RETURNED TO SCPRC	10/09/2023	PARTIAL IMPLEMENTATION		DENIED	

## SCPRC RECOMMENDATION

Additional data should be collected.

Changes to Existing Policy(s): Data should be collected to provide transparent reporting of how many calls dealt with mental health crisis and the follow-up that happened.

## SCPRC RECOMMENDATION RATIONALE

Data collection can help track what investments and programs are being successful or not working and help inform policy changes.

## SPD RESPONSE

SPD tracks the number of mental health related calls for service and publishes those statistics as party of the Monthly Chief's Report, available at <https://www.cityofsacramento.org/Police/Crime/Crime-Statistics>.

The total number of mental health related calls for service are:

- 2019: 12,469
- 2020: 13,374
- 2021: 13,589
- 2022: 12,126

Because mental health related calls for service conclude in various ways (civil, criminal, medical, and provider referrals), SPD cannot capture or produce private and confidential data (CLETS and HIPAA).
