

About the Project

About the Project

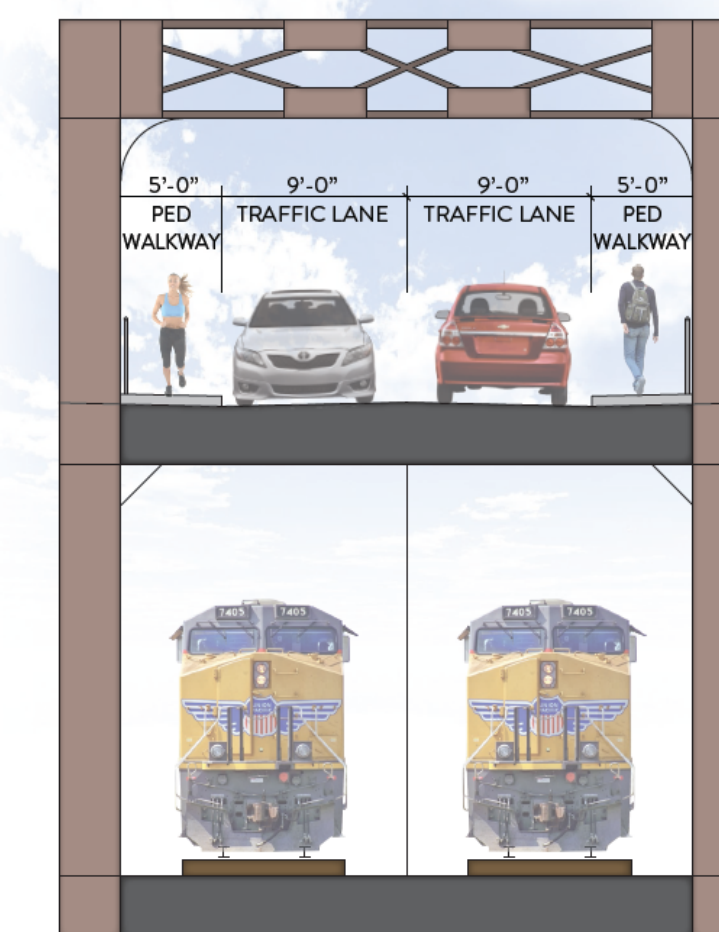

The new I Street Bridge will be a multipurpose civic icon that offers a seamless extension of both sides of the river and reflects the values and characteristics of its surrounding community.

Project Goals

Below are the six goals the cities have identified for the new I Street Bridge.
Place a sticker by the two goals which speak to you the most.

**Increase economic
development**

Reduce vehicle delays

**Improve potential for urban
planned development**

**Make walking and bicycling
across the River easier**

Increase riverfront access

**Improve travel safety and
emergency access**

**Is there a project goal you
think is missing? Tell us!**

What do you anticipate to be your common mode of travel across the bridge?

Walk / Jog

Leisurely bike / scooter

Commuter bike / scooter

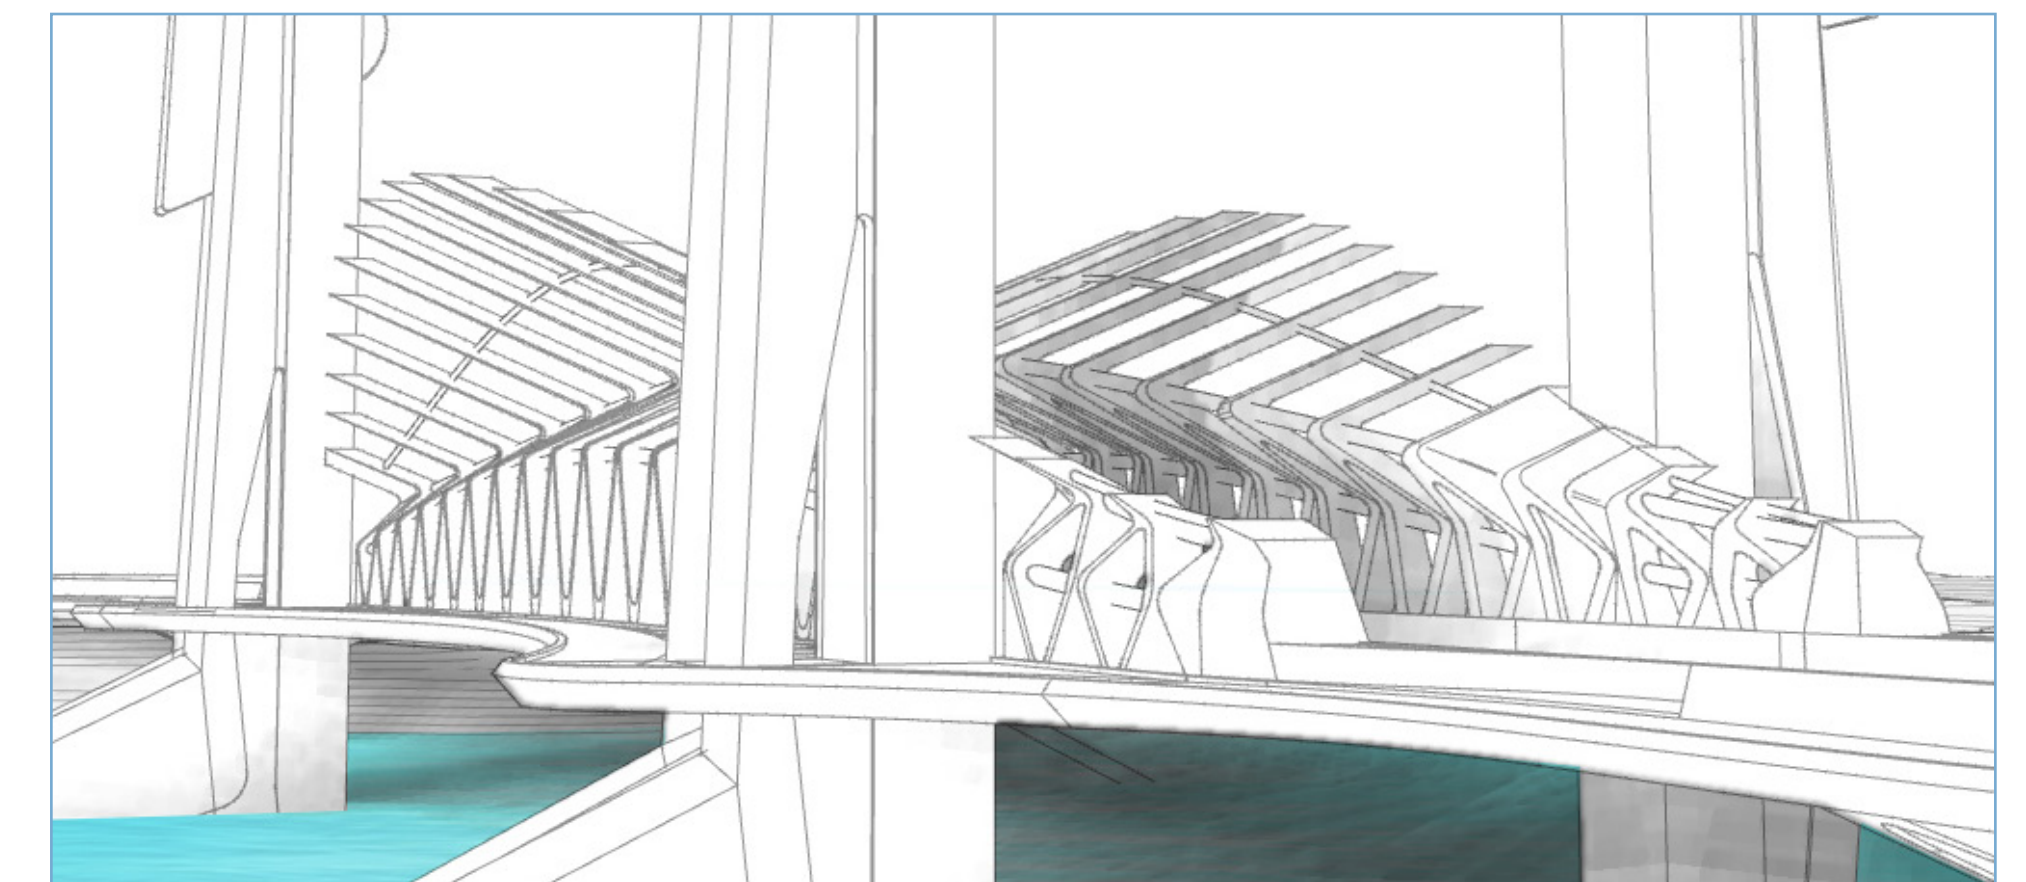

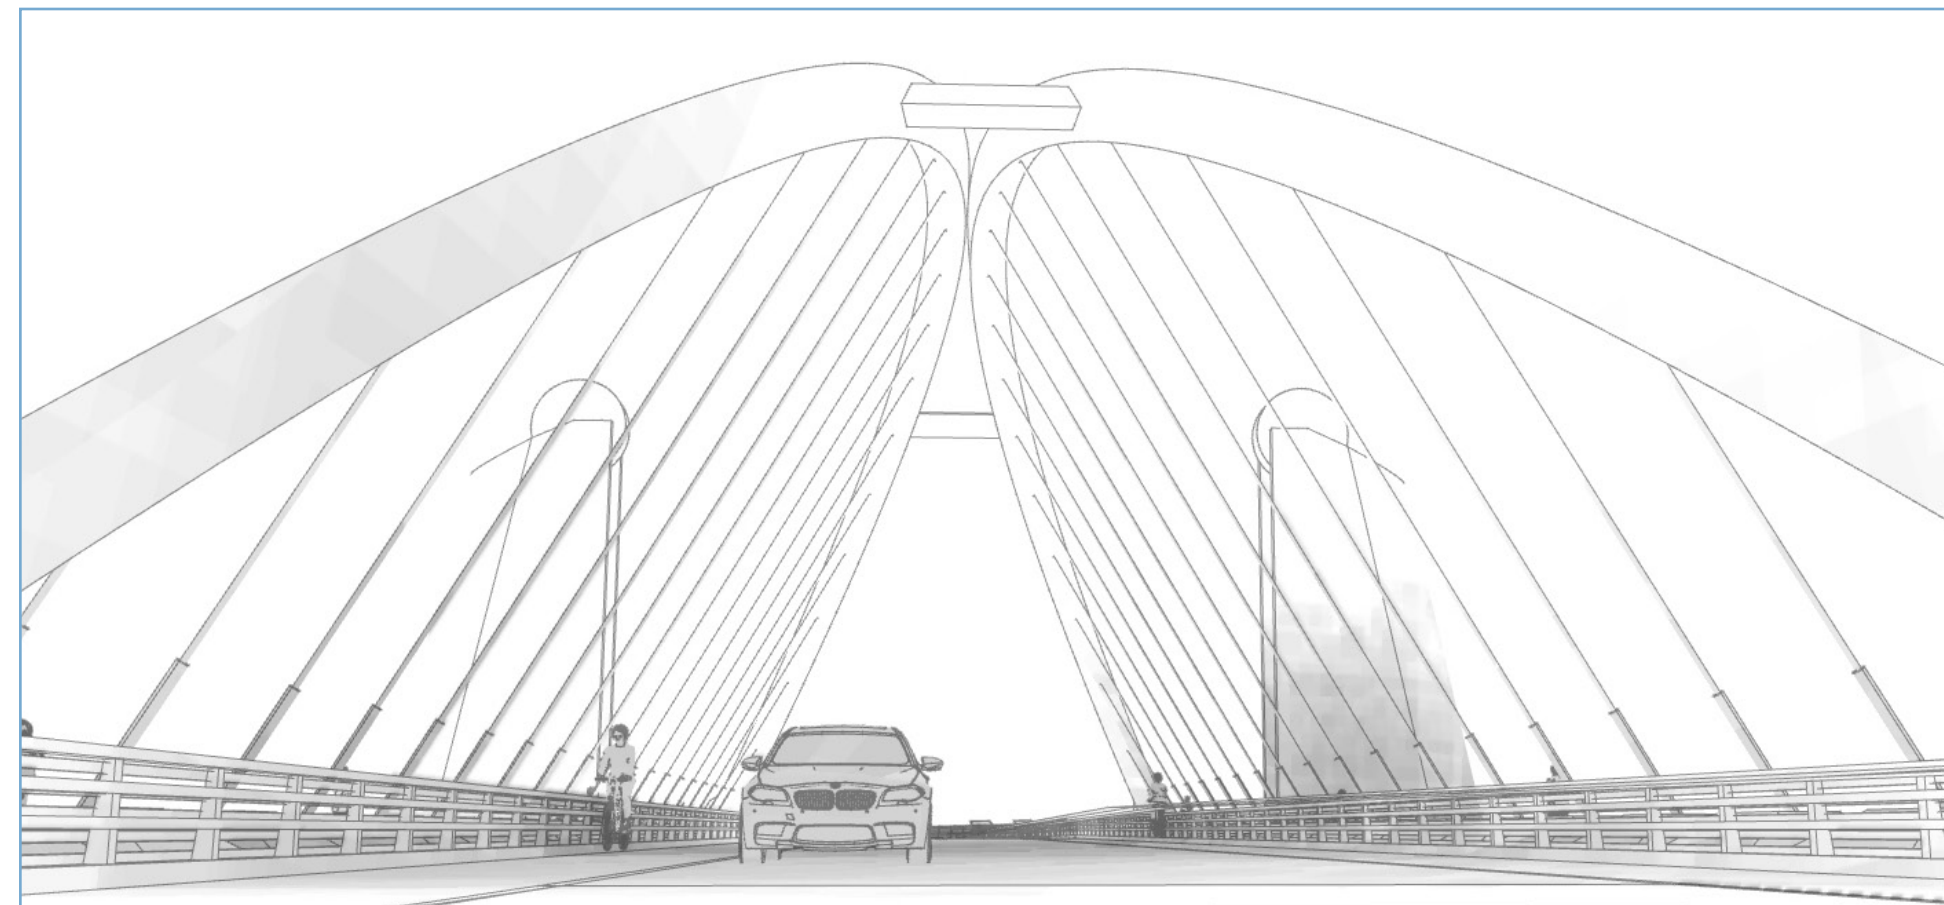

Vehicle

Community Values

What overall design style do you prefer?

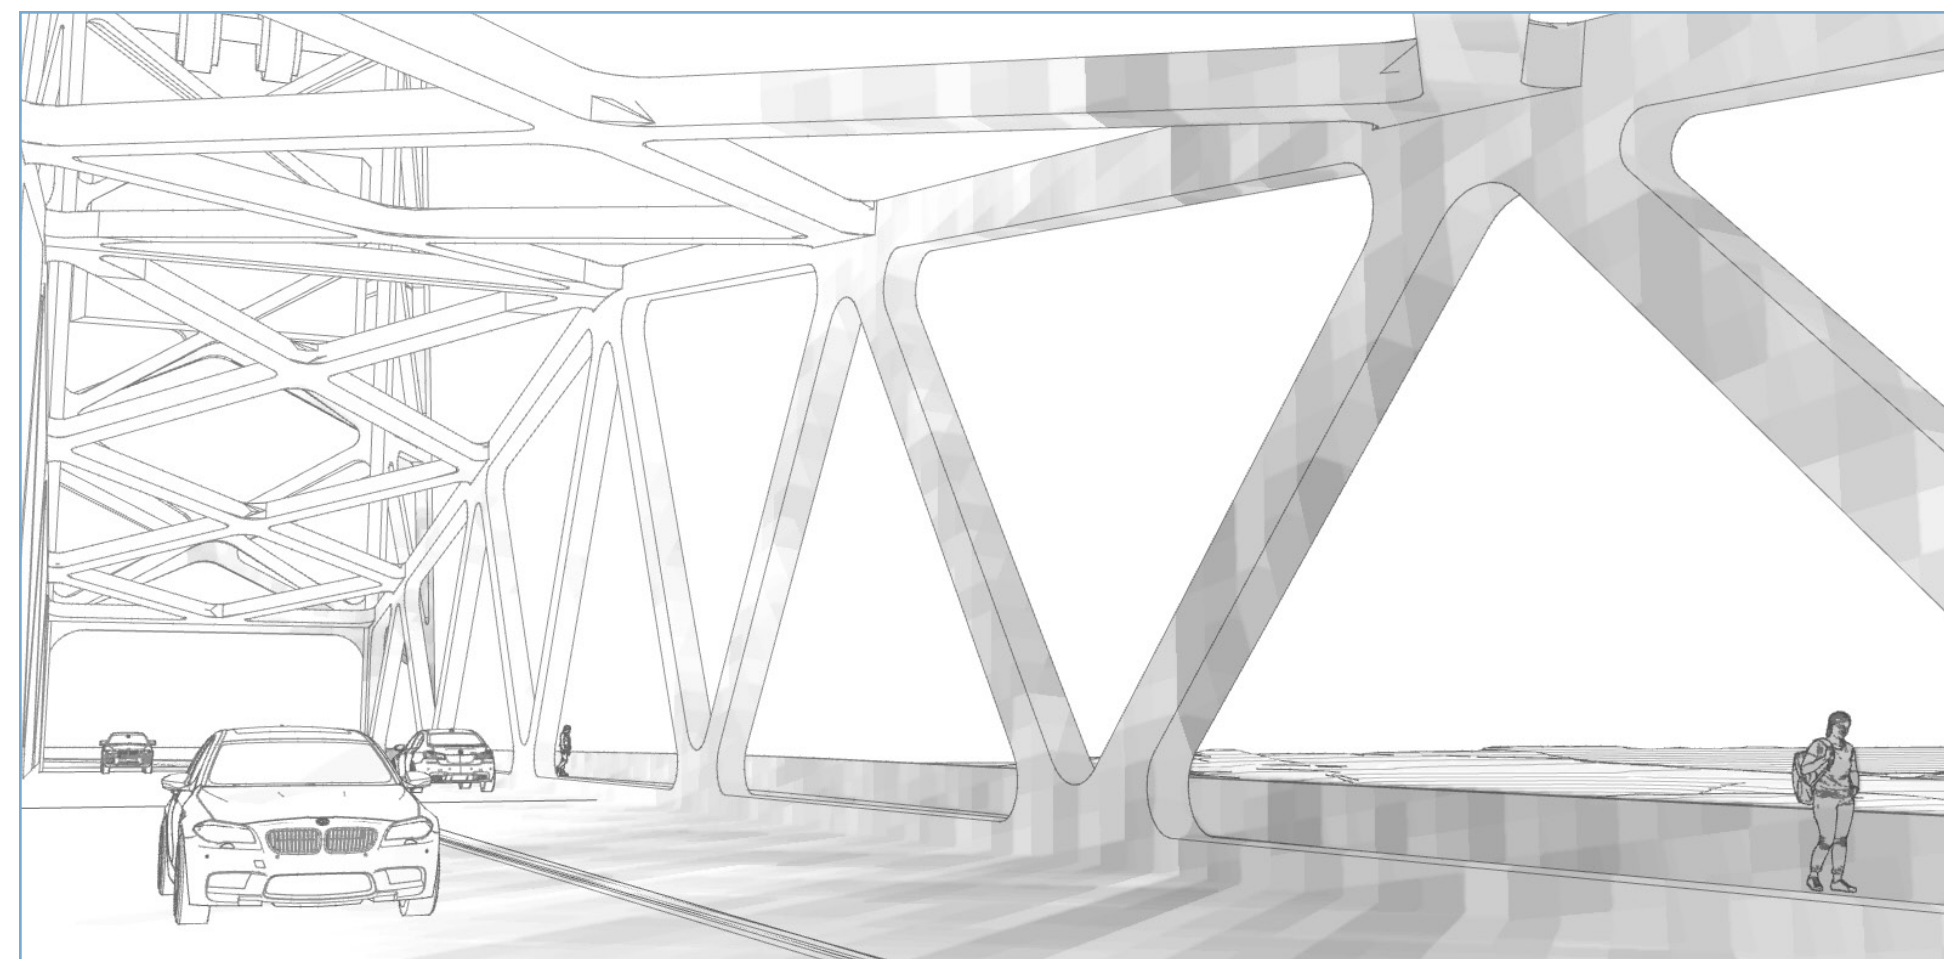

Simple and Streamlined

Elaborate and Spirited

How do you envision your main use of the bridge?

Quick travel

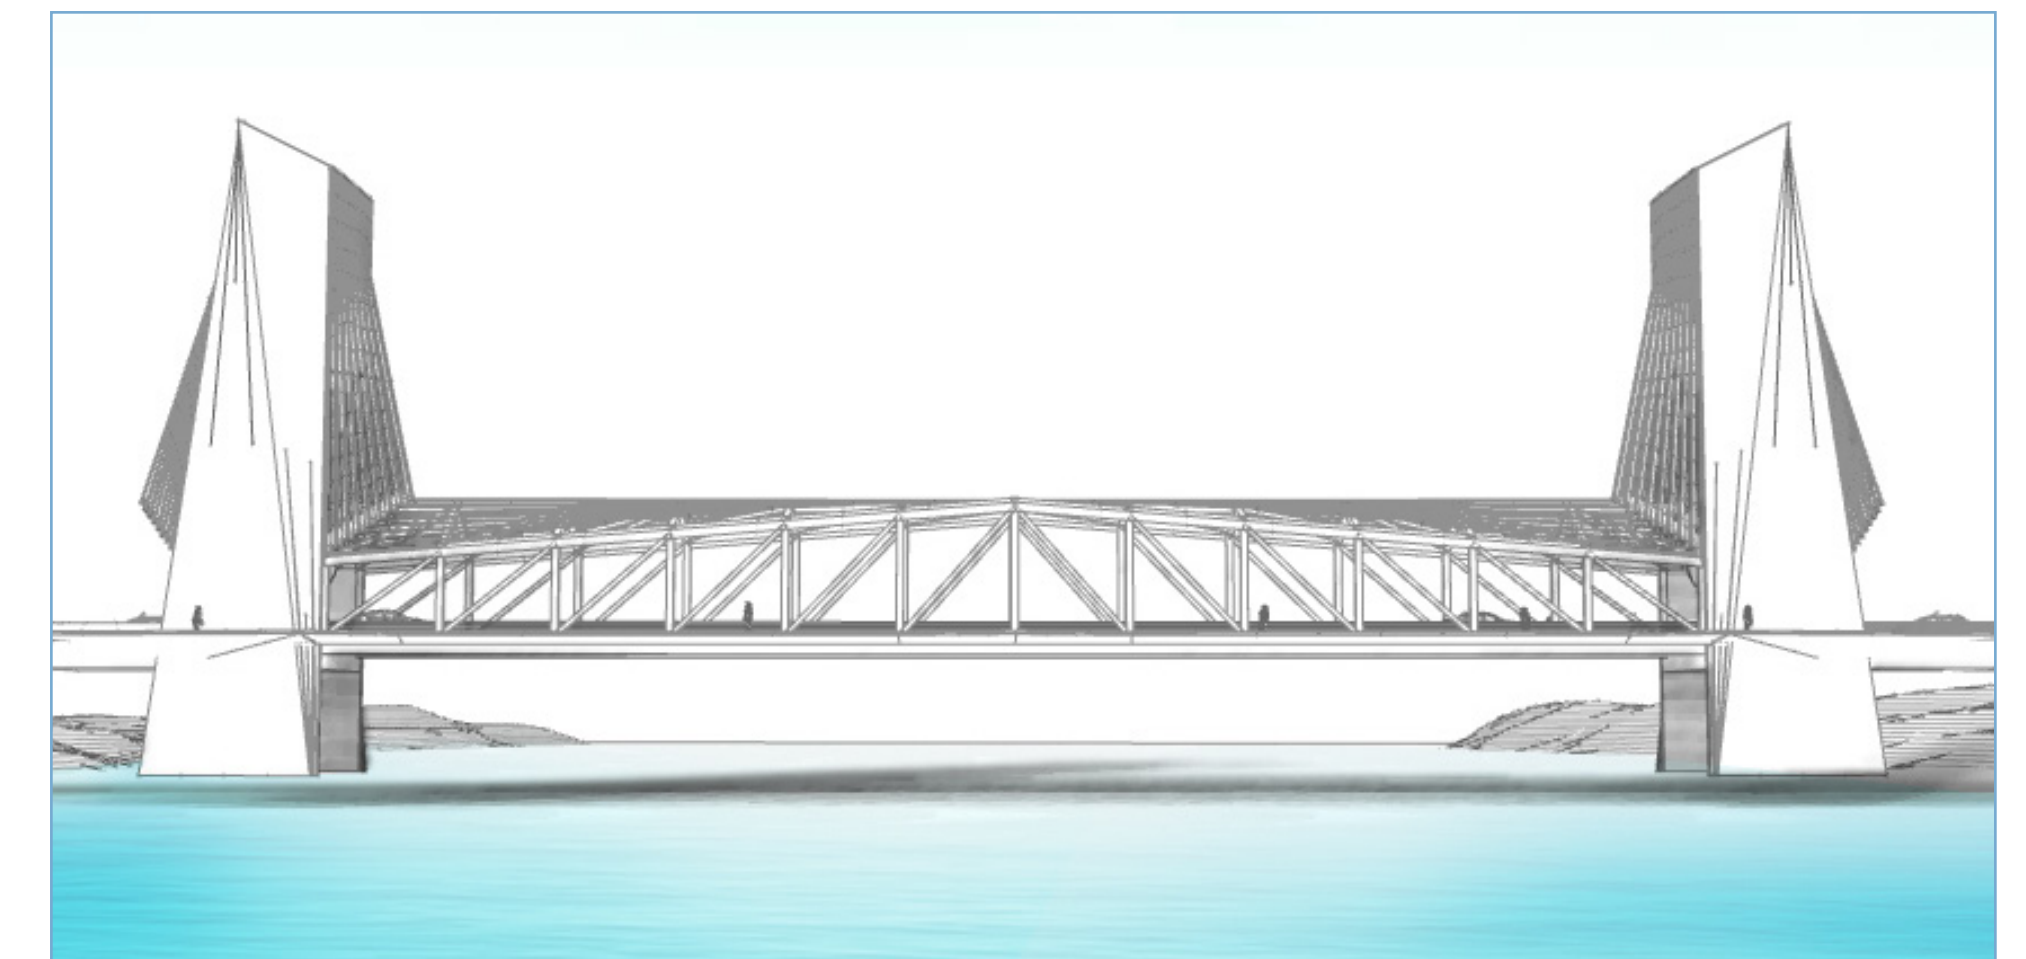

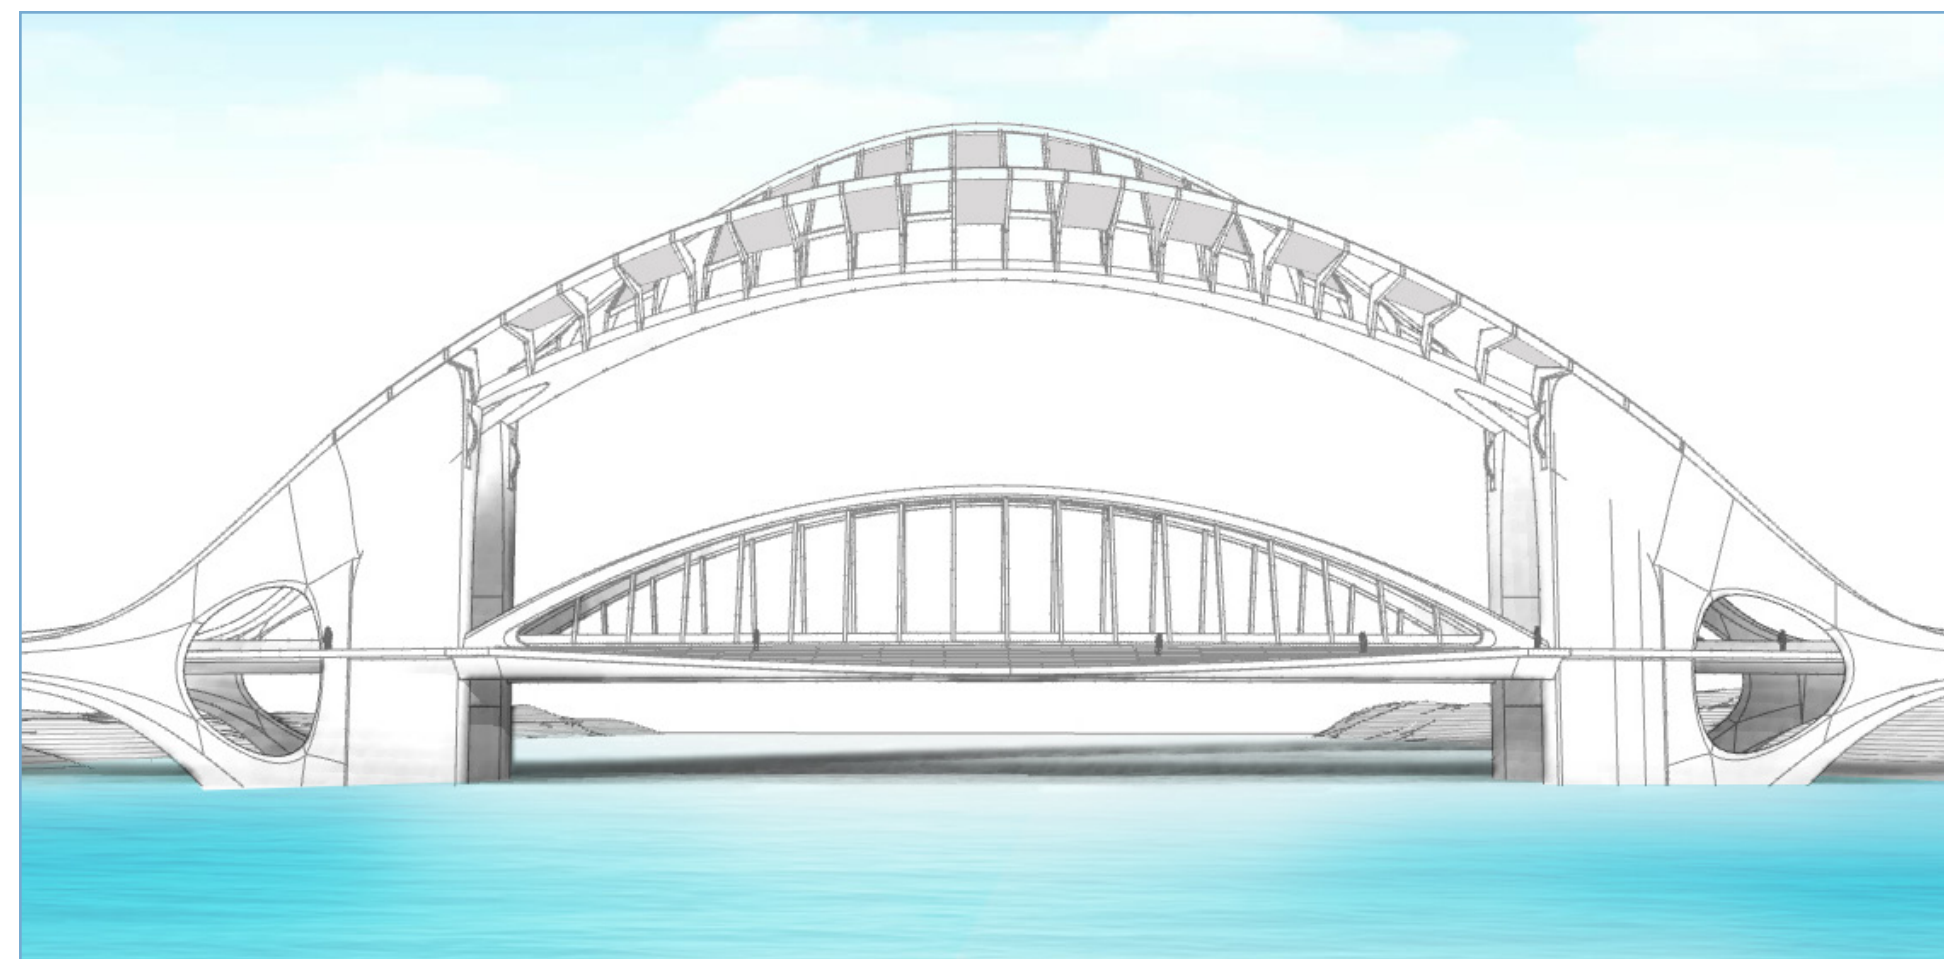

moving directly across the river

Slow travel

taking time to stop and look at the river scenery

When seen from the surrounding area, what type of design do you want to see?

Highly Visible
and Stands Out

Understated
and Blends In

How important is it that the bridge uses and / or shows sustainable principles?

Not Important
not a priority

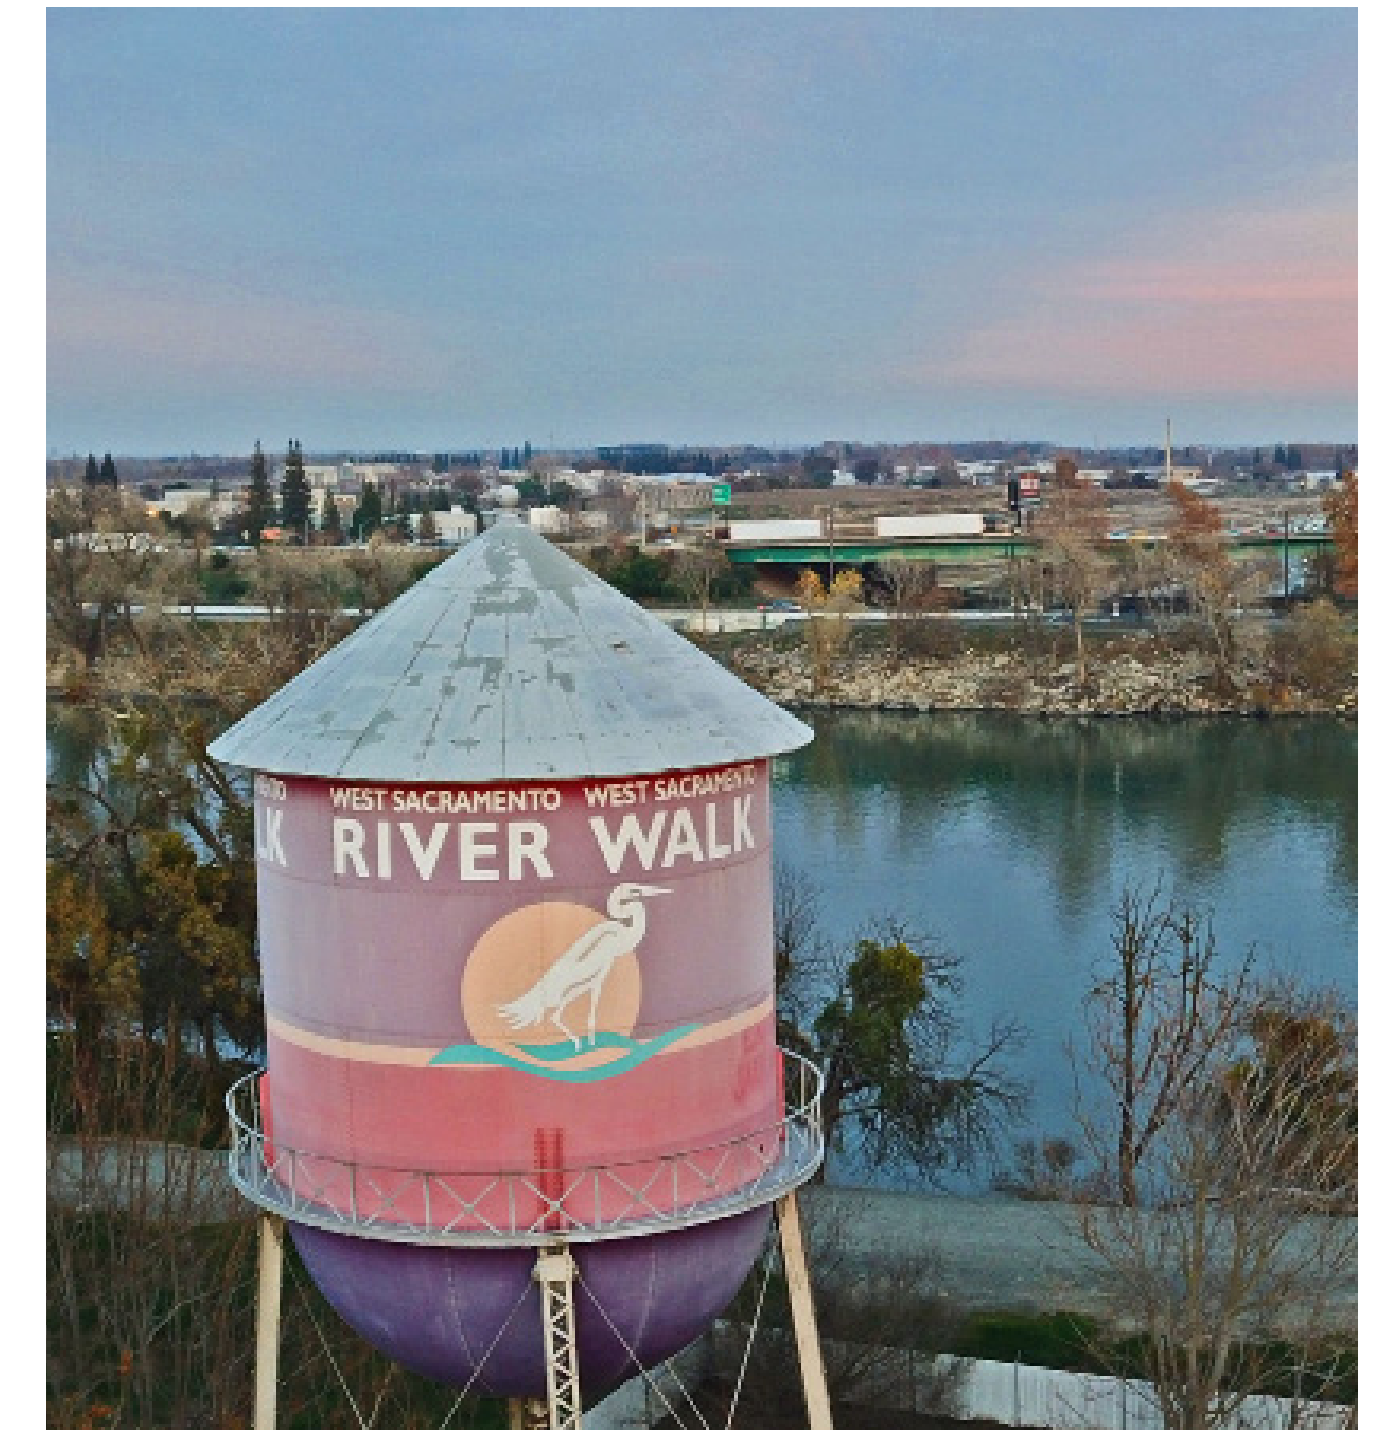

Very Important
use sustainable materials and alternative
energy technologies where possible

Contextual Inspiration

Contextual Inspiration

Select 1-2 images that the bridge design should draw inspiration from, and tell us what you like about them.
