

O'Neil Park Restroom Replacement (June 2024)

The existing restroom building was replaced with a prefabricated 2-stall 202 s.f. masonry restroom, with metal roof and doors, automatic locks and panic hardware, epoxy coated floors, two drinking fountains and a water bottle filler, stainless steel restroom fixtures, baby changing stations, accessible hardware, interior and exterior LED lighting, skylights, window screens, accessible walkway, gates and fencing, and water, sewer, and electrical connections.
