# EDUCATION, RECREATION, AND CULTURE

The City of Sacramento recognizes the importance of providing quality education, cultural services, and recreation and parks in making Sacramento a great place to live and do business. Access to education, good jobs, active recreational opportunities, and participation in the arts enhances the city's livability for residents. In addition, a skilled workforce and an engaging cultural environment are important in attracting new industries to the community to keep the city's economy healthy.

CALIFORNIA STATE  
UNIVERSITY SACRAMENTO

# Education

Policies in this section provide for the development of new schools commensurate with population growth that are accessible from every neighborhood. Opportunities for life-long learning are encouraged, enabling Sacramento's residents to obtain skills to meet the needs of evolving business sectors. Schools are encouraged to be located and designed to serve as a centerpiece of neighborhood identity and activity.

## GOAL ERC 1.1

**Efficient and Equitable Distribution of Facilities.** Provide efficient and equitable distribution of quality educational facilities for life-long learning and development of a highly skilled workforce that will strengthen Sacramento's economic prosperity.

### Policies

**ERC 1.1.1 School Locations.** The City shall work with school districts at the earliest possible opportunity to provide school sites and facilities that are located in the neighborhoods they serve. *(IGC)*

**ERC 1.1.2 Locational Criteria.** The City shall continue to assist in reserving school sites based on each school district's criteria and the school siting guidelines of the California Department of Education and on the City's following location criteria:

- Locate elementary schools on sites that are safely and conveniently accessible, and away from heavy traffic, excessive noise, and incompatible land uses.
- Locate school sites centrally with respect to their planned attendance areas.
- Locate schools in areas where established and/or planned walkways, bicycle paths, or greenways link schools with surrounding uses.
- Locate, plan, and design new schools to be compatible with adjacent uses. *(RDR/IGC)*

**ERC 1.1.3 Schools in Urban Areas.** The City shall work with school districts in urban areas to explore the use of existing smaller sites to accommodate lower enrollments, and/or higher intensity facilities (e.g., multi-story buildings, underground parking, and playgrounds on roofs). *(IGC)*

# Parks and Recreation

Policies in this section provide for the maintenance of existing facilities and for the development of new parkland, facilities, and programs throughout the city to enable access from neighborhoods. In higher density areas, such as downtown, small public places will be developed to support the lifestyle and needs of residents. In addition, Sacramento's riverfronts and natural open spaces will be linked to enhance opportunities for walking, bicycling, picnicking, participating in water sports, and appreciating natural open spaces and conservation areas. Access to a broad range of recreational activities is important to improving public health through exercise. The location of schools and their recreational facilities can serve as a focal point of neighborhood identity and activity. Parklands also help to sustain natural environmental resources by providing landscapes that absorb greenhouse gases, produce oxygen, and filter pollutants into the groundwater basin.

## GOAL ERC 2.1

**Integrated Parks and Recreation System.** Provide an integrated system of parks, open space areas, and recreational facilities that are safe and connect the diverse communities of Sacramento.

*See LU 9, Open Space, Parks, and Recreation, for additional policies on parks and recreation facilities and locations.*

For new development in urban areas where land dedication or acquisition is constrained by a lack of available suitable properties (e.g., the Central City), new development shall either construct improvements or pay fees for existing park and recreation enhancements to address increased use.
