

# Oakbrook Park Community Garden (January 2025)

The Oakbrook Park Community Garden in South Natomas covers half an acre and features a variety of elements for community use. It includes forty-six 15'x15' garden plots, six accessible raised plots, and two communal plots for herbs and flowers. Additionally, the garden has six fruit trees, a hose bib irrigation system, and a 10'x12' tool shed equipped with a notice board. For relaxation, there is a picnic area with a colored concrete seat wall adorned with Talavera tiles. The garden also offers five compost bins and has decomposed granite paving throughout its pathways and is enclosed by a 6-foot chain link fence. The entrance is marked by an archway with a community garden sign, and maintenance gates, along with a widened entrance walkway for easy access.
