cotton gloves. He told me, "I'm Asian, you're Asian. I don't want to hurt you, but if you keep moving I'll shoot you and won't care".

He put a tie around each wrist, then another piece tying my wrists together. He then got duct tape, and put three strips of duct tape over my mouth. He was tearing it off a roll. I don't know where he got the roll from. After putting the duct tape over my mouth, he tied up my little brother's hands behind his back.

The guy asked which room was mine. I pointed him to my mom's room. He told me and my brother to go to my mom's room. He had us lay down in that room. The guy was talking on his cell phone. He was speaking in Hmong, so I didn't understand what he was saying. He was standing by the blinds, like he was waiting for a signal from someone outside. I saw a real bright light flash on the window blinds in my mom's room about three times. I thought I heard someone out front, like maybe footsteps. Then, it sounded like the sound went to the backyard. It seemed as if the suspect was talking on the phone with someone who was waiting outside.

The suspect then moved us to the master bedroom (my sister [redacted] room). He helped me up by my arm to move us in that room, but he didn't hurt me or point the gun at me anymore. He wasn't real violent or anything.

Once we got to the master, he had us lay face down on the ground again. He was making or receiving more phone calls. I think he had a total of three separate phone conversations that I can remember. I didn't hear the phone ring, so I don't know if they were outgoing calls, or if his phone was on vibrate and he received the phone calls.

After we were face down in the master bedroom for about 4 minutes, I think I heard the police. I heard, "Put your hands up!"

Then I heard a gunshot. There was a one second pause after the shot, then I heard more gunshots. I heard the suspect running through the house.

I was scared he was going to come back into the master bedroom. I think I heard a pause after the second set of shots possibly, and maybe some more shots. I don't remember exactly. The first shot sounded louder than the rest of the shots.

I then heard the officers come into the house, searching the rooms. They found us in the master, and led us out. One of the officers cut off the ties on my wrists. I think the suspect may have touched the knife that I had, because after I dropped it on the ground I didn't notice it there later. Once I was outside with the officers, I saw the same two wrapped presents the suspect had given me were now next to a police car.

I'm not sure why the guy picked our house. My sister recently got a financial aid check, but me and her are the only ones who know about it. The only people who live at the house are my mother, sister [redacted], little brother [redacted] and my little sister [redacted](2 years old). My little brother and little sister sleep with my mom, while [redacted] and I each have our own room.

Back around September of last year, I moved in with [redacted] and her roommate for just a couple of months. That was [redacted] In November, [redacted] left that place, and we moved into this house with my mom.

Before I moved into [redacted] I lived at [redacted] with my brother [redacted]. He's 28-30 years old. I have another brother who doesn't live with us. His name is [redacted], and he's 22-23 years old. My brothers used to be involved in gangs, but they grew out of that stuff.

The guy never asked about cash, property, drugs, or anything like that. He was just asking who lived here, how many people, when is my mom going to be home. I think it's weird that he knew I have a little sister. I didn't hear the front door open, or other footsteps inside while the suspect was dealing with us.

The suspect was a Hmong male, mid 30's, black medium length hair, moustache, 5'5", 180-200 lbs, round face, chunky build, dark plain clothing, with a long sleeve shirt and long pants.

The gun he used was a black revolver that wasn't real big or real small.

(During the interview, I showed [redacted] a photo line-up containing Zang Xiong. She signed the admonishment form and viewed the lineup. [redacted] was unable to identify Xiong - #4 in the lineup. She said that it was not 1-4 or 6, but maybe #5 except the eyes looked different. She confirmed the

suspect had a round face.)

(I also showed [redacted] single photos of Meng Xiong and [redacted]. She told me that she didn't remember seeing Meng Xiong. She said that the suspect didn't look like the photo of [redacted].)

INVESTIGATIVE FOLLOW UP (VICTIM OFFICER GARY DAHL'S STATEMENT)

On 03-16-10, at approx. 0211 hrs., Sgt. Martinson and I (Det. Vigon) contacted victim (Officer Gary Dahl) at HOJ. He was accompanied by his attorney David Mastagni Jr.. Sgt. Martinson inspected and obtained officer Dahl's duty weapon and the ammunition from it and his magazines on his belt. (See Vigon's observations for details .) The weapon and ammo was booked into evidence by CSI 32 (T. Atkinson). Officer Dahl then provided me with his victim statement. The interview was Video recorded and the DVD later booked into evidence. He stated the following in summary:

CSI: And no-one came out and then Andrea and Janelle I think are the grave yard girls, so I don't, know what Krisha's got going on.

Ofc. Dahl: So they're not going to call a bunch of people out for this?

CSI: Well, no, just me.

Det. Dedonder: Do you need a water or anything?

Ofc. Dahl: You know I could go for a

Sgt. Martinson: Gary ready?

Ofc. Dahl: Yeah.

Sgt. Martinson: Here, let me get over here. I want to get into this corner.

Det.Vigon: I'm sorry.

Sgt. Martinson: Grab a chair. Okay. Basically, I'm just going to swap out hand guns. Since the incident have you reloaded?

Ofc. Dahl: No.

Sgt. Martinson: And normally for your duty weapons and extra magazines are they topped off?

Ofc. Dahl: Yes.

Sgt. Martinson: Meaning fully loaded?

Ofc. Dahl: Yes.

Sgt. Martinson: And the magazine in your hand gun, do you normally put one in the chamber and then back fill the magazine so it's fully loaded?

Ofc. Dahl: Yes.

Sgt. Martinson: Is that your normal practice?

Ofc. Dahl: Yes.

Sgt. Martinson: Okay. Can I have one of your magazines from your belt please? Okay. Good?

Det. Vigon: Uh huh.
Sgt. Martinson: Okay one, two, three, four, five, six, seven, eight, nine, ten, eleven, twelve.

Det. Vigon: That mag was which?

Sgt. Martinson: The one on his belt.

Ofc. Dahl: The one on my belt.

Sgt. Martinson: Right? Great, one, two, three, four, five, six, seven, eight, nine, ten, eleven, twelve. Okay, can I see your hand gun please? Thanks. Is this yours?

Ofc. Dahl: Yes.

Sgt. Martinson: Is that an empty gun?

Ofc. Dahl: Uh huh.

Det. Vigon: Yes.

Ofc. Dahl: Is it okay if I take that off or should I wait? All I have to do is unscrew this and it comes right off.

Sgt. Martinson: You know all we're going to do is a safety check so it's

not going to be gone that long.

Ofc. Dahl: No worries.

Sgt. Martinson: Okay. You ready?

Det. Vigon: Uh huh.

Sgt. Martinson: One, two, three, four, five, six, seven, eight.

Det. Vigon: That's forty caliber and you have a Tac light on there?

Ofc. Dahl: Yes.

Det. Vigon: T-R-One is that?

Ofc. Dahl: They're called T-L-R-One.

Det. Vigon: T-L-R-One.

Sgt. Martinson: This has the magazine. Let's see here, you're getting [redacted]. This one. This pen is not going to work. Ready Jim? [redacted], okay?

Det. Vigon: Okay.

Sgt. Martinson: Okay. There. Three magazines and a hand gun, there you go. You can reload now or later if you want.

Ofc. Dahl: Thank you.

Det. Vigon: You alright or can I get you something to drink Gary? Soda, water?

Ofc. Dahl: Just ah, water would be good.

Det. Vigon: Water? I'll get you a bottle of water real quick. Can I get you something to drink too?

Atty. David Mastagni: Water would be great. Appreciate it.

Atty. David Mastagni: Thank you.

Det. Vigon: Do you want these back?(Ammo not loaded into Dahl's

replacement gun.)

Sgt. Martinson: Yeah we've got to make sure we've got enough for everybody. Alright can I get you to sit over in this seat? And the main reason is that's where the camera's kind of focusing.

Ofc. Dahl: I'll change chairs so someone might be able to

Det. Vigon: Oh no do we got to take pictures of them?

Unk: Already done.

Sgt. Martinson: Let me get these out of your way.

Ofc. Dahl: Do I keep these with me or do I take it back to, take it back to JERPH or take it to property?

Sgt. Martinson: Primrose will get a hold of you

Ofc. Dahl: Oh, okay.

Sgt Martinson: When he's done with yours.

Det. Vigon: How you doing, you doing alright?

Ofc Dahl: I'm good.

Det. Vigon: Good, good, I'm glad to hear that. Well thanks for coming in and talking to us, I appreciate it.

Ofc. Dahl: No problem.

Det. Vigon: Okay I've just got a little list, a list of standard questions here that we like to cover with everyone so that we make sure that we don't omit or forget something . If it's duplication of what you've already told someone don't worry, that covers why we're covering it again. If at any time you want to take a break or do anything like that just let me know and we'll stop, take a break, get some water, go to the bathroom

Ofc. Dahl: Okay, that's cool.

Det. Vigon: And can you state your name and position for the record?

Atty. David Mastagni: Sure, I'm David E. Mastagni, attorney for Officer

Dahl and the SPOA.

Det. Vigon: Okay. You're name is Gary Dahl right?

Ofc. Dahl: Yes.

Det. Vigon: How do you spell your last name?

Ofc. Dahl: D-A-H-L.

Det. Vigon: And badge number?

Ofc. Dahl: Six-seven-two.

Det. Vigon: How long have you been an officer with this Department?

Ofc. Dahl: With this department, going on six years, twenty two total.

Det. Vigon: And your current assignment?

Ofc. Dahl: K-9.

Det. Vigon: And how long have you been a K-9 officer?

Ofc. Dahl: A little over three years, three and a half years.

Det. Vigon: And, and did you work K-9 at your previous department or?

Ofc. Dahl: No.

Det. Vigon: No. Did, what were your prior assignments before? Prior to the K-9's, here?

Ofc. Dahl: Oh here? Patrol, FTO, Range Master and that's about it.

Det. Vigon: And your training, just in general from your academy through current? And I thought it'd be quite a bit if you've got twenty two years on. How long was your academy?

Ofc. Dahl: Academy was normal. Back then it was what? Actually it was four months back then. Since the academy

Det. Vigon: Where was that academy?

Ofc. Dahl: Modesto. I've had, how specific do you want to get on my training because I've got a lot of weapons training, SWAT training, tactical as well as narcotics.

Det. Vigon: Yeah, there's, there's a question down here a little bit further

Ofc. Dahl: You tell me what you want and I'll tell you what you need. We can go into whatever you need. I just don't want to give you a bunch of stuff that ah

Det. Vigon: I thought I read somewhere around here about a ******* that asks for special training. Yeah you can just cover, you can just cover you know, basically did you go to FTO School?

Ofc. Dahl: Yes.

Det. Vigon: You went to Range Master School, you said you were a Range Master?

Ofc. Dahl: Uh huh.

Det. Vigon: Correct? Any other specialty schools for weapons or tactics?

Ofc. Dahl: I've been to two FBI SWAT Schools. I've been to a Sniper School, been to a Less Lethal School, a Chemical Agent Gas School, numerous Tactical Hand Gun Schools. Actually I was Basic Sniper and Advanced Sniper, we've also ah, I was going to say Active Shooter, but we taught Active Shooter, I was doing that.

Det. Vigon: Were you on the SWAT Team?

Ofc. Dahl: Yes.

Det. Vigon: At your previous department?

Ofc. Dahl: Yes, I was on a full time SWAT team in Salinas PD.

Det. Vigon: What other departments have you worked at?

Ofc. Dahl: I've worked for, I started off with Greenfield PD, Marina PD, Salinas, El Dorado and here. And I was on SWAT teams at Salinas and El Dorado. And currently I'm on, my dog is a SWAT dog here so I'm on, basically I guess you could say, I guess I'm like a quasi member of SWAT

here because we're on call. In fact this week we're on call as the K-9 SWAT dog.

Det. Vigon: Just like what Thompson does?

Ofc. Dahl: Yeah, exactly.

Det. Vigon: So like Thompson's dog they both work in tandem and you train with our SWAT Team then,

Ofc. Dahl: Yeah exactly.

Det. Vigon: you train with special operations correct?

Ofc. Dahl: Every time they get called out, if they get called out, one of our dogs, one of the four K-9 dogs that are SWAT trained gets called out as well. This is my week, so if this turned into a SWAT call and I was home, I'd be getting called out with it.

Det. Vigon: Anyway.

Ofc. Dahl: Yes.

Det. Vigon: Perfect. Okay, that's good. The uniform, the uniform that you were wearing today is what you have currently on, correct?

Ofc. Dahl: Yes.

Det. Vigon: I see some, you have some you know, some blood on, on your shoulder.

Ofc. Dahl: That's from my partner.

Det. Vigon: That came from your partner, your dog?

Ofc. Dahl: Yes.

Det. Vigon: Correct, cause he was, he was injured in this incident?

Ofc. Dahl: He was shot in the upper shoulder, back area.

Det. Vigon: Twice?

Ofc. Dahl: Once.

Det. Vigon: Okay, yeah, yeah.

Ofc. Dahl: All I'm saying in upper shoulder back area.

Det. Vigon: I'm thinking back, back down here. I'm thinking the rear end or something.

Ofc. Dahl: Good enough.

Det. Vigon: Is he going to be okay?

Ofc. Dahl: Yeah, yeah, it looks like, it looks like everything is going to be good. The bullet lodged in his muscles in his shoulder. It fragged and some of the frag is over the spine but it doesn't look like it's anything. They'll find out more tomorrow. They'll do a CT, which is a three dimensional scan. None of the organs were anywhere near being injured so there is no exit wounds so we'll just go over it tomorrow with the radiologist and the surgeon as to the best way to deal with what's in him.

Det. Vigon: Could he walk when he had been shot?

Ofc. Dahl: Ah no. Actually when we get into it, he was actually trying to get up and he couldn't get up. I think it was, it did something to his muscle and he was feeling a little pain in the muscles, so he's, he's like a lame. Basically he went lame for him to get up and then tried to get back towards me and then at the hospital once they shot him up full of some drugs, pain goes away, he was able to walk around and he was fine. Now he's under sedation.

Det. Vigon: Oh interesting. Great, well good, good to hear that. What weapon were you using today?

Ofc. Dahl: The forty cal Sig, the.

Det. Vigon: The forty cal Sig that Sgt. Martinson retrieved from you on camera? Do you carry any other additional weapons, any other firearms?

Ofc. Dahl: Right now no. My backup gun is at home, I didn't bring it today and that's a thirty eight, revolver.

Det. Vigon: Do you normally carry that or is that an off duty thing?

Ofc. Dahl: Yes, I normally carry it, it's a rarity that I don't. I was in

a hurry today, kids stuff, so.

Det. Vigon: That's why you didn't carry it?

Ofc. Dahl: Yeah.

Det. Vigon: Right and let's see, what weapons have you qualified with?

Ofc. Dahl: Here or?

Det. Vigon: Yeah, here. What weapons do you like to use?

Ofc. Dahl: Here I'm qualified with the forty cal Sig, I'm qualified with the thirty eight, I'm qualified with the twelve gauge shot gun and I'm qualified with my personal AR-15 that I carry in my car.

Det. Vigon: And (inaudible), correct?

Ofc. Dahl: Yes, (inaudible).

Det. Vigon: And are you a part of the Rifle Team?

Ofc. Dahl: Yes.

Det. Vigon: And which weapons did you use during this incident, you said your forty caliber? Any other weapons you used today?

Ofc. Dahl: No.

Det. Vigon: During this incident you did not discharge any weapons, your AR was not used?

Ofc. Dahl: No. The AR was in the trunk.

Det. Vigon: When was the last time you qualified with your weapons?

Ofc. Dahl: I want to say it was the first or maybe the second week of January, the new quarter just started. So it was, one of the first, first ah, first quals of next, actually this year.

Det. Vigon: Roughly when was that? So first quarter this year?

Ofc. Dahl: Yeah it was two months ago, month and a half ago.

Det. Vigon: So you think it was in the first month of it?

Ofc. Dahl: I want to say it was in January.

Det. Vigon: And not this quarter though?

Ofc. Dahl: Not yet.

Det. Vigon: Okay. And how often do you normally qualify?

Ofc. Dahl: Normally we're quarterly.

Det. Vigon: Quarterly.

Ofc. Dahl: Yeah.

Det. Vigon: Just like the rest of us?

Ofc. Dahl: Yeah.

Det. Vigon: And the weapon you were carrying today, was it fully loaded when you began to shoot?

Ofc. Dahl: Yes.

Det. Vigon: And how many rounds were in it? How do you load, how do you load it to say that's fully loaded?

Ofc. Dahl: Twelve in the mag, one in the chamber.

Det. Vigon: Okay, and each one of your magazines is loaded the same, twelve in each magazine?

Ofc. Dahl: Yes.

Det. Vigon: And are these only loaded by you?

Ofc. Dahl: Yes.

Det. Vigon: And nobody else loaded or unloaded any of these?

Ofc. Dahl: No.

Det. Vigon: And you did not add or delete any rounds from any of the

magazines between the incident and now?

Ofc. Dahl: No.

Det. Vigon: And you always load them the same way before every shift?

Ofc. Dahl: No, I've never unloaded, only when I shoot.

Det. Vigon: So they're always in the same, in the same condition when they're on your belt?

Ofc. Dahl: Exactly.

Det. Vigon: And that, that belt is kept secure, safe by you?

Ofc. Dahl: Yes.

Det. Vigon: At all times? Cause I know you guys are a little different, you don't have lock you don't keep your belt in your locker off duty correct?

Ofc. Dahl: No.

Det. Vigon: You take it home cause you take your car and your dog home.

Ofc. Dahl: Exactly.

Det. Vigon: And nobody can tamper with your stuff at home? Where's your stuff when you take it home?

Ofc. Dahl: It's secured in a room, where ah, no one but myself and my family knows where it's at.

Det. Vigon: Okay, any special equipment on your weapon? I know we just looked at it and talked about it a little bit.

Ofc. Dahl: Just a Tac light.

Det. Vigon: Tac light. Night sights?

Ofc. Dahl: Yes, that comes standard with it.

Det. Vigon: Okay. So when you get that gun with a rail, cause you have to get a gun with a rail to get a light right?

Ofc. Dahl: Correct.

Det. Vigon: So a rail gun automatically has night sights?

Ofc. Dahl: Correct.

Det. Vigon: It's like on my weapon I put night sights on it, but mine doesn't have a rail.

Ofc. Dahl: Yeah.

Det. Vigon: So (inaudible). And you qualified with that, with that light?

Ofc. Dahl: Yeah, I've been carrying that light for, I want to say almost three years, two years now. It was after we got into the unit that we got the lights, so we've been carrying it for quite a while.

Det. Vigon: Perfect cause I know the lights came out, they were coming out, they weren't optional, you had to go through a special school, so you went through special training?

Ofc. Dahl: Yes.

Det. Vigon: To be able to be qualified, certified to be able to use that weapon?

Ofc. Dahl: Yes.

Det. Vigon: What was your last shift, not counting today?

Ofc. Dahl: It would be yesterday or it should be Sunday from six o'clock till four in the morning.

Det. Vigon: Okay and your shift today?

Ofc. Dahl: Today is five at night till four in the morning. It's an extra hour of overtime tonight because of, cause we're down a couple of dogs so we're, Officer Thompson's dog had back surgery. So we're covering shifts.

Det. Vigon: Gottcha.

Ofc. Dahl: It worked out to where I'm working an hour overtime for K-9 coverage.

Det. Vigon: Okay, now I want to talk about the incident a little bit. When were you notified of this incident?

Ofc.Dahl: It actually came out when I was responding, there were no units available. They were broadcasting and I was responding to a 211 down in 5C, where three subjects had, robbed a male of a, of a cell phone and some other things and they were possibly involved in a 211 just prior. Prior to getting there they were, the possible suspects were taken into custody when this was being broadcast so I had dispatch pre-empt me and show me enroute to that. This came out as a possible 459 in progress, CHP transfer where there was an open line and a male subject could be heard on the other line, on the, on the other end of the line.

Det. Vigon: So we have a 459 progress, we have an open 9-1-1 and did they tell you that the people were armed inside, that there were shots fired or anything like that happening yet?

Ofc. Dahl: No, the way we got it was that originally a female had called in to CHP and said that someone is trying to break into the house; it get's transferred to us from what I understand and then while I'm enroute they could hear a male voice saying basically referring to having a gun, to take it easy on him and updates like that as we're going that, that showed that this actually was a pretty intense event involving, that they're listening in on and updating us as we're responding to the scene.

Det. Vigon: So you have a pretty good indication that this isn't a hoax, that this isn't just somebody hearing a cat on a roof and thinking it's a prowler? This is the real deal.

Ofc. Dahl: Exactly.

Det. Vigon: So what type of response are you making? Are you going code three?

Ofc. Dahl: Code three.

Det. Vigon: And, and where are your riding code from?

Ofc. Dahl: I was down at um, oh god, just prior to

Det. Vigon: Ehrhardt?

Ofc. Dahl: Valley High School and from there I hit Franklin, Franklin to

Mack, which turned into Meadowview to 24th, 21st, up 21st to the address.

Det. Vigon: And did you shut down sirens before you got out there?

Ofc. Dahl: I shut down my sirens on, on Meadowview. I shut down way before that. There were other units on scene and I didn't want to, I left my lights on but I shut down my sirens.

Det. Vigon: So units arrived on scene prior to you?

Ofc. Dahl: Exactly.

Det. Vigon: By how much?

Ofc. Dahl: I would say a minute or two, if that, somewhere in that area. Officer Carr and his trainee were first I believe and I don't know how far behind him I was. I was listening to their updates in fact when I was enroute is when they, they had the one with the Christmas presents coming out and I was shortly after that.

Det. Vigon: So Carr, Carr got there first?

Ofc. Dahl: Yeah. I don't know his trainee's name.

Det. Vigon: It's hard to pronounce. I have no idea how to spell it, it starts with an "M", Msryan or something like that?

Ofc. Dahl: I have no idea.

Det. Vigon: Before you got there did you do anything special during preparation you did, did you guys say we're gonna um, posse up two or three blocks away, formulate a plan, helmet up, anything like that?

Ofc. Dahl: No, there was really no time at all. I don't think people wanted to take up air time as well because we were getting good updates from dispatch and people were enroute and saying where they are. Air -1 was calling out perimeter positions. So they were setting all that stuff up while units were enroute and so it turned out, it worked out pretty good with people arriving and not taking up a lot of air time and just doing what they were supposed to do.

Det. Vigon: Perfect, so, so air unit was already there?

Ofc. Dahl: Yes.

Det. Vigon: And do you remember could you hear them? Could you hear the

Ofc. Dahl: I could hear them. In fact they were giving updates. When I got into the back yard, in fact I'm kinda going ahead, they were giving updates on my position and possible crossfire scenarios based on where I was as opposed to the officers in the front of the residence.

Det. Vigon: Any indication that there were dogs there, guns there?

Ofc. Dahl: No except for he did, in the updates it was mentioned that he had a gun, but when I got there, there was nothing about dogs and when I got into the yard just west of there through the, through that residence, I saw no dogs or indications that there were dogs in the back yard.

Det. Vigon: One of the updates did mention that he had a gun?

Ofc. Dahl: Yes. He had, ah said meant something and I recall, I can't do it verbatim that he had, basically he had a gun and I believe he was, when dispatch gave it, he was referring to him having the gun.

Det. Vigon: Okay. So your running code activates our cameras, where, where did you park your car and did you deactivate your camera at that time?

Ofc. Dahl: I parked my car and deactivated my camera at the, it would be the northwest corner of 21st. Was the address, is it Quinby or Quincy?

Det. Vigon: O'Neil.

Ofc. Dahl: Oh I'm sorry. I was way off then. It was at, it was at that corner, the south east corner, I parked right there.

Det. Vigon: Southeast, northwest?

Ofc. Dahl: Yes, it would be um northwest, I'm sorry northwest corner, because I was behind I believe it would be Officer Carr's car, car.

Det. Vigon: So northwest corner of O'Neil and 21st?

Ofc. Dahl: Yes.

Det. Vigon: Okay. Okay so you parked there then what do you do?

Ofc. Dahl: Um, I, I pull my partner out of the car and we proceed towards

the residence. In fact we ran past Officer Carr's car, car and I could see officers were going to the front, positioning themselves there. I wanted to be in the rear or as close to the rear as I can, but I didn't want to go in the back street and try and guess where the house was. So what I did is I went to the west side of the residence and contacted the occupants of the house, the first house west of the target residence. They let me into their house, I went into their back yard to see what kind of yard and layout I had to work with. The fence separating the house I was in and the target residence was a cyclone fence. There was really no good position in the yard I was in and to send my dog over that fence since it was a cyclone fence, the tops weren't capped, it had the prongs. I decided my best vantage point would be inside that yard for a couple of reasons; one, in case the suspect did come out, we would have a better opportunity to control him and two, in the northwest corner it was very shaded and dark in there, almost pitch. So what I did is I, I found a towel or blanket in the back yard, put it over the top of the cyclone fence so as not to injure my dog when he went over and then I bent the ah top wires with my hand over so it would be a smoother slide over for him. I used the kids, they had a little kids plastic ladder slide there. I jumped on that and got over the fence and then called him over to me and had him go over the towel part so he wouldn't cut up his underside on the cyclone fence. And then we ah, first went to the corner so I could see if I heard anything. From there we went over to the ah, northwest, corner of the house from the corner of the house we went to the northwest corner of the back yard. I put him in a down position and then I got into a down position next to him, a prone position with my hand gun out watching the back of the residence.

Det. Vigon: So when you're in that position, I went back there and looked, there's not any cover?

Ofc. Dahl: No there wasn't, that's why I went to a prone. There was no cover back there. There was a very empty back yard, had there been a good position of cover, I would have got behind that, but since there wasn't and I wanted to make myself smaller and that way too if someone's peeking out, being in that dark corner, I was closer to the ground.

Det. Vigon: Harder to see you?

Ofc. Dahl: Harder to see me, harder to shoot me.

Det. Vigon: Harder to see you, harder to shoot you, harder to shoot your dog, see the dog.

Ofc. Dahl: Exactly.

Det. Vigon: What color is the dog?

Ofc. Dahl: He's a dark sable so he's dark anyhow, so when he

Det. Vigon: A mix of colors, he's not pure black though?

Ofc. Dahl: No he's not pure black.

Det. Vigon: Is he a german shepherd?

Ofc. Dahl: Yes.

Det. Vigon: So he's kinda like a standard german shepherd color brown and tan and brown.

Ofc. Dahl: No.

Det. Vigon: Okay.

Ofd. Dahl: He's called a sable so it's like a darker color, he has no real, he's not the typical tan, black and tan. He's a darker mix, in fact when he's ah in the shade like that, unless the lights hit him in the eyes he's invisible pretty much and that' why I put him in a down too, to put him low and I got low next to him so we were tucked back in the, basically in the corner in a real dark area. Being as low and it's dark, being as invisible as we could be.

Det. Vigon: Okay, what are you, what are you hearing on the radio? You're in this yard, you're jumping the fence you're getting your dog over the fence alright, what are you hearing on the radio?

Ofc. Dahl: I'm hearing the units coming in, getting in position and they are still giving updates about what they could hear with the, with the male inside the residence.

Det. Vigon: Okay and is there, you, you know where your guys are going to be there. Some guys at the front, you kinda know the area or no?

Ofc. Dahl: I don't. But that's when Air -1 had come up on the air advising to units in front that I was in the back yard and that my position and told watch for cross fire scenarios. So they knew that I was in the back yard and that there could be a potential for cross fire if things happened.

Det. Vigon: What were you hearing about as far as the condition of the people in the house or the suspect in the house?

Ofc. Dahl: At that point there was no, all, all I knew at that point that for sure there was one female in the house. I didn't know if there was anyone else in the house. And I think one of the last things I remember them talking about was that his voice was fading, like walking away from where the open phone was.

Det. Vigon: So you're in the back yard and you're still hearing that this guy, from your updates, is still in the house?

Ofc. Dahl: Yes.

Det. Vigon: Then, then what happens?

Ofc. Dahl: I'm in that position, Air One advised that they're low on fuel, they could no longer, that they had to go and refuel. They left the area. There were, there was radio traffic regarding the address and some stuff going on. It was probably, I don't know, maybe anywhere from three to five minutes after Air One left that I heard the slider slowly opening. When it was, after it slowly

Det. Vigon: At the rear of the house?

Ofc. Dahl: At the rear of the house and the slider would be on the north side, east, north of the, northeast corner of the residence. I could hear it, it sounded like a metal sliding, I think it was a metal slider. I hear it open, real slowly, and then slowly I see a dark figure started just walking straight out. He was turned with his back to me, sideways, like he was stepping slowly out of the door trying to be quiet. He steps out of the door slowly, takes a step in a north easterly direction away from me with his back still towards me. He didn't know I was back there. He never looked back in my direction. He, from that point, started walking slowly in that northwest, northeasterly direction and probably about, I let him get about twenty feet way or so, I wanted him to be away from the house. It was dark back there. I saw one hand or one arm, but I couldn't tell if there was a weapon in it. I challenged him, told him to let me see his hands at which point he turned, immediately turned towards me and looked towards the door and motioned like he was going to the door.

I sent my dog. I gave him a command to "apprehend." He takes off toward the guy as the guy is running back towards the sliding glass door. The guy

made it into the door as my, as Bandit was coming up to the door. Bandit rounds the corner into the door, I was already up and running towards that way. I was probably, he was, he had just gone into the slider, it wasn't even a second, I hear a gun shot. I was probably two to three, I don't even know if I was three seconds behind him when I heard the gun shot. I came around the corner, cutting the pie. I see Bandit on the ground trying to get up, I don't see the subject who I had seen out there, the kitchen was vacant. When I see him getting up I look towards the southwest there is a, it's the kitchen and then an opening into the hallway. When I look into the, the hallway, when I look in that direction I see the suspect who was an Asian male dressed in all black, like a black jacket, black pants, coming from like, I guess that would be the living room, going down the hall, going into the opening of a door like he was going to continue down the hallway. He sees me,

Det. Vigon: Where is he down the hallway, I mean is he running away from you, right at you?

Ofc. Dahl: Here's the hallway, the hallway would be a east -west direction, when I see him, he's coming from the east going west past the open door, past the opening in the kitchen. Okay?

Det. Vigon: So to your right?

Ofc. Dahl: To my right. So he looks at me, I see, I see about three quarters of his body based on my angle and the angle of him by the wall. I want to say a little over half to three quarters of his body. I see what looked, looked like a gun in his hand. He looks at me, I know he's already shot my dog, I don't know if he's going to, I don't know where the victim is, the female is at this point and if he's heading down the hallway towards her and, or if she was in the room he was just in.

But when he looks at me and I see the gun, I immediately take a shot at him in the hallway. He, he, he turns back and steps the way he was coming, steps the way he was coming from. So I take my shot and as I see him walking, trying to get back out of my view, which would be like that corner right there, I take one shot and I followed him, I'm thinking I'm kinda leading him and so I take two shots into the wall, trying to get through the wall to stop him to ensure that, in case the victim, the female victim isn't in that room or if there is anyone else in that area and I didn't want to continually keep on shooting because if I did that, I have to count for all my rounds. I'm not going to shoot wildly and spray and pray that someone else isn't hit or if it goes through and hits one of our fellow officers out in the other, outside because it goes through an open window

or a door or whatnot. So I take two quick rounds into there hoping I can stop him before he goes any further. It was probably five to eight seconds after that that I heard several gun shots, that he had gone out front and confronted the officers out there. Once I heard that he was down, I mean it was all a matter of seconds from the point I shot to the point he was out there. I think he immediately ran out the front door.

Bandit was still trying to get up. I pick him up, I go to the fence. I went to kick out a board, so set him down, that wasn't or going to take too long. So I just grabbed a hold of the fence and started ripping on it, took the fence down, picked him up again. Officers had heard a bunch of commotion and I could hear them saying someone else is coming through the fence and I started yelling dog down, dog down and (inaudible) as they were running up. Cause I thought, they didn't know, we didn't know at that time, we knew we had one guy, we didn't know if we had multiple guys in the house. So I pick him, I, I had him in my arms and I'm yelling at the guys I've got dog down and I climbed the fence, I'm running past them and I put him in my car and from that point I ran code three to the Vet off of Bradshaw.

Det Vigon: Now I'll just back up a little bit to the part where your dog takes off after this guy, he's in the back yard and your dog takes off after him and he runs into the house?

Ofc. Dahl: Yes.

Det. Vigon: What are you, what are you thinking is going on right then?

Ofc. Dahl: I'm thinking that ah, actually I thought he was going to take him before he got to the door. The way that the angles were, he got into the door and Bandit went around him to the side. So I'm running up thinking that Bandit had taken him in the, within a foot of entering the doorway. And where I saw Bandit down when I got around the corner, he was actually like two feet in I think, if that, two, three feet inside the slider glass, sliding glass door

Det. Vigon: Uh huh.

Ofc. Dahl: So I don't know if he actually made, if he made contact with him before he got shot or if he got shot because he had contacted him and then the suspect shot him trying to get him off of him. I don't, I don't know if he was bit or not because when I got around the corner a couple of seconds later the suspect wasn't there.

Det. Vigon: How many shots did he shoot at the dog?

Ofc. Dahl: I heard one shot.

Det. Vigon: One shot. So now you're dog is shot, this guy has fired one shot, you round the corner, your dog is injured and you see this guy. What are you thinking of right when, right when you see this guy?

Ofc. Dahl: I see what I believe is a gun in his hand.

Det. Vigon: Do you know which, do you know which hand?

Ofc. Dahl: I want to say it was his right hand. Right, I take that back. His left hand I'm thinking. I, I

Det. Vigon: Things happen fast.

Ofc. Dahl: Yeah.

Det. Vigon: Totally and if you didn't get a good look at it, did you get a look, how long of a look?

Ofc. Dahl: It was

Det. Vigon: Was it a glimpse?

Ofc. Dahl: Not even a split second.

Det. Vigon: Okay.

Ofc. Dahl: I mean it was that quick.

Det. Vigon: Uh huh.

Ofc. Dahl: And I just kinda reverted back to training; gun threat, suspect, fire. I mean it was like that. There's a gun, there's a threat, fire. Threat, fire.

Det. Vigon: Were you able to say anything?

Ofc. Dahl: No.

Det. Vigon: in between that time?

Ofc. Dahl: No, there was, there wasn't time for that.

Det. Vigon: And why did you react that way?

Ofc. Dahl: Because I was worried for the safety of the female that was inside, the safety of any other possible victims inside, myself and my fellow officers that are out on the street in case he continued on or got out.

Det. Vigon: And you're worried for that safety because?

Ofc. Dahl: Because he's already shown that he has no regard, he's already shot a police dog, he's shot, he's inside a house committing a felony, he's on the line telling the, the victim to be good, that he has a gun and, and cause, I mean he's shown that he didn't, he didn't want to give up. He could have stopped, he could have ended it as soon as I made the first challenge to him out in the back yard, "Let me see your hands." He could have shown me his hands and dropped on the ground and that would have been the end of it right there. That didn't happen. There was from that point on unless he was, he was showing that he was not going to comply with any of our commands or my commands.

Det. Vigon: I understand and, and how did you personally feel?

Ofc. Dahl: About?

Det. Vigon: During this incident after you see your dog is down and you see this man in the doorway with a gun?

Ofc. Dahl: I didn't have time to I, I'm, I realized my dog was shot, but not to sound cold or brazen, I love my dog more than my family. I am working ten to fifteen, eighteen hours with him and he goes home with me every night. He sleeps inside, he's part of the family.

Det. Vigon: Were you scared?

Ofc. Dahl: I was

Det. Vigon: I want to ask you, I want to ask you how you felt, were you scared at that moment?

Ofc Dahl: No. I wasn't worried, I was worried for my safety, but I wasn't scared to where I was going to back away out of fear.

Det. Vigon: Okay, sure.

Ofc. Dahl: My thought was there was an issue at hand, we've got to take care of it. My dog is down, the guy has shot my dog. There's victims, there's people inside the house that are possibly the next victims

Det. Vigon: Uh huh.

Ofc. Dahl: And there's other officers on the scene that could be possible victims as well. So yes, so I was worried for my safety but it wasn't a fear that was going to keep me from doing my job.

Det. Vigon: Perfect. Well you did a good job and I'm glad you came out of it okay. I hope your dog can get well and recover.

Ofc. Dahl: Thank you. He's gonna be spoiled.

Det. Vigon: It's a big reminder to us that there's(inaudible). Alright well um, I'm going to step out real quick and just have a talk with my boss and stuff and then I'll be right back.

Ofc. Dahl: Uh huh.

Det. Vigon: Do you have any questions for me or?

Ofc. Dahl: No.

Det. Vigon: You did?

Atty. David Mastagni: No.

Det. Vigon: Excuse me.

Atty. David Mastagni: Let's go wait outside.

*** Short break ****

Det. Vigon: Um, one more quick thing, when you said you were in the back yard, the guy comes out and you said you challenged him and you tell him let me see your hands, what, what exactly happens there, what, what are you saying to him? What, did you say anything else to him?

Ofc. Dahl: No. I, actually I, it's all I said to him. Let me see your hands, short, sweet, simple, to the point. He turns around, looks at me,

looks at the door, motions towards the door, takes his first motion towards there at which time I, I sent my dog.

Det. Vigon: Um, did you say police or something, freeze, anything like that?

Ofc. Dahl: I don't recall.

Det. Vigon: don't recall, okay.

Ofc Dahl: I know that, I, I remember hearing that he had someone looking through the blinds, we had police cars in front of the place so I'm, I'm thinking if someone tells him to let me see your hands, he knows since he's already looking at the cops through the blinds he knows it's going to be us in the back yard.

Det. Vigon: And you're, you're hoping he'll put two and two together and he'll go heck they're in the back yard too now, someone's asking to see my hands?

Ofc. Dahl: Yeah.

Det. Vigon: Okay, that's good. When you come into the slider, you weren't able to say anything to him you just immediately, once you see him, you think

Ofc. Dahl: No.

Det. Vigon: You weren't able to say freeze or police or anything right?

Ofc. Dahl: No,

Det Vigon: It was quick.

Ofc, Dahl: The only thing I said after that, I took, took those three shots and when he went out of my sight I went on the radio and gave a quick description of the guy and that he was running back, running in the house. But it was like, that quick and I think as I was giving it he was probably going out the front door.

Det. Vigon: Okay, okay, that's it. Thanks a lot.

Ofc. Dahl: Okay.

Det. Vigon: David?

Atty. David Mastagni: I don't have anything.

Det. Vigon: Alright, thanks, well thanks for all your co-operation, your help, we appreciate it.

Ofc. Dahl: Thank you.

Document: **01 VICTIM STATEMENT**
Author: **400 - HEINLEIN, BRYCE 4085**
Subject: **(VICTIM #3)** [redacted]
Related date/time: **Mar-16-2010 (Tue.) 1405**

On 03-16-10 at approx. 1405 hrs, I, Det. Heinlein #294 re-interviewed (w) [redacted] at HOJ. The interview was video recorded and a copy of the interview was booked into SPD property as evidence. The following is a summary of the interview:

I came home at about 8:50-9:00 pm from school. I was by myself and stopped at KFC to get some food. When I got to my neighborhood the police had the street blocked off but I didn't know that it had anything to do with my house. I tried to go around to another street to get to my house but it was blocked off at the other end of my street.

I got out of my car and asked some neighbors what was going on. The neighbors told me that some guy got shot so I thought it might be the guy that lives across from me. Then they told me that some Asian guy had been shot. When I heard that I thought that it might be our neighbors because they are Hmong and they have people going in and out all the time. I think I was by Quincy Ave when I had this conversation.

I tried to call my sister to find out what was going on but she didn't answer. I tried to call the house but nobody picked up the phone. About 10 minutes later a black guy came over and told us that the police shot somebody and it was police brutality. I never thought it was my house, if I thought that it was my house I probably would have barged my way in.

We don't know the Hmong family that lives beside us. We have not had any issues with these people. If you look at my house it is the house to the left of my house. (west side) There are two young Hmong guys that live there but we don't talk with them. I think they are in their late teens. I don't know their names and I probably couldn't identify them if I saw them again. There hasn't been any issues with anyone in the neighborhood except that white guy across the street.

Ever since we moved into the neighborhood we haven't had any problems with anyone except our mail got stolen and that guy across the street. I think someone also tried to break into our house one time when we were sleeping. They took our garbage can and put it near our window as if they were trying to get in through the window. I think it was this year, it was after I came back from vacation.

I have talked to my sister and my mom about this and they thought that it could be the neighbors too. We also talked about some of the robberies that have occurred in the neighborhood and we thought that it might be related but we're not sure. I don't know if the guys that live next to us are involved in any gangs.

There is nothing in my mind that these people were out to get me or my family. We haven't had any problems with anyone. I don't think my sister has any problems with anybody. I know most of her friends and they wouldn't do anything like this.

I live at the house with [redacted](2 1/2 yrs old), [redacted] (5 yrs old), [redacted] and my mom, [redacted] and [redacted] have a different father but he passed away. [redacted] and I are full sisters. [redacted] lives in Rancho Cordova. I have two other brothers but we are disconnected and they have never lived at that house. My brother's names are [redacted] (21 yrs old) and [redacted] (28 yrs old). Our father is not in the picture anymore and I don't think he's in the country anymore. The last time that I've had contact with him was about 3 years ago through a phone call.

I don't think our family has any ties to Fresno. [redacted] lives in Sacramento somewhere. We think that [redacted] is a little crazy but he wouldn't do anything like this but you never know. I don't know of anything weird happening at the house since February. The neighbors across the street are always outside and look out for the house when we're not home. My mom doesn't work but she's at the temple a lot.

(At this point, I showed w-[redacted] single photographs of Zang Xiong, [redacted] and Meng Xiong. [redacted] did not recognize any of the subjects but stated that [redacted] resembled a person she knew by [redacted].")

I try and avoid Asian people because they are crazy. I stay in the master bedroom in the house. The large amount of money that was found in the house is my financial aid loan money that I took out for school. It is also my refund money and my settlement money from an accident that I was in. I think there is give or take $13,000. I kept in the sock drawer in a red bag and I think I had some money under the bed for easy access too.

I don't keep in in the bank because I recently took all my money out of the bank because I'm trying to close out my account with Bank of America. I was going to put it into Wells Fargo. I took it out because I don't like the banks because I think they all have bad customer service. I'll switch companies if I have a bad experience with customer service.

It is not odd for me to keep a large amount of money in my house. I don't tell anyone that I have it. I did tell [redacted] that I had it but I doubt that she told anyone that I had money in the house. I have a good relationship with [redacted], I'm more like a mother too her.

My mom doesn't keep money and she really doesn't have that much jewelry that's worth anything. There haven't been any vehicles that have driven by that have got my attention recently. Once in a while a car will park out front of our house at night but that's not really odd.

The time that someone tried to break into the house was after January 12th, 2010 because I had just got back from vacation. My mom told me about it because the trash can had been moved and nobody had any knowledge about moving. Nobody called the police regarding this and made a report.

When we first moved in somebody stole our mail but I don't know what they looked like. I think the name was "[redacted]", "[redacted]" or "[redacted]." We didn't even know about our mail being stolen until the police called us and told us that they had two guys that had our mail in their possession. They called my mother but she doesn't speak good English so I spoke to the officers. Neither my mom or I went to court and testified in that case. The officers just kept the mail as evidence. I never saw any pictures of these guys. The officer gave me the names of the subjects but I didn't recognize their names.

When I am home I park my car in the driveway. My mom also has a car too but neither one of us park in the garage because there is too much stuff inside.

(At this point, I obtained consent to look through w-[redacted] cell phone.)

Someone has been calling the house the past few days and when I pick up the phone nobody is there. I don't know what day it was exactly but I know that it was in the afternoon.

I got a check for $3,000 for the settlement for the car accident that I was in. I was driving home from school and this car rear ended me. I don't know who the person was that hit me but he was from Hayward I think. I didn't step out of my car that day because we were on the freeway. That happened April 28, 2009. It happened on N/B 99 at Hwy 50. I don't know they guys name was. I went through an attorney because I got fed up with the insurance company. My attorney was [redacted].

I got $2,450 from my tax return and I got $7,800 through my student loans and financial aid. The rest is from the checks that I get through my job. I have alway had a bank account. I never had this money in my bank I just cashed the checks and kept the money.

The only person in my family that gambles is [redacted] but we don't talk to him anymore. The last time that I talked to him was more than 6 months ago. He doesn't know where we live because we don't talk to him. He did most of his gambling at Thunder Valley.

Yesterday I went to school at 4:15 pm and went to school. My mom was still at the house when I left the house. I think she left the house at 6:00 or 6:30 pm. She usually goes to the temple around that time. She goes to the "Holy House" on 47th Ave/Stockton Blvd. She usually goes every night to the Temple.

My mom is on disability and she doesn't have any boyfriends. She hasn't been involved with anyone since my younger siblings father. Nobody really comes to our house except family. I don't think any of my family went to the movies yesterday.

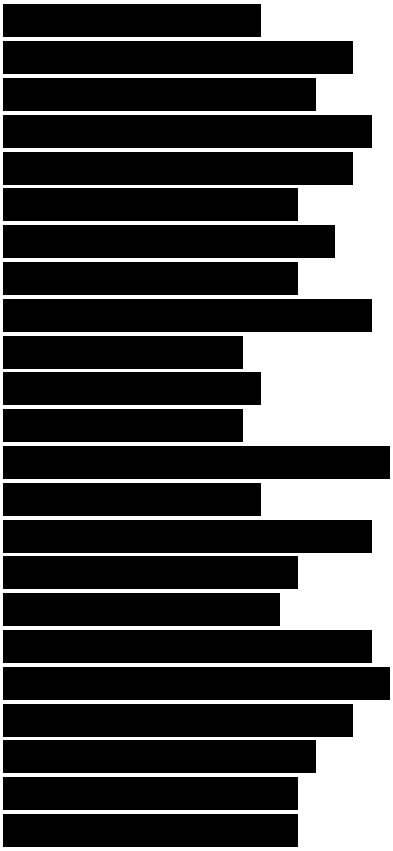

(At this point, I showed a copy of a piece of paper which was located in s-Xiong's wallet by officers. The piece of paper had her address written on it. W-[redacted] did not recognize the handwriting on the piece of paper.)

I haven't ever seen anyone go through our trash before. Before I lived at this house I lived with [redacted] at [redacted]. My sister [redacted] also lived with us there. My mom used to live in [redacted] with the two kids.

I have had one ex-boyfriend but he moved to Texas and he wouldn't do anything like this. I had another boyfriend that I broke up with over the phone two years ago but I haven't talked to him since.

(Due to ECU not being available I recorded the phone numbers that were located in w-[redacted] cell phone which are listed below:

Statement of [redacted]:

At approximately 1510 hrs., 3/16/10, I (Detective Higgins) conducted a follow-up interview of [redacted] to try and determine if she knew a reason for this crime. This interview was video recorded. For complete details please listen to the recording. [redacted] told me the following in summary:

The guy kept asking who lives here. I told him my mom. He asked when they were going to come home. The money is my sister, [redacted]. She got it from a financial aid check and a settlement from a car wreck. She got $3000 from the settlement.

(Detective Higgins then showed her a piece of paper with writing on it that had been located in the suspect vehicle) I don't recognize the writing.

I have a brother named, [redacted], who is estranged from the family. My brother blames my mom for the divorce. He's 28 years old.

[redacted] has bought two houses.This one and another one.

My mom was at home at 4:15. I had her car so there was no car in the driveway. My mom said that we have been getting some hangup phone calls.

While I was in the bedroom I could see lights flicking off and on from outside. The guy (suspect) looked out the window and didn't panic so I figured it wasn't the police.

On 03-16-10 at approx. 0029 hrs, I, Det. Heinlein #294 interviewed [redacted] During the interview, w-[redacted]'s younger brother "[redacted]" (5 yrs old) was present during the interview. I attempted to use [redacted] as a translator for her brother but discovered that he does not speak but only a few words due to disabilities which he received from a near drowning incident when he was a toddler. The following is a summary of the interview:

I currently work at the EDD Building as a student assistant and go to school at CSU Sacramento. There haven't been any tests done on [redacted] but he had a near death experience when he was 17 months old when he fell into a pool and almost drowned. We had to give him CPR and after about an hour after the incident he was back to normal. He never came up with any more words after that incident and has a difficult time pronouncing words. He went to the hospital after the incident.

I was not at the incident when this incident happened at the house today. My sister [redacted] were the only one's at the house when this happened. I think that [redacted] has selective hearing and probably doesn't understand everything that you say. He has a small vocabulary of English and Mien and he mixes them. [redacted] has not said anything to me about what happened, he has been very playful.

He is under care by doctors right now, we are trying to get some testing done on him and try and diagnose what's going on with him. He doesn't take any medication for any mental issues. I don't think you'll get anything out of him unless you are working with a specialist.

I found out about it because I was going home and the streets were blocked off by the police. I didn't know it was my house that was involved until the police told me.

I have no idea why this would happen. The only incident that I can think of is that there were two Hmong guys that were arrested for stealing our mail in November in 2009. I they bailed out but I'm not sure what their names are or where they live. We have lived in this house since the end of October. I don't know of any problems that my sisters have with anyone.

My mom doesn't work and is on SSI for mental issues. She doesn't have any

boyfriends and is not in any relationships with anyone. The last relationship was with [redacted] dad but he is no longer alive. I don't think my mom was any type of incident at the house. Nobody uses any drugs in our household.

I have two brothers but we really don't see them or talk with them for a while. The only other weird incident that I remember was that there is this Caucasian guy that lives across the street in the duplex that tried to expose himself to us about a month ago.

Subject: **Ofc. Nvard Msryan's statement**

On 03-16-10 at approx. 0300 hrs, I, Det. Heinlein #294 interviewed Ofc. Nvard Msryan at HOJ. During the interview with Ofc. Msryan, Ofc. Dustin Smith was present during the interview as a representative of the SPOA. (Sacramento Police Officer's Association) The interview was video recorded and a copy of the interview was booked into SPD property as evidence. Prior to interviewing Ofc. Msryan, Sgt. McCloskey conducted an ammunition count of Ofc. Msryan's department issued magazines and firearm. The following is a summary of the interview:

I have been a sworn officer with the Sacramento Police Department since January 2010. I am currently in Phase 2 of field training. Tonight I was riding with Corporal Carr as CH52. I am currently assigned to patrol training and I have been riding with Corporal Carr for 3-4 weeks. I was a Community Service Officer (CSO) for 10 months prior to being an officer. Before being a CSO, I was a student intern since 2007.

My training consists of the basic academy which I attended for 6 months. Since being with the department, I attended an Officer Survival School and EVOC training. I attended the Officer Survival School in October of last year. (2009) I attended CSU Sacramento for four years and graduated in 2008 with a Bachelor of Science degree in Criminal Justice.

I currently work swing shift which is 1500-0100 hrs and my days off are Friday, Saturday, Sunday. I only carry one firearm and that is my duty issued firearm.

We were on a different call on Manorside when we heard a broadcast of a 459 in-progress and I think there was an open line. Dispatch said that they could hear the suspect talk to the victim. The suspect was saying, "Do what I say and you won't get hurt." We responded "code" (lights and sirens) at that time and I was the passenger in the vehicle, Ofc. Carr drove the vehicle. I believe we used our lights and he "chirped" the siren. When we were on our way to the call I was directing Ofc. Carr how to get there but we really weren't talking about the call itself. It took us about two minutes to get there. We were just listening to the updates from dispatch. The In-Car Camera was on in our vehicle the whole time.

I think that was at about 8:37 pm when we responded. Dispatch was constantly updating us saying that they could still hear a male speaking to

a female saying that "he won't hurt her" and that there was a gun involved. When we arrived, we entered from 21st St/O'Neil. As we were approaching the address at about 8:40 pm, we observed a male walking E/B on O'Neil. Ofc. Carr gave him commands to stop and turn around. The subject was on the north side of O'Neil between house #1 and house #2. Once the subject turned around I placed him in the standing modified search position. We detained him and I advised him that he was not under arrest. I explained to him the call which we had received and why we detained him. Initially we handcuffed him but then the handcuffs were removed. We were the first officers on-scene. The helicopter was there prior to our arrival. The guy was carrying two gifts, one smaller package in his right hand and a large one in his left hand. The packages were wrapped in "Tinkerbell" and "Spiderman."

I felt that it was suspicious for the individual at that time of day to be walking, carrying two big packages especially because it was a burglary and at that time it came out that it was a male Asian. He fit the description and he was carrying two big boxes with kid wrapping on them. I didn't know if he was involved in the crime or if he just left the house with packages from the house. The guy was cooperative with us and we told him we were just trying figure out what was going on. He didn't fully answer my questions, he would answer my question with a question. Mid-way through my interaction with him he became nervous saying, "I have to get out of here, I have to get out of here, I need to go....Why are you holding me?" He received a phone call and I told him not to answer it. His phone and his personal items were still on him while he was in the back-seat of the car. When I detained the subject it was dark outside but there were street lights. He was able to see us and we were able to see him. When we pulled up our overhead lights were on but we did not have our siren on.

I'm not positive who got dispatched to the call but when we got on-scene I saw Ofc. Trefethen, Ofc. Pinola and Sgt. Crye. At which time dispatch advised that the suspect was possibly a male Asian. At this time we detained him, put him in the back seat of our vehicle, obtained his ID, ran him on County and Automated. He came back clear and he stated that he was going to a wedding. It didn't seem like the packaging that the presents were wrapped in was something that you would take to a wedding.

Ofc. Carr and I spoke and we determined that someone needed to stay at the car with the subject detained and the other person would go to the house and set up a perimeter. I think there were possibly four other officers on-scene. We were on-scene for about 1-2 minutes prior to the next unit's arrival. There were two officers by the silver truck and Ofc. Trefethen had his vehicle in the middle of the road, close to the house. Ofc. Carr

directed me to get the guys information, where he was going and what he was doing. At which time, I obtained his statement that he was going to a wedding. He later stated that he was not from Sacramento and he was trying to get to Stockton. I approached Ofc. Carr and I thought that we were going to release the guy because there was nothing on him whatsoever and Ofc. Carr told me to hold onto him because he fits the description of the suspect and we didn't know if the suspect inside had an accomplice.

I verified his date of birth and everything came back normal and he kept saying that he was going to this wedding in Stockton. He said that he was at an aunt's house but that he lives in Fresno. He said that he got dropped off by a guy named [redacted] and then said that [redacted] went into a house. He said that he was not sure what house he went into and that [redacted] left in a white Acura Integra. He then retracted that and said that he drove there in a black SUV which he later pointed out to us parked just east of 21st on O'Neil.

I was sitting in the front passenger seat of our vehicle. I was looking west and I could see multiple officers out front, I think there were three officers by the truck. I think there was a K-9 in the backyard and I think there were 2-3 officers by the patrol vehicle. I don't think there were any commands at that time because the air unit was above and advised there was a K-9 in the backyard and the cross-fire issues. At that time, he pointed out the vehicle I heard a gun-shot and a couple seconds later I heard 4-5 more gun-shots. I saw somebody running out of the door, there were multiple shots and then he dropped. I don't know how many gun-shots there were, maybe 5-6. The units in the front made the approach and I heard Corporal Carr on the radio say that the suspect was 926 (deceased) and to notify fire. Then they went into the house and cleared the house. I heard words being said but I couldn't make out what was being said.

I saw Ofc. Carr in front of the house with two kids. I went and got the 5-year old male and the 15 year-old girl and walked them to 21st/O'Neil where Ofc. Stinson was. The boy had his hands zip-tied behind him and the female had one of the zip-ties on her left wrist. I left the kids with her and I started taping off the scene. I told her to cut off the zip-ties while I started putting up the crime scene tape. I advised Sgt. Faulkner that the subject that we had detained had the Toyota down the street.

On 03-16-10 at approx. 1231 hrs, I, Det. Heinlein #294 interviewed (w) [redacted]. The interview was video recorded and a copy of the interview was booked into SPD property as evidence. The following is a summary of the interview:

I live at [redacted] O'Neil Way with my wife/significant other, [redacted] and her daughter [redacted]. We have lived at that house for two weeks, before that we lived over off of Sunnyslope for five years. Ever since we moved over there we haven't heard a siren, a gunshot or anything. Yesterday I was standing in the garage with my wife and she said, "Listen honey, it's so peaceful" and two days later this happens.

Right now I'm on Social Security for being diagnosed with Paranoid Schizophrenia but my actions are not that extreme. I am not on medication right now and I haven't been on medication for 15 years. This is not my first "After Action Report."

My dog and I were sitting out back of my house reading the paper and I heard the helicopter over the house and I think that it made about seven passes. I'm guessing that about three minutes after the helicopter got there I heard the first siren and it got closer so I figured they were connected. From the time that I heard the first siren to the time that I heard the first the shot it was about three minutes.

Prior to the shots, I heard elevated voiced but they were muffled. The first round that I heard sounded small like a .38 caliber. I heard a dog go off and that got my attention because I have a service dog and that's important. I heard the shot, I heard the dog crying and there was about 7-10 seconds of silence. At that point, I had already started moving. Due to the acoustic location of the shots I felt that it was coming from the front of my house so I went through my house to the front. As I was walking through my house, I saw the police lights on the wall. As I was grabbing the doorknob of my house I heard the 2nd small caliber "pop". As I was opening the door, the police were in a squatting position in the middle of the road firing away to my 10:30 -11:00 o'clock position. (N/W direction) When everyone began to "light up", (shooting) I quickly realized that he was not alone and I saw another one in the road with a cruiser but he was facing the other way (N/E direction) which confused me.

I saw an officer directly in front of me and I believe that I saw two other officers in front of the house. I have a vague recollection of two other officers in the street to my left. I remember there was someone else over by the house but I'm not exactly sure.

When these guys "opened up" I don't remember which way they were shooting and I don't know which way was down range. They ceased fire and just about the time that I was wondering about the dog and officer escorted a young girl and a really young boy out of the house. Behind them came the poor fellow with his dog. He was moving quite quickly with the dog.

When I heard the dog, it sounded like a dog had got shot. It seemed like suicide-by-cop. It was chaos when I went out there but the officers maintained their composure. When I came out of my door I didn't hear them giving the guy commands. I really couldn't see what they were firing at because it was dark out and I was blinded by the muzzle flash. I think there were around 20 shots. I slammed the door and ran back to the bedroom and pulled my wife off of the bed and put her on the ground. It was quiet so I fast-crawled back to the front of the house and opened the front door to see what was going on and they were clearing the house.

When the kids came out of the house I noticed that their hands were bound. I couldn't see if they had anything over their mouths or eyes. They were both children and my impression was that the girl was between 9-12 years old and the boy was 2-3 years old. Right after the kids came out of the house the officer was on their heels carrying his dog out of the house.

Yesterday at about 5:00 pm, some male and I guess the mother of the house got into a verbal argument. The argument was about 2 minutes and it happened in front of the garage. There was a red van parked there I think there was another vehicle parked there. He said something and she "went off" on him. I did not look over there, I just heard them arguing. There has been nothing else that sticks out in my head about that house. I have never met those people that live in that house. My wife didn't see any of this incident because she was in bed when this happened. [redacted] was not at the house when this happened.

The interview was video recorded and a copy of the interview was booked into SPD property as evidence. The following is a summary of the interview:

I am currently on SSI for sickness and I receive $800 a month. I live at [redacted] O'Neil Way with my daughter [redacted] (25 yrs old), my daughter [redacted] (17 yrs old), [redacted] (5 yrs old) and [redacted] (2 1/2 yrs old). I have another daughter named [redacted] who lives with her boyfriend in Rancho Cordova.

I have two son's that really aren't a part of my life anymore. [redacted] (29 yrs old) is my oldest son. I don't know where he lives and I haven't seen him in 10 years. I don't talk to him anymore because he is disobiediant. My other son is 25 years old and his name is [redacted] I don't know where he lives but I know that he lives in Sacramento somewhere.

My recent husband was Hmong and his name was [redacted] He died two years ago and when he died I got $94,000 for his life insurance. My ex-husband has two sisters and three brothers and we have some family in Missouri. I have not had contact with my late husband's family for over two years.

I remember he had an uncle that lived in Fresno and I think his name is [redacted] (50 yrs old) I know that he has kids but I have never seen or met them before. I think the last time that we were at his house was in 2004. He is a good person, I know he wouldn't do anything like this.

Last night I went to the temple at about 5:00-5:30 pm to pray. I drove my white Honda and took my 2 1/2 yr old, [redacted] with me. When I left the house [redacted] and [redacted] were at home. [redacted] left in the afternoon but I'm not sure what time she left. I think she left at approx. 3-4 pm.

I found out about the incident that happened at my house when the police came to the temple and picked me up and took me home. I had a chance to speak with [redacted] about the incident and she said that she did not know the guys and she really didn't tell me what happened inside the house.

My ex-husband that I had the 5 children with was [redacted] (58 yrs

old) In 2003 we separated and he has not given me any child support. He told me not to file for child support and was harassing me. I got a restraining order back in the day and he was actually arrested for violating the restraining order. I think he is back and fourth between Thailand but I think he lives here in Sacramento. The last time that I saw him was in divorce court between 2003-2005.

Last year I went to the Welfare Office to try and get assistance. They told me that he had to pay child support. I remember his brother [redacted] called in November 2009 and said, "Don't make it complicated, he (my ex-husband) doesn't want to pay child support." He was not mean and didn't make any threats to me, he was just asking for me not to do it.

I think [redacted] lives at [redacted] and I don't know his phone number. I don't know how much money he is supposed to pay me.

(At this point, I showed [redacted] single photographs of Zang Xiong, [redacted] and Meng Xiong. [redacted] did not recognize any of the subjects.)

I don't know why these people would target my house. In 2009 I got the settlement for my husband's death. Nobody from my husband's family knows that I got a death benefit.

I do not know why my brother went to Sacramento, and I do not know of him having a girlfriend Sacramento or what goes on during the daytime. I go to school from 8 AM until 1:10 PM . The witness continued to say that that was not correct. And repeatedly denied knowing about or seeing any guns in the house.)

(The witness was informed that his brother had been shot by Police and was dead in Sacramento. He acted like he did not know this information, and acted surprised and sad. He then said the family was at his house and had been planning a funeral regarding his brother. Thus he already knew his brother was dead.)

Related date/time: **Mar-31-2010 (Wed.)**

On 3-16-10 at approx 0303 hours, Ofc. Wolfe (one of the reported shooting officers involved in this incident) is inside interview room #2 at SPD Headquarters along with his attorney, Jeff Edwards, when Sgt. Martinson and I (Det. Jasperson) make contact with him. This is an audio and video recorded room. *Note: The time displayed on the video screen is approx one hour off because it had not been adjusted yet for daylight savings time.

The following is an account of the interview that subsequently took place (as transcribed by PCII Alexandra Lynn):

Sgt. Martinson: Hi.

Ofc. Wolfe: Hi.

Sgt. Martinson: Is it Victor?

Ofc. Wolfe: Yes.

Sgt. Martinson: Paul Martinson. Okay, before they get started with the interview, we're going to just check your rounds and actually just trade out guns.

Ofc. Wolfe: Okay.

Sgt. Martinson: Okay, you have two magazines?

Ofc. Wolfe: Um, basically during the incident....

Sgt. Martinson: Uh huh.

Ofc. Wolfe: ...once we put the subject down....

Sgt. Martinson: Uh huh.

Ofc. Wolfe: I, once we got into the house and we took cover again, I combat loaded, took my half empty magazine and put in a full magazine just in case we were gonna...

Sgt. Martinson: Okay, but do you have the magazine or did you leave it out

there or...

Ofc. Wolfe: Yeah, it's right here.

Sgt. Martinson: Okay.

Ofc. Wolfe: So this one's full.

Sgt. Martinson: Alright.

Ofc. Wolfe: And this is the one I took out.

Sgt. Martinson: So this is the one you took out of your gun?

Ofc. Wolfe: Correct.

Sgt. Martinson: And then, now before shift were all your magazines completely loaded?

Ofc. Wolfe: Yes

Sgt. Martinson: And they're, both of them on your belt were completely full?

Ofc. Wolfe: Correct.

Sgt. Martinson: And the one in your gun?

Ofc. Wolfe: Correct.

Sgt. Martinson: And you had one in the chamber?

Ofc. Wolfe: Correct.

Sgt. Martinson: And the magazine was still completely full?

Ofc. Wolfe: Correct.

Sgt. Martinson: And they hold about twelve rounds each?

Ofc. Wolfe: Twelve rounds plus one in the chamber so...

Sgt. Martinson: Okay, alright.

Ofc. Wolfe: Do you want me to take this one out as well or?

Sgt. Martinson: No, we'll do it one at a time. Okay, this is the one that he combat loaded, he took out. Are you ready?

Ofc. Wolfe: Yep.

Sgt. Martinson: You guys ready? Okay, one, two, three, four, five. And your other one in your belt. One, two, three, four, five, six, seven, eight, nine, ten, eleven, twelve. Okay, can I see your hand gun please? Empty. One, two, three, four, five, six, seven, eight, nine, ten, eleven, twelve. We're missing somebody. Got it?

CSI: Uh huh.

Sgt. Martinson: Okay this handgun is [redacted]. They're gonna safety check your gun and then give it back. Is this your personal gun?

Ofc. Wolfe: Yes.

(Sound of cell phone ringing.)

Sgt. Martinson: Okay. And the hand gun you're gonna get is [redacted]. You got three magazines and a hand gun. Okay? Here you go.

Ofc. Wolfe: Yep. Can I load it now?

Sgt. Martinson: If you want to.

Det. Jasperson: I'll be back in in just a second.

(Det. Jasperson and Sgt. Martinson leave the room.)

Ofc. Wolfe: The springs are tight. Okay. You ready?

Atty. Jeff Edwards: Cool. Alrighty. We're ready.

Ofc. Wolfe: Team twenty two I think.

Det. Jasperson: What, what time did you start today?

Ofc. Wolfe: Fifteen hundred.

Det. Jasperson: Fifteen hundred okay. Is that your normal shift?

Ofc. Wolfe: Yes.

Det. Jasperson: Was that where you were currently, is that what you were wearing today?

Ofc. Wolfe: Yes.

Det. Jasperson: What you have on right now?

Ofc. Wolfe: (Yawns) Correct.

Det. Jasperson: Sorry, are you getting kinda tired?

Ofc. Wolfe: Yeah.

Det. Jasperson: Sorry, I'll try and not take too long.

Ofc. Wolfe: No problem.

Det. Jasperson: Obviously we just did a count of your rounds and a change out of your weapon. The weapon that you had, is that the weapon that you were carrying tonight?

Ofc. Wolfe: Yes.

Det. Jasperson: Is that your normal weapon that you carry?

Ofc. Wolfe: Yes.

Det. Jasperson: With a tac-light on it?

Ofc. Wolfe: Yes.

Det. Jasperson: Okay. Do you carry any other weapons?

Ofc. Wolfe: No.

Det. Jasperson: No back up or anything like that?

Ofc. Wolfe: No.

Det. Jasperson: Alright. And it's a forty caliber?

Ofc. Wolfe: Correct.

Det. Jasperson: Is that department issued or personally owned?

Ofc. Wolfe: Department issued. The tac-light is personally owned.

Det. Jasperson: Right, okay. What I would like to do is just go over the call that you responded to tonight.

Ofc. Wolfe: Okay.

Det. Jasperson: Were you partnered up with anyone or did you ride solo?

Ofc. Wolfe: I was solo.

Det. Jasperson: Okay, what car were you?

Ofc. Wolfe: Charles four seven.

Det. Jasperson: Is that your normal car?

Ofc. Wolfe: Correct, yeah.

Det. Jasperson: Okay. Were you dispatched to this call or did you just put yourself on it?

Ofc. Wolfe: I wasn't dispatched, I asked dispatch if they needed extra units and she said yes.

Det. Jasperson: And what type of call was this?

Ofc. Wolfe: It was a, I believe, a 459 in progress.

Det. Jasperson: Okay. So you heard it come out?

Ofc. Wolfe: Correct.

Det. Jasperson: And you just asked if they needed additional units?

Ofc. Wolfe: I was actually on another call. I cleared that call and then I asked.

Det. Jasperson: Okay. So why don't you just tell me what happened from the time that you heard this call come out?

Ofc. Wolfe: Um, I asked if they needed additional units. She said yes. Then I asked if they needed me code three. She raised Sgt Crye on the air and asked and he said affirm. So I responded code three from I believe it was Greenhaven and South Land Park to the scene. Once I got on scene, um, I parked on 21st, east of the residence. North of twenty, north of, north

of I believe of 68th, on 21st, east of the residence or 69th whatever street um, the house was on. And uh, got my riot helmet on.

Det. Jasperson: Just a second, you parked on 21st....I think the house is on O'Neil.

Ofc. Wolfe: O'Neil. Sorry, O'Neil...so north of O'Neil on 21st just south of uh, whatever street it is. O'Neil.

Det. Jasperson: Okay.

Ofc. Wolfe: Uh, put my riot helmet on and...

Det. Jasperson: And why did you do that?

Ofc. Wolfe: Possible man with a gun inside the house.

Det. Jasperson: Is that what you heard? I'm just trying to...what did you hear when you originally heard....what information did you receive?

Ofc. Wolfe: I kept hearing, I kept hearing that the dispatcher could hear a voice in the back saying to whoever was there you know, listen to me and cooperate with me and I won't shoot you or I won't kill you. And I think dispatch said something about a possible armed man inside the house.

Det. Jasperson: Okay, and so that made you think that maybe someone had a gun or what?

Ofc. Wolfe: Correct.

Det. Jasperson: Okay. Okay, so you got there you put your riot helmet on?

Ofc. Wolfe: Put my riot helmet on.

Det. Jasperson: Okay.

Ofc. Wolfe: And then I proceeded to, um, the back of, I believe it was, I think it was Officer Carr's car, in front of Officer Carr's car there was another, it was a parked car on the north, on the north side of the street just east of the residence.

Det. Jasperson: So were there, were there other officers already there?

Ofc. Wolfe: No there wasn't. I was trying to figure out where they were

at. So I posted up to the third guy, covered him and I saw that there were other officers across the street so I went south, to the tree line on the south side of the houses just kind of through the back, through the front yards and then back up to where they were behind the patrol car.

Det. Jasperson: Whose patrol car was that?

Ofc. Wolfe: I believe it was Trefethen's.

Det. Jasperson: Okay, so there were other officer's there when you arrived?

Ofc. Wolfe: Correct, Trefethen, Carr, Sgt. Crye and myself.

Det. Jasperson: Okay. And you took a position of cover behind one of those cars you said?

Ofc. Wolfe: Behind Trefethen's car, yes.

Det. Jasperson: Okay. And then what happened?

Ofc. Wolfe: The car was parked in front of the residence at an angle.

Det. Jasperson: Do you remember the address of this residence or anything?

Ofc. Wolfe: Not the exact address.

Det. Jasperson: Okay.

Ofc. Wolfe: But it was parked in front of it. He had a spotlight on it when I got there.

Det. Jasperson: Okay.

Ofc. Wolfe: Sgt Crye told Trefethen we should probably, we don't need to be this close, we can back up a little bit. And I told Tre let's back up to the north curb line, or the south curb line with the car. So Trefethen got in the car backed it up. I stayed at the back of the car and just backed, tactical backed stepped to the curb line and he stopped the car and took up a position cover back. He had it at an angle and so I took up a position behind the engine block in the doorway with Trefethen.

Det. Jasperson: Okay. And what was the plan at that point or what?

Ofc. Wolfe: We just wanted to have point on the house, the front door. I

knew there was a rifle and another officer to my west, behind us. I didn't know exactly where, but I knew they were there. And I heard Air say that K-9 was in the 2-3 corner of the residence in the backyard.

Det. Jasperson: Okay. So were you guys kind of establishing a perimeter then on the house?

Ofc. Wolfe: Correct.

Det. Jasperson: So you thought there might have been somebody in the house like as far as suspects?

Ofc. Wolfe: Yes. We kept hearing that the, uh, dispatcher could still hear a subject inside the house who sounded Asian and could hear them telling, you know who ever was there, you know, nod your head if you understand what I'm saying or you know.

Det. Jasperson: Okay, so you were getting updates from dispatch?

Ofc. Wolfe: From dispatch, what the possible suspect was saying to the victim.

Det. Jasperson: Okay. And that information led you to believe something or?

Ofc. Wolfe: Lead me to believe there was an armed man inside the house.

Det. Jasperson: Okay.

Ofc. Wolfe: That it was a possible home invasion.

Det. Jasperson: Okay. Was there any indication as far as how many suspects there were or?

Ofc. Wolfe: No. I know that one suspect was detained by Officer Carr prior to me arriving.

Det. Jasperson: Okay.

Ofc. Wolfe: But we didn't know, or I didn't know, if he was related to the incident inside the house.

Det. Jasperson: Okay.

Ofc. Wolfe: But I didn't know exactly how many suspects were inside the house.

Det. Jasperson: Okay. So then what else happened when you guys were outside?

Ofc. Wolfe: Sgt Crye asked, you know, are we sure this is the house? Is it from a cell phone or was it a land line? How are do we know this is the house specifically? And I think it was either Lt. Rehm or Dispatch who came on the air and said CHP got the phone call and this is the address they gave us from the cell phone.

Det. Jasperson: Okay.

Ofc. Wolfe: So at that point we knew that that was going to be the house.

Det. Jasperson: So you were able to determine that you were at the right house?

Ofc. Wolfe: Correct.

Det. Jasperson: Okay. And what happened next?

Ofc. Wolfe: Uh, I heard one solo gun shot.

Det. Jasperson: Okay.

Ofc. Wolfe: Um, kinda towards the back of the house. The north of the house.

Det. Jasperson: Okay.

Ofc. Wolfe: I looked over at Crye and said that was a gun shot. And then Crye I think got on the air and said we have gunshots inside the house. And then soon after, I don't know how long...maybe a few seconds after, I heard about four or five rapid gun shots.

Det. Jasperson: Where were those coming from?

Ofc. Wolfe: From inside the house. Towards the front of the house. You could actually see the glow through the, uh, I thought I saw the glow through the, uh, window.

Det. Jasperson: Okay.

Ofc. Wolfe: Um, of the muzzle flash. But I wasn't sure if that was actual muzzle flash, but I knew the gunshots were definitely coming from inside the house.

Det. Jasperson: Okay. And what happened next?

Ofc. Wolfe: At that point I thought that he had, whoever was the suspect, had executed the family.

Det. Jasperson: Okay.

Ofc. Wolfe: That was my, the first thing that went through my mind was someone had just executed the family. Soon after the gunshots I could hear kinda running around kinda like someone running around the house and then out came the front door. The front gate over the front screen opened and...

Det. Jasperson: The front, the front screen like, like the door?

Ofc. Wolfe: The security, the security gate, door opened up and a male suspect came running out, fast.

Det. Jasperson: Okay and where are you guys positioned in the front of the residence?

Ofc. Wolfe: We are on the north, sorry south curb line of O'Neil...

Det. Jasperson: Okay.

Ofc. Wolfe: ...in front of the residence at an angle.

Det. Jasperson: And who's out there?

Ofc. Wolfe: Myself, Trefethen is front of me on his knee with a shotgun. I'm on his left shoulder.

Det. Jasperson: And this is all behind the car?

Ofc. Wolfe: All in the "v" of the door, the driver's side "v".

Det. Jasperson: Okay and Trefethen is next to you?

Ofc. Wolfe: Trefethen's down below, to my right with the shotgun pointed up on the house, the front door. I am to his left shoulder above him,

standing up, you know kinda in a crouched position.

Det. Jasperson: And you had your handgun?

Ofc. Wolfe: Correct.

Det. Jasperson: Okay.

Ofc. Wolfe: Out, pointed at the front door.

Det. Jasperson: Okay.

Ofc. Wolfe: And then I believe it was either Crye or Carr behind me, or then Crye and Carr behind him. I don't know who was where.

Det. Jasperson: But they were both behind you?

Ofc. Wolfe: Correct.

Det. Jasperson: Okay. Is there anyone else out there that you can, that you can see?

Ofc. Wolfe: No.

Det. Jasperson: Okay.

Ofc. Wolfe: And like I said I knew there was two other officers, one with a rifle and another officer to my west behind me.

Det. Jasperson: Okay. Do you know who they were?

Ofc. Wolfe: Um, I found out later that it was Paul Richardson and McPhail. But I didn't know, I knew it was a Tac Unit, but I didn't know who exactly...

Det. Jasperson: Okay.

Ofc. Wolfe: ...which officers.

Det. Jasperson: You knew they were out there somewhere.

Ofc. Wolfe: Correct.

Det. Jasperson: That two other officers were out there somewhere.

Ofc. Wolfe: Correct.

Det. Jasperson: Okay, so you guys are out there and then you say the suspect came out the front door?

Ofc. Wolfe: Correct.

Det. Jasperson: Okay. And what happened next?

Ofc. Wolfe: As soon as he exited the front door he took a couple of steps. At that point I could see that he had a gun in his hand.

Det. Jasperson: Okay.

Ofc. Wolfe: Looked like a small gun. I make a command of you know, let me see your hands, drop it, drop the gun, let me see your hands. Multiple, I could hear multiple of the other officers making commands for him to drop the, the gun.

Det. Jasperson: Okay.

Ofc. Wolfe: He didn't, he didn't at all. He continued to come towards us. He took a few more steps. At that point, I didn't know if he was coming after us, it was, I assumed that he knew we were out there 'cause someone kept looking out the window when we were on scene. When we had spotlights on the windows.

Det. Jasperson: Prior to him exiting the house?

Ofc. Wolfe: Prior to him exiting the house. Correct so...

Atty Jeff Edwards: Out of which window? If you remember.

Ofc. Wolfe: The blinds on one of the windows kept fluttering. I think it was the front window. Like the far, east window on the front of the house, like the big, big bay window.

Det. Jasperson: Okay. Could you see a face or?

Ofc. Wolfe: No, you could just see the blinds like, like someone was looking out. So it was obvious that, I mean spotlight shining on the house, from the patrol car, I mean, we're pretty bright, so it was obvious that there was, we were out there. I assumed that, I mean whoever was

inside would know that we were out there.

Det. Jasperson: You felt like someone would have been aware of your presence?

Ofc. Wolfe: Correct.

Det. Jasperson: Okay.

Ofc. Wolfe: Correct.

Det. Jasperson: How, how close in proximity did that happen? Someone looking out to him coming out the front door?

Ofc. Wolfe: Not, I mean, that happened and then the shots, the single shot was fired

Det. Jasperson: Okay.

Ofc. Wolfe: And then the rapid four or five shots were fired.

Det. Jasperson: Okay.

Ofc. Wolfe: And then soon after that, I mean literally like seconds, he came running out the door.

Det. Jasperson: Okay, okay.

Ofc. Wolfe: So, we were all out there. I was, myself, Trefethen, Crye, Carr and then the other two officers and the cars is parked directly in front of the house.

Det. Jasperson: Do you recall which hand the gun was in?

Ofc. Wolfe: I believe, I believe it was his right hand.

Det. Jasperson: Okay.

Ofc. Wolfe: Cause I was kinda looking towards the, my left, his right and I kept seeing, as he was running, you could see the gun in his hand.

Det. Jasperson: Okay.

Ofc. Wolfe: He kept going kinda like this as he was running.

(Demonstrates moving his arms/hands up and down.) At that point I didn't know if he was going to come at us. I assumed that there was possibly some still victims inside the house, I thought he possibly executed them. At that point, he failed to respond to our commands. Um, I came on point, I was already on point on him once he came out the door, um, and I began to fire my handgun.

Det. Jasperson: Okay.

Ofc. Wolfe: In fear that he was coming towards us with the gun, um, and not only that but possibly retreat back to the house. I, you know, didn't want him to get beyond the front patio towards us.

Det. Jasperson: Okay.

Ofc. Wolfe: To get any closer.

Det. Jasperson: Do you recall what was, um, let me ask you this...do you recall how many shots you fired?

Ofc. Wolfe: Um, I was, I thought five or six.

Det. Jasperson: Okay.

Ofc. Wolfe: That's why combat loading when I had the chance. I figured only had maybe five or six rounds left in there.

Det. Jasperson: At what point did you combat load?

Ofc. Wolfe: Well so, he came out, we gave him, I gave commands as well as the other officers. Non-responsive on the commands, fired on him, um, as I was firing on him I heard a shotgun muzzle blast which I assumed was Trefethen below me.

Det. Jasperson: Okay.

Ofc. Wolfe: I didn't hear the officers to the left fire on him. I could only hear the muzzle blast and then, you know, the rounds that I was shooting, but it wasn't loud enough to where I could, it was ringing in my ears I didn't really hear you know, I just heard the muzzle blast. Once the suspect came down, I think I believe I heard Crye say he's down, he's down, and then I stopped fire, firing. Everyone pretty much stopped firing at the same time.

Det. Jasperson: Okay.

Ofc. Wolfe: Crye says we gotta move. So myself, Trefethen, Crye, and Carr kinda do a diamond shape and we approached the suspect. And that was immediately after, as soon as he fell we went and started making the approach. Went towards the front door, towards the suspect where he was lying. I would say it's probably ten or fifteen feet from the front door. Um, he, uh, I, they're kind of, I'm kind of towards the left side of the diamond towards the east side or the west side of the house along the diamond. We approached. Suspect is laying down bleeding, so don't know if he's alive still so I handcuff him. While I'm handcuffing him, I could hear like a fence or something being torn down on the side of the house, and I think the other officers thought, and myself thought, it was another suspect trying to bail over the fence. So I believe it was Carr, Trefethen, Crye kinda peeled off towards there. By that time I think Paul Richardson, who had the rifle, I saw him out of the corner of my eye, as I looked up, I saw him there coming up with McPhail. Um, and uh, so they peeled off and the door was still open, the screen and the door to the house were still open so I could see into the house, so as I'm kneeling down to try to cuff him I see that they peeled off towards the east side of the residence so I tell Richardson cover that door, cover that door because I don't know if there's more suspects in there.

Det. Jasperson: Referring to the front door?

Ofc. Wolfe: The front door, and I don't know if there's more suspects going to come out and I'm kinda a sitting duck right there.

Det. Jasperson: Right.

Ofc. Wolfe: So I tell him to cover the door. Um, he says I got your back, I got your back. So I cuff him up. We realize that it's Dahl, or they realize I don't even realize that it's Dahl, but the other officers realize it's another officer trying to get out of there with his dog to go take the dog to the hospital. So at that point we reconvene in front of the house, all of us, and make entry into the house. At that point once we made entry into the first part of the house and we took cover behind a wall, I was able to combat load. You know I had my handgun in my hand and took the, I had it, took a full magazine, took the half a magazine and put it in my pocket. Took the full magazine in and then sat there and waited till we were gonna finish clearing the rest of the house. We cleared the part of the house, the kitchen area, the living room and then we made, and then we were, we had two of us here, probably three of us here and you know, three more of us here on the wall and we were calling people out. And we could

hear, I could hear a girl saying that it's me and my brother, it's me and my brother. And so we called them and said come on out, come on out. I think Carr, I think Carr said come on out, come on out. He's making all the commands. And uh....

Det. Jasperson: Did you, did you make any commands before you went inside or was...?

Ofc. Wolfe: No. We went, other officers said Sacramento Police Department but I didn't say anything cause I was....

Det. Jasperson: But you heard commands being given?

Ofc. Wolfe: Correct.

Det. Jasperson: Okay.

Ofc. Wolfe: So we entered the house, like I said, cleared the east side of the house then worked towards the, the hallway. At that point a little girl, a girl came out probably fifteen or sixteen with a four or five year old who both, I want to say they were both zip tied. I'm pretty, I'm positive that the four year old or five year old was zip tied. Which I, at that point I knew it was a home invasion, um, poss...you know, they were being held hostage. So we continued to, we got them out, I think Carr took them out of the house and then we cleared the rest of the residence and didn't find anybody else inside.

Det. Jasperson: Okay. As you were making your approach to the house did you, did you ever see a gun anywhere?

Ofc. Wolfe: Yes I did. As I, when I looked over to go, um, 'cause I wanted to see where the gun was...to see if it was near his body still...I looked over to my right kind of, there's, there's sidewalk running down the, where the door was, and then there's grass and then kind of some bushes up near the, towards the front of the house, and then grass. We came up on the grass to the east of the sidewalk. He was laying on the sidewalk and to the north west of him probably six or seven feet was like a snub nosed revolver of some sort. I think it had a wooden handle laying on the ground.

Det. Jasperson: Do you remember what color it was or anything like that?

Ofc. Wolfe: I think it was silver.

Det. Jasperson: Silver?

Ofc. Wolfe: Correct.

Det. Jasperson: Now you, if I'm not mistaken, you said you were, you were the one that handcuffed the guy who was down on the ground?

Ofc. Wolfe: Yes.

Det. Jasperson: Okay, what was your reason for that?

Ofc. Wolfe: I didn't know if he was still alive.

Det. Jasperson: Okay.

Ofc. Wolfe: I didn't want him to, you know, if he had another weapon on him, um you know, once we contained him, detained him and he's secure at least now we could finish clearing the house. So I wanted to make sure he was handcuffed and wouldn't be able to access to any other weapons.

Det. Jasperson: Okay. Now do you remember, how many people did you find in the house total?

Ofc. Wolfe: Two.

Det. Jasperson: Two. Do you remember their condition? You said they were....

Ofc. Wolfe: They were very upset, scared. The little boy looked horrified. It made me pretty sick.

Det. Jasperson: Okay.

Ofc. Wolfe: It made me pretty, pretty shaken up seeing the little boy zip tied like that. You know, four or five year old zip tied.

Det. Jasperson: Yeah.

Ofc. Wolfe: He was horrified and the girl was just absolutely shocked.

Det. Jasperson: Okay. Where in the house were they found, do you remember?

Ofc. Wolfe: I was kind of on the side, I didn't see exactly what door they came out of cause I was kinda behind two other officers on the entry of the

hallway, but they came up towards the back of the house. Or towards the, not the back, but towards the west side of the house.

Det. Jasperson: Was there a lot of light? Just going back to the part where the actual shooting took place was it, was there a lot of light out there?

Ofc. Wolfe: We had our spotlights completely lit up the front of the house.

Det. Jasperson: Would that be the spotlights from...

Ofc. Wolfe: From the car.

Det. Jasperson: From the patrol car?

Ofc. Wolfe: Yes.

Det. Jasperson: What lights were on? Cause there's obviously a lot of different options to use. Do you remember what lights you used?

Ofc. Wolfe: We had two lights on the side of the car.

Det. Jasperson: Okay.

Ofc. Wolfe: One was pointed towards like the garage, left side of the doorway and one was pointed actually on the window and to the, and the doorway of the house.

Det. Jasperson: Okay. Could you see the guy...

Ofc. Wolfe: Yes.

Det. Jasperson: ...pretty well when he came out?

Ofc. Wolfe: Clearly.

Det. Jasperson: Okay.

Atty. Jeff Edwards: Were there any lights attached to the house that were on?

Ofc. Wolfe: Um, if there were, they were flooded out by the lights, the powerful lights on the car. I couldn't, didn't really see much cause those lights are pretty bright on the car.

Det. Jasperson: Alright.

Ofc. Wolfe: We were probably no more than, the car was probably no more than twenty five, thirty yards from the house.

Det. Jasperson: Do you have any estimation of how far you were away from the suspect?

Ofc. Wolfe: I would say, probably from the time I started shooting, he was probably twenty, twenty yards from me, approximately twenty yards from me.

Det. Jasperson: And then the purpose of combat loading before you made your way further into the house, can you explain that?

Ofc. Wolfe: Well I, I knew I had around only six or seven rounds left in my gun. I didn't know if there was other suspects inside the house. I didn't want to confront them and only have six or seven rounds. At that point I was in, behind, point of cover, position of cover so I was able to combat load so I that I would have a full magazine in my, my handgun so if I confronted more suspects I would be able to engage them.

Det. Jasperson: Okay. And that's something you're taught at the range right?

Ofc. Wolfe: Correct.

Det. Jasperson: To keep your gun fully loaded in case you encounter other suspects in the house?

Ofc. Wolfe: During lulls or, you know, or when you're behind a position of cover.

Det. Jasperson: Okay. Do you recall if someone at the scene requested medics after the shooting?

Ofc. Wolfe: Yes we did. As soon as the suspect went down I heard dispatch say copy, fire's enroute...I'll have fire enroute code three.

Det. Jasperson: Okay. One last thing, do you recall if your in-car camera was on at all during any portion of this?

Ofc. Wolfe: During the...getting there, yes. But once I got there, cause

I was parked away from the house, I turned it off.

Det. Jasperson: Okay. Was it, uh, and why did you turn it off?

Ofc. Wolfe: Um, I think it's just a habit once I, once I'm doing my, getting there as long as I'm not in front of the house or, you know. It was just turned off.

Det. Jasperson: Was your car out of view of the house?

Ofc. Wolfe: Yes, it was completely out of view. It was four or five houses away.

Det. Jasperson: So it wouldn't, it wouldn't have recorded the house or anything?

Ofc. Wolfe: Not at all. It was facing kinda northbound so...

Det. Jasperson: On twenty-first?

Ofc. Wolfe: On twenty-first.

Det. Jasperson: Okay I think that's about it, let me just check outside. Do you have any questions you want to ask? Any clarifying questions?

Atty. Jeff Edwards: No I don't.

Det. Jasperson: Okay, let me go check and I'll be right back.

(Det. Jasperson leaves the room.)

Atty. Jeff Edwards: Do you want to step outside for a second?

Ofc. Wolfe: Yeah.

Atty. Jeff Edwards: This whole recorded room thing....

(Atty Jeff Edwards and Ofc. Wolfe leave the room.)

(Det. Jasperson, Atty Jeff Edwards, and Ofc. Wolfe all return to the room.)

Det. Jasperson: Okay, well that's it for right now unless there's anything else you want to tell me?

Ofc. Wolfe: No.

Det. Jasperson: Okay, then that's going to conclude the interview and that's it.

Ofc. Wolfe: Excellent.

Atty. Jeff Edwards: Great.

Det. Jasperson: Thank you guys.

Ofc. Wolfe: Do I keep this here for now until... Do I keep this with me?

Det. Jasperson: Yeah, that's going to be yours for right now. We've got your other one. Thanks for sticking with us for so long.

Atty. Jeff Edwards: It's okay. It's one of those things, it is what it is.

On 03-16-2010 approximately 0335 hours, I, Detective V. Walker, #0549 contacted Officer Paul Richardson #0585 at the Public Safety Building in interview room #5 regarding case #10-79637. David Mastagni, Attorney at Law, Representing the Sacramento Police Officer Association. The interview was recorded and later booked into property as evidence. *Note: The time displayed on the video screen is approx one hour off because it had not been adjusted yet for daylight savings time. The following is a transcription of the interview (transcribed by Alexandra Lynn, Sacramento Police Department PCII:

Atty. David Mastagni: Can I get you a water or anything?

Ofc. Richardson: Nah, ****** at all.

Atty. David Mastagni: No.

Ofc. Richardson: I'm good. It's been a long night.

Sgt. Martinson: Okay, you fired the rifle right?

Ofc. Richardson: The rifle.

Sgt. Martinson: Did you fire your handgun at all?

Ofc. Richardson: Never even took it out of the holster.

Sgt. Martinson: Okay what's going to happen is Sgt. Lange is going to come in here and he'll inspect the rounds in your handgun, in your magazines and then just give them back to you.

Ofc. Richardson: Right.

Sgt. Martinson: And then he'll bring the rifle in here and he'll inspect the rounds on that.

Ofc. Richardson: Okay good.

Sgt. Martinson: Alright?

Ofc. Richardson: Are the bags for the rounds?

Atty. David Mastagni: Yeah.

Sgt. Martinson: Okay gonna step through, all the rounds are there, just move back.

Atty. David Mastagni: Alright.

Sgt. Lange: I'm gonna hand that to you, it's still loaded so were gonna deal with that in a second.

Ofc. Richardson: No problem.

Sgt Lange: They want us to count your handgun rounds. I know that you didn't fire then but that's just one thing they do.

Atty. David Mastagni: That's just policy?

Sgt. Lange: Yeah.

Unk: Okay that's just ah ****

Ofc. Richardson: Do you want me to clear the gun in the room?

Sgt. Lange: Yeah just go ahead and clear it in the corner, and they're not gonna take that from you.

Ofc. Richardson: Put that there. Take that.

Sgt. Lange: I got these. Alright so each magazine has twelve, ten and one. I'll just stick this to the side here. We've got your rifle here.

Ofc. Richardson: Safety went off. You got it?

Sgt. Lange: Uh huh. **Inaudible**count the rounds.

Inaudible conversation

CSI: Inaudible.

Ofc. Richardson: That's a thirty round magazine and it was fully loaded unless there's a stray one that fell on out, but it doesn't look like it.

Sgt. Lange: There's no question. So you did load your magazines with ones with thirty rounds?

Ofc. Richardson: Thirty yeah.

Sgt. Lange: Now this bag I located in your trunk. Do you have an extra 20 round magazine in there, issue?

Ofc. Richardson: Yes.

Sgt. Lange: And did you have this on you?

Ofc. Richardson: No that was in the trunk.

Sgt. Lange: Okay, this is an empty thirty rounder.

Ofc. Richardson: I thought I had some, oh, there's the twenty should be there.

Sgt. Lange: That's okay. There's the extra thirty **********, the one in the chamber.

Sgt Lange: Okay. Alright, so round count is five, ten, fifteen, twenty, twenty five, twenty seven, twenty eight. Okay then we'll put those in here. Are you good with those pictures?

CSI: Yeah.

Sgt. Lange: Do you want the magazines separated?

CSI: No, it's okay.

Sgt. Lange: ***** twenty rounder here. This is the twenty round and you do not have any in your rifle bag? Is that correct?

Ofc. Richardson: You can double check but I didn't feel any in there.

Sgt. Lange: No I mean this was the twenty round mag, was the one you had in your rifle bag?

Ofc. Richardson: Yeah that was the bag. I didn't know if it was ******* especially if there are some strays in there. I don't feel any. Sometimes they fall out of the mags and they're rolling around.

Sgt. Lange: Five, ten, fifteen, twenty, twenty one rounds in that, in that magazine. Let's just put this in here. Do you want this in here for your interviews to talk about things or do you ah, do you need?

Det. Walker: Ah

Sgt. Lange: You might talk about the EOTech Sighting System and stuff like that.

Det. Walker: Okay.

Sgt. Lange: I'll just leave that right there. You can go ahead and load your handgun if you like.

Ofc. Richardson: Do I get to keep it?

Sgt. Lange: Absolutely.

Ofc. Richardson: Okay.

Sgt. Lange: Keep your shirt on.

Det. Walker: Do you want anything to drink? Anything?

Ofc. Richardson: No I'm good.

Det. Walker: Paul we haven't met, Vonda Walker and we've met already.

Atty. David Mastagni: Yes.

Det. Walker: I'm just going to go over a series of questions for you basically a history, a background, your background and then we'll go to the incident, okay?

Ofc. Richardson: Okay.

Det. Walker: So, how long have you been sworn with the Department?

Ofc. Richardson: I came on February 25th, 1999 and then I graduated, it would be towards the end of July, same year. That was when I was sworn so.

Det. Walker: You were sworn in July of ninety nine?

Ofc. Richardson: Yeah.

Det. Walker: And your current assignment?

Ofc. Richardson: Patrol, Sector 6, Beat Team 34.

Det. Walker: How long you been there?

Ofc. Richardson: I've been on that team, this is my second year on that team so fifteen months.

Det. Walker: And your prior assignment?

Ofc. Richardson: I work north area patrol, down town, RT for three years and three months so that's thirty nine months at RT, then patrol and metro POP in the downtown court 2001and then before that it was just patrol from the time I started.

Det. Walker: And your training?

Ofc. Richardson: I mean I have the basic academy obviously, went to rifle school and qualified with the rifle. I got the rifle in spring of 2007, I don't remember the exact date.

Det. Walker: Have you ever been FTO or anything like that?

Ofc. Richardson: No, never been FTO or, I mean nothing like that..

Det. Walker: Okay. The type of ID you have on, were you working in the tactical position tonight or?

Ofc. Richardson: Yeah I was doing TDY to the Crime Suppression Team and I was working with Officer McPhail. We were teamed up as TAC 75.

Det. Walker: And then, what weapon was used?

Ofc. Richardson: I used this M-16-A-1.

Det. Walker: Is this your serial number here?

Ofc. Richardson: Yes, it's ah, do you want me to read it off?

Det. Walker: Yeah.

Ofc. Richardson: [redacted] and that's the eight one,

that's the Vietnam era rifle.

Det. Walker: And your sights on there?

Ofc. Richardson: I have an EOTech sight which uses like a hologram kind of like a glowing cross hairs, it's not like a laser,

Det. Walker: Uh huh.

Ofc. Richardson: it's like gun sights but kinda hard to explain unless you look through it but

Det. Walker: Is it magnified or?

Ofc. Richardson: No it's not, no magnification, it's just the holographic sight that you can put on your target.

Det. Walker: Okay.

Ofc. Richardson: It's, it helps you acquire a target faster.

Det. Walker: Okay.

Ofc. Richardson: I also have an iron sights below it.

Det Walker: Are there any other modifications to this rifle?

Ofc. Richardson: No, that, that's it.

Det. Walker: Okay, and additional weapons that you carry?

Ofc. Richardson: I have a forty caliber P-2-2-6.

Det. Walker: Is it department issue?

Ofc. Richardson: Yes.

Det. Walker: And what weapons are you qualified to use?

Ofc. Richardson: The P-2-2-6, this M-16 and also the Remington 870 shot gun.

Det. Walker: P-2-2-6, the M-16 and the Remington shotgun?

Ofc. Richardson: Yes.

Det. Walker: And what weapons did you have during the incident?

Ofc. Richardson: I had the rifle and then the pistol was in its holster.

Det. Walker: And the last time you qualified?

Ofc. Richardson: With which weapon?

Det. Walker: With your hand gun?

Ofc. Richardson: Was in February, I don't remember the exact date but

Det. Walker: So the last quarter qualification you qualified?

Ofc. Richardson: Yes.

Det. Walker: And your, your rifle?

Ofc. Richardson: It was, it was not long ago, I want to say December. Sorry, I can't remember the exact dates, especially right now. It was pretty recently. If you want to put it on there, there was a bunch of us who went out to, actually the outdoor range at McClellan.

Det. Walker: Okay. And your hand gun, you qualified at the same time as your?

Ofc. Richardson: No, this was

Det. Walker: Oh okay, I'm sorry your shot gun you qualified at the same time as your handgun?

Ofc. Richardson: Yes.

Det. Walker: Was your rifle fully loaded

Ofc. Richardson: Yes.

Det. Walker: at the time of the incident? And who loaded it?

Ofc. Richardson: I, I loaded it.

Det Walker: And how many rounds did you have?

Ofc. Richardson: I had a thirty round magazine with one in the chamber and twenty nine in the mag.

Det. Walker: Is everyone trained to load the same amount of ammunition into the rifle?

Ofc. Richardson: You know they also give us twenty round magazines and I, that's an option people use. The twenty round magazine, it's smaller and I don't know if you're required to fully load the magazines, but I always do.

Det Walker: Okay, other than your sights, is there any other special equipment on there a light, scope or anything like that?

Ofc. Richardson: No magnified light or scope, it's just the basic M-16, it's got the, this is the forward assist, it helps, if you get a round stuck you can push it into the chamber. It's just standard M-16.

Det. Walker: And when was your last shift?

Ofc. Richardson: Before tonight?

Det. Walker: Yeah.

Ofc. Richardson: It would have been Thursday night.

Det. Walker: So this was

Ofc. Richardson: Is that right? Did I work Friday? Yeah, I worked Thursday night with that Friday off. This is my Monday.

Det. Walker: And what was today's shift, what times?

Ofc. Richardson: One to ah, thirteen to twenty three, one pm to eleven pm.

Det. Walker: Okay, let's talk about the incident. When were you notified of the call?

Ofc. Richardson: We were assigned to channel four, we were going to be the zero for the area off of Belleau Wood for some problems over there. We heard it come out over the radio. We were on the freeway, we were actually just taking our code seven break and we heard it come out over the radio. We kinda decided we should go because I had the rifle and they may not have any other rifles there 'cause it sounded like channel four was busy so ah,

we responded.

Det. Walker: When you arrived on scene was there a briefing?

Ofc. Richardson: I don't remember a briefing, no.

Det. Walker: Okay. And do you recall what other officers were on scene?

Ofc. Richardson: I saw, well my partner and I, McPhail, I saw Jeff Carr, I want to say John Trefethen, Ryan Trefethen, and I, I did see Victor Wolfe.

Det. Walker: Okay, and what were their assignments?

Ofc. Richardson: McPhail was covering me and then, initially I was with Trefethen behind a truck that was directly in front of the residence. It was too close. It was good cover, but not really a good position tactically so we withdrew across the street; I was with McPhail and they went off it was to my right, which would have been the east and I didn't really, I was focused on the house, I was sighted on the house, I didn't recall what they were doing.

Det. Walker: Were there any concerns about the operation?

Ofc. Richardson: It sounded like, you know, you get a lot of calls like this that are, I don't know hoaxes or whatever, this sounded like the real thing. So were we, I mean, just kinda expecting it to be the worst.

Det. Walker: What, what, what were your concerns at that point?

Ofc. Richardson: Well there was a, Dispatch had ah, an open line with the, you know, the victim calling in saying someone's breaking into my house. And then it's just an open line and the suspect's saying do as I say, you know, you make it easy on me, I'll make it easy on you. He said some other stuff, I don't really recall everything, but we were getting these updates as it was happening and, and it sounded serious.

Det. Walker: Any, did you, did the dispatcher mention any weapons or, or dispatching K-9 or anything?

Ofc. Richardson: Yeah, he told the um, suspect told the victim while the line was open I have a gun, if you don't do what I say I'll shoot you.

Det. Walker: Okay and your concern at that point was?

Ofc. Richardson: That he would kill the victim or harm somebody.

Det. Walker: Any, anything that the K-9 or any other officers approaching?

Ofc. Richardson: They told us that Gary Dahl and Bandit his partner, his K-9 partner were on the, would have been the north, northwest corner of the house and so I never had seen Gary while I was there, but I knew he was back there. So um, what specifically did you need to know about the ********?

Det. Walker: That was specifically it.

Ofc. Richardson: Okay yeah, we did have the K-9 in the back and we did have a perimeter set up.

Det. Walker: Okay so, what I'd like to do now is just have you cover the incident from the time that you arrive on the location and then taking it through your approach and what was said, what you heard on the radio.

Ofc. Richardson: Okay um, so we decided to go because I have a rifle and we didn't think they would have enough rifles there or they would have any rifles there. We, the dispatcher didn't send us, we put ourselves on it. We went out there. Sgt. Crye was also out there, I don't know if I'd mentioned that. Kinda hard to remember everything that was said, but at first I took a position behind the engine block of the pick up truck which is parked directly in front of the residence facing the west. And I was next to Trefethen at that time, he had his pistol out. Well at some point we decided it was too close which was probably, probably a good move, so we pulled back. I pulled back directly across the street with McPhail and as we were withdrawing the neighbor's motion light came on and totally silhouetted us, back lit us. So he disabled that and shut it off. There was a switch or something he found. And then I took a position

Det. Walker: Who turned it off?

Ofc. Richardson: McPhail.

Det. Walker: Okay.

Ofc. Richardson: As far as what I heard come out on the radio, I'm getting ahead of myself here, but we heard a call come out and I think it came out as a burglary at first, someone's breaking into my house. And like I said we got the updates, suspect's in the house, they had an open line, he was

threatening the victim with a gun telling her to you know, if you make this easy on me I'll make this easy on you, you know. And, so we, I took a, we were back in the driveway which is directly across the street from the victims house.

Det. Walker: Okay.

Ofc. Richardson: So it would be the south side of the street is where I was and I was basically behind a van or SUV and I was in a seated position with my rifle, just sighted on the front door of the house.

Det. Walker: Uh huh.

Ofc. Richardson: And that's where I stayed. Kinda what, the next thing that happened that was pretty significant is that I heard a gun shot to the north from the, not really, assuming it's from the back yard of the victim's house and heard a dog crying.

Det. Walker: Uh huh.

Ofc. Richardson: And at that point I thought Gary Dahl's dog had been shot. So um, I'm just like oh shit, you know, this is kinda going to shit and suspect opened the door. So he was starting to come out or decided not to come out, ran back inside and then I heard a bunch of shots fired. And what I thought at that time is that he had killed the victims, executed the victims.

Det. Walker: Uh huh.

Ofc. Richardson: Then he runs out the front door, he's got the gun in his right hand and we're telling him show us your hands, hands, hands, show us your hands. He doesn't do that, he keeps running out with the gun in his hand and there's a lot of shots. I fired once and hit him in the, well I'm kinda guessing as to where I hit him, I think I hit him on the right side of his chest and then the second shot I fired I think hit him in the head as he was going down, but then I'm just kinda guessing. But um, that's kinda where the sight was trained when I pulled the trigger and I, it would I just feel like he didn't give us any choice. I mean he had um, let me back track a bit. He had looked out the window several times before the confrontation. I mean he looked out, there's a window towards, there's a front window it's facing the south side of the street and it's on the east side of the house. He looked out that like two different times. He looks out of those blinds. Then he goes over to the blinds that are closer to the garage, closer to the west side and he slow, he looks out and then he

slowly closes them like we were not supposed to notice he's closing them. So he knew we were out there. I'm sure he knew we were police officers. Because there's a cop car also in front of the house, offset a little to the east so.

Det. Walker: So from where you were facing, you were north of where the patrol car was positioned? Is that how you were?

Ofc. Richardson: I was on the south side of the street,

Det. Walker: You were west of it?

Ofc. Richardson: like target house is here on the south side, is that right? No, it was on the north side.

Det. Walker: It was on the north side.

Ofc. Richardson: I'm on the south side, north side and then the patrol car was over like kinda over here on the south side but it was within view of the

Det. Walker: So it was east of your location?

Ofc. Richardson: It would have been east yes.

Det. Walker: And when you guys were, were looking at, at the house from your position was the porch light on or was it off or?

Ofc. Richardson: Yeah, I believe it was on yes. I'm pretty sure.

Det. Walker: Was there anything else illuminating the house?

Ofc. Richardson: There was a spotlight from the police car that was partially illuminating the house. But when they had, they had pulled that actually back, it was on the north side of the street they had pulled it back to the south side and they didn't retrain the lights when they did that, but it was still shining but it just wasn't like direct. I was kinda hit the front of the garage instead of the front door.

Det. Walker: Okay. Was there anything impairing your, your sight to the front door?

Ofc. Richardson: No.

Det. Walker: Was there anything in your way at all?

Ofc. Richardson: No.

Det. Walker: Okay. So just to go over, you arrived on scene and you first take up a position by the truck that's there?

Ofc. Richardson: Yes.

Det. Walker: And you're there with Officer Trefethen?

Ofc. Richardson: Yes.

Det. Walker: So then you guys back up because you decide that you're too close?

Ofc. Richardson nods his head.

Det. Walker: So you go across the street, you're illuminated, back lit by their spotlight,

Ofc. Richardson: Yeah.

Det. Walker: And Officer?

Ofc. Richardson: McPhail.

Det. Walker: McPhail disable the light?

Ofc. Richardson: Yeah, he found a switch on the back side of it and turned it off.

Det. Walker: Okay.

Ofc. Richardson: It was pretty good we didn't have to break it or anything.

Det. Walker: So he disabled that light

Ofc. Richardson: Yeah.

Det. Walker: and ah you take up a position with your rifle aiming at the front door? Trained on the front door?

Ofc. Richardson: At that point really that's where I was focused. I'm not sure what any body else to the east or even what McPhail was doing. I'm just focused on that front door of the house.

Det. Walker: Okay and how long after you set up your position was it that you heard the, the ah, gun shot and the dog?

Ofc. Richardson: It seemed like forever, I'm guessing like maybe ten minutes approximately. I heard yelling, then I heard a gun shot and then I heard a dog crying and then I thought, I'm assuming and I was correct, I thought Gary's dog got shot.

Det. Walker: So you hear the yelling, the gun shot and the dog crying?

Ofc. Richardson: Yes.

Det. Walker: And how long after that did you hear the additional shots being fired?

Ofc. Richardson: Well he came,

Det. Walker: Or what happened after that?

Ofc. Richardson: It was pretty immediate. He came to the front door, opened the front door, looked out, decided not to come out, went back inside then I heard a volley of shots. Like, probably, I think it was four shots. Then he came out with the gun in his right hand. He got shot.

Det. Walker: Okay, so he comes outside and what did you hear once he stepped outside?

Ofc. Richardson: I, I was yelling hands, show me your hands and I could hear other officers yelling, you know show us your hands.

Det. Walker: Uh hmm.

Ofc. Richardson: And he didn't show us his hands. He had a gun in his right hand and he's not, he's armed and he's not complying with commands. He's, there's shooting inside the house. I thought he killed the family or you know, I don't, he just, I felt like he was a threat to us. He was a threat to you know, to the public, he wasn't giving up or he showed no signs of surrendering.

Det. Walker: Did you hear anything come from, from, him, you said you

heard other officers, did you hear the suspect say anything?

Ofc. Richardson: He screamed as he was falling to the ground.

Det. Walker: Okay.

Ofc. Richardson: He did scream. But I didn't hear, I couldn't tell if he said a word or if he was trying to say something, but he screamed as he was falling.

Det. Walker: And the gun in his right hand, where was that positioned?

Ofc. Richardson: It was laying on the ground about

Det. Walker: When he came out of the house.

Ofc. Richardson: Oh when he came out of the house?

Det. Walker: Uh hmm.

Ofc. Richardson: It was, he was kinda running with it like this, you know.

Det. Walker: So he was and you said when he came out of the house he came running out of the house?

Ofc.Richardson: Yeah.

Det. Walker: Ok so you said you shot, your first shot hit him in the chest?

Ofc. Richardson: That's what I think, yeah.

Det. Walker: Okay and then you think your second shot hit him in the head?

Ofc. Richardson: Yes.

Det. Walker: And he went down.

Ofc. Richardson: Yes.

Det. Walker: Okay, so what did you guys do after that?

Ofc. Richardson: We got up and we went over there, secured the suspect. Victor Wolfe handcuffed him. I covered Victor while he cuffed him because the house had not been cleared yet. We thought maye there's other suspects

still inside. We didn't know what was really going on at that time so we got him handcuffed then I stood outside with the suspect while they cleared the interior. Actually Gary, Gary Dahl kicked down the fence on the east side of the house and then he came out carrying Bandit who had been shot. And they cleared the house. They found the two victims were okay but they had, they had been tied up with zip ties. There was a girl, like a teenage girl and a little tiny five year old boy.

Det. Walker: Let me back you up to when you guys first got the call.

Ofc. Richardson: Okay.

Det. Walker: Can you take me on the route that you guys went to approach the scene?

Ofc. Richardson: Yes, we were on I-5, I activated my overheads, probably right around Sutterville, came down, pretty good pace, south of I-5, east on Florin, south on I believe it's Luther and then we were on scene when we hit O'Neil. I mean we stopped at the corner and parked next to the stop sign at O'Neil and I mean, I think it's Luther.

Det. Walker: Okay. Twenty-first?

Ofc. Richardson: It could be the twenty first, I mean I don't know the south area

Det. Walker: Okay.

Ofc. Richardson: I've never worked there until you know, tonight.

Det. Walker: Okay and you said you stopped where? On the corner of O'Neil and?

Ofc. Richardson: Yeah Twenty First, it could have been, Twenty First could have been the street I took too. I know McPhail was telling me something about Luther, it maybe the next street after Luther, I don't know what he said.

Det. Walker: Okay.

Ofc. Richardson: But that's the route that we took. It was east on Florin and then south on whatever street that was, I think it was Luther isn't it and then we stopped at the stop sign.

Det. Walker: Okay and then tell me about getting your rifle out.

Ofc. Richardson: We had a, the car we took out, it's assigned to the central station and it has a rifle rack in the front passenger area it's kind of like the shot gun rack.

Det. Walker: Uh huh.

Ofc. Richardson: It's got a shot gun rack and then a rifle rack and so I just took it out of the magnetic lock. It was ready to go.

Det. Walker: Okay. And you guys approached the scene from east - west or?

Ofc. Richardson: We came from the south - east.

Det. Walker: Okay.

Ofc. Richardson: Yeah, heading kind of north - west.

Det. Walker: And anything else you can think of?

Ofc. Richardson: Very stressful. I mean I remember afterwards I was shaking really bad and Carr comes up to me, Jeff Carr comes up to me asking if I'm okay and I said Jeff, I've never killed anybody before. I mean I was shaken up. I don't know if anybody else was, but it, it rattled me pretty good.

Det. Walker: To be expected.

Ofc. Richardson: Yeah.

Det. Walker: And at the time of the shooting, I know you said you heard, you heard the dog, you heard the shot then the dog and then he comes out. He goes back in, you hear more rounds.

Ofc. Richardson: Yeah a lot more rounds.

Det. Walker: What were you thinking at the time of the shooting?

Ofc. Richardson: Oh shit, he's killing victims inside the house and it was like, it was almost like almost a powerless feeling. You wanted to be in there to stop it.

Det. Walker: And why did you fire your gun?

Ofc. Richardson: Cause he was a threat to me, to us. Still, he was still a threat to us, he didn't comply with our commands and still had the gun in his hand. As far as I knew he just killed people in the house.

Det. Walker: And when you fired your gun, was it your intention to shoot the subject?

Ofc. Richardson: Yes. I wasn't trying to scare him or anything, I was trying to shoot him.

Det. Walker: Okay. Anything? I know things are going to pop in your head and

Ofc. Richardson: I'll probably remember things weeks later but um. Yeah I, I said, some of that stuff that came out over the radio was me, like um trying to remember what I said. I said like "shots fired out here" and I said "yeah suspect's down". That, that came from my mic and then I'd asked for a medic because the suspect was still breathing. And he was, people think I'm crazy because of his condition, but he actually was still breathing.

Det. Walker: Okay.

Ofc. Richardson: I'm not like, the way I'm breath now, it was pretty irregular and heavy. Not, not good breathing, but breathing so I told them to send two medics because I thought there was victims still inside the house or maybe Gary had gotten shot. So I ordered up two medics which was pretty unnecessary I guess, but at the time I didn't know that.

Det. Walker: You didn't know.

Ofc. Richardson: Yeah.

Det. Walker: You did what you thought was necessary.

Ofc. Richardson: Yeah, yeah. I, I can't think of anything else right now.

Det. Walker: Okay, well um, we'll get your statement written up and then we'll call you back in to review it and ah

Ofc. Richardson: Okay.

Det. Walker: the Sergeants will contact you when they have another rifle

to deploy to you..

Ofc. Richardson: They are going to take this one?

Det. Walker: Yeah.

Ofc. Richardson: That's okay.

Det. Walker: And they'll get another one for you. The Lieutenant will get you another one for you.

Ofc. Richardson: Okay.

Det. Walker: And do you have any questions for me?

Atty. David Mastagni: I don't.

Ofc. Richardson: Nah, I don't either.

Det. Walker: Give me a minute and let me check with my supervisor.

Ofc. Richardson: Okay.

Atty. David Mastagni: **** step outside.

Ofc. Richardson: Sure, pretty much, where do I keep the bag?

Atty. David Mastagni: You can leave it here for now.

Sgt. Lange removes the rifle from the room.

Det. Walker: Just one last question. When you approached to secure the subject, tell me what you saw.

Ofc. Richardson: Walking up I had my weapon at the ready, you know, kinda walking up like this with the gun sighted on him. And as I walked up I saw, you know the front door is left open, he's laying there, face down. His blood, blood is pouring out of him onto the grass and there is steam rising up off of the blood and the gun is a revolver. It looks like a snub nosed thirty-eight. It was laying on the grass maybe three or four feet away from him.

Det. Walker: Okay. Was it, when you say on the grass, was it on the lawn or was it on, his body, his head is facing south.

Ofc. Richardon: Yes.

Det. Walker: Was it on, when you approached, was it on?

Ofc. Richardson: It was north and west.

Det. Walker: North and west. Okay.

Ofc. Richardson: Yeah, so it was kinda closer to the garage and also closer to the house.

Det. Walker: Okay.

Ofc. Richardson: North west.

Det. Walker: Okay, that's all I needed.

Ofc. Richardson: That's it?

Det. Walker: That's it.

Ofc. Richardson: Okay.

Q: Did he ask if you wanted to buy drugs or did you see him using drugs?
A: He did not offer me drugs. He would just say if you give me $1000 I'll pay you $2000. But I'm not that stupid to give him that much money.

He never would talk to [redacted] only once in a while. He would talk to me, often, we would banter back and forth. But he would not so much with [redacted] He was very quiet. He talked to me nicely. He was a nice friend to me. We never did hang out outside of work.

Q: Did you ever see him with guns, or did he tell you he had guns?

here.

Q: Did he tell you, if he had any friends, girlfriends, anybody in Sacramento or out-of-state?
A: He never told me of his friends, or if he had a girlfriend or if he had anyone in Sacramento. I don't know of any family of his out-of-state.

INVESTIGATIVE FOLLOW UP (WIT. [redacted] STATEMENT)

On 04-12-10, at approx. 1210 hrs., Sgt. Martinson, Det. Walker, and I (Det. Vigon) contacted wit.([redacted]) at his home in Fresno. The interview was audio recorded and the CD later booked into evidence. He stated the following in summary:

I worked with Meng. I didn't know why he was in Sacramento. We work here at the same place. Before he used to work early at 8:30 AM. But for the past few weeks he would come in late, around 10-ish. He says it was because he gotta take care of his kids. He had a tattoo shop for about one year.

Q Did he say anything about selling drugs or having guns?
A No. I'm older than him so he did not say something like this. He did not want me to get him in trouble. So he would not say something like this in front of me.

I think he was a good man. I do not know if he had any brothers.

I quit the company because my leg hurt when he died, I don't know how he died. For four days he had not come to work we do not know why. Later on I went to the restroom, but the door was locked away back to the restroom 10 minutes later and the door was open 30 minutes later. My boss told us that he was dead. I went home and was thinking of him. I dreamed that he talked to me. I feel it was him and the restroom who locked the door . My heart was shaking. I now wear this bracelet for protection, it's from my priest. There were no other workers who had gone near the restroom that day. I know it was him.

He never said anything about relatives or going to Sacramento. I do not know how many times or why he would go there.

Nobody else talk to me after he died. I have not talked to his relatives. I did not go to the funeral. I know he had gone to jail one time. But when he came out he went to work at our place. He was good too. He was married.

On 03-16-2010 approximately 0303 hours, I, Detective B DeDonder # 302, interviewed Officer Clinton "Ryan" Trefethen at the Public Safety Building in interview room #3 regarding case #10-79637. The interview was recorded and later booked into property as evidence. Also present in the room was attorney, Jeff Edwards. The following is a transcription of the interview transcribed by Alexandra Lynn, Sacramento Police Department PCII:

Det. Dedonder: Alright, you guys ready? I'm Brian by the way.

Ofc. Trefethen: Brian,

Det. Dedonder: Pleased to meet ya.

Ofc. Trefethen: I'm Ryan. I go by Ryan.

Det. Dedonder: Oh this is a funny chair. And you go by Ryan not Clinton?

Ofc. Trefethen: Yeah.

Det. Dedonder: That's cool.

Unk: So, we don't need to do the gun 'cause it wasn't fired is that the deal?

Det. Dedonder: Ah, it was not fired or it was?

Unk: It was my understanding that it wasn't fired.

Ofc. Trefethen: I only fired the shotgun.

Det. Dedonder: Shotgun fired the shotgun which we have.

Sgt. Martinson: Yeah we have to do the extraction.

Det. Dedonder: Yeah, I've got that, let me go get it.

Sgt. Martinson: But we need to go over his, his handgun

Det. Dedonder: Make sure it all wasn't fired or nothing.

Sgt. Martinson: too and stuff just to make sure everything is topped off still.

Det. Dedonder: Okay.

Sgt. Martinson: Hang, on let's grab the shot gun and we'll do it all at once here.

Det. Dedonder: Alright.

Ofc. Trefethen: Huh, that makes sense. *** get a new one with night sights.

Det. Dedonder: **********. You want to unload it? Are you the one who loaded it?

Ofc. Trefethen: What's that?

Det. Dedonder: Are you the one who loaded it?

Ofc. Trefethen: Yeah.

Det. Dedonder: Did you just duty load it or combat load it or?

Ofc. Trefethen: Afterwards?

Det. Dedonder: When you put it in the car. I mean do you just leave it duty loaded in the car?

Ofc. Trefethen: Duty loaded.

Det. Dedonder: Okay.

Ofc. Trefethen: Correct.

Det. Dedonder: Okay.

Ofc. Trefethen: So, it's empty now.

Det. Dedonder: Is that your sling or does that come standard with this thing?

Ofc. Trefethen: That's mine.

Det. Dedonder: This is yours?

Sgt. Martinson: So there was four rounds total in it. One in the chamber and three in the magazine or?

Ofc. Trefethen: So there's, it only holds three in the magazine.

Det. Dedonder: I think it holds four.

Ofc. Trefethen: Four?

Det. Dedonder: Four.

Ofc. Trefethen: It holds four in the magazine, there wasn't one in the chamber or rolling around. This was full.

Sgt. Martinson: Okay.

Ofc. Trefethen: So there's two missing, I fired two. Okay?

Det. Dedonder: Okay.

Sgt. Martinson: Go ahead and take the rounds off of the, whatever the thing's called.

Det. Dedonder: Good?

CSI: Uh huh.

Sgt. Martinson: Just throw them in the bag there.

Det. Dedonder: And then your hand gun. Make sure you take the rounds out of there. Two magazines right?

Sgt. Martinson: Still one to come.

Det. Dedonder: Total of 13. Total of 13. You want to put this in the?

CSI: No you can keep them.

Sgt. Martinson: No you can take them.

Det. Dedonder: Oh god. Why don't I count one and ah. Twelve. Alright?

Sgt. Martinson: Yep.

Det. Dedonder: Alright, let's get started. This chair feels funny. Alright, um, just got a litany of questions for you okay? Don't worry. Just take them one step at a time. Um, I got kind of a little bit of a check list actually here it go down and then we'll kind of get into things okay? Um, so let me just start with some basics. So you said your first name is ah

Ofc. Trefethen: It's actually Clinton.

Det. Dedonder: Okay. Like the President or ex-President.

Ofc. Trefethen: Yes. C - l - i - n.

Det. Dedonder: You don't sound too proud of that.

Ofc. Trefethen: Yeah, he's a good guy.

Det. Dedonder: Ah, middle name? Is your middle name Ryan?

Ofc. Trefethen: Ryan, Clinton Ryan Trefethen.

Det. Dedonder: Ah, what is your birth date?

Ofc. Trefethen: [redacted]

Det. Dedonder: And do you have a phone number or a cell phone we can get a hold of ya if

Ofc. Trefethen: [redacted].

Det. Dedonder: Which station do you work out of?

Ofc. Trefethen: JERPH.

Det. Dedonder: JERPH?

Ofc. Trefethen: Uh huh.

Det. Dedonder: Alright. Well we'll just start with some of the history questions that we have just kind of talking about like where you came from. How long have you been an officer with this department?

Ofc. Trefethen: Um, since January of '09.

Det. Dedonder: Did you work anywhere else prior to Sacramento PD? Or the academy then, if you were at Sac PD?

Ofc. Trefethen: Correct.

Det. Dedonder: Okay. Um, where do you currently work, what is your current assignment? I see Patrol?

Ofc. Trefethen: Patrol, sector four.

Det. Dedonder: What are your days off?

Ofc. Trefethen: Thursday, Friday, Saturday.

Det. Dedonder: Ah, swing shift then?

Ofc. Trefethen: Yes.

Det. Dedonder: So your day's not exactly your Monday, but more like your Tuesday?

Ofc. Trefethen: Correct.

Det. Dedonder: Alright. Have you ever, I assume your not an FTO because you've only been on for

Ofc. Trefethen: About a year.

Det. Dedonder: About a year now, a little over a year. Not an FTO

Ofc Trefethen: No.

Det. Dedonder: or nothing like that? Okay. Not a fire arms instructor or anything like that?

Ofc. Trefethen: No.

Det. Dedonder: Go to the rifle school?

Ofc. Trefethen: Not yet.

Det. Dedonder: No?

Ofc. Trefethen: Not yet.

Det. Dedonder: Okay. Alright. We're you wearing the uniform tonight that you're wearing right now?

Ofc. Trefethen: Correct.

Det. Dedonder: Okay. Um, I know you kinda spoke briefly earlier about it, but what, which weapon was used tonight in the incident?

Ofc. Trefethen: My shotgun.

Det. Dedonder: The shotgun. Is that just like a Remington 870? Is that what that is?

Ofc. Trefethen: Correct.

Det. Dedonder: Do you carry any other additional weapons beside your duty

Ofc. Trefethen: No

Det. Dedonder: forty caliber?

Ofc. Trefethen: The forty caliber and my shotgun.

Det. Dedonder: That's it? No backup?

Ofc. Trefethen: I don't carry a secondary weapon.

Det. Dedonder: Um, are you qualified? Did you qualify recently with either of those guns?

Ofc. Trefethen: A couple of weeks ago. Both.

Det. Dedonder: A couple of weeks ago you did?

Ofc. Trefethen: Yeah.

Det. Dedonder: I assume you qualified?

Ofc. Trefethen: Correct.

Det. Dedonder: Okay. Ah I think I, we also briefly touched on it about the shotgun specifically. Was it, it, it was fully loaded but not with one in the chamber?

Ofc. Trefethen: Correct. It was duty loaded, with four in the magazine and the chamber was ah, empty while it was ah, locked in the car.

Det. Dedonder: Do you always load that the same way when you carry it in the car? Do you always have it duty loaded?

Ofc. Trefethen: Correct.

Det. Dedonder: as opposed to combat loaded or unloaded?

Ofc. Trefethen: It's always duty loaded.

Det. Dedonder: Okay. There wasn't any special equipment on that shotgun that I saw, but anything I need to be aware of?

Ofc. Trefethen: No.

Det. Dedonder: Okay. Um, did you work last night?

Ofc. Trefethen: Yes.

Det. Dedonder: And did you, did you sleep last night

Ofc. Trefethen: Yes.

Det. Dedonder: before you came on? Can you tell me when you slept to?

Unk: To be clear, when you say last night you mean the night of what day?

Det. Dedonder: Ah well since we are now technically into another day, um the day before you came on shift, so the day before Monday's shift.

Ofc. Trefethen: So

Det. Dedonder: So you start at like what, three o'clock? You start at like three o'clock on Monday right?

Ofc. Trefethen: Correct. So Sunday was my Monday. And I worked until one in the morning and then I went to sleep from probably one thirty in the morning on Monday and I slept until um, about ten o'clock in the morning.

Det. Dedonder: 10am. And then came to work what, about five, four or five hours later?

Ofc. Trefethen: Correct.

Det. Dedonder: Okay. So today, or Monday I guess you ah, started at three?

Ofc. Trefethen: Correct.

Det. Dedonder: Can you just briefly go through with me, from the start of your shift, like some of the calls that you handled prior to this one? Was it just kind of a routine day or were there any other calls that

Ofc. Trefethen: I made about, what time was it, about five thirty I had an occupied stolen at Franklin and 26th. I went to jail and then after that um, I cleared jail. But before that I had gone across sector to sector five on like a 242 with like an off duty officer involved at the DMV on La Mancha which was handed over to CHP. It was relatively simple call. Um, and then I

Det. Dedonder: And do you only work sector four or five?

Ofc. Trefethen: Sector four.

Det. Dedonder: What is your car identifier?

Ofc. Trefethen: Charles 4-6.

Det. Dedonder: Okay.

Ofc. Trefethen: So after the DMV call I kinda migrated back up to sector four and had the occupied stolen, went to jail, cleared jail and cross-sectored, to sector five again to go on a um, in custody um 9-4-1. Ford security had a guy who was trying to break in cars but enroute to that I got pre-empted to go to a silent alarm at the Starbucks on Mack which was nothing, accidental. Um, and then ah I ended up not having to go to the other sector five call. And, what did I do after that? Um.

Det. Dedonder: It sounds like sector five was jumping off the hook tonight.

Ofc. Trefethen: Yeah. And so I migrated back up to sector four and ah I think I went on a ringer um, which was nothing. And ah, just prior to the incident I was on my way to like the Greenhave/Pocket Area to have code

seven at my girlfriends house when this came out.

Det. Dedonder: Alright. Can you just tell me how you were notified of the call? Like do you remember roughly what time it was and where you where were when you got the call? Nature of the crime?

Ofc. Trefethen: Eight o'clock and I was west bound Florin, just having past Gloria, Havenside and ah, I then heard the call come out ah, in sector five there's a woman says someone broke into her house and I heard that ah, K-9 13 was enroute. And ah, I knew that most of the officers in sector five were tied on up calls and so I ah, I decided to put myself on the call because there, there wasn't really many other people in close proximity so.

Det. Dedonder: Okay, so you just responded from?

Ofc. Trefethen: I made a u-turn and responded code from like Havenside and Florin.

Det. Dedonder: Can you just give me the basic direction that you went?

Ofc. Trefethen: So I went eastbound Florin from Havenside/Gloria. Um and at about just east of Amherst um, I shut down my siren and ah, southbound 21st from Florin up to O'Neil and that's when I saw ah, that's right I, I heard on the way there all updates and also heard that ah, Ofc. Carr and Msryan had one detained and were leaving the area.

Det. Dedonder: What did you see as you come onto O'Neil.

Ofc. Trefethen: As I come onto O'Neil Officer Carr was in the process of saying something to the effect of next unit arriving on scene, we have one detained, were stable or something and that to continue on to the original location.

Det. Dedonder: And where did you go from there? Did you drive right past him or?

Ofc. Trefethen: I drove, I drove just past him and parked on the south curb line facing westbound.

Det. Dedonder: Okay, were, was there anybody else there then at that time or were you the first one there?

Ofc. Trefethen: It was just myself, I was the second unit on scene.

Det. Dedonder: Besides Carr or?

Ofc. Trefethen: Carr and Msryan, a two officer car, they were already there. And one, they had detained one and I was the second officer on scene.

Det. Dedonder: Okay. Um, and then what did you do from that point?

Ofc. Trefethen: Um at that point um,

Det. Dedonder: Was the K-9 already there or no?

Ofc. Trefethen: He, he was almost arriving, I think he marked on scene one minute after I did,

Det. Dedonder: Okay.

Ofc. Trefethen: having looked at the call.

Det. Dedonder: Oh okay, um,

Ofc. Trefethen: I believe Officer Carr, myself and um, shortly thereafter Office McPhail and Richardson marked on scene and we all um, went to, towards the front of the house. There was a silver Tacoma parked there and we took a position behind the Tacoma initially. Um, and then Sgt. Crye marked on scene and he came over and made contact with us and at that time the ah decision was made um, that we were gonna um, pull back and pull a patrol car ah, closer to the front of the house for cover.

Unk: I'm sorry when you say closer to the front of the house you don't mean closer to the front of the house than the truck?

Ofc. Trefethen: Correct.

Unk: You mean closer than what? Or closer than it had been, is that?

Ofc. Trefethen: Ah, I believe this decision was made that the truck in too close proximity to the front of the house and we needed to move back a bit further but still have coverage so Officer Carr went and got my car which was just a few houses down and he pulled the car up and that's what we used as cover and that was

Det. Dedonder: So your car was actually a little bit aways from, let's say this is the Toyota truck and the house was up here

Ofc. Trefethen: My car was just ah, east, east of

Det. Dedonder: was your car like

Ofc. Trefethen: my car was east of the Tacoma and more towards the middle of the street.

Det. Dedonder: Okay, so you moved it then actually then closer to the house?

Ofc. Trefethen: Correct.

Det. Dedonder: Okay, and you guys used that car for cover then?

Ofc. Trefethen: Correct.

Det. Dedonder: Was the car just parked straight in the street or more towards the house?

Ofc. Trefethen: Initially ah, Officer Carr parked it um, with the front of the car near um, the north curb line, and ah, I believe Sgt. Crye said to back it up a little bit so I got in and they directed me to back up maybe ten feet and I canted the car diagonally um, so the front of the car was pointing more to the west.

Det. Dedonder: And by this time the K-9 was already there is that right or no?

Ofc. Trefethen: Correct. Ah, to go back, before we had gone to reposition the car, we were still in front of the Tacoma, that's when ah, Gary Dahl marked on scene and he went in over the fence on the west side of the house and he took a ******* and he advised he was on the two three corner, what would be the north west corner.

Det. Dedonder: What and at this point what, what were you aware of what was going on in the house? What kind of call, what kind of information were you having as far as like what was going on?

Ofc. Trefethen: There was a female ah, resident who had called and had left a whichever phone she was calling on or from on and there was an open line, and that she had previously advised that someone was breaking into her house and that dispatch could hear an ongoing conversation between her and an alleged suspect who was inside of her house, who was described as a

male asian and that he was telling her that um, if she was quiet he would go easy on her and also the fact that he had a gun and that he would, he would use it up on her if she didn't remain quiet or compliant.

Det. Dedonder: Okay, so you were aware that there was possibly a gun involved.

Ofc. Trefethen: Correct.

Det. Dedonder: Okay. Um, so from there after you guys get your car kinda situated more like in the street kinda facing at the house, what are you guys doing?

Ofc. Trefethen: Um, and sorry I forgot, to go back to when we were initially in front of the house behind the Tacoma. I saw on two separate occasions if you're facing the house the window that faces the house to the east, I saw a male, asian, approximately 25-30, with short hair and a dark sweatshirt on, um come to, there's vertical blinds, and he came up from the corner and opened the blinds to look out at us and then closed them and

Unk: Just to be clear, how much of him could you see when he opened the blinds?

Ofc. Trefethen: His entire face and the upper part of his chest.

Det. Dedonder: Okay.

Ofc. Trefethen: I could identify that he had a black sweatshirt on or jacket.

Det. Dedonder: Did you see a gun in his hand or anything like that at that point?

Ofc. Trefethen: No, no.

Det. Dedonder: Okay.

Ofc. Trefethen: Um, and he seemed to be looking at us kind of secretively. Um, the second time it was even more abrupt, he looked up and looked at us and he closed the blinds quickly and retreated into the house. Um, on both occasions I broadcast that he had done that, looked out um

Det. Dedonder: And this is while you guys are right by that Toyota truck before you guys had really positioned the vehicle

Ofc. Trefethen: Correct.

Det. Dedonder: is that right? Before Sgt. Crye had gotten there?

Ofc. Trefethen: Um, I, I believe Sgt Crye may have been there for the second time he came up to the window but I'm not sure.

Det. Dedonder: Okay, okay so then

Ofc. Trefethen: So now were back to

Det. Dedonder: when you moved the car.

Ofc. Trefethen: to when the patrol car is situated, when it is finally situated um

Det. Dedonder: Sure.

Ofc. Trefethen: and at this point um, as we retreated from the Tacoma and repositioned the car, Officer McPhail and Richardson went on the south side of O'Neil um, and were behind, um I think they were behind a vehicle in the driveway and they weren't with us at the car.

Det. Dedonder: What directed them to go over there do you know?

Ofc. Trefethen: Sgt Crye cause um, Officer Richardson had a rifle so he was, he covered us as we retreated to ah get the car to reposition it.

Det. Dedonder: Are all you guys like helmeted up at this point or?

Ofc. Trefethen: Correct.

Det. Dedonder: You are. Do you remember when during this thing you put your helmet on?

Ofc. Trefethen: I believe, I personally put my helmet on after the car was repo, resituated. Cause my helmet, it was in the car, um other officers I believe Officer McPhail and Officer Carr had their helmets earlier, had gone to retrieve them or had brought them as they came on scene.

Det. Dedonder: Right so, McPhail and Richardson they go off up to the driveway and position themselves?

Ofc. Trefethen: Correct.

Det. Dedonder: Um, then your car is out on the street. Who all is with you at this point?

Ofc. Trefethen: Um, I'm in the "V" of the door, um Officer Wolfe is just to my left behind the engine block on the driver's side.

Det. Dedonder: So Wolfe is in, so you are in the "V" of the door and Wolfe is right in front of you then?

Ofc. Trefethen: He's just to the left.

Det. Dedonder: Just off to the left?

Ofc. Trefethen: Correct.

Det. Dedonder: Okay. Okay, who else is there?

Ofc. Trefethen: Um, Sgt. Crye is behind me to my right, more behind the vehicle, um, I didn't really pay much attention to the movement behind me.

Det. Dedonder: Okay. Is there anybody else up there with you?

Ofc. Trefethen: Um, I believe Officer Carr was but I can't be sure. I know that he went um, at one time he went back to his car to talk to his partner or something, but I, I'm not sure where exactly he moved to and from. I was watching the door.

Det. Dedonder: Okay. Um, did you have any weapons with you at that point?

Ofc. Trefethen: After the car had been repositioned I took my shotgun out of the lock and um and deployed it, racked a shell in the chamber.

Det. Dedonder: Okay, um, then what happened?

Ofc. Trefethen: Um, at that point um, once the car, the car had been repositioned and we're, I'm in the "V" of the door., we're watching the house and I see the, the, the individual, the male asian I had seen come to the right window, I saw him come to the left window, there's horizontal blinds, and it was a little bit darker, um in that area of the house and I saw him peak out and then slowly turn the blinds so they closed so you can no longer see through there.

Det. Dedonder: And this was in addition to the times that he had peeked out before?

Ofc. Trefethen: Correct.

Det. Dedonder: So this is like the third or fourth time he had peeked out?

Ofc. Trefethen: Correct. By this time we had positioned, um, I believe the left spotlight on my car on the drivers side, was positioned projecting into the right window to the right of the door and the, the left one was projecting onto the white siding of the um, garage where there's a, there's a spare door there or an exit door and that kinda reflected up onto that window to the left of the door.

Det. Dedonder: Your headlights on as well?

Ofc. Trefethen: Correct.

Det. Dedonder: And like the front take down light is on as well or?

Ofc. Trefethen: Ah no.

Det. Dedonder: Okay so headlights and two spotlights?

Ofc. Trefethen: Correct.

Det. Dedonder: All towards the front part of the house?

Ofc. Trefethen: Was well illuminated.

Det. Dedonder: Okay, um, and then what happened?

Ofc. Trefethen: Um, at that point ah, we maintained um, an eye on the front of the house and at some point um, I heard the sound of a muffled gunshot. And I turned and looked at I believe it was Wolfe and then Sgt. Crye, we, that's when we, Sgt. Crye broadcasted that one shot had been fired or what we said that was a shot that had been fired. Um, and then, kinda simultaneously maybe two or three seconds later, there was approximately three louder gunshots and I, I at the same time I heard a commotion from the rear of the house to the front it was growing towards us.

Det. Dedonder: What kind of commotion?

Ofc. Trefethen: You know like running or stomping or something, running

from you know, the back of the house towards the front.

Det. Dedonder: From within the house then?

Ofc. Trefethen: Correct.

Det. Dedonder: Okay.

Ofc. Trefethen: Um and so, the first shot was muffled, the second sequence of shots was much louder so I got more prepared. I maintained eyes on the front of the house and at that point I believe that the suspect had discharged his gun within the house. Um, in my opinion I thought he had discharged it at the victim and at that time he burst out of the house um running and was clutching something I could see that he was clutching something in his right hand which I believed was a gun. Um, and right as he came out the front door I told him something to the effect of um, let me see your hands or let us see your hands or show us your hands, yelling it at him. And then he didn't respond and continued to run with the gun in his hand um down the front steps and down towards the driveway um, and at that time Officer Wolfe, just before I shot, I heard him shoot. He had a pistol. Um, and then I fired two rounds at the suspect and then he went down.

Det. Dedonder: Do you know if anybody else shot?

Ofc. Trefethen: Um, was I, was I aware at that time that anyone?

Det. Dedonder: Yeah.

Ofc. Trefethen: No cause I

Det. Dedonder: Officer Wolfe shoots

Ofc. Trefethen: Officer Wolfe shoots, I shot. I didn't hear anyone else shoot immediately around me. I heard multiple gunshots so I, I assumed that either Officer McPhail or Richardson had also shot.

Det. Dedonder: Okay, now we'll go back just a little bit to the very first shots that you heard. About how much time went by from the time that you heard those shots till when he actually came out of the front door would you estimate went by?

Ofc. Trefethen: There was the muffled shot

Det. Dedonder: Uh huh.

Ofc. Trefethen: and then that was followed a couple of seconds later by the three consecutive shots and simultaneously I heard that commotion and that was maybe two or three seconds

Det. Dedonder: Okay.

Ofc. Trefethen: so it was all within a five second period I believe.

Det. Dedonder: Okay, now as far as the ah, the suspect who you said had a gun in his hand, um, where was his hand at, was it down, where was his arm pointed can you tell?

Ofc. Trefethen: When he came out of the house his arms were, were moving and his left hand his left arm was moving like you know more fluidly like he would run and his right hand was more horizontally like pointed in the direction towards us.

Det. Dedonder: Was that the, was his right hand then the one that was holding the gun?

Ofc. Trefethen: Yes.

Det. Dedonder: You're sure on that?

Ofc. Trefethen: Yes.

Det. Dedonder: Okay. Um, was it ever pointed directly at your or could you tell based on where you were standing or?

Ofc. Trefethen: I don't, I never saw him, like, I don't believe he consciously stopped and pointed it at us as he was running.

Det. Dedonder: Okay. How much time went by from the time you gave him the command to show me your hands or whatever to when you heard Officer Wolfe shoot his gun?

Ofc. Trefethen: Approximately a second.

Det. Dedonder: Okay. Then, then within how much time after that did you fire yours?

Ofc. Trefethen: Ah about right after that.

Det. Dedonder: And then after was he still standing or running when you rack?

Ofc. Trefethen: When my first shot was while he was running um, and then my second shot was as he was starting to fall towards the ground and then I heard someone tell him to stay on the ground. Um and I heard a, a few more consecutive shots from other officers and then um, someone yelled he's down and then fire ceased.

Det. Dedonder: Um, what were you aiming at when you shot at him?

Ofc. Trefethen: Upper torso.

Det. Dedonder: On both shots

Ofc. Trefethen: Correct.

Det. Dedonder: the same general area?

Ofc. Trefethen: Correct. I aimed low both shots. If I, I could have shot more rounds quickly but I only shot two because they were both well aimed.

Det. Dedonder: Do you think that you hit him?

Ofc. Trefethen: Yeah.

Det. Dedonder: Um, about how much distance would you estimate you were from, from him when you shot him?

Ofc. Trefethen: Maybe, thirty, twenty five yards.

Det. Dedonder: Okay.

Ofc. Trefethen: Roughly.

Det. Dedonder: And what, what were you thinking when you shot him?

Ofc. Trefethen: Ah that he was, why, why did I shoot or what was I thinking?

Det. Dedonder: Yeah, what you were thinking.

Ofc. Trefethen: I, I was thinking if I didn't shoot he was gonna either

discharge his firearm at us or ah continue to run with a gun. And I thought that the threat needed to be eliminated based on um, public safety um,

Unk: How much time do you think it would have taken for him to have fired the gun in your direction?

Ofc. Trefethen: Um, I don't believe if he would have decided to fire the gun in our direction that I could have responded or I could have returned fire in response and prevented him from firing first.

Det. Dedonder: Now you said you were in the "V" of your door?

Ofc. Trefethen: Correct.

Det. Dedonder: Now were you, was your body exposed at all or was your gun like resting in the "V"part of the door, was it actually touching the door or were you

Ofc. Trefethen: I believe for the first shot I was on my right knee. And then after the first shot I think I stood up just a little bit so I could rack my gun so it wouldn't malfunction. And I think my second shot was partially upright, standing.

Det. Dedonder: Do you remember when you took the safety off?

Ofc. Trefethen: I took the safety off just prior to ah, or as I heard the commotion at the or after the or during the shots fired initially.

Det. Dedonder: Just a couple of questions here on this check point that I want to just touch on that are kinda obvious but um, we already talked about what you were thinking, why you shot him. Was it your intention to shoot him?

Ofc. Trefethen: Yes.

Det. Dedonder: What happened after he, after he fell you said that ah, people were saying cease fire and ah, you know hold your fire kind of thing, he's down. What did you do after, after that?

Ofc. Trefethen: Um, we had already decided that we were going to be a part of a contact team um, and then after he was down um, myself, Officer Wolfe, Officer Carr and Officer er, Sgt. Crye, ah we approached the suspect um, and Officer McPhail and Richardson were on their way across the street to

our left and we approached the house together.

Det. Dedonder: Okay. Did you guys just walk past him or the car or into the house?

Ofc. Trefethen: Just as we were approaching the suspect um, I heard a loud commotion on the east side, east side of the house like, like a fence was being broken down or run through um, so I and, it was myself and Officer Carr peeled off from Officer Wolfe, Richardson and McPhail and went over and checked the east side of the house which ended up being ah Gary Dahl who was breaking down the fence and holding his dog saying he had a dog down. Um, initially I thought it might have been an additional suspect jumping through a fence or running from the scene. After we confirmed it was Gary Dahl we reconvened at the front of the house and I believe Officer Wolfe was handcuffing the suspect that was down and then we went inside and cleared the house.

Det. Dedonder: Was there anybody in the house?

Ofc. Trefethen: Um, there was no-one in the living room area. Immediately to the right um, cleared the kitchen area on the north side. There was a hallway to the west um and we set up at the beginning of the hallway. And I made announcements and a female, female victim ah was initially hesitant to come out because she was scared. And we announced that we were the police and she can come out and then she emerged ah with a younger male child and they both taped or restrained behind their back. So they came out, um, I believe Officer Carr went out with them and um, the rest of us ah cleared the additional rooms down the hall and there was no-one else in the house.

Det. Dedonder: To go back real quick, just a little bit and you said you had your helmet on during most of this incident,

Ofc. Trefethen: Correct.

Det. Dedonder: Um, is the helmet something you would normally put on, normally put on during a call for service?

Ofc. Trefethen: No, I only put my helmet on generally if I confirm that um, some type of weapon being used um for additional protection.

Det. Dedonder: Okay. Do you think of any additional questions that I need to ask here?

Unk: I don't, I think we've covered all the bases.

Det. Dedonder: Let me just double check with my supervisor and we'll get right back to you. Okay?

Unk: Do you want to step out for a second?

Ofc. Trefethen: Just tell me are we out of here?

Unk: Um, it might be five minutes, ten minutes.

On 04/29/10 approximately 1350 hours I contacted witness [redacted] in interview room #5 and obtained his statement. [redacted] is the brother in law of [redacted] who was married to [redacted]. [redacted] was shot and killed in the state of MO in 2007. The interview was recorded and later booked into property as evidence. Det. Vigon was present during the interview. The interview was recorded and later booked into property as evidence. The following is [redacted] statement in summary:

I don't know who killed my brother. He had a store in MO. The police found him dead in a yard way far away from his home. The time that he died I was not around him; I lived here, so I don't know why he died. I did not have any contact with him or his wife. Since he died I have not talked to her. I know her by her face but I have not talked to her since he died. She speaks Mien I think. I think my brother died in 2007. I did not live there I lived here. I just went to bury him, I don't know what happened. I heard my relatives say that they found him dead on a yard somewhere. That is all I know.

The relative's name is [redacted]. They also call him by his American name of [redacted]. I think he lives in MO. He was the one talking to the police during the time that my brother got killed.

I have not heard my relative say anything about my brother dealing drugs. I don't have any knowledge of that either. I don't know that he did things like that. He lived far away.

I don't know what happened to his store. Maybe his girlfriend got it. It was not mine so I did not ask. Maybe his girlfriend got it. The house in Rancho Cordova I co-signed for him. I transferred it to him and his wife. That was about four years ago. I did not have any financial interest in that house. He did not owe me anymore money. I just co-signed for him.

I don't know if he had any enemies. We did not talk to each other. We don't hate each other, we love each other we are just too busy.

I moved back to Sacramento from Fresno in 2007 because my mother died and I moved back. I think my brother died two months before she did. He died in May and my mother died in July.

Since my brother died I have not talked to his wife since he died.

([redacted]was told that someone went to [redacted] house and held a gun on her daughter and son ([redacted] son)). I did not know that. I swear to God I don't know. They did not steal anything then what would they do that for. [redacted] was told that maybe they were trying to kill [redacted] since [redacted] was killed.) I don't know. Maybe they have their reasons, I don't know. It is a mystery. I swear to God I had nothing to do with that. I don't even know that they give up, that they are pointing a gun at my sister in law because I have not contact with her that's why I know nothing about that.

[redacted]called me one time and told me that my brother got arrested in MN over some drugs. [redacted] came home to help me bury my mother. [redacted] died after my mother. I remember he came back to CA to help me bury my mom then he went back. Not long after that he died. That Is all that [redacted] told me is that [redacted] got arrested for drugs in MN. We did not talk about it when he came home to help bury my mom because it was a sad time. [redacted] did not tell me who could have done it. He is waiting for the police.

[redacted] told me my brother had a gas station store. I never saw it. I never went to visit my brother in MN not until the day that he died. Then I went back there to bury him. I saw the store when I went back to bury my brother but the store was empty, there was nothing in there. I think it was a grocery store and gas station. I don't know why it was empty; I think they sold everything out of there. I don't know who did it.

[redacted] was there the day that I buried my brother. After that I have not seen her. She came to buy the coffin and his plot. The only thing I saw that belonged to my brother was his motorcycle. It was at [redacted] house. He owed [redacted]over two thousand dollars for it. I paid [redacted]for the motorcycle and took it over to my other cousin's house. The motorcycle was broken so I left it there. That was the only thing from him that I had.

I don't know if my brother had life insurance. I heard that he had it but I never saw any documents saying that he had it. I did not hear of anyone getting paid.

My cousins in Fresno are named [redacted] and [redacted]. I have never been to their house. I have two brothers in Sacramento but I don't see them either.

I have no idea who did that. I love my sister in law because of the kids. I don't know who did that. I did not do it.

I was arrested for using crystal. I have not used since. I don't talk to my brothers because I got arrested because of them. I stay away because if I go close to them I might get arrested again.

I don't know where my sister in law lives. I don't want to bother her. I don't want her to think I want to take the kids away.

My uncle in Fresno is [redacted]

SUPPLEMENT:

On 3/31/10, at 1015 hrs, I (J. Ly #6352) received a CD containing a recorded jail social visit for Hmong translation from Detective J. Vigon #608 of the Homicide Unit.

The following is a summary translation of the audio files from the Sacramento County jail involving suspect Zang Xiong ([redacted]). The translation is only of decipherable portions of the conversation that took place on 3/18/10.

00:00 - 01:59:
(No dialogue.)

02:00 - 02:33:
Zang asks the visitor if they found a lawyer yet.

The visitor responds that they have not found a layer yet. He says they have been talking and if they did find a lawyer, they would not have the money to pay.

Zang asks how much the cost is.

02:34 - 05:14:
The visitor says they are not sure what the problem regarding this incident is. He says they (possibly referring to the police) came to look at the house the other day. Aside from some paperwork, bank statements and photographs, they were unable to obtain anything belonging to Meng and them (possibly referring to Meng's house hold). He says he was there at the residence of "Chue Fue" [phonetic name pronunciation] and witnessed that nothing was obtained. (I was informed by Det. Vigon that Chue Fue is another name for suspect Meng Xiong)

He tells Zang that they took a computer and camera containing photographs from a birthday party from Zang's house.

He tells Zang that from watching the news, there does not appear to be much on Zang since his only involvement was outside. He assures Zang of his lack of involvement inside. He further assures Zang that Zang lacks in

knowledge in what occurred and does not know what he (referring to Meng) did or planned.

Zang agrees and the visitor continues to reassure Zang and tell him not to worry about the charges against him.

05:15 - 08:46:
Zang tells the visitor that he told (possibly to the police) that he was asked to go to a wedding and was not told anything else. Upon arrival, they first ate and then toured Sacramento until dark because they had not been here before. Later, they stopped and he was told to wait (for Meng) inside the car.

The visitor tells Zang that he understands with that information alone. The visitor tells Zang that Zang does not know what happened. He tells Zang that the news said Meng died. Zang said he was given that information.

The visitor says they did not know Meng had died until after the house was searched. They later found out from watching the news. He says they do not know what the house being searched for and that the search resulted in only a computer and camera being taken.

The visitor tells Zang to only tell and explain how he arrived. He reassures Zang of Zang's lack of involvement. He tells Zang to not confess because Zang did not do it. Zang says he needs an attorney and to explain it well.

Zang says he said (possibly the police) that he was told to take the two presents and he took it to the car.

The visitor tells Zang his knowledge is only that much. He tells Zang that Meng is dead and the entire fault will be placed on Zang. He tells Zang that when the police arrived, Zang was not in the house. He also tells Zang that the news says Meng shot a police dog.

Zang says he did not know that and it is one of his charges.

The visitor reassures Zang of his lack of involvement and advises Zang to request for a lawyer to help.

Zang says they (possibly referring to Meng and himself) came (to Sacramento) together with the same plan. However, Meng did not tell him the truth so he did not know what he was really coming for.

08:47 - 11:50:
The visitor reassures Zang of his lack of knowledge in what happened and Meng's death. He asks Zang if Zang mentioned about the two packages.

Zang says he did. He says that at the time, he did not know and "Chue Fue" [phonetic name pronunciation] told him to go get the two packages. When he went to go get the two packages and returned, the police stopped him and took him into custody.

The visitor says he understands and if that is the case, the problem lies there. He says they (possibly referring to the police) came and searched, but did not find anything. He tells Zang that he must fend for himself since "Chue Fue" is dead. He tells Zang to only share information of how Zang arrived and see what the attorney says. He reaffirms Zang's lack of wrong doing.

The visitor asks Zang if he saw Meng get shot. Zang said he only heard shots fired. The visitor asks Zang if he was told why Meng was shot and Zang says no.

11:50 - 15:00:
The visitor advises Zang to only explain up to that point and a lawyer will give him copies of the reports. He tells Zang to only call him (visitor) and Zang's mother. The visitor says he wants to make sure the reports are consistent and correct in addition to the system being fair to Zang. He reassures Zang of his lack of involvement in the house and shooting of the dog. He points out that police have not found Zang's prints on the gun. He consoles Zang that lack of fingerprints is an important factor.

Zang says he did not know that Meng had a gun.

The visitor continues to console Zang.

15:01 - 31:15:
The visitor and Zang discuss the care of Zang's mother. The visitor reassures Zang that Zang
has done nothing wrong and not to worry. The visitor talks about the search of the home
and goes over the details of what Zang told him occurred.

31:16 - 32:15:
Zang says the police asked him if they could open the two packages. He told the police that the two packages did not belong to him and to ask "Chue Fue" [phonetic name pronunciation]. The visitor corrects Zang that

he means Meng. Zang says the police then told him that Meng was dead. Zang says he did not know what was in the packages.

32:16 - 32:36:
Zang tells the visitor he will tell the visitor everything. Zang says he (possibly referring to Meng) said for them to go to a wedding and bring the gifts for the children. They went for that purpose, but his (possibly referring to Meng) plans changed. Zang says he did not know.

32:37 - 01:08:43:
The visitor reassures Zang of his lack of wrong doing. Zang's younger brother consoles Zang. Zang's mother tells him her sorrow.

The visitor and Zang talk about the jail cell, court process and money credit in jail for Zang.

01:08:44 - 02:32:43

Suspect that stated, OK, so listen to me. On March 25, they are going to go to court for my case. So let my family know it's going to be on the 25th of this month. The male stated yes, we came today, we know about it. (The suspect confirmed and reminded the caller of the date and that court is on that day. He understood). The suspect then stated O.K., that's it. Just watch grandma and the phone call ended.

Investigative follow-up:

At approximately 2115 hours, 3/15/10, I (Detective Higgins) received a call from Sergeant McCloskey advising me of an officer of an officer involved shooting at [redacted] O'Neil Way. I was asked to respond to the scene to assist in the investigation. I arrived at approximately 2208 hours.

At approximately 2254 hours, Lieutenant Rehm provided a briefing of the circumstances known him at that time. We were advised that a subject, Zang Xiong, had been detained walking away from the scene and the deceased suspect was believed to be his brother Meng Xiong. We were told the suspect vehicle was a black Toyota Highlander [redacted]

At approximately 0010 hours, 3/16/10, I contacted Zang Xiong who was detained in a holding cell. I had him read a consent to search form for his cell phone and the Toyota Highlander [redacted] that was located at the scene. He signed the consent to search form but stated the vehicle was not his and that it belonged to his brother's wife.

At approximately 0012 hours, Xiong was moved to an interview room. I subsequently mirandized Zang Xiong and he invoked his right to an attorney.

At approximately 0038 hours, I talked with [redacted] on the phone. I explained to her that we wanted permission to search her car. [redacted] is the registered owner of the 2004 Toyota Highlander [redacted] that was found at the scene. She stated she lived at [redacted]. with her husband, Meng Xiong and that he should have her car. I read a consent to search form to her and she asked me to call her back. I subsequently called her back and she consented to a search of the car. These conversations were recorded.

At approximately 0044 hours accounted I contacted Zang Xiong who was back in a holding cell. I asked him if we could search the packages he had been caring and he stated, "I don't care. Ask my brother who's at the scene."

At approximately 0111 hours, I interviewed Officer Carr and obtained his statement.

At approximately 1510 hours, I conducted a follow-up interview of [redacted] to try and determine if she knew a reason for this crime.

At approximately 1653 hours Zang XIong knocked on the interview room door and told Sgt. Mccloskey that he wanted to talked to me. When I went into the room he asked if his family been notified. I told me that we did not notify his family as we did not want them to get rid of any evidence. Xiong then volunteered the following in summary:

My brother has two illegal guns. One should be an assault rifle. The other is a Mac 11 or a Tech 9. They should be at his house or my house. If they are at my house they would be in my room. I know he had those two guns for sure.

For complete details please listen to the recording. Officer Carr was represented by Dustin Smith. The following is a summary of the interview:

Detective Higgins: Hey, they switched it up. So you got me instead.

Detective Higgins: Okay So we'll go through it. What I will try and do is not interrupt you or anything.

Officer Carr: Okay

Detective Higgins: Just try to have you tell me everything

Officer Carr: Okay.

Detective Higgins: From beginning to end. Then If I have any questions I'll try and hold them to the end which is hard for me as anyone knows me . Then I will see if anyone else has any questions and get you out of here and get you home

Officer Carr: Okay

Detective Higgins: Okay. Two - o - nine?

Officer Carr: Yes.

Detective Higgins: First name?

Officer Carr: Jeff

Detective Higgins: Jeff or Jeffrey?

Officer Carr: I actually go by my middle name, Todd but everything official is Jeffrey.

Detective Higgins: That's like me, Thomas Patrick.

Officer Carr: Yeah

Detective Higgins: Okay

Officer Carr: Everything is starting to transition to J. Todd Carr and

Detective Higgins: That's how I started, T.P.

Officer Carr: Yeah, I mean in training and in the academy it was always Jeffrey 'cause I didn't want to explain, ah, my middle name was , I answered to Jeffrey.

Detective Higgins: Yeah, that's how I know if people know me or not, 'cause they call me by Thomas .

Officer Carr: Yeah, instead of Patrick.

Detective Higgins: Okay, so, what happened tonight?

Officer Carr: Ah, well basically I'm training, Charles 52, um, we're on a different call down off of ah, John Still Park area and we obviously hear the call come out as we're actually walking out of the house from the last, prior call. Um, we quickly cleared, um and start heading there code three. I didn't know exactly which way we were heading, I kinda knew we were going north um, and I knew we were kinda close so I just rolled um, with my lights primarily on and tripping my siren when as necessary at intersections cause I didn't want to tip off the suspect cause we were getting updates that dispatch could hear voices, um a guy mentioning that he has a gun and also threatening to shoot the female whose crying um, and telling her do what I say and you won't get hurt. Um, so were getting these updates as we're, as we're approaching. Um we see Air 1 circling

overhead. We ah, start arriving on scene. As we turn, we're going northbound on ah 21st, um, we turn west um, onto the street and we see a guy walking, um, I actually kind of pulled up right next to him and I was like ooh that's, he's walking right from the house. I backed up, put ourselves in a little bit better of a tactical position um, unknown if this way the guy leaving the house. He was carrying two, looked like Christmas presents, that was my first thought, two wrapped gift presents, one in each hand. And we got out, contacted him. Um, Air 1 was still overhead, the guy co-operated with us, he said he was going to a wedding, he said he thought he was on 21st or Stockton, he kinda said both um, which he was nowhere close to. Um, he went, he didn't make any furtive movements or anything, he co-operated. He started to put his hands in his pockets after he put down the gifts, I told him don't. My partner got him in a standard, modified, patted him down. And ah, we detained him in the backseat of our car. Ah, I advised Air 1 to keep an eye on the house, make sure nobody else left while we were detaining him. After he was detained, I believe it was Officer Trefethen who arrived on scene, parked his vehicle, confirmed with Air 1 the 925, the location and he described that it was the house with the ah, pick up truck out front, third house from the corner, going west on the north side. So we went there, set up on the house behind the pick-up, right in front. K-9 officer started showed up, Officer Richardson with a rifle was on-scene giving updates, setting up a perimeter and broadcasting we're not going inside. Um, just because we don't as far as we know we have an armed subject. While we're still there, on-scene, there's still broadcasts that somebody's with a gun, the suspect is still inside. Um, somebody said that there was, it sounded like a male, asian and the person we detained was male, asian. Um, so I confirmed with the officers there, I said okay, I think we should go get our helmets since we have an armed person inside. Um, ran back to my car to grab my helmet. Ah I don't know how to say it, but basically re-detain the suspect because my partner had run him up and was kinda just saying he was clear, I have him ID'd and was going to let him go and I said no, no, no, put him back in the car um, and told her we were getting our helmets. We got our helmets on, our riot helmets. Went ah, the house is on the north side facing south, we went over onto the south sidewalk basically across the street from the target house and we were discussing, I was trying to decide, you know, I want her to be up there with me, it's good, you know great training call, but I couldn't leave the person in the backseat of the car so I eventually came back and I said, you're sitting in the car. Confirm his story, confirm any address, confirm stuff. I grabbed my helmet and went back, um, Sgt. Crye was already on scene um, or just arrived on scene, I don't remember exactly. Ah, we're trying to figure out the best tactical way, it was at that point that somebody saw him coming, the person look out the front window. Um, we decided that Officer Trefethen's police vehicle should be

brought up with the PA pointing towards the vehicle, towards the house and to get spotlights on the windows. I got into Trefethen's vehicle, moved it up, Sarg thought it was too close, so after I had gotten out Trefethen got in and backed it up to where it currently was. Um, while I was watching I do remember seeing a shadow come up to the front door and hearing a deadbolt lock being locked. Um, K-9 was in the back yard. Air 1 broadcasted that we had set the perimeter around the whole house. Shortly after Trefethen pulled the car a little bit further back um, I heard a gun shot and was just pretty much thinking, oh shit. Um, heard the one gunshot, a pause, and then heard like four or five other gun shots. Um, my first thought was shit, he just shot the victim and then we started seeing movement at the front door. At this point I'm standing behind the squad car basically right behind, kinda in the middle so I'm looking over the emergency overhead lights, over the roof. Um, we see movement at the front door, front door opens and we start yelling show us your hands, I and show us your hands, subject is not complying. He basically starts running out the front door. I didn't, I don't know, but I don't feel comfortable where I was shooting over the car and over the emergency lights so I moved to my left, more towards the hood of the patrol vehicle as he starts running out and I hear all the gunshots and I lined up my gun because this guy is not complying, he's trying to flee. I'm thinking he just executed, shot somebody inside the house and I lined up my sights. By the time I lined up my sights, I had my finger on the trigger and he was already down. I remember having him in my sights while he was down, but I didn't shoot because he was down. I yelled out he's down, he's down um, you know, I was, I was scared because I thought he had just shot her and was running out basically um, to attack us, suicide by cop I don't know, but. So, I was appointed by Crye earlier um, as an arrest team and I heard I think I'm pretty sure I heard Crye say we have to go in now. I was point on the, on the arrest team, first guy going in and I passed the, the, the guy who ran out and I saw, you know, a bullet wound to his head with brain matter coming out and I was just like, well, he's, he's dead. Start going to the front door and then as I'm going towards the front door, just as I'm passing him, um, I hear loud kicking coming from the side of the house, like somebody's kicking a fence down is what it is. Like somebody's kicking a door, kicking fence doing something and I yelled. I was freaking out at that point, I was like oh no, there's somebody else trying to kick out the door to get away. I thought somebody was kicking out a side garage door or something and I yelled out around the side, around the side. We go around and that was on the east side of the house. We go around the east side, look around the corner and I see the fence was down and I see the K-9 officer Gary Dahl walking over the fence with a hold of his dog. I instantly knew the dog had been shot. So, I think I even said, dog down, um, ah so I went back towards the front door. We stopped there. I

announced "Sacramento Police Officer" real loud, several times. Um, I had the team behind me, I said "Okay there's a living room, we're going to the right". The said "go". We filed in cleared the hard corners, cleared the living room, there's a kitchen in front of me, a hallway to the left. I said, somebody yelled out "hold in the hallway," I said "okay, clear in the kitchen, I'm going right." I heard go. We went in, cleared the kitchen, um saw a backsliding glass door, I think it might have been either open or broken I'm not sure, I just kinda glanced at it. Um, cleared the kitchen, turned back around to come out of the kitchen to go down the hallway, saw bullet holes in the, it was like a closet door right there um, I don't know which officer opened it, but we opened the closet, we opened the closet door, cleared inside, there was nobody in there. Um, and then we started going down the hallway and we announced our presence again and we could hear a female voice, traumatic, upset, crying. Um, we said "Sacramento Police, come out", um, I don't remember what she was saying, it was kinda muffled um, we could just obviously tell it was female and then she was crying so I, victim. Um, victim, to come out, you know it's the Sacramento Police. And then down the hallway, the last door on the right the female, asian came out with duck tape across her mouth and her hands were zip tied behind her back. Um, yeah it just struck me, wow and brought her out and I actually took her and escorted her outside, out the front door while the rest of the team cleared the house. As we're walking outside or before we get outside, we're still in the house, I take the duck tape off of her and kinda drop it and she was able to say something about little brother. And I said "oh you have a little brother?" and she says "yeah" and I say "how old?" And then she said "five" and I said "Okay a five year old" so I turned around and told the others in the hallway there's a five year old boy in here. Um, and then I escorted her out and I said "we're going to get, your okay and we're gonna get your brother." Walked her by the body on the front and said you know, don't look and went to the sidewalk, um, got my knife out and cut her, her ah, the ties. Cut my thumb. And then um, ah and then Stinson came and, and helped out. We escorted her down the block basically. Um, so yeah then I re-contacted my, my partner and we kinda went from there.

Detective Higgins: Okay. That was pretty, I'll just kinda go through, I got a couple of little questions okay?

Officer Carr: Okay.

Detective Higgins: Are you guys the first ones on scene?

Officer Carr: Yes.

Detective Higgins: Okay, so you're the first ones on scene?

Officer Carr: Yes.

Detective Higgins: When you pull up the guy with presents, where do you first remember seeing him?

Officer Carr: I first remember seeing him, there was like a red Stratus or something parked on the north side um, and I first saw him pretty much right in front of that red Stratus.

Detective Higgins: How close to the car, to the house where this was occurring?

Officer Carr: This is ah, we're parked on the corner house,

Detective Higgins: On the north side?

Officer Carr: On the north side.

Detective Higgins: You guys are?

Officer Carr: Yeah.

Detective Higgins: Okay.

Officer Carr: Um, and he was, there's the corner house and then there's another house and then there's the target house. And he, we were like right at the west side of the corner house at the property line.

Detective Higgins: Okay.

Officer Carr: So it's pretty much the property line between the corner house and the second house.

Detective Higgins: Okay and that's where your fist see him?

Officer Carr: Is where we first see him yeah. And I actually pulled up like next to him

Detective Higgins: Is he's on the sidewalk?

Officer Carr: And he's on the north sidewalk walking east. He's on the sidewalk, um, and I pulled up next to him um, put my spotlight on him, he

walks past the red car a little bit further and that's when we detain him.

Detective Higgins: Okay and what, the reason I'm doing this is to see what we can get on him.
.
Officer Carr: Right.

Detective Higgins: if anything so that's why I'm going to try and focus a lot of what I'm talking to you, since you guys see him is to see what he has to say.

Officer Carr: Right.

Detective Higgins: To see what you have on him,

Officer Carr: Okay.

Detective Higgins: Cause he's not talking, so.

Officer Carr: Okay.

Detective Higgins: So you know, we want to you know, try and figure out what we have on him. So he, you're at the corner house, and he's walking parallel to or right past your car or is he approaching your car when you first come up?

Officer Carr: He's approaching our car. I actually drive a little bit by him or like right next to him. So like, I, I turn west on O'Neil and I, and I see him and he's just walking.

Detective Higgins: So he's right probably between the property line between the first and second house

Officer Carr: Yeah,

Detective Higgins: is that where you first see him?

Officer Carr: Exactly.

Detective Higgins: He's got these two presents?

Officer Carr: Right.

Detective Higgins: What is his demeanor when he sees you?

Officer Carr: He's just walking along, like no big deal. Um, and

Detective Higgins: Did you know, had it been put out yet that the suspect inside was Asian?

Officer Carr: No.

Detective Higgins: Okay.

Officer Carr: It was right after we detained him. Um,

Detective Higgins: So you detained him, what was making you think, why did you want to detain him?

Officer Carr: Just because he was leaving the immediate scene, I mean I knew we were only three

Detective Higgins: Was there anybody else on the street?

Officer Carr: There's nobody else on the street, no other vehicles. I was

Detective Higgins: and what looked like Christmas presents?

Officer Carr: Well I, I just knew they were wrapped presents. I mean I got closer look,

Detective Higgins: Yeah.

Officer Carr: And they were obviously not Christmas presents cause

Detective Higgins: Okay so there are some wrapped presents,

Officer Carr: There's some wrapped presents, he's holding them by a ribbon or strap or something on top of each one, one in each hand.

Detective Higgins: And how, was it, does he have any facial expressions or anything when you first see him?

Officer Carr: I didn't see any facial expressions. He was just kinda looking, he, he wasn't looking at us, and I had overheads on, you know. He wasn't looking at us he was looking straight ahead. Um,

Detective Higgins: Did that

Officer Carr: Everything to me was screaming, whoa, get him.

Detective Higgins: Oh okay, so that's what I'm trying to get you to figure

Officer Carr: It was just, it was late at night, there's a guy walking away and he's holding two Christmas presents. I initially thought they were from inside the house. I thought he was the suspect.

Detective Higgins: Okay, that's what I need to hear from you.

Officer Carr: Right.

Detective Higgins: Okay so,

Officer Carr: I mean that's

Detective Higgins: That's what I mean, I knew there were some reasons. I just, I had to hear that. You think he's the suspect and he's walking out with some Christmas presents from the house?

Officer Carr: Right. Cause, there's always a delay between phone, going dispatch, you know the call takers sending the info. to dispatch and dispatch sending it to us. There's always a delay. So, I knew the guy was in there or very, or had just left as we're turning the corner and

Detective Higgins: And you see this guy with two

Officer Carr: And I see this guy with two

Detective Higgins: presents

Officer Carr: Two Christmas presents

Detective Higgins: and he's not looking at you?

Officer Carr: and he's not looking at me and he's walking straight past me.

Detective Higgins: Okay, and so you guys get

Officer Carr: And so I back it up, I'm driving. I back it up and, you know, he puts the Christmas presents down

Detective Higgins: Okay you back up and then what happens?

Officer Carr: We back up, we both jumped out. My partner and I jumped out and she's

Detective Higgins: Gun's drawn or just?

Officer Carr: Ah, I had my, my gun wasn't drawn yet.

Detective Higgins: You know , if you don't remember something that's fine too.

Officer Carr: I know I had my, my, my first threat down. Cause I have a double threat holster.

Detective Higgins: Uh huh.

Officer Carr: I had the first threat down and I was reaching back, but I could see his hands visibly and obviously he has them both occupied. As soon as he went into the

Detective Higgins: So he backs up, you back up.

Officer Carr: I back up.

Detective Higgins: You both get out.

Officer Carr: We're in a better tactical position instead of right next to him and we kinda have him in front.

Detective Higgins: Okay.

Officer Carr: of our vehicle. Um, he complies with all of our demands.

Detective Higgins: He didn't, did you tell him to drop the presents or what did you tell him?

Officer Carr: No, we said, we tell him to stop. You know, he puts the presents down by himself. He starts putting his hands in his pockets. I tell him keep you hands out where I can see them. Don't put your hands in your pockets, um, he's just kinda you know, what, kinda playing, you know, just not really saying anything. Um, but he's complying with our commands. Um, my partner contacts him, gets him in the standing modified. We start talking to him; where you coming from, where you going? He says, you know,

ah I'm coming, I'm going to a wedding. Ah we said to him well where are you right now, what street are you on? He's says on Stockton Boulevard.

Detective Higgins: That was, your ICC, is that all going to be captured on your ICC that initial conversation do you think?

Officer Carr: Yes. The whole conversation is captured on ICC.

Detective Higgins: Okay then, if you don't remember stuff that's don't worry about it. So your conversation and his answers aren't, aren't jiving with what's occurring?

Officer Carr: They don't match, right, exactly.

Detective Higgins: Right, right. So you're saying he's going to a wedding?

Officer Carr: It doesn't really make sense that he's going to a wedding at nine-o-clock at night or eight thirty at night, you know?

Detective Higgins: On Stockton Boulevard?

Officer Carr: On Stockton Boulevard. Um, it just, it just, it's all red flags going up everywhere.

Detective Higgins: So you guys put him in your car?

Officer Carr: We put him in the car, um, I do believe he was initially handcuffed, placed in the car, um, and ah, you know we didn't know who he was at that time. Um,

Detective Higgins: Does he say how he got there or anything, do you remember?

Officer Carr: He didn't tell me. Later after talking to my partner, she, she says how he got there.

Detective Higgins: Okay perfect.

Officer Carr: Yeah.

Detective Higgins: Okay, we'll deal with that with her.

Officer Carr: Okay.

Detective Higgins: Okay, he's in your car. What's the next thing that happens?

Officer Carr: The next thing that happens is Officer Trefethen pretty much shows up.

Detective Higgins: Okay.

Officer Carr: and um, it was voiced, it was voiced that it was male, asian, that it sounded like a male, asian voice you know, on the phone and we were still, there were still a male voice making threats.

Detective Higgins: Okay.

Officer Carr: After he was detained.

Detective Higgins: Now do you, now did, this was just something that I was thinking about is um, did he have a flashlight or anything like that on him that you saw?

Officer Carr: Not that I saw.

Detective Higgins: Okay.

Officer Carr: The only thing that I actually saw were the presents, um. We actually, I asked my partner if she actually did a complete, thorough search, she said no I just patted him down, I didn't search his legs. She said she did feel like a bulge or something in his pocket. It felt like change or something to her.

Detective Higgins: Okay. So you guys said and I'm going to kinda skip ahead because

Officer Carr: That's fine.

Detective Higgins: So you guys set up this perimeter spot,

Officer Carr: Right, I start setting up the perimeter.

Detective Higgins: You guys got a perimeter on the house. Um, and then you hear a single shot out back, after you set up the perimeter you move the car up and you covered that real well.

Officer Carr: Right.

Detective Higgins: You got all the tactical stuff. So then you hear a shot out back, followed by several more shots. Is anything put out on the radio at that point that you remember?

Officer Carr: Shortly after that I believe Sgt. says we have shots fired.

Detective Higgins: Okay. But the guy hasn't come out front yet?

Officer Carr: The guy has not come out front yet.

Detective Higgins: And nobody has said what happened? So you have no idea what's going on?

Officer Carr: No idea what's going on at all.

Detective Higgins: Next thing you know the guy comes out the front?

Officer Carr: Right.

Detective Higgins: If you remember, do you see anything on him?

Officer Carr: I don't.

Detective Higgins: You don't remember or you don't see anything?

Officer Carr: I don't, I don't, I didn't see anything. I couldn't even see his hand really.

Detective Higgins: Okay.

Officer Carr: He was keeping them down from what I saw.

Detective Higgins: Okay.

Officer Carr: Um, we're yelling out "Show us your hands, show us your hands."

Detective Higgins: Okay.

Officer Carr: And he just never does.

Detective Higgins: Okay.

Officer Carr: Um.

Detective Higgins: And then you, you, and he's kinda running, is he running full?

Officer Carr: He starts running, like, starting to sprint.

Detective Higgins: Straight at you.

Officer Carr: Straight towards us. The way the front is set up, is the garage is an attached garage

Detective Higgins: Yep.

Officer Carr: Kinda to the left, so he ran straight alongside that wall, the garage wall, straight at us.

Detective Higgins: What do you think at that point?

Officer Carr: I'm thinking he just executed somebody and he's armed and he is gonna kill us. Try to get away or something. He's

Detective Higgins: At what point, if he's gonna get away are you thinking what are you thinking then?

Officer Carr: I'm think, I'm thinking this is, this is somebody who killed somebody and you know, we need to use lethal force to stop him because he's going to go and kill somebody else.

Detective Higgins: Okay. That's what I was, so you got that, so then before you can get in position there's firing?

Officer Carr: Right.

Detective Higgins: And you're, you yell he's down, he's down?

Officer Carr: Yes.

Detective Higgins: Okay. Do you hear any firing after that?

Officer Carr: No.

Detective Higgins: Okay. And then you go up, you guys go up for the

arrest team. Do you see any weapons around him when you go up as the arrest team, do you see any weapons around him when you go up as the arrest team?

Officer Carr: I actually did see a, like it was a silver gun. I think it was a revolver. I just got a glance of it. It was in the grass. The walkway goes straight up and it was in the grass to the left as you're going up to the front door.

Detective Higgins: What was the lighting like?

Officer Carr: The lighting was

Detective Higgins: Did you guys have the spotlights on the front of the house you said?

Officer Carr: We had the spotlights on the front of the house, um, there was a side garage window, I don't know if it was a converted garage or whatever, but there was a side window on the side of the garage and we had one spotlight going in there and then one spotlight going in the main window.

Detective Higgins: When he comes out, how well illuminated is he?

Officer Carr: Pretty well illuminated.

Detective Higgins: Okay. If he had had a gun the hands in his hands would you have seen it or? I mean, if you don't know, I mean everybody sees things differently.

Officer Carr: Yeah.

Detective Higgins: That's why I'm just trying to is that what you, you didn't see one meaning you don't remember seeing one or, or, if he didn't have one you that's what I'm trying to figure out.

Officer Carr: For me, it happened so quick I went on the assumption even though I couldn't see him, I head the gunshots, I'm assuming that he's armed. I can't see his hands. I don't remember where his hands were.

Detective Higgins: Yo, so when you're involved in an incident like this don't, don't beat yourself up thinking you're going to remember every little thing. You know.

Officer Carr: Yeah.

Detective Higgins: There's just no way you can remember every little thing. So if you're not sure of anything.

Officer Carr: Right.

Detective Higgins: You're not sure of anything. It's perfectly acceptable.

Officer Carr: I, I don't remember ever seeing the gun. I just remember thinking

Detective Higgins: Do you remember even seeing his hands?

Officer Carr: No, I don't ever remember seeing his hands.

Detective Higgins: Just seeing him charge you guys?

Officer Carr: Yeah, a guy charging out the front door.

Detective Higgins: Okay, perfectly, you know and that's totally normal.

Officer Carr: Alright

Detective Higgins: On these things. People are going to, everyone sees something a little different, their minds are going to work a little different and that's what I was trying to get from you on that. Um, the zip ties? They were all turned over to CSI?

Officer Carr: You

Detective Higgins: Do you know?

Officer Carr: I don't know. I'm assuming their going to be later picked up.

Detective Higgins: There were how many on her?

Officer Carr: There was ones around each wrist, with one in the middle looping the two.

Detective Higgins: Oh good. And then

Officer Carr: The ones around her wrist were really, really tight. I

remember seeing that.

Detective Higgins: And then the tape is inside the house?

Officer Carr: And the tape is inside the house kinda as you walk first in there.

Detective Higgins: Okay, sweet. Now did the guy tell you anything about being in a car or anything like that or is that your partner.

Officer Carr: My partner talked to him, I actually never talked to the guy except on initial contact.

Detective Higgins: Okay. Um, I'm just thinking, the only thing I can come up with is did you take and photos with your cell phone or anything like that?

Officer Carr: No actually I didn't take any cell phone photos

Detective Higgins: Just in case you do

Officer Carr: In all my life.

Detective Higgins: Okay um, I think that's it. You guys want to take a break? You got anything Dustin?

Dt. Smith: I don't have anything.

Detective Higgins: You guys want to take a break?

Detective Higgins: There's like thirty one more questions for ya.

Officer Carr: Sweet.

Detective Higgins: Um, no that's it.

Officer Carr: Oh.

Detective Higgins: Do you have any questions or anything like that?

Officer Carr: Um just questions, I mean this is my first officer involved, what I need to do for report writing?

Detective Higgins: Nothing. I'll do it all.

Officer Carr: Okay.

Det. Higgins: I'll have them 'cause there is so many of them probably. I gave her a Christmas gift so hopefully your statement will get done first, but they transcribe them word for word and I'll email you and Powder. I'll try, I'll, you know, never good cause I'll sound like an idiot but hopefully you won't. You know when they do it word for word it's not great but I'll try and get rid of the um's and ah's

Officer Carr: Thank you.

Detective Higgins: And then we'll, I'll send you a copy of it and um send Powder a copy and if you see anything, you know that way three people proof read it. But it's all video taped so there shouldn't be anything. If you remember anything, which is totally normal as Hendrickson and I teach the Officer Involved Shooting Class. Actually we taught it today, but it is totally normal to remember things after the fact.

Officer Carr: Uh huh.

Detective Higgins: Cause that's the way the mind works. If you remember anything you want to add just give me a call or send me an email and we'll sit down and talk real quick and do it. It's totally normal because your mind is, right now it's kind of, you know, in shock. It's the thing and a day or a couple of days later you might remember things and say oh yeah this, that. And that's it.

SPOA Representative Dustin. Smith: So you guys will handle the ICC tape from his car and all that so he's good from here.

Detective Higgins: Oh yeah. Yeah you don't have to do a thing.

SPOA Representative Dustin. Yep

Officer Carr: Okay, so my partner doesn't need to, You do the same for her?

Detective Higgins: We're talking to her right now.

Officer Carr: Okay.

Detective Higgins: Is your guys car here or did you guys get transported?

Officer Carr: We got transported here.

Detective Higgins: So if you want to wait for her or whatever you want?

Officer Carr: We'll wait for her and then we'll go back and 'cause all our gear is still in the squad car so. I don't know if,

Detective Higgins: Okay, or if you want to get out of here and somebody wants to give you a ride down there and get your gear, both your guy's gear and bring it back?

Officer Carr: Yeah 'cause my shot gun is still in there and all that stuff.

Detective Higgins: Yeah. Okay. That's it.

Officer Carr: Is there admin?

Detective Higgins: That's up to your Captain and SPOA.

Officer Carr: Okay.

SPOA Representative Dustin. Smith: I'll take care of that.

I, Det Burke #474, am assigned to the Office of Investigations, Homicide Unit. My duties in the homicide unit include investigating deaths that occur in the City of Sacramento including officer-involved shootings.

On 3/15/10, approximately 2130 hrs, I was called at home by Sgt McCloskey of the homicide unit. He advised me of an officer-involved shooting at [redacted] O'Neil Wy, and requested that I respond to the call-out that was initiated.

At 2213 hrs, I arrived on scene. Numerous investigators were on the scene and more showed up after my arrival.

At 2254 hrs, Lt Rehm briefed the investigative team on the circumstances of the officer-involved shooting, giving the following details (summary only):

At 2034 hrs, the Sacramento Police Department received a call from a female inside of [redacted] O'Neil Wy that there was a burglary in progress with the suspect inside the residence. The female left the cell phone connected with dispatch and set the phone down. A patrol unit was pulled up in front of the residence and a contact team was established at that location. K-9 Ofc Dahl and his partner responded to the rear yard of the residence.

The suspect came out of the rear of the residence, and a shot fired from the suspect struck the K-9 dog. The suspect retreated into the residence, and Ofc Dahl fired at the suspect. The suspect then exited the front of the residence and confronted the contact team that was set up out front. Officers at the front of the residence then fired at the suspect, striking and killing him. The officers identified as shooting officers were Ofc McPhail, Ofc Richardson, Ofc Wolfe, Ofc Trefethen, and Ofc Dahl. A female victim was located inside the residence, found bound and gagged. She was now down at the SPD Hall of Justice (identified as [redacted]).

I responded to the SPD Hall of Justice. I contacted Ofc Stinson in the lobby of the detective division. She was standing by with the victims and their family members. I identified [redacted] sister [redacted] and her mother ([redacted] I asked [redacted] and [redacted] for permission to search the residence for evidence. [redacted] said that was fine, and spoke with her mother in another language and again told

me that would be fine. Per [redacted], (Victim) [redacted] (MAJ 5 yrs) is mostly non-verbal due to developmental delays.

I spoke with Ofc Stinson, who advised me that she had zip ties that she'd cut off of the victim's wrists. She showed me the zip ties in an evidence envelope. I advised her to keep the envelope shut and I would contact CSI for evidence handling. Ofc Stinson also had [redacted]cell phone. The cell phone was later given to Sgt McCloskey, who turned the phone over to me. [redacted] consented to an examination of her phone. I requested that the E.C.U. process the phone, and booked it with them.

On 3/16/10, approximately 0023 hrs, I interviewed [redacted] in an interview room at the Hall of Justice. The timestamp on the recording is off by an hour due to the switch to daylight savings time (one hour slow on the recording). During the interview, [redacted] showed me her wrists, which had red marks consistent with her circulation being cut-off by plastic zip ties. I had C.S.I. take photographs of these visible injuries.

I kept watch over arrestee Zang Xiong until approximately 0730 hrs. At that point, I advised Sgt Weinrich of the suspect in custody. Sgt Weinrich advised that his team would watch over Xiong until relieved by Sgt Martinson.

Notification:

I was contacted by Sgt. Martinson at approximately 2110 hrs and advised that an Officer Involved shooting had just occurred at [redacted] Oneil Way. Sgt. Martinson requested that I respond and to notify my team and have them respond as well.

Arrival:

I arrived at 2159 hrs. Lt. Rehm briefed the O.I.S. Investigative team. At the conclusion of the briefing it was decided that Sgt Martinson and Sgt McCloskey would respond to HOJ with the involved officers, witnessing officers and the civilian witnesses in order to manage the interviews. I remained onscene to assist Lead CSI Lovitto and the CSI Officers in the processing of the scene.

Follow Up:

I directed Detectives Kirtlan, Merten and Englefield to conduct a canvass of the area for additional witnesses. At the conclusion of the canvass I requested that Detectives Kirtlan, Merten and Englefield search the suspect vehicle, described as a 2004 Black Toyota Highlander, lic[redacted]. Per Det Higgins, he had received consent from the owner,[redacted], to search the vehicle.

I assisted Lead CSI Lovitto and the other CSI Officers with helping process the scene. I unloaded a blue steel Smith and Wesson revolver that was in the ground cover by the walkway to the front door of the residence at [redacted] oneil Way. I located (1) spent round in the cylinder and (4) live rounds. The gun and ammunition was collected by CSI.

When I returned to the office I received a phone call from [redacted] who identified herself as the owner of the black Toyota Highlander and the wife of Meng Xiong. I recorded the interview and made copies of it onto a CD. I booked one of the CD's into evidence and made another for the DA.

3-15-10 @ 2120 hrs I received a call from Homicide Sgt Martinson who requested my assistance on an Officer Involved Shooting (OIS) incident that occurred at [redacted] Oneil Way. I responded from home and arrived on scene at approx 2200 hrs.

Lt Rehm held a briefing at 2254 hrs. Homicide Detectives and numerous members of command staff attended the briefing. We were advised that at 2035 hrs, SPD received a call (transferred from CHP) from a female who stated that someone had broken into her home. The complainant left her cell phone on while the suspect was in the house so the dispatcher could hear that the suspect was inside. Patrol Officers arrived on scene and parked in front of the residence, [redacted] Oneil Way. A male Asian adult was detained by arriving officers who was later determined to be the brother of the suspect who was inside the house. (Zang Xiong)

K-9 Officer G.Dahl deployed his dog and took up a perimeter position in the rear of the residence. When the suspect inside the house tried to exit the rear sliding glass door, OFC Dahl confronted the suspect in the backyard. The suspect did not comply with OFC Dahl's commands and retreated back into the house. OFC Dahl released his dog which attempted to apprehend the fleeing suspect. As the suspect was fleeing, he shot the K-9. OFC Dahl returned fire as the suspect fled through the house. The suspect then fled from the house via the front door. The suspect was observed by the perimeter officers to be carrying a revolver. 4 of the perimeter officers fired their weapons at the suspect, killing him. OFC Dahl took his K-9 partner, "Bandit", to the Vet to be treated for a gunshot wound.

Lt Rehm advised that the female victim who lived at [redacted] Oneil did not know who the suspect was. The name of the suspect was Meng "Fue" Xiong. The brother who was detained was Zang Xiong (6-1-86). Both of the suspects were reportedly from Fresno, CA. A black Toyota Highlander [redacted]) was parked on the south curbline of Oneil Way, just east of 21st St. This vehicle was believed to be the vehicle the suspects arrived in. Two wrapped presents that were being carried by Zang Xiong when he was detained had been placed next to a police car that was parked on Oneil Way. Ofc Carr and Ofc Msryan were witnessing officers to the OIS.

After the briefing, I made a walk through of the exterior scene. I did not make entry into the residence. I observed [redacted] Oneil to be a single

story residence on the north side of Oneil, 3 houses west of 21st St. A silver Toyota Tacoma [redacted]) was parked along the north curbline in front of the house. SPD Police car #11103 was tactically parked in the street at an angle, also in front of [redacted] Oneil Way. I observed the suspect laying face down on the concrete walkway that leads from the front door to the driveway. The suspect sustained major trauma to the head and a significant amount of blood was observed where his head came to rest on the walkway. A small revolver was near his body and had been marked by an evidence marker/cone. I observed the fence on the east side of the residence to have been torn down, reportedly by OFC Dahl who was attempting to get his dog to the Vet.

I responded to HOJ and interviewed SGT D.Crye who was the supervising patrol SGT during the incident. (see statement)

I interviewed OFC Trefethen, who was one of the responding officers who deployed/fired his issued shotgun. (see statement)

On 3-16-10, Det Jasperson, Det Vigon, Det Walker and SGT Martinson traveled to Fresno, CA to serve two search warrants for two residences associated with the deceased suspect, Meng Xiong, and (S) Zang Xiong.

Upon arrival in Fresno, we met with several officers who were assigned to assist us in the warrant service. Prior to serving the warrants, Fresno officers ran local checks on the suspects and the addresses. FPD advised me that (S)Zang Xiong was an admitted member of the [redacted] gang. ([redacted]). This admission apparently came during a traffic stop on 11-20-05 at C St/Fresno St. The FPD officer was unable to print the field contact/gang contact information card associated with this admission because it was on a computer database that doesn't allow printing. I requested the FPD Officer to print the traffic stop information which he did. I later had this scanned into the report and booked the copy he gave me.

We served the warrants at [redacted] (address for Meng Xiong and his g/f [redacted]), and [redacted] (address for Zang Xiong). Several items were seized at both locations. (See Det Walkers OBS regarding the specifics of the search/items seized).

On 3-15-10, at approximately 2125 hours, I Detective Bales #0857, was called by the Sacramento Police Homicide Sergeant Martinson, in order to respond the scene of an officer involved shooting. I responded from my home to 21st St and Oneil Way. I am currently assigned to the Felony Assaults Unit within the Office of Investigations. My primary responsibilities are to investigate felony assaults, kidnappings, and assist in homicide investigations. When I arrived at the scene at approximately 2210 hours, I observed that it was secured with yellow crime scene tape and had patrol officers protecting the perimeter. I observed the following in summary:

At 2255 hours I along with, the rest of the investigative team, police management, internal affairs officers, and district attorney investigators, received a briefing from Patrol Watch Commander Lieutenant Don Rehm about the circumstances understood by patrol officers up to that point.

Lieutenant Rehm stated that at 2035 hours dispatch had received a call transferred from CHP from a female. The 911 cell phone caller stated someone was breaking into her house. The line then remained open and the dispatcher was able to hear a male voice in the background. The male voice made reference to shooting someone. Lieutenant Rehm stated that patrol arrived and began setting up a perimeter. Upon arrival of patrol officers, Zang Xiong was contacted in the area of the house carrying two wrapped presents. He was detained. Lieutenant Rehm further stated that K-9 Officer Dahl responded to the rear of [redacted] Oneil to assist with the perimeter. K-9 Officer Dahl reported seeing a male suspect exit the rear of the house. After the suspect failed to follow commands, the suspect attempted to flee back into the house, K-9 "Bandit" was sent to assist in detaining the suspect. K-9 "Bandit was subsequently shot in the neck by the suspect. OFC Dahl subsequently shot at the suspect. The suspect then fled out the front of the house with a gun in his hand. Multiple officers were in front of the house and gave the suspect commands which he ignored. He was then shot by Officer McPhail, OFC Richardson, OFC Wolfe, and OFC Trefethen.

Lieutenant Rehm further briefed that patrol officers then cleared the house locating a 17 year old female that had he hands bound behind back and a piece of tape over her mouth. Also located was her 5 year old brother who had also been bound behind his back. Lieutenant Rehm stated that three

additional officers OFC Carr, OFC Msryan, and Sergent Cry had witnessed the shooting. At the conclusion of the briefing a group which I was not included in, conducted a walkthrough of the crime scene with lead investigators Detective Vigon and Detective Walker. I later walked around the exterior of [redacted] Oneil Way to observe the shooting scenes of the officers.

On 3-16-10 at approximately 0018 hours, at Sergeant Martinson's direction I responded back to police headquarters in order to assist with interviews. At approximately 0048 hours, I viewed the In Car Camera tape from car 11217.

At approximately 0150 hours (note the time depicted on the recording is incorrect due to daylight savings time) I observed Sergeant Martinson secured OFC Mcphail's magazines and weapon. He then counted the rounds. OFC Mcphail had 12 rounds in each of his magazines that came from the pouch on his duty belt. OFC Mcphail had 11 rounds in the magazine that came from his duty handgun (Serial number [redacted]) and one round was located in the chamber of gun. CSI Atkinson photographed the above items and then secured them. OFC McPaihl was issued a new handgun and magazines. I then obtained OFC McPhail's statement. Also present during the interview was OFC McPhail's attorney Jeff Edwards. (See OFC McPhail's statement) This statement was audio and video recorded, for exact details please refer to the recording. I later booked a copy of the interview into evidence. During the interview OFC McPhail drew a diagram regarding his position during the shooting. I later booked this diagram into evidence and scanned a copy into the report.

At Sergeant Martinson's request I prepared a search warrant for the residences of both Suspect Zang Xiong and Suspect Meng Xiong. [redacted] and [redacted]

On 3-16-10 at 1335 hours Sacramento Superior Court Judge, the Honorable Gary E. Ransom signed the search warrant for the above locations. The search warrant was later served at each location by Detective Walker and Detective Vigon. (See Detective Walker's and Detective Vigon's observations)

Author: **463 - JASPERSON, KYLE 0440** [redacted]
Subject: **Det. Jasperson's observations**
Related date/time: **Apr-02-2010 (Fri.)**

I, Det. Jasperson, am currently assigned to the Homicide Unit. On 3-15-10 at approx 2119 hours, I was at home when I received a call from Sgt. Martinson who requested that I respond to the area of [redacted] O'Neil Wy for an Officer Involved Shooting that occurred at that location. I subsequently responded and arrived on scene at approx 2205 hours.

At approx 2254 hours, I attended a field briefing which was conducted at 21st St / O'Neil Wy by Lt. Rehm. The SPD personnel who I observed present for this briefing consisted of the following:

- From Investigations: Lt. Johnson, Sgt. Martinson, Sgt. Campbell, Sgt. McCloskey, Det. Merten, Det. DeDonder, Det. Burke, Det. Heinlein, Det. Higgins, Det. Englefield, Det. Walker, Det. Kirtlan, Det. Vigon, Det. Bales, and myself.

- From CSI: Lead CSI Lovitto, CSI Woo, CSI Mack, and CSI Tamai.

- From Internal Affairs: Lt. Schneider, Sgt. Davis, Sgt. Marzan (temporarily assigned), and Ofc. Valdez.

- Additional Management/Command Staff: Deputy Chief Somers, Deputy Chief Louie, Capt. Schiele, Capt. Matthes, Lt. Sweeney, Lt. Rehm, and Lt. Hendrickson.

- Patrol Supervisors: Sgt. Prince, Sgt. Faulkner, and Sgt. Lange.

- Misc: Sgt. Leong (PIO) and Sgt. Feenstra (Peer Support).

(There were also two DA Investigators who were present for the briefing.)

During the briefing, Lt. Rehm informed us of the facts of the case as they were known at the time. We were told that the call came in at 2035 hours as a burglary-in-progress to [redacted] O'Neil Wy. The caller was a female who left her cell phone on (with the line open) so the dispatcher could hear what was going on inside the house. The dispatcher was able to hear a male in the background say something about shooting someone.

Patrol officers responded and set up a perimeter on the house. As officers arrived, they contacted and detained one male Asian suspect who was

observed walking away from the area of the house carrying two wrapped presents.

While officers had the perimeter established on the house, another male Asian suspect exited the rear of the residence and confronted K-9 Ofc. Dahl who was in the backyard with his police dog ("Bandit"). The suspect attempted to retreat back into the residence, so Ofc. Dahl deployed his dog. The suspect then shot "Bandit", at which point Ofc. Dahl fired at the suspect. However, the suspect was able to successfully retreat back into the house.

The suspect then fled out the front door of the residence and was observed holding a handgun. The officers waiting out front ordered him to drop the gun, but when he didn't comply with their commands the officers shot him.

The officers then cleared the residence and located a teenage girl inside, along with a young boy (5-6 yrs old), who were both reportedly bound/gagged. They were both removed from the residence and transported to SPD Headquarters. We were advised that they stated they did not know the suspects, and that they came to their door asking for water and bearing presents.

SFD Medics responded to the scene for the suspect who was shot, but he was pronounced dead at the scene.

K-9 Ofc. Dahl had already left the scene and rushed his dog to the vet to be treated for the GSW.

We were advised that the shooting officers were: Ofc. Gary Dahl (handgun), Ofc. Matt McPhail (handgun), Ofc. Paul Richardson (rifle), Ofc. Victor Wolfe (handgun), and Ofc. Ryan Trefethen (shotgun).

Witnessing officers were listed as: Sgt. Don Crye, Ofc. Jeff Carr, and Ofc. Nvard Msryan.

The suspect who was observed carrying the presents and was detained by officers as he walked away from the scene was identified as: Zang Xiong (DOB: 6-1-86).

We were advised that, according to him, the other suspect at the house was his brother "Fue" Xiong - however his birthname is Meng Xiong (DOB: 10-21-77).

Both suspects were reportedly from Fresno and arrived in a black Toyota

Highlander, lic [redacted], which was parked on the south curbline of O'Neil just east of 21st St.

At approx 2344 hours, I participated in a walk-thru of the scene (exterior of the residence only). During this walk-thru, I observed the deceased suspect lying prone and handcuffed on the front walkway of the residence leading up to the front door. There was a moderate amount of blood pooling around his head area. His feet were facing towards the house and his head was facing towards the street. He was wearing all black clothing and he had gloves on.

There was grass on both sides of this walkway (the east and west sides). In the grassy area on the west side of the walkway, I observed a black revolver with brown-colored wood grips. It appeared to be a .38 caliber revolver; however, I did not personally pick up or manipulate the gun to confirm this. The gun was located to the rear of the suspect, roughly in between the suspect and the front door of the house, and on the side of the suspect that faced the attached garage of the house (which would have been his right side).

After the walk-thru, I was requested by Sgt. Martinson to go to SPD Headquarters and assist in interviewing the shooting officers. I arrived at headquarters at approx 0025 hours (now on 3-16-10).

While at headquarters, I watched in-car camera (ICC) footage from patrol car #11003, which was the vehicle positioned in front of the victims' residence and used as cover by the officers. (This video captured the sounds of the shooting. Refer to the actual tape for full details.)

I also watched ICC footage from patrol car #11217, which was the vehicle driven by Ofcs. Carr and Msryan and the one used to detain Suspect Zang Xiong in. (On this video, you can also hear the sounds of the shooting, as well as see the officers approach the house after the shooting. Ofc. Dahl can also be seen running from the residence carrying his wounded dog. Refer to the actual tape for full details.)

At approx 0303 hours, Sgt. Martinson and I contacted Ofc. Wolfe and his attorney (Jeff Edwards) in interview room #2. Sgt. Martinson first did a round count and handgun exchange with Ofc. Wolfe's duty weapon/magazines. (Ofc. Wolfe explained that he combat loaded his weapon after firing at the suspect, but prior to entering the house to clear it. Combat loading is a department-taught technique of replacing a partially depleted magazine with a full magazine during a lull in a gunfight. The primary purpose of this technique is so that your handgun will be at full capacity, so that in the

event that you encounter additional threats/suspects and have to resume shooting to eliminate those threats, you will have sufficient ammunition to do so while reducing the likelihood that your gun runs dry/empty in the middle of a gunfight.)

During the round count, the magazine that Ofc. Wolfe said he removed from his gun during the combat reload was found to contain (5) rounds. The magazine from his duty belt was found to contain (12) rounds, and the magazine from his gun was found to contain (12) rounds. His gun was found to have (1) round in the chamber. CSI photographed all of these items (gun/magazines/rounds) and ultimately took possession of them.

I subsequently obtained a statement from Ofc. Wolfe in regards to this incident. (See his attached statement for details.)

A search warrant was obtained later that day by Det. Bales for two locations the suspects were known to be associated with in the city of Fresno. These locations were: [redacted]; and [redacted].

At approx 1445 hours, Sgt. Martinson, Det. Walker, Det. Vigon, Det. DeDonder, and I all left Sacramento and began driving down to Fresno to serve this search warrant.

At approx 1733 hours, we arrived at Fresno Police Department's southeast district station (1617 S. Cedar Ave) and met with Sgt. McKnight and officers from the Southeast District Crime Suppression Team. Sgt. Martinson briefed them on our case and provided them with a copy of our search warrant for the two locations.

The officers ran local checks on both suspects and advised that Zang Xiong was flagged in their system as an "[redacted]" ([redacted]) gang member. We were told this information came via "self admit" during a traffic stop back in November 2005.

At approx 1900 hours, we all (SPD + the Fresno PD officers assisting us) went to the area of the first location ([redacted]) to serve the search warrant. This was an apartment complex called the Saint Doris Apartments.

We arrived at apt [redacted] at approx 1905 hours, and FPD Sgt. McKnight placed a phone call to [redacted] (the resident and wife of Suspect Meng Xiong). He was able to make contact with her, but apparently she wasn't home. She said she was at the second location ([redacted]). She said no one

was home at this apartment. Sgt. McKnight advised her that we had a search warrant for her apartment and she agreed to respond and meet us.

At approx 1919 hours, [redacted] arrived along with a couple other family members. She provided a key to her apartment. Fresno PD subsequently made entry into the apartment and cleared it (they did the initial entry since they were all uniformed officers).

At approx 1927 hours, we (SPD) entered to conduct the search of the residence pursuant to the search warrant. Det. Vigon spoke to [redacted] and the other family members outside.

During the search, I did not personally locate anything of evidentiary value.

After leaving this residence, we met up with other Fresno PD officers from their Central District in a parking lot nearby the other residence listed on the search warrant. These officers were also briefed on our case.

At approx 2020 hours, we went to [redacted] N. 7th Street to serve the search warrant. Again, uniformed Fresno PD officers approached the front door and gave knock/notice. At approx 2023 hours, the door was answered and the officers had the occupants exit the home and come outside. In total, 5 adults and 3 children came out. The FPD officers then entered and cleared the residence.

At approx 2035 hours, I entered the residence, as well as the others from SPD. Fresno PD cleared the scene.

I assisted in searching the residence pursuant to the search warrant.

During this search, Det. DeDonder and I searched the N/W corner bedroom (which we were told was Zang Xiong's bedroom). In this room the following items of interest were located:

- Misc indicia in the name of Zang Xiong (found in a desk drawer in the N/W corner of the room)

- A receipt for (3) AK 30-round rifle magazines (found in the same desk listed above)

- Sony digital camera (found in the same desk listed above)

- Sony computer (found on top of the desk listed above)

I also searched the backyard and found the following items inside the BBQ:

- A smashed/broken green military-type ammo crate used to store 7.62 mm ammo (although no ammo was in it)

- An empty box of Remington brand .38 caliber ammunition

All items observed inside and outside of the house were pointed out to Det. Walker (who was the designated "finder") for photo documentation and collection purposes.

At approx 2125 hours, Det. DeDonder and I left the residence and responded to Wal-Mart, 5125 E. Kings Canyon Rd, Fresno. We arrived at approx 2135 hours and picked up a CD containing surveillance video (which Det. DeDonder had previously requested) from Loss Prevention. This surveillance video was reportedly of the suspect(s) purchasing the items which were found wrapped as presents and in possession of Suspect Zang Xiong. The CD provided to us by Wal-Mart Loss Prevention was later turned over to Det. Walker.

3-16-10 @ 0053 hrs I, Det B DeDonder #302 interviewed Sgt Don Crye at SPD HOJ interview room #3. The interview was audio/videotaped. A copy was booked into evidence at HOJ. Also present in the room was SPOA representative, Brent Meyer. The following was transcribed by Alexandra Lynn, SPD Police Clerk:

Det. Dedonder: You guys about ready to get cracking on this?

Sgt. Crye: Yeah, you bet.

Unk: Alright.

Det. Dedonder: Let me, he wants to count your ammo make sure you're not missing any rounds.

Sgt Crye: Yeah you're alright.

Sgt. McCloskey: Just drop all your mags on the table.

Sgt. Crye: Do you want me to face this way now that you're here, do you?

Det. Dedonder: What? Oh I see what you're doing, yeah that's cool.

Sgt. Crye: Here you go.

Det. Dedonder: Clear, good.

Sgt. McCloskey: Do you know what's the serial on your gun?

Det. Dedonder: Do you know your serial numbers and stuff?

Sgt. McCloskey: [redacted], forty caliber.

Det. Dedonder: I'll grab another chair.

Sgt. McCloskey: Okay.

Sgt. Crye: Just went to the range today too.

Brent Meyer: I know, that's twice in one day. Is it cleaned?

Sgt. Crye: It's not! It's not! I had to run back to work, I didn't clean it. I figured I'd do it later on.

Brent Meyer: I was there too, I was there too.

Sgt. Crye: Yeah.

Brent Meyer: Today was the last day at the range though right? Is that why everybody was there trying to qualify too?

Sgt. Crye: Yeah that's correct, that's why I went on my own time before I went in, cause I would get, sometimes as a sergeant, stuff happens and you can't go out there right? So,

Sgt. McCloskey: Alright, you can go ahead and load up. No back-up weapons or anything like that.

Sgt. Crye: Alright.

Sgt. McCloskey: And your badge, three, zero?

Sgt. Crye: Nine-seven.

Sgt. McCloskey: And you're, three-sam-five?

Sgt. Crye: Yep.

Sgt. McCloskey: Got it? Alright?

Det. Dedonder: Alright.

Sgt. McCloskey: It's all yours.

Det. Dedonder: Alright. Alright, you guys ready to get started?

Sgt. Crye: Yeah.

Det. Dedonder: Real simple stuff, I'm just going to ask you a few questions, I'm sure you've

Sgt. Crye: Yeah, oh yeah.

Det. Dedonder: familiar with how this works. We'll just start with some basics and get your full name and kinda go over a little background

Sgt. Crye: Gotcha.

Det. Dedonder: and go over the incident. Real simple.

Sgt. Crye: Gotcha.

Det. Dedonder: Cool.

Sgt. Crye: First name Don, last name Crye, C-r-y-e.

Det. Dedonder: What is your birth date Don?

Sgt. Crye: [redacted].

Det. Dedonder: Obviously we'll just use your work address for your work address. You work out of the South Station?

Sgt. Crye: Yeah, sector five.

Det. Dedonder: It's been a while since I worked out of JERPH, what's the address over there?

Sgt. Crye: Fifty three-o-three Franklin Boulevard.

Det. Dedonder: And do you have a phone number we can contact you at?

Sgt. Crye: Yeah, it's a cell, area code [redacted]

Det. Dedonder: We'll start with a little bit of your background first if we can, maybe just start with like how long you've been an officer,

Sgt. Crye: Yeah.

Det. Dedonder: when did you go to the Academy,

Sgt. Crye: Gotcha.

Det. Dedonder: maybe some training and just kinda bring you up to speed

Sgt. Crye: Yes.

Det. Dedonder: to where you've been the last

Sgt. Crye: Twenty, twenty years as a cop,

Det. Dedonder: Uh huh.

Sgt. Crye: started as a Deputy in Ventura County Sheriff's Department. Went straight to the streets first, went through my training and probationary period, completed that, then went back to the jail for approximately a year and a half. During the jail I still continued to work patrol weekly as overtime in the jail. After I did my jail time, I came back out, worked patrol, different locations and this is in Ventura County.

Det. Dedonder: Okay. Do you remember what year it was you started down there?

Sgt. Crye: Yeah, it was ninety.

Det. Dedonder: Nineteen ninety?

Sgt. Crye: Yeah, yeah.

Det. Dedonder: And then you came to Sac about when?

Sgt. Crye: Came up here in April of ninety five.

Det. Dedonder: Okay, just got hired on as a lateral officer or

Sgt. Crye: Yeah, my wife is from here and wanted to come back home so that's why I came here so

Det. Dedonder: Okay.

Sgt. Crye: So, went through training here, when ********** I worked, basically the south and east area again, then went to POP, worked on the POP team in the south area. And then in ninety nine I got picked up as a staff officer at the Academy.

Det. Dedonder: Okay.

Sgt. Crye: So when obviously I've worked at the Academy, I mean my, I could go on and on with the amount of training I've received.

Det. Dedonder: I'm sure and no need for all that. So you were in, you worked out at the Academy from ninety nine till about when?

Sgt. Crye: Two thousand and two, I got promoted in April of two thousand and two.

Det. Dedonder: Promoted to Sergeant?

Sgt. Crye: Yeah.

Det. Dedonder: Did you have any FTO time?

Sgt. Crye: Yeah, yeah, before I became a POP officer actually, it was only, I'd only been here a year and I, they moved me to FTO.

Det. Dedonder: Okay.

Sgt. Crye: Yeah I think it was the day I got off probation, I, cause ***information I got made an FTO.

Det. Dedonder: Okay, so you've been a Sergeant for about what, eight years?

Sgt. Crye: Yeah.

Det. Dedonder: Okay.

Sgt. Crye: And all of that has been on the street.

Det. Dedonder: What, what sector are you in control of?

Sgt. Crye: Right now five.

Det. Dedonder: And I assume you work swing shift then?

Sgt. Crye: Yeah.

Det. Dedonder: And what are your days off?

Sgt. Crye: Right now they're Friday, Saturday, Sunday off.

Det. Dedonder: Got it made. Let's see so I guess you would have been, you worked last night then as well so it's, today's like kind of your

Sgt. Crye: No, I'm off Friday, Saturday, Sunday so today is my Monday.

Det. Dedonder: Oh I get it that right, so it is Monday right? Do you remember how many hours you slept from the night before, what did you do this morning, do you remember what you did when you woke up?

Sgt. Crye: Yeah I went to bed last night at ten. Got up this morning, probably seven thirty.

Det. Dedonder: Okay. Now obviously we'll just kinda jump up to the point where we'll talk about the incident.

Sgt. Crye: Gotcha.

Det. Dedonder: Do you remember kinda like about what time it started or what, what alerted you to this call or?

Sgt. Crye: Yeah. It was pretty close to the station as far as my location time and actually I was copying a two-eleven that had gone out, and I had put myself out on that call and was responding down to the south area from basically the station, from Franklin area and

Det. Dedonder: Okay

Sgt. Crye: officers arriving on scene, on that two-eleven before the four-five-nine came out and that's all it was at first, and she had no units available so wasn't too concerned. And then she came back on the air, dispatch, that this call had come through CHP and that the, whoever the comp was said that someone was trying to get in her house now. So I thought I'm gonna pull some units off and so I asked some units to go ahead and pull off the two-eleven call, we could tell by the way it was being held that it was stable and respond to the scene, which they did. Units started responding, I started responding that way too also myself. I had dispatch pull me off, I pulled off. The call came out, I think it was like twenty-thirty five hours, it was around about twenty-thirty nine hours is when I put myself on it.

Det. Dedonder: Where were you coming from, where did you?

Sgt. Crye: Originally from the two-eleven, pretty close to the station, I was just north of that on Franklin so I was on

Det. Dedonder: Sector four then, you were up in sector four?

Sgt. Crye: Right. I was, I was, I had got on the freeway to go south on ninety nine and this call comes out and then I divert so I ended up hanging right, getting off at Florin and taking Florin westbound all the way down to 21st Street.

Det. Dedonder: Okay.

Sgt. Crye: So enroute to this call, the dispatch keeps advising us that they have an open line, and there looks like there's all this communication coming in, it was apparently between the suspect and the victim. And if you're listening to what dispatch is giving to me on the air it's starting to look a lot more credibility to maybe this is something right aint going on here and this is more than just a four-five-nine. There's some transmissions about, you know basically please don't hurt me, you know, be easy on me and I'll be easy on you and I'm starting to think, this is either you know, absolutely nothing, like somebody calls in a ******** or this is really righteous.

Det. Dedonder: Alright, alright.

Sgt. Crye: So as we, we're getting close to the scene I heard Officer Carr come up on the radio and say they had just detained some guy walking down the street, not in front of the house, but in the vicinity and he's carrying presents. Which again makes it a little more suspicious cause you know, I, I could see why they would stop this guy so near to the house and this is going on.

Det. Dedonder: Carrying something, you know

Sgt. Crye: Yeah exactly.

Det. Dedonder: Sure.

Sgt. Crye: But he not running, he's just walking down the street the way they put it out. So I'm, I'm still responding on scene, I remember at one point even asking them do you think this is involved or not? He's like I don't know at this time he told me on the radio.

Det. Dedonder: Okay.

Sgt. Crye: And I'm also starting to think to myself also, it's like, okay we're getting all of these calls coming over an open line are we sure it's the residence? I said this because I'm realizing now it's a cell phone and as you know with cell phones depending on where it's registered it could

come back to anybody's place, so have we confirmed this yet?

Det. Dedonder: Sure.

Sgt. Crye: As air unit is already overhead, they are setting up a perimeter real good on the place.

Det. Dedonder: Right.

Sgt. Crye: My, I know the K-9 is already there.

Det. Dedonder: Do you know how they got the address for the location of the place?

Sgt. Crye: Yeah that's the address that CHP gave our dispatch based on what I'm told is what the complainant that made the call gave to them.

Det. Dedonder: Okay.

Sgt. Crye: But none of this have been confirmed on this, it's just coming to me through dispatch right now.

Det. Dedonder: Okay.

Sgt. Crye: So as I, as I get there to the scene I pull up on the first street just north of there just take a u-turn to see what they've got set up as perimeter wise cause I know it backs up to the house.

Det. Dedonder: Right, so 68th then that, that backs up to it?

Sgt. Crye: Yeah, yeah. It, it looks, looks locked down pretty tight, okay, everything looks cool here. I go down the street, it's the primary street O'Neil right there at the corner of 21st, see Carr's ride and Msryan, his trainee, is with this guy in the back seat.

Det. Dedonder: Okay.

Sgt. Crye: And I think I just looked at her and coordinated up, and they're down here, three houses, okay fine. So I low crawl the shaddows up the street to get the officers and they were, I mean, right in front of the house. In front of the residence, the resident's car, I know what it was, a Toyota Tacoma.

Det. Dedonder: Okay, so they were like kinda standing

Sgt. Crye: Here's the front door and here's the house parked next door to the curb and they're standing right here you know, like this, this is crazy. You know what I mean?

Det. Dedonder: Okay.

Sgt. Crye: I said guys, I said this is too close, we need to reposition ourselves. Somebody get the squad car, pull it up here, it was a couple of houses down, we use it for cover, put a spotlight on the place. We'll get set up if we have to to make a call into this place. So, somebody, I don't know which one repositions the car and I'm like man this is still too close. And I'm off, I'm actually over to the side, right within the shadows trying to get some information together.

Det. Dedonder: Now is that the car that's nearest Carr's car or is it on the other side of?

Sgt. Crye: It was, no, it was, the black and white that we used for cover?

Det. Dedonder: Okay.

Sgt. Crye: No, it was one right there at the scene, just like about a house down.

Det. Dedonder: The one facing west bound then?

Sgt. Crye: Right. And originally the officers pulled it up after we had moved behind the truck. Again, they just put it behind the truck and I go guys, this is still too close, back the car up some more, back it up. So they backed it up and I looked to see who I had around me which was basically McPhail,

Det. Dedonder: Uh huh.

Sgt. Crye: and Richardson.

Det. Dedonder: I write a little slow, hang on Richardson.

Sgt Crye: Did you write it?

Unk: No, I'm good.

Det. Dedonder: Do you know if it was their car?

Sgt. Crye: I don't know honestly whose car it was.

Det. Dedonder: So Richardson and McPhail were up there by the car?

Sgt. Crye: Yeah, so I've got Richardson and McPhail are up there, along with Trefethen

Det. Dedonder: Uh huh.

Sgt. Crye: Wolfe,

Det. Dedonder: Uh huh.

Sgt. Crye: and Carr.

Det. Dedonder: Okay so you've got everybody up there.

Sgt. Crye: And I, and I know I've got a rifle on scene 'cause I'm seeing somebody carrying, carrying a rifle.

Det. Dedonder: Do you know who it was?

Sgt. Crye: I thought it was McPhail because we had an exchange of words, a good exchange of words,

Det. Dedonder: Okay.

Sgt. Crye: and I thought to myself, and then I realized after the fact now it wasn't McPhail, it was actually Richardson that had the rifle.

Det. Dedonder: Okay.

Sgt. Crye: But I think I said something to McPhail in the fact you know, that where do you want the rifle deployed and I said I want it directly across facing that front door but take some covers near the shrubs, but directly across the street you know?

Det. Dedonder: Uh huh.

Sgt. Crye: So I saw McPhail, I thought he was the rifle but it wasn't, it was actually Richardson.

Det. Dedonder: Okay.

Sgt. Crye: And it was McPhail that went with him as his cover.

Det. Dedonder: Okay so McPhail and Richardson walked up

Sgt. Crye: Right.

Det. Dedonder: You know, where they went, you said to kinda hide out, go across the street

Sgt. Crye: They were all there, first and I said I want you guys directly across the street, find some cover and stay in the shadow and sight up on that front door. I want you to have a direct line on that front door.

Det. Dedonder: Okay.

Sgt. Crye: And I thought it was McPhail that had it, but it wasn't, it was his partner, Richardson.

Det. Dedonder: Okay.

Sgt Crye: They were CS, they were working together tonight.

Det. Dedonder: Okay.

Sgt. Crye: So

Det. Dedonder: Okay.

Sgt. Crye: Richardson had the rifle, McPhail was cover.

Det. Dedonder: Did you have them helmet up or were they already helmeted up?

Sgt. Crye: Everybody was already helmeted up when I got there.

Det. Dedonder: Okay. And do you know roughly where? You said directly across where you have a good line of sight on that front door, do you know where they went specifically?

Sgt. Crye: I, I, I pointed to an area between the cars, cause I knew that was directly on the front line of the car of the door

Det. Dedonder: Right.

Sgt. Crye: and that's where they headed. Now the exact spot they took in there, cause I told them to get some cover,

Det. Dedonder: Right.

Sgt. Crye: I'm assuming was behind one of the cars or over the hood or something like that.

Det. Dedonder: Yeah, direct, direct, exactly where were those cars? Were they in the driveway or across the street or where?

Sgt. Crye: Yeah, like here's the house in question regarding where everything occurred,

Det. Dedonder: Right.

Sgt. Crye: here's, here's the front door,

Det. Dedonder: Okay.

Sgt. Crye: now if you were to go directly across the street, here is a driveway right there with two cars in it.

Det. Dedonder: Okay.

Sgt. Crye: They slid somewhere in there between these cars directly across the street from the direction of the front door.

Det. Dedonder: Okay. Okay, so then all that was left was you, Tree, Trefethen,

Sgt. Crye: Trefethen, Wolfe and Carr,

Det. Dedonder: Carr and Wolfe, right and yourself

Sgt. Crye: Right and myself. That makes four people.

Det. Dedonder: Right.

Sgt. Crye: So I told them I said, we are the contact team, be prepared to go if we have to. It'll be basically like, I just pointed, one, two, three, four.

Det. Dedonder: Okay.

Sgt. Crye: Tree was the front guy.

Det. Dedonder: Okay.

Sgt. Crye: Okay. What I did not realize at the time is that Tree had deployed the shot gun. I did not realize he had a shot gun out.

Det. Dedonder: Okay, so he's the front, by like the front part of the car?

Sgt. Crye: Yes.

Det. Dedonder: And he, he deployed the shot gun?

Sgt. Crye: Yeah. I did not realize he had deployed the shot gun at the time. I did not direct him to or I did not ********** had the shot gun. I found this out after the fact.

Det. Dedonder: What if he, if you would have noticed that would you have done anything differently, or would you have instructed him to not do so or?

Sgt. Crye: No, not necessarily, I mean it was a nice, it was, I would have liked to have the shot gun plus another guy, it would have been nice, you know what I mean?

Det. Dedonder: Right.

Sgt. Crye: Because as a four man contact team I don't know that a shot gun initially is the best weapon.

Det. Dedonder: Right.

Sgt. Crye: Especially when

Det. Dedonder: You can't holster it very easily.

Sgt. Crye: Right and I'm dealing with victims in this house you know, too basically.

Det. Dedonder: Okay.

Sgt. Crye: So, as you can see.

Det. Dedonder: Okay. So he was up front by the, by the hood of the car

Sgt. Crye: Exactly.

Det. Dedonder: I assume it's on the side of the car that's would give him cover, I mean is that what side of the car you guys were lined up on?

Sgt. Crye: Right, yeah, on the opposite side of the street, facing the opposite houses.

Det. Dedonder: Right. Okay.

Sgt. Crye: And we had the spotlight directed right on the front door.

Det. Dedonder: Okay.

Sgt. Crye: And somebody was saying something, when we were going to make calls to the house and I said no, I don't want to make contact yet. In my mind I'm thinking I want to confirm this is the house. So I wanted to start making some calls to dispatch which I was trying to do regarding let's go back to CHP, let's run this number up, these things are running through my head,

Det. Dedonder: Sure.

Sgt. Crye: to confirm this is the house because the potential of what's going to happen here.

Det. Dedonder: Sure. Now do you guys have an inclination that the person inside the home, that the persons inside the home was armed? Do you guys have any information?

Sgt. Crye: Well I, I, I'm still getting information coming in via Dispatch regarding their open line on the cell phone and it was that the guy was armed and had a gun.

Det. Dedonder: Okay.

Sgt. Crye: So yeah, I obviously knew there was a possibility that we had, if this is the house and it was what it was, then this was an armed subject with a victim being held against her will in the house based on the information coming across on the radio.

Det. Dedonder: Sure.

Sgt. Crye: And that was why I was so wanting to confirm it's the right house before we possibly ended up doing something and it ended up being the wrong house.

Det. Dedonder: Okay.

Sgt. Crye: Lieutenant was calling me and I know he was thinking the same thing cause he's asked the questions about the house and I'm asking him on the phone this is what I want and he comes up on the air and he's confirming with Dispatch what I already know. The fact that this call came in via CHP on a cell phone number and she's said this is where I live at. And they still didn't tell me the information I wanted to know. I wanted a hard confirmation on this number, does it come back to this address? Cause it's not like a 911 line it just came to this address.

Det. Dedonder: Right, sure.

Sgt. Crye: So literally seconds before, after I hang up the phone with him, all of a sudden I hear shots fired inside the residence and I, and I broadcast this and I say,

Det. Dedonder: You hear the shots fired or you hear somebody say shots fired?

Sgt. Crye: No, I hear shots.

Det. Dedonder: You heard.

Sgt. Crye: We're all right here together and I hear shots fired inside the residence.

Det. Dedonder: Okay

Sgt. Crye: And then I hear her, a female screaming, I mean bloody murder, I'm like okay this is the real deal. This is an active shooter. I go guys, we're gonna have to go now and literally after I said that all of a sudden there's a shadow at the front door and someone yells he's at the front door. The front door is kinda jimmied, the next thing you know it swings open and this guy comes right out the front door. I mean, you can see clearly that he's got a gun in his hand and I can't tell you right now which hand it was. I just remember seeing the, the shining hand gun in his hand. As he's running out, it's up, it's not pointed directly out to him, but it's not at the ground, it's you know, out to the side.

Det. Dedonder: Right.

Sgt. Crye: where it's, it's easily a threat.

Det. Dedonder: Was it down like this or

Sgt. Crye: kinda like, no it's *******ing, running kind of thing.

Det. Dedonder: Alright so it's moving?

Sgt. Crye: Yeah.

Det. Deonder: Okay.

Sgt. Crye: So it's, it's obviously a threat to any of us.

Det. Dedonder: And the direction that he's running obviously is?

Sgt. Crye: Straight out, just, were just to the right of him, but it would be straight out at the guy with the rifle, which he obviously wouldn't be able to see him from what I perceive at that time because he's in the shadows where I had him deploying.

Det. Dedonder: Right, okay. Was he running fast or just kind of at a trot or?

Sgt. Crye: He, there was a little bit of a stumble out the door, kinda getting out of it, and then he kinda well, it was a full **********, by now the officers are yelling at him. It was a head down, full-on bolt, straight out type of thing.

Det. Dedonder: Did he say anything?

Sgt. Crye: He didn't say anything, but the, all of the officers are, are screaming at him you know, "show me your hands, drop the gun" and this all happened within a second. You can imagine from the time at the door, to yelling at him you know, drop the gun, show me your hands sort of thing.

Det. Dedonder: Did you hear somebody say drop the gun?

Sgt. Crye: I did. I heard, I heard, I can't tell you who it was. I heard somebody some body say drop the gun and I heard if you can imagine all of a sudden the chaos ******

Det. Dedonder: Absolutely.

Sgt. Crye: And I just knew, I've been doing this for twenty years and I've been on the street for the last three as a supervisor and I knew this was, this guy was not going to give up, I knew this before I, I just knew you know and he comes out and then all of a sudden our officers start firing and I, I can't tell you which one fired first but there was multiple shots. I mean, being there at the time it seemed like it was anywhere from six to ten shots that were fired.

Det. Dedonder: And where were you standing at the time the shots were fired?

Sgt. Crye: I was at the back rear quarter panel on the driver's side of the patrol vehicle.

Det. Dedonder: Was Trefethen still by the front portion of the vehicle or where did he go?

Sgt. Crye: I would assume but I can't

Det. Dedonder: Do you know where any of the guys were?

Sgt. Crye: I, I can see my guys are all right here in a row and obviously you know, when the firing started mayhem broke loose. No-one was running out or anything like that, everybody was staying behind the car.

Det. Dedonder: Okay.

Sgt. Crye: I don't know if the order of the line up changed, but they were, they were all still right there.

Det. Dedonder: Okay. Now so it was you, McPhail, or not McPhail, you, Carr, Trefethen and

Sgt. Crye: Wolfe.

Det. Dedonder: and Wolfe:

Sgt. Crye: Wolfe.

Det. Dedonder: Okay.

Sgt Crye: Right.

Det. Dedonder: All there by the car?

Sgt. Crye: Yeah.

Det. Dedonder: Do you know which one of those guys or if all of them or any of them

Sgt. Crye: At the time, I didn't know any, I knew that someone had fired and more than just one officer, I could just tell,

Det. Dedonder: Okay.

Sgt Crye: but I did not know at the time if they all fired and how many shots. I just knew multiple shots rang out.

Det. Dedonder: Okay.

Sgt. Crye: I, I, I didn't, I wasn't even in a position to fire based where I was at the back of the trunk over the top of the car with the other officer in front of me and it's,

Det. Dedonder: Yeah.

Sgt. Crye: it wouldn't have been any situation to fire in. By the time, because I was gearing up to make the approach because there appeared to be an active shooter all of a sudden, but by that time he's coming out the door and the officers are firing. He goes down and there's probably one to two more shots after he drops and I yell cease fire. Every one stops firing. I say okay every body just pull together, take a breath, we've got to go and approach and take this guy into custody. So, everybody's, I mean just running up and I kinda grab, I don't know who it was, whoever it was right in front of me there, their belt to slow them down, to keep everybody together.

Det. Dedonder: Right.

Sgt. Crye: We approached up on the guy and every body was going to first go and clear the house. I was like no, no, no, stop. We've got to go ahead and hand cuff this guy and go ahead and cover him. So they got him cuffed, you stay with him, I don't know which officer it was, but one officer stayed with him while we were gonna go in the house. At about this time we hear this horrendous racket on the right side of the house as we

face it. It sounds like someone's coming out of a window, someone's kicking out a fence, we're assuming bad guy number two. That's what it sounds like, some body is ******* in a bad way, doing some serious damage here. And we're yelling "Who is that? Is that an officer, is that an officer?" It's not speaking so I say okay an officer would have identified himself so luckily ********* officer, K-9 Officer Gary Dahl and I knew he was in the back of the residence. That was clearly broadcast and it was broadcast from the air regarding the crossfire. We knew he was back there.

Det. Dedonder: Okay. Did you see him deploy back there or did you just already know?

Sgt. Crye: No. I knew based on the radio transmission that he had deployed in the back yard,

Det. Dedonder: Okay

Sgt. Crye: and I was fine with that.

Det. Dedonder: Okay.

Sgt. Crye: So he comes running out of the side yard and he's carrying his dog and his dog's kinda limp. So I, I just assumed automatically that his dog has been shot. I don't know if the officer accidentally shot him, I don't know if we shot him at the time or I don't know if the bad guy shot the dog. I just know that the dog is shot and Gary is running so I'm not gonna, I'm not gonna stop Gary right now. I'm gonna let him deal with his dog, we've still gotta deal with this house.

Det. Dedonder: Right.

Sgt. Crye: So we go ahead and once we've got the one officer with the bad guy and he's cuffed we go ahead and with the other three officers and start clearing the house.

Det. Dedonder: Which three officers cleared the house?

Sgt. Crye: Well initially it was me, you know I can't, I definitely had Wolfe right with me. I can't tell you who the other officers were.

Det. Dedonder: Okay.

Sgt. Crye: Because as we're clearing the house other officers arrived on scene, I don't know who, and entered the house

Det. Dedonder: To help?

Sgt. Crye: to help us clear it. Yeah, in the front yard to help us clear it while we were doing the clearing. But the same thing, we definitely had three other officers besides myself as we cleared the house.

Det. Dedonder: Okay.

Sgt. Crye: And every body is hurrying to break out, but I was like hold on guys, slow down, we've got to stick together in this, pull everybody back together, slow down, one at a time, every single little spot, take our time. So they got the front, the living room and the kitchen part cleared, ready to start the hallway and you can hear now some yelling in the back and it's, it's a female voice and it's really hard to understand. So one of the officers starts communicating "it's okay, it's the police, okay the police" and I realize we have a female and she's scared to death to come out. So we're going back and forth "it's police, just come on out, come on out". She starts coming out the door, butt first out of a door in the back of the hallway and you can see she's like tied with something you know, her hands behind her back and she's got duck tape around her head, across her mouth, you know so she's gagged.

Det. Dedonder: Uh huh.

Sgt. Crye: So, you know, things are panning out to be what I anticipated today.

Det. Dedonder: Uh huh, okay.

Sgt. Crye: We bring her out and she's basically saying there is a little kid back, a little kid in the back, same thing. So we're "it's okay, come out, come on out, come out" and finally the little kid came out and I don't think he was taped or anything, but I remember he was definitely tied with something too, I don't know what.

Det. Dedonder: Okay.

Sgt. Crye: It was Officer Carr at that point that I said take the kid and her and get them out of here.

Det. Dedonder: Right.

Sgt. Crye: and he did and we finished clearing the house.

Det. Dedonder: Were they injured in any way that you could see?

Sgt. Crye: No, though obviously hysterical. Yeah, you know the kid was just trembling and it was yeah.

Det. Dedonder: Do you know where Officer Carr took the, took the kid and the woman?

Sgt. Crye: I found later on that they took them down to Cindy Stinson's car at the corner and she helped, but I didn't know that at the time, I was still dealing with the clearing the house.

Det. Dedonder: Okay.

Sgt. Crye: So went through the house, cleared it. We, I immediately saw it cause now I had Morales and Pinola there. They may have been the other two officers that helped us clear the house that showed up,

Det. Dedonder: Okay.

Sgt. Crye: and I said okay guys, I need one of you to stay in the house, don't come out, gotta hold it for us and the other person to stay with the suspect.

Det. Dedonder: Okay.

Sgt. Crye: I exited the house. My first thought was I need to get all the officers involved in the shooting together and, and pull them out of the scene. I think the first thing I did though actually was to get on the air and get the streets taped off. I wanted the whole street shut down immediately so no one could come in or out. I did some radio traffic I think with the CSO on the radio to make sure it was going to be taken care of, which it was. I called the officers up on the front that were involved about this time who, Lieutenant Rehm showed up at the scene. I think we have a very, very brief exchange of words as far as what happened and then I told him we're gonna pull back. I'm gonna separate these guys get them apart, remove them, pull them out of the scene so basically, basically this is yours right now till I get these guys outta here. So when I had walked them back, officers were pulling up on scene now asking what to do, so I'm giving out you know, directions as far as what I want done. And I got those guys all separated, I said "hey just leave your weapons alone, everything's fine, you guys did a good job, you got no issues to worry about but you know how things go, we can't discuss it right now, you gotta

go to cars, sit separately and that took a little time to get them all separated make sure I knew where they were all at.

Det. Dedonder: Okay, alright, do you know if the suspect had fired his gun at all?

Sgt. Crye: I don't know and somebody else had asked me that too and he could have, but I did not see him and I had a clear field of view, I did not see him fire his weapon.

Det. Dedonder: Did you talk to Officer Dahl at all?

Sgt. Crye: I, I didn't. He was automatically gone and I did not realize that he had actually shot, shot until after Lieutenant Rehm told me because he had got a hold of him on the phone. We all assumed, just assumed that he had gone code three to the animal hospital regarding his dog which he did. It was later on that I found out the circumstances that he had actually, the guy had run out the back which I hadn't known, and Gary had deployed his dog which bit the suspect, the suspect had dragged the dog, this is all hearsay, back into the residence, shot the dog which Gary apparently witnessed and Gary had returned fire as the guy was fleeing towards the front which I realize now is him coming probably out the front door cause he was trying to get away, he realized there was no way out, he came out the front. So, but I was not aware of that at that time. There was no transmission at all regarding that the guy ran out the back door, that the dog had been deployed, that the guy had been bitten, that the officer had shot at him, none, none of that was broadcast.

Det. Dedonder: Okay

Sgt. Crye: And it never, never was broadcast. It wasn't until much later on that I thought about what had happened.

Det. Dedonder: How much time went by from the time you actually heard the very first shots from within the house to when the guy came outside the door?

Sgt. Crye: Less than five seconds.

Det. Dedonder: Okay. Did you, you would have guessed six to ten shots total is about what you heard not, not including the rounds that you heard inside?

Sgt. Crye: Right.

Det. Dedonder: And how many rounds did you hear being fired from within the home?

Sgt. Crye: I want to say three to four, cause it was kinda like bam, bam ? bam, bam sorta thing. It was like two successions. I don't know if it was a bam, bam, bam or a, but it was two successions of.of shots. It wasn't like bam, bam, bam, it was like bam, bam ?. bam type of thing.

Det. Dedonder: Okay, alright. Do you have any questions for him?

Brent Meyer: Who called for code three fire and ambulance?

Sgt. Crye: Several people did.

Brent Meyer: Did you do it?

Sgt. Crye: It was, it was, it was not me. The code three fire and ambulance was called while, before I ever exited the house. When I was still inside, just after clearing it and I know an officer did at one point, I don't know which one, but then I also know that the Lieutenant did again when he arrived on scene because I recognized his voice.

Det. Dedonder: Did you talk to the woman or the child at all?

Sgt. Crye: No, I just talked to Cindy Stinson while she was doing interview.

Det. Dedonder: Okay, we'll get it from her. Did you talk to the male, subject that was detained by Officer Carr

Sgt. Crye: No.

Det. Dedonder: and his trainee at all?

Sgt. Crye: No.

Det. Dedonder: Okay.

Sgt. Crye: I, I, you know after the scene was stabilized, realizing you know, the totality of every thing that had just occurred, I realize in some ways that once I had someone else to take things over that I kinda needed to disengage from running the scene because I was gonna be exposed to everything else that had occurred, it's better to keep it more simple as

far as what occurred that moment.

Det. Dedonder: Okay. Can you think of anything else that I missed? Okay, let me just double check with my boss and get ya out of here. You don't want something drink or anything do you?

Sgt. Crye: No, I'm alright.

(Det DeDonder leaves the interview room)

Brent Meyer: Excellent. That actually could have gone a couple of different ways, ******** up there.

Sgt. Crye: Oh I know. No, there was potential there for bad things to happen, but seeing that the girl and her kid were okay was a huge relief because I didn't expect to find them okay, I really didn't. Especially after what transpired in the house I assumed that he had just, just blown them away.

Brent Meyer: Yeah, I can see how you would assume that,

Sgt Crye: Yeah.

Brent Meyer: because the circumstances were and what you were learning at the time

Sgt. Crye: Yeah.

Brent Meyer: **********

Sgt. Crye: And after this much time on the street you get kinda skeptical of most things. And as things transpired it was this is, this is the real deal. I know this is the real thing.

Brent Meyer: Uh huh.

(Det DeDonder returns to the interview room)

Det. Dedonder: All done.

Sgt. Crye: Alright.

Det. Dedonder: It was painless.

Sgt. Crye: I expect to see like Martinson.

Det. Dedonder: He's coming, he's coming.

The call #10-79637 came in at 2035 hours from [redacted] O Neil Way. A female caller stated that subject broke into her house. The call was taken as a burglary in progress. The caller called from a cell phone and the call was transferred from CHP. Officers arrived on scene and set up a perimeter behind patrol vehicles, two rifle officers were on scene. Officer Dahl w/K-9 set up in rear yard. The suspect exited the house in the rear and was confronted by officer Dahl who deployed Bandit. The suspect retreated back into the residence followed by Bandit. The suspect shot Bandit and Officer Dahl shot at the suspect. The contact team in the front of the residence observed the suspect exit out of the front door with a gun in his hand. The contact team immediately gave commands for the suspect to stop,

hands in the air, drop the gun, get on the ground. The suspect failed to comply and officers fired rounds killing the suspect. It was unknown how many rounds officers fired. The officers on the contact team were as follow:

Officer G. Dahl
Officer M. McPhail
Officer P. Richardson
Officer V. Wolfe
Officer C. Trefethen

Officer Dahl took Bandit to the emergency veterinarian.

The victims (later identified as [redacted], female 17 years old and [redacted] male five years old) were transported to the hall of honor for interviews. Both victims had been bound and gagged. The suspect came to the door with gifts and asked for water. The suspect told the female victim that the gifts were for her brother and sister. He then asked for water. Once inside he asked to use the restroom and when he returned from the restroom he pulled a gun on the victim.

The first officers on scene, Officers Carr and Msryan detained a subject identified as Zang Xiong, DOB: 06/01/1986 walking away from the residence carrying two gift wrapped boxes.

The deceased suspect was tentatively identified as Fue (Meng) Xiong.

Both subjects are from Fresno, CA. Their vehicle, black Toyota Highlander, CA license plate [redacted] was located parked on the south side of O Neil Way east of 21st Street.

Patrol officers canvassed from [redacted] O Neil Way and located one witness who stated that he saw officers return fire. Officers also canvassed one block north of the scene, 68th Ave.

The victims were able to walk away from the residence on their own.

End of briefing.

Follow-up:

Following the briefing Sgt. McCloskey requested the In Car Camera (ICC) tapes.

Approximately 2315 hours I was present for a walk thru of the scene with the following investigative team personnel, Sacramento Police Department Internal Affairs (IA) Sergeant, Sacramento Police Officers Association Attorneys, and a Sacramento County District Attorney Investigator:

Sgt. Martinson, Homicide
Sgt. Don Davis, IA
Lead CSI Lovitto
Det. Vigon, Homicide
Dave Mastagni, SPOA Attorney
Jeff Edwards, SPOA Attorney
Leslie Zapata, DA Investigator

Sgt. Crye was the supervisor on scene at the time of the shooting. He conducted the walk-thru. The following is a summary Sgt. Crye's walk through statement:

Sgt. Crye pointed out the location where officers on the contact team set up behind SPD patrol vehicle #11003. The vehicle was located south/east of [redacted]O Neil Way. Officers Carr (handgun), Wolfe (handgun), Trefethen (shotgun) and Sgt. Crye were positioned on the driver's side of the vehicle. Officer's McPhail (handgun) and Richardson (rifle) were positioned in the driveway of [redacted] O Neil Way, directly across from the front door of [redacted] O Neil Way. Sgt. Crye said they treated the scene as an active shooter. Sgt. Crye stated that they could see someone coming to the front door. The front door opened and the suspect "bolts" out. They could see the gun in the suspect's hand. Officers gave orders for the suspect to "Drop the gun, show your hands?" The suspect raised the gun and officers shot. The suspect dropped to the ground. Sgt. Cry said he yelled, "Cease fire." Sgt Crye said between 6 to 10 rounds were fired. After he yelled cease fire 2 additional rounds were fired. Sgt. Crye said the shotgun was fired. Sgt. Crye said the approach of the suspect was made as a team. After checking the suspect and calling for medical aid the team cleared the house checking for additional suspects and the welfare of the victims. Sgt. Crye stated that he did not know if the porch light was on or off when officers arrived. Sgt. Crye stated that they used a spot light on the patrol vehicle to light up the house. Sgt. Crye pointed to the west side of the exterior garage wall and indicated a location where the shotgun pellets struck the building.

During the walk thru I observed several areas marked indicating shell casings next to the patrol vehicle parked south/east of [redacted] O Neil Way. I observed wadding from an expended shot gun round in the flower bed of the residence and a handgun (black revolver) in the flower bed near the front

porch. I observed the deceased suspect was lying prone on the walk way south of the front porch between the porch and the driveway, his head was towards the street. I located (1) one shell casing in the driveway of [redacted] O Neil Way.

Approximately 2350 hours a second walk thru was conducted by Officer Dahl. The same personnel from the previous walk thru were present.

We entered the back yard via the east side front yard of [redacted] O Neil Way. The fence had been kicked down by Officer Dahl. Officer Dahl stated that he entered the yard over the fence of the residence to the east and took a position in the north/west corner of the yard which was dark and provided the most concealment. Officer Dahl said the suspect stepped out of the back sliding glass door with his back to him. Officer Dahl said as the suspect began to move back towards the house he engaged the suspect who continued towards the door. Officer Dahl said as the suspect went for the door he deployed Bandit. The suspect went inside of the residence taking the dog with him. Officer Dahl said he heard one gunshot and saw Bandit crawling towards the back door. Officer Dahl said he looked inside of the residence and saw the suspect standing in the hallway. Officer Dahl said he did not know where the victim was located in the residence and feared that the suspect was returning into the residence to shoot the victim. Officer Dahl said he shot two times at the suspect as the suspect ran towards the front door. Officer Dahl said he did not know if his rounds struck the suspect. Officer Dahl said he heard gun shots as he was scooping up Bandit. Officer Dahl said he sat Bandit down by the fence (located on the east side of the house between the front and rear yards) kicked out the boards on the fence, scooped up Bandit, ran to his patrol vehicle and drove Bandit to the emergency veterinarian.

After observing the scene again Officer Dahl stated that he fired three rounds at the suspect.

Upon completion of the walk thru narrated by Officer Dahl I observed entered the residence via the rear sliding glass door. I observed two bullet holes in the closet door located in the kitchen area, with exit holes through the west wall of the closet. It appeared as though the rounds continued into the hall way and through the north exterior wall of the south/east bedroom. I entered the south/east bedroom and observed one exit bullet hole in the north interior wall. I then observed a bullet hole in the south interior wall of the south/east bedroom. The round appeared to have traveled through that wall and into the garage. I was not able to continue tracking the round due to the garage door being locked.
I exited the residence and observed the area of the exterior window west of

the front door. Sgt. Martinson pointed out a bullet that was logged in the wall below the window frame. I observed the handgun (black revolver), previously noted in the first walk thru, in the flower bed east of the west exterior garage wall. Officer securing the scene pointed out the location where the shotgun pellets hit the west exterior wall of the garage.

I exited the walk thru via the same route used to enter.

On 03/16/10 approximately 0035 hours I responded to the Public Safety Building.

Approximately 0135 hours I received a briefing from Det. Burke regarding victim [redacted] statement. Det. Burke relayed the following in summary:

[redacted] reported that someone knocked on the front door; she looked out and saw a male Hmong holding boxes. The suspect stated that he had presents from her cousin for her little brother and sister. After determining the suspect knew she had a little sister she thought that the suspect knew her family. She opened the door and the subject handed her the presents then asked for water. She got him a bottle of water they made small talk and he did not reveal any information that he knew any of her family members names. She stated that he suddenly stepped into the house and asked if he could use the bathroom. She pointed him to the bathroom walked to the kitchen and retrieved a knife because she was scared because the suspect entered the house. The suspect exited the bathroom and walked towards the front door, [redacted] was behind him, walking him out. When they reached the front door the suspect slammed the door closed, turned around and pointed a gun at her. She pulled out her knife at which point the suspect told her to drop the knife or he would shoot her. The suspect made them lie down on the ground (victim and her five-year-old brother) and began asking her question about who was home, where her mother was and what time she was coming home. [redacted] was able to call 911 from her cell phone while the suspect was searching the house. She relayed her address and information about being robbed to the 911 operator who told her to leave the line open. She then slid her cell phone, still connected to 911, under the couch before the suspect returned to the room. The suspect returned to the room and used plastic ties to tie their hands behind their back and place duct tape over her mouth. [redacted] said she pointed him to her mom's room after he asked her where her room was. She said the suspect moved them into that room. She recalled the suspect talking on the cell phone in Hmong. She said the suspect moved them into the master bedroom and made them lie face down on the floor. She heard someone say "Put your hands up!" followed by a gunshot. She heard the

suspect running through the house followed by more gunshots. She indicated the first gunshot was louder than the other gunshots. There was a pause and then more gunshots followed by officers entering the house to searching, locating them in the master bedroom and leading them outside where she observed the same presents the suspect handed to her, when he first arrived at her door, next to a patrol vehicle.

[redacted] positively identified the suspect Meng Vang, DOB: 10/21/1977, via a single photo.

Approximately 0335 hours, I interviewed Officer Paul Richardson #0585 in interview room #5. David E. Mastagni, Attorney at Law was present during the interview. The interview was recorded and sent for transcription and the recording was later booked into property as evidence. *Note The interview time on the recording is approximately one hour off due to the clock not yet being adjusted for day light savings time.*

At the beginning of the interview Officer Richardson's handgun and rifle were inspected by Sgt. Lange. The handgun was fully loaded. Sgt. Lange removed three full magazines consisting of 36 rounds and 1 round in the chamber of the hand gun totaling 37 rounds. Sgt. Lange removed 27 rounds from the 30 round magazine and 1 round from the chamber of the rifle totaling 28 rounds. (See Sgt. Lange observations for details.)

The interview concluded at approximately 0407 hours. See transcription of Officer Richardson's statement.

Approximately 0530 hours, I photo copied the contents of suspect Zang Xiong's wallet and counted out two hundred seventy-six dollars and seventy-five cents. Det. Vigon observed as I confirmed the amount of cash. I gave the contents of his wallet and other items removed from his person to Sgt. Campbell.

During the course of the investigation we had yet to determine why the suspects were at the victims residence. I learned that the suspects resided in Fresno, CA and had traveled to Sacramento on March 15th, 2010. A motive for the crime was not yet determined.

I was informed by Sgt. Martinson that Det. Bales was writing a search warrant for the suspect's residences located in Fresno, CA. and upon having the search warrant signed I would be a part of the team assigned to travel to Fresno, CA to execute the search warrant.

We left Sacramento en route to Fresno, CA at approximately 1400 hours.

Approximately 1735 hours I arrived in Fresno, CA with Sgt. Martinson, Det. Vigon, Det. Jasperson and Det. Dedonder. Upon arrival we learned from Sgt. Martinson that Zang Xiong told Det. We met with Fresno Police Sgt. Carl McKnight and briefed him and his team of officers. Approximately 1850 hours we responded to the first location, suspect Meng Xiong's residence of record, [redacted] Upon arrival Sgt. McKnight and his team surrounded the residence and attempted to call the occupants out of the residence, per Fresno PD protocol. When Fresno PD met with no response from inside of the residence an attempt was made to enter the residence via a pass key from the property manager; negative results. Sgt. McKnight then called [redacted] suspect Meng Xiong's wife. [redacted] responded to the residence along with Meng Xiong's brother [redacted] and [redacted] son [redacted]

Approximately 1920 hours we made entry into the residence and served the search warrant. I took overall photos of the residence prior to the search. During the search Det. Dedonder located the following items:

INVESTIGATIVE FOLLOW UP (DET. VIGON'S OBSERVATIONS)

On 03-15-10, at 2122 hrs., I (Det. Vigon) received a call from Sgt. Martinson informing me of a Homicide Call-Out due to an officer involved shooting in south Sacramento. I was informed that a subject was involved in a home invasion, where the victim was able to call 9-1-1. Police respond to the scene and a Canine Unit took a position in the backyard of the home. The subject tried to escape to the rear, then the dog went after him when he ran back in the house. The suspect shot the canine inside the house. The dog's handler shot at the suspect who then tried to run out the front door. Once out front, the suspect did not drop his weapon and was shot by multiple officers. Initial responding officers detained a second subject attempting to leave the scene while carrying wrapped presents before the shooting occurred.

At approx. 2218 hrs. I arrived at the scene([redacted] Oneil Way), which was secured by a dual perimeter, yellow crime scene tape. Present at the scene was the full homicide team Detectives: Burke, Dedonder, Englefield, Heinlein, Higgins, Jasperson, Kirtlan, Merten, Walker and Bales . Also present were: Deputy Chiefs Louie & Sommers; Captains: Schiele, Mathes; Lieutenants: Johnson, Hendrickson, Schneider, Rehme; PIOs Leong, Peck; Sergeants: Martinson, Campbell, McCloskey, Davis, Fenstra; Officer Dustin Smith(SPOA); Mayor Kevin Johnson; and representatives from the District Attorney's Office, Internal Affairs, Professional Standards, SPOA and Peer Support.

At approx. 2254 hrs., Lieutenant Rehme gave the briefing, stating the following in summary: the initial call came in to Police at 2035 hrs. from [redacted] O'Neil. The female caller stated a subject had broken into her home and was still inside. The line remained open and she left the phone on. Units arrived and set up a perimeter. Patrol cars pulled up in front of the home and two rifles took position there. A canine unit (Ofc. Dahl) took position in the backyard of the victim's house. The suspect attempted to flee out the rear but saw the dog and went back inside the house. The dog chased him back inside. That's when the suspect shot the dog. Officer Dahl shot back at the suspect. The suspect fled out the front of the house. He was carrying a handgun, possibly 357. Officers that were out front yelled to the suspect multiple times "Stop! Police" and "Drop the weapon." The suspect ignored those commands and was shot by officers in

front of the house. Five officers shot the suspect killing him. The shooting officers were identified as: Matt McPhail, Paul Richardson, Victor Wolfe, Ryan Trefethen, and K-9 Ofc. Gary Dahl. Officer Dahl then carried his dog(Ofc. Bandit) to his patrol vehicle and transported him. Code 3 to the Veterinarian Hospital for treatment of one gunshot wound.

Officers then entered the house from the front yard and conducted a protective sweep. There were no further suspects in house. The victims([redacted] 17 Y/O , and [redacted] 6 Y/O) were found inside, unharmed. [redacted] had been bound with the zip ties and had her mouth taped shut with duct tape. In the victim's initial statement, she stated that the suspect came to the door with presents and asked for water before he entered.

The first unit on scene detained suspect number two as he walked away from the victim's house carrying presents. Suspect number two was identified as Zang Xiong. He is the brother of the fatally wounded suspect(Meng Xiong). They are both from Fresno, California. There is a vehicle associated with the suspects. It is a black Toyota Highlander, license plate [redacted].

At approx 2315 hrs., I went on the first walk-through of the scene with Sgt. Crye. He did not fire his weapon during the incident. Also on the walk-through were: Sgt. Martinson, Detective Walker, Sgt. Davis, Lead CSI Lovitto, D.A. Leslie Zapata, Dave Mastagni (SPOA Lawyer).

Sgt. Crye stated in summary: I was at the rear of vehicle 11003, which was east of the scene/victim's house. Ofc. Carr was at the front of the vehicle with Ofc. Richardson, Trefethen, and Wolfe. I heard shots and a female yell. The front door opened and he(suspect) bolted out. I clearly see a gun in his hand. Officers scream at him to drop the gun and show us his hands. He did not comply. Shots rang out, about 6-10 shots. The suspect falls, I yell out cease fire. We form a contact team and approach the fallen suspect to cuff him. There were no shots fired from the north side of the vehicle. Another officer (McPhail) was by the van in the driveway across the street from the victim's house with a rifle. Ofc. Trefethen had a shotgun and did fire. Richardson had a rifle. All of the officers approached the suspect. It is unknown if the suspect fired while in front of the house. Ofc. Carr's spot lights were lighting up the front of the house. The front porch light was possibly off, not sure.

At approx 2350 hrs., I went on another walk-through of the scene with Ofc. Gary Dahl. He did fire his weapon during the incident. Also on the walk-through were: Sgt. Martinson, Detective Walker, Sgt. Davis, Lead CSI Lovitto, D.A. investigator Leslie Zapata, Dave Mastagni (SPOA Lawyer).

Ofc. Dahl stated in summary: I got there and went to the next door neighbor's house with my dog. The house was west from the victim's house. I helped my dog get over the cyclone fence, then I jumped over it. I laid my dog down, then I laid down prone next to him on the grass at the N/W corner of the back yard. I laid there for a while. The suspect came out the rear slider, backing up. I challenged him. He ran back inside. My dog chased him. The dog goes inside. The dog went after him. I heard one gunshot. I ran inside the house and see my dog down on the floor. I see the suspect run from the right to the left. I shoot twice at him the shots hit the closet. I see my dog is still down. The suspect runs out the front door. I heard gunshots in front of the house.

I pick up my dog and carry him to the side/east fence. I kick the fence down and get my dog to my car. I may have fired 3 gunshots at the suspect.

At approx. 0011 hrs., I(Det. Vigon) received the ICC tape from Ofc. Carr's veh (11217). The tape number was 11811R.

At approx. 0017hrs., I left the scene and went to HOJ. I arrived at HOJ at approx. 0024hrs..

At approx 0035 hrs., I gave the ICC tape to Sgt. Martinson and we played both ICC tapes for the involved officers and management staff in the main homicide office. We viewed ICC tapes 11838R and 11811R.

At approx 0211 hrs., I contacted officer Gary Dahl in interview room 5 with Sgt. Martinson. The SPOA lawyer (David Mastagni Jr.) was present. Sgt. Martinson inspected Dahl's weapon and counted the live rounds in the weapon and from magazines on his belt. Ofc. Dahl stated that he had not reloaded his weapon or magazines since the shooting. He stated that he normally fills his magazines to capacity(12 rounds) and keeps two magazines on his belt and one in the weapon. He stated that he back fills the magazine in his weapon once he chambers a live round. Sgt. Martinson read the serial number on Dahl's weapon to be [redacted]. It is a Sig Sauer .40 cal with a TLR-1 Tac-Lite mounted to the front lower rail. Ofc. Dahl had one live bullet in the chamber of his gun along with 8 in the magazine. Both magazines on his belt were full to capacity with 12 live rounds each. I packaged the bullets, magazines and weapon and gave them to CSI (Atkinson) for booking into evidence. Sgt. Martinson gave Ofc. Dahl a replacement weapon and a live box of ammunition.

I then obtained Ofc. Dahl's statement, in the presence of his attorney (Mastagni Jr.).

At approx 0530 hrs., I observed as Detective Walker counted suspect Xiong's money. Detective Walker counted out $276.75 as belonging to Xiong. At approximately 0545 hrs., I observed as CSI Atkinson performed a Gun Shot Residue test on suspect Zang Xiong in his interview room.

On 03/16/10 Sgt. Martinson, and detectives: Walker, Jasperson, Dedonder, and I drove to Fresno to serve a search warrant on the homes of suspects Zang Xiong and suspect Meng Xiong. We arrived at approximately 1730 hrs., and contacted Sgt. McKnight of the Fresno Police Department. We spoke with him and members of his team at the southeast Fresno police station. They did various computer checks, and learned that suspect Zang Xiong was an [redacted] gang member F.I. card.

At approximately 1920 hrs. we arrived with Fresno PD at [redacted]. (The home of suspect Meng Xiong.) Sgt. McKnight gave knock and notice, there was no response. A maintenance worker contacted us and stated he could find a responsible with keys. Sgt. McKnight called the suspect's wife([redacted] and asked her to respond to the house to give us access. She stated she was at the home that suspect (Zang Xiong) shares with [redacted], and she would respond. She stated she was at [redacted] house with many family members trying to plan the funeral for suspect Meng Xiong.

At approximately 1930 hrs. [redacted] arrived at the residence and gave us the key for entry. The rest of the team entered while while I spoke to [redacted] I obtained her statement. She denied knowing why the suspect went to Sacramento yesterday . She came to the location accompanied by [redacted] , and his son [redacted]. [redacted] is brother to both suspects. (See Detective Walker's supplement for details on found items.) She informed me that suspect Meng had a tattoo shop where he would spend a lot of time. She stated she had no access or keys to the shop.

At approximately 2010 hrs., we left the seen and met with other Fresno Police Department units. (Sgt. McKnight's unit was end of watch and was replaced by other Fresno PD POP units.) At approximately 2023 hrs. We made contact at [redacted].(suspect Zang Xiong's home) and did knock and notice. There were several people inside. They came outside and cooperated with officers. We served the search warrant and the team searched the house, while I spoke with [redacted](suspect brother) and obtained his statement. He denied knowing why the suspect went to Sacramento yesterday. [redacted] denied knowing of any weapons, rifles, ammunition being in the house. During the search officers located, a smashed wooden box that was labeled 7.62 mm ammunition, and an empty pistol

ammunition box, both were found in the barbecue in the backyard. A receipt for three AK 10-30 magazines was found in suspect Zang's name in the Northwest bedroom. (During our drive, Suspect Zang had told Detective Higgins, that there was an SKS or Mac 10 at one of the residences. He stated this because he did not want anyone to get hurt. He did not give specific locations as to where it would be or who would have it.) No rifles were found at this location. A receipt was left at each location for all of the items taken and the residents were notified of same. [redacted] stated that suspect Meng had a tattoo shop, but there is not much there.

On 03/17/10, at approximately 1450 hrs., I received ICC tape 2003M from Lieut. Johnson.

On 03/18/10, Detective Walker and I presented this case to D.A. Brian Myers. Detective Walker got a search warrant for the suspect and had it approved/signed. I called Fresno Detective Marez at and informed him of our desire to serve a search warrant tomorrow. He stated he would provide me with the contact person. He call me back in told me Sgt. Reynolds would be my contact person and his phone number is [redacted]

On 03/19/10, at approximately 0700 hrs., Sgt. Martinson, Detective Walker, and I drove to Fresno to serve a search warrant on the tattoo shop. At approximately 0915 hrs. we arrived in Fresno and contacted Sgt. Reynolds. After gathering his team, we went to the suspect's tattoo shop at 2921 N. Blackstone #2. The shop was locked and empty. I gave knock and notice, there was no answer. We used the suspect's keys to gain access to the shop. It was a small, two room shop. It was sparsely furnished. A few pieces of evidence/indicia were taken from the shop. (See Detective Walker's statement for a list of all items removed.) The most noteworthy items were: three loaded handgun magazines, and two live 12gauge slugs found inside the business.

We left the shop at approximately 1030 hrs.. Approximate 1225 hrs. I received a phone call from Sgt. Reynolds. He stated that one of his officers spoke to the owner of the gas station next to the tattoo shop. The owner stated that he saw the suspect's wife [redacted]) go in the tattoo shop and clean a bunch of stuff out prior to our arrival. He did not see any guns or rifles being removed. He stated that this occurred yesterday, 03/18/10. Reynold's stated that his officer would provide us with a written statement.

On 03/22/10, approximately 1505 hrs., Detective Walker and I went to Pho Bac Hoa Viet (6540stockton Blvd.) in an attempt to get video footage of suspects arriving there prior to the home invasion. They were unable to

help us since they did not have knowledge of the system we left a card for the manager to call us when he was available.

On 03/23/10, we returned to Pho Bac Hoa Viet. The owner([redacted] was not there. I left the card and asked for him to call me back.

I called Deputy Shelton at Sacramento County Jail and asked for a copy of suspect Zang's Jail visits.

I called investigators at EDD Welfare Fraud. I spoke to Lieut. Brian Tulley (875-8959). I asked him to research the victims well for file to find out any people connected to her or her deceased husband. I received a call back from Scott Landry, he stated. The only people associated to her([redacted]) were [redacted] , and [redacted]. With [redacted] being her first husband, and [redacted] being her deceased husband.

On 03/24/10 spoke with (victim)[redacted] by telephone to try to arrange a date to get a photo of the residents of her house. She stated that her dad was in Thailand and has been there ever since the divorce. She last heard from him by telephone 2 to 3 years ago. She has not heard from them since and she has a different phone number than she did back then and he cannot call her . She would call me back and let me know when she was available for photos.

At approximately 1625 hrs., I attempted to make contact with witness [redacted], at [redacted] O'Neil. He was not home. I spoke to his grandmother([redacted] , who stated that he had moved to Modesto with his mother, and she did not have her number. His mother has no phone, and was cut off three months ago. I left the card for her to have him call me when she hears from him.

On 03/25/10, I received several calls from suspect Meng's wife. She stated that she was on her way to Sacramento to pick up her vehicle. I asked her if she had removed any items from the tattoo shop. She stated that she had not removed anything from the shop as there is nothing there.

At approximately 1445 hrs. I called [redacted] at Pho Bac Hoa Viet. He stated that his store only had video inside. He also stated that his video overwrites itself every 3 to 4 days. Thus video for the date we were interested in(3-15-10) no longer exists.

At approximately 1610 hrs., Detective Walker and I attempted to contact [redacted] at [redacted].. [redacted] answered the door. He stated

that [redacted] is his brother and was not there. He stated that he was in Thailand, taking care of his sick mother. He stated it is unknown when or if [redacted] will return.

On 03/30/10, at approximately 0915 hrs., victim [redacted] arrived at HOJ. I escorted her to room 5 where Det. Walker spoke to her and played the 9-1-1 tape back to her in an attempt to gain information on what was said. (See Walker's statement for details.)

At approximately 0920 hrs., CSI 11 (Joyce Ly #6352) came to my office to assist with translation of a phone call suspect Zang Xiong. She stated that they just spoke about his court date.

On 3-31-10, I contacted Joyce Ly about translating a jail social visit that suspect (Zang Xiong) had recently. She agreed and I dropped off the CD to her. On 4-09-10, I received the translation of visit from Joyce Ly. (See her translation for details.)

04/07/10. Approximately 1000 hrs., Detective Walker and I went to the Jamba Juice located next to the Regal Theaters on Truxel. We made contact with the manager [redacted]) and requested to look at his surveillance system for 03/15/10. He stated that he did not know who it operated and was in the middle of some paperwork. He said he would call us when he was done and allow us to view the video at the time . Approximately 1130 hrs., the manager called us back and told us to come view the video. Approximately 1210 hrs. we arrived at Jamba Juice and viewed the video with him . He allowed us to view the video. We saw that at approximately 1853 hrs., the suspects enter the store. They ordered drinks and exit the store approximately 1900 hrs.. The manager stated that he did not know how to download the video, and he would get back to us once he was able to do so.

Both the Jamba Juice and Regal Theaters were listed on the suspect's GPS as locations they had visited the day of the shooting. Other locations also listed on the suspect's GPS were: [redacted]., and [redacted] We drove by [redacted] and observed nobody home.

On 04/08/10, Detective Walker and I responded back to the scene to search for a possible discarded handgun. Lead CSI Darin Noonan responded with a metal detector for assistance. We searched the front yards of O'Neil way, and the backyard of [redacted] 21st St., with negative results. Detective Walker spoke with victim [redacted] and obtained her statement. At approximately 1530 hrs. Noonan took photos of victims [redacted] and [redacted].

04/12/10, Sgt. Martinson, Detective Walker, and I drove to Fresno to make contact at the suspect's work location. We arrived at 1055 hrs., at Elite Fashions, 352 W. Bedford #118. We contacted the owner ([redacted]) who confirmed that suspect Meng Xiong was an employee. We contacted witness [redacted] , and I obtained his statement. We were informed that another employee [redacted]) had recently quit the company. We responded to his house at 1210 hrs., and I obtained his statement there.

At approximately, 1150 hours, we arrived at [redacted] and attempted to contact [redacted] We contacted a relative [redacted] there and were informed that [redacted] no longer lived there. He stated that [redacted] moved two years ago and was not thought to be in Sacramento.

On 04/22/10, at approximately, 1530 hrs. Det. Walker, and I went to the Regal Theaters to research credit card transaction information from March 15, 2010. They provided to the Walker with a limited list of credit card transactions around the time of 1620 hrs..

On 03-15-10, at approx. 2014 hours, I, Ofc. Ligon (382) contact subject Xiong who was currently being detained the back seat of Ofc. McPhail and Ofc. Richardson's marked patrol vehicle. The conversation was captured on ICC 2003M, frame 10779 - 12208. Subject Xiong told the following in summary

I do not know anyone that lives in Sacramento. I came with a friend to Sacramento tonight for a wedding. The wedding starts at 9pm. I do not know the person that is getting married. I came to Sacramento today. When I got here it was kind of dark outside. I drove by myself. I drove my sister-in-laws car. It is a Highlander, I think. It is a SUV. It is black in color. I parked the car back there (pointing eastbound on O'Neil Way east of 21st).

I was in this area because I was looking for Stockton Blvd. I was following another vehicle. I was following an Acura Integra but I lost it. I was trying to go to Stockton bled but got lost. [redacted] was driving the Acura. His name is [redacted]. [redacted] is 25. He drives a gray Acura.

I was following [redacted] on the freeway and lost him on Meadowview. [redacted] is a friend of mine. He does not have a cell phone. When I got here (referring

to O'Neil Way), I got out of the car. As I was walking, I saw the street sign and saw that it was not Stockton Blvd. I then stopped and started walking back to my car when I got stopped by the cop.

The presents I was carrying I got from [redacted] and his friend. The presents were in my car.

Q: Was there another guy with [redacted]
A: He was by himself. Well I do not know who was with him.

Q: Was there a anyone with him when you left Fresno this morning.
A: No, he was by himself.

Q: Where you in the car by yourself?
A: Yes.

Q: Did you hear or see anything else while waiting in the patrol car?
A: I just heard the gun shots. I heard about 3 but I am not.

Q: Where were you going to stay tonight?
A: I was going to go home.

Q:You drove all the way from Fresno for a wedding and were going to turn around and go home tonight?
A:Tonight, I was going to stay the night but I am not sure where. Maybe a hotel. The car belongs to my sister -in-law

Q: Do you see [redacted] Acura anywhere around here?
A: No.

Q: At what point did you lose [redacted]
A: I lost him after we got off the freeway. We took highway 99 and got off at Meadowview Rd. I lost him then. I then ended up by highway 5. I made a U-turn and came down this street looking for Stockton Blvd.

Q: What does [redacted] look like?
A: He is Asian, with long hair, about 5'6, 200 pds.

(SIDE NOTE: At this time I leave the vehicle with the ICC running to speak with Ofc. Stinson. On the ICC frame from 11394 to 11881 there is no talking from the subject. At frame 11902, I get back in the car. When I get in the car subject as if he could have a smoke. I step out of the car for a few more seconds. At frame 11928, I begin speaking with the subject again).

Officer: Zang I have a few more questions. A very serious incident took place. I think you are not telling me the truth. We can play games or you can tell me what is really going on.

Q: What are you doing down here? The presents you were carrying are not wedding presents.
A: Definitely not.

Q: Who did you come down here with?
A: I came to pick up my brother.

Q: Who is your brother?
A: Fue Xiong

Q: Where does he live?
A: I do not know his address. He lives by [redacted].

Q: What are you doing in this neighborhood?
A: I am here to pick up the presents?

Here is the truth from the beginning. Me and Fue came together. He is my brother. We came in the SUV that I told you about before. The mission, I do not know. We came from Fresno. We do not live together. He called me and said he was going to attend a wedding and wanted me to go. He said it was a relatives wedding. We left Fresno around noon. Fue drove the car down here. He drives to Sacramento. When we got here we went to eat some food. It was Vietnamese food. After we ate we came over here. I was driving the car at this time. Fue was telling me where to go. He told me to park the car where I did. He told me to stay in the car. He got out of the car and grabbed the presents. He went walking that way (pointing westbound on O'Neil Way). He walked to the third house (pointing to [redacted] O'Neil Way). I just stayed in the car. I then got a call from Fue telling me to come pick up the presents. I got out of the car and walked up to the same house that Fue was at. The presents were outside. I grabbed the presents and started walking back to my car but I got stopped by the cops.

Q: Fue called you from a cell phone?
A: Yes, he called from my younger brother's cell phone.

Q: Who is your younger brother?
A: [redacted]

Q: Is he here with you guys?
A: No, he is in Fresno. Fue just had his cell phone today.

Q: Why did Fue want you to come get the presents?
A: I have no idea. He just told me to.

Q: When he got out of the car was he carrying anything else besides the presents?
A: Not that I saw.

Q: Have you ever seen him with a gun?
A: No.

Q: Do you know who lives at that house?
A: No.

Q: Do you know why your brother wanted to go to this house?
A: I have no idea. I am guessing something bad happened but I still have no idea what is going on.

(SIDE NOTE: ICC shuts down at frame 12208 and did not capture all of the conversation).

Ofc. Carr informed me that the subject was seen was walking eastbound on O'Neil Way from the victims house. Ofc. Carr advised that the subject was carrying to presents. I observed two presents sitting next to the right rear passenger door of Ofc. Carr's marked patrol vehicle. The larger of the two presents was trapped in Tinker Bell wrapping paper. The other present was wrapped in Spider man wrapping paper.

I contacted the subject who was identified by a valid California driver's license as Zang Xiong. On 03/15/10 at approximately 2046 hours, Officer Pinola and I were in a marked Police vehicle in full police uniform. We responded to assist Officers on a burglary in progress call at [redacted] Oneil Way.

Just prior to arrival, we heard 3SM5 Sgt Crye advise over the radio that shots had been fired. As we arrived on scene, several officers were already on scene. I parked the patrol car at Oneil Way/ 21st St. As we began heading towards [redacted] Oneil Way, we observed Officer Dahl running with his K-9 in his arms. Officer Dahl then placed the K-9 in the backseat of his patrol car and went to get Emergency care for his K-9.

As we were walking up the lawn to [redacted] Oneil Way, I observed Officer Richardson on the lawn approximately 25-30ft south of the front door to the residence. Officer Richardson had his rifle pointed at a subject who was face down on a concrete walkway that led up to the entrance to the residence. There was a large puddle of blood near the head of the subject who was face down. The subject also had his hands cuffed behind his back, and did not appear to be moving.

Officer Richardson advised that the house was being cleared by Officers. Officer Pinola and I then entered the house, as a small child was crying

and running out of the house. There was a strong smell of burnt gun powder in the air. We observed several Officers stacked at the entrance to the hallway of the residence. The Officers included Officer Wolf, McPhail, Trefethen, and Sgt Crye. We assisted in clearing the house with negative results.

After the residence was cleared, I was assigned to remain in the residence to secure the scene, while Officer Pinola and Officer Leonard remained outside at the scene of where the suspect was laying on the ground.

Shortly thereafter, Officer Stinson responded to the front door of the residence and advised me that one of the victims needed her cell phone which was under the living room couch. The living room couch appeared to be a two piece set joined together appearing to make a "V" shape. I located a black cell phone under the couch in the living room. The cell phone was immediately under the "V" shaped area of the couch. I provided Officer Stinson with the cell phone.

I then remained in the residence for a few hours until after detectives arrived and took custody of the scene. We then searched the front and back yards of [redacted] Oneil Way as well as the corner residence at Oneil/ 21st St for possible discarded contraband with negative results.

Observations: Sgt Lange #3067

On 3-15-10, I (Sgt Lange #3067) was on duty and assigned as a patrol supervisor. I responded to [redacted] Oneil Wy to assist with an officer involved shooting investigation.

I arrived onscene at 2108 hrs. Upon arrival, I was directed by Lt Rehm to contact each of the involved shooting officers and ensure they were seperated from each other and advised not to discuss the incident.

I contacted Officer Mcphail, Officer Richardson, Officer Wolfe and Officer Trefethen. They were already seperated from each other in different patrol vehicles. I advised them what to expect regarding the officer involved shooting protocol and not to discuss the incident with anyone. Additionally, I assigned seperate Officers to stay with the involved Officers to ensure they were seperated from others.

Homicide Investigators arrived and began their investigation. I was directed by Homicide Sgt Campbell to secure the M16 rifle (used by Officer Richardson) and the Remington shotgun (used by Officer Trefethen) and

transport them to Police Headquarters.

At 0015 hrs, I retrieved Officer Trefethen's shotgun from vehicle #11003. The shotgun was locked in the vehicle's electrolock. Upon removing it from the vehicle, I found it to have the safety on. The shotgun had the serial # of S474.

At 0020 hrs, I retrieved Officer Richardson's department issued M-16 rifle from vehicle #10323. The rifle was in the vehicle's electrolock, but the lock was not secured. Upon removing the rifle, I found a magazine inserted in gun, the safety on and the Eotech (electronic sighting system) in the off position. The serial # for the rifle was [redacted].

I transported both weapons to Police Headquarters.

At appx 0345 hrs, I unloaded and counted the rounds contained in Officer Richardson's rifle. This was done inside interview room # 5 and video recorded. The rifle was loaded with 1 round in the chamber and 27 rounds in the 30 round capacity rifle. Officer Richardson also had a departmentally issued 20 round magazine stored in his rifle bag that was in the trunk of the vehicle. The magazine was loaded with 21 rounds. CSI collected the rifle, magazines and ammunition.

At appx 0400 hrs, I released Officer Trefethen's shogtun to Det Dedonder to count the rounds during his interview.

Narrative Text Report # 1

Document: **01 VICTIM STATEMENT**
Author: **955 - STINSON, CYNTHIA 4109**
Subject: [redacted]
Related date/time: **Mar-15-2010 (Mon.) 2332**

On 3-15-10 at approx 2100 hours, I, Ofc Stinson #795 (1C44) contacted 17-year old Victim [redacted] outside her residence on the northwest corner of Oneil Way / 21st Street. [redacted] and her five year old brother, [redacted], had just been the victims of a home invasion at gun point. [redacted]told me the following in summary:

A male Asian guy knocked on our front door and he was holding some presents. Those were the presents he had ([redacted] points to two gift wrapped packages sitting next to a squad car approx ten feet away from where we are). He told me they were for my little brother and my little sister. I said, "My little sister?" because I do have a little sister. He said, "Yah, your little sister." Then he asked me if he could have some water and I told him to wait outside while I went to get him some water. I gave him the water and then he asked if he could use the bathroom. I let him inside to use the bathroom and he set the present just inside the door. For some reason I thought he knew my mom. My little brother (Victim [redacted]) was right next to me the entire time.

When he was in the bathroom I grabbed knife and put it in my pocket. When he came out of the bathroom he was walking toward the front door like he

was going to leave. When he got to the front door he just all of sudden slammed the door and pulled out a gun. I pulled the knife out and started backing up into the corner of the living room. He told me to drop the knife or he was going to shoot me. He also said something about us both being Asian but that he would shoot me.

After I dropped the knife he told us to lie face down on the floor. That's when I was able to reach in my pocket and dial 9-1-1 on my cell phone. He went to check the other rooms of the house and I whispered to 911 that there was a robber in my house and I said my address. Then I put my phone under the couch.

When he came back he asked us a bunch of questions like: Who lives here? Do you have a mom? When is she coming home? He tied us up. I kept asking him questions and he said, "Don't worry about it. I'm not going to hurt you but if you try something I will shoot you."

He asked me where my bedroom was and I just pointed to the first bedroom on the left in the hallway. He brought us into that bedroom and he looked out the window and he signalled to someone. I saw a light flash a few times from someone outside and I also heard someone outside. He told us to sit there and not move or he would shoot us. He left us in the bedroom for two minutes.

He kept looking out the windows. He was talking on his cell phone to someone but he was talking in Hmong so I don't know what he was saying. We are Mien.

He made us move to the master bedroom and told us to lay face down on the floor. He left the room and about two to two and a half minutes later I heard shouting and gun shots and then more shouting and gunshot. Then I heard officers coming in the house like they were looking for us.

He was definitely waiting for someone. I could just tell. He just didn't seem like he was going to do anything without someone else.

I don't know why he would have broken into our house. We have computers but no money around that I know of.

He was inside less than thirty minutes I would say. I dialed 9-1-1 not long after he slammed the door and I heard helicopters not long after I called.

The guy was a male Asian in his mid thirties. He was wearing black

including a long sleeve black jacket. He had a chunky build and was a little taller than me so probably about 5'5" tall. He had short black hair and a little mustache. He put on black cotton gloves after he took the gun out. I got a good look at him and I could identify him if I saw him again.

I know those were the same presents because one was big and one was smaller and they were wrapped in kids's cartoon character type stuff. I don't remember which characters were on them.

On 3-15-10 at approx 2049 hours, I, Ofc Stinson #795 was dispatched to [redacted] O'Neil Way to assist officers on a burglary-in-progress call. While I was enroute I heard Sgt Crye (3SM4) advise via radio that there were shots fired inside the house. I then responded Code 3 to the scene and arrived at approx 2058 hours. As I was approaching the house I observed Officer Msryan #727 (1C52) escorting a young female Asian (Victim [redacted]) and a young male Asian (Victim [redacted]) eastbound on O'Neil Way. I saw that Victim [redacted] was crying and I heard her say, "I shouldn't have let him in." Officer Msryan asked me if I had a knife to cut the victims loose. I could see that Victim [redacted] had white plastic zip ties fastened extremely tight around both of her wrists. The ties were fastened so tightly that I could see they were causing a severe indentation in the skin on both wrists.

I escorted Victims [redacted] and [redacted] to the northwest corner of O'Neil Way and 21st Street and had then sit on the grass. I then observed that Victim [redacted] had his hands bound behind his back with white plastic zip ties. There was a zip tie fastened around both of his wrists and then the ties on his wrists were fastened together with another zip tie so that his wrists were almost touching each other in the back.

I used a knife on my Leatherman to cut the ties off of both [redacted] and [redacted] I put the six ties in my pocket and later gave them to CSI Tech Atkinson #6371 (CSI32) so they could be booked as evidence.

I stayed with Victims [redacted] and [redacted] until medical aid arrived and it was determined they did not need medical aid. Victim [redacted] was upset and crying intermittently and asking to call her mother. [redacted] told me that she did not know her mother's phone number and that it was in her cell phone that was under the couch inside her house. I went to the porch of the house and contacted Officer Morales (GRN80) who was inside and asked him to retrieve the cell phone from under the couch in the living room. Officer Morales found the cell phone and gave it to me. It was a black Verizon LG slide phone. When I gave it to [redacted] she tried to turn it on and call but the power on the phone had died. I later obtained the cell phone back from [redacted] and turned it over to Sgt McCloskey.

I obtained a statement from [redacted] (see Victim Statement). [redacted] told me that Victim [redacted] was her brother and that he could understand what I was

saying but that he could not speak because he had had a near drowning experience when he was younger.

[redacted] continued to ask for her mother and was then able to describe for me geographically where her mother was at. I contacted our dispatch and provided the information to them and asked them to dispatch an officer to find [redacted] and [redacted] mother, [redacted]. I transported [redacted] and [redacted] to HOJ. Officers Valenzuela #855 and Jagur # (2A67) located [redacted] and assisted her and her daughter in getting to HOJ to meet up with her daughter and son.

I stayed with [redacted] and [redacted] until Detective Burke took [redacted] in to interview her.

I provided Victim[redacted] older sister, [redacted], with a Marsy's victims right brochure and the report number.

END.

On 03/15/10 at approx. 2049 hours, I, CSO Catelli #8181 was dispatched to a burglary in progress call at [redacted] O'Neil Way, to assist with traffic control. I arrived on scene at approx. 2054 hours. I made the following observations in summary:

I position my vehicle (CSO van) at the west end of O'Neil Way, at 19th St., at the direction of 3SM5. I blocked the street with my vehicle and put up an outer perimeter of crime scene tape.

I was later directed by 3SM5 to create a crime scene log and I positioned myself (on foot) at the east end of the crime scene (O'Neil Way and 21st St). Because I arrived on scene later than several units, I used the call record for on scene times of units that arrived prior to me.

I assisted in securing the crime scene by putting up crime scene tape at the far west and east ends of the crime scene.

I was relieved by my duties as a crime scene recorder by 1CS60, CSO Hein #8189 at approx. 0225 hours. I handed over 4 pages of crime scene log.

Narrative Text Report # 1

Document: **05 SUPPLEMENT**
Author: **3079 - LY, JOYCE 6352 (** [redacted] **)**
Subject: **CD Translation**
Related date/time: **May-03-2010 (Mon.)**

On 3/31/10, at 1015 hrs, I (J.Ly #6352) received a CD containing a recorded jail visit for Hmong translation from Detective J. Vigon #608 of the Homicide Unit.

The following is a summary translation of the audio files from the Sacramento County jail involving suspects Zang Xiong ([redacted]). The translation is only of decipherable portions of the conversation that took place on 3/18/10.

00:00 - 01:59:
(No dialogue.)

02:00 - 02:33:
Zang asks the visitor if they found a lawyer yet.

The visitor responds that they have not found a layer yet. He says they have been talking and if they did find a lawyer, they would not have the money to pay.

Zang asks how much the cost is.

02:34 - 05:14:
The visitor says they are not sure what the problem regarding this incident is. He says they (possibly referring to the police) came to look at the house the other day. Aside from some paperwork, bank statements and photographs, they were unable to obtain anything belonging to Meng and them (possibly referring to Meng's household). He says he was there at the residence of "Chue Fue" [phonetic name pronunciation] and witnessed that nothing was taken.

He tells Zang that they took a computer and camera containing photographs from a birthday party at Zang's house.

He tells Zang that from what the news has reported, there does not appear to be much on Zang since his only involvement was outside. He assures Zang of Zang's lack of involvement inside. He further assures Zang that Zang lacks in knowledge in what occurred and what he (possibly referring to Meng) did or planned.

Zang agrees and the visitor continues to reassure Zang and tell him not to worry about the charges.

05:15 - 08:46:
Zang tells the visitor that he told (possibly to the police) that he was asked to go to a wedding and was not told anything else. Upon arrival, they first ate and then toured Sacramento until dark because they had not been to Sacramento before. Later, they stopped and he was told to wait (for Meng) inside the car.

The visitor tells Zang that he understands with that information alone. The visitor tells Zang that Zang does not know what happened. He tells Zang that the news reported that Meng died. Zang said he was given that information.

The visitor says they did not know Meng died until after the house was searched. They later found out from watching the news. He says they do not know what the house was being searched for and that the search resulted in only a computer and camera being taken.

The visitor tells Zang to only tell and explain how he arrived. He reassures Zang of Zang's lack of involvement. He tells Zang to not confess because Zang did not do it. Zang says he needs an attorney and to explain it well.

Zang says he said (possibly to the police) that he was told to take the two presents. He took the presents to the car.

The visitor tells Zang that Zang's knowledge is only of that. He tells Zang that Meng is dead and the entire fault will be placed on Zang. He tells Zang that when the police arrived, Zang was not in the house. He also tells Zang that the news says Meng shot a police dog.

Zang says he did not know that and it is one of his charges.

The visitor reassures Zang of his lack of involvement and advises Zang to request for a lawyer to help.

Zang says they (possibly referring to Meng and himself) came (to Sacramento) together with the same plan. However, Meng did not tell him the truth so he did not know what he was really coming for.

08:47 - 11:50:
The visitor reassures Zang of his lack of knowledge in what happened and Meng's death. He asks Zang if Zang mentioned about the two packages.

Zang says he did make mention of it. Zang says that at the time, he did not know and "Chue Fue" [phonetic name pronunciation] told him to go get the two packages. When he went to go get the two packages and returned, the police stopped him and took him into custody.

The visitor says he understands and if that is the case, the problem lies there. He says they (possibly referring to the police) came and searched, but did not find anything. He tells Zang that he must fend for himself since "Chue Fue" is dead. He tells Zang to only share information of how Zang arrived and see what the attorney says. He reaffirms Zang's lack of wrong doing.

The visitor asks Zang if he saw Meng get shot. Zang said he only heard shots fired. The visitor asks Zang if he was told why Meng was shot and Zang replies no.

11:50 - 15:00:
The visitor advises Zang to only explain up to that point and a lawyer will give him copies of the reports. He tells Zang to only call him (visitor) and Zang's mother. The visitor says he wants to make sure the reports are consistent and correct in addition to the system being fair to Zang. He reassures Zang of his lack of involvement in the house and shooting of the

dog. He points out that police have not found Zang's prints on the gun. He consoles Zang that lack of fingerprints is an important factor.

Zang says he did not know that Meng had a gun.

The visitor continues to console Zang.

15:01 - 31:15:
The visitor and Zang discuss the care of Zang's mother. The visitor reassures Zang that Zang
has done nothing wrong and to not worry. The visitor talks about the search of the home
and goes over the details of what Zang told him occurred.

31:16 - 32:15:
Zang says the police asked him if they could open the two packages. He told the police that the two packages did not belong to him and to ask "Chue Fue" [phonetic name pronunciation]. The visitor corrects Zang that he meant to say Meng. Zang says the police then told him that Meng was dead. Zang says he did not know what was in the packages.

32:16 - 32:36:
Zang tells the visitor he will tell the visitor everything. Zang says he (possibly referring to Meng) said for them to go to a wedding and bring the gifts for the children. They went for that purpose, but his (possibly referring to Meng) plans changed. Zang says he did not know.

32:37 - 01:08:43:
The visitor reassures Zang of his lack of wrong doing. Zang's younger brother consoles Zang. Zang's mother tells him her sorrow.

The visitor and Zang talk about the jail cell, court process and money credit in jail for Zang.

01:08:44 - 02:32:43:
(No dialogue.)

Supplementary Investigative Report

Observations:

I, Detective R. Gilleland #371, am employed by the City of Sacramento Police Department where I am assigned to the Police Department's Electronic Crimes Unit. One of my primary responsibilities at the Police Department is to conduct forensic examinations of computers, cell phones and other digital evidence.

On 03-16-10 at approximately 0652 hours, Detective Englefield walked into the SPD ECU carrying three cell phones and one GPS unit. Detective Englefield requested that we examine the below listed devices based on the listed authorities;

1. Garmin GPS (Lab # 10-79637-gp-1) Consent
2. Samsung cell phone (Lab # 10-79637-cp-2) Consent (processed by Detective McDougle)
3. Samsung cell phone (Lab # 10-79637-cp-3) Consent (processed by Detective McDougle)
4. LG cell phone (Lab # 10-79637-cp-4) Owner deceased (processed by Detective McDougle)

On 03-16-10 at approximately 0652 hours, I began processing the Garmin GPS. I created an Encase image of the device and extracted the units '.GPX' files.

According to Garmin's website;
Garmin mass storage devices send and receive data in the form of files. For user data the file format is GPS Exchange (.gpx), which is a de-facto standard for the exchange of waypoints, routes, and tracks used by many applications.

According to topografix.com;
GPX (the GPS Exchange Format) is a light-weight XML data format for the interchange of GPS data (waypoints, routes, and tracks) between applications and Web services on the Internet.

I imported the '.GPX' files into Google Earth and examined the Tracks. At approximately 0930 hours reported some preliminary findings to Detective Englefield at his desk.

On 03-16-10 at approximately 0945 hours, Detective Englefield walked into the SPD ECU and asked that Detective McDougle and I temporarily stop processing the above listed items of evidence.

Supplementary Investigative Report

On 03-16-10 at approximately 1440 hours, Detective Englefield called my desk phone and stated that a search warrant had been signed and to resume processing the evidence.

Using Google Earth, I continued my review of the .GPX files. I created screen captures showing each of the 'Waypoints' that were stored on this Garmin GPS. I also created screen captures of the Tracks that were stored on the Garmin GPS showing the start and end of each of the routes as well as the full paths. I also created videos of many of the Tracks routes which will be included on a CD and provided to the investigating detective.

I created detailed descriptions of the routes stored in this GPS for the March 15th, 2010.

I located a number of 'Waypoints' on this Garmin GPS device. According to Garmin's website, 'Waypoints' are defined as;

"Waypoints are locations or landmarks worth recording and storing in your GPS. These are locations you may later want to return to."

Below is a list of Waypoints that were stored in this GPS unit and their locations according to Google Earth;

I used Google Earth to create screen captures of the Waypoints stored on this Garmin GPS device;

List of 'Tracks' stored on this device;

According to Garmin's website;

"The track log in a Garmin unit are points automatically stored when you are moving. It is the electronic equivalent of laying down a "breadcrumb trail" to mark your path. These points will be shown strung together on the map page of your unit so you can see where you have been."

Below is a list of the 'Tracks' that were stored in the 'Current.GPX' file that was obtained from the Garmin GPS unit (Lab # 10-79637-GP-1) as well as a description of the 'Tracks' details;

Supplementary Investigative Report

Observations:

I, Detective McDougle, am employed by the City of Sacramento Police Department where I am assigned to the Police Department's Investigations division. One of my primary responsibilities at the Police Department is to conduct cellular phone examinations.

Summary:

On 03/16/10 at approximately 0652 hours, Det. Englefield brought three (3) cell phones into the Electronic Crime Unit Lab for examination. Det. Englefield requested the contacts, call logs, text messages and images from the phones. On 03/16/10 at approximately 0900 hours I Det. McDougle, started the examination of the phones.

1) The phone was a grey Samsung SCH-R430 (Lab number: 10-79637-cp-2). The search was based on consent. The phone was a camera phone. I was able to obtain the following information from the phone:

Datapilot: Contacts, Call Logs and Images

ZRT: Text Messages

(Image from Internet)

2) The phone was a black Samsung Blackjack (Lab number: 10-79637-cp-3). The search was based on consent. The phone was a camera phone. The phone was on and had the following number typed on the screen: [redacted].

At approximately 0945 hours Det. Englefield advised me to stop working on the phones and that he was going to seek a warrant.

Analyst: Det. McDougle

Date: 03/16/10
Analysts Initials: Bmc

At approximately 1340 hours Sgt. McCloskey advised that they had a signed written consent form for the Samsung Blackjack. Sgt. McCloskey visually confirmed and identified the phone that they had the consent for examination. The other phones were still waiting for a warrant.

I processed the black Samsung Blackjack (Lab number: 10-79367-cp-3). The search was based on a signed consent form. The phone was a camera phone. I was unable to examine the media card. I attempted to image the media card with Encase with negative results. I was able to obtain the following information from the phone:

Windows Mobile Data Viewer: Contacts, Call Logs and Text Messages

(Image from Internet)

At approximately 1440 hours, Det. Englefield called and stated the search warrant for the phones had been signed by the judge and to resume processing the evidence.

3) The phone was a silver LG CU720 (Lab number: 10-79637-cp-3). The phone was a camera phone. The phone had major damage to the screen making it un -readable. The Cellebrite phone report shows that it was unable to extract any information. I was able to obtain the following information from the phone:

Cellebrite: SIM card

(Image from Internet)

The results from the analysis were compared to the data contained in the phone. I burned the reports/images to a CD which was later provided to Det. Englefield for booking. I printed the report and my observations and sent them to Records to be attached to the report.

Supplementary Investigative Report

Observations:

I, Detective McDougle #0401, am employed by the City of Sacramento Police Department where I am assigned to the Police Department's Electronic Crimes Unit. One of my primary responsibilities at the Police Department is to conduct forensic examinations of computers and other digital evidence.

On 03/17/10 at approximately 1620 hours, Detective Walker brought the following listed items into the SPD Electronics Crime Unit for examination:

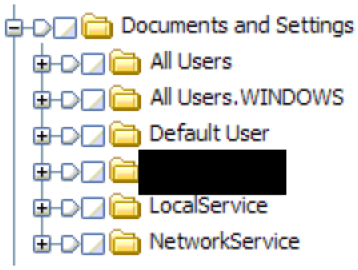

1) Sony Viao Desktop (Lab Number: 10-79637-pc-1)
2) Sony Cybershot DSC-S650 Digital Camera (Lab Number: 10-79637-dc-1)

Detective Walker requested that I examine all of the above items for any information regarding 20[redacted] O'Neil Way, any internet searches regarding the O'Neil address, searches regarding guns, searches regarding the victims ([redacted] or [redacted]) and any tattoo shop information with regard to the suspects [redacted] or Zang Xiong). The items were searchable based on a search warrant.

Below is a summary of my findings:

1) Sony Viao Desktop (Lab Number: 10-79637-pc-1)

The operating system was shown to be Windows XP with the registered owner listed as [redacted]. The computer had the following user list:

Case number: 10-79637

Supplementary Investigative Report

I located two (2) .pdf documents under the [redacted] user regarding the AK-47. The first was titled "AK-47 Select Fire Full Auto Conversion.pdf" The second was titled "AK47_Full_Auto_Conversion_for_Dummies.pdf" The documents were both noted in the Encase Report. They were also exported and placed on the Report CD for easier viewing.

I located a Progressive Auto Insurance Card in a .pdf document under the [redacted] user account. The name on the insurance is Zang Xiong for a 1995 Toyota Corolla LE/DX. The VIN number for the vehicle was listed as [redacted] The policy was for January 31, 2010 through July 31, 2010. The document was noted in the Encase Report. I exported the document and placed it on the Report CD for easier viewing.

I did not located any other notable information from the keyword search.

I searched the internet history files. I did not locate any searches for [redacted] , O'neil Way or tattoo shop information. I did locate several hits on the News 10 story regarding the shooting.

I located several searches for guns and gun images under the [redacted] user on 11/26/2009. Specifically the Smith and Wesson Firestorm and the EAA Witness handguns. It also showed a YouTube video for a Glock 20. I located searches of the site Lone Wolf Distributers. The site sells a variety of products including ammunition, gun parts and gun accessories.

The dates and times of those internet searches were documented in the Net Analysis reports.

2) Sony Cybershot DSC-S650 Digital Camera (Lab Number: 10-79637-dc-1):

The camera had a 1 GB Sony Memory Stick Pro Duo media card. I processed the card using Encase. The images from the card, including any deleted images retrieved, were documented in the Encase Report.

According to the online manual for the camera, it has approximately 24 MB of internal storage. I checked the camera with the media card removed. There were no files stored in the camera's memory.

SACRAMENTO, CA - A Sacramento police K-9 officer named Bandit went into surgery Tuesday afternoon after being shot while responding to a reported home invasion.
The suspected robber was shot and killed by police a short time later as he tried to flee the south area home, said Sgt. Norm Leong with the Sacramento Police Department. The incident happened at 8:35 p.m. Monday in the 2000 block of O'Neil Way.
Leong said a 17-year-old girl and a 5-year-old boy were inside the home when the man, said to be in his thirties, forced his way inside. One of those inside the home called 911 and when police showed up, the suspected robber was still inside.
At some point, Leong said the man emerged from the back door, exchanged gunfire with an officer, and the bullet hit Bandit, a 4-year-old German shepherd. Leong said the man then walked out of the front of the house still armed with a gun. The man did not follow officers' orders to drop the firearm, according to Leong, and officers in position in front of the house shot and killed him.
The people inside the home were found tied up but unhurt, Leong said.
Another man, 23, who police say was communicating with the suspected robber on the phone during the crime, was arrested in the neighborhood as well.
No other officers were injured in the shooting.
Bandit was taken to the VCA 24-hour veterinary hospital on Old Winery Place where he was stabilized and given pain killers. Dr. Jessica Holland said she would do tests to determine if there was any damage to Bandit's spine before she attempted to remove the bullet fragments. She said Bandit's prognosis for a full recovery was good.
Bandit's partner, Officer Gary Dahl, was emotional at times as he spoke outside the clinic. The married father of three said Bandit is his family's pet. But he acknowledged that the dog's main job is to protect other officers, and he gave Bandit credit for taking a bullet that might have killed a colleague.
Leong said investigators have learned the dead man and 23-year-old alleged accomplice were from out of town. Detectives do not know why the victims' home was targeted, but Leong said it did not appear to be random.
The five officers involved in the shooting were placed on paid administrative leave per police department policy pending an investigation. The officers have been with the department one, four, four, five and 11 years, Leong said. News10/KXTV Copyright 2010 / All Rights Reserved In your voice Read reactions to this story

SACRAMENTO, CA - A Sacramento police K-9 officer named Bandit went into surgery Tuesday afternoon after being shot while responding to a reported home invasion.

The suspected robber was shot and killed by police a short time later as he tried to flee the south area home, said Sgt. Norm Leong with the Sacramento Police Department. The incident happened at 8:35 p.m. Monday in the 2000 block of O'Neil Way.

Bandit's prognosis for a full recovery was good.

Bandit's partner, Officer Gary Dahl, was emotional at times as he spoke outside the clinic. The married father of three said Bandit is his family's pet. But he acknowledged that the dog's main job is to protect other officers, and he gave Bandit credit for taking a bullet that might have killed a colleague.

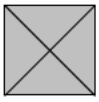

Leong said investigators have learned the dead man and 23-year-old alleged accomplice were from out of town. Detectives do not know why the victims' home was targeted, but Leong said it did not appear to be random.

CAUTION!

The legal construction and possession of a fully automatic weapon is controlled by the Bureau of Alcohol, Tobacco, and Firearms division of the U.S. Treasury Department.

All conversions must be done by a licensed Class II manufacturer. In addition, an authorized application must be secured from the B.A.T. F. governmental agency before any construction begins. (State and local laws may prohibit ownership of this type weapon).

Information provided in this book is for academic purposes only. The publisher, Butokukai, assumes no responsibility or liability for illegal or improper firearm modifications, which may result in any gun damage or bodily harm.

AK-47 HISTORICAL BACKGROUND

The current AK-47 and similiar designed weapons have evolved from the MP 43, a select fire carbine chambered for the 7.92mm cartridge.

During World War II, Russian Troops captured the German army facility where the MP 43 assault rifles were manufactured. Also seized were several prototype weapon designs, as well as the personnel working at the facility. The newly aquired information, products, and captives were sent to Russia.

The first Soviet weapon manufactured in 1946, was the semi automatic SKS, which has a 7.62mm X 39mm cartirdge. The SKS was soon replaced by the Automat Kalashnikov or AK-47, named after the weapons designer, Sgt. Mikhail T. Kalashnikov.

The AK-47 rifle was used by the Soviet Army between 1949 and 1951. In 1959, Kalashnikov redesigned the AK-47 and the weapon was then known as the AKM. The main differences between the two weapons are the AKM has a stamped, rather than a milled receiver, a ribbed receiver cover, fluted gas cylinder tube and a rear sight graduating to 1,000 meters.

Currently the Soviets have again modified the basic AK design into the AK-74. It is chambered with a new 5.45 X 39mm round with very high velocity. The AK-74 action is scaled down somewhat to accommodate the new round and is the first AK to have a muzzel brake.

Another version of the AK is the Swedish Valmet and is available in both 7.62mm X 39mm and 5.56m X 45mm Nato calibers.

The Israli made Galil is still another Kalashnikov copy, available in 7.62 Nato, as well as .223.

A semi auto only AKM is produced in Egypt and is pure Kalashnikov design, right down to the Russian machinery, which Egypt acquired in its Pro-Soviet days.

Other countries offering weapons with the AK design are East Germany, Poland, Bulgaria, South Africa, and North Korea.

The basic design of the AK-47 has not been changed in over 40 years, only improved. The weapon proves to be durable, extremely reliable and will probably be used in combat well into the 21st century.

INTRODUCTION

This manual contains necessary blueprints and maunfacturing information to make a semi automatic AK-47 or similiar AK design into a select fire, fully automatic weapon. (Select fire means the weapon has a lever that allows the operator to fire the weapon in either one shot bursts, or may select to fire the weapon in the fully automatic mode).

DEFINING THE TERM "SIMILIAR WEAPON"

There are many different manufacturers from different countries that use the AK-47 design. Conversions #1 and #2 should work on the following rifles:

Valmet .....Any Calibre
Galil ..... All Calibres Except .308 Winchester (7.62 X 51mm)
Yugoslave .....Any Calibre
Hungarian .....With (7.62 X 39mm)
Maadi .....With (7.62 X 39mm)

Please Note: Due to the large amount of "similar weapons" all are not listed.

The above information has been provided just as a guide, before you attempt to modify any "similiar" AK weapon, be very sure that the internal parts are the same as the original design.

BEFORE YOU BEGIN

STEP #1 Get the proper license and approval from the U.S. Government B.A.T.F.

STEP #2 Purchase an AK-47 full auto kit.

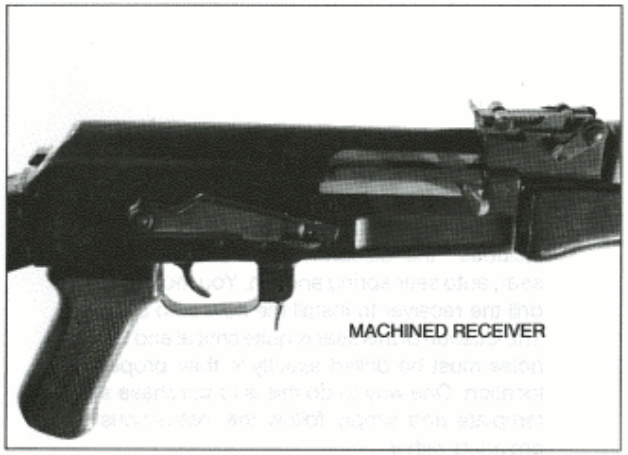

STEP #3 Read through the book several times so you are familiar with each step of the conversion.

STEP #4 Aquire the tools and equipment needed.

STEP #5 Note: This step is very important! If you are not completely familiar with the design and function of the trigger disconnector assembly, you should study it very carefully. Make diagrams, take still pictures or even video tape the location of all of the various parts. Whatever it takes, you must be able to reassemble the complete trigger mechanism.

FULL AUTO CONVERSION METHOD #1

This conversion may be used with the machined receiver (receiver is machined from one solid piece of metal) or may be used with the stamped receiver (receiver is made from stamped sheet metal).

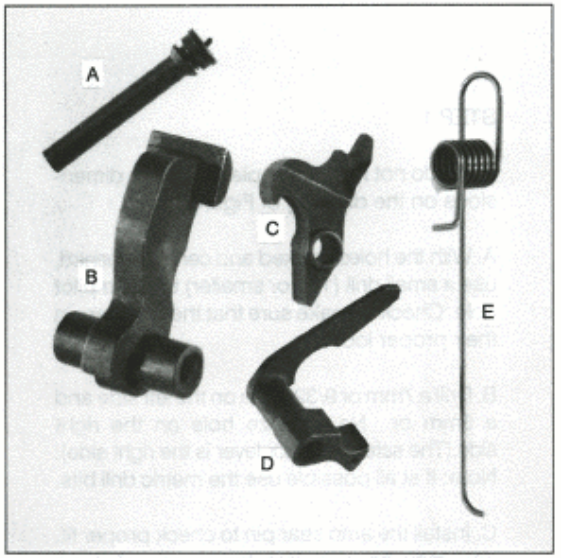

MACHINED RECEIVER

STAMPED RECEIVER

The most common method of conversion is to purchase the required select fire parts kit. This includes the disconnector, hammer, auto sear, auto sear spring and pin. You must also drill the receiver to install the new auto sear. The location of this sear is quite critical and the holes must be drilled exactly in their proper location. One way to do this is to purchase a template and simply follow the instructions provided with it.

FULL AUTO PARTS KIT

B. Hammer
C. Disconnector
D. Auto Sear
E. Spring

STEP 1

If you do not have a template, use the dimensions on the drawing of Figure 1.

A. With the holes marked and center punched, use a small drill (1/8" or smaller) to drill a pilot hole. Check to make sure that the holes are in their proper location.

B. Drill a 7mm or 9/32" hole on the left side and a 5mm or No. 11 size hole on the right side.(The safety/selector lever is the right side). Note: If at all possible use the metric drill bits.

C. Install the auto sear pin to check proper fit. You may have to trim the length of this,it should fit flush or just slightly beyond the receiver on the right side.

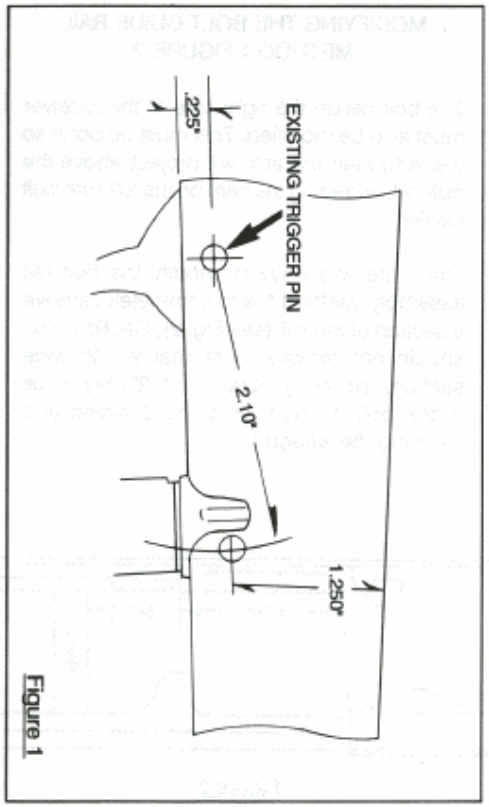

Figure 1

STEP 2

MODIFYING THE BOLT GUIDE RAIL METHOD 1 FIGURE 2

The bolt rail on the right side of the receiver must also be modified. This must be done so the auto sear trip arm will project above the bolt rail, engaging the cam on the full auto bolt carrier.

There are two ways to modify the bolt rail assembly. Method 1 is to completely remove a section of this rail (see Fig. 2). Caution: You should not remove more that a 1/2" wide section, removing more than 1/2" may result in the bolt dropping into this opening and jamming the weapon.

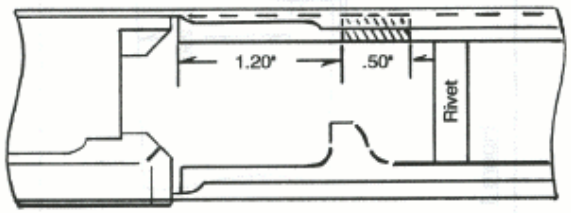

Figure 2

MODIFYING THE BOLT GUIDE RAIL METHOD 2 FIGURE 2A

The second way to accomplish this is to create a slot that the trip lever arm of the auto sear will pass through. This slot method is the best way, but takes a little more work. It also works better on the second conversion method included in this book, as the length of the slot can be made longer to accommodate the altered angle of the auto sear. The length of the slot can be increased to end just above the rivit location, which, is reworked to accept the auto sear.

1. To create this slot you must drill a series of holes with a 1/16" drill. Caution: This must be done slow and easy so you do not break the drill bit or distort the holes.

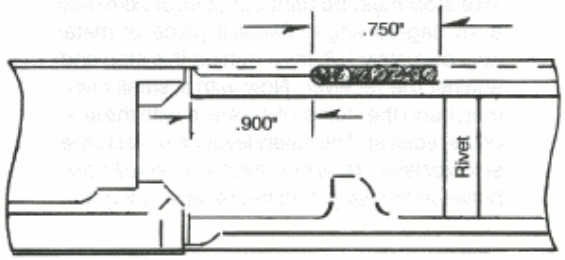

Figure 2-A

2. With a file or dremel tool , remove the metal between the holes (see Fig. 2A). You may find it easier to drill up from the magazine well when drilling these holes.

3. You must also remove the side portion of the rail directly below the series of holes, allowing the auto sear to rest against the inside of the receiver.

STEP 3

REWORKING THE SAFETY LEVER STOP
FIGURE 3

This stop must be bent out at approximately a 45 degree angle. Place a piece of metal approximately 1/8" thick behind this stop and against the receiver. Now with a small hammer, bend the stop so it is parallel with the side of the receiver. The safety lever now is also the selector lever. Now the selector lever will pass between this stop and the receiver (Fig. 3).

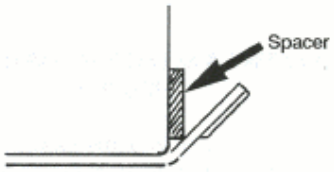

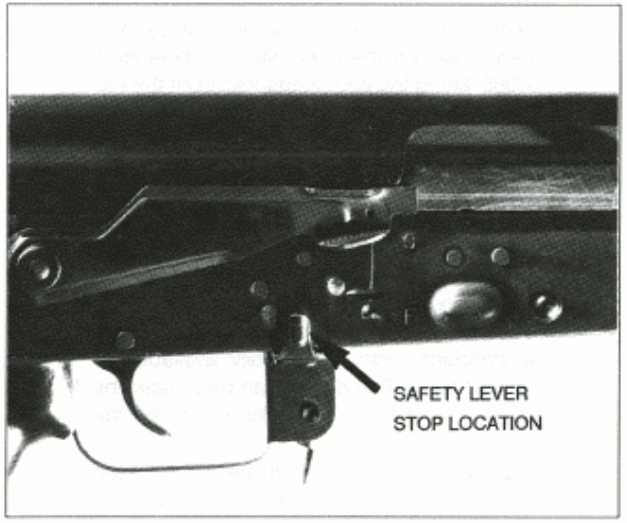

Figure 3

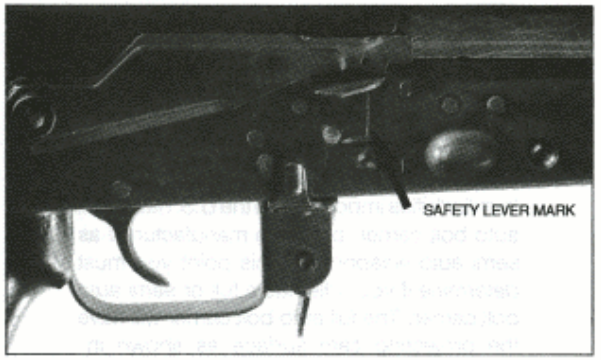

STEP 4

CREATING A SELECTOR LEVER DETENT FIGURE 1

To find the location of the select fire detent, move the safety/selector from the upper most position down to its lowest position passing behind the stop. The safety lever protrusion will automatically create a mark against the receiver, showing its arch of travel. You may need to move the safety lever several times to easily see the mark. Locate the dimension 1.060 along the arch measured from the top of the receiver, as in drawing, Figure 1. The safety/selector lever will now click into a third position which is just below the semi automatic position.

After you have found the location, you must create a detent that the selector lever will set into (on most guns this is an elongated groove). You may wish to duplicate this detent by using a standard rotary file, readily available for dremel tools. This detent can be created by using 1/4" drill bit and drilling just into the metal.
Caution: Do not drill through the metal. For the location of this detent, see Figure 1-A.

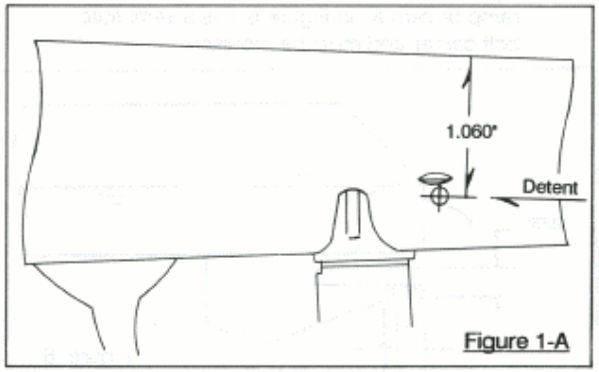

Figure 1-A

STEP 5

FULL AUTO VS. SEMI AUTO BOLT CARRIERS

To complete the conversion, your rifle must have a full auto bolt carrier. Many AK or "similiar" rifles imported into the U.S. have a full auto bolt carrier, but were manufactured as semi auto weapons. At this point you must determine if your rifle has a full or semi auto bolt carrier. The full auto bolt carrier will have the projecting cam surface as shown in Figure 6.

If your bolt carrier does not already have the ramp or cam as in Figure 6, it is a semi auto bolt carrier and must be modified.

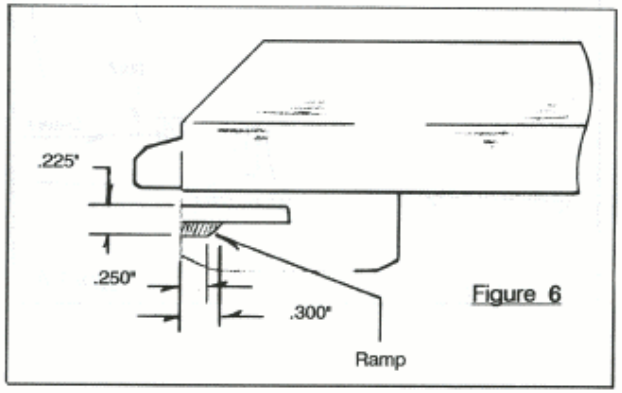

Figure 6

MODIFYING THE SEMI AUTO BOLT CARRIER - METHOD 1 FIGURE 6

The semi auto bolt carrier does not have the auto sear cam surface on the right side, so one must be created. To do this simply build up the surface by welding, which can easily be done with a wire welder. Fill this area in with weld, then grind off the excess.
See Figure 6.

MODIFYING THE SEMI AUTO BOLT CARRIER METHOD 2 FIGURE 6

This cam surface can be created by grinding a seperate piece of hardened steel, which is then placed onto the carrier, as in Figure 6 and silver soldered into place. This method will give you years of trouble free service.

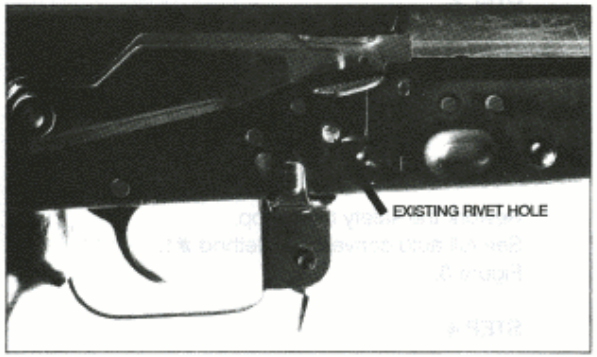

STEP 6
REASSEMBLY

The final step in your conversion to select fire is to reassemble your rifle using the parts provided in the full auto parts kit. Do not reuse the semi auto hammer. Assemble the trigger disconnector assembly.

You are ready to check the timing of the bolt with the movement of the auto sear, which should release the hammer when the bolt is approximately 1/16" to 3/32" from being completely closed. If adjustment is needed, simply add to or remove some of the ramp or cam surface that was added to the bolt carrier in the previous steps.

FULL AUTO CONVERSION METHOD #2

Important!!! This conversion method will not work with a machined receiver. It can only be used with a stamped (sheet metal receiver). You may however, use conversion method #1 on the stamped receiver.

STEP 1

If you are not comfortable drilling new holes in your stamped receiver, there is another way. Rather than drilling a new sear hole, you can use the existing rivet hole on the stamped semi auto receiver located just in front of the hammer. To do this you must first remove the rivet, then enlarge the small rivet holes to accept the new auto sear pin you received in your parts kit. Drill a 7mm or 9/32" hole on the left side and a 5mm or No. 11 size hole on the right side.
Note: If at all possible use the metric drill sizes.

STEP 2

Modify the bolt guide rail.
See full auto conversion method #1.
Method 2 Figure 2 A.

STEP 3

Rework the safety lever stop.
See full auto conversion Method #1.
Figure 3.

STEP 4

Create a selector lever detent.
See full auto conversion Method #1.
Figure 1.

STEP 5

CUTTING AND RELOCATING THE AUTO SEAR FIGURE 4, ITEM 1& 2

Now the tricky part of this conversion method. The auto sear must be cut and relocated as shown in Figure 4, Item 1 & 2. The auto sear must be cut in half along the inside edge of part A, Figure 4, item 3, so that Part A can be flipped over or reversed so that the spring hole is now on top.

Next cut off the lower portion of Part A as shown in Figure 4, Item 2, leaving approximately .200" height on the sear face that connects with the hammer.

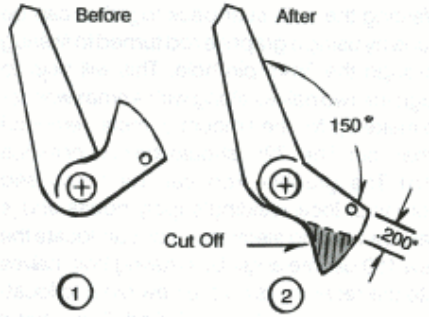

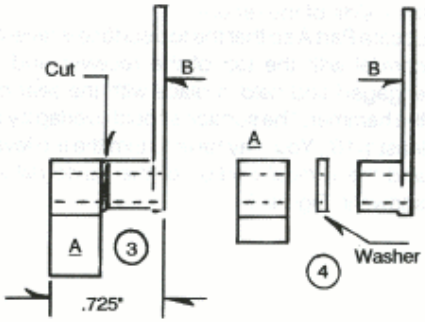

Figure 4

WELDING THE AUTO SEAR BACK TOGETHER FIGURE 4 ITEM 3 & 4

Welding the auto sear back together can be done by using a graphite rod turned to fit snug through the 5mm pin hole. This will help to align the two halves along with a small washer to make up for the amount of metal removed when cut. The .725" should be plus or minus .010".The graphite rod can be purchased from your local welding supply house and is called a welding electrode. You can locate the new 150 degree angle by installing both halves into the receiver using the new pin and locating the trip lever, Figure 5, Part B, so that it rests against the top rail of the receiver. The trip lever must pass through the slot that was cut out of the guide rail and must rest against the inside of the receiver.

Locate Part A so that the top surface is level or parallel with the top of the receiver and is engaged and held in place with the sear on the hammer. The surface should overlap by at least 1/16". You may have to trim the trip lever and the vertical portion of the guide rail as shown in Figure 5.

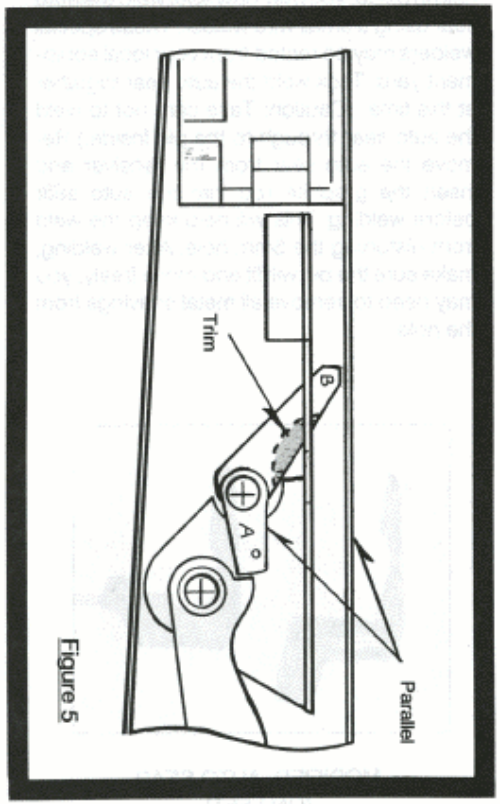

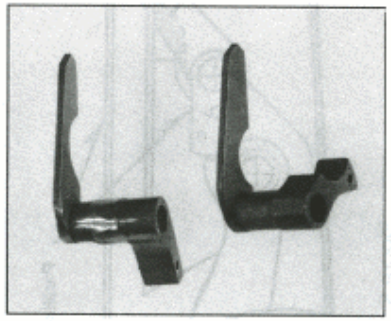

Figure 5

After making sure everything is aligned and held in place, you may now spot weld the auto sear using a small wire welder. These special welders may be rented from your local equipment yard. Tack weld the auto sear together at this time. (Caution: Take care not to weld the auto sear through to the pin inside.) Remove the auto sear from the receiver and insert the graphite rod into the auto sear before welding. This will help keep the weld from distorting the 5mm hole. After welding, make sure the pin will fit and move freely, you may need to remove all metal shavings from the hole.

MODIFIED AUTO SEAR
(ON LEFT)

STEP 6

REASSEMBLY

You are now ready to reassemble and check for proper alignment. Install the auto sear along with the spring and insert the pin. Replace the bolt and carrier into the receiver and check for proper movement. With the bolt closed, check to see if the hammer sear will clear and move under the auto sear. If this does not occur, remove the auto sear and grind just a little more off the bottom of Part A, Figure 5. You may have to do this several times until the hammer just passes under the auto sear when the bolt is closed.

STEP 7

TIMING THE BOLT WITH THE AUTO SEAR

The final step. Time the bolt with the movement of the auto sear, which should release the hammer when the bolt is approximately 1/16" to 3/32" from being completely closed.

This should be accomplished by grinding off just the front corner of the semi auto bolt carrier, Figure 6 A.
Caution: Be very careful not to remove too much.

You are now ready to test fire and put your weapon to work.

The AK47: Full Auto Conversion for Dummies

By Royi "Uncle Ro" Eltink

An AK47 and his happy owner

Preamble

The AK47 has an long and infamous history, as the world's bestseller on the gun market, it has seen every conflict since its introduction in 1947. It is cheap, easy to manufacture and maintain and anyone who can hold a rifle and pull a trigger can be an expert on this weapon in an half hour.
Of course, every respectable nation on this planet has build one or two versions of the Russian rifle, famous are the Chinese, German, Finnish (Valmet), Israeli (Galil), South-African and the Dutch…..and many more I did not mention.

Let's begin with an wishlist

Of course, you cant just read this thing and finish reading and ending up with an full auto AK.. You have to get you're hands on a couple of things first.
You need the normal civil, sports, version of the AK47 or an AKM. Further you might want to have:

- Proper license for all these things, and the thing you are going to build
- Full auto parts set, I will point out how to make an template to fit these in.
- Full auto bolt carrier in those models who don't have one.

Proper license

In most civilized countries, there are numerous laws for these things. Mostly with an big no-no. If this occurs, you could do two things: 1) throw this paper away because it is no use for you. 2) read this paper, but don't do anything with this information.
Of course, I will advice number 2. But number 1 is not too painful either.

Full Auto parts

When you finally have your license and stuff, you could search for full auto parts.

Since there are a lot of AK versions out there, I will only mention the AK47 in 7.62 x 39.
The .223 or .308 Remingtons or even 8mm Mauser fall a bit out of the scope, but since most versions look a like, most of this paper could also apply for your Galil, DMN1 or even Valmet.
From *AK47_parts.gif* we simply need nr43 (hammer), 39 (disconnector), 45 (full-auto sear) and 48 (full-auto sear spring).

Installation of the parts

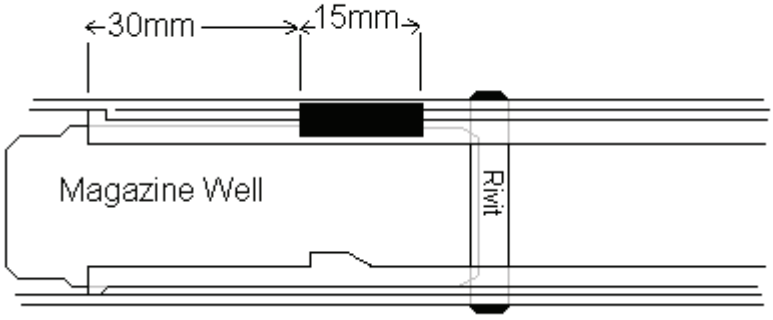

Sample of an AK47 template

1: Hole to span the reinforcing rivet in guns wich have this rivet. It only allows the template to lay flat on the receiver.
2: Automatic sear axis pin holes
3: Hammer axis pin hole
4: Trigger axis pin hole

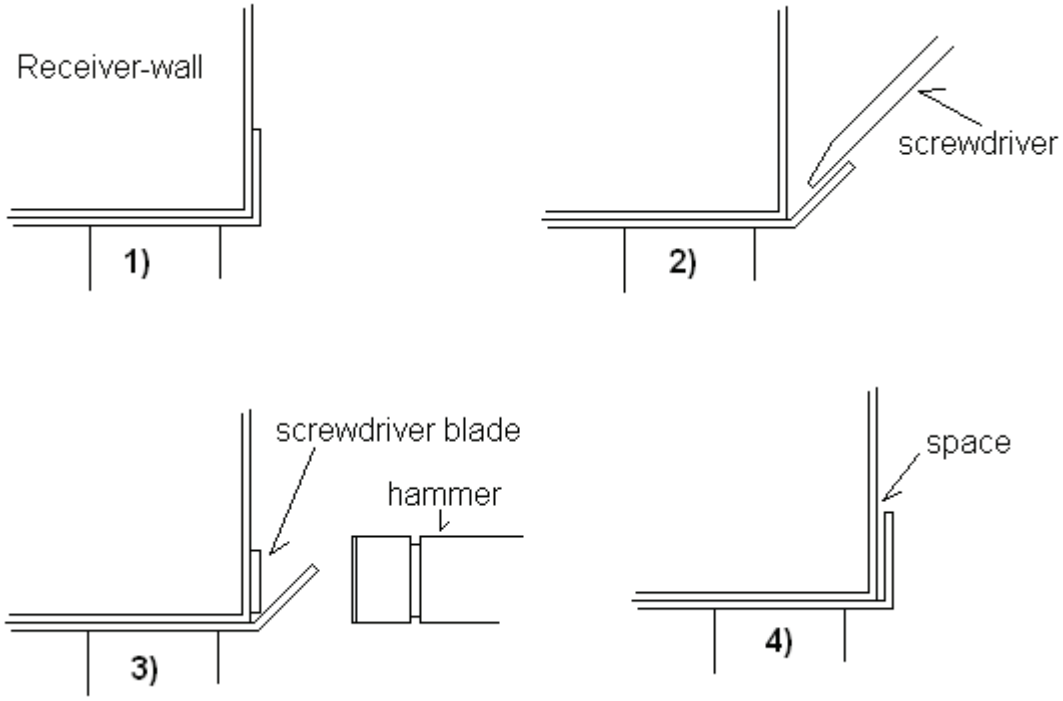

Of course, this picture is not entirely correct, I suggest you to buy an metal template and drill and spotter set. Let's install this thing. At first we drill a 7mm hole on the left side of the receiver. On the right side we drill a 5mm hole. I don't have to mention that you are really taking an 5mm and 7mm drill, and that you punch the holes first to prevent them from taking a walk.
Of course, you disassembled the receiver already so you could secure the template on the left side, by placing the axis pins in the holes marked 3 and 4. Using a scribe mark a circle in the hole marked 2. After doing this, remove the template and the slave pins, and place the template on the opposite side of the receiver. Scribe the 2 hole as before and center-punch it. Then we drill the left side of the receiver with the larger of the two drill bits. We drill the right side of the receiver with the smaller of the two bits.
Then you take your template and place it very, very carefully on a table, we don't need it for the time being.

Then we go concentrate on the slotting of the bolt carrier guide rail of the receiver wall.
If you look down in your disassembled AK, and you have the muzzle on the left you will see the following:

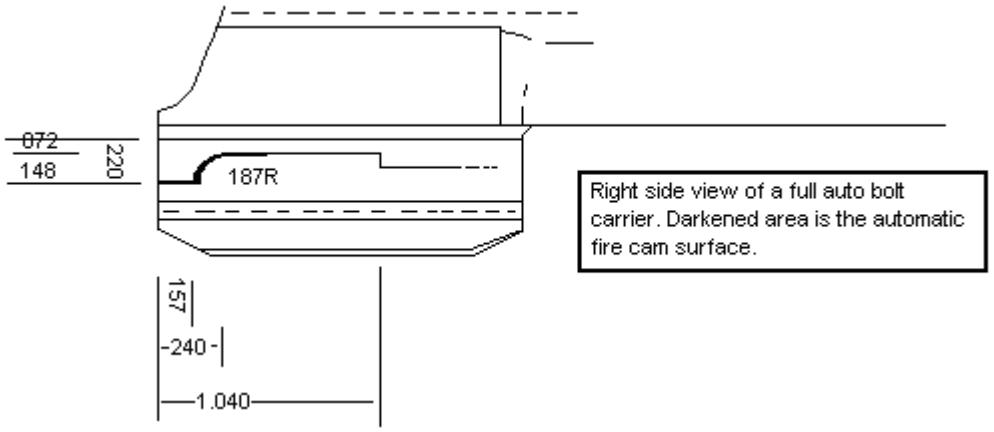

The dark area is where you will remove metal from the bolt carrier guide rail. This is for the trip arm of the automatic sear wich will project above the rail and engage a cam on the bolt carrier to produce automatic fire when the selector level is placed in the middle position. It is neater to slot it rather than cut it. You can do this by drilling a series of 1/16" holes next to the receiver wall. Then you will cut out the web between them using a Swiss file.

Depending on the maker if your rifle, there may be an restrictor on the right side of the receiver. This is mostly an stupid piece of folded metal above the magazine handle that prevents the selector from going in the lowest position. This can be simply cut of so that the selector lever can pass behind it, as you see in the picture:

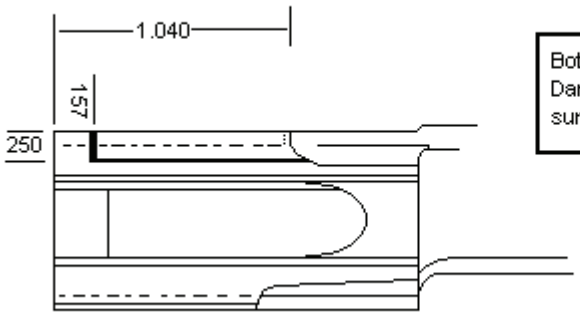

After that you changed the restrictor device, you may wish to make an detent for the selector lever to move into. This could be made with a light mill cut, make sure you don't cut through the receiver wall! It could be made with a light ¼" drill, don't forget to not drill through, or simply cold punched using an aluminium or wood backing block inside the receiver. The location for the detent is under the existing detent, at the height of axis hole nr. 2 (see template).

If you don't have an "full auto" bolt carrier, you can buy one, or make one. There is a difference between the semi-auto carrier and the full-auto version, take a look:

Right side view of a full auto bolt carrier. Darkened area is the automatic fire cam surface.

Bottom view of a full auto bolt carrier. Darkened area is the automatic fire cam surface.

The difference is the automatic sear trip cam. This cam is a small projecting surface as you see above. As you probably figured, an semi-auto rifle does not have this cam.
The illustration above give you an dimension of the cam so that an welder might be able to make a build up on your semi-auto cam and an machinist to mill it to the dimensions.
If you don't have access to a machine shop, you could jolly well just buy an full-auto carrier. But you may want to take a look at the following list:

- All Galil .223 rifles gave a semi-auto carrier.
- Almost all Valmet rifles have a full-auto carrier.
- All MAADI rifles have a full-auto carrier.
- All Hungarian have a full-auto carrier.
- All Yugoslave rifles have a semi-auto bolt carrier.
- All Chinese rifles have a semi-auto carrier.
- All South-African rifles have a full-auto carrier.
- All Galil .308 rifles cannot be converted using the AK47 full-auto replacement part sets.

Long live standardization ;-D.

Then you are ready for reassembly. First install the automatic sear and sear spring in the receiver by inserting the axis pin through these parts. Next using the famous "AK47 slave pin™" assemble the trigger, disconnector and disconnector spring. Drop this assembly into the receiver and raise the automatic sear spring above the trigger axis pin hole and insert the trigger axis pin (this ejects the AK47 slave pin). Finally assemble the full auto hammer and hammer spring and insert them into the receiver. Use a screw driver to depress the automatic sear spring below the hammer axis pin hole. Now insert the hammer axis pin. Hook the tail end loops of the hammer spring over each side of the trigger, yes, you might want to wish for 3 hands with 7 fingers on each for this job, but actually, it is relatively easy, just try to find the right routine. Now you have an completely assembled full-auto lower receiver. The automatic sear spring retains all of the axis pins in the receiver.

After reassembly, you now have a select fire rifle. When the selector is placed in the upper position, the rifle is on safe, when it is placed in the lower position, it is semi-auto and the middle position is the full-auto rock&roll configuration.
Play save and legal!

Note on compatibility

Mostly all AK clone parts are interchangeable, exept the Galil .308 and the .223 Galil. Further, all AK47 parts can be placed in an .223 Galil except the gas piston, the gas tube and some stock parts and the selector lever.
If you have an Galil .308 this paper mostly wont apply, you need special .308 parts for that. Then it is nice to have some family in Israel ;-D.
Certain AKM rifles have a complex trigger-hammer mechanism mostly referred to as a “rate retarder” trigger. This is actually some kind of anti-bounce device for the light AKM receiver. If you have one of these devices you must have a trigger assembly, disconnect and hammer for it to function with the rest of the full auto parts. If you have all these parts, they might (tests showed that they actually work, but you never know sure) work in the full-auto conversion as just described. If you live in the US, you will notice that these are rare items.

A word of thanks to:

The CIA and the US Army for writing wonderful books on “how to build a rifle / silencer / machinegun from scratch” and many many more, wich gave me inspiration for this work.
