

YOUR GUIDE TO CITY SERVICES

2026-2027

RECYCLE WEEK

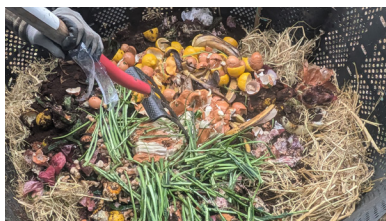

YOUR ORGANIC WASTE IN ACTION!

The City of Sacramento recycles your food waste! Please keep your food scraps out of the garbage and put them in your organic waste container (formerly the yard waste container). Keeping food waste out of the landfill can help improve local air quality while creating a valuable soil amendment: compost.

Compost is an excellent way to provide essential nutrients for vegetables, flowers, and fruit trees and can reduce or eliminate the need for chemical fertilizers. Using compost can also reduce water use and help improve soil health. The City of Sacramento is giving away free certified organic compost to residents. The goal of the giveaway program is to provide a free, high-quality soil amendment to City residents, while complying with regulations required by California State Senate Bill 1383.

Find out how to get free compost (and tips on how to make your own compost) at sacrecycle.org.

Learn how to get your free compost and how to use it here!

DID YOU KNOW MIXED MATERIALS CAN NOW BE RECYCLED IN THE BLUE BIN?

Please take the time to review this guide, as changes in recycling technology may affect the materials the facility is able to accept. Coated paper items such as juice boxes and milk cartons that have multiple layers of different materials stuck together can now go in the blue recycling bin.

GENERAL COLLECTION GUIDELINES

The City of Sacramento provides reliable and consistent curbside collection of garbage, organic waste and recycling for residential properties. Please follow the below guidelines when placing your containers out for collection:

- **Avoid overstacking** and make sure lids are completely closed
- **Crush and flatten** materials for more space
- **Place containers out by 6 a.m.** on your collection day
- **Place containers three feet apart** and away from any obstructions (cars, boats, basketball hoops, etc.) if possible
- **Avoid contaminating** recycling and organic waste with garbage
- **Please do not bag recyclables**, keep them loose in the bin
- **Keep containers away from storm drains** and out of bike lanes whenever possible
- **Containers should be out for service no earlier than 12 hours before** your collection day and should be returned to the storage area on your property within 12 hours of collection

DOWNTOWN/MIDTOWN: Whenever possible, residents in the City Services restricted parking zones should place containers on the curb and not in the street or gutter.

HOW TO REPAIR OR REPLACE YOUR CONTAINER

If your container is missing a lid, is cracked, or has a broken wheel, go to sac311.org to order a free repair or replacement.

- **Storage locations must be within or behind a structure**, building, fence, landscaping or other barrier that substantially screens the containers from the street or public right-of-way. Storage of containers immediately adjacent to a residential building, even if in view, is acceptable placement.
- **The City will alert customers who are not following collection guidelines.** Service may be interrupted or a larger/additional container – with an accompanying higher rate – may be mandated for addresses that continually overstack or contaminate their containers.
- **Regular collection** occurs on **holidays**.

RECYCLING SERVICES

Not sure if something can be recycled?
Check our SacRecycle smart phone
app or use the **Waste Wizard** at
sacrecycle.org, which will have the
most up-to-date information.

Waste Wizard
RECYCLE WISE. SORT SMART.

All California Redemption Value (CRV) containers accepted

GLASS

- Bottles and jars
- Labels OK
- All colors
- Lids removed
- Rinsed and empty

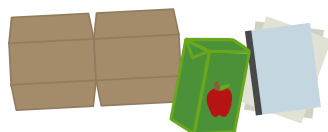

PLASTIC

- Plastics 1-7  including:
 - Take-out containers
 - Soda bottles, milk jugs, shampoo bottles, etc. (keep lids on)
 - Buckets, pails and crates
 - Laundry baskets

PAPER

- Clean cardboard (must be broken down flat, tape can stay on)
- Cereal boxes
- NEW! Coated paper, including juice boxes, milk cartons, coffee and soda cups, etc.
- Magazines and catalogs
- Paper bags
- Paper packaging
- Junk mail
- Books (soft covers, phone books)
- Office paper (all colors)

METAL

- Aluminum and tin cans
- Aluminum trays and foil (rinsed)
- Empty aerosol cans
- Pots, pans and utensils
- Lids from jars

TIPS FOR SMART RECYCLING

Start With Your Home

Set up your household to make recycling easy. Keep recycling containers in strategic locations in your house. It is easier to place recyclables in a separate container than it is to rummage through the trash later to separate everything.

Need a Reminder of What Goes Where?

We have downloadable signs available on our website to make it easier to sort smart.

Play the Waste Sorting Game: Test your knowledge on proper sorting. Challenge your entire family and earn a certificate. Find the game at sacramento.recycle.game.

Need More Space?

- Break down boxes
- Crush cans and jugs
- Do not bag recyclables, keep them loose in the bin

Additional containers can be obtained at a reduced rate.

Interested in learning more about services and tips? Visit the SacRecycle YouTube channel for fun videos at youtube.com/@SacRecycle.

PLEASE NO

- Styrofoam or packing peanuts
- Food-soiled paper such as takeout containers or plates (many can go in the organic waste container!)
- Plastic shopping bags or plastic wrap
- Plastic mailers

Before throwing an item in the trash, check local resources for recycling or donation.

SORT SMART!

Use the Waste Wizard at sacrecycle.org.

Waste Wizard
RECYCLE WISE. SORT SMART.

ORGANIC WASTE SERVICES

(Formerly yard/green waste collection)

Curbside collection of organic waste in containers occurs weekly on your regular collection day. All residential properties in the City of Sacramento must use containers for organic waste collection. Leaf season is the only time that leaves and yard trimmings may be placed out on the street (see pages 12-13). **At no time should food scraps and food-soiled paper be included in yard waste piles that are part of leaf season.**

Customers who need additional organic waste service can order an additional container online at sac311.org.

ACCEPTABLE ORGANIC WASTE MATERIALS FOR CURBSIDE CONTAINER SERVICE

Leaves

Tree and shrub prunings

(limbs must be cut to 3 feet in length or less and no more than 4 inches in diameter)

Grass trimmings

Sod

(with dirt removed)

Food waste

(see page 8 for a list of food waste products that can be added to the organics container — formerly your yard/green waste container)

Food-soiled paper

(uncoated)

UNACCEPTABLE ORGANIC WASTE MATERIALS

Trash and plastic

Hoses, lumber and concrete

Pet feces

(put in garbage)

Tree stumps and limbs

(more than 4 inches in diameter)

Excessive amount of sand, dirt or gravel

**Where do these things go?
Find out with**

Waste Wizard
RECYCLE WISE. SORT SMART.

Organics Recycling Makes a Difference

Californians throw away nearly 6 million tons of food scraps each year. This food makes up 15-20 percent of all landfilled material and is a major reason why landfills create methane, a greenhouse gas more potent than carbon dioxide.

When organic matter is turned into compost or mulch, it creates healthy soil, conserves water, reduces erosion and reduces greenhouse gas emissions.

California State Senate Bill (SB) 1383 aims to reduce short-lived climate pollutants which produce methane, one of the fastest growing greenhouse gases in the atmosphere. Human activity, including agriculture, fossil fuels, and food waste is responsible for 2/3 of methane emissions.

Methane emissions cause air pollution, which can have negative effects on our respiratory systems, hearts and lungs. It's estimated such pollution causes over 1 million premature deaths annually.

The good news? Methane does not last long in the atmosphere, which means your efforts to reduce it can bring immediate benefits to human health and our climate.

Thank you for doing your part to reduce methane emissions by recycling your organics. Every time you dispose of your organic waste in the green bin, you are making a difference for your community and our planet.

For more information on SB 1383 visit [sacorganics.org](https://www.sacorganics.org).

ORGANIC WASTE SERVICES

WHAT GOES IN THE ORGANIC WASTE CONTAINER

- Fruit & vegetable scraps
- Bread, grains & pasta
- Coffee grounds
- Dairy products & eggshells
- Meat & bones
- Fish & shellfish
- Leftover food
- Coffee filters & paper tea bags
- Greasy pizza boxes
- Paper plates & takeout boxes (uncoated, no plastic or wax lining)
- Paper towels & napkins
- Wine corks (natural)

Don't contaminate!

Please remove all plastic and other wrapping from fruit and veggie scraps.

Not sure if something goes in the organics container?

Download the free **SacRecycle** app, available for iPhone and Android.

WHAT DOESN'T GO IN THE ORGANIC WASTE CONTAINER

- Plastic & plastic bags
- Liquids
- Pet waste
- Cat litter
- Diapers
- Diseased plants
- Treated or painted wood
- Styrofoam
- Wax-coated or plastic-lined takeout containers & cups
- Wax- or foil-lined paper cartons (including juice, soup & soy milk-type boxes)
- Single-use utensils
- Single-use coffee pods
- Ash or dirt
- Fats, oils and grease (F.O.G.)
F.O.G. should be poured into a container, sealed and disposed of in the trash bin. Compostable materials like pizza boxes or paper towels with a little grease on them can be put into the organics container. Learn more: cityofsacramento.gov/utilities/preventing-clogs/fat--oil-and-grease.

How to recycle your food waste

Use a small container or bowl to collect your food scraps. You can store it on your counter, under the sink, or in the refrigerator or freezer. Remove and put any twist ties, stickers, tags and plastic or metal wrappings from food scraps into the trash. When your indoor container is full, dump the food scraps in your curbside organics container.

Tips for preventing odor and pests

There are easy things you can do to keep your organics recycling odor and pest free both indoors and outdoors:

INDOORS

- **Drain excess liquid** from food waste before discarding
- **Freeze/refrigerate scraps** before adding to the organic waste container
- **Wait to put food scraps in the curbside container** until the night before collection
- **Wash container frequently** with soap and water
- **Sprinkle the inside with baking soda** to control odors
- **Use a compostable plastic or brown paper bag** to contain the scraps for disposal, or line container with food-soiled paper or newspaper. To be considered compostable, the bag must either be “BPI”-certified compostable or meet the “ASTM D6400” standard. For more information visit [sacorganics.org](https://www.sacorganics.org).

OUTDOORS

- **Layer items like grass, tree trimmings, etc.** on the bottom of your curbside container before adding food waste

ORGANIC WASTE SERVICES

Minimize the use of your garbage disposal

Garbage disposals increase waste that has to be treated at wastewater treatment plants, clog sewer lines and increase the amount of water used in your home.

Why are compostable utensils and plates not allowed in the organics container?

There are many different methods to creating nutrient rich compost from organic material. Single-use utensils, plates and takeout containers labeled compostable require a high-temperature process to break the items down. This type of processing is not yet available in the Sacramento region.

Still need a kitchen pail?

Check sacrecycle.org or email us at sacrecycle@cityofsacramento.org to request a kitchen pail. We've given away nearly 40,000 pails to City residents since June 2022. We are still giving away pails, one per household while supplies last!

Convenient pails are also available at a variety of retailers, or you can use a repurposed bowl or container for scraps.

Yolo County Composting Facility

SERVICE REQUESTS

We're here for you! Requests for services are at your fingertips 24 hours a day through the **Sac311** app and **sac311.org**. 311 call center hours are 7 a.m.–7 p.m.

Use the **Sac311** app
for iPhone or Android

Make an online request
at **sac311.org**

SCHEDULE A PICK-UP FOR:

- Household junk
- Appliances and e-waste
- Motor oil and filters

FIX OR REPLACE FOR FREE:

- A broken or missing garbage,
organic waste or recycle container

REPORT:

- A missed pickup (collection occurs between 6 a.m. and 2 p.m.)
Note: Missed pickups should be reported within two business days or collection may not occur until the next regular collection day.

STREET SWEEPING

Street sweeping not only keeps streets looking neat, it also prevents debris from entering storm drains, causing street flooding and damage to our waterways.

City streets are swept monthly from February through October. The schedule may be subject to change, and the City's online collection calendar includes up-to-date street sweeping days for each service address. To make sure you won't miss a sweeping day, register to receive a text or email alert the day before service occurs by using the **SacRecycle** app or visiting **sacrecycle.org**. Click on "Collection Calendar" to see when your street will be swept.

LEAF SEASON

Residential customers who receive organics service* can legally place yard waste piles in the street for collection during the City's designated leaf season.

Residents will receive at least seven on-street collections during leaf season. Weekly curbside collection of containerized yard waste continues during leaf season. Residents are urged to continue to use the weekly container service along with on-street collection.

Leaf piles can include any acceptable yard waste materials from page 6 except food waste and food-soiled paper, which go in the organic waste container.

Resources dedicated to leaf season pickup service are re-allocated during the rest of the year. For pickup of excess organic waste outside of leaf season, residents may use a complimentary Household Junk Pickup. Learn more about this service at cityofsacramento.gov/public-works/recycling-solid-waste/Collectionservices/service_requests/household_junk_pickup.

**Leaf season service is only for customers on public streets and rights-of-way where there is a curb and/or gutter. Customers on private streets or who participate in the food-waste-only service may not put yard waste in the street at any time.*

Visit our Collection Calendar to see the estimated service window for your neighborhood, including the approximate first and last days piles may be set out. Actual collection timing may shift as crews adjust to operational conditions.

COLLECTION CALENDAR

FILL YOUR CONTAINER FIRST!

Recycling & Solid Waste stops by **weekly** to collect containers, but leaf pile collections may occur **weeks apart** as service can be delayed by weather and other factors.

TIPS FOR PREPARING YOUR YARD WASTE:

1 Fill the container first

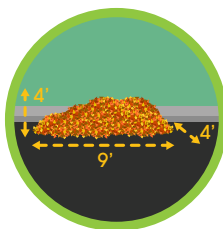

2 Then pile

More than 61 million pounds of yard waste is collected during leaf season and almost half that material is picked up during weekly container service. **We can remove material off the street faster when residents use both the container and the pile.**

HAVE A PILE WITH STYLE!

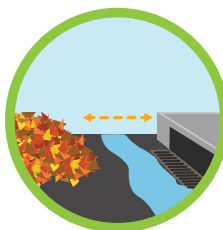

1 Piles may not be more than 4ft x 4ft x 9ft per household

2 Place the pile six feet from any obstruction (cars, boats, basketball hoops, etc.) and out of bike lanes

3 Make sure there is space between the curb and the pile to allow water to flow to storm drains

4 Do not put leaves in plastic bags

5 Never put food waste or pet waste in a pile

REPORT ILLEGAL DUMPING

**Report Illegal
Dumping**
SEE • REPORT • CALL 311

SEE IT – REPORT IT

If you see a pile of junk or debris on the street – **don't wait** – report it. **Call 311** or **(916) 264-5011**, or use the **Sac311** app for iPhone or Android. The faster it is reported, the sooner enforcement and removal can begin. Provide an accurate location with an address or cross street.

DUMPING IN PROGRESS

If you witness dumping in progress note the license plate, vehicle make and model, and description of individuals involved in the dumping and **immediately call 311 to file a report.**

CASH REWARDS PROGRAM

The City offers \$500 to \$1,000 to citizens providing information about illegal dumpers, **which results in either a citation or an arrest and conviction.** Call **311** if you have information that can be used to catch illegal dumpers.

Citizens who report illegal dumpers can remain anonymous but must sign a sworn statement to be eligible for the reward.

More information on the rewards program can be found at **cityofsacramento.gov/illegal-dumping-rewards.**

CONVENIENT SERVICES AT YOUR DOOR

You can schedule **all RSW appointment services** at **sac311.org**, by using the **Sac311** app or by calling **311**. Please note, different equipment and crews are used to collect appliances and junk.

Appliances and household junk will most likely be picked up on different days, which may not be your standard collection day. If you plan to schedule both at the same time, please make an appointment for each.

To request an appointment for either household junk or appliances and e-waste, do one of the following:

Make an online request at **sac311.org**

Use the **Sac311** app for iPhone or Android

Call **311** or **(916) 264-5011**

APPLIANCE & E-WASTE PICKUP

COLLECTION AVAILABLE YEAR-ROUND

All residential customers can schedule **two appointments** for appliance and e-waste collection in a calendar year. These appointments are in addition to the two scheduled household junk appointments offered February – October.

The City will collect up to **two major appliances** per pickup:

- Washers/dryers
- Refrigerators
- Hot water heaters
- Dishwashers
- Furnaces
- Air conditioners, etc.

The City will collect up to **four e-waste items** per pickup:

- TVs
- DVD players
- Computers
- Small appliances such as toasters, vacuums, space heaters, etc.
- Printers, etc.

There is a minimum weight of at least 10 pounds per pickup. Items should be placed out no more than 24 hours in advance of your scheduled appointment*. Items placed out prior to this are considered illegal dumping and fines may be issued. Items should be placed in the street.

**All appointment cancellations or reschedule requests should be made by 5 p.m. two business days prior to the scheduled appointment date. Failure to cancel may result in a charge for additional appointments during the calendar year. Please note, if an appointment is scheduled and not canceled before the pickup date, the customer's account will be charged for one free pickup.*

APPOINTMENT PROGRAMS

HOUSEHOLD JUNK PICKUP

All residential customers can schedule **two appointments** — between February and October — for the free pickup of acceptable bulky items, **including excess yard waste**. Note, appointments are no longer being accepted in mid- to late-October to accommodate leaf season. The City will collect up to **five cubic yards** of material (4ft x 4ft x 9ft) per appointment, which is approximately the amount that will fit in the bed of a pickup truck.

Extra charges may apply if the load exceeds five cubic yards. **Do not place junk out for collection more than 24 hours before your appointment, or without an appointment.** Doing so will be considered illegal dumping and fines may be issued. For questions call **311** or **(916) 264-5011**. If you provided your email address to 311 when you made the appointment, check your email for confirmation and details about your appointment.

Appliances require a separate appointment and should not be put out with a junk appointment. See page 15 for the Appliance & E-Waste Pickup program.

WHAT CAN I PUT OUT FOR PICKUP?

✓ ACCEPTED

- Furniture
- Mattresses/box springs
- Carpet
- Toys
- Pipe (up to 6 ft)
- Wood/lumber (up to 6 ft, untreated only)
- Tires (up to 4, unmounted only)
- Car rims (up to 4)
- Yard waste

⊘ NOT ACCEPTED

- Appliances/E-waste* (See page 15 for appliance disposal)
- Hazardous waste*
- Explosives
- Radioactive material/biohazards
- Gas canisters*
- Paint*
- Construction debris (i.e. dirt, rock, rubble, concrete)
- Tires still mounted on the rim
- Treated wood waste**

*These items can be taken to the City's Household Hazardous Waste Facilities, located at the Sacramento Recycling and Transfer Station, 8491 Fruitridge Road, Sacramento, California 95826 and the North Area Recovery Station, 4450 Roseville Road North Highlands, California 95660.

**Treated wood and fencing is not accepted. Learn more about how to dispose of treated wood waste at cityofsacramento.gov/public-works/recycling-solid-waste/Householdhazardouswaste/treated_wood_waste.

RECYCLING USED MOTOR OIL AND FILTERS

Motor oil poured onto the ground or into storm drains, or tossed into trash cans (even in a sealed container) can contaminate and pollute the soil, groundwater, streams and rivers.

THERE ARE THREE CONVENIENT WAYS TO RECYCLE USED MOTOR OIL AND FILTERS FOR FREE:

- 1 Certified Collection Centers such as Autozone, Jiffy Lube, O'Reilly Auto Parts, Pep Boys and others will take used motor oil from the public and may pay you 40¢ a gallon by request. Most centers will take up to five gallons at a time.
- 2 Take used motor oil and filters to any Household Hazardous Waste Facility located within Sacramento County (see page 18).
- 3 City of Sacramento residents can schedule a Curbside Used Oil and Filter Recycling Appointment.

CURBSIDE USED OIL AND FILTER RECYCLING BY APPOINTMENT:

- 1 Go to sac311.org or use the **Sac 311** app for iPhone or Android to schedule an appointment for collection. Appointments can be scheduled up to 24 hours before the next regularly scheduled recycling day. Maximum of two gallons per appointment.
- 2 Place used motor oil in a clear one gallon jug with screw on lid. Secure lid with tape.
- 3 Place oil filter in a sealable plastic bag (Ziploc or use twist ties).
- 4 Place items on the edge of your driveway, close to the sidewalk, so they are visible by 6 a.m. on your appointment day.

Note: NEVER contaminate used oil by mixing with other auto fluids or water.

DROP-OFF PROGRAMS

HOUSEHOLD HAZARDOUS WASTE

Products such as paint, cleaners, oil, batteries and pesticides require special care and may not be thrown in your residential waste containers. These products may contain corrosive, toxic, ignitable or reactive ingredients and are considered Household Hazardous Waste (HHW).

✓ ACCEPTED HOUSEHOLD HAZARDOUS WASTE

- Most products labeled DANGER, CAUTION, WARNING, FLAMMABLE, or POISON
- Acids and bases
- Aerosol cans
- Antifreeze
- Automotive products
- Batteries
- Brake/transmission fluid
- Car batteries (lead acid/car, 6 volt or more)
- Electronic waste (has a plug or runs on batteries)
- Flares
- Fluorescent lamps/tubes
- Gasoline and other flammables
- Herbicides
- Household batteries
- Household cleaners
- Kitchen oils
- Mercury thermometers
- Paint thinners
- Paints (oil-based or latex)
- Pesticides
- Pool chemicals
- Propane cylinders
- Sharps (needles, lancets) **REQUIRES SPECIAL HANDLING** (see Sharps to the right)
- Used motor oil and filters
- Solvents
- Vape pens, e-cigarettes

Household Hazardous Waste can be taken to the following locations, free of charge (maximum of 15 gals or 125 lbs. per trip):

CITY OF SACRAMENTO

Sacramento Recycling and Transfer Station HHW Facility

8491 Fruitridge Road, Sacramento, California 95826
(916) 737-4880 / Tuesday–Saturday / 8 a.m.–5 p.m.

SACRAMENTO COUNTY

North Area Recovery Station HHW Facility

4450 Roseville Road, North Highlands, California 95660
(916) 875-5555 / Tuesday, Thursday, Friday and Saturday / 8:30 a.m.–4 p.m.

Kiefer Antifreeze, Batteries, Oil, Paint (ABOP) & Special Waste Drop-Off Facility

12701 Kiefer Boulevard, Sloughhouse, CA 95683
(916) 875-5555 / Tuesday–Saturday / 8:30 a.m.–4 p.m.

City of Elk Grove Special Waste Collection Center (SWCC)

9255 Disposal Lane, Elk Grove, California 95624
(916) 627-3232 / Wednesday–Sunday / 9 a.m.–4 p.m.

Drop-off Locations for Residential Household Batteries:

Many city community centers serve as drop-off locations for household batteries. For a complete list, visit sacrecycle.org.

Sharps (needles, lancets): Hypodermic needles, pen needles, intravenous needles and lancets require special handling. Place them in an approved sharps container or use a strong plastic container that has a small opening on top with a screw cap lid to prevent punctures. It must be labeled “sharps” for technician protection in permanent marker or on tape adhered to it. Examples include: a plastic bleach jug, plastic liquid detergent bottle or any plastic container labeled #5. They can be taken to a HHW facility. Call **311** or visit sacrecycle.org for information on safe disposal.

Paints (oil-based or latex): Many retailers now take back the products they sell. Get complete details at PaintCare.org/locator.

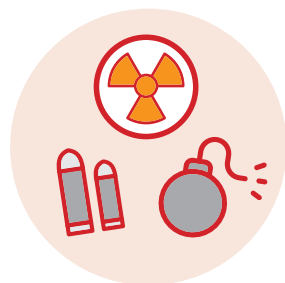

Unused Medications: Medications should never be flushed down the toilet. **All major retail pharmacies in California should have medication takeback receptacles.** To find drop-off locations in Sacramento or to order mail-back supplies, go to MedTakeBackCalifornia.org and enter your zip code.

UNACCEPTABLE HOUSEHOLD HAZARDOUS WASTE

- Air bags
- Ammunition
- Asbestos
- Compressed gas cylinders (except propane and handheld aerosol cans)
- Contractor or business waste (must call to make an appointment)
- Explosives and fireworks
- Infectious waste
- Medical waste (except sharps)
- Medications
- Radioactive materials
- Reactive waste
- Treated wood (railroad ties, fence posts, decking)

SERVICE ALERTS

DOWNLOAD THE APPS

Download the **SacRecycle** app for easy access to collection information including what can be recycled and how to manage plastic and hazardous waste. For your convenience, the app is accessible in whatever language your smart phone uses. For service requests, such as a container repair, obtaining a new container or notifying the City about a missed pickup, please use the **Sac311** app or go to www.sac311.org.

@sacrecycle

WE WANT YOU TO STAY CONNECTED

Check out our social media channels. Get current news, information, pictures, and upcoming event dates on our Facebook, X and Instagram pages.

GET SERVICE ALERTS ABOUT YOUR COLLECTION

Be the first to know if there will be a change to your collection day. Download the **SacRecycle** app or visit sacrecycle.org and click on “Collection Calendar” to sign up for service reminders and alerts.

- Get weekly reminders for your collection day via the **SacRecycle** app or by text or email.
- Get service alerts if there will be collection changes or delays due to road closures, weather impacts or other issues.
- Customize the day and time you want to receive your reminders.
- Download your schedule to a calendar app or print it for easy reference. Calendars do change; you should download a new calendar every few weeks.
- Calendars are specific for each customer's address.
