## SCPRC RECOMMENDATION

D. INSPECTOR GENERAL: Inspector General (IG) position should be independent of OPSA supervision (shared reco w/ internal working group),

- i. E.g., The IG should be a separate entity from OPSA that reports directly to the Mayor and City Council. In other words, the IG should not be under the supervision of the director of the OPSA. It should have complete autonomy to conduct its investigations and prepare its reports and recommendations. It should consult with the director of OPSA, if necessary, but the factual determinations, if any, and the proposed recommendations should be the conclusions of the IG.
