Pet Phone Stand | Template

DOG PHONE STAND

Little friends help you go hands-free as you FaceTime with Grandma!

WHAT YOU'LL NEED

- Toilet-paper tubes
- Gesso (optional, for brighter color)
- Craft paint

WHAT TO DO

1. Cut out the template, wrap it around the tube, lightly tape, and trace. Cut out the shape. We recommend cutting all the vertical lines first (the back and ears). Creasing the flaps along the horizontal lines will make them easier to trim.

2. If desired, coat with gesso; let dry. Paint a color; let dry. Add the features and let dry.
