

# Sacramento Vision Zero Action Plan Update

Task Force Meeting #4

February 12, 2026

# Agenda

1

## Welcome

- Introductions
- Recap status of project
- Purpose of today's meeting

2

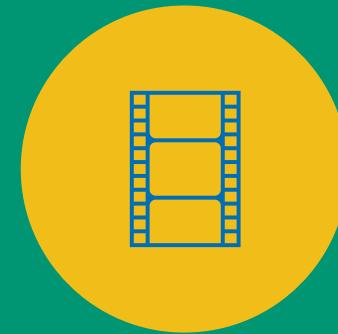

## Draft Prioritized Actions

- Approach to Identifying Actions
- Approach to Prioritizing Actions
- Review Draft Actions & Discuss in Small Groups
- Reconvene to Recap as a Large Group

# Welcome

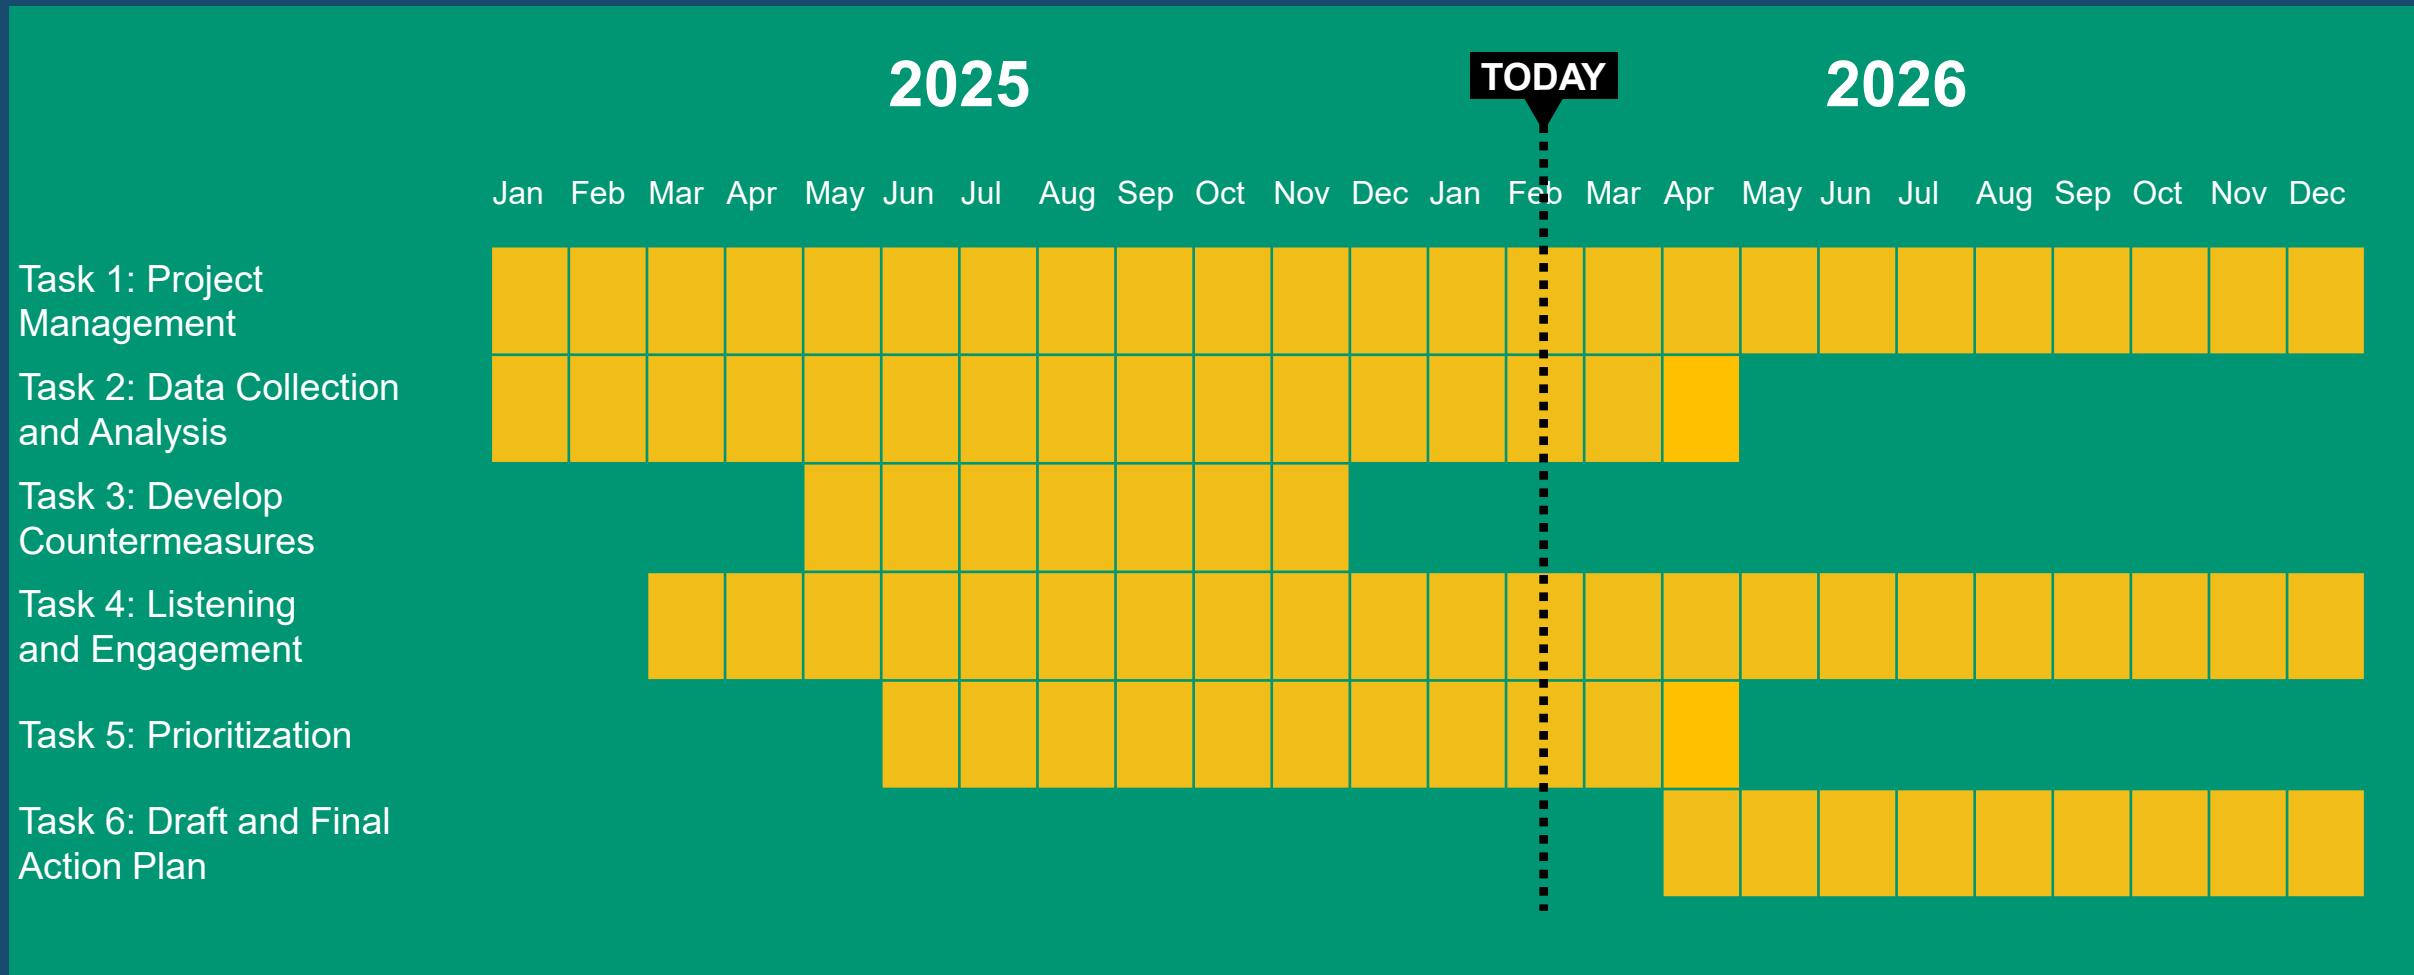

What's your name  
& organization?

What's your favorite  
movie?

# Project Status

# Purpose of Today's Meeting

Discuss Draft Prioritized Actions

# Draft Prioritized Actions

# What are “actions” & how were they developed?

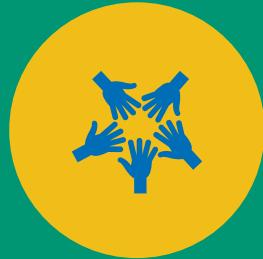

Actions are listed in the Vision Zero Action Plan to give direction to the City and other agency partners on what specific projects, policies, and programs they should advance to improve safety outcomes in Sacramento.

The draft actions presented here are based on crash analysis, review of existing practices, and industry resources on how to improve safety.

# What criteria were used to prioritize draft actions?

Effectiveness at Reducing Fatal & Severe Injury Crashes

Partnerships Required to Implement

Cost to Implement

# Let's look at the current draft actions & priorities

Over the next few slides, we will provide an overview of the draft actions and priorities assigned to them.

After that overview, in small groups, we would like you to discuss:

- (1) Are there topics not addressed that you think should be added?
- (2) Are there specific actions or types of action you think should be given higher priority?

# Overview: Draft Actions & Priorities

| Types of Actions         | High Priority | Medium Priority | Low Priority |
|--------------------------|---------------|-----------------|--------------|
| New Process              | -             | 5               | 2            |
| Modify Existing Process  | 6             | 2               | -            |
| New Program              | -             | -               | 1            |
| Modify Existing Program  | -             | 1               | -            |
| Implement Street Changes | 6             | 4               | -            |
| Education                | -             | 1               | 1            |
| Advocacy for Legislation | -             | 1               | -            |
| New Data                 | -             | -               | 1            |
| <b>Total</b>             | <b>12</b>     | <b>14</b>       | <b>5</b>     |

# Draft Actions & Priorities

HIGH

| ID # | Type of Action           | Draft Action Description   | Draft Priority |
|------|--------------------------|--|----------------|
| 1    | Modify Existing Process  | Continue to incorporate safety priority projects (i.e., Top 10 Corridors) into the CIP project list and integrate the updated High-Injury Network into the TPP Scoring Process.                        | High           |
| 2    | Modify Existing Process  | Review CIP list to identify opportunities where posted speed limits could be lowered consistent with new state law that makes it easier to lower posted speed limits.                                  | High           |
| 3    | Implement Street Changes | Consistent with new state law, identify Business Activity Districts across the City (e.g., the downtown grid) and establish <i>prima facie</i> speed limits of 20 mph.                                 | High           |
| 4    | Modify Existing Process  | Modify the City's Project Report template to include a section on safety, description of responsive and proactive opportunities to improve safety, and how the concept plan will address these issues. | High           |

# Draft Actions & Priorities

HIGH

| ID # | Type of Action           | Draft Action Description  | Draft Priority |
|------|--------------------------|---|----------------|
| 5    | Implement Street Changes | Complete sidewalk gaps identified as priority in the Streets for People Plan that are prioritized through the TPP.  | High           |
| 6    | Implement Street Changes | Continue developing designs and securing grant funding for the Top 10 priority corridors identified in the 2018 Action Plan, with a focus on roadway designs for reduced speeds and in Areas of Persistent Poverty.   | High           |
| 7    | Implement Street Changes | Complete [#] projects that separate severe vehicle-vehicle conflicts as well as vehicle-people or vehicle-bike conflicts at intersections.  | High           |
| 8    | Modify Existing Process  | Update City street design standards to reflect complete streets and designs reflective of reducing exposure, likelihood, and severity (i.e., the three components that influence risk of severe crashes). Include review and enhancement to City's roundabout policy (section 15.11). | High           |

# Draft Actions & Priorities

HIGH

| ID # | Type of Action           | Draft Action Description  | Draft Priority |
|------|--------------------------|---|----------------|
| 9    | Modify Existing Process  | Update City Traffic Signal Operations Manual (TSOM) to reflect complete streets and designs reflective of reducing exposure, likelihood, and severity. Include application of Leading Pedestrian Intervals, No Right Turn on Red, Protected Left-Turn Phasing, Rest on Red, and other similar strategies. | High           |
| 10   | Modify Existing Process  | Help advance discussions about how to change the way in which lighting and landscaping is funded and implemented in the City with the purpose of making it easier to enhance street lighting to improve visibility throughout the HIN.  | High           |
| 11   | Implement Street Changes | Implement red light running camera program.   | High           |
| 12   | Implement Street Changes | Continue the Vision Zero Tactical Action Group (TAG) with a focus on responding to KSI crashes.   | High           |

# Draft Actions & Priorities

MEDIUM

| ID # | Type of Action           | Draft Action Description  | Draft Priority |
|------|--------------------------|---|----------------|
| 13   | New Process              | Create a Speed and Conflict Management Plan. It would identify desired slow speed for each City street, strategies for slowing vehicle speeds to desired speeds; and strategies for managing conflicts. | Medium         |
| 14   | Modify Existing Process  | Work with transit agencies to evaluate stop placement and access, confirm stops are at logical crossing locations, and implement the S4P plan to improve transit stop access.                           | Medium         |
| 15   | Implement Street Changes | Continue building the separated bikeway network consistent with the Streets for People Plan.  | Medium         |
| 16   | Implement Street Changes | Install at least [#] pedestrian crossing treatments on the HIN. Including at least [#] within a 0.25 miles of parks and schools and at least [#] within 0.25 miles of bus/transit stops.                | Medium         |

# Draft Actions & Priorities

MEDIUM

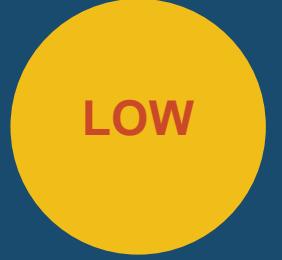

| ID # | Type of Action           | Draft Action Description   | Draft Priority |
|------|--------------------------|--|----------------|
| 17   | New Process              | Regularly update online, interactive crash data map, dashboard, and website.   | Medium         |
| 18   | Implement Street Changes | Install [#] low-cost safety improvements per year, including new road markings, signs, and minor signal modifications per year including, at least one [low-cost or pilot project engineering countermeasure project] in a neighborhood-serving commercial area each year. | Medium         |
| 19   | New Process              | Develop a driveway closure program on High Injury Network commercial corridors.  | Medium         |
| 20   | Modify Existing Process  | Include Vision Zero on agendas for all transportation-related City sponsored meetings and education opportunities such as the Planning Academy.  | Medium         |
| 21   | New Process              | Convene regular meetings of departmental representatives and the Vision Zero Task Force to coordinate Vision Zero efforts, including education and engagement after the VZAP is adopted.   | Medium         |

# Draft Actions & Priorities

MEDIUM

| ID # | Type of Action           | Draft Action Description   | Draft Priority |
|------|--------------------------|--|----------------|
| 22   | Education                | Develop and release a press release or similar to encourage media professionals to improve how they report on traffic crashes and roadway safety.  | Medium         |
| 23   | New Process              | Establish quarterly Vision Zero meetings with the City's Public Works, Police, and Fire Departments.   | Medium         |
| 24   | Modify Existing Program  | Encourage RT to expand free or subsidized transit fares during holidays and for special events to reduce exposure (i.e., vehicle miles traveled) and potential incidences of DUIs.           | Medium         |
| 25   | Advocacy for Legislation | Support legislation on Automated Speed Enforcement allowances in Sacramento.   | Medium         |
| 26   | Implement Street Changes | Complete [#] projects focused on reducing vehicle speeds on arterials and separating severe conflicts at intersections using signal phasing and timing changes to accelerate implementation. | Medium         |

# Draft Actions & Priorities

LOW

| ID # | Type of Action | Draft Action Description   | Draft Priority |
|------|----------------|--|----------------|
| 27   | New Process    | Publish an annual report to measure progress against the goals of the Action Plan.   | Low            |
| 28   | New Program    | Launch high-visibility enforcement campaigns to slow vehicle speeds, encourage yielding to pedestrians, increase awareness about traffic safety near transit stops, schools, and parks. Campaigns will focus on HIN corridors. | Low            |
| 29   | New Data       | Study opportunities to purchase and use Big Data such as speed data, hard braking data, and/or near-miss data to analyze safety trends.  | Low            |
| 30   | New Process    | Create Curb Management guidelines to provide safety at the curb with existing and emerging mobility options (AVs).   | Low            |
| 31   | Education      | Develop a continuing marketing campaign for transportation safety focused on key behaviors (impaired driving, driving at unsafe speed, driving speed limit, etc).  | Low            |

# Small Group Discussion

- (1) Are there topics not addressed that you think should be added?
- (2) Are there specific actions or types of action you think should be given higher priority?

# Large Group Recap

- (1) Are there topics not addressed that you think should be added?
- (2) Are there specific actions or types of action you think should be given higher priority?

# Next Steps

# Next Steps...

## Joint Working Meetings with TAC

Do you have specific topics or suggestions for us to consider?

Options include quick build projects, education strategies, implementation partnerships....
