Safe Place Program

The safe place program, established in 2015, was designed to support victims of hate crimes and student bullying. The Sacramento Police Department is now extending the opportunity for local businesses to partner with law enforcement in creating safe spaces where victims feel empowered to report crimes.

Responsibilities

The requirements to become a volunteer are straightforward, quick, and free. As a participant, you are responsible for training and educating your employees and staff to:

- **If a victim of a Hate/Bias crime enters your premises, call 911 immediately.**
- **Allow the victim to remain on your premises until the police arrive.**

Partner with the Sacramento Police to make your business a safe place where victims can get help and report a crime.
