

# COMMUNITY WORKSHOP

Thursday, March 28  
5:00 - 6:30 p.m.

At 5:30 p.m., Noel Shamble, Lead Architect, will give a short presentation.  
Arrive at 5:00 p.m. for an open house.

**Stanford Gallery**

111 I Street, Old Sacramento

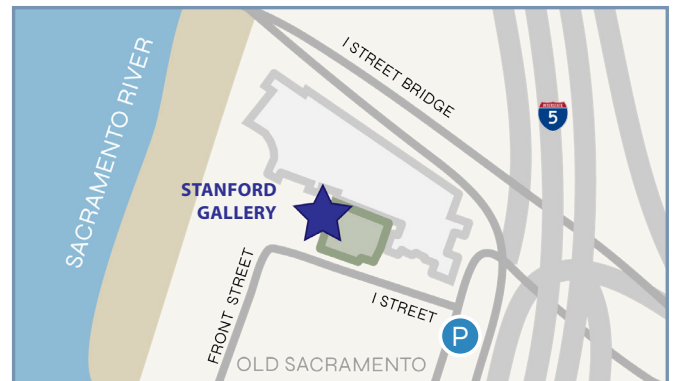

RSVP: [www.ibridgemeeting.eventbrite.com](http://www.ibridgemeeting.eventbrite.com)

*RSVPs are requested, but not required.*

Join us at the first community workshop to discuss bridge design options for the I Street Bridge Replacement Project. This workshop will feature a short presentation by the lead architect and information stations with early possible concepts, ideas for bridge amenities, and other important considerations.

Share your ideas on how to make this bridge a truly iconic structure for both cities and give us your feedback on the early concepts. The project team will also be available to answer any of your questions.

meeting location 111 I Street

## About the Project:

In October 2018, T.Y. Lin International was selected to join the Mark Thomas and Company project team to provide the architectural design for the I Street Bridge Replacement project.

The new bridge will cross the Sacramento River between the Sacramento Railyards and the West Sacramento Washington neighborhood and provide a new automobile, bicycle, transit, and pedestrian crossing.
