City Council approved a contract in September 2019 to contract with Lexipol based on the following:

- To support SPD with policy development and management while adding a web-based training component to ensure that employees understand the policy changes and applicable legal requirements.
- To help ensure that the SPD's policies are current and compliant with state and federal legislative and legal requirements.
- Alternative to adding additional full-time staff to the SPD's Professional Standards Unit to perform these functions.

Since December 2022, SPD has only utilized Lexipol for legal updates. All policies are drafted and revised by SPD employees and reviewed by the City Attorney's Office prior to implementation. The cost for Lexipol services is \$10,000 annually.
